INTRODUCTION

The County of Orange, California (the "County"), hereby provides its annual report (the "Annual Report") for the Fiscal Year ended June 30, 2022 in connection with the following Bonds:

Bond Issue:

California Municipal Finance Authority, Lease Revenue Bonds, Series 2017A (Orange County Civic Center Infrastructure Program – Phase I), dated June 22, 2017 (the "2017A Bonds") and California Municipal Finance Authority, Lease Revenue Bonds, Series 2018A (Orange County Civic Center Infrastructure Program – Phase II), dated December 13, 2018 (the "2018A Bonds" and, together with the 2017A Bonds, the "Bonds").

Annual Report:

The County's Annual Report required by the Continuing Disclosure Certificate dated June 22, 2017 with respect to the 2017A Bonds and the Continuing Disclosure Certificate dated December 13, 2018 with respect to the 2018A Bonds (the "Disclosure Certificates") for the Fiscal Year ended June 30, 2022 is attached hereto and includes the County's audited financial statements for Fiscal Year ended June 30, 2022 in Exhibit A.

Other Matters:

This Annual Report is provided solely for purposes of the Disclosure Certificates. The filing of this Annual Report does not constitute or imply any representation (i) that all of the information provided is material to investors, (ii) regarding any other financial, operating or other information about the County or the Bonds, or (iii) that no changes, circumstances or events have occurred since the end of the Fiscal Year to which this Annual Report relates (other than as contained in this Annual Report), or that no other information exists, which may have a bearing on the County's financial condition, the security for the Bonds, or an investor's decision to buy, sell, or hold the Bonds. The information contained in this report has been obtained from sources which are believed to be reliable, but such information is not guaranteed as to accuracy or completeness. No statement in this Annual Report should be construed as a prediction or representation about future financial performance of the County.

SECTION 4 – CONTENT OF ANNUAL REPORT

A. Audited Financial Statements for Fiscal Year Ended June 30, 2022

The County's Audited Financial Statements for Fiscal Year 2021-2022 are included herein as Exhibit A.

B. Financial and Operating Data

1. The Final Budget of the County for the current Fiscal Year in the form of Table A-6 in Appendix A to the Official Statements.

Decreases to Reserves (16)	34,925,009	17,464,217	-	-
Total Available Funds	\$4,352,280,763	\$4,500,867,054	\$4,602,600,331	\$4,905,795,577

- (1) Final Budgets include all budget adjustments throughout the year after budget adoption. Modified Budget was approved by the Board of Supervisors on January 24, 2023.
- Fiscal Year 2020-21 increase in appropriations are due to additional State and Federal funding for the COVID-19 pandemic.
- (3) Fiscal Year 2022-23 increase in appropriations are due to increases in salaries and employee benefits and additional staffing in the Infrastructure & Environmental Resources departments. OC Public Works added 77 positions due to reorganization from other departments to OC Public Works.
- (4) Fiscal Years 2021-22 and 2022-23 increase are due to one-time American Rescue Plan Funding received in May 2021 (\$308 million) and budgeted to receive in May 2022 (\$308 million). Fiscal Year 2022-23 budget includes carry-over from May 2021 and May 2022.
- (5) Effective Fiscal Year 2020-21, capital projects are budgeted in non-general funds 15D (Countywide Capital Projects) and 15I (Countywide IT Projects). Remaining general fund reflects the Net County Cost allocation for the countywide IT and capital projects. Fiscal Year 2022-23 decreased by \$5.9 million as a result of reallocating debt service and parking costs to user departments in other programs.
- (6) Effective Fiscal Year 2020-21, debt service payments for the new County Administration South (CAS) facility and revenue from CAS user departments are budgeted in Budget Control 019. Effective Fiscal Year 2021-22, CAS related rent revenue reclassified to cost applies.
- Fiscal Year 2019-20 budget included Coronavirus Aid, Relief, and Economic Security (CARES) Act appropriations and revenue of \$554 million in Budget Control 004 (Miscellaneous). Fiscal Year 2020-21 budget includes \$6 million for CARES Act and one time \$138 million transfers for James A. Musick Facility and other capital and information technology projects. Fiscal Year 2021-22 budget includes \$128 million from Federal Emergency Management Agency (FEMA) revenue and transfer out to general fund 100 reserves. Fiscal Year 2022-23 excludes all one-time transfers.
- (8) Property tax revenue reflects the market trend and increased assessed values.
- (9) Sales and Other Taxes were budgeted as a decrease in Fiscal Year 2020-21 due to COVID-19 pandemic. Fiscal Years 2021-22 and 2022-23 reflects no reduction due to COVID-19 pandemic.
- Fiscal Year 2021-22 decrease in Fines, Forfeitures & Penalties are due to loss of revenue Probation and Trial Courts for court related fines and penalties offset by slight increase in property tax penalties.
- Changes in Use of Money & Property are the result of changes in interest earnings from increases or decreases of cash balances. In Fiscal Years 2021-22 and FY 2022-23, budgeted general fund interest earnings decreased due to decreases in treasury interest earnings.
- Fiscal Years 2019-20, 2020-21 and 2021-22 increase in revenue is due to additional State and Federal funding for the COVID-19 pandemic. In FY 2022-23 additional Federal Disaster Revenue was anticipated to reimburse for prior year expenses; also, state realignment revenue was anticipated to increase.
- (13) Charges for services align with cost of services to County non-general fund departments, city contracts for Sheriff security services, correctional medical services, and charges from Health Care Agency for mental health services.
- (14) Fiscal Year 2020-21 budget includes \$10 million from Orange County Employees Retirement System (OCERS) investment account. Fiscal Year 2021-22 budget includes \$20 million draw from OCERS investment account plus \$1.1 million discount from OCERS. Fiscal Year 2022-23 does not include this draw from OCERS.
- Other Financing Sources is comprised of operating transfers from other funds within the County including transfers from the Teeter Program and departmental transfers from Non-General Funds for the reimbursement of program expenditures. Effective Fiscal Year 2020-21, all carryover capital projects are budgeted in non-general fund 15D and 15I. Fiscal Year 2021-22 budget includes \$128 million in one-time FEMA revenue.
- While budgeted as a reserve decrease in Fiscal Years 2019-20 and 2020-21, by \$34.9 million and \$17.5 million respectively, there was an actual decrease in Fund Balance, of \$3.2 million and \$7 million respectively, for these two fiscal years. Fiscal Year 2021-22 budget includes increase in reserves for repayment of prior year FEMA claims. Fiscal Year 2022-23 budget includes increase to reserves to increase the Budget Stablization Reserve.

The Notes to the County's Basic Financial Statements are an integral part of this table and can be found in the County's Annual Comprehensive Financial Report for Fiscal Year Ending June 30, 2022 in Exhibit A of this Annual Report.

See Note 1 in the "Notes to the County's Basic Financial Statements Fiscal Year Ended June 30, 2022" in Exhibit A of this Annual Report.

Includes an amount equal to pension obligation bonds sold to prepay the subsequent year's pension obligations, which are reserved as nonspendable as a "prepaid cost". Pension prepayments represent \$395 million for Fiscal Year 2019, \$459 million for Fiscal Year 2020, \$479 million for Fiscal Year 2021, and \$516 million for Fiscal Year 2022. As a result, GASB 54 presentation does not represent the County's budgetary and financial planning allocation of fund balance.

ORANGE COUNTY TREASURER INVESTMENT POLICY STATEMENT

PURPOSE

This policy provides the structure for the prudent investment of the cash balances entrusted to the Orange County Treasurer (Treasurer) with the objective of maximizing cash management efficiency to meet the daily cash flows of Orange County (County), the School Districts, Community College Districts, voluntary participants and other County related agency funds. The Treasurer's Investment Policy Statement (IPS) is approved annually by the County Board of Supervisors as required by California Government Code Section 53646 (a) (1) and reviewed annually by the Treasury Oversight Committee, pursuant to the requirements of California Government Code Section 27133. (All references are to the California Government Code unless otherwise stated.)

I. POLICY STATEMENT

The investment practices and policies of the Treasurer are based on compliance with State law and prudent money management. The primary goal is to invest public funds in a manner that will provide the maximum security of principal invested with secondary emphasis on providing adequate liquidity to pool participants and lastly to achieve a market rate of return within the parameters of prudent risk management while conforming to all applicable statutes and resolutions governing the investment of public funds.

The Orange County Investment Fund (OCIF), which includes all cash balances entrusted to the Treasurer as noted above, is designed to meet both the investment and cash requirements of our participants. If separate funds are established, the Treasurer shall determine on a cash flow basis what percent of available cash will be invested in each fund.

II. SCOPE

The IPS scope applies to all financial assets as indicated in II.1 below.

1. FUNDS

The Treasurer is responsible for investing the cash of the OCIF, defined as all monies under the investment authority of the Treasurer, including funds, and subsets of funds for the Orange County Department of Education. It does not include the County employee's pension and medical trust funds which are invested separately by Orange County Employees Retirement System (OCERS), and those funds that are invested separately by the County Treasurer under bond indenture agreements. The County Funds are reported in the County's Annual Comprehensive Financial Report (ACFR) and include:

- Governmental Funds, including the General Fund
- Enterprise Funds
- Fiduciary Funds
- Any other funds or new funds created by the County, unless specifically exempted

a) Pooled Funds:

The pooled funds name is the Orange County Treasurer's Pool (OCTP). County treasuries operate in the public interest when they consolidate banking and investment activities, reduce duplication, achieve economies of scale and carry out coherent and consolidated investment strategies per California Government Code Section 27130. Pooled funds allow for more efficient cash flow matchings, a reduction in transaction costs, and improve market access. IPS compliance will be done on total OCTP. Government Code Sections 53600 et seq., 53630 et seq. and 27000.3 guide the investment requirements of the OCTP.

b) Specific Investment Accounts:

The County or a participant's governing board may ask Treasurer to invest certain unexpended cash or to separately invest bond proceeds issued by the County, an Educational District, a voluntary participant, or another local agency outside of pooled funds. These investments may include cash required for future long-term needs, and these investments will be matched to the time-horizon for their future use or to an identified long-term liability. The County or the participating agencies will be required to sign a written agreement acknowledging that there may be risk to principal should they desire to redeem funds early. The Treasurer shall credit the specific investment account with the interest earned and charge the account fees for separately maintaining this account.

In addition, no investment will be made in any security that at the time of the investment has a term remaining to maturity in excess of five years, unless the appropriate legislative body has granted express authority either specifically or as part of an investment program approved by that legislative body no less than three months prior to the investment.

III. PRUDENCE

The Treasurer, as a fiduciary of public funds adheres to the "prudent investor" standard per Government Code Sections 27000.3 and Section 53600.3 is to be used by the. This standard states that when investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, the Treasurer shall act with care, skill, prudence and diligence under the circumstances then prevailing, specifically including, but not limited to, the general economic conditions and the anticipated needs of the County and other depositors that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the County and the other depositors. Within the limitation of this section and considering individual investments as part of an overall investment strategy, investments may be acquired as authorized by law.

The Treasurer and those delegated staff shall act in accordance with written procedures and the Investment Policy Statement, exercise due diligence, report in a timely fashion and implement appropriate controls to mitigate adverse developments.

IV. DELEGATION OF AUTHORITY

The County Board of Supervisors delegates to the Treasurer annually the authority to invest and reinvest the funds of the County and other depositors per Government Code Sections 27000.1, 53607 and 53608. Such delegation is conditioned upon the Treasurer submitting any and all investment policies and amendments thereto to the Board for review and approval. The Treasurer may further delegate investment authority to such persons within the Treasurer's Department as deemed appropriate.

V. OBJECTIVES

Criteria for selecting investments and the absolute order of priority are:

1. SAFETY

Safety of principal is the foremost investment objective. Investments shall be undertaken in a manner that seeks to ensure the preservation of capital in the portfolio.

The Treasurer shall seek to preserve principal and minimize capital losses by mitigating credit risk and market risk as follows:

- a) Credit Risk: Defined as an issuer's ability and willingness to repay interest and principal. Credit risk shall be mitigated by diversifying the fund among issues and issuers so that the failure of any one issue or issuer would not result in a significant loss of income or principal to participants.
- b) Market Risk: Defined as the risk of market value fluctuations due to changes in the general level of interest rates. Because longer-term securities generally have greater market risk than shorter-term securities, market risk will be mitigated by establishing a maximum weighted average maturity or duration for the portfolio. Occasional market losses on individual securities may occur with portfolio management and they must be considered within the context of the overall investment return.

2. LIQUIDITY

Liquidity refers to the ability to sell an investment at any given moment with a minimal chance of principal loss. OCIF will maintain sufficient liquidity for the purpose of meeting all daily operating requirements based on reasonably anticipated cash flow needs.

3. YIELD

Yield refers to the objective of attaining a market rate of return commensurate with the risk profile and cash flow characteristics of the portfolio throughout budgetary and economic cycles. Per Government Code Section 53601.6, securities issued by, or backed by, the United States government can result in zero or negative interest accrual if held to maturity, in the event of, and for the duration of, a period of negative market interest rates. Although the Treasurer may employ certain indices to gauge the funds' rate of return, such indices shall be used solely for comparative purposes and do not constitute a warranty or guarantee of actual fund performance. The core investments are limited to relatively low risk securities in anticipation of earning a fair return relative to the risk being assumed.

4. MARK-TO-MARKET

OCTP investments are marked to market daily. The OCTP will attempt to maintain a \$1.00 net asset value (NAV) to the extent reasonably possible and consistent with the Treasurer's trust and fiduciary duty. If the ratio of the market value of OCTP divided by the book value of OCTP is less than \$.9975, then the variance will be reported and any expected impact on the OCTP ability to meet forecasted cash outflows. In addition, the Treasurer may decide to sell holdings as necessary to maintain the NAV above \$.9975.

The Treasurer will provide the NAV of OCTP in the investment report. However, the \$1.00 NAV is not guaranteed or insured by the Treasurer for OCTP nor is OCTP registered with the Securities Exchange Commission (SEC).

VI. <u>AUTHORIZED INVESTMENTS</u>

The County is authorized to invest in specific types of securities by Government Code Section 53600 et seq. Investments not specifically listed below are prohibited. All securities must be U.S. dollar denominated. The Treasurer may place orders for the execution of transactions with or through such broker/dealers, banks or counterparties as may be selected from time to time at his/her discretion that are consistent with the requirements of law and this IPS.

The pools may invest in the following areas to the extent they are consistent with the investment objectives, do not violate the investment restrictions, and adhere to limitations specified in Sections VI and VIII.

1. U. S. TREASURY SECURITIES

United States Treasury bills, notes, bonds, or certificates of indebtedness, for which the full faith and credit of the United States are pledged for the payment of principal and interest.

2. U. S. GOVERNMENT AGENCY SECURITIES

Obligations, participations, or other instruments of, or issued by, a federal agency or a United States government-sponsored enterprise (GSE). There is no limit on the percentage of OCTP that can be invested in this category including no issuer limit.

3. COMMERCIAL PAPER

Eligible commercial paper shall not exceed 270 days maturity, and shall not exceed 40% of OCTP. The entity that issues the commercial paper shall meet either of the following conditions in paragraph (a) or paragraph (b):

- a) Has total assets in excess of five hundred million dollars (\$500,000,000), is organized and operating within the United States as a general corporation and has debt other than commercial paper, if any, that is rated "A" or higher by a NRSRO.
- b) Is organized in the United States as a special purpose corporation, trust, or limited liability company, has program-wide credit enhancements including, but not limited to overcollateralization, letters of credit or a surety bond.

4. NEGOTIABLE CERTIFICATES OF DEPOSIT

Negotiable certificates of deposit issued by a nationally or state-chartered bank, savings association, or a federal association (as defined by Section 5102 of the California Financial Code), or by a federally licensed or state-licensed branch of a foreign bank.

5. REPURCHASE AGREEMENTS

Investments in repurchase agreements for the purpose of this IPS means a purchase of securities by the Treasurer pursuant to an agreement by which the seller will repurchase the securities on or before a specified date and for a specified amount and will deliver the underlying securities to the Treasurer by book entry, physical delivery, or by third party custodial agreement. The term of a repurchase agreement shall not exceed one year and have capital of not less than \$500 million. The term "securities," for the purpose of repurchase agreements, means securities of the same issuer, description, issue date and maturity.

To participate in repurchase agreements, a master repurchase agreement must be completed and signed by all parties involved. The Treasurer will maintain a signed copy of the agreement. Repurchase agreements are required to be collateralized by securities or cash.

a) Collateralization:

In order to anticipate market changes and provide a level of security for all repurchase agreement transactions, the market value of securities that underlie a repurchase agreement shall be valued at 102% or greater of the funds borrowed against those securities and the value shall be adjusted no less frequently than weekly. Since the market value of the underlying securities is subject to daily market fluctuations, the investments in repurchase agreements shall comply with the market value requirement if the value of the underlying securities is brought back up to 102% no later than the next business day.

Collateral will be limited to cash, and U.S. Treasury and U.S. Government Agency securities. For compliance purposes, U.S. Treasury and/ U.S. Government Agency collateral are exempt from the issuer limits as stated in Section VIII.1. Collateral will be held by an independent third party with whom the Treasurer has a current custodial agreement. A clearly marked evidence of ownership (safekeeping/custody receipt) must be supplied to the Treasurer and retained. No collateral substitutions may be made without prior approval of the Treasurer.

Investments in repurchase agreements are limited to no more than 20% of OCTP. Agreements are subject to Government Code Section 53601 and must comply with the delivery requirements and the maturity provision from Section 53601.

6. BANKERS' ACCEPTANCES

Bankers' acceptances, also known as time drafts or bills of exchange that are drawn on and accepted by a commercial bank. Purchases of bankers' acceptances shall not exceed 180 days maturity.

7. MONEY MARKET MUTUAL FUNDS

Shares of beneficial interest issued by diversified management companies that are money market mutual funds registered with the Securities and Exchange Commission under the Investment Company Act of 1940 (15 U.S.C. Sec. 80a-1 et seq.), which only invest in direct obligations in U.S. Treasury bills, notes, and bonds, U.S. Government Agencies, Municipal Debt, and repurchase agreements with a weighted average maturity of 60 days or less. Money Market Mutual Funds that do not maintain a constant Net Asset Value (NAV) are prohibited. Money market mutual funds are not required to conform to the restrictions detailed in this IPS. The Treasurer shall be required to investigate money market mutual funds prior to investing and perform a periodic review, but at least annually thereafter while the funds are invested in the money market mutual fund. Approved money market mutual funds shall meet either of the following criteria:

- a) Attained the highest ranking or the highest letter and numerical rating provided by no less than two NRSROs.
- b) Retained an investment advisor registered or exempt from registration with the Securities and Exchange Commission with not less than five years' experience managing money market mutual funds with assets under management in excess of \$500,000,000.

8. STATE POOL – LOCAL AGENCY INVESTMENT FUND

The Treasurer may invest in the Local Agency Investment Fund (LAIF) established by the State Treasurer under Government Code Section 16429.1. LAIF has no final stated maturity and will be reported as a one-day maturity.

9. MUNICIPAL DEBT

Such instruments are defined as being issued by a local or state agency, including:

- a) Bonds issued by the local agency, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the local agency or by a department, board, agency or authority of the local agency.
- **b)** Registered state warrants or treasury notes or bonds of this state, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the state or by a department, board, agency, or authority of a state.
- c) Bonds, notes, warrants, or other evidences of indebtedness of a local agency within this state, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by the local agency, or by a department, board, agency, or authority of the local agency.

10. MEDIUM-TERM NOTES

Medium-term notes are defined as all corporate and depository institution debt securities with a maximum remaining maturity of two years. Medium-term notes must be issued by corporations organized and operating within the United States or by depository institutions licensed by the United States or any state and operating within the United States. Investments in medium-term notes are limited to no more than 20% of OCTP.

11. INVESTMENT POOLS

Shares of beneficial interest issued by a joint powers authority organized pursuant to Government Code Section 6509.7, which invests in the securities and obligations as authorized under 53601 (a) to (o), inclusive, and that comply with the investment restrictions of Government Code Sections 53600 through 53610 and Section 53630. The Treasurer shall be required to investigate all local government investment pools prior to investing and perform a quarterly review thereafter while the funds are invested in the pool. The analysis shall include, but is not limited to, the following characteristics of a pool/fund as part of its investigation and quarterly review:

- Eligible securities
- Maximum maturity
- REPO collateral/counter-party
- Size of the pool/fund
- Limits on withdrawal/deposit
- Expense ratio

12. SUPRANATIONAL SECURITIES

Supranational securities are defined as United States dollar denominated senior unsecured unsubordinated obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development, International Finance Corporation, or Inter-American Development Bank, with a maximum remaining maturity five years or less, and eligible for purchase and sale within the United States.

VII. INVESTMENT CREDIT RATING RESTRICTIONS

Credit ratings will be applied at the time of purchase of a security and monitored for changes while owned. A downgrade subsequent to purchase in a security's credit rating will not constitute a violation of the IPS. Securities that are downgraded below the minimum acceptable rating levels must be reviewed for possible sale by the Treasurer within a reasonable amount of time. The credit ratings referenced in this policy must be assigned by one of the following Nationally Recognized Statistical Rating Organizations (NRSRO): Standard & Poor's Corporation (S&P), Moody's Investors Service, Inc. (Moody's) and Fitch Ratings (Fitch).

All investments, except those noted below, 1) must have the minimum ratings required below by at least two NRSROs, and 2) the lowest rating of any NRSRO must meet or exceed the minimum rating required below:

NRSRO	Short-Term	Long-Term
S&P	A-1	AA
Moody's	P-1/MIG 1/VMIG 1	Aa
Fitch	F-1	AA

If an issuer of Long-term debt has a Short-term debt rating, then the Long-Term rating may not be less than the minimum required Short-term debt ratings above.

- a) Municipal debt issued by the County of Orange, California (as defined in Section VI 9), U.S. Government obligations (as defined in Section VI 1 and VI 2) and State Pool (as defined in Section VI 8), are exempt from the credit rating requirements listed above.
- b) Money Market Mutual funds (as defined in Section VI 7) and Investment Pools (as defined in Section VI 11) require the highest ranking or the highest letter and numerical rating provided by at least one NRSRO.

Any issuer, and all related entities, that have been placed on "Credit Watch-Negative" by a NRSRO will be placed on hold and current holdings reviewed for possible sale within a reasonable period of time unless the following criteria are met and are also approved in writing by the Treasurer prior to purchase:

The issuer has:

- (a) an A-1+ or F1+ short-term rating; and
- (b) at least an AA or Aa2 or higher long-term rating from each of the NRSROs that rate the issuer.

VIII. <u>INVESTMENT TYPE, DIVERSIFICATION, MATURITY AND DURATION RESTRICTIONS</u>

It is the policy of the Treasurer to diversify OCTP. Investments diversification is required to minimize the risk of loss resulting from assets off a specific maturity, issuer or a specific class of securities. Diversification strategies shall be established by the Treasurer and periodically reviewed.

1. AUTHORIZED INVESTMENTS AND ISSUER CONCENTRATION

Only debt of issuers listed on the Office of the Treasurer's Approved Issuer List may be purchased. The following diversification limits will also apply at the time of purchase of a security.

Investment Type	California Government Code			Orange County IPS		
	Investment Limit	Issuer Limit	Max Maturity	Investment Limit	Issuer Limit	Max Maturity
U.S. Treasury Securities	100%	None	5 Years	100%	None	5 Years
U.S. Government Agency Securities (GSE's)	100%	None	5 Years	100%	None	5 Years
Municipal Debt	100%	None	5 Years	20%	5% except OC at 10%	3 Years
Medium-Term Notes	30%	None	5 Years	20%	5%	2 Years
Bankers Acceptances	40%,	30%	180 Days	40%	5%	180 Days
Commercial Paper	40%,	10%	270 Days	40%	5%	270 Days
Negotiable Certificates of Deposits	30%	None	5 Years	20%	5%	18 months
State of California Local Agency Investment Fund	\$75 million per account	N/A	N/A	\$75 million per account	N/A	N/A
Repurchase Agreements	100%	None	1 Year	20%	10%	180 Days
Money Market Mutual Funds (MMMF)	20%	None	N/A	20%	10%	N/A
Joint Power Authority Investment Pools (JPA)	100%	None	N/A	20%	10%	N/A
Supranationals	30%	None	5 Years	30%	5%	5 Years

2. MATURITY

- a) The maximum maturity of any investment purchased will be five years with the exception of specific investments and investment pools authorized by the Board of Supervisors or the appropriate legislative body to be invested in longer than five-year maturities. The settlement date will be used as the date of purchase for measuring maturity limitations.
- b) For calculating the weighted average maturity of the portfolio, the maturity of a variable-rate security will be considered its next interest rate reset date, if there is a reasonable expectation that the security will maintain an approximate value of par upon each adjustment of the security's interest rate at any time until final maturity.

3. DURATION

OCTP shall have a maximum duration of 1.50 years.

IX. PROHIBITED TRANSACTIONS

All permitted investments shall conform in all respects with this IPS and with applicable provisions of the Government Code, as may be amended from time to time. Investments prohibited by Government Code are not permitted.

The Treasurer must approve in writing as soon as possible any investment transactions that violates a credit risk criterion or an allocation limitation. Thereafter, action shall be taken by the Treasurer to correct such matter as soon as practical. If a n investment is in compliance at the time of purchase, a subsequent violation resulting from a change in market values will not constitute a violation of that restriction.

- 1. The following transactions are prohibited:
 - a) Borrowing for investment purposes ("Leverage").
 - b) Reverse Repurchase Agreements, as defined by Government Code Section 53601(j) (3) and (j) (4) or otherwise.
 - c) Structured Notes (e.g. inverse floaters, leveraged floaters, structured certificates of deposit, equity-linked securities, event-linked securities). This includes all floating-rate, adjustable-rate or variable-rate securities in which a change in interest rates or other variables that can reasonably be foreseen to occur during their term would result in their market value not returning to par at the time of each interest rate adjustment.

Simple "floating rate notes," whose periodic coupon adjustment is based on a short-term (one-year or less) rate index (such as Treasury bills, federal funds, prime rate, SOFR or LIBOR) and which have a reasonable expectation of maintaining a value of par at each interest rate adjustment through final maturity, are exempt from this definition. Additionally, U.S. Treasury and Agency zero coupon bonds or callable securities that otherwise meet the quality, maturity and percent limitations assigned to their respective security category, are exempt from this section.

- d) Structured Investment Vehicles (SIV).
- e) Derivatives (e.g., options, futures, swaps, swap options, spreads, straddles, caps, floors, collars).
- f) Money Market Mutual Funds that do not maintain a constant Net Asset Value (NAV).

X. ETHICS AND CONFLICT OF INTEREST

The Treasurer and all persons involved in the investment process shall refrain from personal business activity, which could create a conflict with proper execution of the investment program, or which could impair the ability to execute impartial investment decisions. The Treasurer and all treasury and investment personnel shall disclose to the Treasury Oversight Committee any material financial interests in financial institutions, broker dealers, and vendors ("outside entities") that conduct business with the County of Orange and shall disclose any material financial investment positions in such outside entities.

1. STATEMENT OF ECONOMIC INTEREST FORM 700

The Treasurer, Auditor-Controller, members of the Treasury Oversight Committee, and all designated employees must annually file a Form 700 (Statement of Economic Interests) in accordance with the County's Conflict-of-Interest Code.

2. COUNTY'S GIFT BAN ORDINANCE – SEC. 1-3-22 THE CODIFIED ORDINANCES, ORANGE COUNTY, CALIF.

The County's Gift Ban Ordinance prohibits the receipt of specified gifts to the Treasurer, Auditor-Controller, and "designated employees" from business entities and individuals that "do business with the County" as that termed in defined in the Ordinance. Under the Ordinance, the term "designated employee" includes every employee of the County who is designated in the County's Conflict-of-Interest Code to file a Form 700 and every member of a board or commission under the jurisdiction of the Board of Supervisors required to file such a form. For purposes of the Treasurer's Office, "designated employees" include: the

Assistant Treasurer-Tax Collector, the Treasury and Investment Division Directors, all investment staff, all financial/credit analysts, all treasury managers and other appropriate Treasury staff. The Treasurer will review this list of "designated employees" periodically and submit any proposed changes to the Board of Supervisors for approval.

XI. AUTHORIZED BROKER/DEALERS AND FINANCIAL INSTITUTIONS

The Treasurer will maintain a list of broker/dealers and financial institutions authorized to provide investment and/or depository services and products. Any permitted investment, not purchased directly from an approved issuer, shall be purchased either from a "primary" or regional securities broker/dealer qualifying under SEC Rule 15c3-1(uniform net capital rule) and licensed by the state as a broker/dealer as defined in Section 25004 of the Corporations Code or a "well capitalized" national bank or Federal savings association as defined in Title 12 of the Code of Federal Regulations (CFR) Part 6.4 or a savings association or Federal association as defined by Section 5102 of the California Financial Code. To be eligible to receive local agency money, a bank, savings association, federal association or federally insured industrial loan company shall have received an overall rating of not less than "satisfactory" in its most recent evaluation by the appropriate federal financial supervisory agency of its record of meeting the credit needs of California's communities, including low-and moderate-income neighborhoods, pursuant to Section 2906 of Title 12 of the United States Code. Sections 53601.5 and 53601.6 shall apply to all investments that are acquired pursuant to this section.

Broker/dealers must comply with the political contribution limitations contained in Rule G-37 of the Municipal Securities Rulemaking Board. Section 27133(c) of the Government Code prohibits the selection of any broker, brokerage, dealer, or securities firm that contributed to the Treasurer, any member of the Board of Supervisors, or any candidate for those offices, within any consecutive 48-month period.

The Treasurer shall conduct an annual review of each broker/dealer and financial institution's financial condition and registrations to determine whether it should remain on the approved broker/dealer list for investment and/or depository services and require annual audited financial statements to be on file for each firm. The Treasurer shall strive to open an application period every two years for all new broker/dealers and financial institutions submitting a questionnaire or being reviewed if an existing broker/dealer to determine if they should be added to or removed from the approved broker/dealer list. This detailed questionnaire is required to be completed by broker/dealers and financial institutions seeking to provide investment services. The Treasurer shall annually send a copy of the current Investment Policy Statement to all broker/dealers and financial institutions approved to provide investment services to the County, and they shall notify the Treasurer in writing of receipt and that they have read it.

XII. PERFORMANCE EVALUATION

The Treasurer shall submit quarterly reports (in compliance with Government Code Sections 53646 and 27134) to the Treasury Oversight Committee, the pool participants, the County Executive Officer, the Director of Internal Audit, the Auditor-Controller and the Board of Supervisors within 45 days of the end of the quarter. These reports shall contain sufficient information to permit an informed outside reader to evaluate the performance of the investment program and shall comply with Government Code. The Treasurer shall provide financial information on investments for disclosure in the County's ACFR, in accordance with GASB Statements 31, 40, 72 and 84. In addition, as included in Government Code 53607, the

Treasurer shall report monthly investment transactions to the Orange County Board of Supervisors.

XIII. SAFEKEEPING

All security transactions, including collateral for repurchase agreements, entered into by the Treasurer shall be conducted on a delivery-versus-payment (DVP) basis. All investments shall have the County of Orange and either the OCIF or the specific pool name as its registered owner except for municipal debt issued by the County of Orange and privately placed with the County Treasurer in which case the investments shall have the Orange County Treasurer on behalf of the OCTP as its registered owner.

All securities shall be held by a third-party custodian designated by the Treasurer (this does not apply to money market funds or investment pools). The third-party custodian shall be required to issue a safekeeping statement to the Treasurer listing the specific instrument, rate, maturity, and other pertinent information.

XIV. MAINTAINING THE PUBLIC TRUST

All participants in the investment process shall act as custodians of the public trust. The overall program shall be designed and managed with a degree of professionalism that is worthy of the public trust.

XV. INTERNAL CONTROLS

The Treasurer shall establish a system of written internal controls, which will be reviewed annually with the County's independent (external) auditor. The controls shall be designed to prevent loss of public funds due to fraud, employee error, and misrepresentation by third parties, unanticipated market changes, or imprudent actions by employees of the Treasurer's Office. All agreements, statements, and investment trade packets will be subject to review annually by auditors in conjunction with their audit. The Treasurer shall evaluate audit reports in a timely manner with the Treasury Oversight Committee. The quarterly audit reports of the Treasury shall be provided as required by Government Code Sections 26920 through 26922. Daily compliance of the investment portfolio shall be performed by the Department's Investment Compliance will be determined on a fair market value basis. Except for emergencies or previous authorization by the Treasurer, all investment transactions are to be entered daily into the Treasurer's Investment Accounting System

1. INVESTMENT PROCEDURES

The Treasurer shall develop and maintain written administrative procedures for the operation of the investment program that are consistent with this investment policy. Procedures will include reference to safekeeping, Master Repurchase Agreements, wire transfer agreements, collateral and depository agreements, banking service contracts, and other investment and banking related activities. Such procedures shall include explicit delegation of authority to personnel responsible for investment transactions.

The Treasurer shall be responsible for all transactions undertaken and shall establish a system of controls to regulate the activities of all Treasury and Investment personnel. No investment personnel may engage in an investment transaction except as provided under terms of this policy and the procedures established by the Treasurer.

XVI. EARNINGS AND COSTS APPORTIONMENT

The Treasurer determines the interest earnings for the OCTP and then allocates them to each individual pool participant based upon their average daily balance.

The Treasurer who invests, deposits or otherwise handles funds for public agencies for the purpose of earning interest or other income on such funds as permitted by law, may deduct from such interest or income, before distribution thereof, the actual administrative cost of such investing, depositing or handling of funds and of distribution of such interest or income, as authorized by Government Code Section 27013. Such cost reimbursement shall be paid into the county general fund. In addition, the costs of compliance with the Treasury Oversight provisions of Government Code Sections 27130 through 27137 shall be included as an eligible administrative cost. These investment administrative costs will be deducted from any interest or income, prior to distribution to the pool participant. The Treasurer shall annually prepare a proposed budget revenue estimate and estimated basis fee charge of this investment administrative fee charged in accordance with Government Code Section 27013. The Treasurer must annually reconcile the estimated charges and actual costs incurred and adjust participant accounts accordingly.

Investment earnings, including any gains or losses, less the above estimated fee charge will be allocated to the pool participants on at least a quarterly basis. The Treasurer's investment report will state the current estimated investment administrative fee charged to participants.

XVII. VOLUNTARY PARTICIPANTS

Should a local agency within Orange County, or a Joint Powers Agency (JPA) consisting of at least one public agency from within Orange County, not required by California law to deposit monies with the Treasurer desire entry into the Treasurer's Investment Pool, the agency shall comply with the requirements of Government Code Section 53684 and provide to the Treasurer a resolution adopted by its governing board stating that excess funds are available for the purpose of investment. The resolution shall specify that the local agency authorizes the investment of excess funds pursuant to Section 53684, those persons authorized at the agency to coordinate the transactions, the agency's willingness to be bound by the withdrawal provisions of Government Code Section 27136, and the agency's understanding that investment administrative charges will be deducted by the Treasurer as permitted by Sections 53684(b) and 27013. The Treasurer shall approve or disapprove such agency's request in writing. Upon the Treasurer's approval of voluntary participants to join the pool, the Treasurer will notify the Board of Supervisors within 5 days.

Monies deposited by local agencies approved for entry into OCTP shall be invested by the Treasurer in accordance with this Investment Policy Statement, as amended from time to time. The local agency's authorized representative will execute an agreement with the Treasurer. This agreement specifies the contractual terms and conditions by which the Treasurer will manage and invest local agency's excess funds which have been deposited for investment with the Treasurer.

XVIII. WITHDRAWAL

Withdrawal of participant funds for the purpose of investing or depositing these funds outside the County treasury shall require prior written approval from the Treasurer or designee, as required by Government Code Sections 27000.3, 27133(h), 27136 and 53684(c). The Treasurer shall thereafter review the withdrawal request consistent with his/her trust and fiduciary duties. Prior to approving or disapproving the withdrawal request, the Treasurer or designee shall make a finding on the stability and predictability of the investments and on the interests of the other depositors in the County treasury.

XIX. PERFORMANCE STANDARDS

The investment portfolio shall be designed with the objective of obtaining a market rate of return throughout budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow needs, while focusing on, in order of importance, preservation of capital, liquidity and yield.

The investment strategy is to manage the portfolios with less risk than a comparable benchmark index while using economies of scale to administer the program at a reasonable cost. The Treasurer shall determine whether market yields are achieved using the indices most comparable to the fund, such as money rate data published in Barron's, The Wall Street Journal, Bloomberg, the local government investment pool index or other bond fund indices. The standards enumerated herein do not constitute a guarantee of the fund's performance.

The Treasurer's investment strategy is to hold purchased securities until maturity. Changing economic conditions, interest rates, and credit quality may dictate a sale in advance to minimize market and credit risks or enhance yield. Such sales should consider the short and long term impact on the portfolio. The Treasurer must approve in advance the sale of all securities prior to maturity.

XX. INVESTMENT POLICY STATEMENT REVIEW

This Investment Policy Statement shall be reviewed on an annual basis by the Treasury Oversight Committee prior to being presented to for review and approval by the Board of Supervisors in an open session.

XXI. FINANCIAL REPORTING

The Treasurer's Investment Report and all investment compliance Audit Reports shall be provided to the Orange County Board of Supervisors, the County Executive Officer, the Chief Financial Officer, the Director of Internal Audit, the Auditor Controller, the Treasury Oversight Committee, the presiding judge of the Superior Court, the director or executive officer and Treasurer or other official responsible for the funds of any Local Agency who has investments in the OCTP as allowed by Government Code Sections 53646, and 53686..

All reports filed by the Treasurer shall, among other matters, state compliance of the portfolio with the IPS, or the manner in which the portfolio is not in compliance per Government Code Section 53646. A statement will also be filed by the denoting the ability of OCTP to meet its expenditure requirements for the next six months or provide an explanation of why sufficient money may not be available per Government Code 53646(b).

XXII. <u>LEGISLATIVE CHANGES</u>

Any State of California law that further restricts allowable maturities, investment type, percentage allocations, or any other provision of this Investment Policy Statement will, upon effectiveness, be incorporated into this Investment Policy Statement and supersede any and all previous applicable language.

XXIII. DISASTER RECOVERY PROGRAM

The Treasurer's Disaster Plan includes critical phone numbers and addresses of key treasury and investment personnel as well as currently approved bankers and broker/dealers. The Disaster Plans are distributed to key treasury and investment personnel. The plan provides for an offsite location to be communicated at the time of readiness if our offices are uninhabitable. In the event the Treasurer or authorized staff is unable to invest the portfolio, the Treasurer has an agreement with the custodian for a daily sweep of uninvested cash with the custody bank into a money market mutual fund. Until normal operations of the Treasurer's office have been restored, the limitations on the size of an individual issuer and the percentage restrictions by investment type would be allowed to exceed those approved in this Investment Policy Statement and would be required to be reported to the Board of Supervisors and pool participants in a timely manner

INVESTMENT POLICY STATEMENT GLOSSARY

This Glossary is for general reference purposes only and does not constitute an exhaustive or exclusive list of terms and definitions applicable to this Investment Policy Statement. The definitions included herein do not modify any of the terms of this Investment Policy Statement or applicable law.

ACCREDITED INVESTOR: Defined in the Code of Federal Regulations (CFR) 230.501 (a)(9) as any entity, including a government body that owns "investments", as defined in the CFR 270.2A51-1(b)(7)(i), such as cash and cash equivalents, for investment purposes under the Investment Company Act in excess of \$5 million.

ACCRUED INTEREST: The amount of interest that is earned but unpaid since the last interest payment date.

ADJUSTABLE RATE NOTE: (See Floating Rate Note)

AGENCY SECURITIES: (See U.S. Government Agency Securities)

AMORTIZATION: The systematic reduction of the amount owed on a debt issue through periodic payments of principal.

AVERAGE LIFE: The average length of time that an issue of serial bonds and/or term bonds with a mandatory sinking fund feature is expected to be outstanding.

ASKED PRICE: The price at which securities are offered from a seller.

ASSET BACKED SECURITIES (ABS): (See Receivable-Backed Securities)

BANKERS' ACCEPTANCE (BA): Negotiable money market instruments issued primarily to finance international trade. These are time drafts in which a bank "accepts" as its financial responsibility to pay the principal at maturity even if the importer does not. In essence, these are bank obligations collateralized by goods being shipped between an exporter and an importer.

BASIS POINT: When a yield is expressed as 7.32%, the digits to the right of the decimal point are known as basis points. One basis point equals 1/100 of one percent. Basis points are used more often to describe changes in yields on bonds, notes and other fixed-income securities.

BID PRICE: The price at which a buyer offers to buy a security.

BOOK ENTRY: The system, maintained by the Federal Reserve, by which most money market securities are "delivered" to an investor's custodian bank. The Federal Reserve maintains a computerized record of the ownership of these securities, and records any changes in ownership corresponding to payments made over the Federal Reserve wire (delivery versus payment). The owners of these securities do not receive physical certificates.

BOOK VALUE: The original cost of the investment, plus accrued interest and amortization of any premium or discount.

BROKER: A broker brings buyers and sellers together and is compensated for his/her service.

CALLABLE BONDS: Bonds that may be redeemed by the issuing company prior to the maturity date.

CALL PRICE: The price at which an issuer may redeem a bond prior to maturity. The price is usually at a slight premium to the bond's original issue price to compensate the holder for loss of income and ownership.

CALL RISK: The risk to a bondholder that a bond may be redeemed prior to maturity.

CAPITAL GAIN/LOSS: The profit or loss realized from the sale of a capital asset.

CERTIFICATE OF DEPOSIT (CD or NCD): A deposit of funds at a bank for a specified period of time that earns interest at a specified rate. Commonly known as "CDs" or "negotiable CDs."

COLLATERAL: Securities or cash pledged by a borrower to secure repayment of a loan or repurchase agreement. Also, securities pledged by a financial institution to secure deposits of public moneys.

COMMERCIAL PAPER (CP): Short-term unsecured promissory notes issued by corporations for maturities of 270 days or less.

CONSUMER RECEIVABLE-BACKED BONDS: (See Receivable-Backed Securities)

CONVEXITY: A measure of a bond's price sensitivity to changing interest rates. A high convexity indicates greater sensitivity of a bond's price to interest rate changes.

CREDIT OUTLOOK: (See Rating Outlook)

CREDIT QUALITY: The measurement of the financial strength of a bond issuer. This measurement helps an investor to understand an issuer's ability to make timely interest payments and repay the loan principal upon maturity. Generally, the higher the credit quality of a bond issuer, the lower the interest rate paid by the issuer because the risk of default is lower. Credit quality ratings are provided by nationally recognized statistical rating organizations.

CREDIT RISK: The risk to an investor that an issuer will default in the payment of interest and/or principal on a security.

CREDIT WATCH: indicates that a company's credit is under review and credit ratings are subject to change.

- *+ (positive) Credit is under review for possible upgrade.
- *- (negative) Credit is under review for possible downgrade.
- * Credit is under review, direction uncertain.

COUPON: The rate at which a bond pays interest.

CURRENT YIELD: The annual income from an investment divided by the current market value. Since the mathematical calculation relies on the current market value rather than the investor's cost, current yield is unrelated to the actual return the investor will earn if the security is held to maturity.

CUSTODIAN: A bank or other financial institution that keeps custody of stock certificates and other assets.

DEALER: A dealer, as opposed to a broker, acts as a principal in all transactions, buying and selling for his own account.

DELIVERY VERSUS PAYMENT (DVP): Delivery of securities with a simultaneous exchange of money for the securities.

DERIVATIVE: A security whose interest rate of principal amount may vary and are determined by a market index or a combination of market indexes.

DISCOUNT: The difference between the par value of a bond and the cost of the bond, when the cost is below par. Some short-term securities, such as Treasury bills and bankers acceptances, are known as discount securities. They sell at a discount from par, and return the par value to the investor at maturity without additional interest. Other securities, which have fixed coupons, trade at a discount when the coupon rate is lower than the current market rate for securities of that maturity and/or quality.

DIVERSIFICATION: An investment principle designed to spread the risk in a portfolio by dividing investments among different sectors, industries and companies.

DOLLAR-WEIGHTED AVERAGE MATURITY: A calculation that expresses the "average maturity" of an investment portfolio using each investment's maturity weighted by the size of that investment.

DURATION: A measure of the timing of the cash flows, such as the interest payments and the principal repayment, to be received from a given fixed-income security. This calculation is based on three variables: term to maturity, coupon rate and yield to maturity. The duration of a security is a useful indicator of its price volatility for given changes in interest rates.

FEDERAL FUNDS RATE: Interest rate charged by banks with excess reserves at a Federal Reserve district bank to banks needing overnight loans to meet reserve requirements. A target rate is set by the FOMC.

FEDERAL OPEN MARKET COMMITTEE (FOMC): This committee sets Federal Reserve guidelines regarding purchases and sales of government securities in the open market as a means of influencing the volume of bank credit and money.

FEDERAL RESERVE SYSTEM: A U.S. centralized banking system, which has supervisory powers over the 12 Federal Reserve banks and about 6,000 member banks.

FITCH, INC: (see Nationally Recognized Statistical Rating Organization)

FIXED-INCOME SECURITIES: Securities that return a fixed income over a specified period.

FLOATING RATE NOTE: A debt security whose interest rate is reset periodically (monthly, quarterly, annually) and is based on a market index (e.g. Treasury bills, London Interbank Offered Rate (LIBOR), Secured Overnight Financing Rate (SOFR) etc.).

INTEREST: The amount earned while owning a debt security, generally calculated as a percentage of the principal amount.

INTERNAL CONTORLS: An internal control structure designed to ensure that the assets of the entity are protected from loss, theft, or misuse. The internal control structure is designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that 1) the cost of a control should not exceed the benefits likely to be derived and 2) the valuation of costs and benefits requires estimates and judgments by management.

INVESTMENT COMPANY ACT OF 1940: Federal legislation which sets the standards by which investment companies, such as mutual funds, are regulated in the areas of advertising, promotion, performance reporting requirements, and securities valuations.

LIQUIDITY: The speed and ease with which an investment can be converted to cash.

LOCAL AGENCY: County, city, city and county, including a chartered city or county, school district, community college district, public district, county board of education, county superintendent of schools, or any public or municipal corporation.

MARK-TO-MARKET: The market valuation for every security in a portfolio used in determining Net Asset Value (NAV).

MARKET RISK: The risk that changes in overall market conditions or interest rate may adversely affect current market prices.

MARKET VALUE: The price at which a security is trading and could presumably be purchased or sold.

MASTER REPURCHASE AGREEMENT: A written contract between the parties of a repurchase agreement establishing each party's rights in all current and future transactions until termination of the contract by either party.

MATURITY: The date upon which the principal or stated value of an investment becomes due and payable.

MEDIUM TERM NOTES (MTN): Debt securities issued by a corporation or depository institution with a maturity ranging from nine months to five years. The term "medium-term note" refers to the time it takes for an obligation to mature, and includes other corporate debt securities originally issued for maturities longer than five years, but which have now fallen within the five- year maturity range. MTNs issued by banks are also called "bank notes."

MONEY MARKET: The market in which short-term debt instruments (Treasury bills, discount notes, commercial paper, bankers acceptances, etc.) are issued and traded.

MONEY MARKET MUTUAL FUNDS: An investment company that pools money from investors and invest in a variety of short-term money market instruments

MOODY'S INVESTORS SERVICE, INC: (See Nationally Recognized Rating Services)

MUNICIPAL DEBT: Bonds, notes and other securities issued by a state, municipality or county.

NATIONALLY RECOGNIZED STATISTICAL RATING ORGANIZATION (NRSRO): Firms that review the creditworthiness of the issuers of debt securities, and express their opinion in the form of letter ratings (e.g. AAA, AA, A, BBB, etc.). The primary rating agencies are the following: Standard & Poor's Corporation; Moody's Investor Services, Inc.; and Fitch, Inc.

NEGOTIABLE CD: (See Certificates of Deposit)

NET ASSET VALUE (NAV): A per-share valuation of a mutual fund based on total assets minus total liabilities.

NON-CALLABLE: Bond that cannot be called at the option of the issuer.

OFFER PRICE: The price asked by a seller of securities.

PAR or PAR VALUE: The amount of principal that must be paid at maturity. Also referred to as the face amount of a bond, normally quoted in \$1,000 increments per bond.

PHYSICAL DELIVERY: The delivery of an investment to a custodian bank in the form of a physical certificate and/or supporting documents evidencing the investment (as opposed to "book entry" delivery).

PORTFOLIO: A group of securities held by an individual or institutional investor.

PREMIUM: The difference between the par value of a bond and the market value of the bond, when the market value is above par.

PRICE RISK: The risk that the price of a bond sold prior to maturity will be less than the price at which the bond was originally purchased.

PRIMARY DEALER: Banks and securities brokerages authorized to buy and sell government securities in direct dealings with the Federal Reserve Bank of New York in its execution of Federal Open Market Operations.

PRIME RATE: The base rate that banks use in pricing commercial loans to their best and most creditworthy customers.

PRINCIPAL: The face value or par value of an investment.

PROSPECTUS: A legal document that must be provided to any prospective purchaser of a new securities offering registered with the SEC. This can include information of the issuer, the issuer's business, the proposed use of proceeds, the experience of the issuer's management, and certain certified financial statements.

QUALIFIED INSTITUTIONAL BUYER (QIB): Defined in CFR Section 230.144A as a class of investors that can be conclusively assumed to be sophisticated and in little need of the protection afforded by the Securities Act's registration provisions. They must own and invest on a discretionary basis at least \$100 million in securities of issuers that are not affiliated with the QIB to qualify for qualified institutional buyer status. This includes any institutional investors included in the accredited investor definition, provided they satisfy the \$100 million threshold.

RATING OUTLOOK: The potential direction of the credit rating assigned by a NRSRO for a specific company.

REINVESTMENT RISK: The risk that coupon payments (or other payments received) cannot be reinvested at the same rate as the initial investment.

RECEIVABLE-BACKED SECURITIES: Securities collateralized with consumer receivables, such as automobile loans, credit card receivables, or home equity loans, which are owned by the issuer, but placed with a trustee for the benefit of the investor.

RECEIVABLE PASS-THROUGH CERTIFICATE: A debt obligation that is backed by a portfolio of receivables, normally issued by a bank or financial institution. The interest and principal of the obligation is paid out of the cash flow generated by the receivables portfolio.

REFUNDED BOND: A bond secured by an escrow fund that is sufficient to pay off the entire issue of bonds at the next call date (pre-funded) or maturity (escrowed to maturity).

REGISTERED STATE WARRANT: A short-term obligation of a state governmental body issued in anticipation of revenue.

REPURCHASE AGREEMENT (REPO): The purchase of securities, on a temporary basis, with the seller's simultaneous agreement to repurchase the securities back at a later date at a specified price that includes interest for the buyer's holding period.

RULE 2a-7 OF THE INVESTMENT COMPANY ACT: Applies to all money market mutual funds and mandates such funds to maintain certain standards.

RULE G-37 OF THE MUNICIPAL SECURITIES RULEMAKING BOARD: Federal regulations to sever any connection between the making of political contributions and the awarding of municipal securities business.

SAFEKEEPING: Storage and protection of a customer's financial assets, valuables, or documents, provided as a service by an institution serving as Agent or Custodian and, where control is delegated by the customer.

SECURITIES & EXCHANGE COMMISSION (SEC): The federal agency responsible for supervising and regulating the securities industry.

SINKING FUND: Money accumulated on a regular basis in a separate custodial account that is used to redeem debt securities or preferred stock issues.

STANDARD & POOR'S CORPORATION: (See Nationally Recognized Rating Services)

STRUCTURED INVESTMENT VEHICLE (SIV): A pool of investment assets that attempts to profit from credit spreads between short-term debt and long-term structured finance products such as asset-backed securities (ABS). Funding for SIVs comes from the issuance of commercial paper that is continuously renewed or rolled over; the proceeds are then invested in longer maturity assets that have less liquidity but pay higher yields. SIVs often employ great amounts of leverage to generate returns.

SUPRANATIONAL: An entity that is formed by two or more central governments with the purpose of promoting economic development for the member countries. Examples include the International Bank for Reconstruction and Development, International Finance Corporation, and the Inter-American Development Bank.

THIRD-PARTY CUSTODIAL AGREEMENT: (See Custodian)

TOTAL RETURN: The sum of all investment income plus changes in the capital value of the portfolio. For mutual funds, return on an investment is composed of share price appreciation plus any realized dividends or capital gains. This is calculated by taking the following components during a certain time period.

(Price appreciation) + (Dividends paid) + (Capital gains) = Total Return

TRADE DATE: The date and time corresponding to an investor's commitment to buy or sell a security.

U. S. GOVERNMENT AGENCY SECURITIES: Debt securities issued by U.S. Government sponsored enterprises and federally related institutions. These government agencies include: Federal Home Loan Banks (FHLB), Federal Home Loan Mortgage Corporation (FHLMC or Freddie Mac), Federal National Mortgage Association (FNMA or Fannie Mae), Federal Farm Credit Banks (FFCB) and Tennessee Valley Authority (TVA).

U.S. TREASURY SECURITIES: Securities issued by the U.S. Treasury and backed by the full faith and credit of the United States. Treasuries are considered to have no credit risk, and are the benchmark for interest rates on all other securities in the U.S. and overseas. The Treasury issues both discounted securities and fixed coupon notes and bonds.

Treasury bills: non-interest-bearing discount securities with maturities under one year issued by the U.S. Treasury to finance the national debt.

Treasury notes: interest-bearing obligations of the U.S. Treasury with maturities ranging from two to ten years from date of issue.

Treasury bonds: interest-bearing obligations issued by the U.S. Treasury with maturities that range from ten to thirty years from date of issue.

UNIFORM NET CAPITAL RULE: SEC Rule 15C3-1 outlining capital requirements for broker/dealers.

VARIABLE RATE NOTE: (See Floating Rate Note)

VOLATILITY: A degree of fluctuation in the price and valuation of securities.

WEIGHTED AVERAGE MATURITY (WAM): The average maturity of all the securities that comprise a portfolio. According to SEC rule 2a-7, the WAM for SEC registered money market mutual funds may not exceed 60 days and no one security may have a maturity that exceeds 397 days.

WHEN ISSUED (WI): A conditional transaction in which an authorized new security has not been issued. All "when issued" transactions are settled when the actual security is issued.

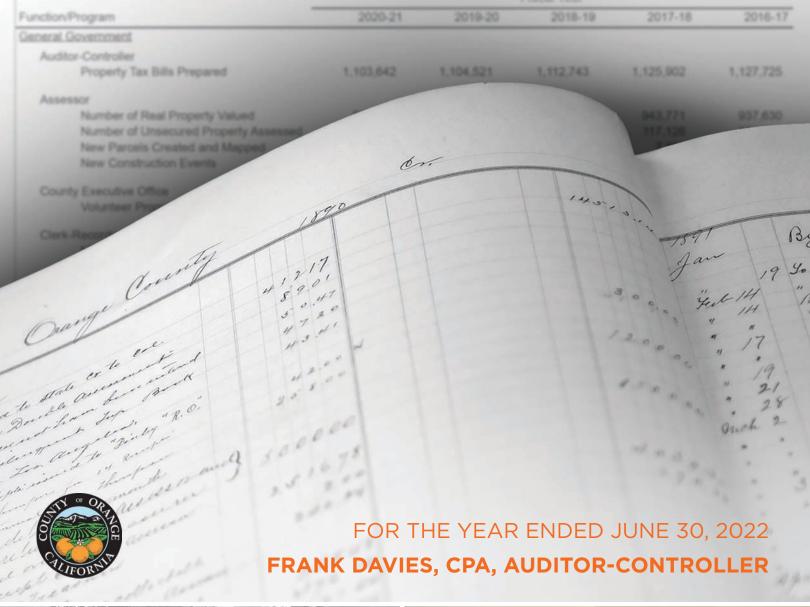

YIELD: The annual rate of return on a debt investment computed as though held to maturity expressed as a percentage.

YIELD TO CALL (YTC): The rate of return an investor earns from a bond assuming the bond is redeemed (called) prior to its nominal maturity date.

YIELD TO MATURITY (YTM): The rate of return earned on an investment considering all cash flows and timing factors: interest earnings, discounts, and premiums above par.

ZERO-COUPON BONDS/U.S. TREASURY STRIPS: A bond which represents ownership of a single coupon or principal payment due on a U.S. Treasury bond. Zeros or strips mature at face value at a specified date in the future and make no payments until that date. They always sell at a discount from face value.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

Each year the Orange County Auditor-Controller's Office prepares and publishes the County's Annual Comprehensive Financial Report (ACFR) for the prior fiscal year ending June 30. The document is prepared in accordance with Sections 25250 and 25253 of the Government Code of the State of California, and must be published no later than December 31. An outside auditing firm, Eide Bailly LLP, is retained to audit the report. The Auditor-Controller Financial Reporting Unit works tirelessly to ensure the report is not only on time, but is of the highest quality. Last year's report received, once again, the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting. This award is a prestigious national award recognizing excellence in State and local government financial reporting.

For the past 5 years, the ACFR has highlighted one of the County's various agencies through a representative photograph on the cover and interior tabs of the report. This year, we showcase our own department through a historic look at the crucial role the Auditor-Controller's Office and its employees have played in the County's financial operations. This year's cover image is a "then and now" look at Auditor-Controller staff, featuring County Auditor, Leslie H. Eckel, and his executive staff alongside our current Auditor-Controller, Frank Davies, and his Executive Management Team. Eckel served as County Auditor from 1941-1957, before the office was established as the Auditor-Controller in 1959. This historical theme is also carried over into the ACFR's accompanying Popular Annual Financial Report (PAFR), also known as the Citizens' Report. We hope you enjoy this historic look at the department and learn more about what our Auditor-Controller's Office employees handle on a daily basis.

In addition to the ACFR, the Auditor-Controller's Office has three Satellite units at John Wayne Airport, OC Waste & Recycling, and OC Community Resources with teams also working tirelessly to produce stand-alone financial statements. These statements are also audited by the outside auditing firm, Eide Bailly LLP. The statements provide a summary of those agencies' individual finances for the County's two Enterprise Funds, John Wayne Airport and OC Waste & Recycling, as well as for the County's Redevelopment Successor Agency, a Private-Purpose Trust Fund. To view the stand-alone Financial Statements, please visit ocauditor.com/reports and select "Component Unit Financial Statements".

Thank you to all the employees of the Auditor-Controller's Office for your ongoing hard work and dedication to the residents of Orange County.

To view this year's ACFR, please visit https://ocauditor.com/reports/acfrreports/

To view this year's PAFR, please visit https://ocauditor.com/reports/citizens-reports/

December 21, 2022

The Citizens of Orange County:

The Annual Comprehensive Financial Report (ACFR) of the County of Orange (County), State of California, for the year ended June 30, 2022, is hereby submitted in accordance with the provisions of Sections 25250 and 25253 of the Government Code of the State of California. The report contains financial statements that have been prepared in conformity with United States generally accepted accounting principles (GAAP) prescribed for governmental entities. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the County. A comprehensive framework of internal controls has been designed and established to provide reasonable assurance that the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and changes in financial position of County Funds. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatements.

The ACFR has been audited by the independent certified public accounting firm of Eide Bailly LLP. The goal of the independent audit was to provide reasonable assurance about whether the basic financial statements of the County for the year ended June 30, 2022, are free of material misstatement. The independent certified public accounting firm has issued an unmodified (clean) opinion on the County's basic financial statements as of and for the year ended June 30, 2022. The independent auditor's report is located at the front of the financial section of this report.

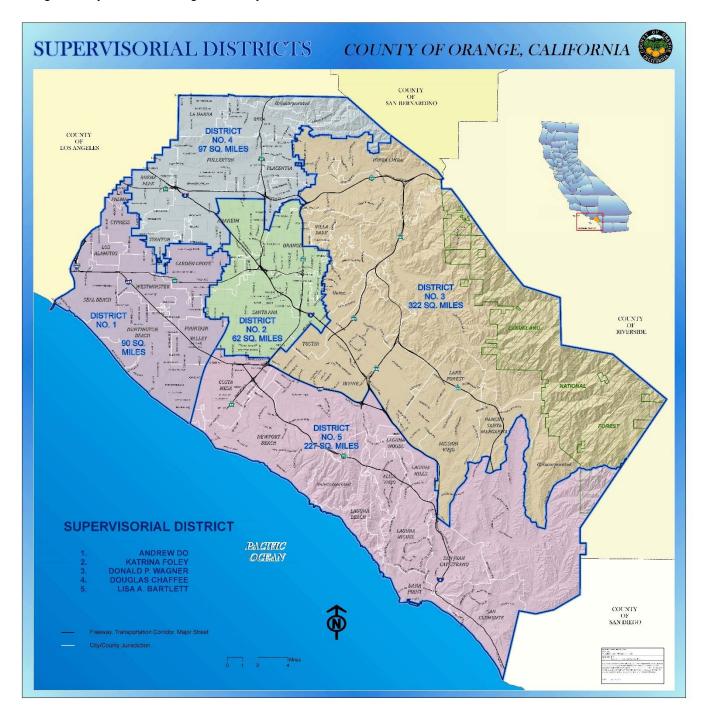

This letter of transmittal is designed to complement and should be read in conjunction with Management's Discussion and Analysis (MD&A) that immediately follows the independent auditor's report. MD&A provides a narrative introduction, overview, and analysis of the basic financial statements.

PROFILE OF THE GOVERNMENT

The County, incorporated in 1889 and located in the southern part of the State of California, is one of the major metropolitan areas in the state and nation. The County occupies a land area of 798 square miles with a coastline of 42 miles serving a population of over 3 million. It represents the third most populous county in the state and ranks sixth in the nation.

The County was incorporated as a general law County and converted to a charter county on March 5, 2002, with voter approval. In November 2008, voters approved Measure J, which added Article III, Section 301 to the Charter of Orange County requiring voter approval for increases in future retirement system benefits of any employee, legislative officer, or elected official of the County in the Orange County Employees Retirement System (OCERS) or any successor retirement system, with the exception of statutorily-established cost of living adjustments, salary increases, and annual leave, vacation, or compensatory time cash-outs. In June 2012, voters approved Measure B, which requires that any Orange County Supervisors elected on or after June 5, 2012 can enroll only in the minimum pension option, i.e., the least lucrative pension plan, offered to Orange County employees. At present, the minimum pension plan is a 1.62% at 65 pension plan. In June 2016, voters approved Measure B, which requires the County Auditor-Controller to review any Countywide measure placed on the ballot and prepare a fiscal impact statement.

The County is governed by a five-member Board of Supervisors (Board), who each serve four-year terms, and annually elect a Chair and Vice-Chair. The Supervisors represent districts that are each approximately equal in population. The district boundaries were revised effective January 6, 2022, incorporating the results of the 2020 census. A County Executive Officer (CEO) oversees 15 County departments, and elected officials serving as department heads oversee six County departments. The Supervisorial Districts map below shows the boundaries of Orange County and the areas governed by each member of the Board.

The County provides a full range of services Countywide, for the unincorporated areas, and contracted services for cities. These services are outlined in the following table:

Countywide Services		
Affordable Housing (Housing Authority)	Veterans Services	
Agricultural Commissioner	Indigent Medical Services	
Airport	Jails & Juvenile Facilities	
Child Protection & Social Services	Juvenile Justice Commission	
Child Support Services	Landfills & Solid Waste Disposal	
Clerk-Recorder	Law Enforcement	
Coroner & Forensic Services	Probationary Supervision	
District Attorney/Public Administrator	Public Assistance	
Elections & Voter Registration	Public Defender/ Alternate Defense	
Environmental/Regulatory Health	Public & Behavioral Health	
Flood Control & Transportation	Senior Services	
OC Parks	Collection & Appeals	
Disaster Preparedness	Weights & Measures	
Grand Jury	Property Tax Assessment, Apportionment/Billing, Collection & Receipt	
Public Guardian		

Unincorporated Area Services		
Animal Care & Control	Libraries	
Flood Control	Parks	
Land Use	Waste Disposal Collection	
Law Enforcement		

Contracted Services for Cities		
Animal Care & Control	Libraries	
Law Enforcement	Public Works & Engineering	
Utility Billing and Check Remittance Processing		

Sources: County departments

In addition to these services, the County is also financially accountable for the reporting of component units, which can be either blended or discretely reported. Blended units, although legally separate entities, are, in substance, part of the County's operations and, therefore, data from these units is combined with data of the County. The County has two discretely presented component units, the Children and Families Commission of Orange County (CFCOC) and CalOptima, which require discrete presentation in the government-wide financial statements. The County has one fiduciary component unit, OCERS. The following entities are presented as blended component units in the basic financial statements for the year ended June 30, 2022: Orange County Flood Control District (OCFCD), Orange County Housing Authority, Orange County Public Financing Authority, South Orange County Public Financing Authority, Capital Facilities Development Corporation, Orange County Public Facilities Corporation, County Service Areas, Special Assessment Districts, Community Facility Districts, and In-Home Supportive Services Public Authority. Additional information on these entities can be found in Note 1, Summary of Significant Accounting Policies, in the Notes to the Basic Financial Statements Section.

The County maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board. Activities of the General Fund and most of the Special Revenue, Debt Service, Capital Projects and Permanent Funds are included in the annual appropriated budget. The level of budgetary control (that level which cannot be exceeded without action by the Board) is at the legal fund-budget control-unit level, which represents a department or an agency. Budget-to-actual comparisons are provided in this report for each Governmental Fund for which an appropriated annual budget has been adopted. The Budgetary Comparison Statements for the General Fund and major Special Revenue Funds are part of the Basic Financial Statements. The Budgetary Comparison Schedules for the nonmajor Governmental Funds with appropriated annual budgets are

presented in the Supplemental Information Section for Governmental Funds. The County also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered appropriations do not lapse at year-end; outstanding encumbrances are carried forward. Additional information on the budgetary process can be found in Note 1, Summary of Significant Accounting Policies, in the Notes to the Basic Financial Statements Section.

The County's eGovernment website portal at http://www.ocgov.com provides online services and extensive information about County government to Orange County residents, businesses, partners, and visitors. The County's website provides information and online services to the public 24/7. It includes information about the Board, County job listings, purchasing bid solicitations, assessment appeals, links to court information and local court rules, voter information, County permits and forms, public safety, health and human services programs and financial information. The site also provides several online services, including live and archived Board meeting videos, the ability to order birth, death and marriage certificates, search fictitious business names, find polling locations and election results, how to license pets, pay property taxes and subscribe to receive emergency alerts. The County continuously strives to improve a constituent's ability to conduct business online with the County.

FACTORS AFFECTING ECONOMIC CONDITION

Local Economy

Two indicators of the County economy are: how well the local economy performs relative to surrounding counties, the State, and the Nation and its own historical trends. This section provides data for various indicators that summarize the current and projected outlook of the County's economy.

Various forecasts indicate that 2022 will be a year of economic slowdown. In terms of historical trends, current and projected activity suggests that economic growth at the local level will generally follow national and state trends.

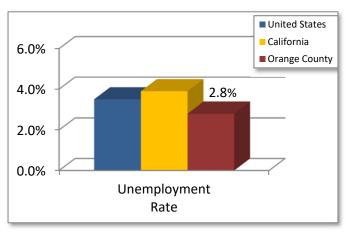

The County's unemployment rate continues to be lower than surrounding Southern California counties, the State, and the Nation (see Table 1).

According to the California Department of Finance, inflation, as measured by the Consumer Price Index (CPI), is expected to be 6.4% for Orange County, lower than both the State and U.S. at 6.5% and 6.9%, respectively, in FY 2021-22 (see Table 2).

Table 1: Unemployment Rate Comparison

Primary Government Entity	July 2022 Unemployment Rate
United States	3.5%
California	3.9%
Los Angeles County	5.0%
Riverside County	4.0%
San Bernardino County	3.9%
San Diego County	3.1%
Orange County	2.8%

Unemployment Rate

Note: Unemployment rates are for the month of July 2022

Table 2: 2022 - Projected Increase of the CPI

United States	California	Orange County
6.9%	6.5%	6.4%

Sources: State of California, Employment Development Department California Department of Finance, May 2022

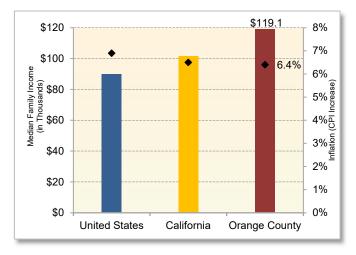

According to the Department of Housing and Urban Development, the County's median family income is expected to be \$119,100 (absolute dollars) in 2022, compared to \$106,700 (absolute dollars) in 2021. The median family income in the County continues to exceed all surrounding Southern California counties, the State, and the Nation (see Table 3).

Table 3: Median Family Income Comparison

Primary Government Entity	Median Family Income (absolute dollars)
United States	\$90,000
California	\$101,600
Orange County	\$119,100
San Diego County	\$106,900
Los Angeles County	\$91,100
Riverside County	\$87,400

Sources: U.S. Department of Housing and Urban Development, 2022

Comparisons of Inflation and Median Family Income

Sources: U.S. Department of Housing and Urban Development, 2022 California Department of Finance, May 2022 According to the California Association of Realtors, the median home sales price for existing single-family homes in Orange County was \$1,231,000 (absolute dollars) in July 2022, representing a 12.9% increase from July 2021. The median sales price in Orange County continues to exceed all surrounding counties (see Table 4).

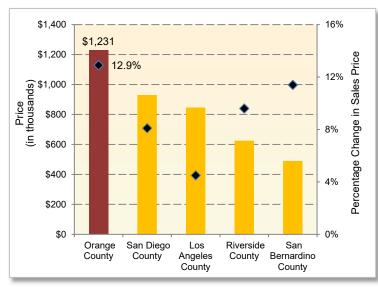

In terms of internal trends, current and projected indicators forecast modest growth in the Orange County economy, with job growth expected to increase by 5.1% in 2022.

Table 4: Median Home Sales Price Comparisonexisting single-family homes only Southern California Counties – August 2022

Primary Government Entity	Median Home Sales Price Change increase (decrease)	Median Home Sales Price (absolute dollars)
Orange County	12.9%	\$1,231,000
San Diego County	8.1%	\$930,000
Los Angeles County	4.5%	\$846,320
Riverside County	9.6%	\$625,000
San Bernardino Count	y 11.4%	\$490,000

Source: California Association of Realtors, August 2022

Comparison of Median Home Sales Price and Price Changes Among Counties

Source: California Association of Realtors, August 2022

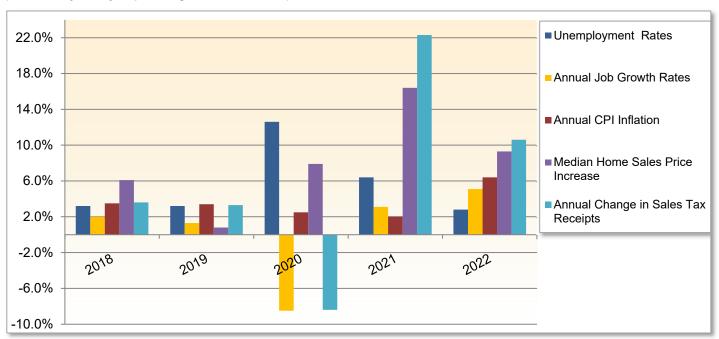

Table 5 shows various internal indicators reflecting modest growth of the County's economy. The unemployment rate decreased from 6.4% in July 2021 to 2.8% in July 2022. According to the June 2022 Chapman University Economic & Business Review, job growth is expected to increase by 5.1% in 2022; median home sales price for existing single-family detached homes are forecasted to increase by 9.3% in 2022, significantly lower than the 16.4% increase in 2021; and sales tax receipts are forecasted to increase by 10.6% in 2022. In summary, the economy in Orange County is forecasted to show modest growth.

Table 5: Orange County Historical Data

Historical Indicators	2018	2019	2020	2021	2022
Unemployment Rates	3.2%	3.2%	12.6%	6.4%	2.8%
Annual Job Growth Rates	2.0%	1.3%	(8.5%)	3.1%	5.1%
Annual CPI Inflation	3.5%	3.4%	2.5%	2.0%	6.4%
Median Home Sales Price Increase	6.1%	0.8%	7.9%	16.4%	9.3%
Annual Change in Sales Tax Receipts	3.6%	3.3%	(8.4%)	22.3%	10.6%

Data in Table 5 for prior years may be different from previous ACFR due to timing. Data for 2022 is preliminary or based on forecasted data.

Orange County Historical Data Comparison (Shown as a year-to-year percentage increase/decrease)

Long-Term Financial Planning

Strategic Financial Plan (SFP): In March 1997, the Board initiated an annual financial planning process that is a key component of the County's commitment to fiscal responsibility, accountability, and efficiency. The plan includes projections of County general purpose revenues, departmental projections of operating costs, revenues, capital and information technology needs for current programs and services and anticipated caseload changes. New programs, services and capital projects are identified and prioritized on a Countywide basis with financial impacts identified over the plan period. The plan covers a five-year period and includes a ten-year analysis of operating costs in cases where new programs and facilities are assessed to ensure the ability to pay for long-term operational costs.

The 2022 SFP was presented to the Board on January 24, 2023. The 2022 SFP is the foundation in planning for continued financial stability and is augmented by the monitoring and establishment of budgetary control via the budget reporting process and adoption of the Annual Budget. The five-year SFP projections indicate that General Purpose Revenue will grow, on average, about 3.0% annually. The moderate growth rate for revenue, coupled with the increasing cost of doing business, will require the County to carefully manage programs and service levels. The County

County of Orange Annual Comprehensive Financial Report For the Year Ended June 30, 2022 (Dollar Amounts in Thousands)

continues to believe that sustained job growth and reduced unemployment are the key indicators for economic growth.

In order to address identified budget issues and prepare for the continued uncertainty of the general and local economy, the following represent some of the actions taken or identified as options for early planning. Early action is critical to ensure baseline services are met and that the County continues to experience financial stability.

- The SFP reflects a 0% increase in Net County Cost for each of the five years presented, FY 2023-24 through FY 2027-28. General Purpose Revenue growth will be strategically allocated through the budget process consistent with the priorities identified in the SFP
- Continuation of the policy to not backfill State budget reductions
- Internal financing program to support major capital and information technology projects
- Maintaining prudent levels of General Fund and Contingency Reserves

The County continues to move forward on several large projects and initiatives identified below. In addition, the County is in various stages of planning and implementing several other projects. Planning and design has started for the second of three planned Be Well OC Wellness Hubs in the City of Irvine and construction continues for the second phase of the Civic Center Facilities Master Plan. Development of the County property at the former Marine Corps Air Station El Toro in Irvine and other various County-owned properties, such as with the Prado Dam, will require up-front financial planning and investment in order to generate revenue in future years on a long-term basis.

Santa Ana River Mainstem Project: The Santa Ana River Mainstem Project (SARMP) was initiated in 1964, in partial response to a resolution adopted by the United States House Committee on Public Works on May 8, 1964. A survey report was completed by the OCFCD in 1975. The report was reviewed and submitted to Congress in September 1978. In September 1980, the United States Corps of Engineers completed the General Design Memorandum for the SARMP. Construction for the SARMP was authorized by the Water Resources Development Act of 1988. Construction for the SARMP began in 1989. The project's major components are scheduled to be completed by December 2028.

The SARMP is designed to provide flood protection to the growing urban communities in Orange, Riverside and San Bernardino Counties. The proposed improvements to the system cover 75 miles, from the headwater of the Santa Ana River east of the City of San Bernardino to the mouth of the river at the Pacific Ocean between the cities of Newport Beach and Huntington Beach. The project will increase levels of flood protection to more than 3.35 million people within the three county areas. The project includes seven independent features: Seven Oaks Dam, Mill Creek Levee, San Timoteo Creek, Oak Street Drain, Prado Dam, Santiago Creek and the Lower Santa Ana River. More information on the SARMP is available in Note 15, Construction and Other Significant Commitments. To learn more about the SARMP, visit the Orange County Flood Control Division's website at https://ocip.ocpublicworks.com/service-areas/oc-infrastructure-programs/santa-ana-river-project.

OC Dana Point Harbor Revitalization Plan: The OC Dana Point Harbor Revitalization Plan (Plan) includes revitalization of Dana Point Harbor's commercial core, marinas, and hotel. The Plan is a multi-phased and long-term public-private partnership project, where total development costs have been estimated in excess of \$400,000. These development costs will be funded by the developer, not the County. The Plan is a phased and systematic long-term rehabilitation or replacement of the commercial core, hotel, and waterside elements. On October 17, 2017, the County selected Dana Point Harbor Partners, LLC (DPHP) as the primary developer and Dana Point Partners, LLC as the alternate developer for the lease, development, and management of certain portions of Dana Point Harbor. On July 17, 2018, the Board approved option and ground lease agreements with DPHP to administer and manage Dana Point Harbor and initiate entitlement approvals for certain portions of Dana Point Harbor for the long-term use and enjoyment by the public.

To date, DPHP has received entitlements for two of the three Harbor components, the Marina and Commercial Core, including the surface parking, parking structure and appurtenant facilities to serve these uses and the public. The third component, the Hotel, is currently in process with the City of Dana Point (Dana Point) and the California Coastal Commission. As permitted within the original approvals, the Dana Point has also approved and issued substantial conformance plan determinations covering updates and refinements for the Commercial Core portion, as the original conceptual plans have developed into construction documents. As of September 2022, permits have been issued for the Marina (docks and slips) portion of the Harbor revitalization and those improvements are currently underway. Construction documents for all segments of the Commercial Core (new or remodeled buildings and associated public spaces) are currently under plan check review with the County. More information on the Dana Point Harbor Revitalization is available in Note 7, Service Concession Agreements.

James A. Musick Facility Expansion: The James A. Musick Facility Expansion project is a multi-year project that includes construction of two inmate housing units with approximately 512 beds and two inmate rehabilitation, treatment, and housing units with approximately 384 beds. The expansion also includes administrative and support space, a warehouse/maintenance building, and infrastructure and site improvements. Housing units are designed for direct supervision of minimum and medium security inmates, providing a program aimed at reducing recidivism rates and increasing public safety. Programming includes specialized education and enhanced vocational tracks that individuals in custody will be able to participate in that meet their specific needs. The programming services will include three separate tracks which inmates can voluntarily participate in. The educational track will provide assistance with a high school diploma or HiSet, thereby increasing reading, writing, and math skills. The enhanced vocational track will focus on technology-based programming, food service based programming, and skill trade programming. The Reentry track will focus on helping an individual with life skills and changing negative thought processes. Each client will have a Reentry Coordinator working with them through their time in custody to ensure that they are meeting their goals. In addition, an individualized discharge plan will be created to ensure direct linkage to service providers immediately post release.

On May 5, 2020, the County awarded a construction contract to Bernards Bros., Inc. for the project in the amount of \$261,118 and also approved a five percent construction contingency amount of \$13,056. The total project construction cost is estimated to be \$308,000 including, owner-carried insurance, construction management, special inspections and utility fees. The cost is funded by \$180,000 from AB900 and SB 1022 State funding and \$147,000 from the County's General Fund. As of July 2022, the County has received a total of \$99,002 in reimbursements from the State. The project is 67% complete and is scheduled to be completed in July 2023.

Westminster Watershed Feasibility Study/East Garden Grove Wintersburg Channel (Project): OC Public Works (OCPW) completed work with the Army Corps of Engineers (USACE) to finalize the Westminster Watershed Feasibility Study to reach the final milestone of the Chief's Report issued on July 9, 2020. OCPW is under a Design-Build contract to construct reaches covered by the study while receiving Work-In-Kind credit towards OCFCD's portion of the expected 65% Federal and 35% Non-Federal cost share.

Improvements to OCFCD facilities will benefit several cities including Huntington Beach, Fountain Valley, Westminster, Garden Grove, Santa Ana and Seal Beach. As part of the Study, USACE conducted public hearings and continues to incorporate refinements to cost analyses. The cost estimates from the study indicate that total construction cost is approximately \$1,224,000 for the Project; however, final analyses will provide a better estimate. Authorization is required by Congress through the Water Resources Development Act of 2020. Appropriations would then be needed to establish funding for the Project.

USACE is requesting federal funding for completing the upcoming Preliminary Engineering & Design phase under the continued partnership with OCFCD who will be contributing 50% of the costs.

Two projects for the East Garden Grove Wintersburg Channel have been planned for construction by OCPW ahead of the formal partnership agreement with USACE for the federal project. The first project includes channel improvements from Warner Ave. to Goldenwest St. with construction estimated at \$83,000 from FY 2019-20 to FY 2022-23. Construction costs incurred for this Project through June 30, 2022 are \$63,730 and design costs through June 30, 2022 are \$3,197. Completion is scheduled for December 2022. Construction for the Warner Ave., Springdale St., and Edwards St. bridge crossings improvements is estimated at \$18,233 in FY 2022-23 and design costs through June 30, 2022 are \$274. The bridge improvements are required so that expected flood control benefits are realized for the Warner to Goldenwest channel reach.

<u>Orange County Civic Center Facilities Master Plan</u>: In 2013, the Board adopted an ordinance approving a public-private partnership to develop the Civic Center Facilities Strategic Plan (Master Plan). The Master Plan incuded several phases of development with the first phase focused on the general government administration buildings in the center of the Civic Center area.

On April 25, 2017, the Board approved the construction of the new County Administration South (CAS) and establishment of a nonprofit corporation as it related to the financing of CAS and the Master Plan. CAS was completed in November 2019 and is a state-of-the-art facility that has been LEED Certified, meaning it meets the extensive criteria signifying a healthy, highly efficient, cost saving, green building. CAS is occupied by several County departments and includes a one-stop shop public counter where the public has access to services from multiple departments. CAS was

County of Orange Annual Comprehensive Financial Report For the Year Ended June 30, 2022 (Dollar Amounts in Thousands)

financed through a Board adopted ordinance on May 9, 2017, identifying the legal authority for the issuance of bonds, approving a Ground Lease, a Facility Lease, and forming the Capital Facilities Development Corporation (Corporation). In total, the California Municipal Finance Authority (CMFA) issued \$152,400 Lease Revenue Bonds and pursuant to a loan agreement, the CMFA loaned a total of \$175,340 to the Corporation for the construction. Upon filing the certificate of substantial completion, the County commenced base rental payments, under the Facility Lease, to repay the loan to the CMFA, which pays debt service to the bondholders.

On June 26, 2018, the Board approved the planning and design of a new County Administration North (CAN), within the Civic Center, as a twin building of the above CAS Building; a six-story, approximately 254,000 square foot, with 332 underground parking spaces and an additional 196 surface parking spaces. CAN was completed in July 2022 and is occupied by several County departments, including the County Executive Office and Board of Supervisors and includes a Board Hearing room. Similar to CAS, CAN was also financed through a Board adopted ordinance identifying the legal authority for the issuance of bonds, approving a Ground Lease, a Facility Lease, and using the Corporation. The CMFA issued \$185,705 Lease Revenue Bonds and loaned a total of \$212,304 to the Corporation, pursuant to a loan agreement, for the construction. Upon filing the certificate of substantial completion, the County will commence base rental payments in FY 2022-23, under the Facility Lease, to repay the loan to the CMFA, which pays debt service to the bondholders.

Additional phases included in the Master Plan are still being developed.

Be Well Campuses: A site in the Great Park in Irvine has been identified as the second location for the Be Well Irvine campus to be established through a public-private partnership with Mind OC, with a long-term ground lease established. This is currently in the planning phase with implementation anticipated in the first quarter of 2023. Development plans currently include three phases under the option agreement with the first phase involving crisis stabilization units, residential treatment services, and outpatient services for children, adolescents and adults. The second will include an adult sobering station and provide substance use and perinatal residential services for women and children and outpatient services for children and youth, including their families. The third and final phase will include education and training, a community meeting and events center, youth and senior centers and interfaith shared-use space. The campus will be organized as follows:

- Wellness Navigation Center: A single point of entry navigation service to help residents find and connect
 with a broad range of services across the Orange County system, including suicide prevention, substance
 use, depression and related disorders, domestic violence, sexual assault, grief, isolation, child and elder
 concerns and critical incident debriefings.
- Be Well Center: Behavioral health and substance use services, which include Crisis Restorative Care, Mind and Body Resiliency Training, Outpatient Mental Wellness Care and Transitional Support.
- Community and Family Center: A multi-entity health care collective including local Orange County public
 and private health systems and will integrate health clinics with youth and community education, enrichment
 and experimental learning spaces.

The Be Well Irvine campus is currently in the planning and design phase with construction scheduled to begin early 2023. In consideration of the public benefit afforded by the Be Well Campus and Mind OC's operation of the Project, the annual rent will be one dollar.

OC CARES Initiatives: OC CARES links the five systems of care in the County (behavioral health, healthcare, community corrections, housing, and benefits & support services) to provide full care coordination and services to address immediate and underlying mental health issues and work towards self-sufficiency. Currently, projects and programs are guided by the OC CARES, Justice Through Prevention and Intervention 2025 Vision overseen by the Orange County Criminal Justice Coordinating Council. The focus is on increasing diversion options from pre-arrest to reintegration that involve treatment, specialty courts, and supportive services. Below is a listing of the significant projects in progress:

- Behavioral Health Public Safety Response Team: Expansion of the behavioral health response team
 consisting of specialized Sheriff Deputies and mental health clinicians to support calls for service with a
 mental health or substance use nexus and provide diversion options, conduct research, and serve as a
 resource for the community.
- Coordinated Reentry System: Developing and implementing coordinated reentry services including regional reentry offices, mobile units, centralized reentry center, and workforce entry program to increase accessibility and linkages to services to meet the needs of the justice-involved population for successful reintegration.

- Juvenile Corrections Campus: Revitalize the existing Juvenile Hall to establish a Youth Transition Center
 that fully utilizes existing space to provide camp programming, education services, health and mental health
 services, and housing for juvenile and transition aged youth offenders, including those realigned from the
 State Correctional System.
- Housing for Transitional Aged Youth (TAY): Establish transitional and permanent supportive housing and
 placement services for youth and TAY involved in the juvenile justice system that includes treatment for
 substance use, mental health issues or for those involved in the Commercial Sexual Exploitation of Children
 population.
- Access to Permanent Supportive & Affordable Housing: In alignment with the County's Housing Strategy,
 efforts are continuing to create 2,700 subsidized housing units that combine affordable housing assistance
 with voluntary support services to address the needs of chronically homeless individuals. The Housing
 Strategy is currently in the process of being revised based on the most recent Point-in-Time homeless count
 conducted in February 2022.

Relevant Financial Policies

To achieve the goal of providing outstanding and cost-effective regional public services, the County applies sound management practices and policies that enhance the quality of life of its citizens. Such financial management practices have been identified by the Government Finance Officers Association (GFOA) of the United States and Canada and recognized by Fitch Ratings as best practices that promote financial soundness, efficiency in government, and solvency in public finance.

General Fund Reserves Policy

The County General Fund Reserves Policy provides guidance in the creation, maintenance and use of reserves. The policy covers formal and informal reserves, and includes provisions for reserves such as appropriations for contingencies, reserve-like appropriations, and reserve-like funds held by others such as the OCERS Investment Account. The policy also recognizes whether funds are legally required or discretionary or have special restrictions. The reserves policy is maintained and updated, as needed, through the County's annual SFP process. The reserves policy targets and balances are included in the annual SFP document.

The General Fund Reserves policy is designed to provide flexibility to the County as well as the following:

- Resources to address unanticipated or cyclical economic conditions
- Resources for emergencies and/or catastrophic events
- Mitigation of the volatility of revenues and expenditures in managing temporary cash flow shortages
- Capacity to cover unexpected large one-time expenses and opportunities
- Capacity to fund capital investments
- Capacity to minimize borrowing costs
- Capacity to provide some level of protection against statutory changes to County revenues and impacts from federal and state actions

The County has a variety of reserve funds available to both the General Fund and Non-General Funds including:

- Fund Balance Assigned for Contingencies
- Fund Balance Assigned for Operations
- Fund Balance Assigned for Construction and Maintenance
- Fund Balance Assigned for Capital Projects
- Fund Balance Assigned for Teeter Loss Reserve
- Fund Balance Assigned for Reserve Target
- Reserve-Like Funds
- Reserve-Like Appropriations
- Department-Type Reserves

All of the previously mentioned are reserves normally modified at the time of budget adoption (Government Code Section 29085) or at fiscal year-end. Changes to reserve amounts at other times require a 4/5 vote of the Board. A

4/5 vote is also required to make such reserves available for appropriation to expend the funds, if needed, during the fiscal year (Government Code Section 29130).

Reserve Targets and Descriptions

Under GFOA recommended practice, the County establishes an overall reserve target and allocates the calculated target among the classes of obligated fund balances as appropriate. The County may fund more or less to each reserve class for a variety of reasons, such as its current financial condition, the need to set aside for particular goals or directives, the need to bridge one-time gaps, etc. The goal is to ensure a prudent reserve balance that is maintained and replenished on a regular basis. In implementing the GFOA's best practice, the County elected to establish a funding target based upon two months of General Fund operating revenues.

Contingencies

The purpose and use of this reserve is to cover unanticipated and severe economic downturns, major emergencies, or catastrophes that cannot be covered with existing appropriations. In particular, continued drought conditions with the attendant risk of wildfires, highlights the potential for catastrophic events within the County. A significant event could create the need for a higher funding level of this reserve. The target amount for this reserve is 15% of ongoing annual General Purpose Revenues (excluding Fund Balance Unassigned and one-time amounts and transfers).

The following table summarizes the County's financial management practices:

Relevant Financial Policies				
Multi-Year SFP	The County's SFP is based on a five-year financial forecast and includes a 10-year analysis of operating costs in cases where new programs and facilities are recommended to ensure the ability to pay for long-term operational costs. Performance measures and strategies are key elements of the SFP process.			
Five-Year Capital Improvement Plan	The County's five-year Capital Improvement Plan (CIP) is a long-term list of significant projects funded by the General Fund in the Capital Projects budget. It also includes the five-year capital program for Non-General Fund agencies. The CIP aids the County in its assessment of the best use of funds available in order to establish and prioritize its capital asset goals, while maintaining long-term financial stability.			
Information Technology Projects	The five-year Information Technology Plan (ITP) is a compilation of significant IT projects including upgrades or replacements of existing systems, greater or equal to \$150 and less than \$1,000 in any one fiscal year of the five years in the plan. Costs for ongoing system support and maintenance are included. The ITP is a tool used by the County to assess IT projects, leverage overlap, and prioritize the use of County General Funds available to IT projects.			
Mid-Year Budget Report	The County Executive Office issues mid-year budget reports that provide the Board, County departments, members of the public, and other interested parties with an overview of the current status of budgeted revenues and expenditures, total budgeted positions and various departmental issues requiring adjustments to the County's budget.			
Annual Budget Policies and Guidelines	The Annual Budget reflects the County's disciplined approach to fiscal management and is consistent with the County's SFP process. Department budgets are consistent with the priorities and operations plans contained in the SFP. Departments use these planning processes, along with outcome indicators, to evaluate programs and redirect existing resources as needed for greater efficiency to reduce costs and minimize the need for additional resources.			

Relevant Financial Policies (Continued)				
Fund Balance Reserve Policy	The County General Fund currently contains formal and informal reserve appropriations for contingencies, appropriated reserve-type funds, and reserves he others. The purpose of these reserves is to protect community programs and serve from temporary revenue shortfalls and provide for unpredicted, sudden unavoidable one-time expenditures.			
Contingency Planning Policy	The County's General Fund maintains a reserve for contingencies, which was established through the SFP process. The target amount for this reserve is 15% of ongoing annual General Purpose Revenues (excludes fund balance unassigned and one-time amounts and transfers), or \$145,020. This compares to the GFOA guidelines for funding contingencies at 15% or higher. In addition to the reserved for contingencies, the County budgets an annual appropriation for significant unanticipated emergencies, catastrophes, one-time expenditures and opportunities of no less than \$10,000 in the General Fund.			
Debt Disclosure Practices	The County presents a set of debt disclosures in the County's adopted Budget document and the ACFR, as well as Continuing Disclosure Annual Reports on its website and the Electronic Municipal Market Access (EMMA) repository.			
Pay-as-you-go Capital Funding	The County's long-term practice has been to use pay-as-you-go funding for capital projects whenever possible. The use of systematic long range financial planning assists in making fiscal decisions such as debt vs. pay-as-you-go capital project financing. The SFP forecasts sources of the County's revenue and operating expenses and incorporates a list of previously identified and prioritized projects that will benefit the citizens of the County. The financial planning for capital projects considers the County's limited funding sources, the capital and operating costs, useful life of projects, and good business practices.			
Credit and Debt Management Policy	The County's long-term practice has been to rapidly repay debt when practicable. The Policy is intended to maintain long-term financial stability by ensuring that its long-term financing commitments are affordable and do not create undue risk or burden, achieve and maintain high credit ratings, minimize debt service interest expense and issuance costs, provide accurate and timely financial disclosure and reporting, and comply with applicable State and Federal laws and financing covenants.			
Public Financing Advisory Committee	The Public Financing Advisory Committee (PFAC) is responsible for the review, approval, and modification or denial of debt financing proposals. No County debt financing proposal is considered by the Board unless recommended in writing by the PFAC. The PFAC membership consists of the following: five public voting members, each representing a district, and three Ex-Officio County government members (the County Executive Officer, the elected Treasurer-Tax Collector, and the elected Auditor-Controller) (non-voting).			
Audit Oversight Committee	The Audit Oversight Committee (AOC) is an advisory committee to the Board that provides oversight of the activities of the County's Internal Audit Department, performance audit function, and the County's external audit coverage including financial reporting and federal and state audit activities. The AOC membership includes the Chair and Vice-Chair of the Board, the County Executive Officer, the elected Treasurer-Tax Collector (non-voting), the elected Auditor-Controller (non-voting), and five private sector members appointed by the Board. The private sector members are appointed by the Board for a term of four years and may be reappointed or removed by the Board.			

Relevant Financial Policies (Continued)				
Treasury Oversight Committee	The Treasury Oversight Committee (TOC) is responsible for reviewing and monitoring the annual Investment Policy Statement (IPS). In addition, the TOC causes an annual audit of the County's compliance with the IPS. The TOC shall also investigate any and all irregularities in the treasury operations, which become known to the TOC. The TOC has an approved policy to investigate and report such irregularities. Annually, the TOC reviews the IPS, including all proposed changes to IPS. The elected Treasurer-Tax Collector then submits the IPS to the Board for approval, including any changes thereto. The TOC membership consists of the following: the elected Auditor-Controller, the County Executive Officer, the elected County Superintendent of Schools, or their respective designees, and four public members. The public members shall be nominated by the elected Treasurer-Tax Collector and confirmed by the Board.			
24/7 Fraud Hotline	The Fraud Hotline is part of an ongoing fraud detection and prevention effort. The Fraud Hotline is intended for use by County employees, the general public, or vendors for reporting suspected waste, fraud, violations of County policy or misuse of County resources by vendors, contractors or County employees.			

Major Initiatives

<u>Funding Equity:</u> The County hovers at the bottom of funding for counties statewide, receiving the lowest percentage of property taxes in California to support services, about 5 cents on the dollar; while the state average is 14 cents. The formula for returning local property taxes to the counties where they were collected was set in 1978 and has not been updated since. This systematically disadvantages the County's ability to provide services to its diverse population.

The County's predicament does not have easy fixes. Shifting funding formulas could affect other counties receiving more of their share of taxes, as well as other taxing entities such as cities, special districts, and schools, which have constitutional protections for state funding. Therefore, the answer to assuring funding equity for the County lies in increasing funding, programs, and partnerships that specifically benefit County programs and services. When the state shifts or adds responsibilities at the county level, the County will seek enough funding for those programs to ensure their success. The County's robust legislative agenda seeks creative and substantive ways to assure our residents are provided with their fair share of the taxes they pay to support the programs and services they deserve.

<u>Labor Agreements:</u> Most County employees are represented by one of 21 bargaining units, which are separated into eight labor organizations. The principal organization is the Orange County Employees Association (OCEA), which represents six bargaining units totaling about 9,516 employees in budgeted positions. The next largest unions are the Association of County Deputy Sheriffs (AOCDS), which represents four bargaining units totaling about 2,635 members and the American Federation of State and Municipal Employees (AFSME) at about 1,510 members. All contracts have been successfully negotiated and County employees continue to work under their contract terms and conditions of employment.

AWARDS AND ACKNOWLEDGEMENTS

<u>GFOA Awards:</u> The GFOA awarded the Triple Crown Medallion, which recognizes that the County received all three GFOA Awards:

The Certificate of Achievement for Excellence in Financial Reporting for its ACFR for the year ended June 30, 2021; this represents the County's 27th consecutive award. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized ACFR, whose contents conform to program standards. Such an ACFR must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to meet the Certificate of Achievement Program's requirements and we will submit it to the GFOA to determine its eligibility for another certificate.

In addition, the County received the GFOA Award for Outstanding Achievement in Popular Annual Financial Reporting for its Popular Annual Financial Report (PAFR) titled the "OC Citizens' Report" for the year ended June 30, 2021; this represents the County's 19th consecutive award. The award is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports. In order to be awarded, a government must publish a PAFR that reflects the program standards of creativity, presentation, understandability, and reader appeal. The "OC Citizens' Report" is available for viewing at www.ac.ocgov.com.

The GFOA also awarded a Distinguished Budget Presentation Award to the County for its FY 2021-22 Annual Budget; this is the County's 6th award. The award is the highest form of recognition in governmental budgeting. In order to receive the award, the entity had to satisfy nationally recognized guidelines for effective budget presentation. These guidelines are designed to acknowledge how well an entity's budget serves as a policy document, a financial plan, an operations guide, and a communications device.

<u>Counties Financial Transactions Reporting Award:</u> The County received the Financial Transactions Reporting Award from the State Controller's Office for its Year-End Financial Transaction Report for the fiscal year ended June 30, 2021. The award is in recognition of the professionalism demonstrated by counties in preparing accurate and timely financial reports and for those counties that meet the review criteria of the award program.

<u>Acknowledgments:</u> We would like to express our sincere appreciation to County staff and the staff of the certified public accounting firm of Eide Bailly LLP. We hope this report will be of interest and use to those in county government, other governmental agencies, and the public interested in the financial activities of the County of Orange.

Respectfully submitted,

Frank Davies, CPA Auditor-Controller Michelle Aguirre

Independent Auditor's Report

To the Board of Supervisors County of Orange, California

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Orange, California (County) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2022, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General fund, Flood Control District fund, Other Public Protection fund and Mental Health Services Act fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Orange County Health Authority, a Public Agency/dba Orange Prevention and Treatment Integrated Medical Assistance (Cal Optima) and Orange County Employees Retirement System (OCERS), which represent the following percentages of assets, net position/fund balances and revenues of the opinion units listed below as of and for the year ended June 30, 2022:

	<u>Assets</u>	Net Position	Revenues
<u>CalOptima:</u> Aggregate discretely presented component units	97.7%	95.7%	99.4%
OCERS:			
Aggregate remaining fund information	69.6%	70.6%	14.8%

Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for CalOptima and OCERS, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Adoption of New Accounting Standard

As discussed in Notes 2 and 13 to the financial statements, the County has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*, for the year ended June 30, 2022. Accordingly, a restatement has been made to the governmental activities, business type activities, General fund, Flood Control District, Airport, OC Waste & Recycling, and aggregate remaining funds (Internal Services Funds and other governmental funds) net position/fund balance as of July 1, 2021, to restate beginning net position/fund balance. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and the schedules for the OCERS plan, Orange County Extra-Help Defined Benefit plan, and the Orange County Retiree Medical plan be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual nonmajor fund financial statements and budgetary comparison schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2022, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) (UNAUDITED)

This section of the County's ACFR provides a narrative overview and analysis of the financial activities of the County for the year ended June 30, 2022. We hope that the information presented here, in conjunction with the Letter of Transmittal, provides a clear picture of the County's overall financial status. Unless otherwise indicated, all amounts in this section are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

- Total change in net position, which is the difference between total revenues (including transfers in) and expenses (including transfers out), was \$1,383,660 for the fiscal year, and it increased net position by 38% from prior year.
- Long-term debt obligations increased by \$19,387 or 3% during the current fiscal year.
- The County's governmental funds reported combined ending fund balances of \$3,174,931, an increase of \$420,458 or 15% in comparison with the prior year.
- General Fund revenues and other financing sources ended the year 7% below budget.
- General Fund expenditures and other financing uses ended the year 15% below budget.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements presented in the County's ACFR are divided into three different sections:

- Government-wide Financial Statements
- Fund Financial Statements and Budgetary Comparison Statements
- Notes to the Basic Financial Statements

Government-wide					
Financial Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds		
Statement of	Balance Sheet	Statement of Net Position	Statement of Fiduciary		
Net Position	Statement of Revenues, Expenditures, and	Statement of Revenues, Expenses, and Changes in	Net Position		
Statement of	Changes in Fund Balances	Fund Net Position	Statement of		
Activities	Budgetary Comparison Statements	Statement of Cash Flows	Changes in Fiduciar Net Position		

The following table summarizes the major features of the basic financial statements:

	Government-wide		Fund Financial Statements	s
	Financial Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Type of Financial Statement	Statement of Net Position	Balance Sheet	Statement of Net Position	Statement of Fiduciary Net Position
	Statement of Activities	Statement of Revenues, Expenditures, and Changes in Fund Balances Budgetary Comparison Statements	Statement of Revenues, Expenses, and Changes in Fund Net Position Statement of Cash Flows	Statement of Changes in Fiduciary Net Position
Scope	Entire entity (except fiduciary funds)	Day-to-day operating activities for basic services	Day-to-day operating activities for business-type services	Resources held on behalf of others
Accounting Basis and Measurement Focus	Accrual accounting and economic resources measurement focus	Modified accrual accounting and current financial resources measurement focus	Accrual accounting and economic resources measurement focus	Accrual accounting and economic resources measurement focus
Type of Asset, Deferred Outflows of Resources, Liability, and Deferred Inflows of Resources Information	All assets, deferred outflows of resources, liabilities, and deferred inflows of resources, both financial and capital, short-term and long-term	Current assets, liabilities, and deferred inflows of resources that come due during the year or soon thereafter	All assets, deferred outflows of resources, liabilities, and deferred inflows of resources both financial and capital, short- term and long-term	All assets, deferred outflows of resources, liabilties, and deferred inflows of resources held in a trustee or custodial capacity for others
Type of Inflow and Outflow Information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during the year or soon thereafter; expenditures when goods or services have been received and the related liability is due and payable	regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid

Government-wide Financial Statements

The government-wide financial statements consist of the following two financial statements: the Statement of Net Position and the Statement of Activities. Both of these statements were prepared using an accounting method and a measurement focus similar to those used by private-sector companies, the <u>accrual basis of accounting</u> and the <u>economic resources measurement focus</u>. The **Statement of Net Position** provides information regarding <u>all</u> of the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. The **Statement of Activities**, on the other hand, provides information on how the government's net position changed during the most recent fiscal year regardless of the period when the related cash or cash equivalent is received or paid. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (for example, uncollected taxes, and earned but unused vacation leave).

The Statement of Net Position and the Statement of Activities distinguish functions of the County that are principally supported by taxes (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include (1) general government, (2) public protection, (3) public ways and facilities, (4) health and sanitation, (5) public assistance, (6) education, and (7) recreation and cultural services. The business-type activities of the County include John Wayne Airport (Airport), OC Waste & Recycling, and Compressed Natural Gas (CNG).

The government-wide financial statements also provide information regarding the County's component units, entities for which the County (the primary government) is considered to be financially accountable. Blended component units, although legally separate entities, are in substance part of the County's operations; therefore, data from these component units are combined with data of the primary government. Financial information for the CFCOC and CalOptima, discretely presented component units, are reported separately from the financial information presented for the primary government itself. Separate stand-alone annual financial reports can be obtained by accessing the County's website at the following address: www.ac.ocgov.com. A separate stand-alone CalOptima annual financial report can be obtained by accessing the website at http://wpso.dmhc.ca.gov/fe/search/.

Fund Financial Statements

- Fund a separate accounting entity with a self-balancing set of accounts.
- Focus is on <u>major funds</u>.
- Provides information regarding the three major categories of all County funds: governmental, proprietary, and fiduciary.

The fund financial statements report on groupings of related funds that are used to maintain control over resources that have been segregated for specific activities or objectives. A fund is a separate accounting entity with a self-balancing set of accounts. Like other state and local governments, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of governmental and proprietary fund financial statements is on major funds as determined by the criteria set forth in Governmental Accounting Standards Board (GASB) Statement No. 34, "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments," and GASB Statement No. 65, "Items Previously Reported as Assets and Liabilities." All of the County funds can be divided into three major categories of funds: governmental, proprietary, and fiduciary.

<u>Governmental Funds</u> - Governmental funds include most of the County's basic services and are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements are prepared using the modified accrual basis of accounting and current financial resources measurement focus.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Reconciliations are prepared for the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances to facilitate comparisons between governmental funds and governmental activities. The primary differences between the government-wide and fund financial statements relate to noncurrent assets, such as land

and structures and improvements, and noncurrent liabilities, such as bonded debt and amounts owed for compensated absences, financed purchases, leases, net pension liability and Other Postemployment Benefits (OPEB), which are reported in the government-wide statements but not in the fund financial statements.

The County maintains several individual governmental funds organized according to their type (General Fund, Special Revenue, Debt Service, Capital Projects and Permanent funds). Information is presented separately in the governmental funds balance sheet and in the statement of revenues, expenditures, and changes in fund balances for the General Fund, which is always a major fund, and all other major funds which may change each year depending on if they meet the major funds criteria. Information for nonmajor funds is presented in the aggregate as "Other Governmental Funds" in these statements. Individual fund data for each of the nonmajor governmental funds is presented in the Supplemental Information Section of this ACFR. The County adopts an annual appropriated budget for its governmental funds. Budgetary comparison statements and schedules have been provided for these funds to demonstrate compliance with the budget and are presented in the Basic Financial Statements and Supplemental Information Section of this ACFR, respectively.

<u>Proprietary Funds</u> - The County maintains two different types of proprietary funds: Enterprise funds and Internal Service funds. **Enterprise funds** are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its Airport, OC Waste & Recycling, and CNG activities. **Internal Service funds** are used to accumulate and allocate costs internally among the County's various functions such as insurance, transportation, publishing services, and information technology. Because these services predominantly benefit governmental rather than business-type functions, Internal Service funds have been included within governmental activities in the government-wide financial statements.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Airport and OC Waste & Recycling operations, which are both considered to be major funds of the County. Conversely, the Internal Service funds are combined into a single, aggregated presentation in the proprietary fund financial statements with the individual fund data provided in the combining statements, which can be found in the Supplemental Information Section of this ACFR.

<u>Fiduciary Funds</u> - Fiduciary funds include the **Trust** and **Custodial** funds and are used to account for assets held on behalf of outside parties, including other governments. Financial information for fiduciary funds is <u>not</u> reported in the government-wide financial statements because the resources of these funds are not available to support the County's programs. The combining statements for fiduciary funds are included in the Supplemental Information Section of this ACFR.

Notes to the Basic Financial Statements

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. To find a specific note, refer to the Table of Contents.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the County's financial position. At June 30, 2022, the County's combined net position (governmental and business-type activities) totaled \$5,046,927, an increase of 38% from June 30, 2021.

The largest component of the County's net position, which totals \$4,287,215 was **net investment in capital assets**, which represents the County's investment in capital assets, less any related outstanding debt used to acquire those assets and debt-related deferred outflows and inflows of resources. The County's capital assets are used to provide needed services to its citizens. Since the capital assets themselves cannot be used to liquidate the associated debt, the resources needed to repay the debt must be provided from other sources.

COMPONENTS OF NET POSITION

- Net Investment in Capital Assets
- Restricted
- Unrestricted

The County's **restricted** net position of \$1,808,605 represents resources that are subject to external restrictions on their use and are available to meet the County's ongoing obligations for programs with external restrictions. External restrictions include those imposed by grantors, contributors, laws/regulations of other governments, or restrictions imposed by law through constitutional provisions or legislation, including those passed by the County itself.

The **unrestricted** net position is the final component of net position. Unrestricted net position is resources that the County may use to meet its ongoing obligations to citizens and creditors. As of June 30, 2022, the County's unrestricted net position totals a deficit of \$1,048,893. Among governmental activities the deficit was \$1,718,846 in unrestricted net position, compared to its deficit of \$3,046,351 at June 30, 2021. The main contributor of the deficit continues to be the reporting of the County's proportionate share of net pension and OPEB liability on the financial statements.

The following table presents condensed financial information derived from the government-wide Statement of Net Position:

NET POSITION – Primary Government June 30, 2022 and 2021

As of June 30, 2022, the County's total assets and deferred outflows of resources increased by 12% or \$1,354,726 during the current fiscal year. There was an increase of \$832,475 in current and other assets, which is primarily attributable to an overall increase in cash and cash equivalents as a result of federal assistance received from the American Rescue Plan Act (ARPA) established to provide governments with one-time infusion of funds to meet COVID-19 response needs and rebuild the economy. Also, there were higher tax apportionments and an increase in sales and use tax revenue. This increase was partially offset by lower interest revenue received due to the net decrease in the fair value of investments. In addition, capital assets increased by \$637,984, primarily due to the establishment of lease assets under GASB Statement No. 87 and construction projects related to the Civic Center Facilities Master Plan and the James A. Musick Facility Expansion Project. Deferred outflows of resources decreased by \$115,733, primarily due to a decrease in the difference between the expected and actual experience and changes in assumptions for the changes in net pension liability measurements as required by GASB Statement No. 68, "Accounting and Financial Reporting for Pensions—An Amendment of GASB Statement No. 27," (GASB Statement No. 68).

Total liabilities and deferred inflows of resources as of June 30, 2022, decreased by \$28,934. Long-term liabilities decreased by 22% or \$1,099,430, mainly due to a decrease in the County's proportionate share of the net pension and OPEB liability as a result of favorable returns from OCERS' investments, which was partially offset by an increase in lease liabilities established under GASB Statement No. 87 and issuance of Teeter Plan Notes. Deferred inflows of resources increased by 90% or \$1,057,645, mainly due to the changes in the net pension liability calculated as required by GASB Statement No. 68 and an increase in the deferred payments related to leases established under GASB Statement No. 87.

The following table provides summarized data of the government-wide Statement of Activities:

CHANGES IN NET POSITION - Primary Government For the Years Ended June 30, 2022 and 2021 Governmental **Business-Type Activities Activities** Total 2021 2022 2021 2022 2021 2022 **REVENUES** Program Revenues: Charges for Services 653,695 \$ 625,080 \$ 348,980 \$ 289,325 \$ 914,405 1,002,675 \$ Operating Grants and Contributions 3,166,816 22,371 3,199,181 20,571 3,187,387 3,221,552 Capital Grants and Contributions 130,593 141,883 660 5,387 131,253 147,270 General Revenues: **Property Taxes** 653,893 653,893 624,552 624,552 Property Taxes in Lieu of Motor Vehicle License Fees 455,578 438,321 455,578 438,321 Other Taxes 149,568 127,777 14 149,568 127,791 Grants and Contributions not Restricted to Specific Programs 4,631 15,547 4,631 15,547 State Allocation of Motor 3,863 3,528 3,863 3,528 Vehicle License Fees Other General Revenues 63,392 (7,644)55,748 100,157 3,518 103,675 **Total Revenues** 5,282,029 5,276,026 362,567 320,615 5,644,596 5,596,641 **EXPENSES** General Government 189,650 188,668 189,650 188,668 **Public Protection** 1,377,502 1,513,781 1,377,502 1,513,781 138,670 Public Ways and Facilities 149,290 149,290 138,670 Health and Sanitation 830,673 1,106,989 830,673 1,106,989 Public Assistance 1,358,723 1,224,045 1,358,723 1,224,045 Education 57,060 52,579 57,060 52,579 Recreation and Cultural Services 129,380 128,747 129,380 128,747 Interest on Long-Term Debt 35,148 27,232 35,148 27,232 133,555 Airport 133,555 128,160 128,160 OC Waste & Recycling 134,620 134,202 134,620 134,202 --Compressed Natural Gas 13 11 13 11 **Total Expenses** 4,260,936 4,777,762 3,992,748 4,515,389 268,188 262,373 Excess before Transfers 1,289,281 760,637 94,379 58,242 1,383,660 818,879 Transfers 7,996 7,509 (7,996)(7,509)**Change in Net Position** 1,297,277 768,146 86,383 50,733 1,383,660 818,879 Net Position-Beginning of the Year, as Restated 2,151,198 1,383,052 1,512,069 1,461,336 3,663,267 2,844,388 Net Position-End of the Year 3,448,475 \$ 2,151,198 \$ 1,598,452 \$ 1,512,069 \$ 5,046,927 \$ 3,663,267

County of Orange Annual Comprehensive Financial Report For the Year Ended June 30, 2022 (Dollar Amounts in Thousands)

The County's net position increased by \$1,383,660 during the current fiscal year. Revenues for the year totaled \$5,644,596, an increase of \$47,955 from the previous year. Expenses totaled \$4,260,936, a decrease of \$516,826 from the previous year.

Governmental Activities

The County's governmental activities rely on several sources of revenue to finance ongoing operations. Operating grants and contributions comprised the largest revenue source for the County, followed by property taxes. Operating grants and contributions are monies received from parties outside the County and are generally restricted to one or more specific programs such as State and Federal revenues for public assistance and for health care. Charges for services are revenues that arise from charges to customers or applicants who purchase, use, or directly benefit from the goods, services, or privileges provided. Examples of the types of services that fall under this category include engineering services provided to cities under contract, park and recreation fees, and law enforcement services provided to other governmental agencies under contract.

At the end of FY 2021-22, total revenues for governmental activities, including transfers from the business-type activities, were \$5,290,025, an increase of \$6,490 from the previous year. Expenses totaled \$3,992,748, a decrease of \$522,641 from the prior year. Net position for governmental activities increased \$1,297,277 from the prior fiscal year for an ending balance of \$3,448,475. Key elements of the increase are as follows:

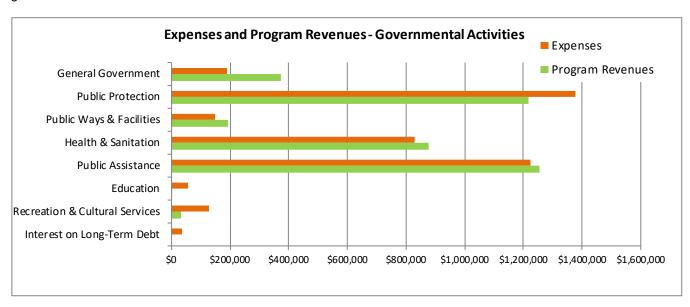

Revenues

- Property taxes increased by \$29,341, mainly due to an increase in secured assessed values.
- Charges for services increased by \$28,615, mainly due to an increase in mental health services, road and street services and fees received for Community Environmental Quality Control, Emergency Medical Services, Medical Waste and Water Quality Control. This increase was partially offset by a decrease in revenue for various public health and Drug Medi-Cal programs and the State's reimbursements for CalOptima.
- Property taxes in lieu of Vehicle License Fees (VLF) increased by \$17,257, primarily due to growth in secured property tax roll value.
- Operating grants and contributions decreased by \$32,365, mainly due to a decrease in federal funds received
 from programs under the Coronavirus Aid, Relief, and Economic Security (CARES) Act and Federal Emergency
 Management Agency (FEMA) established to assist governments with expenditures related to the COVID-19
 public health emergency, COVID-19 economic support, emergency rental assistance programs and COVID-19
 vaccination programs. This decrease was partially offset by an increase in revenues related to the compensation
 of revenue loss from ARPA funds.
- Other General Revenues decreased by \$36,765, mainly due to a net decrease in the fair value of investments.

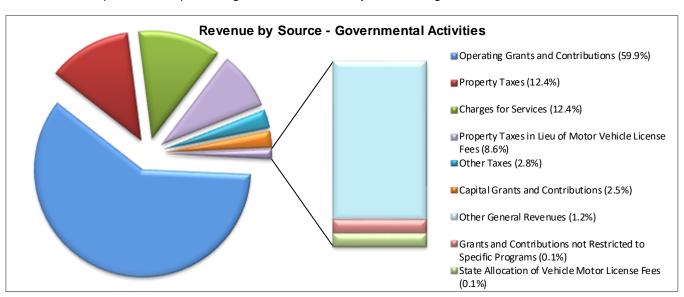

Expenses

- Expenses in health and sanitation decreased by \$276,316, primarily due to a decrease in professional and specialized services and medical supplies to address the COVID-19 public health emergency.
- Expenses in public protection decreased by \$136,279, mainly due to a decrease in pension costs.
- Expenses in public assistance decreased by \$134,678, mainly due to a decrease in expenses related to the Small Business Relief Program and to the Great Plates Program.
- Expenses in public ways and facilities increased by \$10,620, mainly due to higher South County Roadway Improvement Program fee credits paid to the developer and greater road maintenance and rehabilitation costs.
- Expenses in interest on long-term debt increased by \$7,916, primarily due to the debt service interest paid for various leased buildings and improvements under GASB Statement No. 87.
- Expenses in education increased by \$4,481, primarily due to an increase in capital outlay for OC Public Libraries.

The following chart presents a comparison of expenses by function and the associated program revenues for governmental activities:

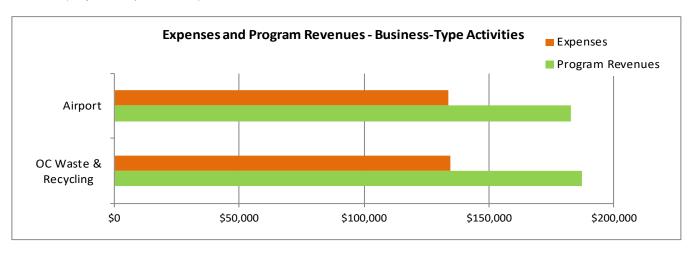

The chart below presents the percentage of total revenues by source for governmental activities:

Business-Type Activities

The County has three business-type activities: Airport, OC Waste & Recycling, and CNG. In keeping with the intent of recovering all or a significant portion of their cost through user fees and charges, business-type activities reported charges for services as their largest source of revenues.

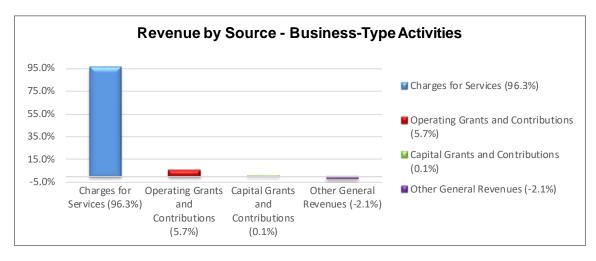

The following chart displays expenses and the associated program revenues by function for the business-type activities (major enterprise funds):

At the end of FY 2021-22, the business-type activities' total revenues exceeded expenses and transfers resulting in an increase of \$86,383 in net position compared to the prior year's increase in net position of \$50,733. Revenues totaled \$362,567, an increase of \$41,952 from the previous fiscal year, which is primarily attributable to increases in revenue from OC Waste & Recycling's sanitation and landfill disposal tonnage and fees, as well as the Airport's revenue from auto parking, landing fees, use of property, revenue from services and Passenger Facility Charge (PFC) revenue. Offsetting this increase was a net decrease in the fair value of investments and a decrease in Airport's capital grant revenues.

Expenses, including transfers to governmental activities, totaled \$276,184 representing an increase of \$6,302 from the previous year. This increase is primarily due to increases in OC Waste & Recycling and Airport's services and supplies (S&S) and professional and specialized services. Offsetting this increase were decreases in OC Waste & Recycling's closure and postclosure care costs and salaries and employee benefits (S&EB). Other factors concerning the finances of the County's two major enterprise funds are discussed in the Proprietary Funds section of the "Financial Analysis of the County's Funds."

The chart below presents the percentage of total revenues by source for business-type activities (major enterprise funds):

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The County uses fund accounting to demonstrate legal compliance and aid financial management by segregating transactions related to certain government functions or activities.

Governmental Funds

Governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current assets, current liabilities, and deferred inflows of resources related to unavailable revenue generally are included on the balance sheet, with the difference reported as fund balance. Fund balance, excluding nonspendable and restricted fund balances, may serve as a valuable measure of the government's available financial resources for spending at the end of a fiscal year. This amount is available for spending at the discretion of the Board in order to achieve the established function of the respective funds.

At June 30, 2022, the County's governmental funds reported total fund balances of \$3,174,931, which is an increase of \$420,458, in comparison with prior year ending fund balances, as restated.

Comparative Analysis of Changes in Fund Balances

The following schedule presents a summary of revenues and other financing sources, expenditures and other financing uses, and the net change in fund balances for the governmental funds for the current and previous fiscal year, as restated:

GOVERNMENTAL FUNDS
COMPARATIVE SCHEDULE OF REVENUES, EXPENDITURES, OTHER FINANCING SOURCES (USES) AND CHANGES IN FUND BALANCES
For the Years Ended June 30, 2022 and 2021

In addition to the effects of expenditure-driven grants, the following information provides explanations for the significant changes in fund balance:

General Fund

The General Fund is the chief operating fund of the County. At the end of FY 2021-22, revenues and other financing sources were more than the expenditures and other financing uses resulting in an increase in fund balance of \$391,478, compared to last year's decrease of \$127,575, as restated. Revenues and other financing sources increased by \$101,591, and expenditures and other financing uses decreased by \$417,462. The following is a brief summary of the primary factors that contributed to the increase in the net change in fund balance for the General Fund in FY 2021-22:

Revenues

- Tax revenue increased by \$41,545, which was primarily due to increases in secured property taxes and property taxes in-lieu of vehicle license fees (VLF) resulting from an increase in secured assessed values. Additionally, there was an increase in other property tax revenues from residual distributions and pass-through payments from cities.
- Charges for services increased by \$25,251, primarily due to increases in revenue for Drug Medi-Cal, Community Services and Supports, and Mental Health services. There was also an increase in law enforcement revenue from contract cities and behavioral health bureau charges, which were partially offset by a decrease in revenue for homeless outreach. Other factors that partially offset the increase in revenue were decreases in election

County of Orange Annual Comprehensive Financial Report For the Year Ended June 30, 2022 (Dollar Amounts in Thousands)

services revenue as a result of one-time receipts in FY 2020-21 related to the Center for Technology and Civic Life's COVID-19 Response Grant, the May 19, 2020 2nd District Board of Supervisors Special Election and the November 3, 2020 General Election.

• Transfers to the General Fund increased by \$22,353, primarily due to an increase in Social Services Agency (SSA) Wraparound program claims.

Expenditures

- Expenditures for health and sanitation decreased by \$258,449, primarily due to decreases in Health Care Agency (HCA) for professional services and S&S to address the COVID-19 public health emergency. Additionally, there were decreases in payments made to the State related to the Voluntary Rate Range Program and the Whole Person Care Pilot Program. These decreases were partially offset by an increase in professional services provided for the Emergency Rental Assistance Program, the Mental Health Services Act (MHSA), the Systems Coordination Services (SCS) and the Medical Safety Net Program.
- Transfers from the General Fund decreased by \$158,244, primarily due to a decrease in transfers out to the Countywide Capital Projects Non-General Fund for public health and safety capital projects.

Flood Control District

This group of funds is used to account for the planning, construction, and operation of flood control and water conservation works, such as dams, basins, and trunk channels, and for the retardation, conservation, and controlled discharge of storm waters. At the end of FY 2021-22, there was a decrease in fund balance of \$18,219 as compared to last year's decrease of \$19,731. Revenues and other financing sources increased by \$42,993, mainly due to revenue obtained for the sale of property in the city of Highland to San Bernardino Valley Municipal Water District. Expenditures and other financing uses increased by \$41,481, primarily due to the start of construction for the Huntington Beach Channel and Talbert Channel Sheet Pile Repair Design-Build Project. This increase was offset by a decrease in construction costs from the completion of various channels and the Galivan Retarding Basin. Additionally, there was a decrease in construction costs and land purchases for the Santa Ana Mainstem/Prado Dam Project.

Other Public Protection

This group of funds accounts for revenues restricted for safety and law enforcement activities such as the child support program, automated fingerprint identification systems, and investigation team. At the end of FY 2021-22, there was a decrease in fund balance of \$16,258, compared to last year's increase of \$36,973. Revenues and other financing sources decreased by \$21,362, primarily from the decrease in transfers of excess public safety sales tax. Also, the transfer of restricted fee revenue from General Fund to Clerk-Recorder Operating Reserve Fund decreased as a result of a lower operating income in the current year compared to the prior year. Expenditures and other financing uses increased by \$31,869, largely from the transfer out from the Excess Prop 172 Public Safety Sales Tax Fund to the Sheriff-Coroner's Department for the James A. Musick Facility Expansion Project that commenced in August 2020. Additionally, there was an increase in the repayment of cash deposit held in the Victim Fund as a result of the dismissal of the case in the Consumer Prosecution Fund. Another factor that contributed to the increase was greater IT hardware maintenance and support costs following a new 8-year 800MHz Support System Upgrade contract with Motorola Solutions Inc.

Mental Health Services Act (MHSA)

This fund accounts for purpose restricted MHSA revenues. At the end of FY 2021-22, fund balance increased by \$54,254, compared to last year's increase of \$50,084. Revenues and other financing sources increased by \$9,515, primarily due to higher allocation from the State for approved mental health services. Expenditures increased by \$5,345, primarily due to the change in the fair value of investments.

Other Governmental Funds

Other governmental funds encompass nonmajor funds, which include special revenue funds, debt service funds, capital projects funds, and a permanent fund. At the end of FY 2021-22, fund balances increased by \$9,203, in comparison to prior year's increase of \$122,645. Revenues and other financing sources decreased by \$46,882, primarily due to a decrease in transfers in to the Countywide Capital Projects Non-General Fund and the Countywide IT Projects Non-General Fund, which was partially offset by the issuance of Teeter Plan Notes and an increase in revenues for road and street services. Expenditures and other financing uses increased by \$66,560, primarily due to an increase in construction costs and transfers out from the Countywide Capital Projects Non-

General Fund for the James A. Musick Facility Expansion Project Phase I and II. This increase was partially offset by a decrease in construction costs for CFD 2017-1 Rancho Mission Viejo-Village of Esencia Improvement Area II and the Yale Transitional Center as construction was primarily completed in the prior year, and by a decrease in the amount paid for the retirement of Teeter Plan Notes compared to the prior year.

The following table shows fund balances and percentage change in fund balances for governmental funds for the current and previous fiscal year, as restated:

COMPARATIVE FUND BALANCE Governmental Funds June 30, 2022 and 2021			
	2022	2021	Increase/(Decrease) %
General Fund	\$ 1,127,205	\$ 735,727	53 %
Flood Control District	449,889	468,108	(4)%
Other Public Protection	202,906	219,164	(7)%
Mental Health Services Act	236,413	182,159	30 %
Other Governmental Funds	1,158,518	1,149,315	1 %
Total	\$ 3,174,931	\$ 2,754,473	15 %

Proprietary Funds

The proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary funds financial statements provide separate information for the Airport and OC Waste & Recycling funds, which are considered to be major funds of the County, and the CNG fund. Internal Service Funds are combined into a single, aggregated presentation in the proprietary funds financial statements.

<u>Airport</u>

Compressed Natural Gas

Total

This fund accounts for major construction and self-supporting aviation related activities rendered at the Airport. At the end of FY 2021-22, there was an increase of \$47,428 in fund net position compared to the prior year increase of \$10,008. Revenues, contributions and transfers increased by \$43,057, primarily due to increases in auto parking, landing fees, revenue from use of property, revenue from services, and PFC revenue. Partially offsetting these increases were net decreases in the fair value of investments, as well as declines in intergovernmental revenues and capital grant contributions. The Airport's operating revenues were positively affected by the continued passenger recovery from the COVID-19 pandemic. Expenses increased by \$5,637, mainly due to an increase in professional and specialized services and S&S.

County of Orange Annual Comprehensive Financial Report For the Year Ended June 30, 2022 (Dollar Amounts in Thousands)

OC Waste & Recycling

This fund is used to account for the operation, expansion and closing of existing landfills. Monies are collected through gate tipping fees, which users pay based primarily on tonnage. At the end of FY 2021-22, there was an increase of \$39,858 in fund net position compared to the prior year increase of \$41,515. Revenues, contributions and transfers decreased by \$1,404, which was primarily due to the change in the fair value of investments. This decrease was partially offset by an increase in sanitation and landfill disposal tonnage and fees collected for waste, recycling, and importation. Expenses and transfers increased by \$253, primarily due to an increase in leases, S&S and professional and specialized services. These increases were offset by a decrease in landfill site closure and postclosure care costs and S&EB.

Compressed Natural Gas

This fund is used to account for the operation and maintenance of the CNG facility. Revenues consist primarily of compressed natural gas sales to fuel the County's growing fleet of CNG-powered heavy equipment. At the end of FY 2021-22, there was an increase of \$146 in fund net position compared to the prior year increase of \$188. Revenues decreased by \$40 due to a lower royalty payment from Clean Energy and a one-time federal tax refund received in FY 2020-21. Expenditures increased by \$2 due to an increase in utilities purchased.

For further comparative analysis of Changes in Fund Net Position, please see the Business-Type Activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

This section provides a summary of the primary factors involved in the variances between: 1) the Original Budget and the Final Budget; and 2) the Final Budget and the budgetary based actual amounts for the General Fund. In addition to the effects of expenditure-driven grants, the following information provides explanations for significant variances. Refer to the General Fund Budgetary Comparison Statement for a full budgetary comparison.

Original Revenue Budget vs. Final Revenue Budget

The following provides a summary of the primary factors attributable to the increase or decrease in the General Fund final budget revenues and other financing sources compared to the original budget revenues and other financing sources:

Intergovernmental

- An increase of \$127,290 for anticipated reimbursement from the FEMA for 100% federal share of the County's eligible costs to combat and respond to the COVID-19 Pandemic.
- An increase of \$62,824 in the HCA due to federal grant revenue for the Epidemiology and Laboratory Capacity Enhanced Detection Expansion (ELC2) program through the Coronavirus Response and Relief Supplemental Appropriations Act of 2021.
- An increase of \$48,947 in the Sheriff-Coroner Department due to excess revenue from the Prop 172 Public Safety Sales Tax.
- An increase of \$27,843 in the OC Community Resources (OCCR) Department due to anticipated monies
 related to the ARPA and the California Department of Aging to provide nutrition and economic assistance to
 County residents and businesses impacted by the COVID-19 Pandemic.

Transfers In

- An increase of \$127,290 for expected transfer of FEMA revenues to replenish General Fund reserves used in prior years to upfront FEMA eligible COVID-19 related expenditures.
- An increase of \$19,729 in HCA from various sources, including HCA Interest Bearing Purpose Restricted Revenue, OC Tobacco Settlement Revenue, and MHSA to support ongoing program costs.
- An increase of \$3,410 in the Sheriff-Coroner Department, primarily due to transfers from Tobacco Settlement Revenue and Sheriff-Coroner Replacement and Maintenance Fund to reimburse costs related to the Body Worn Camera Program implementation.

Final Revenue Budget vs. Actual Revenue Amounts

The following information provides a summary of the primary factors that caused significant variances in the General Fund actual revenues and other financing sources compared to the final revenue and other financing sources budget:

Transfers In

- A \$256,724 less than budgeted amount was primarily comprised of the following:
 - \$127,290 less received in the General Fund due to a delay in the reimbursement of FEMA claims.
 - \$92,612 less received in HCA due to lower than expected drawdowns from the MHSA Fund and OC Tobacco Settlement Revenue.
 - \$7,314 less received in the Sheriff-Coroner Department primarily due to lower than budgeted transfers from the State Criminal Alien Assistance Program and Sheriff Narcotics Program funds.
 - \$6,000 less received from the Teeter Debt Service Fund, which was not necessary to balance the General Fund's budget.
 - \$4,296 less received in SSA mainly attributable to lower than budgeted reimbursements from the SSA Wraparound Fund.

Intergovernmental

- A \$103,378 less than budgeted amount was primarily comprised of the following:
 - \$72,353 less in the Miscellaneous Fund due to a delay of the reimbursement of FEMA claims.
 - \$53,515 less in SSA due to lower than expected funding from the Federal Public Assistance Administration for the CalWORKs and CalFresh programs and lower than expected state revenue for the CalWORKs Advance program and Cash Reimbursement program.
 - \$49,605 less in HCA due to an increase in allocation of COVID-19 related funding and lower than anticipated reimbursements from ARPA, Coronavirus Relief Fund, and FEMA.
 - Partially offsetting the overall less than budgeted intergovernmental revenue amounts were the following:
 - \$57,645 more received in the County Local Revenue 2011 due to increased sales tax revenue being higher than projected during the COVID-19 pandemic.
 - \$15,093 more received by HCA from the State of California for the Housing and Community Development programs and Emergency Solutions Grant Coronavirus Program.
 - \$11,062 more received in the Sheriff-Coroner Department related to AB 109 Realignment allocation, and grants for improvements to the Theo Lacy Facility, Men's Central Jail and Intake Release Center.

Taxes

- A \$27,754 higher than budgeted amount was primarily comprised of the following:
 - \$18,392 more in other taxes due to an increase in property transfer tax revenue and former California Redevelopment Agencies residual distributions.
 - \$4,977 more in current secured property taxes resulting from an increase in secured assessed values.

Original Expenditure Budget vs. Final Expenditure Budget

The following provides a brief summary of the primary factors attributable to the increase or decrease in the General Fund final budget expenditures and other financing uses compared to the original budget expenditures and other financing uses:

American Rescue Plan Act (ARPA)

 An increase of \$200,696, primarily due to an increase in appropriations for ARPA funding to be used for the Emergency Medical Services facility at El Toro, Remote Workspace Delivery Project, and the Virtual Private Network (VPN) Solution Project.

Health Care Agency

 An increase of \$78,561, mainly due to an increase in S&S for the Epidemiology and Laboratory Capacity Enhanced Detection Expansion Program and an increase in budgeted transfers to the Special Needs Housing Program MHSA for the development of supportive housing.

Sheriff-Coroner

 An increase of \$53,793, primarily due to transfers to the Countywide Capital Projects Non-General Fund and Excess Prop 172 Public Safety Sales Tax Fund.

OC Community Resources

 An increase of \$32,822, mainly due to an increase in S&S for California Department on Aging emergency programs, Community Investment program, ARPA programs, and OC Workforce and Economic Development Division.

Miscellaneous

• A decrease of \$76,430 mainly due to the reallocation of appropriations for ARPA funding to the American Rescue Plan Act Fund partially offset by the budgeted transfer out of FEMA funds to replenish reserves.

Final Expenditure Budget vs. Actual Expenditure Amounts

The following provides a summary of the primary factors that caused significant variances in the General Fund actual expenditures as compared to the final budget:

American Rescue Plan Act (ARPA)

 \$199,496 lower than budgeted mainly as a result of lower than anticipated transfers out to the Countywide Capital Projects Non-General Fund due to the timing of the construction of an Emergency Medical Services facility at El Toro and other capital projects funded with ARPA funds.

Miscellaneous

 \$150,358 lower than budgeted amount primarily due to the contingency appropriations and FEMA revenue that were budgeted but not fully utilized.

Health Care Agency

\$104,840 less than budgeted amount mainly due to lower than anticipated expenditures for S&EB, professional
and specialized services associated with MHSA programs, SCS, HCA Administration, and Health Equity
program.

Social Services Agency

 \$67,748 lower than budgeted amount primarily due to lower expenditures for S&EB, professional and specialized contracted services related to CalWORKs programs, as well as lower support and care of persons costs for CalWIN program, and lower project costs for Orangewood Children and Family Center Rehab Kitchen and 840 Eckhoff Office.

Sheriff-Coroner

• \$59,590 lower than budgeted amount mainly due to lower than expected costs for S&EB, professional and specialized contracted services, as well as transportation and travel expenses.

Capital Assets

At June 30, 2022, the County's capital assets, as restated, for both the governmental and business-type activities amounted to \$5,221,161 net of accumulated depreciation/amortization. The investment in capital assets includes land, structures and improvements, land improvements, equipment, software, infrastructure, intangible in progress, land use rights, construction in progress and intangible right-to-use lease assets. The total increase in the County's investment in capital assets for the current year was 14%.

- \$1,156 for the Cypress Library tenant enhancements

Airport

- \$8,553 for the rental car reconfiguration
- \$1,134 for the Terminal Building Curtain Wall Modification Project

OC Waste & Recycling

- \$4,012 for the Prima Deshecha Flare Replacement Project
- \$3,819 for the purchase of heavy equipment at Olinda Alpha Landfill and North Regional Landfill
- \$3,540 for the purchase of heavy equipment at Frank R. Bowerman (FRB) Landfill and Central Regional Landfill
- \$3,453 for the purchase of heavy equipment for the Prima Deshecha Landfill and South Regional Landfill
- \$2,421 for the construction costs of liner & groundwater systems at South Region Prima Zone 1
- \$1,175 for the sycamore and oak tree installations for Zone 4 Habitat Mitigation Project at the Prima Deshecha Landfill

Internal Service Funds

- \$7,304 for the purchase of various vehicles for OC Fleet Services
- \$3,165 for the Redundant Bus and Active Treatment System installation and upgrade at the OC Data Center

Additional information on the County's capital assets can be found in Note 6, Changes in Capital Assets and Note 13, Leases in the Notes to the Basic Financial Statements section.

Commitments for Capital Expenditures

At the end of FY 2021-22, significant commitments for capital expenditures included the following:

- \$19,123 for the Huntington Beach and Talbert Channels
- \$18,500 for the Prima Fee Booth Replacement
- \$18,135 for the East Garden Grove-Wintersburg Channel U/S Warner
- \$16,396 for the Civic Center Facilities Master Plan, CAN Building
- \$12.969 for the purchase of various vehicles
- \$10,469 for the Laguna Canyon Channel Replacement Woodland to Canyon Frontage Road
- \$6,757 for the Mile Square Park Expansion Phase I
- \$6,348 for the Katella Range Facility Upgrade
- \$6,167 for the telecommunications technology for the Sheriff-Coroner
- \$5,680 for the Coyote Creek Channel Segment O
- \$5,025 for the Valencia Greenery

Additional information on the County's commitments for capital expenditures can be found in Note 15, Construction and Other Significant Commitments in the Notes to the Basic Financial Statements section.

Long-Term Debt

At June 30, 2022, the County had total debt obligations outstanding of \$581,962, excluding long-term liabilities such as compensated absences payable, pension, OPEB, and lease obligations payable. During the year, the County's outstanding bond obligations increased by 3% which is primarily attributable to the issuance of Teeter Plan Notes in the amount of \$79,978. Partially offsetting the increase was the redemption of \$37,406 of Teeter Plan Notes, the redemption of \$16,920 of the revenue bonds and a decrease of \$3,026 in the Interest Accretion on Capital Appreciation Bonds (CABs).

The County is limited by law in issuing general obligation bonded debt to 1.25% of the last equalized assessment property tax roll values. However, this does not affect the financing of any of the County's planned facilities or services. As of the end of the fiscal year, the County had no net general obligation bonded debt. The County's

debt obligations are in the form of revenue bonds and other forms of debt not covered by the general obligation bonded debt limitation.

The following table summarizes the County's outstanding bonds at June 30, 2022 and 2021:

June 30, 2022 and 2021	Govern	men	tal	Busine	ss-1	Гуре				Increase/
	Activ	/ities		Activ	vitie	es	Tot	tal		(Decrease)
	2022		<u>2021</u>	2022		<u>2021</u>	2022		<u>2021</u>	% Change
Revenue Bonds	\$ 376,781	\$	381,886	\$ 60,010	\$	71,825	\$ 436,791	\$	453,711	(4)%
Pension Obligation Bonds			516						516	(100)%
Teeter Plan Notes (Direct Placement)	79,978		37,406				79,978		37,406	114 %
Add: Premium										
on Bonds Payable	59,013		59,967	6,180		8,085	65,193		68,052	(4)%
Add: Interest Accretion										
on CABs			2,890						2,890	(100)%
Total	\$ 515,772	\$	482,665	\$ 66,190	\$	79,910	\$ 581,962	\$	562,575	3 %

The following summarizes the County's long-term debt issuance during FY 2021-22:

<u>Teeter Plan Notes:</u> On July 14, 2021, the County issued taxable Teeter Plan Obligation Notes, Series B to refund the \$37,406 outstanding Teeter Plan Obligation Notes and to finance the purchase of \$42,572 of delinquent property tax receivables associated with the Teeter plan for a new outstanding balance of \$79,978.

Additional information on the County's long-term debt activity can be found in Note 11, Long-Term Obligations, and Note 22, Subsequent Events in the Notes to the Basic Financial Statements section.

Bond Ratings

The County maintained its Issuer Credit Rating of Aa1 from Moody's Investors Service (Moody's), AA+ from Standard & Poor's Global Ratings (S&P), and AAA Issuer Default Rating (IDR) from Fitch Ratings.

On November 24, 2021, S&P raised the ratings on the 2019A & 2019B Airport Revenue Refunding Bonds to AA-from A+.

On August 5, 2022, the County's payment obligation commenced for the 2018 Lease Revenue Bonds with an AA rating from S&P and an AA+ rating from Fitch Ratings.

The County has the following long-term underlying debt ratings:

LONG-TERM DEBT RATINGS June 30, 2022			
	S&P	Moody's	Fitch
2016 Lease Revenue Bonds	AA	NR	NR
2017 Lease Revenue Bonds	AA	NR	AA+
2018 Lease Revenue Bonds	AA	NR	AA+
Teeter Plan Notes	NR	NR	NR
Airport 2019A Revenue Refunding Bonds	AA-	NR	NR
Airport 2019B Revenue Refunding Bonds	AA-	NR	NR

OTHER POTENTIALLY SIGNIFICANT MATTERS

The County's management has determined that the following are significant matters that have a potential impact on the County's financial position or changes in financial position:

State Legislation and Budget

System of Care-Homelessness

The County continues to work together with cities to respond to regional community needs in addressing homelessness. The partnership between the County and each of the 34 cities in the County is essential to meet the needs of people experiencing homelessness and leverages the funding available with the Building Homes Job Act (SB 2) or other programs such as the State's No Place like Home, California Advancing and Innovating Medi-Cal, and the Special Needs Housing Programs.

In June 2018, the County issued its Housing Funding Strategy to create 2,700 permanent supportive housing units of which 874 units have been built, 1,008 units are under construction, and 520 are in the process of obtaining funding. As of October 31, 2022, a combined total of 2,278 supportive and affordable housing units are in the current pipeline. Significant efforts include the following:

- Operational funding was provided to three city-operated emergency shelter and capital funding was provided for a city-operated emergency shelter.
- Funding was provided for the development and operations of a transitional aged youth-focused emergency shelter and construction of the Yale Navigation Center.
- California Department of Housing and Community Development awarded funding for two Homekey Projects to secure motel buildings and convert them into interim or/and permanent, long-term housing resulting in 132 units of interim housing that have begun the process to transition to permanent supportive housing.
- State Homeless Housing, Assistance and Prevention (HHAP) funding identified to create 62 units of non-congregate shelter.
- Field-based outreach teams integrate with County behavioral health resources to support city-led homeless services programs.
- The Emergency Rental Assistance Program provided nearly \$34,000 in financial assistance to tenant households experiencing financial hardship due to COVID-19 to pay for rental arrears and past due utilities thus promoting housing stability and minimizing the risk of homelessness.

In addition, the County has launched the Care Plus Program to provide services through a multi-disciplinary team approach focusing on person-centered care for those experiencing homelessness to streamline their access of County programs and improve outcomes related to health and housing.

FEMA and ARPA Revenue for COVID-19

The County will continue to receive reimbursement for eligible COVID-19-related expenditures from FEMA. On March 13, 2020, the President declared the ongoing COVID-19 pandemic of sufficient severity and magnitude to warrant an emergency declaration for all states, tribes, territories, and the District of Columbia pursuant to Section 501 (b) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (the "Stafford Act"). State, territorial, tribal, local government entities and certain private non-profit organizations are eligible to apply for public assistance. As of June 2022, the County submitted \$202,589 FEMA claims and received reimbursement for approximately \$87,966 for seven eligible COVID-19 projects: Emergency Operations Center, Testing Kits, Personal Protective Equipment, Project RoomKey, the Great Plates Program, Vaccinations and Care Sites. In addition to CARES Act and FEMA funding, some county departments are receiving additional funding from the state/federal governments for other eligible program costs related to COVID-19.

In May 2021, the County received \$308,420, the first tranche of ARPA funds from the United States Treasury, and in June 2022, the County received the second and final tranche of \$308,420. The Coronavirus State and Local Fiscal Recovery Fund, under the ARPA provided funds to state, territorial, local, and tribal governments. Use of the funds is subject to the restrictions outlined in ARPA. As of June 30, 2022, the County used \$111,188 for eligible expenditures. All ARPA funds must be obligated by December 31, 2024 and spent by December 31, 2026 according to Federal guidelines issued by the United States Treasury.

Long-Term Financial Planning

Funding Progress of the County's Retirement System (System)

The funded ratio of the System is a measure of the ability of the System to make obligated payments to current retirees and future retirees. As of December 31, 2021, the funding ratio for the System is 81.15%, which is an increase from 76.51% in 2020. The System's Unfunded Actuarial Accrued Liability (UAAL) decreased from \$5.38 billion (\$4.48 billion attributable to the County) to \$4.52 billion (\$3.88 billion attributable to the County). The decrease in the UAAL is primarily attributable to favorable investment returns (after smoothing) and salary increases less than expected, slightly offset by actual cost-of-living adjustment (COLA) increases greater than expected.

On November 4, 2008, the voters in Orange County approved Measure J, which requires voter approval for any future pension benefit enhancements. The County carefully monitors the activities at OCERS and regularly provides input to OCERS management, as well as providing input at OCERS Board meetings as deemed appropriate.

OCERS Assumed Investment Rate of Return

The assumed investment rate of return is the rate of investment yield that the System will earn over the long-term future.

On December 5, 2012, the OCERS Board voted to reduce the assumed investment rate of return from 7.75% to 7.25%. The reduction was phased in over a two-year period beginning July 2014 at 7.5% and reducing to 7.25% effective July 2015. On October 16, 2017, the OCERS Board adopted a reduction in the assumed investment rate of return to 7.00% effective July 1, 2019. The assumed rate of return reduction had the impact of increasing contribution rates of members and plan sponsors.

OCERS Actuarial Funding Policy (Amortization)

On November 18, 2013, the OCERS Board adopted the actuarial funding policy to reduce the amortization period for future UAAL from 30 years to 20 years, which included combining and re-amortizing the entire outstanding UAAL balance as of December 31, 2012, over a single 20-year period. This will allow for future UAAL to be paid off in a shorter period of time and will ultimately reduce retirement rates and costs over time.

OCERS Actuarial Assumptions

The 2014 through 2016 valuations were impacted by economic assumption changes, which flowed from the 2014 Triennial Study of Actuarial Assumptions. These changes, adopted by the OCERS Board on September 23, 2014, included a decrease in the inflation assumption from 3.25% to 3.00% per annum. As a result of the 2017 Triennial Study of Actuarial Assumptions, the OCERS Board, on October 16, 2017, adopted a further decrease in the inflation assumption to 2.75%, which was effective with the 2017 valuation. On August 17, 2020, the OCERS Board adopted a further decrease in the inflation rate assumption to 2.50%, while maintaining the post-retirement COLA at 2.75%. The new assumption changes were effective with the 2020 valuation.

Requests for Information

We hope that the preceding information provides a general overview of the County's overall financial status. For questions or comments concerning information contained in this report, please contact the Auditor-Controller's Office, County of Orange, 1770 N. Broadway, Santa Ana, CA 92706 or you can access our website at www.ac.ocgov.com.

The governmental funds balance sheet includes a reconciliation between fund balances-total governmental funds and net position-governmental activities as reported in the government-wide Statement of Net Position. The difference in fund balances of (\$273,544) is due to the long-term economic focus of the Statement of Net Position versus the short-term economic focus of the governmental funds. The components of the difference are described

Total Fund Balances-Governmental Funds

\$ 3,174,931

Capital assets used in the operations of the County are not reported in the governmental funds financial statements:

Land	838,106	
Structures and Improvements	1,635,006	
Equipment	341,540	
Software	159,366	
Infrastructure	2,103,601	
Land Use Rights (Permanent)	16,435	
Intangible Right-to-Use Lease Assets	452,204	
Land Improvements	10,208	
Construction in Progress	653,606	
Intangible in Progress	21,725	
Accumulated Depreciation/Amortization	(2,011,301)	4,220,496

Other assets used in governmental activities do not consume current financial resources, and therefore, are not reported in the governmental funds:

Prepaid Pension Investment with OCERS	135,745
Installment Receivables from Service Concession Arrangements	86,141

The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in governmental activities in the Statement of Net Position.

133,497

Deferred outflows of resources are similar to assets, but they do not meet the definition of an asset. When all the recognition criteria are met, the deferred outflows of resources will become an expense. The counterpart to deferred outflows of resources are deferred inflows of resources, which do not meet the definition of a liability. When all recognition criteria are met, the deferred inflows of resources will become revenue, except for pension and OPEB related deferred inflows of resources which will be recognized as a credit to expense. The County reports the different types of deferred outflows and inflows of resources in the Statement of Net Position as follows:

Deferred Outflows of Resources:

Employer retirement contribution subsequent to measurement date	
for the net Pension liability	603,386
Employer retirement contribution subsequent to measurement date	
for the net OPEB liability	30,311

Reclassification	n of pr	epaid	pen:	sion	contri	bution	from	prepai	d c	osts	to
deferred outflow	ws of re	source	s fo	r the	portic	n to be	e reco	gnized	in t	he n	ext
measurement	period.	Refer	to	Note	18,	Retire	ment	Plans	for	furth	ner
information.											

Prepaid Pension Contribution	(278,456)
Deferred Outflows of Resources	278,456

Liabilities for Service Concession Arrangements (18,572)

Deferred Inflows of Resources:

Deferred Inflows of Resources that have been earned but not	
available to finance expenditures in the current period	408,031
Deferred Inflows of Resources Related to Pension	(1,795,415)
Deferred Inflows of Resources Related to OPEB	(89,054)
Deferred Inflows from Service Concession Arrangements	(67,569)

Long-term liabilities, including bonds and notes payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds:

Bonds Payable, Net	(54,820)	
Civic Center Facilities Master Plan Financing	(380,974)	
Teeter Plan Notes Payable	(79,978)	
Compensated Employee Absences Payable	(174,881)	
Financed Purchase Liability	(18,123)	
Intangible Assets Obligations Payable	(3,518)	
Lease Liability	(426,836)	
Interest Payable on Bonds	(555)	
Estimated Liability-Litigation and Claims	(21,392)	
County's proportionate share of Net Pension Liability	(1,986,504)	
County's proportionate share of Net OPEB Liability	(225,872)	(3,373,453)

Net Position of Governmental Activities \$ 3,448,475

The Net Change in Fund Balances for governmental funds of \$420,458 in the Statement of Revenues, Expenditures, and Changes in Fund Balances differs from the Change in Net Position for governmental activities of \$1,297,277 reported in the government-wide Statement of Activities. The differences arise primarily from the long-term economic focus of the Statement of Activities versus the current financial resources focus of the governmental funds. The main components of the difference are described below.

Net Change in Fund Balances-Total Governmental Funds

\$ 420,458

203.664

When capital assets used in governmental activities are purchased or constructed in the current fiscal year, the resources expended for those assets are reported as expenditures in the governmental funds. However, in the Statement of Activities, the cost of these assets are allocated over their estimated useful lives and reported as depreciation or amortization expense. In addition, donations, transfers, gains or losses from sales and other disposals/acquisitions of capital assets are not reported in governmental funds. These assets, and their associated depreciation/amortization expense, must be reported or removed in the government-wide financial statements. The details of the expenditures for capital outlay, capital contributions, depreciation/amortization and other disposals/acquisitions of capital assets are as follows:

Expenditures for Capital Outlay:

Land	26,050	
Construction in Progress	361,628	
Equipment	13,037	
Software	15,870	
Net of Gains/(Losses) on Capital Assets Dispositions	(58,355)	
Depreciation/Amortization Expense	(155,820)	
Capital Contributions	1,254	2

The issuance of long-term debt (e.g. bonds) is recorded as an other financing source in the governmental funds because it provides current financial resources. Similarly, the repayment of principal on long-term debt or the payment of other long-term liabilities is reported as an expenditure in the governmental funds because current financial resources have been consumed. Bond proceeds, net of payments to escrow agents and principal payments, are reported as financing sources in governmental funds and thus contribute to the change in fund balance. These transactions do not have any effect on net position in the government-wide financial statements. The details of the principal and other long-term liability payments and other financing sources are as follows:

Teeter Plan Notes Proceeds	(79,978)	
Leases Issued	(5,642)	
Principal and Other Long-Term Liability Payments:		
Bonds Payable	5,621	
Teeter Plan Notes Payable	37,406	
Leases	25,345	
Financed Purchases	5,482	(11,766)

Revenues related to prior years that are available in the current fiscal year are reported as revenue in the governmental funds. In contrast, revenues that are earned, but unavailable in the current year are deferred in the governmental funds. For government-wide reporting, revenue is recognized when earned, regardless of availability. The following amounts reflect the net effect of the timing differences for revenue recognition:		
Government Mandated and Voluntary Nonexchange Property Tax Revenues	111,178 3,035	114,213
Some expenses reported in the Statement of Activities do not require the use of current financial resources; and therefore, are not reported as expenditures in the governmental funds until paid. The following amounts represent the net effect of these differences in the treatment of long-term liabilities:		
Accrued Interest Expense on Bonds Payable Amortization of Deferred Charges	3,466 544	
Change in Compensated Employee Absences	8,083	
Pension Costs and Investment Loss of the County's Investment Account with OCERS	(13,017)	
Estimated Litigation and Claims Expense Interest Accretion on Capital Appreciation Bonds	(21,392) (136)	(22,452)
Internal service funds (ISF) are used by management to charge the costs of certain activities, such as insurance, transportation, and telephone services to individual governmental funds. The operating loss of the ISF's is eliminated in the Statement of Activities as an adjustment to the various functions to arrive at a break-even basis. Also, general or non-program revenues and expenses of the ISF are recorded in governmental activities.		
Allocation of ISF's Operating Loss to Governmental Activities, net of Business-Type Activities	(7,692)	
Consolidation of Nonoperating Revenues, Expenses and Transfers to Governmental Activities	16,705	9,013
GASB Statement No. 75 requires an employer to record OPEB expense and employer contribution that affects the County's proportionate share of the net OPEB liability.		
OPEB Expense OPEB Employer Contribution	(15,697) 41,032	25,335
3. 25 2p.s, 5. 33	,002	20,000
GASB Statement No. 68 requires an employer to record pension expense and employer contribution that affects the County's proportionate share of the net pension liability. Pension Expense/Credit	36,556	
Pension Employer Contribution	522,256	558,812
Change in Net Position of Governmental Activities	\$	1,297,277

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the more significant accounting policies of the County of Orange (County):

A. Reporting Entity

The County is a legal subdivision of the State of California charged with general governmental powers. The County's powers are exercised through an elected five-member Board of Supervisors (Board), which, as the governing body, is responsible for the legislative and executive control of the County. The County provides a full range of general government services, including police protection, detention and correction, public assistance, health and sanitation, recreation, library, flood control, public ways and facilities, waste management, airport management, and general financial and administrative support.

As required by generally accepted accounting principles (GAAP) in the United States of America, these financial statements present financial information for both the County (the primary government) and its component units, entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are in substance part of the County's operations and the Board is typically their governing body. Therefore, data from these component units are combined with data of the primary government. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the County. Management applied the criteria of Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity," Statement No. 39, "Determining Whether Certain Organizations are Component Units-An Amendment of GASB Statement No. 14," Statement No. 61, "The Financial Reporting Entity: Omnibus-An Amendment of GASB Statements No. 14 and No. 34," and Statement No. 80, "Blending Requirements for Certain Component Units-An Amendment of GASB Statement No. 14," to determine whether the component units should be reported as blended or discretely presented component units. The criteria included whether the County appoints the voting majority, there is a financial benefit/burden relationship, the County is able to impose its will, the component unit is fiscally dependent on the County, the component unit's governing body is substantially the same as the County, and management of the County have operational responsibility for the activities of the component unit. These criteria were used to determine the following:

Blended Component Units

<u>Orange County Flood Control District</u> The Orange County Board of Supervisors is the governing body of the District. Among its duties, it approves the District's budget, determines the District's tax rates, approves contracts, and appoints the management. The District is reported in governmental fund types.

<u>Orange County Housing Authority</u> The Orange County Board of Supervisors is the governing body of the Authority. Among its duties, it approves the Authority's budget and policies that govern the administration of housing assistance programs and appoints the management. The Authority is reported in governmental fund types.

Orange County Public Financing Authority The Authority is a joint powers authority of the County and the Orange County Development Agency (OCDA), formed to provide financial assistance to the County by financing the acquisition, construction and improvement of public facilities in the County. The governing body of the Authority is the County's governing body. The Authority is reported in governmental fund types. With the passage of ABX1 26 dissolving redevelopment agencies statewide effective February 1, 2012, the Authority will not issue any new debt.

<u>South Orange County Public Financing Authority</u> The Authority is a joint powers authority of the County and Community Facilities District 88-2 of the County of Orange (Lomas Laguna), formed to provide for the financing of public capital improvements. The governing body of the Authority is the County's governing body. The Authority is reported in governmental fund types.

A. Reporting Entity (Continued)

Blended Component Units (Continued)

<u>Capital Facilities Development Corporation</u> The Corporation has a three-member governing body that is appointed by the Board. Its purpose is to facilitate financings, acquisitions of property, and other financial and property related transactions, by or for the benefit of the County, including but not limited to purchasing property from or for the benefit of, borrowing or loaning money and selling or leasing property to, and otherwise participating in financial and leasing transactions with the County. The Corporation is reported in governmental fund types.

<u>Orange County Public Facilities Corporation</u> The Corporation has a five-member governing body that is appointed by the Board. It provides services entirely to the County, through the purchases, construction or lease of land and buildings, which are then leased back to the County. The Corporation is reported in governmental fund types.

County Service Areas, Special Assessment Districts, and Community Facilities Districts The governing body of County Service Areas, Special Assessment Districts, and Community Facilities Districts (special districts) is the County's governing body. It approves the special districts' budgets, and approves parcel fees, special assessments and special taxes. The special districts are reported in governmental fund types.

<u>In-Home Supportive Services (IHSS) Public Authority</u> The governing body of the Authority is the County's governing body. The Authority was established by the Board to act as the employer of record for the individual providers for the IHSS program. The duties of the Authority include collective bargaining for the individual providers, establishing a registry of providers, investigating the background of providers and providing training to IHSS providers and consumers. The Authority is reported in governmental fund types.

Fiduciary Component Unit

Orange County Employee Retirement System (OCERS) OCERS is a public retirement system established in 1945 that administers the County's retirement and Other Postemployment Benefits (OPEB) Plans in accordance with the County Employees Retirement Law of 1937 and the California Public Employees' Pension Reform Act (PEPRA) of 2013. OCERS was determined to be a fiduciary component unit of the County based on the guidelines of GASB Statement No. 84 "Fiduciary Activities" (GASB Statement No. 84). It is reported in the Pension and OPEB Trust Funds and Custodial Fund Fiduciary financial statements. OCERS issues a stand-alone financial report with year-end December 31 and is available online at www.ocers.org or in writing if requested to the Orange County Employees Retirement System, P.O. Box 1229, Santa Ana, CA 92702.

Discretely Presented Component Units

Children and Families Commission of Orange County (CFCOC) The CFCOC is administered by a governing board of nine members, who are appointed by the Board. Its purpose is to develop, adopt, promote and implement early childhood development programs in the County. It is funded by additional State taxes on tobacco products which were approved by California voters via Prop 10 in November 1998. The CFCOC is presented as a discretely presented component unit of the County because, although the County Board has no control over the revenues, budgets, staff, or funding decisions made by the CFCOC, the appointed CFCOC members serve at the will of the Board members who appoint them. A separate stand-alone annual financial report can be obtained by writing to the Children and Families Commission of Orange County, 1505 E. 17th Street, Suite 230, Santa Ana, CA 92705, or by accessing Orange County's website: www.ac.ocgov.com.

A. Reporting Entity (Continued)

Discretely Presented Component Units (Continued)

Orange County Health Authority, a Public Agency/dba Orange Prevention and Treatment Integrated Medical Assistance (CalOptima) The Board established CalOptima in 1993. The governing board of CalOptima is comprised of nine voting members and includes two County Board members and one County Board member alternate; all other members are appointed by the Board. This is a County organized health system whose purpose is to administer health insurance programs for low-income families, children, seniors, and persons with disabilities throughout the County. These programs include Medi-Cal, OneCare (HMO SNP), OneCare Connect Cal MediConnect Plan, and Program of All-Inclusive Care for the Elderly (PACE). CalOptima is presented as a discretely presented component unit of the County because, although the County Board has no control over the revenues, budgets, staff, or funding decisions made by CalOptima, the appointed CalOptima members serve at the will of the Board members who appoint them. CalOptima will continue until such time as the Board takes action to terminate CalOptima. A separate stand-alone annual financial report can be obtained by writing to CalOptima, 505 City Parkway West, Orange, CA 92868 or can be accessed via the website http://wpso.dmhc.ca.gov/fe/search/.

B. Government-Wide and Fund Financial Statements

The basic financial statements include both the government-wide and fund financial statements. The government-wide financial statements are prepared using the accrual basis of accounting and the economic resources measurement focus. The government-wide financial statements report long-term liabilities and capital assets. Depreciation/amortization expense and accumulated depreciation/amortization are displayed on the government-wide financial statements. The capital assets and related depreciation include the costs and depreciation of infrastructure assets.

The fund financial statements for the governmental funds are prepared using the modified accrual basis of accounting and the current financial resources measurement focus. Fund financial statements are shown separately for specific major governmental funds and in total for all other governmental funds. Fund financial statements for proprietary funds are reported under the accrual basis of accounting and the economic resources measurement focus. Major enterprise funds are shown separately, with internal service funds shown in total. Financial data for the internal service funds is included with the governmental funds for presentation in the government-wide financial statements. Fiduciary funds are displayed by category in the fund financial statements, but are not reported in the government-wide financial statements, because the assets of these funds are not available to the County.

Government-Wide Financial Statements

GASB Statement No. 34, "Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments" (GASB Statement No. 34), as amended by GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position" (GASB Statement No. 63), mandates the presentation of two basic government-wide financial statements:

- Statement of Net Position
- Statement of Activities

The scope of the government-wide financial statements is to report information on all of the non-fiduciary activities of the primary government and its component units.

B. Government-Wide and Fund Financial Statements (Continued)

Government-Wide Financial Statements (Continued)

Government activities, which are normally supported by taxes, intergovernmental revenues, other nonexchange revenues, and business-type activities, which are financed by fees charged to external parties for goods and services, are reported in separate columns with a combined total column presented for the primary government. Likewise, the primary government is reported separately from the legally separate component units, CFCOC and CalOptima, for which the primary government is financially accountable. The government-wide Statement of Net Position displays the financial position of the primary government, in this case, the County and its discretely presented component units. The Statement of Net Position reports the County's financial and capital resources, including infrastructure, as well as the County's long-term obligations. The difference between the County's assets plus deferred outflows of resources, and liabilities plus deferred inflows of resources is its net position. Net position represents the resources that the County has available for use in providing services after its debt or other obligations are settled.

These resources may not be readily available or spendable and consequently are classified into the following categories of net position in the government-wide financial statements:

- <u>Net Investment in Capital Assets</u> This amount is derived by subtracting the outstanding liabilities incurred by the County, including debt-related deferred outflows and inflows of resources, to buy or construct capital assets shown in the Statement of Net Position, net of depreciation and amortization.
- Restricted Net Position This category represents restrictions imposed on the use of the County's resources by parties outside of the government or by law through constitutional provisions or enabling legislation. All of the County's net position restrictions are externally imposed by outside parties, constitutional provisions or enabling legislation. Examples of restricted net position include federal and state grants that are restricted by grant agreements for specific purposes and restricted cash set aside for debt service payments. At June 30, 2022, the County's governmental activities reported restricted net position of \$1,743,498 and is restricted for pension benefits related to the OCERS Investment Account, capital projects, debt service, legally segregated funds restricted for grants and other purposes, and regional park endowment. Restricted Net Position for business-type activities and Wetland amounted to \$65,107 and is restricted for the use of John Wayne Airport (Airport) and OC Waste & Recycling activities, including debt service, passenger facility charges (PFC), capital projects replacements and renewals, landfill closure/postclosure, and landfill corrective action. At June 30, 2022, the County reported \$24,473 of net position restricted by enabling legislation related to the Airport's PFC.
- <u>Unrestricted Net Position</u> These assets are resources of the County that can be used for any purpose, though they may not necessarily be liquid. In addition, assets in a fund that exceed the amounts required to be restricted by external parties or enabling legislation are reported as unrestricted net position (deficit). When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, and then unrestricted resources as they are needed.

The government-wide Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues and the extent to which the function or segment is supported by general government revenues, such as property taxes, local unrestricted sales taxes, and investment earnings. Direct expenses are those that are clearly identifiable with a specific function or segment. Indirect expenses are allocated to match the reimbursement of indirect costs recorded as program revenues to the same function where the related expense is recorded. Program revenues include:

B. Government-Wide and Fund Financial Statements (Continued)

Government-Wide Financial Statements (Continued)

- Charges and fees to customers or applicants for goods, services, or privileges provided, including fines, forfeitures, and penalties related to the program
- Operating grants and contributions
- Capital grants and contributions, including special assessments

Taxes and other items such as unrestricted investment earnings (loss) not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

Separate fund financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus of governmental and proprietary fund financial statements is on major funds. The financial information of each major fund is shown in a separate column in the fund financial statements, with the data for all nonmajor governmental funds aggregated into a single column and all nonmajor proprietary funds aggregated into a single column. GASB Statement No. 34, as amended by GASB Statement No. 65, "Items Previously Reported as Assets and Liabilities" (GASB Statement No. 65), sets forth minimum criteria (specified minimum percentages of the assets plus deferred outflows of resources, liabilities plus deferred inflows of resources, revenues or expenditures/expenses of a fund category and of the governmental and enterprise funds combined) for the determination of major funds. In addition to funds that meet the minimum criteria, any other governmental or enterprise fund that the government believes is of particular importance to financial statement users may be reported as a major fund.

The County reports the following major governmental funds:

General Fund This fund accounts for resources traditionally associated with government and all other resources, which are not required legally, or by sound financial management, to be accounted for in another fund. Revenues are primarily derived from taxes; licenses, permits and franchises; fines, forfeitures and penalties; use of money and property; intergovernmental revenues; charges for services; and other revenues. Expenditures are primarily expended for functions of general government, public protection, public ways and facilities, health and sanitation, public assistance, capital outlay, and debt service.

<u>Flood Control District</u> This fund accounts for the planning, construction, operation, and maintenance of regional flood protection and water conservation works, such as dams, control channels, retarding basins, and other flood control infrastructure, charges for services revenue, along with property taxes restricted for flood control activities, provide most of this fund's revenues.

Other Public Protection This fund accounts for revenues restricted for safety and law enforcement activities such as the child support program, automated fingerprint identification systems, and investigation team. Revenues consist primarily of federal grants, state grants, fines, use of money and property, and charges for services.

Mental Health Services Act This fund accounts for the County's mental health programs for children, transition age youth, adults, older adults and families pursuant to the State of California Mental Health Services Act. Revenues consist primarily from a 1% income tax on personal income in excess of one million dollars.

The County reports the following proprietary enterprise funds:

B. Government-Wide and Fund Financial Statements (Continued)

Fund Financial Statements (Continued)

<u>Airport</u> This major fund accounts for major construction and for self-supporting aviation-related activities rendered at John Wayne Airport, Orange County. The airport's staff coordinates and administers general business activities related to the Airport, including concessions, commercial and general aviation operations, leased property, auto parking, and aircraft tie-down facilities.

OC Waste & Recycling This major fund accounts for the operation, expansion, and closing of existing landfills. Monies are collected through landfill disposal fees, which users pay based primarily on tonnage.

<u>Compressed Natural Gas (CNG)</u> This nonmajor fund accounts for the operation and maintenance of the CNG facility. Revenues consist primarily of CNG sales to both the County and the public.

Additionally, the County reports the following fund types:

Internal Service Funds The County reports nine Internal Service Fund types. These proprietary funds are used to report activities that provide goods or services to other funds of the County. These funds account for fleet services, publishing services, and other services (including claims for workers' compensation, property damage, information & technology, insurance and various health programs) provided to other County departments or agencies. The Internal Service Funds receive revenues on a cost-reimbursement basis.

Fiduciary Fund Types The County has a total of 388 individual trust and custodial funds for FY 2021-22. These trust and custodial funds are used to account for assets held on behalf of outside parties including other governments. They also include funds to account for financial activities of Pension and OPEB Plans administered by OCERS. When these assets are held under the terms of a formal trust agreement, a private-purpose trust, pension trust or OPEB trust fund is used. An investment trust fund is used for the portion of the County investment pool representing external pool participants, whose assets are deemed to be held in trust by the County's Treasurer. Custodial funds are used to account for assets that the County holds on behalf of others as their agent.

The County reports the following trust and custodial funds:

<u>Private-Purpose Trust</u> These funds are used to account for trust arrangements where the principal and income benefit individuals, private organizations, or other governments. Examples of private-purpose trusts include unidentified funds, unclaimed prisoner funds, and decedents' property held for escheatment. Also included are the County accounts for the former redevelopment agency.

Investment Trust (Orange County Treasurer Pool)

Orange County Investment Pool

These funds are used to account for assets, consisting primarily of cash and investments, of separate legal entities, other than school and community college districts, which participate in the County Treasurer's Investment Pool, and includes debt reserves for school and community college districts.

Orange County Educational Investment Pool

These funds are used to account for assets, consisting primarily of cash and investments, of school and community college districts that participate in the County Treasurer's External Educational Investment Pool.

<u>Pension and Other Postemployment Benefits Trust</u> The County reports nine Pension and OPEB Trust funds, which includes three trust funds under OCERS, the County's fiduciary component unit. These trust funds are used to account for resources that are required to be held in trust for the members and beneficiaries of defined benefit and defined contribution pension and OPEB plans.

B. Government-Wide and Fund Financial Statements (Continued)

Fund Financial Statements (Continued)

<u>Custodial Funds</u> These funds are used to report fiduciary activities that are not required to be reported in pension trust funds, investment trust funds, or private-purpose trust funds, such as funds to hold property taxes and special assessments collected on behalf of various local governments, monies held in the Redevelopment Property Tax Trust funds, civil filing fees, and special assessment districts debt service funds. They also include the Orange County Transportation Agency, which is an OCERS custodial fund that is used to account for the Health Care Plan established in accordance with Internal Revenue Code (IRC) Section 115. The County's custodial funds use the economic resources measurement focus and accrual basis of accounting.

C. Measurement Focus and Basis of Accounting

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets, deferred outflows of resources and all liabilities, and deferred inflows of resources associated with the operation of these funds are included on the Statement of Net Position. Receivables are reported net of allowances for uncollectible receivables in the Statement of Net Position. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

For purposes of not overstating the true costs and program revenues reported for the various functions, interfund activities (e.g. interfund transfers and interfund reimbursements) have been eliminated from the government-wide Statement of Activities. Exceptions to the general rule are interfund services provided and used between functions, such as charges for auditing and accounting fees between the general government function and various other functions of the primary government. Elimination of these interfund activities would distort the direct costs and program revenues reported for the various functions concerned. When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, and then unrestricted resources as they are needed. Additionally, only the interfund transfers between governmental and business-type activities are reported in the Statement of Activities.

Governmental Fund Financial Statements

Governmental funds are used to report all governmental activities that are not primarily self-funded by fees or charges to external users or other funds and are not fiduciary activities. These activities include the County's basic services to its citizenry and to other agencies, including general government, public protection, public ways and facilities, health and sanitation, public assistance, education, and recreation and cultural services. There are five types of governmental funds:

- General Fund
- Special Revenue Funds
- Capital Projects Funds
- Debt Service Funds
- Permanent Fund

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method of accounting, revenues and other governmental fund type financial resources (e.g., bond issuance proceeds) are recognized in the accounting period in which they become susceptible to accrual-that is, when they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or

C. Measurement Focus and Basis of Accounting (Continued)

Governmental Fund Financial Statements (Continued)

soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days after the end of the current fiscal period. Revenues that are accrued include real and personal property taxes, sales taxes, property taxes in-lieu of motor vehicle license fees, fines, forfeitures and penalties, interest, federal and state grants and subventions, charges for current services, and the portion of long-term sales contracts and leases receivable that are measurable and available and where collectability is assured. Revenues that are not considered susceptible to accrual include penalties on delinquent property taxes and minor licenses and permits. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met, provided that the revenues are also available. If intergovernmental revenues are expected to be received later than 60 days following the end of the fiscal year, then a receivable is recorded along with deferred inflows of resources. Once the intergovernmental revenue is received, revenue and cash are recorded, and the receivable and deferred inflows of resources are eliminated. Receipts that have not met all of the earning requirements are reported as unearned revenue received. Refer to Note 20, Deferred Outflows and Inflows of Resources for additional information.

Most expenditures are recorded when the related fund liabilities are incurred. However, inventory type items are considered expenditures at the time of use and principal and interest expenditures on bonded debt, financed purchases and leases are recorded in the year they become due for payment. Costs of claims, judgments, compensated employee absences and employer pension contributions are recorded as expenditures at fiscal year-end if they are due and payable. The related long-term obligation is recorded in the government-wide financial statements. Commitments such as purchase orders and contracts for materials and services are recorded as encumbrances. General capital asset acquisitions, including entering into contracts, giving the County the right to use leased assets, are reported as expenditures in governmental funds. Issuance of long-term debt and financing through leases are reported as other financing sources.

Because the fund financial statements are presented on a different measurement focus and basis of accounting than the government-wide financial statements, a reconciliation is presented to explain the adjustments necessary to reconcile fund financial statements to the government-wide financial statements.

Proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Proprietary funds are used to account for business-type activities, which are financed mainly by fees and charges to users of the services provided by the funds' operations. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

There are two types of proprietary funds:

- Enterprise Funds
- Internal Service Funds

The County has three enterprise funds: Airport, OC Waste & Recycling, and CNG. The principal operating revenues of the Airport, OC Waste & Recycling, and CNG enterprise funds are charges to customers for (1) landing fees, terminal space rental, auto parking, concessions, revenue from use of property, revenue from services, and aircraft tie-down fees, (2) disposal fees charged to users of the waste disposal sites, and (3) natural gas sales, respectively.

Internal Service Funds are used to report activities that provide goods or services to other funds of the County. The internal service funds receive revenues through cost-reimbursements of the goods and

C. Measurement Focus and Basis of Accounting (Continued)

Governmental Fund Financial Statements (Continued)

services provided to other County departments and agencies. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation and amortization on capital assets.

Fiduciary Fund Financial Statements

Fiduciary funds are used to account for assets held in a trustee or custodial capacity and cannot be used to support the County's own programs. They are accounted for using the economic resources measurement focus and accrual basis of accounting.

D. Budget Adoption and Revision

No later than October 2nd of each year, after conducting public hearings concerning the recommended budget, the Board adopts a budget in accordance with Government Code Sections 29000-29144 and 30200. The County publishes the results of this initial budgeting process in a separate report, the "Adopted Budget," which specifies all accounts established within each fund, department and budget control (a collection of account numbers necessary to fund a certain division or set of goal related activities) and will not include the carried forward prior year encumbrances. However, the original and final budget amounts presented in the financial statements may differ due to the inclusion of the carried forward prior year encumbrances.

Throughout the year, the original budget is adjusted to reflect increases or decreases in revenues and changes in fund balance, offset by an equal amount of adjustments to appropriations. Department heads are authorized to approve appropriation transfers within a fund, department and budget control. However, appropriation transfers between funds/departments/budget controls require approval of the Board. Accordingly, the lowest level of budgetary control exercised by the County's governing body is the fund, department, and budget control level.

Annual budgets are adopted on a basis consistent with GAAP except for the general fund and major special revenue funds as detailed in the Budgetary Comparison Statement reconciliation between the budgetary basis and GAAP basis. Budgeted governmental funds consist of the general fund, major funds, and other nonmajor governmental funds. Budgetary comparison statements are prepared only for the general fund and major special revenue funds (listed below) for which the County legally adopts annual budgets, and are presented as part of the basic financial statements. The County did not legally adopt annual budgets for the Capital Facilities Development Corporation Fund, South OC Public Financing Authority Fund, and Capital Facilities Construction Fund. The budgetary comparison statements provide three separate types of information: (1) the original budget, which is the first complete appropriated budget; (2) the final amended budget, which includes all legally authorized changes regardless of when they occurred; and (3) the actual revenues and expenditures during the year for budget-to-actual comparisons. The actual comparisons are presented on a budgetary basis and will not compare to the Statement of Revenues, Expenditures and Changes in Fund Balance.

The major special revenue fund Budgetary Comparison Statements reported by the County in the Basic Financial Statements are:

- Flood Control District
- Other Public Protection
- Mental Health Services Act

The intent of preparing the Budgetary Comparison Statement reconciliation is to provide the reader with a more complete understanding and appreciation for the difference between budgetary revenues and other financing sources and expenditures and other financing uses presented in the Budgetary Comparison Statements and the revenues, expenditures, and other financing sources (uses) reported on the Statement

D. Budget Adoption and Revision (Continued)

of Revenues, Expenditures, and Changes in Fund Balances, which is prepared in accordance with GAAP. The major areas of difference are as follows:

- Under the budgetary basis, investment income is recognized on an amortized cost basis. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools" (GASB Statement No. 31), all investment income, including changes in fair value (gains/losses) of investments, are recognized as investment income.
- Under the budgetary basis, revenues are normally recorded when earned. For GAAP basis, in accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions" (GASB Statement No. 33), and GASB Statement No. 65, all nonexchange transactions, such as government-mandated nonexchange transactions and voluntary nonexchange transactions, can be accrued only if they are measurable and "available." "Available" has been defined by GASB Statement No. 33 as "collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period." The County has established the availability period as 60 days after the end of the fiscal year. In order to ensure all transactions for the current fiscal year meet this criterion, the County analyzes revenue receipts through August 31 and records adjustments to deferred inflows of resources for transactions that are not collected.
- GASB Statement No. 34 states, "Fiduciary funds should be used to report assets held in a trustee or
 custodial capacity for others and therefore, cannot be used to support the government's own
 programs". For the GAAP financial statements, an adjustment to record public-purpose trust monies
 as revenue in the benefitting funds is recorded for funds which continue to be accounted for as
 fiduciary funds on a budgetary basis, but do not meet the definition of a fiduciary fund.
- Under the budgetary basis, intrafund transfers are recognized as other financing sources (uses). For the GAAP financial statements, intrafund transfers are eliminated to minimize the "grossing-up" of intrafund transfers.
- Under the budgetary basis, interfund reimbursements or repayments from funds responsible for particular expenditures or expenses to the funds that initially paid for them are recorded as revenues in the payer fund. In accordance with GASB Statement No. 34, an adjustment to eliminate interfund reimbursements is recorded for the GAAP financial statements.
- In accordance with GAAP, the County has established guidelines for recording expenditure accruals. In order to reasonably ensure that accruals for current fiscal year transactions are materially accurate, the County performs an analysis to identify expenditure accruals for the GAAP financial statements.
- The OC Animal Care Center used cash basis to record money it received from invoicing due to the low collection rate. Per GAAP, the receivables and the amount of the allowance for the doubtful accounts should be recorded.
- Under the budgetary basis, the lease rental payments were recorded in the Information Technology Internal Service Fund (ISF). Per GAAP, the lease payments were reclassed to the fund where the financed purchase liability is recorded.
- Under a budgetary basis, the County bills department for their portion of the pension required contribution to OCERS and recognizes the portion that is not forwarded to OCERS as revenue because the County Investment Account at OCERS funded this portion of the required contribution. For the GAAP financial statements, the County reclassified the budgeted revenue for the portion of the required contribution funded by the County Investment Account to reduce expenditures.
- Per GASB Statement No. 87, "Leases" (GASB Statement No. 87), an expenditure and other financing source should be reported in the period the lease is initially recognized for the present value of the payments expected to be made during the lease term.

D. <u>Budget Adoption and Revision (Continued)</u>

The following schedule shows the Budgetary Comparison Statement reconciliation between the budgetary basis and GAAP basis for the General Fund and major special revenue funds:

		General Fund		Flood Control District		Other Public Protection	5	Mental Health Services Act
Actual Revenues and Other Financing Sources from the Budgetary Comparison Statements	\$	4,277,762	\$	285,414	\$	64,087	\$	249,888
Differences-budget to GAAP:								
Change in unrealized loss on investment		(30,701)		(8,311)		(3,347)		(4,287)
Adjustment to report redirected investment income as transfers						9		
Adjustment of revenue accruals for 60 day recognition period		(8,941)		3,081		754		
Adjustment to record Public-Purpose Trust Fund monies								
as revenue in benefitting fund		(1,989)		(650)				
Adjustment to eliminate intrafund transfers		(6,566)		(78,268)		(1,903)		
Reclassification of direct billing reimbursements paid by fund for the								
benefit of other funds		(6,857)		(188)				
Revenues and Other Financing Sources for non-budgeted funds are								
excluded in the Budgetary Comparison Statements						102		
Recognition of outstanding invoices for OC Animal Care Center		(150)						
Reclassification of Other Revenues to an Expenditure for portion of pension								
obligation bonds funded by the County Investment Account with OCERS		(21,096)						
Reclass ISF financed purchase rental to General Fund		136						
Reclass change in the fair market value of investments		27,693		7,284		2,960		3,855
Record GASB Statement No. 87 Leases-Lessee		5,642						
Record GASB Statement No.87 Leases-Lessor activities		205		416				
Total Revenues and Other Financing Sources as Reported on the Statement	•	4 005 400	•	000 770	•	00.000	•	040 450

Reclass change in the fair market value of investments		27,693		7,284		2,960		3,855
Record GASB Statement No. 87 Leases-Lessee	_	5,642			_			-
Total Expenditures and Other Financing Uses as Reported on the Statement of Revenues, Expenditures and Changes in Fund Balances	\$	3,843,660	\$	226,997	\$	78,920	\$	195,202

E. Fund Balance

The County applies GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions" (GASB Statement No. 54) for financial statement purposes. The intent of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions.

The balance sheet reports the following five different classifications of fund balance:

Nonspendable Fund Balance Amounts that are not in a spendable form, such as long-term receivables, inventory or prepaid costs, or that are required to be maintained intact, such as the corpus of an endowment fund. The County's Regional Park Endowment Permanent Fund reports the original donation as nonspendable in accordance with donor requirements.

<u>Restricted Fund Balance</u> Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

<u>Committed Fund Balance</u> Amounts constrained to specific purposes by a formal action of the highest level of decision-making authority. The constraint remains binding unless the government takes the same highest-level action to remove or change the constraint. The Board is the County's highest level of decision-making authority. The highest level of formal action to commit resources is an ordinance.

Assigned Fund Balance Amounts a government intends to use for a specific purpose that are neither restricted nor committed; intent can be expressed by the governing body (Board) or by an official or body to which the governing body delegates authority (CEO, County Department Heads, and County Purchasing Agent). The County's budget development guidelines provide the policy that is used by all County departments to determine the designation of assigned fund balance. Assigned fund balance includes the aggregation of resources for capital projects, which are expected to develop in future periods and fund balance reserved for outstanding contractual obligations for which goods and services have not yet been received or approved by the Board for appropriation in FY 2021-22, through the County's budget process.

<u>Unassigned Fund Balance</u> Residual amounts within the General Fund in excess of what can be properly classified in one of the four other fund balance classifications. Within all other governmental funds, unassigned fund balance is comprised of the negative residual in excess of what can be properly classified as nonspendable, restricted, or committed.

With regards to the hierarchy for spending, when expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, the County's policy is to spend restricted fund balance before unrestricted fund balance. When committed, assigned, and unassigned fund balance is available for the same specific purpose, the County's policy is to expend fund balance according to the following priority: committed, assigned, and then unassigned.

Following are detailed descriptions within each fund balance classification reported in the balance sheet:

E. Fund Balance (Continued)

		General Fund	Flood Control District		Other Public Protection	Mental Health Services Act	Other Governmental Funds	Total Governmental Funds
lonspendable:

Annually, the Board adopts a five-year Strategic Financial Plan (SFP). The County of Orange SFP includes a policy for Fund Balance Unassigned (FBU) that eliminates FBU as a funding source for the next year's budget as a significant step toward reducing structural reliance on one-time funds. Positive variances in estimated FBU are to be added to strategic reserves, consistent with the Board policy.

The County may prepay its pension contribution and reports the prepaid amount as Nonspendable Fund Balance rather than Unassigned Fund Balance as required by GASB Statement No. 54. For FY 2021-22, the proceeds of \$521,784 was for short-term Taxable Pension Obligation Bonds to prepay its FY 2022-23 pension contribution at a discount. Of this amount \$515,568 is the prepaid costs for General Fund and is Nonspendable. Refer to Note 10, Short-Term Obligations, and Note 18, Retirement Plans for additional information.

F. Cash and Investments

The County's cash and investments are called the Orange County Investment Fund (OCIF), which includes all cash and investment balances entrusted to the Treasurer and may include cash on hand, demand deposits, restricted cash, investments in Orange County Treasurer's Pool (OCTP) and specific investments, such as John Wayne Airport Investment Fund (JWA Fund). For reporting purposes, OCTP is further divided into the Orange County Investment Pool (OCIP) and the Orange County Educational Investment Pool (OCEIP), the latter of which is utilized exclusively by the County's public school and community college districts. The OCTP is maintained for the County and other Non-County government entities for the purpose of benefiting from economies of scale through pooled investment activities.

The County has reported investment values at fair value in the accompanying financial statements, using the fair value measurement within the fair value hierarchy established by GASB Statement No. 72 "Fair Value Measurement and Application" (GASB Statement No. 72).

F. Cash and Investments (Continued)

Proceeds from County-issued bonds are held by trustees and are invested in instruments authorized by the respective trust agreements including money market mutual funds, investment agreements, repurchase agreements, and U.S. Government securities. All investments are measured at fair value. The trustee uses an independent service to value those securities.

Participants' shares are valued using an amortized cost basis and income is distributed to participants based on their relative participation during the period. Income is calculated based on (1) realized investment gains and losses calculated on an amortized cost basis, (2) interest income based on stated rates (both paid and accrued), (3) amortization of discounts and premiums on a straight-line basis, and reduced by (4) actual investment administrative cost of such investing, depositing or handling of funds. This method differs from the fair value method used to value investments in this statement because the amortized cost method is not designed to distribute to participants all unrealized gains and losses in the fair values of the pools' investments. Refer to Note 4, Cash and Investments for additional information.

The investments in the Retiree Medical Defined Benefit Trust are managed by OCERS and are reported at fair value. Refer to Note 19, Other Postemployment Benefits, to obtain OCERS stand-alone annual financial statements.

G. Inventory of Materials and Supplies

Inventories consist of expendable materials and supplies held for consumption. Inventories are valued at cost, which is determined on a moving weighted-average basis. Applicable fund balances are non-spendable for amounts equal to the inventories on hand at the end of the fiscal year, as these amounts are not available for appropriation and expenditure. The costs of inventory items are recorded as expenditures/expenses when issued to user departments.

H. Prepaid Costs

The County may pay for certain types of services in advance, such as pension costs and rents, and recognizes these expenditures/expenses when consumed. Prepaid costs in the governmental funds balance sheet include \$547,403, which primarily consist of \$546,911 for the County's FY 2022-23 pension contribution at a discount.

Prepaid costs in the government-wide financial statements include the prepaid costs reported in the fund financial statements, reduced for 50% of the prepaid asset related to the pension contribution after the measurement date in accordance with GASB Statement No. 68 "Accounting and Financial Reporting for Pensions" (GASB Statement No. 68) and GASB Statement No. 71 "Pension Transition for Contributions Made Subsequent to the Measurement Date" (GASB Statement No. 71). Refer to Note 18, Retirement Plans for additional information.

Capital Assets

Capital assets are defined as assets of a long-term character that are intended to be held or used in operations, such as land, land improvements, structures and improvements, equipment, intangible, intangible right-to-use lease assets, and infrastructure. Infrastructure assets are grouped by networks consisting of flood channels, roads, bridges, trails, traffic signals, and harbors.

Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. Intangible right-to-use lease assets are recorded at the present value of future lease payments over the contract term.

I. Capital Assets (Continued)

Capital assets with an original unit cost equal to or greater than the County's capitalization threshold shown in the table below are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

Asset Type	Capitalization Threshold
Land	\$0
Land Improvements	\$150
Structures and Improvements	\$150
Equipment	\$ 5
Intangible:	
Software (Commercially Acquired)	\$ 5
All Other	\$150
Intangible Right-To-Use Lease Asset:	
Lease Equipment	\$10
Lease IT Equipment	\$10
Lease Structure and Improvements	\$0
Lease Land	\$0
Infrastructure	\$150

Depreciation and amortization are calculated on a straight-line basis over the estimated useful lives of the related assets. Intangible right-to-use lease assets are amortized over the shorter of lease term or the estimated useful life of the lease asset. No depreciation or amortization is provided on construction in progress or intangible assets in progress, respectively, until the project is completed and the asset is placed into service. Estimated useful lives of structures and improvements, equipment, intangibles, and infrastructure are as follows:

Land Improvements	10 to 20 years
Structures and Improvements	5 to 60 years
Equipment	2 to 40 years
Intangibles:	
Computer Software	2 to 20 years
Intangible Right-To-Use Lease Assets:	
Lease Equipment	2 to 5 years
Lease IT Equipment	2 to 3 years
Lease Structures and Improvements	2 to 28 years
Lease Land	6 to 13 years
Infrastructure:	
Flood Channels	20 to 100 years
Roads	10 to 20 years
Bridges	50 to 75 years
Trails	20 to 75 years
Traffic Signals	15 to 75 years
Harbors	20 to 50 years
Airport–Runways, Taxiways, and Aprons	15 to 60 years
OC Waste & Recycling–Cell Development, Drainage	
Channels, Facility Improvements, Habitat, Landfill	
Gas/Environmental, Closure/Other Earthwork	3 to 153 years

I. Capital Assets (Continued)

Maintenance and repair costs are expensed in the period incurred. Expenditures that materially increase the capacity or efficiency or extend the useful life of an asset are capitalized and depreciated. Upon the sale or retirement of the capital asset, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the Statement of Activities and Proprietary Funds' Statement of Revenues, Expenses and Changes in Fund Net Position.

In accordance with GASB Statement No. 89, "Accounting for Interest Cost Incurred before the End of a Construction Period," interest is not capitalized as a cost of the capital asset for business-type activities nor governmental activities.

The impairment loss of capital assets is measured using one of several allowable methodologies based on the reason for the impairment, which is reported net of insurance recovery, and is reported as a program or operating expense, special item or extraordinary item, depending on the circumstances.

J. Leases

GASB Statement No. 87 defines a lease as a contract that transfers the right to use another entity's asset for a specific period of time in an exchange or exchange-like transaction. The County has entered into various lease agreements, primarily for office buildings, office equipment and other equipment. Under these contracts, the County recognizes a lease liability and a lease asset (intangible right-to-use asset) at the commencement of the lease term in the government-wide financial statements, the lease liability is measured at the present value of payments expected to be made during the lease term (less any lease incentives). The lease asset is measured at the amount of the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs.

Likewise, the County leases its real property, structures and improvements to others, which include the Airport non-cancellable leases with air carriers and concessionaires, OC Waste & Recycling landfill gas lease agreements, and other recreational boating, retail, restaurants, and commercial operations at County parks and facilities. Under these contracts, the County recognizes a lease receivable and a deferred inflow of resources at the commencement of the lease term in the government-wide and governmental fund financial statements. The lease receivable is measured at the present value of lease payments expected to be received during the lease term. The deferred inflow of resources is measured at the value of the lease receivable plus any payments received at or before the commencement of the lease term that relate to future periods.

An amendment to a lease contract is considered a lease modification, unless the lessee's right to use the underlying asset decreases, in which case it is considered a partial or full lease termination. A lease termination is accounted for by reducing the carrying values of the lease liability and lease asset by a lessee, or the lease receivable and deferred inflows of resources by the lessor, with any difference being recognized as a gain or loss.

The future lease payments are discounted using the interest rate implicit in the lease contract. If the interest rate is not available, the County uses its incremental borrowing rate determined by the County Executive Office. The lease term is determined by the sum of the non-cancelable periods, plus renewal options when they are reasonably certain of being exercised or early termination options when they are reasonably certain of not being exercised.

The Airport has regulated leases, not subject to the provisions of GASB Statement No. 87. For regulated leases, no lease receivable or deferred inflows of resources are reflected in the financial statements. Refer to Note 13, Leases for additional information.

K. Deferred Outflows/Inflows of Resources

The County reports deferred outflows and inflows of resources in its governmental, proprietary, fiduciary, and government-wide financial statements. A deferred outflow of resources is a consumption of net assets by the government that is applicable to a future reporting period. A deferred inflow of resources represents an acquisition of net assets by the government that is applicable to a future period. Refer to Note 20, Deferred Outflows and Inflows of Resources for a detailed listing of the deferred inflows and outflows of resources the County has recognized.

L. Self-Insurance

The County is self-insured for general and automobile liability claims, workers' compensation claims, and for claims arising under the County self-insured PPO Health Plans, short-term disability plans, dental plan, Reserve Deputy Sheriff accidental death and dismemberment plan, and unemployment benefits program. Liabilities are accrued based upon case reserves, development of known claims, incurred but not reported claims and allocated and unallocated loss adjustment expenses. For additional information, refer to Note 16, Self-Insurance.

M. Property Taxes

The provisions of the California Constitution and Revenue and Taxation Code govern assessment, collection, and apportionment of real and personal property taxes. Real and personal property taxes are computed by applying approved property tax rates to the assessed value of properties as determined by the County Assessor, in the case of locally assessed property and as determined by the State Board of Equalization in the case of state-assessed properties. Property taxes are levied annually, with the exception of the supplemental property taxes, which are levied when supplemental assessment events, such as sales of property or new construction, take place.

The County collects property taxes on behalf of all property tax-receiving agencies in Orange County. Property tax-receiving agencies include the school districts, cities, special districts not governed by the Board, special districts governed by the Board, redevelopment successor agencies, and the County General Fund.

Property taxes receivables are recorded as of the date levied in property tax unapportioned funds, which are classified as custodial funds. When collected, the property taxes are deposited into the County Treasury in the property tax unapportioned funds, where they are held in the unapportioned taxes liability accounts pending periodic apportionment to the tax-receiving agencies. The property tax unapportioned funds are included in the custodial funds category of the County's fund financial statements because the unapportioned taxes are collected and held on behalf of other governmental agencies.

Property tax collections are apportioned (disbursed) to the tax-receiving agencies periodically from the tax unapportioned funds based on various factors including statutory requirements, materiality of collections received, tax delinquency dates, the type of property tax roll unapportioned fund (e.g. secured, unsecured, supplemental, delinquent secured, delinquent unsecured, delinquent supplemental, homeowners' property tax subvention, or state-assessed properties, etc.), and cash flow needs of the tax-receiving agencies. Property tax revenues are recognized in the fiscal year for which they are levied, provided they are due within the fiscal year and collected within 60 days after the fiscal year-end. Property tax revenues are also recognized for unsecured and supplemental property taxes that are due at year-end, and are collected within 60 days after the fiscal year-end, but will not be apportioned until the next fiscal year due to the timing of the tax apportionment schedule. The County's portion of the unapportioned taxes at June 30, 2022 is allocated to and recorded in the corresponding funds for reporting purposes.

M. Property Taxes (Continued)

Unsecured and supplemental property tax levies that are due within the fiscal year but are unpaid at fiscal year-end, are recorded as deferred inflows of resources in the fund-level financial statements, and recognized as revenue in the government-wide financial statements. The County records an allowance to recognize uncollectible taxes receivable.

Local assessed values are subject to appeal. The County maintains records of disputed property taxes, such as those properties for which the values have been appealed to the local Assessment Appeals Boards. Upon final disposition of the appeals and disputes, the amounts are either refunded to taxpayers or the tax bills are corrected.

The following are significant dates on the property tax calendar:

	California Revenue & Taxation Code Section
Supplemental assessments are effective on the 1st day of the month following the new construction or ownership change.	75.41
Property tax lien date is January 1.	2192
Unsecured taxes on the roll as of July 31 are delinquent August 31.	2922
Assessor delivers roll to Auditor-Controller July 1.	616, 617
Tax roll is delivered to the Treasurer-Tax Collector on or before the levy date (the 4th Monday in September).	2601
Secured tax payment due dates are:	
1st Installment - November 1, and	2605
2nd Installment - February 1.	2606
Secured tax delinquent dates (last day to pay without penalty) are:	
1st Installment - December 10, and	2617
2nd Installment - April 10.	2618
Declaration of tax default for unpaid taxes occurs July 1.	3436
Power to sell is effective five years after tax default.	3691

N. Compensated Employee Absences

Compensated employee absences (vacation, compensatory time off, performance incentive plan time off, annual leave, and sick/healthcare leave) are accrued as an expense and liability in the proprietary funds when incurred. In the governmental funds, only those amounts that are due and payable at year-end are accrued. Compensated employee absences that exceed this amount represent a reconciling item between the fund and government-wide presentations.

O. Pensions

The County recognizes a net pension liability to reflect the County's proportionate share of the excess of the total pension liability over the fiduciary net position of the County's retirement plans.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of the OCERS and the Extra-Help Defined Benefit Plan and additions to/deductions from OCERS and the Extra-

O. Pensions (Continued)

Help Defined Benefit Plan fiduciary net position have been determined on the same basis as they are reported by OCERS and the Extra-Help Defined Benefit Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

At June 30, 2022, the County's net pension liability from OCERS was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability was determined by using actuarial valuation results. The County's net pension liability from the Extra-Help Defined Benefit Plan was measured as of June 30, 2022; and the plan's total pension liability used to calculate the net pension liability was determined by rolling forward the July 1, 2021 valuation to June 30, 2022.

P. Other Postemployment Benefits (OPEB)

The County recognizes a net OPEB liability to reflect the County's proportionate share of the excess of the total OPEB liability over the fiduciary net position of the County's Retiree Medical Plan. The Retiree Medical Plan is reported in the County's financial statements and has a plan year-end of December 31, 2021.

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the County's Retiree Medical Plan and additions to/deductions from the Retiree Medical Plan's fiduciary net position have been determined on the same basis as they are reported by the Retiree Medical Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

At June 30, 2022, the County's net OPEB liability was measured as of December 31, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2021.

Q. Statement of Cash Flows

A Statement of Cash Flows is presented for proprietary fund types. The County's cash and cash equivalents for cash flow reporting purposes are considered to be cash on hand, demand deposits, unrestricted and restricted investments held in the County Treasury's investment pooled funds and outside trustees.

Only investments with maturities of three months or less at the time of purchase may be classified as cash equivalent.

R. Indirect Costs

County indirect costs are allocated to benefitting departments in the "Indirect Expenses Allocation" column of the government-wide Statement of Activities. Allocated costs are from the County's FY 2021-22 County-Wide Cost Allocation Plan (CWCAP), which was prepared in accordance with the Code of Federal Regulation, Title 2, Part 200. For financial statement purposes, the County has elected to allocate and record indirect costs to budget controls within the General Fund in order to match the reimbursement of indirect costs recorded as program revenues to the same function.

S. Effects of New Pronouncements

The following lists recent GASB Pronouncements that have been implemented in FY 2021-22:

In June 2017, GASB issued Statement No. 87, "Leases." This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The

S. Effects of New Pronouncements (Continued)

statement requires a lessee to recognize a lease liability and an intangible right-to-use lease asset, and a lessor to recognize a lease receivable and a deferred inflow of resources. The requirements of this statement are effective for reporting periods beginning after June 15, 2021, which requires the County to implement this Statement in FY 2021-22. The statement was implemented in FY 2021-22. Refer to Note 13, Leases for additional information.

In January 2020, GASB issued Statement No. 92, "Omnibus 2020." This statement enhances comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The requirements of this statement are effective for reporting periods after June 15, 2021, which requires the County to implement the Statement in FY 2021-22. The statement was implemented without an impact to the County.

In March 2020, GASB issued Statement No. 93, "Replacement of Interbank Offered Rates." This statement is to address accounting and financial reporting implications that result from the replacement of an interbank offered rate due to global reference rate reform. The requirements of this Statement, are effective for reporting periods beginning after June 15, 2021, which requires the County to implement this Statement in FY 2021-22. The statement was implemented without an impact to the County.

In June 2020, GASB Statement No. 97, "Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans—an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32." The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board, and (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution OPEB plans by clarifying the financial burden criteria in Statement No. 84. It also extends the accounting and financial reporting requirements related to the Pension Plans, to Section 457 plans that meet the definition of a pension plan. The requirements of this Statement are effective for fiscal years beginning after June 15, 2021 and all reporting periods thereafter, which requires the County to implement this Statement in FY 2021-22. The statement was implemented without an impact to the County.

In October 2021, GASB issued Statement No. 98, "The Annual Comprehensive Financial Report." This Statement establishes the term annual comprehensive financial report and its acronym ACFR. That new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. The requirements of this Statement are effective for fiscal years beginning after December 15, 2021. The County implemented this Statement without an impact to the County.

The following summarizes recent GASB Pronouncements that will be implemented in future financial statements, as amended by GASB Statement 95. The County has not determined the effect of these Statements.

In May 2019, GASB issued Statement No. 91, "Conduit Debt Obligations." This statement provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations, and related note disclosures. The statement requires issuers to disclose general information about their conduit debt obligations, organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. The requirements of this statement are effective for reporting periods beginning after December 15, 2021, which requires the County to implement this Statement in FY 2022-23.

In March 2020, GASB issued Statement No. 94, "Public-Private and Public-Public Partnerships and Availability Payment Arrangements." This statement improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). It also provides guidance for accounting and financial reporting for availability payment arrangements. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. The County will implement this Statement in FY 2022-23.

S. Effects of New Pronouncements (Continued)

In May 2020, GASB issued Statement No. 96, "Subscription-Based Information Technology Arrangements." This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs). The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. The County will implement this Statement in FY 2022-23.

In April 2022, GASB issued Statement No. 99, "Omnibus 2022". The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of other GASB statements, and (2) adding accounting and financial reporting guidance for financial guarantees. Portions of this Statement are effective upon issuance and were implemented in FY 2021-22 without an impact to the County. Certain requirement related to the leases, PPPs, and SBITAs, are effective for reporting periods beginning after June 15, 2022, which requires the County to implement them in FY 2022-23. The requirements related to the financial guarantees and the classification and reporting of certain derivatives are effective for periods beginning after June 13, 2023, which requires the County to implement them in FY 2023-24.

In June 2022, GASB issued Statement No. 100, "Accounting Changes and Error Corrections-an amendment of GASB Statement No. 62". This Statement improves accounting and financial reporting requirements for accounting changes and errors corrections to provide more understandable, reliable, relevant, consistent, and comparable information. It also requires the display of note disclosures of the accounting change and error corrections. The requirements of this statement are effective for reporting periods after June 15, 2023, which requires the County to implement the Statement in FY 2023-24.

In June 2022, GASB issued Statement No. 101, "Compensated Absences" in which the primary objective is to update the recognition and measurement guidance for compensated absences. This is achieved by a unified model and amends certain previously required disclosures. The requirements of this statement are effective for reporting periods after December 15, 2023, which requires the County to implement the Statement in FY 2023-24.

T. Use of Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates. Where significant estimates have been made in preparing these financial statements, they are described in the applicable footnotes.

U. Consolidation of Governmental Funds Balance Sheet and Proprietary Funds Statement of Net Position Line Items in Statement of Net Position

Several asset line items in the Governmental Funds Balance Sheet and the Proprietary Funds Statement of Net Position are combined into one line item in the Government-Wide Statement of Net Position for presentation purposes. In order to avoid any confusion, the following table lists the line items shown in the Governmental and Proprietary Fund financial statements that are condensed together in the Government-Wide Statement of Net Position.

Government-Wide Statement of Net Position Line Item	Corresponding Governmental Funds Balance Sheet or Proprietary Funds Statement of Net Position Line Item						
Cash and Cash Equivalents	Pooled Cash/Investments; Cash Equivalents/Specific Investments; Imprest Cash Funds; and Cash/Cash Equivalents						
Restricted Cash and Cash Equivalents	Restricted Cash and Investments with Trustee; Restricted Pooled Cash/Investments; and Restricted Pooled Cash/Investments–Closure and Postclosure Care Costs						

2. CHANGE IN ACCOUNTING PRINCIPLE

The County implemented GASB Statement No. 87 in the current financial statements, which resulted in the restatement of the following:

Restatement of Statement of Net Position:

	G	overnmental Activities	Bu	siness-Type Activities	Total
Net Position at June 30, 2021	\$	2,151,198	\$	1,512,069	\$ 3,663,267
Lease Receivable under GASB Statement No. 87		115,184		126,120	241,304
Capital Assets, Intangible-Right-to-Use Lease Assets					
under GASB Statement No.87		447,581			447,581
Deferred Inflows of Resources under GASB Statement No. 87		(115,184)		(126,120)	(241,304)
Lease Liabilities under GASB Statement No. 87		(447,581)			(447,581)
Net position at June 30, 2021, as restated	\$	2,151,198	\$	1,512,069	\$ 3,663,267

Restatement of Balance Sheet:

	General Fund	Flo	od Control District	Governmental Fund		
Fund Balance at June 30, 2021	\$ 735,727	\$	468,108	\$	1,149,315	
Lease Receivable under GASB Statement No. 87	11,269		77,429		26,486	
Deferred Inflows of Resources under GASB Statement No. 87	(11,269)		(77,429)		(26,486)	
Fund Balance at June 30, 2021, as restated	\$ 735,727	\$	468,108	\$	1,149,315	

Other

Restatement of Proprietary Funds Net Position:

	Airport	Governmental Activities-Internal Service Funds			
Net Position Proprietary Funds at June 30, 2021	\$ 770,564	\$ 755,965	\$ 1,526,529	\$	109,686
Lease Receivable under GASB Statement No. 87	120,789	5,331	126,120		
Capital Assets, Intangible-Right-to-Use Lease Assets					
under GASB Statement No.87					228
Deferred Inflows of Resources under GASB Statement No. 87	(120,789)	(5,331)	(126,120)		
Lease Liabilities under GASB Statement No. 87	 <u></u>	<u></u>	 		(228)
Net Position Proprietary Funds at June 30, 2021, as restated	\$ 770,564	\$ 755,965	\$ 1,526,529	\$	109,686

Refer to Note 6, Changes in Capital Assets and Note 13, Leases, for additional information on GASB Statement No. 87.

3. **DEFICIT FUND EQUITY**

The Criminal Justice Facilities Fund reported a deficit net position balance of \$2,381. The deficit is primarily due to timing of reimbursements from the State for expenditures related to the James A. Musick Facility Construction Project. Costs incurred during the development of the project are reimbursed from the State in arrears of actual expenditures.

The Workers' Compensation ISF reported a deficit net position balance of \$13,841. The deficit results from the amount calculated in the annual actuarial study which includes case reserves, development of known claims, incurred but not reported claims, allocated and unallocated loss adjustment expenses, and a discount for anticipated investment income. The deficit decreased by \$8,185 from the previous fiscal year primarily due to stable charges to program participants combined with favorable program and actuarial results. Charges to County departments have not provided sufficient cash flows to entirely fund the deficit in the Workers' Compensation ISF. The County will continue to review charges to departments and manage the funding status of the Workers' Compensation Program.

3. <u>DEFICIT FUND EQUITY (Continued)</u>

The Property and Casualty ISF reported a deficit net position balance of \$3,269. The deficit results from the amount calculated in the annual actuarial study which includes case reserves, development of known claims, incurred but not reported claims, allocated and unallocated loss adjustment expenses, and a discount for anticipated investment income. The deficit is primarily due to an increase in insurance premiums on the back of a hardening commercial insurance market combined with less favorable actuarial results. Charges to County departments have not provided sufficient cash flows to entirely fund the deficit in the Property and Casualty ISF. The County will continue to review charges to departments and manage the funding status of the Property and Casualty Program.

The Retiree Medical Plan 115 Trust reported a deficit net position balance of \$1,287. The deficit increased by \$84 due to the timing of employer contributions to fund the lump-sum payments for employees that elected to voluntarily retire or separate from the County as part of the Voluntary Retirement Incentive Program implemented by the County. Refer to Note 19, Other Postemployment Benefits for more information.

4. CASH AND INVESTMENTS

The elected Treasurer is responsible for authorizing all County bank accounts and pursuant to California Government Code (CGC) Sections 27000.1–27000.5, 27130–27137 and 53600–53686 is responsible for conducting County investment activities for all public funds in the OCIF. The law further provides that the Treasurer operates in the public interest when banking and investment activities are consolidated and duplication is reduced and economies of scale are achieved when consolidated investment strategies are carried out. The County Treasury contains pooled funds called the OCTP in an external investment pool wherein monies of the County and other legally separate external entities, which are not part of the County reporting entity, are commingled (pooled) for investment purposes only and invested on the participants' behalf. The OCTP is not registered with the Securities and Exchange Commission (SEC) as an investment company, and therefore is exempt from SEC rules. For reporting purposes only, the Treasurer separates OCTP into the OCIP and the OCEIP. In addition to the pooled funds in OCTP, the Treasurer separately invests other non-pooled funds (Specific Investments), including the JWA Fund and other separately managed investments.

The Treasurer further invests pooled funds from the OCTP into three Funds: The Orange County Money Market Fund (OCMMF), the Orange County Educational Money Market Fund (OCEMMF), and the Extended Fund. On November 22, 2021, Standard & Poor's (S&P) reaffirmed its highest rating of AAAm Principal Stability Fund Rating (AAAm) on the OCMMF and the OCEMMF, which represents 4.9% of the total OCTP. The Treasurer will act on a "best efforts" basis to stabilize the Net Asset Value (NAV) at or above \$0.9975 (in absolute dollar amounts). OCTP does not have any legally binding guarantees of share values. The OCTP's maximum duration is 1.5 years.

Pursuant to CGC Sections 27130-27137, the Board has established a Treasury Oversight Committee (TOC) that monitors and reviews the Investment Policy Statement (IPS) annually and also ensures that the Treasurer has an audit annually, which include limited tests of compliance with laws and regulations. The TOC consists of the County Executive Officer, the elected County Auditor-Controller, the County elected Superintendent of Schools, or their respective designees, and four public members, with at least three having expertise in, or an academic background in, public finance.

The investment practices and policies of the Treasurer are based on compliance with state law and prudent money management. The primary goal is to invest public funds in a manner which will provide maximum security of principal invested with secondary emphasis on providing adequate liquidity to pool participants. The last goal is to achieve a market rate of return within the parameters of prudent risk management while conforming to all applicable statutes and resolutions governing the investment of public funds. Interest is allocated to individual general ledger accounts monthly based on the average daily balances of each account on deposit with the Treasurer.

Cash and investments in OCIF with the Treasurer totaled \$12,809,320 as of June 30, 2022, consisting of \$319,566 in cash, \$12,380,158 in investment securities in OCTP and \$109,596 in the Specific Investments.

Total County cash and investments at fair value as of June 30, 2022, are reported as follows:

|--|

<u>Cash:</u>	
Imprest Cash	\$ 1,950
Pooled Cash for OCTP with Treasurer	319,566
Cash with Trustees	19,292
All other Cash and Timing Differences	(82,951)

Investments:	
Pooled Investments for OCTP with Treasurer	12,380,158
Specific Investments with Treasurer	109,596
Restricted Investments with Trustees	307,589
Total Investments	12,797,343
Fiduciary Component Unit Cash and Investments:	
External-OCERS (1)	 23,103,192
Total Cash and Investments	\$ 36,158,392
Total County Cash and Investments are reported in the following funds:	
Governmental Funds	\$ 3,662,899
Proprietary Funds	1,354,643
Fiduciary Funds	31,075,492
Component Unit-CFCOC	 65,358
Total Cash and Investments	\$ 36,158,392

Starting in FY 2020-21, OCERS is reported as a Fiduciary Component Unit of the County. OCERS' cash and investments are held by OCERS and are not with the County's Treasurer. For more information regarding investments with OCERS, refer to their most recently issued financial statements available at https://www.ocers.org/financial-reports.

A. Cash Deposits

CGC 53652 et. seq. and the IPS prescribe the amount of collateral that is required to secure the deposit of public funds. The pledge to secure deposits is administered by the California Commissioner of Business Oversight. Collateral is required for demand deposits at 110% of all deposits not covered by Federal Depository Insurance Corporation (FDIC) if obligations of the United States and its agencies, or obligations of the State or its municipalities, school districts, and district corporations are pledged. Collateral of 150% is required if a deposit is secured by first mortgages or first trust deeds upon improved residential real property located in California. All such collateral is considered to be held by the pledging financial institutions' trust departments or agents in the name of the County. Obligations pledged to secure deposits must be delivered to an institution other than the institution in which the deposit is made; however, the trust department of the same institution may hold them. Written agreements are required to provide, among other things, that the collateral securities are held separately from the assets of the custodial institution. FDIC is available for demand deposits and interest saving deposit funds deposited at any one financial institution up to a maximum of \$250. The County's deposits are covered by FDIC or collateralized with securities held by the County or its agent in the County's name in accordance with CGC Section 53652 and 53658.

B. Investments

The CGC Sections 53601 and 53635, Board ordinances and resolutions, the County's IPS, the bond indenture documents, trust agreements, and other contractual agreements govern the investments that may be purchased and may include certain restrictions on investment maturity, maximum portfolio percentages, term, value and credit quality to minimize the risk of loss. The IPS adds further restrictions to permitted investments from the CGC. The current IPS expressly prohibits leverage, reverse repurchase agreements as defined by CGC Section 53601, structured notes, structured investment vehicles, derivative instruments, and money market mutual funds that do not maintain a constant net asset value. All investments must be United States dollar denominated. As of June 30, 2022, the Treasurer was in full compliance with the more restrictive IPS for the OCTP and the Specific Investments accounts. Investments by the Treasurer are stated at fair value. Investments in the OCIF are marked-to-market on a daily basis.

Unless otherwise required in a trust agreement, educational districts (public school and community college), including certain bond-related funds are required by state law to deposit all monies received from any source with the County Treasurer. At June 30, 2022, the OCTP includes approximately 57.5% of these involuntary participant deposits. Involuntary (Education Code Sections 41001 and 41002) and other external pool participants funds (Government Code Section 27100.1) are deemed to be held in trust and such funds shall not be deemed funds or assets of the County and the relationship of the depositing entity and the County shall not be one of creditor-debtor.

Investment in County of Orange Taxable Pension Obligation Bonds, 2022 Series A

On January 13, 2022, the OCTP purchased the County issued Taxable Pension Obligation Bonds, 2022 Series A (2022 POBs) in the principal amount of \$521,784. The 2022 POBs were issued with coupon rates ranging from 0.55% to 0.68% and with maturities from July 2022 to April 2023 and are solely owned by the pooled funds in the OCIF. The obligation of the County to pay principal and interest on the 2022 POBs is an obligation imposed by law and is absolute and unconditional. As of June 30, 2022, the outstanding principal amount of the 2022 POBs is \$521,784. The bonds are not rated by any of the Nationally Recognized Statistical Rating Organizations (NRSRO). The County's investment in the 2022 POBs is disclosed herein as Municipal Debt. For additional information, refer to Note 10, Short-Term Obligations, and Note 18, Retirement Plans.

Investment in State Investment Pool

The County is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the CGC Section 16429.1 under the oversight of the Treasurer of the State of California. The fair value of the investment in this pool is reported in the accompanying financial statements at amounts based on the pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of the portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Fair Value Measurements

The County categorizes its fair value measurements within the fair value hierarchy established by GASB Statement No. 72. These principles recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Investments reflect prices based on quoted identical assets in an active market.
- Level 2: Investments reflect prices that are based on identical or similar assets in inactive markets or similar assets in active markets. Inputs other than quotes are observable.
- Level 3: Investments reflect prices based on significant unobservable inputs.

Fair value measurements are based on pricing received from the County's third party vendors. Investments in money market mutual funds are priced using amortized cost which approximates fair value, with a net asset value of \$1.00 (in absolute dollar amounts) per share, and per GASB Statement No. 72 not subject to the fair value hierarchy. Additionally, the LAIF is not subject to the fair value hierarchy.

B. Investments (Continued)

Fair Value Measurements (Continued)

The County uses the market approach method as a valuation technique in the application of GASB Statement No. 72. This method uses prices and other relevant information generated by market transactions involving identical or similar assets or groups of assets.

The following table presents a summary of the County's investments according to the assigned fair value hierarchy level as of June 30, 2022.

Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, investments of longer maturities are more sensitive to changes in market interest rates. The Treasurer manages its exposure to interest rate risk by carefully matching incoming cash flows and maturing

B. Investments (Continued)

Interest Rate Risk (Continued)

investments to meet expenditures and by maintaining a duration of 1.50 years or less and the duration of OCTP at June 30, 2022 is 0.79 year. Declines in the fair value of investments are managed by limiting the length of the maturity of the securities. In general, the maximum maturity allowed is five years unless the Board has granted express authority either specifically or as part of an investment policy. Actual weighted average days to maturity by investment type for the OCTP are presented in the next table. The OCTP at June 30, 2022 has 55.4% of investments maturing in six months or less and 44.6% maturing between six months and five years. As of June 30, 2022, the OCTP had no variable-rate notes.

Credit Risk

This is the risk that an issuer or other counterparty to an investment may not fulfill its obligations or that negative perceptions of the issuer's ability to make these payments will cause the price to decline. The IPS, which is more restrictive than the government code, sets forth the minimum acceptable credit ratings for investments from at least two of the following NRSROs: S&P, Moody's, or Fitch. All short-term and long-term investments, except those noted below, 1) must have the minimum ratings required below by at least two NRSROs, and 2) the lowest rating of any NRSRO must meet or exceed the minimum rating required below:

S&P A-1, "AA"

Moody's P-1, MIG 1/VMIG 1, "Aa"

Fitch F-1, "AA"

If an issuer of Long-term debt has a Short-term debt rating, then it may not be less than the minimum required Short-term debt ratings above.

- a) Municipal debt issued by the County of Orange, California, U.S. Government obligations and State Pool are exempt from the credit rating requirements listed above.
- b) Money Market Mutual and Investment Pools require the highest ranking or the highest letter and numerical rating provided by at least one NRSRO.

No investment may be purchased from an issuer and all related entities, including parent and subsidiaries, that have been placed on "credit watch-negative" by any of the NRSROs or whose credit rating by any of the NRSROs is less than the minimum rating required by the IPS for that class of security unless the issuer has a short-term rating of A-1+ or F1+ or a long-term rating of at least AA or Aa2; and the Treasurer has approved the purchase in writing prior to purchase.

The following table presents a summary of the County's investments by interest rate risk and credit risk at June 30, 2022.

					Weighted Average

	\$	307,589	\$ 307,430		0.026 (2)		100.00%

⁽¹⁾ The County obtains credit rating from S&P, Moody's and Fitch. The rating indicative of the greatest of risk have been disclosed. NR means not rated. The County is not required to disclose the credit ratings of obligations of the U.S. government or obligations explicitly guaranteed.

Concentration of Credit Risk

This is the risk of loss attributed to the magnitude of a government's investment in a single issuer. As of June 30, 2022, all OCIF investments were in compliance with state law and the IPS single issuer limits.

The following holdings in OCTP exceeded five percent of the portfolio at June 30, 2022.

Investment Type	Issuer		Fair Value	Portfolio %
U.S. Government Agencies	Federal Home Loan Bank Bonds	Federal Home Loan Bank Bonds \$ 2,108,998		17.04%
	Federal Farm Credit Bank		1,012,781	8.18%

Custodial Credit Risk

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The IPS does not permit investments in uninsured and unregistered securities not held by the County. The Treasurer utilizes third party Delivery Versus Payment which mitigates any custodial credit risk. Securities purchased by the Treasurer are held by third party custodians in their trust department to mitigate custodial credit risk. At year-end, in accordance with the IPS, the OCTP and specific investments did not have any securities exposed to custodial credit risk, and the Treasurer did not have any securities lending during the year (or at year-end).

Foreign Currency Risk

The IPS requires all securities to be U.S. dollar denominated. The County investments are not exposed to foreign currency risk.

C. Restricted Deposits and Investments with Trustees

All monies for restricted investments held by trustees are invested in "permitted investments" as defined in the various trust agreements. Restricted deposits with trustees are insured by FDIC up to \$250 and the excess amounts are collateralized.

D. OCERS Investments

Narratives and tables presented for investments managed by OCERS are taken directly from OCERS' ACFR for the year ended December 31, 2021 (tables were formatted to conform with the County's presentation). The custodial credit risk, credit risk, concentration of credit risk, interest rate risk, and foreign currency risk related to OCERS investments are different than the corresponding risk on investments held by the Treasurer.

OCERS may invest, in accordance with state statutes, in any form or type of investment deemed prudent by the Board of Retirement. Pension and 401(h) Health Care plan assets are restricted for the exclusive purposes of providing benefits to plan participants and defraying reasonable expenses of administering the plans. The Board of Retirement may invest, or delegate the authority to invest, the assets of the funds through the purchase, holding, or sale of any form or type of investment, financial instrument, or financial transaction. Custodial fund assets, restricted pursuant to Section 115 of the IRC, are separately invested in domestic equity, international equity and domestic bond index funds in accordance with the respective OCTA Third-Party Administrative and Investment Management Agreement.

D. OCERS Investments (Continued)

The following table shows the Investment Allocation as of December 31, 2021:

Invesment Category	Target Ranges	Actual
Global Public Equity	40-54%	48%
Core Fixed Income	6-16%	11%
Credit	4-10%	7%
Real Assets	8-16%	10%
Private Equity	9-17%	14%
Risk Mitigation	6-14%	9%
Unique Strategies	0-5%	0%
Cash	0-5%	1%
Total	- -	100%

During 2021, the allocation to the private equity category increased while the allocation to the credit, real assets and cash categories decreased.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a financial institution's failure, OCERS would not be able to recover its deposits. Deposits are exposed to custodial risk if they are not insured or not collateralized. As of December 31, 2021, OCERS' deposits with a financial institution are fully insured by FDIC insurance up to \$250 with the remaining balance exposed to custodial credit risk as it is not insured; however, the financial institution does collateralize the deposit of monies in excess of the FDIC insurance amount with eligible securities held by the pledging financial institution, but not in OCERS' name, which approximates \$95,600. Deposits held by OCERS' custodial bank are not exposed to custodial credit risk as they are held in a qualified pool trust, separate from the custodial bank assets.

For an investment, custodial credit risk is the risk that, in the event of a counterparty failure, OCERS will not be able to recover the value of its investments or collateral securities that are in the possession of counterparties. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in OCERS' name or by other qualified third-party administrator trust accounts.

OCERS' investments and collateral received through securities lending are not exposed to custodial credit risk because all securities are held by OCERS' custodial bank in OCERS' name or by other qualified third-party administrator trust accounts. The risk is managed by the custodian bank by diversifying the number of counterparties, with periodic review of the credit quality of counterparties and by regularly posting/receiving margins. OCERS does not maintain any general policies regarding custodial credit risk.

Credit Risk

By definition, credit risk measures the risk that an issuer or counterparty will not fulfill its obligations. S&P Global defines investment grade as those fixed income securities with ratings between AAA and BBB. OCERS' investment policy permits, on an opportunistic basis, the investment in fixed income securities rated below investment grade. A rating of N/R represents pooled funds and other securities that have not been rated by S&P Global and N/A represents securities explicitly guaranteed by the U.S. Government that are not subject to the GASB Statement No. 40 disclosure requirements. The credit ratings for individual OCERS' fixed income portfolios are monitored regularly.

D. OCERS Investments (Continued)

Credit Risk (Continued)

As of December 31, 2021, the S&P Global credit ratings of the OCERS' fixed income portfolio were as follows:

					Ra	ating	g as of D	ecei)	mber 31, :	2021	1

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Duration is a measure of the price sensitivity of a fixed-income portfolio to changes in interest rates. It is calculated as the weighted average time to receive a bond's coupon and principal payments. The longer the duration of a portfolio, the greater its price sensitivity to changes in interest rates.

Interest rate risk is managed through OCERS' investment policies requiring that investment managers investing on behalf of OCERS have applicable investment guidelines and that the effective durations of fixed income portfolios remain within a defined range of the benchmark's effective duration. The primary benchmark for domestic fixed income is a blend of two indices, the Bloomberg Barclays US Aggregate Total Return (82%), and the Bloomberg US TIPS Total Return (18%). As of December 31, 2021, the durations of these indices are 6.46 years and 2.44 years, respectively for a blended duration of 5.74 years. All investment managers were in compliance within their defined range.

OCERS invests in a variety of fixed income instruments including asset-backed securities, corporate obligations and commercial mortgage backed securities. The value, liquidity and income of these securities are sensitive to changes in overall economic conditions and the fair value of these securities may be affected by changes in interest rates, default rates and the value of the underlying securities.

The interest rate risk schedule presents the duration of fixed income securities by investment category as of December 31, 2021:

Duration

				Duration

Foreign Currency Risk

The value of deposits or investments denominated in foreign currency may be adversely affected by changes in currency exchange rates. OCERS' investment policy permits investment in international securities that includes investments in international equity securities, global equity securities, emerging markets equity securities and debt, public real estate securities, and real return. Investment managers monitor currency exposures daily.

The following schedule represents OCERS' net exposure to foreign currency risk in U.S. dollars as of December 31, 2021:

			Fixed		Forward		
Currency in U.S. Dollar	Cash	Equity	Income	Options	Contracts	Swaps	Total
Australian Dollar	\$ 7	\$ 32,839	\$	\$	\$ (28)	\$	\$ 32,818

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of OCERS' investment in a single issuer. By policy, OCERS did not hold investments in any one issuer that represented five percent or more of plan net position and net investments. Investments issued or explicitly guaranteed by the U.S. Government and pooled investments are excluded from this policy requirement.

Concentration of Investments

As of December 31, 2021, OCERS did not hold investments in any one organization that represented five percent or more of the plan's fiduciary net position. Investments issued or explicitly guaranteed by the U.S. Government and pooled investments are excluded from this requirement.

Derivative Instruments

As of December 31, 2021, all derivative instruments held by OCERS are considered investments and not hedges for accounting purposes. Any reference to the term hedging in these financial statements references an economic activity and not an accounting method. All gains and losses associated with these activities are recognized as incurred in the Statement of Changes in Fiduciary Net Position.

D. OCERS Investments (Continued)

Derivative Instruments (Continued)

The table that follows presents the related net appreciation/(depreciation) in fair value, the fair value amounts and the notional amounts of derivative instruments outstanding at December 31, 2021.

Changes in Fair Value Net Appreciation/

- (1) Negative values (in brackets) refer to losses.
- (2) Negative values refer to liabilities and are reported net of investments.
- (3) Notional may be a dollar amount or size of underlying for futures and options, negative values refer to short positions.
- (4) Excludes futures margin payments.

Valuation of Derivative Instruments

Non-exchange traded instruments, such as swaps, are valued using similar methods as those described for debt securities.

Futures contracts are traded on exchanges and typically derive their value from underlying indices and are marked to market daily. All gains and losses associated with changes in the value of futures contracts also settle on a daily basis and result in the contracts themselves having no fair value at the end of any trading day, including December 31, 2021. Future variation margin accounts also settle daily and are recognized in the financial statements under net appreciation/(depreciation) in the fair value of the investments as incurred.

In general, option values are dependent upon a number of different factors, including the current market price of the underlying security, the strike price of the option, costs associated with holding a position in the underlying security including interest and dividends, the length of time until the option expires and an estimate of the future price volatility of the underlying security relative to the time period of the option.

Foreign currency forward contracts are agreements to buy or sell a currency at a specified exchange rate on a specified date. The fair value of a foreign currency forward is determined by the difference between the specified exchange rate and the closing exchange rate at December 31, 2021.

D. OCERS Investments (Continued)

Custodial Credit Risk-Derivative Instruments

As of December 31, 2021, all investments in derivative instruments are held in OCERS' name and are not exposed to custodial credit risk as described in the previous discussion of custodial credit risk.

A summary of counterparty credit ratings relating to non-exchange traded derivatives in asset positions as of December 31, 2021 is as follows:

		Foreign Currency		Total Fair
Counterparty Name	S&P Rating	Forward Contracts	Swaps	Value
Bank of America CME	A-	\$	\$ 45	\$ 45
Bank of America ICE	A-		1,485	1,485

Interest Rate Risk-Derivatives

At December 31, 2021, OCERS is exposed to interest rate risk on its investments in various swap arrangements based on daily interest rates for Brazilian Interbank Deposit Rate (BRDI), Canadian Dollar Offered Rate (CDOR), London Interbank Offered Rate (LIBOR), Latin America largest central depository (CETIP), Sterling Overnight Index Average (SONIA), and European reference rates.

The following table illustrates the maturity periods of these investments:

			Investment Maturities (In years)							
	Fai	r Value	Less	Than 1		1 - 5		6 - 10	More	than 10

Rate of Return

For the year ended December 31, 2021, the annual money-weighted rate of return on the assets of the plan, net of investment expense, was 16.67%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the timing of cash flows and the changing amounts actually invested.

Securities Lending

OCERS is authorized by investment policy and state law to lend its investment securities including global public equities, core fixed income, credit and real assets to broker/dealers in exchange for collateral in the form of either cash or securities. Lent domestic and international securities are collateralized with an initial

D. OCERS Investments (Continued)

Securities Lending (Continued)

market value of not less than 102% or 105% depending on the nature of the loaned securities and the collateral received, of fair value of the loaned securities. The lending agent receives cash and non-cash collateral for the securities on loan. There are no restrictions on the amount of securities that can be lent at one time. State Street Bank serves, in accordance with a Securities Lending Authorization Agreement, as OCERS' agent to loan domestic and international securities. State Street Bank does not have the ability to pledge or sell collateral securities delivered absent a borrower default.

Cash collateral received on loaned securities is invested together with the cash collateral of other qualified tax-exempt investors in a collective investment fund managed by State Street. The collective investment fund is not rated. In December 2010 the collective investment fund was divided into separate investment pools: 1) a liquidity pool and 2) a duration pool. As of December 31, 2021, the liquidity pool had an average duration of 108 days and a WAM of 11 days. The duration pool had an average duration of 956 days and a WAM of 22 days. Because loans are terminable at will, the duration of the loans did not generally match the duration of the investments made with the cash collateral. The Securities Lending Authorization Agreement requires State Street to indemnify OCERS if the broker/dealer fails to return any borrowed securities. During 2021, there were no failures to return loaned securities or to pay distributions by the borrowers. Furthermore, there were no losses due to borrower defaults. The fair value of securities on loan and the total cash and non-cash collateral held as of December 31, 2021 was \$190,430 and \$195,239, respectively.

The following table shows fair values of securities on loan and cash collateral received by asset class:

Securities Lent for	Fair V	alue of OCERS'	Cas	sh Collateral	Non	n-Cash	Tota	al Collateral				
Cash Collateral	Se	Security Lent		Received		Received		Received Collateral Received		al Received	F	Received

Total	\$	190,430	\$	195,239	\$		\$	195,239				

Investments-Fair Value Measurements

OCERS categorizes its fair value measurements of its investments based on the three-level fair value hierarchy established by GAAP. The fair value hierarchy is based on the valuation inputs used to measure fair value of the asset or liability and gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs). Unobservable inputs are developed using the best information available about the assumptions that market participants would use when pricing an investment.

D. OCERS Investments (Continued)

Investment-Fair Value Measurements (Continued)

The following table represents the fair value measurements as of December 31, 2021.

Core fixed income include actively traded debt instruments such as those securities issued by the United States government, federal agencies, municipal obligations, foreign governments, and both U.S. and foreign corporate issuers. Core fixed income securities are reported at fair value as of the close of the trading date. Fair values for securities not traded on a regular basis are obtained from pricing vendors who employ modeling techniques, such as matrix pricing or discounted cash flow method, in determining security values. These inputs are observable, which supports the Level 2 fair value hierarchy. One fixed income mortgage security is leveled at Level 3 based on the investment manager's pricing policy.

Global public equity include U.S. and international equity securities, and emerging markets equity securities. Global public equity securities classified in Level 1 of the fair value hierarchy are primarily common and preferred stock or real estate investment trusts. Fair value for these exchange traded securities is determined as of the close of the trading date in the primary market or agreed upon exchange. The last known price is used for listed securities that did not trade on a particular date. Fair value is obtained from third-party pricing sources for securities traded over-the-counter. Global public equity securities classified in Level 2 of the fair value hierarchy consist of institutional funds that are valued based on the fair value of underlying investments using pricing models or other valuation methodologies that use pricing inputs that re either directly or indirectly observable on the valuation date for the securities or assets held in the fund.

D. OCERS Investments (Continued)

Investment-Fair Value Measurements (Continued)

Real assets investments at fair value include a variety of real return investments in agriculture, real estate and timber resources, which are held directly. Real estate assets held directly are appraised by independent third-party appraisers in accordance with the Uniform Standards of Professional Appraisal Practice. Independent appraisals use professional judgment, which is unobservable input, to determine the fair value of the asset; therefore, these real estate investments are classified as Level 3. Agriculture and timber resources included in Level 3 are based on independent appraisals and/or the good faith estimates of management.

Other investments include two risk mitigation funds. These investments are classified in Level 2 of the fair value hierarchy and include primarily institutional mutual funds that are valued based on the fair value of underlying investments using pricing models or other valuation methodologies that use pricing inputs that are either directly or indirectly observable on the valuation date for the securities or assets held in the fund.

Derivative instruments classified as Level 2 are valued using a market approach with observable inputs from major indices as well as benchmark interest rates and foreign exchange rates.

The System uses the NAV to determine the fair value of the underlying investments, when an investment does not have a readily determinable fair value, provided that the NAV is calculated and used as a practical expedient to estimate fair value in accordance with GAAP requirements.

The follow table represents the investments measured at NAV as of December 31, 2021.

	Fair Value Measured at NAV	Unfunded Commitments	Redemption Frequency (If Currently Eligible)*	Redemption Notice Period
Investments measured at the NAV:				
Global Public Equity Investments:

^{*} D=Daily, W=Weekly, M=Monthly, S=Semi-Annually, Q=Quarterly

The investment types listed in the above table measured at the NAV as explained below:

Global public equity includes five institutional funds. Two funds focus on international securities and three funds focus on emerging markets equities. The fair value of each fund has been determined using NAV per share or unit of the investments.

D. OCERS Investments (Continued)

Investment–Fair Value Measurements (Continued)

Real assets: Agriculture includes one fund that invests in a diversified portfolio of vegetable and permanent crop farmland in select major agricultural states. The fund is an open-end, infinite life, private real estate investment trust (REIT) subject to the redemption terms in the schedule on the previous page.

Real assets: Energy consists of 18 limited partnerships that invest primarily in oil and gas related investments. There are no redemption terms for any of these partnerships. These investments are considered illiquid. During the life of the partnerships, distributions are received as underlying partnership investments are realized. The fair values of this investment type have been determined using estimates provided by the underlying partnerships and are at NAV. One of the partnerships is considered a going concern, and is included at a zero value.

Real assets: Infrastructure consists of nine limited partnerships that invest primarily in energy related renewable infrastructure. There are no redemption terms for any of these partnerships. These investments are considered illiquid. During the life of the partnerships, distributions are received as underlying partnership investments are realized. The fair values of this investment type have been determined using estimates provided by the underlying partnerships and are at NAV.

Real assets: Real estate investments include 19 funds consisting of primarily trust funds and limited partnerships. The purpose of these funds is to acquire, own, invest in real estate and real estate related assets with the intention of achieving current income, capital appreciation or both. These investments are valued through independent appraisals and other unobservable methods. The majority of these funds are closed-end funds with structured investment periods, and considered illiquid investments. All other funds have no redemption restrictions other than the restrictions noted above.

Credit includes investments in 22 limited partnership funds. 16 of these funds are considered private credit investments, which are closed-end funds and are considered illiquid investments. These investments represent approximately 40% of the value. The remaining six funds allow for redemption based on the terms noted above. The fair value of these investments has been determined using NAV per share of the investments.

Private equity includes primarily investments in limited partnership funds, managed by various different investment managers. Generally, the partnership strategies are to maximize the return by participating in private equity and equity-related investments through a diversified portfolio of venture capital, growth equity, buyouts, special situation partnerships and other limited liability vehicles. Investments in these partnerships are typically for 10-12 years and are considered illiquid. Redemptions are restricted over the life of the partnership. During the life of the partnerships, distributions are received as underlying partnership investments are realized. The fair values of this investment type have been determined using NAV per share of the System's ownership interest in partners' capital.

Risk mitigation includes 10 limited partnership funds, which allow redemption with proper notification. The funds assist in diversifying the portfolio and protecting in an economic downturn of growth assets. The strategies are uncorrelated or negatively correlated to economic growth assets. The fair value of these investments has been determined using NAV per share.

Unique Strategies includes three limited partnership funds, one of the funds allows for redemptions and the other fund has no redemption terms and is considered an illiquid investment. This asset class provides additional diversification which can be used to mitigate risk and provide value to the OCERS portfolio. These investments are valued at NAV.

E. CalOptima's Cash and Investments

Cash and investments are reported in the statements of net position as follows:

	 2022
Current Assets:	
Cash and Cash Equivalents	\$ 823,489
Investments	1,014,461
Board-Designated Assets and Restricted Cash:	
Cash and Cash Equivalents	44,969
Investments	566,159
Restricted Deposit	 300
Total	\$ 2,449,378

Board-designated assets and restricted cash are available for the following purposes:

	 2022
Board-Designated Assets and Restricted Cash:	
Contingency Reserve Fund	\$ 570,492
Homeless Health Initiative Fund	40,637
Restricted Deposits with DMHC	 300
Total	\$ 611,429

Custodial Credit Risk Deposits

Custodial credit risk is the risk that, in the event of a bank failure, CalOptima may not be able to recover its deposits or collateral securities that are in the possession of an outside party. The California Government Code requires that a financial institution secure deposits made by public agencies by pledging securities in an undivided collateral pool held by a depository regulated under the state law. As of June 30, 2022, no deposits were exposed to custodial credit risk, as CalOptima has pledged collateral to cover the amounts.

Investments

CalOptima invests in obligations of the U.S. Treasury, other U.S. government agencies and instrumentalities, state obligations, corporate securities, money market funds, and mortgage or asset-backed securities.

Interest Rate Risk

In accordance with its annual investment policy (investment policy), CalOptima manages its exposure to decline in fair value from increasing interest rates by matching maturity dates to the extent possible with CalOptima's expected cash flow draws. Its investment policy limits maturities to five years, while also staggering maturities. CalOptima maintains a low-duration strategy, targeting a portfolio duration of three years or less, with the intent of reducing interest rate risk. Portfolios with low duration are less volatile because they are less sensitive to interest rate changes.

E. CalOptima's Cash and Investments (Continued)

Interest Rate Risk (Continued)

As of June 30, 2022, CalOptima's investments, including cash equivalents, had the following modified duration:

			li	nvestment Matu	urities ((In Years)

Investment With Fair Values Highly Sensitive to Interest Rate Fluctuations

When interest rates fall, debt is refinanced and paid off early. The reduced stream of future interest payments diminishes the fair value of the investment. The mortgage-backed and asset-backed securities in the CalOptima portfolio are of high credit quality, with relatively short average lives that represent limited prepayment and interest rate exposure risk. CalOptima's investments include the following investments that are highly sensitive to interest rate and prepayment fluctuations to a greater degree than already indicated in the information provided above:

	June	e 30, 2022
Asset-Back Securities	\$	280,622
Mortgage-Backed Securities		92,452
	\$	373,074

Credit Risk

CalOptima's investment policy conforms to the California Government Code as well as to customary standards of prudent investment management. Credit risk is mitigated by investing in only permitted investments. The investment policy sets minimum acceptable credit ratings for investments from the three nationally recognized rating services: S&P, Moody's, and Fitch Ratings (Fitch). For an issuer of short-term debt, the rating must be no less than A-1 (S&P), P-1 (Moody's), or F-1 (Fitch), while an issuer of long-term debt shall be rated no less than an "A."

As of June 30, 2022, following are the credit ratings of investments and cash equivalents:

	Fair	Minimum Legal	1	Exempt From			Rating as of \	Rating as of Year-End				
Investment Type	Value	Rating		Disclosure	AAA	Aa & Aa+	Aa-	A+	Α	A-

E. CalOptima's Cash and Investments (Continued)

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of CalOptima's investment in a single issuer. CalOptima's investment policy limits to no more than 5% of the total fair value of investments in the securities of any one issuer, except for obligations of the U.S. government, U.S. government agencies, or government-sponsored enterprises, and no more than 10% may be invested in one money market mutual fund unless approved by the governing board. The investment policy also places a limit of 35% of the amount of investment holdings with any one government-sponsored issuer and 5% of all other issuers. As of June 30, 2022, all holdings complied with the foregoing limitations. As of June 30, 2022, there was one U.S. Treasury note issued by the United States Treasury that represented 26.14% of the portfolio.

Fair Value Measurements

CalOptima categorizes its fair value investments within the fair value hierarchy established by U.S. GAAP. The hierarchy for fair value measurements is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date.

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3: Significant unobservable inputs.

The following is a description of the valuation methodologies used for instruments at fair value on a recurring basis and recognized in CalOptima's consolidated statements of net position, as well as the general classification of such instruments pursuant to the valuation hierarchy.

<u>Marketable Securities:</u> Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows. These securities are classified within Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

The following table presents the fair value measurements of assets recognized in CalOptima's consolidated statements of net position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall:

	Investment Assets at Fair Value as of June 30, 2022								
	ī	Level 1		Level 2		Level 3		Total

5. RECEIVABLES

GASB Statement No. 38, "Certain Financial Statement Note Disclosures," requires identification of receivable balances not expected to be collected within one year. The details of the receivables reported in the government-wide Statement of Net Position that are not expected to be collected within the next fiscal year are identified below:

5. RECEIVABLES (Continued)

Accounts Receivable

Accounts Receivable had a balance of \$42,557 as of June 30, 2022. Of this amount, \$4,083 is not expected to be collected within the next fiscal year. This primarily consists of \$3,114 for animal care delinquent invoices. Also, \$256 is for expected recoveries from the Airport's multi-year fixed-base operator lessee for pollution remediation costs.

Deposits Receivable

Deposits Receivable had a balance of \$669 as of June 30, 2022. Of this amount, \$624 is not expected to be collected within the next fiscal year. This primarily consists of a \$400 deposit required by the vendor per agreement with Health Care Agency (HCA) and \$122 in deposits with the U.S. Army Corps of Engineers for regulatory permitting process on various maintenance.

Leases Receivable

Leases Receivable had a balance of \$311,921 as of June 30, 2022. Of this amount, \$291,040 is not expected to be received within the next fiscal year. This represents multiple lease agreements, as described in Note 7, Service Concession Arrangements and Note 13, Leases.

Due from Other Governmental Agencies

Due from Other Governmental Agencies had a balance of \$647,661 as of June 30, 2022. Of this amount, \$150,643 is not expected to be received within the next fiscal year, which primarily consists of \$71,182 for COVID-19 program reimbursements from the Federal Emergency Management Agency (FEMA) and \$17,980, net of an allowance of \$8,413, owed by the State to the County for various mandated cost reimbursements for programs and services the State requires the County to provide. Also, \$60,545 is for expected reimbursement of the Santa Ana River Subvention claims that will be submitted to the State Department of Water Resources, and \$682 is for the expected reimbursement of Medi-Cal administrative activities.

Notes Receivable

Notes Receivable had a balance of \$62,739 as of June 30, 2022. Of this amount, \$33,788 is not expected to be received within the next fiscal year. This primarily consists of \$30,266 for loans made to developers to build affordable, low to moderate income, and senior housing. In addition, \$2,612 is for housing loans for Mental Health Services Act (MHSA) programs and \$859 is for loans provided to first time home buyers.

6. CHANGES IN CAPITAL ASSETS

Increases and decreases in the County's capital assets for governmental and business-type activities during the fiscal year were as follows:

6. CHANGES IN CAPITAL ASSETS (Continued)

Capital asset activity for the year ended June 30, 2022 includes a positive adjustment of \$25 in Equipment and a negative adjustment in Software due to the reclassification of a fully depreciated asset from equipment to software, and a negative adjustment of \$58 in Equipment due to the removal of non-capitalizable costs on a previously capitalized asset.

7. SERVICE CONCESSION ARRANGEMENTS (SCA)

GASB Statement No. 60, "Accounting and Financial Reporting for Service Concession Arrangements" (GASB Statement No. 60) defines the required criteria for which a public-private or public-public partnership arrangement qualifies as a SCA:

- The transferor must convey to the operator both the right and obligation to use one of its capital assets to provide services to the public
- The operator must provide significant consideration to the transferor
- The operator must be compensated from fees that it collects from third parties
- The transferor must either determine or have the ability to modify what services are provided to whom, and at what rate or price
- The transferor must retain a significant residual interest in the service utility of the facility

The County determined that the Dana Point Harbor arrangements met the criteria set forth in GASB Statement No. 60 (where the County is the transferor), and therefore included this SCA in the County's financial statements.

The Dana Point Harbor is held in trust by the County in accordance with the State Tidelands Grant. Pursuant to the State Tidelands Grant, the County must administer the use of the tidelands and submerged lands in a manner consistent with the tidelands trust and all applicable laws. This includes promoting the use of the harbor for navigation, fishing, public access, water-oriented recreations and the provision of coastal-dependent uses adjacent to the water in leasing or releasing of publicly owned land. Commercial uses, incidental to the above uses, are also allowed.

In addition, the Dana Point Harbor is located entirely within the Coastal Zone and is subject to regulation under the Coastal Act. The Coastal Act was enacted to protect and enhance the coastal environment and to guide and regulate local planning within the Coastal Zone to assure conformity with the statewide goals and policies. For example, the Coastal Act provides that lower cost visitor and recreational facilities shall be protected, encouraged, and where feasible, provided.

On October 29, 2018, later amended, the County entered into 66-year term lease agreements with Dana Point Harbor Partners, LLC (DPHP), and Dana Point Harbor Partners Drystack, LLC (DPHPD) to conduct due diligence regarding master lease and development of the Dana Point Harbor. The County must ensure that DPHP and DPHPD, as the Lessees, adhere to the tidelands trust and all applicable laws. The agreements include the reconstruction of the commercial core, the east and west marinas, two new hotels, and the rebuilding of docks. DPHP and DPHPD will fund and build the improvements, and then operate those portions of the harbor on a 66-year lease. DPHP and DPHPD are required to assume full responsibility for operation and maintenance of their lease premises, and make minimum rent payments to the County, in accordance with their respective agreements. Additionally, the agreements provide for the County to receive a percentage of the gross receipts generated from sales, subleases, or any activity permitted under the DPHP and DPHPD arrangements. After the leases end, the assets and improvements will be returned to the County. The current net book value of the Dana Point Harbor assets associated with the agreements is \$200 and it is reported in the County's government-wide financial statements. In April 2020, DPHP, and DPHPD entered into tolling agreements with the County due to the County State of Emergency, declared March 3, 2020, in connection with the COVID-19 pandemic. Except for the lease terms and due dates for the monthly minimum and percentage rents, dates and deadlines under the Ground Leases were tolled. On March 9, 2022, the County approved the second amendment to the Master Ground Lease Agreement mainly to terminate the tolling amendment and to modify the schedule of the construction and redevelopment work. The original leases term, minimal rent payments and revenue share remained the same. Under the terms of the agreement with DPHPD, the County is obligated to reimburse the Lessee for applicable redevelopment costs. The present value of this obligation, \$18,572, is reported as part of the accounts payable liability in the government-wide financial statements.

As of June 30, 2022, the present value of the minimum rent payments under the contracts is estimated to be \$86,141 using a 2.5% discount rate. This amount is reported as a receivable in the government-wide financial statements. The total minimal rent payments received in FY 2021-22 was \$1,665. In addition, \$67,569 is

7. SERVICE CONCESSION ARRANGEMENTS (SCA) (Continued)

reported as deferred inflow of resources. As of June 30, 2022, the lease terms for Dana Point Harbor cover the remaining period of 63 years.

8. INTERFUND RECEIVABLES AND PAYABLES

Interfund receivables and payables may result from services rendered by one fund to another fund, or from interfund loans. "Due from" and "due to" balances are generally used to reflect short-term interfund receivables and payables whereas "advance from" and "advance to" balances are long-term.

The composition of interfund balances as of June 30, 2022 is as follows:

Due from/to other funds:

	Receivable Funds															
				Flood		Other		Other					Internal			
		General		Control		Public		Governmental			OC Waste &		Service			
Payable Funds		Fund		District	F	Protection		Funds		Airport		Recycling		Funds		Total
General Fund	\$	-	\$	698	\$	17,624	\$	53,429	\$	36	\$	31	\$	2,217	\$	74,035
Flood Control District		10,929		-		-		798		-		95		26		11,848

Other Governmental Funds		57,848		1,245		1		15,273		-		42		165		74,574
Airport		2,062		-		1		66		-		-		488		2,617
OC Waste & Recycling		8,488		-		-		12		-		-		42		8,542
Internal Service Funds		4,335		8		-		6		-		-		7		4,356
Total	\$	125,995	\$	1,951	\$	17,626	\$	69,599	\$	36	\$	168	\$	2,951	\$	218,326

Interfund transactions between the Primary Government and Component Unit:

Receivable Entity	Payable Entity	Amount
Primary Government-General Fund	Component Unit-CFCOC	\$ 435
Component Unit-CFCOC	Primary Government-General Fund	443

The majority of the interfund balances resulted from the time lag between the time that: (1) goods and services were provided, (2) transactions were recorded in the accounting system, and (3) payments between the funds were made.

Advances to/from other funds:

Receivable Entity	Payable Entity	 Amount
OC Waste & Recycling	Other Governmental Funds	\$ 40,000

The interfund loans represent an advance made by OC Waste & Recycling to Other Governmental Funds for the Sheriff-Coroner's James A. Musick Facility Expansion project.

9. INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2022 were as follows:

Internal		Other	Other Other					
oort OC Waste & Service	Airport	Governmental		Public	ontrol		General	
Recycling Funds Total		Funds		Protection	strict		Fund	Transfer Out Funds

9. INTERFUND TRANSFERS (Continued)

Interfund transfers reflect a flow of assets between funds and blended component units of the primary government without an equivalent flow of assets in return. Recurring transfers were made in the current fiscal year to: (1) relay cash/resources from contributing County funds to various debt service funds for the retirement of long-term obligations, (2) transfer Measure H Tobacco Settlement revenues and Public Safety Sales Tax (PSST) excess revenue in compliance with the specific statutory requirements, (3) provide resources for services provided within the County's Wraparound Program, (4) contribute resources to comply with Prop 63 MHSA, (5) transfer waste importation revenue in accordance to the Waste Disposal Agreement, and (6) transfer excess unrestricted revenues to finance various County programs based on budgetary authorizations by the Board. Not all-inclusive, the summary below details some of the more significant transfers:

Recurring Transfers

From General Fund

- \$72,626 was transferred to Other Governmental Funds for the James A. Musick Facility expansion, Central Utility Facility (CUF) bond repayment, and future capital projects
- \$14,165 was transferred to Other Public Protection for PSST excess revenue
- \$8,257 was transferred to Other Governmental Funds to finance the County's 60% share of the Wraparound Program
- \$4,489 was transferred to Other Governmental Funds in connection with debt service payments for the CUF debt
- \$4.154 was transferred to Internal Service Funds primarily for the purchase of Sheriff-Coroner vehicles
- \$4,096 was transferred to Other Governmental Funds for the maintenance and repair of various Probation Criminal Justice Facilities
- \$4,010 was transferred to Other Governmental Funds for Countywide IT projects
- \$3,393 was transferred to Other Public Protection for Clerk-Recorder restricted fee revenue
- \$1,800 was transferred to Other Governmental Funds to cover expenditures for Sheriff-Coroner construction and facility development projects
- \$1,455 was transferred to Other Public Protection for the purchase, replacement, and maintenance of Sheriff-Coroner equipment

From Flood Control District

- \$4,149 was transferred to the General Fund for the Watershed Management Program
- \$1,962 was transferred to the Internal Service Funds for the purchase of OC Flood Vehicles

From Other Public Protection

- \$7,733 was transferred to the General Fund to support the Sheriff-Coroner Department's operations
- \$7,146 was transferred to the General Fund to fund various District Attorney programs, such as Prop 64 Consumer Protection Fund, Real Estate Fraud, Orange County Auto Theft Task Force, and Supplemental Law Enforcement Services Fund
- \$4,666 was transferred to the General Fund to cover the qualifying public protection expenditures incurred by the Clerk-Recorder's Office for specific charges mandated by state law that includes modernization of the County's record keeping system, health statistics, micrographics, and security measures
- \$2,165 was transferred to the General Fund to cover the shortfall of state and federal appropriations over department expenditures in Child Support Services

From Mental Health Services Act

\$191,220 was transferred to the General Fund to cover the qualifying Prop 63 MHSA expenditures

From Other Governmental Funds

- \$50,508 was transferred to Other Governmental Funds for Sheriff-Coroner capital projects
- \$43,653 was transferred to the General Fund to fund various County programs as follows:
 - \$30,065 for the County's Wraparound Program

9. INTERFUND TRANSFERS (Continued)

Recurring Transfers (Continued)

- \$6,350 for Emergency Medical Services
- \$5,096 for the Homeless Emergency Aid Program and Crisis Stabilization Program
- \$2,142 for health disaster preparedness and the Center for Disease Control pandemic flu costs
- \$30,457 of tobacco settlement monies was transferred to the General Fund to finance HCA's various health care programs and Sheriff-Coroner Department's operational costs

From Enterprise Funds

 \$7,110 was transferred to the General Fund for the County's portion of OC Waste & Recycling's net importation revenue

In addition, the County had non-recurring transfers in the current fiscal year, which consisted of the following:

Non-Recurring Transfers

From General Fund

- \$8,345 was transferred to Other Governmental Funds for the reimbursement of CAS, Building 16 debt service payments
- \$2,699 was transferred to Other Governmental Funds for Social Services Agency Leased Facilities to cover shortfall at the end of the lease term
- \$1,069 was transferred to Other Governmental Funds for development of supportive housing

From Other Public Protection

 \$19,278 was transferred to Other Governmental Funds for the Sheriff-Coroner James A. Musick Facility construction

From Flood Control District

 \$1,050 was transferred to the General Fund for the reimbursement of CAS, Building 16 debt service payments

From Other Governmental Funds

- \$5,065 was transferred to the General Fund for Environmental Health programs
- \$2,555 was transferred to the General Fund for the loan repayment for the construction of the new Animal Shelter
- \$1,957 was transferred to the General Fund for the Property Tax System Centralized support

10. SHORT-TERM OBLIGATIONS

Taxable Pension Obligation Bonds, 2021 Series A

On January 14, 2021, the County issued Taxable Pension Obligation Bonds, 2021 Series A (the 2021 POBs) in the principal amount of \$484,800. The 2021 POBs were issued in order to take advantage of the discount offered by the OCERS Board of Retirement to prepay the County's FY 2021-22 pension contribution. The 2021 POBs were issued as standard bonds, with four fixed-rate tranches, and a final maturity date of April 29, 2022. The obligation of the County to pay principal and interest on the 2021 POBs is imposed by law and is absolute and unconditional. Pledged security for the bonds are any lawfully available funds of the County. If an event of default has occurred and is continuing, the trustee may proceed to protect or enforce its rights by a suit in equity or action at law. The County repaid in full the outstanding balance of the bonds on April 29, 2022.

Taxable Pension Obligation Bonds, 2022 Series A

On January 13, 2022, the County issued the 2022 POBs in the principal amount of \$521,784. The 2022 POBs were issued in order to take advantage of the discount offered by the OCERS Board of Retirement to prepay the County's FY 2022-23 pension contribution. The 2022 POBs were issued as standard bonds, with four fixed-rate

Taxable Pension Obligation Bonds, 2022 Series A (Continued)

tranches, and a final maturity date of April 28, 2023. The obligation of the County to pay principal and interest on the 2022 POBs is imposed by law and is absolute and unconditional. Pledged security for the bonds are any lawfully available funds of the County. If an event of default has occurred and is continuing, the trustee may proceed to protect or enforce its rights by a suit in equity or action at law. As of June 30, 2022, the outstanding principal amount of the 2022 POBs reported in the General Fund was \$521,784. Refer to Note 4, Cash and Investments and Note 18, Retirement Plans for additional information.

11. LONG-TERM OBLIGATIONS

General Bonded Debt

General Obligation Bonded Debt

The amount of general obligation bonded indebtedness the County can incur is limited by law to 1.25% of the last equalized assessment property tax roll. At June 30, 2022, the County had no net general obligation bonded debt. The County's legal debt limit for the year was \$8,613,612. In order for the County to issue general obligation bonds secured by ad valorem taxes on real property, California Constitution Article XIIIA, Section 1 requires the approval of 2/3 of the voters voting on the proposition.

Revenue Bonds Payable

Central Utility Facility Lease Revenue Bonds, Series 2016

On June 2, 2016, the South Orange County Public Financing Authority (SOCPFA) issued its \$56,565 Lease Revenue Bonds, Series 2016 at a premium of \$11,724 with an interest rate range of 3.00% to 5.00%. The Lease Revenue Bonds, payable through April 2036, were issued to finance the acquisition, construction and installation of certain capital improvements to be owned by the County and to pay costs relating to the issuance of the bonds. As of June 30, 2022, the outstanding principal amount, including the premium of the Series 2016 Bonds, and interest were \$54,820 and \$18,406 respectively.

Revenue Bonds Payable (Continued)

Central Utility Facility Lease Revenue Bonds, Series 2016 (Continued)

The bonds are special obligations of the SOCPFA payable from and secured by the base rental payments to be made by the County pursuant to and as required under the lease agreement and the amounts held in all funds and accounts (other than the rebate fund) under the indenture. The Central Utility Facility is pledged as collateral for the debt. In the event of default, the SOCPFA or the trustee may exercise any and all remedies available pursuant to law or granted pursuant to the Lease.

Lease Revenue Bonds, Series 2017A

On June 22, 2017, the California Municipal Finance Authority (CMFA) issued its \$152,400 Lease Revenue Bonds, Series 2017A (Orange County Civic Center Infrastructure Improvement Program-Phase I) at a premium of \$22,940, with an interest rate range from 4.00%-5.00%. As the debt was issued by CMFA, this does not constitute debt for the County. Pursuant to a loan agreement, CMFA loaned the bond proceeds totaling \$175,340 to the Capital Facilities Development Corporation (Corporation), a component unit of the County, to construct the County Administration South (CAS) located at 601 N. Ross Street. As of June 30, 2022, the outstanding principal amount, including the premium of the Series 2017 Bonds, and interest were \$168,670 and \$102,839, respectively.

The County's payment obligation commenced on November 12, 2019 when the building's Certificate of Substantial Completion was delivered to the trustee. County departments occupying CAS will be responsible for making base rental payments. The County's base rental payments, under the Facility Lease, began in FY 2020-21 and will be used to repay the loan to the CMFA. Loan repayments are scheduled to conclude when the bonds mature, in June 2047. In the event of default, the trustee may exercise any remedies available under the Indenture, the Loan Agreement and the Facility Lease.

Lease Revenue Bonds, Series 2018A

On December 13, 2018, CMFA issued its \$185,705 Lease Revenue Bonds, Series 2018A (Orange County Civic Center Infrastructure Improvement Program-Phase II) at a premium of \$26,599, with an interest rate coupon of 5%. As the debt was issued by CMFA, this does not constitute debt for the County. Pursuant to a loan agreement, CMFA loaned the bond proceeds totaling \$212,304 to the Corporation, a component unit of the County, to construct County Administration North (CAN) located at 400 W. Civic Center Drive. As of June 30, 2022, the outstanding principal amount, including the premium of the Series 2018 Bonds, and interest were \$212,304 and \$150,175, respectively.

The County's payment obligation will commence on August 5, 2022 when the building's Certificate of Substantial Completion will be delivered to the trustee. County departments occupying CAN will be responsible for making base rental payments. The County's base rental payments, under the Facility Lease, are scheduled to begin in FY 2022-23 and will be used to repay the loan to the CMFA. Loan repayments are scheduled to end when the bonds mature, in June 2048. In the event of default, the trustee may exercise any remedies available under the Indenture, the Loan Agreement and the Facility Lease.

Taxable Refunding Pension Obligation Bonds, Series 1997A

In September 1994, the County issued its Taxable Pension Obligation Bonds, Series 1994A in the aggregate principal amount of \$209,840 and Series 1994B in the aggregate principal amount of \$110,200 (Series 1994 Pension Bonds). The Series 1994 Pension Bonds were partially refunded with proceeds of the County's Taxable Refunding Pension Obligation Bonds, Series 1996A and Series 1997A.

On May 11, 2000, a cash tender offer of certain outstanding Pension Obligation Bonds was completed. The County purchased and canceled \$288,290 (maturity value) of Pension Obligation Bonds for a cost of \$179,016. On June 22, 2000, the debt service on the outstanding Pension Obligation Bonds was provided for through the deposit with the trustee of \$175,492 principal amount of "AAA" rated debt securities issued by Fannie Mae,

Revenue Bonds Payable (Continued)

Taxable Refunding Pension Obligation Bonds, Series 1997A (Continued)

along with \$9,151 in debt service funds already being held by the trustee. In accordance with irrevocable instructions, these securities, together with other cash amounts and investments held by the trustee, will be used solely to retire the remaining Pension Obligation Bonds as they mature. Because this was an economic defeasance and not a legal defeasance, this debt was reported in the County's financial statements until it was fully redeemed on September 1, 2021.

Airport Revenue Refunding Bonds, Series 2019A and 2019B

On July 9, 2009, the Airport issued the Airport Revenue Bonds, Series 2009A and 2009B (2009A and 2009B Bonds) in the aggregate principal amount of \$233,115, with an original issue net premium of \$288. The 2009A and 2009B Bonds were issued to finance a portion of the Airport Improvement Program (AIP), fund the debt service requirement for the bonds, fund capitalized interest on a portion of the bonds and pay costs relating to the issuance of the bonds. The AIP consist of numerous direct improvements to the Airport facilities such as construction of Terminal C, Parking Structure C and two commuter/regional holdrooms at the north and south ends of the extended Terminal.

On May 14, 2019, the Airport issued the Airport Revenue Refunding Bonds, Series 2019A and 2019B (2019A and 2019B Bonds) in the principal amount of \$85,030, with a premium of \$13,404. The 2019A and 2019B Bonds were issued to refund and defease the 2009A and 2009B Bonds, fund a debt service reserve subaccount for the bonds, and pay certain expenses in connection with the issuance of the bonds. As of June 30, 2022, the outstanding principal amount, including premium, of the 2019A and 2019B Bonds were \$30,849 and \$35,341, respectively.

The 2019 Bonds are secured by a pledge of (1) operating revenues, net of specified operating expenses, (2) interest earnings, (3) other miscellaneous revenue and (4) available PFC revenue. In the event of default, the trustee may exercise any remedies available under the bond indentures and under state and federal law.

Fiscal Year 2021-22 Debt Obligation Activity

During FY 2021-22, the following events concerning County debt obligations occurred.

Direct Placement Obligations

Teeter Plan Notes

On April 21, 2020, the Board approved an increase in the authorized amount from \$100,000 to \$150,000 due to the anticipated economic impact of the COVID-19 pandemic. On June 24, 2020, the County used accumulated base taxes to redeem \$8,778 of the Teeter Plan Obligation Notes. As of June 30, 2020, the outstanding principal amount of the Teeter Plan Obligation Notes was \$34,661 and the authorized, unused available commitment under the First Amendment to Amended and Restated Note Purchase and Reimbursement Agreement was \$115,339. At the time of the increase in authorized amount, the prior notes in the amount of \$43,439 were paid off, and new notes in the amount of \$43,439 were issued.

On July 14, 2020, additional Teeter Plan Notes were issued in the amount of \$50,725 to finance the delinquent property tax receivables associated with the Teeter Plan for a new outstanding balance of \$85,386.

On December 30, 2020 and June 28, 2021, the County used all of the accumulated base taxes to redeem \$32,756 and \$15,224, respectively, of the Teeter Plan Obligation Notes. As of June 30, 2021, the outstanding principal amount of the Teeter Plan Obligation Notes was \$37,406.

On July 14, 2021, the County issued taxable Teeter Plan Obligation Notes, Series B to refund the \$37,406 outstanding Teeter Plan Obligation Notes and to finance the purchase of \$42,572 of delinquent property tax receivables associated with the Teeter plan for a new outstanding balance of \$79,978.

Schedule of Long-Term Debt Obligations, Fiscal Year 2021-22

^{*} Refer to Note 14 for additional information regarding the increase in Landfill Site Closure/Post Closure Liabilities.

For Governmental activities, typically the General Fund has been primarily used to liquidate the pension and OPEB liability.

Compensated Employee Absences

The estimated compensated employee absences payable recorded at June 30, 2022 is \$181,364. Employees are entitled to be paid annual leave, compensated time, and in some cases vacation and sick/healthcare leave time depending on job classification, length of service, and other factors. For the governmental funds, most of the compensated absences liability will ultimately be paid from the General Fund.

Special Assessment District Bonds

Special Assessment District Bonds consist of Assessment District Bonds and Community Facilities District Bonds.

Assessment District Bonds are issued pursuant to provisions of the Improvement Bond Act of 1915 (Division 10 of the California Streets and Highways Code). Proportionate shares of principal and interest installments sufficient in aggregate to meet annual bond debt service requirements are included on the regular County tax bills sent to owners of property against which there are unpaid assessments. Neither the faith and credit nor the taxing power of the County, the State, or any political subdivision thereof is pledged to the payment of the bonds. Assessment District Bonds represent limited obligations of the County payable solely from special assessments paid by property owners within each district. Accordingly, such obligations are not included in the accompanying basic financial statements.

Community Facilities District Bonds are issued pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, and are payable from a portion of certain special taxes to be levied on property within the boundaries of the Community Facilities District. Except for the special taxes, no other taxes are pledged to the payment of the bonds. The bonds are not general or special obligations of the County nor general obligations of the District, but are limited obligations of the District payable solely from certain amounts deposited by the District in the special tax fund. Accordingly, such obligations are not included in the accompanying basic financial statements.

^{**} Refer to Note 17 for additional information regarding the decrease in Pollution Remediation Obligation.

^{***} The total long-term liabilities do not include Net Pension Liability or Net OPEB Liability. Refer to Note 18 for additional information on the Net Pension Liability and Note 19 for Net OPEB Liability.

Special Assessment District Bonds (Continued)

The County is acting as an agent of the assessment and community facilities districts in collecting the assessments and special taxes, forwarding the collections to other paying agents or directly to bondholders, and initiating any necessary foreclosure proceedings. Because of the County's limited obligation in connection with special assessment district and community facilities district debt, related transactions are reflected in Custodial Departmental Funds. Major capital outlay expenditures relating to these bonds are accounted for in the "Service Areas, Lighting Maintenance and Assessment Districts" Special Revenue Fund. Special assessment district and community facilities district bonds outstanding as of June 30, 2022, amounted to \$475,883.

12. CONDUIT DEBT OBLIGATIONS AND SUCCESSOR AGENCY DEBT

Single and Multi-Family Housing Bonds

From 1980 through 2013, the County issued bonds under the authority of Chapter 7 of Part 5 of Division 3 of the Health and Safety Code of the State of California. The purpose of the bonds is to finance the purchase of single-family homes and the construction of multi-family units to benefit low and moderate income families.

The bonds are secured by the property financed and are payable solely from revenue of the projects and payments received on the underlying mortgage loans.

The bonds do not constitute a liability of the County. Neither the County, the State of California, nor any political subdivisions thereof are obligated in any manner for the repayment of the bonds. In no event shall the bonds be payable out of any funds or properties of the County. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of June 30, 2022, there were 13 series of bonds outstanding with an aggregate principal amount payable of \$69,567.

Orange County Development Agency (OCDA) Successor Agency Bond Debt

On December 29, 2011, the California Supreme Court issued an opinion in California Redevelopment Association (CRA) v. Matosantos, upholding the constitutionality of ABX1 26, eliminating RDA statewide effective February 1, 2012. Under ABX1 26, a successor agency was created for each dissolved RDA, including OCDA, and charged with winding down the dissolved RDA's operations and performing enforceable obligations (as defined in the law). The OCDA Successor Agency assumed the dissolved RDA's enforceable obligations, which include bond debt obligations. The Neighborhood Development and Preservation Project and Santa Ana Heights Project Refunding Bonds debt service obligations for FY 2021-22 appeared on the OCDA Successor Agency Recognized Obligation Payment Schedule and were approved by the Successor Agency Oversight Board, the State Department of Finance, and were paid to bondholders according to the debt service schedule.

Effective with OCDA's dissolution on February 1, 2012, the assets and liabilities (including bond debt) were transferred to and reported in a Private-Purpose Trust Fund of the County. This transfer and reporting structure reflects the custodial role accepted by the successor agency. As of June 30, 2022, the outstanding principal amount, including the premium of the OCDA Successor Agency bonds and remaining interests were \$4,932 and \$206, respectively.

The bonds do not constitute a liability of the County. Neither the County, the State of California nor any political subdivisions thereof are obligated in any manner for the repayment of the bonds. In no event shall the bonds be payable out of any funds or properties of the County. Accordingly, the bonds are reported as liabilities in the Private-Purpose Trust Fund.

13. LEASES

<u>Lessee</u>

The County entered into noncancelable leases with various vendors as a lessee for the intangible right-to-use leased equipment, IT equipment, structures and improvements, and land. The lease terms include the noncancelable period per the contract plus/minus any extension options or termination options the County is reasonably certain to exercise. The County recognized in FY 2021-22 an initial right-to-use lease asset balance of \$447,581, increases of \$5,653 due to new leases and lease modifications, decreases of \$790 due to lease terminations, and amortization of \$38,025, for a right-to-use lease asset balance of \$414,419, net of amortization at June 30, 2022.

The County recognized in FY 2021-22 an initial lease liability of \$447,581, increases of \$5,653 due to new leases and lease modifications, principal lease payments of \$25,466, lease adjustments of \$811 due to lease terminations and modifications, and interest payments of \$13,119. The principal payments and lease adjustments reduced the lease liability to \$426,957 at June 30, 2022.

The County is engaged in one sublease transaction, where Orange County Royale Convalescent Hospital leased a building to HCA and HCA subleased a portion of that building to Royale Health Care Center. The County recognized an initial right-to-use lease asset and lease liability of \$6,449, amortization of \$478, principal and interest payments of \$352 and \$148 respectively, for an ending right-to-use lease asset of \$5,971, net of amortization, and lease liability of \$6,097 at June 30, 2022.

13. <u>LEASES (Continued)</u>

Lessor

The County leases its real property, and structures and improvements to others for various commercial, recreational, retail, and restaurant purposes. The terms of these noncancelable leases include the noncancelable period per the contract plus/minus any extension options or termination options the County is reasonably certain to exercise. Governmental activities lease receivables are held primarily by the Other Governmental Funds, and business-type activities lease receivables are held by the Airport and OC Waste & Recycling. The County recognized in FY 2021-22 an initial lease receivable of \$241,304 increases of \$357 due to a new lease, decreases of \$15,852 and \$29 due to principal lease payments received and lease terminations respectively, for a lease receivable balance at June 30, 2022 of \$225,780.

In FY 2021-22, the County recognized an initial deferred inflow of resources of \$241,304, increases of \$357 due to a new lease, decreases of \$19,040 and \$29 due to the recognition of lease revenue and termination of a lease agreement. Deferred inflow of resources balance at June 30, 2022 was \$222,592. Refer to Note 20, Deferred Outflows and Inflows of Resources for additional information.

In addition, \$4,797 was recognized as lease interest revenue, and \$7,371 as lease variable revenue based on lessee performance, which exceeded the minimum lease due.

The County subleased a building to Royale Health Care Center with an initial lease receivable and deferred inflow of resources of \$11,269. During FY 2021-22, the County received \$629 and \$302 for principal and interest lease revenue respectively; and recognized \$835 of lease revenue. The lease receivable and deferred inflow of resources are \$10,640 and \$10,434 respectively at June 30, 2022.

Regulated Leases

In accordance with GASB Statement No. 87, regulated leases, between airports and aeronautical users are subject to regulations set forth by the Federal Aviation Administration and Department of Homeland Security. A lease receivable and a deferred inflow of resources are not recognized for these leases. The Airport's outstanding bonds are secured by net revenues including revenue earned from the airlines. Additional information can be found in Note 11, Long-Term Obligations. The Airport identifies the following regulated leases:

Commercial and Commuter Airlines and Cargo Leases

The Airport entered into five-year lease agreements with various commercial and commuter airlines and cargo carriers that commenced on January 1, 2021 and expire on December 31, 2025, with no option to extend. Revenues from terminal rates, landing, operations, and remain over-night fees totaled \$65,967 for the year ended June 30, 2022, of which \$37,057, are considered variable rental payments.

Airline minimum rental revenues are based on rates adopted by the Board and are subject to change semiannually in accordance with the related airlines' operating lease agreements. Due to the nature of the above revenues, expected future minimum payments are indeterminable.

Fixed-Base Operation Leases

The Airport entered into multi-year lease agreements with full service and limited service fixed-base operators (FBO) that commenced on January 1, 2021. The full service agreements expire on December 31, 2055, with no option to extend. The limited service agreement expires on December 31, 2050, and with certain conditions, the lessee shall have the option to extend. Revenues from ground rent, building rent, and percentage rent of various gross receipts totaled \$9,724 for the year ended June 30, 2022, of which \$2,220, are considered variable rental payments. The future minimum payments are shown in the following table.

Limited Use General Aviation Facility Lease

The Airport entered into a two-year agreement with a limited use general aviation operator on September 1, 2006, which included an option for an 18-year lease extension. On October 21, 2008, the lease was extended to

13. LEASES (Continued)

Regulated Leases (Continued)

August 31, 2026, and on December 18, 2012, the lease was extended to August 31, 2036. Revenue from ground rent totaled \$469 for the year ended June 30, 2022, paid in twelve monthly installments. The future minimum payments are shown in the following table.

Hydrant Fueling Facilities Lease

The Airport entered into a 25-year hydrant fueling facilities lease agreement with a consortium of airline carriers on September 14, 1990. On September 14, 2010, the lease was extended to December 31, 2030. Revenue from rent totaled \$25 for the year ended June 30, 2022, paid in twelve monthly installments. The future minimum payments are shown in the following table.

Security Services Lease

The Airport entered into a five-year agreement with the Transportation Security Administration on October 1, 2018 and expires on September 30, 2023. Revenue from rent totaled \$265 for the year ended June 30, 2022, paid in twelve monthly installments.

Future minimum lease payments to be received as of June 30, 2022 are as follows:

	Fix	ced-Base		l Use General ion Facility	Hydran	nt Fueling	Sec	curity							
Year Ending June 30	Oper	ation Lease	Lease		Lease		Lease		Lease		Facilities Lease		Servic	es Lease	Total

Α	Westjet	474
В	Alaska	3,083
В	United	11,044
С	Allegiant	603
С	Frontier	605
С	Southwest	10,460
С	Spirit	810
	Total	42,059

14. LANDFILL SITE CLOSURE AND POSTCLOSURE CARE COSTS

State laws and regulations require OC Waste & Recycling to place final covers on its landfill sites when the landfills stop accepting waste, and to perform certain postclosure maintenance and monitoring functions at the site for a minimum of 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date each respective landfill stops accepting waste, OC Waste & Recycling reports a portion of these closure and postclosure care costs as an operating expense in each period based on the landfill capacity used as of the Statement of Net Position date.

OC Waste & Recycling owns or operates the following waste disposal sites:

- Frank R. Bowerman (FRB) (Irvine-Active)
- Olinda Alpha (Brea-Active)
- Prima Deshecha (San Juan Capistrano-Active)
- Santiago Canyon (Orange-Ceased accepting waste in 1996, final closure certification in 2005)
- Coyote Canyon (Newport Beach-Ceased accepting waste in 1990, final closure certification in 1995)

The total landfill closure and postclosure care liability at June 30, 2022 was \$189,376. The total liability represents the cumulative amount accrued based on the percentage of the active landfill capacities that have been used to date (39.74% for FRB, 90.12% for Olinda Alpha and 23.60% for Prima Deshecha), less actual costs paid related to both closure, and postclosure of the Santiago and Coyote Canyon landfills. OC Waste & Recycling will recognize the remaining estimated cost of closure and postclosure care of \$182,642 as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and postclosure care in 2021 dollars (using the 2021 inflation factor of 1.041). OC Waste & Recycling has enough landfill capacity to operate the system for a minimum of 25 years. However, OC Waste & Recycling estimates that it intends to operate the landfills well beyond this period as a result of approved and planned expansions.

In compliance with Title 27-Environmental Protection of California Code of Regulations, OC Waste & Recycling makes cash contributions as required to its escrow funds to provide financial assurance for estimated future landfill closure costs based on the GASB Statement No. 18, "Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs", formula which is adjusted annually by the Cal Recycle-provided CPI factor. Also, in compliance with regulations, OC Waste & Recycling has executed pledge-of-revenue agreements to provide financial assurance for estimated future landfill postclosure maintenance costs. The agreements state that OC Waste & Recycling pledges revenue from future gate fees deposited to pay for estimated postclosure maintenance or shall obtain alternative coverage within sixty (60) days if OC Waste & Recycling ceases at any time to retain control of its ability to allocate pledged revenue to pay postclosure maintenance costs. OC Waste & Recycling has proactively pre-funded this cost based on the State mandated formula that computes landfill capacity as a percentage of the total landfill capacity times the total estimated cost for postclosure maintenance. The estimated costs for future closure and postclosure maintenance are annually adjusted based on State provided inflation factors. The State mandated formula under which contributions to both closure and postclosure funds are calculated would provide for the accumulation of sufficient cash to cover all estimated costs when each landfill site reaches maximum capacity. If additional costs for closure or postclosure maintenance are determined due to changes in technology or higher regulatory requirements, these costs may need to be covered by increasing the amount charged to landfill customers.

As of June 30, 2022, a total of \$97,963 has been set aside for estimated closure and postclosure costs and is included in the accompanying Statement of Net Position as Restricted Pooled Cash and Investments-Closure and Postclosure Care Costs.

Regulations governing solid waste management are promulgated by government agencies on the federal, state and local levels. These regulations address the design, construction, operation, maintenance, closure and postclosure maintenance of various types of facilities, acceptable and prohibited waste types, and inspection, permitting, environmental monitoring and solid waste recycling requirements. Regulations at both the state and federal levels could impose retroactive liability, particularly with respect to cleanup activities relating to any landfill site ever operated by the County, whether or not owned by the County. Refer to Note 17, Pollution Remediation, for additional discussion regarding pollution remediation liabilities.

15. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

Encumbrances

The County has established a procedure for encumbering appropriations for purchase orders, contracts, and other commitments authorizing delivery of merchandise or rendering of services. An encumbrance system reduces the possibility of commitments being made in excess of budgeted appropriations due to the lag time between issuance of purchase orders, contracts, and other obligations, and the actual provision of services or goods and subsequent receipt of invoices and billings from the vendors and contractors. Depending on the source(s) of funding, encumbrances are reported as part of restricted or assigned fund balance on the governmental funds balance sheet. In accordance with GASB Statement No. 54, the County's total significant encumbrances for governmental funds in the aggregate are reported at June 30, 2022, as follows:

General Fund	\$ 63,632
Flood Control District	87,935
Other Public Protection	2,084
Other Governmental Funds	 116,966
Total Encumbrances for Governmental Funds	\$ 270,617

Construction Commitments

At June 30, 2022, the County's total commitments for major contracts entered into for equipment, intangible assets, land and structures and improvements were as follows, listed by fund within governmental or business-type activities:

Project Title		gnificant nmitments

Various Heavy Equipment Purchases for Prima/South Regional Landfill	1,187
	28,624
Total Commitments	\$ 163,277

In addition, the County is involved in the Santa Ana River Mainstem Project (SARMP). The SARMP is a major flood control project implemented and funded by the Federal government and three local sponsors—the OCFCD, San Bernardino County Flood Control District, and Riverside County Flood Control and Water Conservation District. A component of the initial project has been re-designated as the Prado Dam Project (Project), which is being implemented and funded by the Federal Government and the OCFCD through a separate Project Cooperation Agreement (PCA). The purpose of the SARMP is to prevent devastating damage caused by large-scale flooding of the Santa Ana River flood plain. When the SARMP was initiated in 1989, the U.S. Army Corps of Engineers (COE) considered this flood plain to constitute the worst flood threat west of the Mississippi River as to potential impacts to population and property. The Project involves a combination of flood channel improvements and constructing new channels in Orange, San Bernardino, and Riverside counties, construction of the Seven Oaks Dam in San Bernardino County, construction of improvements and protection at the Santiago retention basin and along the creek, raising the existing Prado Dam and increasing its flood flow outlet gates and reservoir capacity, along with several environmental mitigation-related studies, habitat restoration and protection activities, recreation amenities, and preservation of historical sites and records.

The COE's estimated combined cost of all project components is \$2,830,419. OCFCD's combined cost share is estimated to be \$976,040 for the entire Santa Ana River Project. As of June 30, 2022, the OCFCD has expended about \$735,532 on the entire Santa Ana River Project.

The construction of Seven Oaks Dam and most channel improvements in Riverside, San Bernardino, and Orange counties have been completed. The relocation and protection of State Route (SR) 71 adjacent to Prado Dam (a joint OCFCD and Caltrans project) and construction to raise the Prado Dam embankments and install new outlet gates is complete. Landscaping along the Santa Ana River in Orange County was completed in May 2010. Design for the construction of interior dikes in the Prado Dam reservoir, and for improvements to the spillway are also ongoing. The COE completed construction of National Housing Tract Dike and Sewage Treatment Plant in 2008. Landscaping for these dikes began in September 2009 and were completed in June 2011. Several environmental mitigation studies and restoration/preservation projects are underway in all three counties. All property right acquisitions for the Seven Oaks Dam and along the lower Santa Ana River in Orange County up to Weir Canyon Road are completed. The Green River Golf Course was acquired in September

15. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS (Continued)

Construction Commitments (Continued)

2006. This property is required for construction of protection along SR-91 and nearby mobile homes, open space/recreation mitigation, and to accommodate increased flooding when the Prado Dam outlet gates are constructed and operational. The first phase of SR-91 protection (Reach 9 Phase 2B Project) was completed in September 2014. The second phase (Reach 9 Phase 3) started construction in January 2014 and was completed in March 2015. As continuation to the ongoing Reach 9 Project, the COE determined that bank improvements needed to continue east on the south side of the Santa Ana River along SR-91. As such, the Reach 9 Phase 4 Project was developed and the project was awarded on April 13, 2016 at an estimated cost of \$15,300. Completion of the Reach 9, Phase 4 Project occurred in February 2020. The COE is also constructing bank improvements on the north side of the Santa Ana River adjacent to La Palma Avenue from Weir Canyon Road to the railroad (Reach 9 Phase 5A and Phase 5B). Phase 5A was awarded on September 28, 2015 at a cost of \$22,500 and was completed in January 2019. The construction contract for Phase 5B was awarded in September 2016 with an estimated cost of \$25,500, but it was ultimately terminated in FY 2019-20. A new contract was awarded in September 2020 with completion expected in September 2022. The OCFCD awarded the construction contract on August 9, 2011 for the four miles of Santa Ana River Interceptor Line (SARI) relocation project, which was completed by August 2014. Phase I of the Auxiliary Embankment (an extension of Prado Dam) was completed in September 2012 and Phase II was completed in July 2019. A contract for the construction of the Yorba-Slaughter Adobe Dike was awarded in December of 2012 at a cost of \$6,000 and was substantially completed in August 2017. The Women's Prison Dike (to protect the California Institute of Women) was awarded September 2014 for \$12,700 and a \$3,400 modification which was awarded in August 2015. This feature was substantially completed April of 2016. The OCFCD continues to acquire property rights for the Prado Dam Project, subject to the availability of funding. OCFCD has also commenced the relocation of utilities that will be impacted by the expanded inundation area due to the raising of the Prado Spillway crest.

The Santa Ana River Mainstem Project has been authorized by the State Legislature for reimbursement of up to 70% of the Local Sponsors' expenses through the State Flood Control Subvention Fund, which is administered by the Department of Water Resources (DWR). As of June 30, 2022, OCFCD has submitted \$445,839 in claims, and received \$433,966 in reimbursements. An additional \$849 in claims is in the process of being prepared for submittal to the DWR. Of the total amount outstanding, \$4,831 was reported as deferred inflows of resources at the fund level and recognized as revenue in the government-wide financial statements. Once a claim is reviewed and approved by DWR, 90% of the eligible expenditures can be paid, subject to available funding, with the remaining 10% paid after an audit by the State Controller's Office.

The Prado Dam Project, a separate element of the Santa Ana River Mainstem Project, has been authorized for reimbursement of up to 100% of the Non-Federal Sponsors' eligible expenses through the Bipartisan Budget Act (BBA) of 2018, which is administered by the Department of the Army. Non-eligible expenses will continue to be claimed from the State Flood Control Subvention Fund. As of June 30, 2022, OCFCD has submitted \$26,847 in claims, and received \$2,579 in reimbursements. An additional \$248 in claims is in the process of being prepared for submittal to the Department of the Army. Of the total amount outstanding, \$55,739 was reported as deferred inflows of resources at the fund level and recognized as revenue in the government-wide financial statements. Once a claim is reviewed and approved by Department of the Army, 100% of the eligible expenditures can be paid, subject to available funding. The BBA funded projects include River Road Dike, Alcoa Dike Phase 2, Norco Bluffs Slope Stabilization and Prado Spillway. The construction contract for the River Road Dike, Alcoa Dike Phase 2, and the Norco Bluffs contract have been awarded and construction has commenced. The Spillway design is ongoing and will be advertised for construction in November 2023.

16. SELF-INSURANCE

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; natural disasters; unemployment; salary continuance; and providing health benefits to employees, retirees and their dependents. The County has chosen to establish ISFs where assets are set aside for claim settlements and judgments associated with such losses.

16. SELF-INSURANCE (Continued)

The Workers' Compensation ISF addresses the risks related to employee injury through its Safety Program, which is responsible for injury and illness prevention. The Workers' Compensation program ensures that all benefits are properly provided and administers the contract for the third-party workers' compensation claims administration. Workers' compensation claims are self-funded up to \$20,000.

The Property and Casualty Risk ISF is responsible for managing losses related to torts; theft of, damage to and destruction of assets, errors and omissions, civil rights claims, and natural disasters. Tort liability is also self-funded, up to \$5,000. Commercial insurance is purchased for property and other risk exposures. Excess liability insurance provides up to an additional \$60,000 in liability coverage. There were no losses that impacted the County's excess insurance coverage for the last three fiscal years.

Independent actuarial studies are prepared annually for the Workers' Compensation and Property and Casualty Risk ISFs. The reported unpaid claims liabilities are based on the results of those annual actuarial studies and include case reserves, development of known claims, incurred but not reported claims, allocated loss adjustment expenses and unallocated loss adjustment expenses. Unpaid claims liabilities are calculated considering inflation, claims cost trends, including frequency and payout of settlements and judgments, interest earnings, and changes in legal and economic factors. Unpaid claims liabilities have been discounted at a rate of 2.50% in the Workers' Compensation ISF and 1.50% in the Property and Casualty Risk ISF to reflect anticipated future investment earnings.

All County departments and other governmental agencies authorized by the Board to participate in the Workers' Compensation ISF are charged for their pro-rata share of costs based upon employee classification rates, claims experience, and funding for the Workers' Compensation program. All County departments participate in the Property and Casualty Risk self-insurance program and are charged for their pro-rata share based upon claims experience, actual number of positions from a biweekly County payroll report, and funding for the Property and Casualty Risk program. The rate calculations for Workers' Compensation and Property and Casualty Risk ISFs are based upon guidelines established by the State Controller's Office for cost plan allocations.

The County has established the Unemployment Insurance ISF, which covers all employees and is paid through the State of California; the County self-insured PPO Health Plans ISF, which provides health plan benefits; and the Health and Other Self-Insured Benefits ISF, which provides dental and short-term disability benefits for a portion of the County's employees and accidental death and dismemberment (AD&D) benefit for Reserve Deputy Sheriffs.

The County's Wellwise Choice, Wellwise Retiree, Sharewell Choice, and Sharewell Retiree PPO plans have no lifetime coverage maximum limitations. The dental insurance coverage is up to \$1,500 (absolute dollars) annually for each covered employee or dependent. The short-term disability insurance coverage is up to 12 months or when the employee returns to work, whichever occurs first. The self-insured AD&D benefit is for Reserve Deputy Sheriffs only and has a maximum benefit of \$5,000 (absolute dollars).

In FY 2021-22 the American Rescue Plan Act (ARPA) was effective through September 4, 2021. Federal-State Extended Duration (FED-ED) benefits provided additional weeks of benefits for eligible people who exhausted regular unemployment or other extension benefits between May 10, 2020, and September 11, 2021. The federal government does not allow benefit payments to be made for weeks of unemployment after this program ended. Unemployment benefits is back to normal length and claim payments. Unemployment benefits covered by State and ARPA were up to 55 weeks per individual or when the employee returns to work or no longer meets the requirements for the benefit. The maximum weekly benefit was \$450 (absolute dollars) per week. The County was not subject to the additional \$300 (absolute dollars) of the ARPA weekly benefit.

16. SELF-INSURANCE (Continued)

Changes in the balances of claims liabilities during the past two fiscal years for these self-insurance funds are as follows:

	Workers' npensation	roperty & Casualty Risk	employment nsurance	Se	alth & Other elf-Insured imployee Benefits	Total
Unpaid Claims, Beginning of FY 2020-21	\$ 156,301	\$ 55,512	\$ 560	\$	11,302	\$ 223,675
Claims and Changes in Estimates	36,238	27,426	2,181		73,299	139,144
Claim Payments	 (33,003)	 (15,649)	 (2,072)		(74,613)	 (125,337)
Unpaid Claims, End of FY 2020-21	159,536	67,289	669		9,988	237,482
Claims and Changes in Estimates	45,362	21,417	1,004		77,377	145,160
Claim Payments	 (38,111)	(16,269)	 (969)		(77,270)	 (132,619)
Unpaid Claims, End of FY 2021-22	\$ 166,787	\$ 72,437	\$ 704	\$	10,095	\$ 250,023

17. POLLUTION REMEDIATION

GASB Statement No. 49, "Accounting and Financial Reporting for Pollution Remediation Obligations," requires state and local governments to disclose to the public information about the financial impact of environmental cleanup and identifies the circumstances under which a governmental entity would be required to report a liability related to pollution remediation. The County has identified several environmental sites at the Airport and OC Waste & Recycling for which a pollution remediation liability has been recorded in the County's financial statements. The following describes the nature of the obligating events and the estimated liability as they relate to the Airport and OC Waste & Recycling.

John Wayne Airport (Airport)

In 1988, the Airport was named as a responsible party in a cleanup and abatement order (CAO) issued by the Regional Water Quality Control Board (RWQCB). The CAO identified four sites on Airport property as having chemical impacts to soil and groundwater. Site investigation and remedial action activities were completed, and in 2003, the RWQCB issued No Further Action letters to the Airport for the sites except the Old Fuel Farm site.

At the Old Fuel Farm, site investigation activities were completed, and on-going remedial activities include removal of residual free hydrocarbon product and monitored natural attenuation of groundwater. Annual groundwater sampling and reporting is currently conducted at the Old Fuel Farm, and the reports are prepared and submitted to the RWQCB.

In 1993, hydrocarbon-impacted soils were documented following removal of two 1,000-gallon underground storage tanks (USTs) at Former Fire Station #33. Following over-excavation and off-site disposal of hydrocarbon-impacted soils, the Orange County Health Care Agency issued a Completion of Corrective Action Letter to the Airport in 1994 related to the UST removal activities. During geotechnical assessment activities conducted at Former Fire Station #33 in 1999, soils appearing to be impacted with hydrocarbons were encountered and the soil boring logs were submitted to the RWQCB. In 2002, the RWQCB requested that the Airport assess the presence and distribution of chemical impacts to soil and groundwater. Site investigation activities were conducted between 2002 and 2006, and on-going remedial activities include monitored natural attenuation of groundwater. Currently, semi-annual groundwater sampling and reporting is conducted at Former Fire Station #33, and the reports prepared are submitted to the RWQCB.

In 2009, a new estimated pollution remediation liability was calculated based on a more active method of remediation for each of the Old Fuel Farm and Former Fire Station #33 sites. Active remediation has been delayed pending further guidance from the RWQCB, which could possibly affect the estimated pollution remediation liability, as well as cause changes to the remedial technologies used to remediate the sites. As of June 30, 2022, the Airport has a liability of \$994 based on management's assessment and the results of the consultant's evaluation of potential remediation costs. The liability is not expected to decrease until active remediation begins or a closure plan is accepted by the RWQCB.

17. POLLUTION REMEDIATION (Continued)

John Wayne Airport (Airport) (Continued)

In 1995, the Airport entered into a Memorandum of Understanding (MOU) with one of its fixed-base operators (FBO) lessees to address the remediation of the Old Fuel Farm. The FBO was identified as the operator of the site and the other responsible party. The lessee agreed to be obligated to pay 50% of the remediation costs associated with the Old Fuel Farm site. Reported in the Proprietary Funds Statement of Net Position as part of accounts receivable, the total expected recovery for the Old Fuel Farm site is \$256 as of June 30, 2022.

The estimated pollution remediation obligation as of June 30, 2022, is:

Old Fuel Farm Site	\$ 785
Former Fire Station #33 Site	692
Less: Remediation Activity	 (483)
Airport Pollution Remediation Obligation	\$ 994

OC Waste & Recycling

Six closed sites were identified and the remediation costs and time periods were calculated for each of these sites based upon the type of remediation needed and historical trend data for closed landfill sites. The combined pollution remediation obligation as of June 30, 2022, after deducting actual pollution remediation expenses incurred during fiscal year 2022 is \$12,626.

<u>Cannery Former Refuse Disposal Station</u> A park owned by the City of Huntington Beach (Huntington Beach), California and an elementary school playground are located on a site that was formerly used as a refuse disposal station operated by the County from 1957 to 1969. Levels of methane gas that exceed regulatory limits were detected on the property.

The Local Enforcement Agency (LEA) issued a Notice and Order to Huntington Beach, requiring Huntington Beach to remedy the landfill gas exceedances and to control potential offsite migration of landfill gases. In response to the LEA's Notice and Order, Huntington Beach and the Huntington Beach City School District (Huntington Beach School District) issued the Notices of Intent to Sue under the Resource and Conservation and Recovery Act and the Comprehensive Environmental Response, Compensation, and Liability Act to the County in 2004. Under an agreement with the County, Huntington Beach, and Huntington Beach School District claims were tolled until June 2006.

The County, Huntington Beach, and Huntington Beach School District entered into a Settlement Agreement in 2007 whereby Huntington Beach would be responsible for maintaining the cover of the former disposal site and the County would assume responsibility for the collection and control of landfill gas.

Based on engineering estimates and existing contracts for the operation and maintenance of other disposal sites of a similar size, the age of the site, the length of time waste has been buried and other factors, the County anticipates that the landfill gas collection system will operate fully for 15 years from beginning of the obligation date. The anticipated costs to operate, maintain and monitor the landfill gas collection system over the remaining anticipated operational period is \$31.

<u>Lane Road Former Refuse Disposal Station</u> The site, located in the City of Irvine, California and owned by NGP Realty Sub, L.P. and others, was leased and operated by the County as a refuse disposal facility from 1961 until its closure in 1964. An investigation revealed that landfill gas was present above regulatory limits in close proximity to residential housing units. The LEA issued a Notice and Order to the property owner requiring them to remedy the landfill gas exceedances, and to control potential offsite migration of landfill gases. In response to the LEA's Notice and Order, a claim was filed with CEO Risk Management. The County entered into a Settlement Agreement with the property owner in 2005. Per terms of that Settlement Agreement, the County

17. POLLUTION REMEDIATION (Continued)

OC Waste & Recycling (Continued)

Lane Road Former Refuse Disposal Station (Continued)

funded the construction of a landfill gas collection and control system, including a carbon treatment element, for the eastern portion of the site. After verification that the system was operating as planned, the County assumed ownership of the system and responsibility for its operation, maintenance and monitoring in 2008. Also in 2008, it was discovered that landfill gas was elevated in the northern portion of the site. Pursuant to the Settlement Agreement, the County designed and constructed an upgrade and enhancement to the existing landfill gas system to control landfill gas migration on the northern portion of the site.

Based on engineering estimates and existing contracts for the operation and maintenance of other similar disposal sites, the County anticipates that the landfill gas collection system will operate fully for 25 years from beginning of the obligation date, then will most likely either no longer be required or will be converted to a passive system. The cost for the operation, maintenance and monitoring of the system was highest in the first full year of operation when the carbon canisters needed more regular replacement. For each subsequent year of operation, the cost will be reduced due to less frequent carbon swapping and due to anticipated alternative monitoring requirements. The cost to operate and maintain the landfill gas collection system at the site for the next fiscal year of operation is \$272. The anticipated costs to operate, maintain and monitor the landfill gas collection system over the remaining anticipated operational period is \$523.

<u>San Joaquin Former Refuse Disposal Station</u> The site, owned by the University of California at Irvine (UC Irvine), was leased and operated by the County as a refuse disposal facility from 1954 to 1961. In 1996, a portion of the site was sold to the U.S. Food and Drug Administration. Levels of methane gas that exceed regulatory limits were detected on the property. As both parties expressed an interest in avoiding costly litigation, the County entered into negotiations to cooperatively address site concerns, resulting in a Cooperative Agreement with UC Irvine that was approved by the Board in May 2008. Pursuant to the Cooperative Agreement, the County constructed a landfill gas collection and control system, including a carbon treatment element.

The County retains responsibility for the operation, maintenance, and monitoring of that system. Based on engineering estimates and existing contracts for the operation and maintenance of similar disposal sites, the County anticipates that the landfill gas collection system will operate fully for 15 years from beginning of the obligation date. The cost to operate and maintain the landfill gas collection system at the site for the next fiscal year of operation is \$110. The remaining obligation for landfill gas remediation at the San Joaquin site over the anticipated operational period is \$347.

Forster Former Refuse Disposal Station The site, located in the City of San Juan Capistrano (San Juan Capistrano), California, was formerly leased and operated as a refuse disposal station by the County from 1958 to 1976. The current owner, Advanced Group 99-SJ, is proposing a change in land use for the property and has notified the County of its position that the County is responsible for re-closure of the site to meet current commercial and redevelopment requirements. The County disputes responsibility for site development related costs. In early 2010, San Juan Capistrano approved the proposed project and certified the Environmental Impact Report (EIR). The EIR was a subject of a citizen's referendum that ultimately resulted in affirmation of the proposed project. Subsequent to San Juan Capistrano approval of the proposed development plan, Advanced Group 99-SJ and the County entered into negotiations to resolve issues related to environmental responsibility at the site. These negotiations resulted in a settlement agreement and release of claims, brought about by a threat of litigation over the CEQA approvals. The settlement and release will permit the development of the site, with monies paid by the County for environmental controls to be installed at the site, an operation and maintenance fund and for environmental insurance, subject to conditions such as obtaining grading permits for the site for its actual development. In exchange, indemnification and environmental releases were provided by the developer to the County.

17. POLLUTION REMEDIATION (Continued)

OC Waste & Recycling (Continued)

Forster Former Refuse Disposal Station (Continued)

The obligation by the County for environmental infrastructure and controls at the site as agreed upon in the Settlement Agreement is \$7,500. The entire sum is anticipated to be released within five years from the approval of the project grading permits, but is dependent upon actions by the owner and regulatory approvals for the project. The County will continue to incur additional costs for work related to the County's current obligation to monitor the groundwater underlying the site. This responsibility will be transferred to the site owner upon completion of one of the settlement agreement milestones, but due to the uncertainty of specific timing, the County is unable to fully estimate the remaining ground water obligations as of June 30, 2022.

The remaining balance for landfill gas remediation at the Forster site is \$7,500 as of June 30, 2022. Distribution of these funds will occur over time, based on specific milestones in the development of the site.

<u>Yorba Refuse Disposal Station</u> The site, located in Orange, California (Orange), was owned and operated as a solid waste disposal site by the County. After disposal operations ceased, the site was sold to Orange for use as a city park. Park deed restrictions were later lifted from the property at the request of the city, which then began investigation into some form of commercial application or development at the site. In 2010, the Orange Redevelopment Agency filed suit against the City of Orange. The Complaint alleged various causes of action, including those for private nuisance, public nuisance, dangerous condition of property and statutory contributions for hazardous substances, and a Porter-Cologne contribution and for Polanco Redevelopment Act cost recovery. The relief sought is for unknown costs and damages. In turn, Orange filed a cross-complaint against the County. The causes of action alleged include indemnity and/or contribution, declaratory relief, hazardous substance account act indemnity and remedies under the Porter-Cologne Act.

The County and Orange entered into negotiations to resolve the issues brought forth by Orange. The negotiations resulted in a settlement agreement and release of claims executed on November 5, 2015. This settlement agreement and release of claims provides a remedy for the differential settlement or subsidence, to replace the irrigation system, and for costs associated with site maintenance with monies paid for by the County. In addition, effective on the date of the agreement, the County assumed responsibility and ownership of the landfill gas control system at the site. In exchange, indemnification has been provided by Orange to the County. Based on engineering estimates and existing contracts for the operation and maintenance of other similar disposal sites, the County anticipates that the landfill gas collection system will operate fully for 30 years from beginning of the obligation date, then will most likely either no longer be required or will be converted to a passive system. The cost for the operation, maintenance and monitoring of the system was highest in the first full year of operation when the system needed upgrades and relocation of critical equipment. For each subsequent year of operation, the cost will be reduced due to less frequent carbon swapping and due to anticipated alternative monitoring requirements. The cost to operate and maintain the landfill gas collection system at the site for the next fiscal year of operation will be \$191. The anticipated costs to operate, maintain and monitor the landfill gas collection system over the remaining anticipated operational period is \$4,225 as of June 30, 2022.

The estimated pollution remediation obligation as of June 30, 2022 is:

Cannery Former Refuse Disposal Station	\$ 31
Lane Road Former Refuse Disposal Station	523
San Joaquin Former Refuse Disposal Station	347
Forster Former Refuse Disposal Station	7,500
Yorba Refuse Disposal Station	 4,225
OC Waste & Recycling Pollution Remediation Obligation	\$ 12,626

18. RETIREMENT PLANS

The County participates in a number of pension plans. The OCERS plan and Extra-Help Defined Benefit plan are cost-sharing multiple-employer defined benefit pension plans. The County of Orange 401(a) and County of Orange 1.62% at 65 Retirement 401(a) plans are defined contribution plans. A summary of pension amounts for the County's defined benefit plans at June 30, 2022 is presented below:

	Extra-Help Defined					
	OCERS		Benefit Plan		Total	
Deferred Outflows of Resources Related to Pension	\$	910,191	\$	345	\$	910,536
Net Pension Liability		2,047,343		1,337		2,048,680
Deferred Inflows of Resources Related to Pension		1,852,334		-		1,852,334
Pension Expense/(Credit)		(38,656)		899		(37,757)

For further information on the deferred outflows/inflows of resources related to OPEB refer to Note 20, Deferred Outflows and Inflows of Resources.

Orange County Employees Retirement System (OCERS)

Plan Description: Substantially all County employees participate in OCERS, a cost-sharing multiple-employer public employee retirement system established by the voters of Orange County in 1945 pursuant to the County Employees Retirement Law of 1937, CGC Section 31451 et. seq. (the Retirement Law). OCERS is an independent defined benefit retirement plan in which employees of the County, Orange County Superior Court, and employees of certain cities and special districts within the County participate. OCERS is governed by the Board of Retirement (the OCERS Board). Certain attributes of independence of OCERS are guaranteed under the California Constitution. The OCERS Board consists of nine regular members and one alternate. Four OCERS Board members are appointed by the Board, three members plus one alternate are elected from active County employees, one member is elected from retirees, and the County Treasurer-Tax Collector is elected by registered voters in the County, serves as an Ex-Officio member.

The OCERS Board supervises the investment of OCERS assets and the distribution of benefits to retired employees. The OCERS Board also determines the annual contributions required of the County and other participating local governmental entities to fund OCERS.

The Retirement Law requires an actuarial valuation to be performed at least once every three years. OCERS' practice has been to conduct an actuarial valuation annually as of December 31, which is OCERS' year end.

OCERS operates as a cost-sharing multi-employer defined benefit pension plan for the County, Orange County Superior Court of California, City of San Juan Capistrano, and ten special districts: Orange County Cemetery District, Orange County Children and Families Commission, Orange County Department of Education, Orange County Employees Retirement System, Orange County Fire Authority, Orange County In-Home Supportive Services Public Authority, Orange County Local Agency Formation Commission (LAFCO), Orange County Public Law Library, Orange County Sanitation District, Orange County Transportation Authority, Transportation Corridor Agencies and the University of California, Irvine Medical Center and Campus. The Orange County Department of Education and the University of California, Irvine Medical Center and Campus are closed to new member participation. Capistrano Beach, Cypress Recreation & Parks District, Orange County Mosquito and Vector Control and City of Rancho Santa Margarita are no longer active plan sponsors, but retired members and their beneficiaries, as well as deferred members, remain in the System. OCERS is legally and fiscally independent of the County. However, it is presented as a fiduciary component unit of the County based on the GASB Statement No. 84 guidelines.

Benefits Provided: OCERS provides for retirement, death, disability, and cost-of-living benefits. Under OCERS, each County employee receives a defined-benefit pension at retirement, that is, a specific amount per month

Orange County Employees Retirement System (OCERS) (Continued)

Benefits Provided (Continued)

determined in accordance with the Retirement Law, which amount is not dependent upon the amount of money credited to the employee's account at the time of retirement. An OCERS member may be eligible for a Disability Retirement allowance. The member will be asked to designate a beneficiary or beneficiaries, who may be entitled to receive lifetime and/or lump sum benefits that may be payable upon a member's death. OCERS also provides two types of disability benefits, a nonservice-connected disability retirement or service-connected disability retirement. Under each type, the eligibility requirements are different. More information can be found on www.ocers.org. The OCERS Board does not set the benefit amounts. OCERS administers benefits that are set by the County Board through the collective bargaining process with County employees in accordance with the Retirement Law.

Effective June 28, 2002, Safety members, including Probation Services employees, became eligible for an annual annuity equal to a retirement benefit formula of 3% of the member's "final compensation" for each year of service rendered at age 50. Law enforcement management, which includes executives in the Sheriff-Coroner and District Attorney departments, and employees represented by the Association of Orange County Deputy Sheriffs hired after April 9, 2010, receive an annual annuity equal to a retirement benefit formula of 3% of the member's "final compensation" for each year of service rendered at age 55.

Effective July 1, 2005, as part of collective bargaining agreements with County employees, most General members who work for the County (approximately 14,000) became eligible for an enhanced annual annuity equal to a retirement benefit formula of 2.7% of the member's "final compensation" for each year of service rendered at age 55. In collective bargaining agreements with General members, the employee associations agreed to pay the increased retirement costs related to the difference between the prior retirement benefit formulas and the new 2.7% at age 55 enhanced formula, as well as the annual amortization of the unfunded liability created by the retroactive application of the increased benefit. Members of the American Federation of State, County and Municipal Employees (AFSCME) did not elect the 2.7% at age 55 retirement formula and remain at the previous benefit formulas. The benefit formulas for AFSCME are an annual annuity equal to 2% of the member's "final compensation" for each year of service rendered at age 57.5 for Tier II General members. Due to the passage of the Public Employees' Pension Reform Act (PEPRA) of 2013, most new employees hired on or after January 1, 2013, except for Safety members and members represented by AFSCME and the Orange County Attorneys Association (OCAA), will receive an annual annuity equal to a retirement benefit formula of 1.62% of the member's "final compensation" for each year of service rendered at age 65. The 1.62% at age 65 retirement formula includes a voluntary defined contribution component with an employer match.

Non-vested Supplemental Targeted Additional Retiree Cost of Living Adjustment (STAR COLA) benefits are also paid by OCERS to eligible retirees and survivors. Pursuant to Government Code Section 31874.3 of the Retirement Law, the OCERS Board has the sole authority to grant STAR COLA each year. The OCERS Board understands that granting STAR COLA may increase the Unfunded Actuarial Accrued Liability (UAAL); and therefore, asks for comments from plan sponsors prior to voting on approval of the annual benefit.

Retirees who have lost more than 20% of their purchasing power since retirement are eligible for this benefit, and currently, approximately 161 retirees (of which 158 are County retirees) who retired on or before April 1, 1980, and their survivors receive the STAR COLA. The STAR COLA benefits are excluded from the actuarial valuation and are funded annually through current employer contributions. Benefits are considered immaterial to the plan.

<u>Contributions</u>: In accordance with various Board resolutions, the County's funding policy is to make periodic contributions to OCERS in amounts such that, when combined with employee contributions and investment income, will fully provide for member benefits by the time they retire. Covered employees are required to contribute a percentage of their annual compensation to OCERS as a condition of employment. Base employee contributions are calculated using a formula defined in the Retirement Law. The California Supreme Court's

Orange County Employees Retirement System (OCERS) (Continued)

Contributions (Continued)

1997 Ventura decision stated that, for the purpose of calculating pension benefits, "final compensation" means not only base salaries, but also other components. The County employee contributions under current contracts are calculated on base salary, eligible premium pay, and some categories of overtime as defined in the 1997 Ventura decision.

Employer contributions are based on what is needed to properly fund the system. The law, however, does allow employers and employees to negotiate some variation in who pays the contributions. OCERS' responsibility is to make certain the total required contribution is paid, regardless of how the employers and employees share the cost. For FY 2021-22, employer's contributions for funding purpose, as a percentage of covered payrolls, were 39.35% for General members, 67.55% for Safety-Law Enforcement members and 59.69% for Safety-Probation members, as determined by the December 31, 2019, actuarial valuation. The County's total contribution to OCERS for the year ended June 30, 2022 was \$557,225.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension: At June 30, 2022, the County reported a liability of \$2,047,343 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability was determined using actuarial valuation results. At December 31, 2021, the County's proportion was 99.86%, which was an increase of 15.65% from its proportion measured as of December 31, 2020.

For the year ended June 30, 2022, the County recognized pension expense/(credit) of \$(38,656). At June 30, 2022, the County reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

\$309,461 reported as deferred outflows of resources related to pension resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2023.

The County reported the full amount of prepaid pension contribution as a part of the prepaid cost at the fund level. However, due to the difference in the County's fiscal year end date and the net pension liability

Orange County Employees Retirement System (OCERS) (Continued)

<u>Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources</u> Related to Pension (Continued)

measurement date, half of the prepaid pension contribution of \$287,679 is recognized as deferred outflows of resources related to pension, and the other half will remain as a prepaid cost on the government-wide statement.

In September 1994, the County issued \$320,000 of pension obligation bonds, of which \$318,000 in proceeds were paid to OCERS. OCERS maintains the proceeds in a County Investment Account. Amounts in the County Investment Account have been used to fund a portion of the County's contributions over time, pursuant to agreements between OCERS and the County, which allows the County significant discretion in applying the credit. As of June 30, 2022, \$135,745 of such proceeds remains in the County Investment Account available for future credits to the County's pension obligations. For the year ended June 30, 2022, the County utilized \$10,000 of funds available in the County Investment Account to pay a portion of the prepayment described below.

On January 13, 2022, the County issued its short-term Taxable Pension Obligation Bonds, 2022 Series A in the amount of \$521,784. Of the \$521,784 bond proceeds, \$521,701 was combined with \$43,656 in contributions from certain County departments and \$10,000 from funds available in the County Investment Account to prepay the estimated FY 2022-23 actuarially required contribution related to both the amortization of the UAAL and the normal annual contribution to OCERS. In return, the County received a 5.80% discount or \$32,823 on the required employer contribution amount. The discount, combined with the interest and issuance costs, resulted in a net savings of \$29,830 to the County. Refer to Note 4, Cash and Investments, and Note 10, Short-term Obligations, for additional information.

Amounts provided by OCERS' actuarial study reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized as follows:

Year ending June 30:		
2023	\$	(285,282)
2024		(584,833)
2025		(404,952)
2026		(260,988)
2027		(3,228)
Total	_\$	(1,539,283)

Actuarial Assumptions: The actuarial assumptions included a 2.50% inflation rate, 4.00% to 11.00% projected salary increases to general members and 4.60% to 15.00% to safety members, and a 7.00% investment rate of return, net of investment expense. The mortality assumptions used were based on the results of the actuarial experience study for the period of January 1, 2017 through December 31, 2019, using the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Table projected generationally with the two-dimensional mortality improvement scale MP-2019.

<u>Discount Rate</u>: The discount rate used to measure the total pension liability was 7.00%, the long-term expected rate of return on pension plan investments. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rate and that the employer contributions will be made at rates equal to the actuarially determined contribution rates.

According to paragraph 30 of GASB Statement No. 68, the long-term expected rate of return should be determined net of pension plan investment expense but without reduction for pension plan administrative expenses. The 7.00% investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 13 basis points. Using this lower discount rate has

Orange County Employees Retirement System (OCERS) (Continued)

Discount Rate (Continued)

resulted in a slightly higher total pension liability and net pension liability. The difference is not material to the County's financial statements.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rate of return by the target asset allocation percentage adding expected inflation and deducting expected investment expenses and a risk margin.

The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation but before deducting investment expenses, used in the derivation of the long-term expected investment rate of return assumption are summarized in the following table:

		Long-Term Expected
Asset class	Target Allocation	Real Rate of Return
Large Cap Equity	23.10%	5.43%
Small Cap Equity	1.90%	6.21%
International Developed Equity	13.00%	6.67%

<u>Pension Plan Fiduciary Net Position</u>: OCERS issues an audited stand-alone annual financial report for each year ending December 31. Detailed information about the pension plan's fiduciary net position is available and can be obtained online at www.ocers.org, in writing to the Orange County Employees Retirement System, P.O. Box 1229, Santa Ana, CA 92702, or by calling (714) 558-6200.

County Administered Plans

Extra-Help Defined Benefit Plan

<u>Plan Description</u>: The plan is a cost-sharing multiple-employer defined benefit retirement plan for employees working less than half-time or as extra-help for the County and six (6) other cost-sharing agencies. Eligible employees of this plan are not covered by OCERS or Social Security. Initially, the normal retirement benefits for a participant who retired on or after the normal retirement date was a monthly amount equal to one-twelfth of 2% of the participant's career earnings during the final 30 years of service credited under the Plan. There are no automatic cost-of-living adjustment (COLA) increases and no ad hoc COLAs have ever been granted. The current benefit for a participant who terminates or retires after November 20, 2008 is a lump sum payment, which is the greater of the actuarial equivalent of the participant's frozen accrued monthly benefit or the participant's contribution plus interest earnings. The normal retirement date is the first day of the month coinciding with or immediately preceding a participant's 65th birthday.

The plan was adopted to comply with the Omnibus Budget Reconciliation Act of 1990. The Board has full authority to amend or establish plan or benefit provisions at any time in accordance with the plan. The County is the named fiduciary and has the duty and full power to administer the plan. The Chief Financial Officer of the County is the trustee of the plan and has authority over the management and investment of plan assets.

The plan was adopted in January 1992 and was closed to new participants as of February 28, 2002. This plan subsequently froze benefit accruals and stopped collecting employee contributions effective November 21, 2008. As of that date, the normal retirement benefit was changed to a single lump sum distribution equal to the greater of the participant's account balance or the present value of their normal retirement benefit. As of June 30, 2022, the plan consists of 12 active plan participants, 155 terminated plan participants entitled to but not yet receiving benefits, and 35 retirees receiving benefits.

The plan financial statements are prepared using the accrual basis of accounting. County contributions are recognized in the period in which contributions are due, pursuant to the plan documentation and as may be required by statutory requirements. The benefits paid to participants and refunds of prior contributions are recognized when due and payable, in accordance with the terms of the plan.

The County charges a benefits administration fee to County agencies, which funds the cost of administering all of the County benefit programs, including the Extra-Help Defined Benefit Retirement Plan. The Empower Retirement Investment management fee is an annual asset-based fee of 8.5 basis points (each basis point is one hundredth of a percent).

Contributions: The County has the authority to determine plan contributions. GASB Statement No. 67, "Financial Reporting for Pension Plans," requires the County to have an actuarial valuation performed at least biennially to determine the plan's total pension liability. This valuation is currently performed biennially. The plan's total pension liability was calculated using the data as of July 1, 2021, rolled forward to June 30, 2022 using actual benefit payments for FY 2021-22. In both the 2021 valuation and the 2022 roll forward calculations the actuarial assets are valued at market value. Because plan benefits are frozen, the actuary has determined the County's actuarially determined contribution using the projected unit credit method and a 5-year rolling amortization of the Unfunded Actuarial Accrued Liability. Based on the plan actuary's advice, the County determines the amount necessary for contribution to the plan. Since the plan's inception, the County and six (6) cost-sharing agencies have contributed \$7,970. For the year ended June 30, 2022, the County and six (6) cost-sharing agencies contributed \$160. The County's proportionate share of the contribution was \$157.

County Administered Plans (Continued)

Extra-Help Defined Benefit Plan (Continued)

Contributions (Continued)

Plan participants do not contribute to the fund effective November 21, 2008 (the date of the freeze). Note that effective November 21, 2008, there is no normal cost due to the plan freeze.

<u>Investment policy</u>: The County has sole authority for establishing and amending the plan's investment policy and allocation of the invested assets. The plan's policy in regard to the allocation of invested assets may be established and amended by the plan's Trustee. The plan may invest in bonds, mortgages, notes, common or preferred stock, mutual funds, or other securities, policies of life insurance, annuity contracts, or property (real, bank deposits, or retain in cash or other property). The allocation policy with the target asset class and allocation is set forth in the investment policy.

<u>Concentrations</u>: The plan is invested 100% with Empower Retirement. The plan has stated its assets at fair value based on information provided by Empower Retirement.

<u>Discount Rate</u>: For the year ended June 30, 2022, the annual money-weighted rate of return on the Plan's investments, net of pension plan investment expense, was 12.89%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The discount rate used to measure the total pension liability was 4.75%, the same as the long-term expected rate of return on plan assets.

In accordance with paragraph 30 of GASB Statement No. 68, the long-term discount rate was determined without reduction for pension plan administrative expense.

The long-term expected rate of return on plan investments was determined using a building-block method equal to the expected future real rate of return on the investment with Empower Retirement plus expected inflation, rounded to the nearest 0.25%. The target investment allocation is 33% equities and 67% fixed income. The best estimate of the long-term expected geometric real rate of return for the equities and fixed income (net of investment expense and inflation) are 4.29% U.S. equity, 4.55% U.S. small cap equity, 4.49% non-U.S. equity, 0.78% U.S. fixed income, and 0.46% global fixed income.

<u>Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources related to Pensions</u>: The components of the collective net pension liability of the County and the six (6) cost-sharing agencies at June 30, 2022 were as follows:

Total Pension Liability	\$ 5,326
Plan's Fiduciary Net Position	 (3,957)
Plan's Net Pension Liability	\$ 1,369

Plan Fiduciary Net Position as a percentage of the
Total Pension Liability 74.30%

The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2021 and rolled forward to the measurement date of June 30, 2022. The County's proportionate share of the June 30, 2022 net pension liability is \$1,337. The County's proportion of 98.12% is based on an employer contribution allocation and has not changed since June 30, 2015.

For the year ended June 30, 2022, the County recognized pension expense of \$899. At June 30, 2022, the County reported deferred outflows of resources of \$345, which represents the aggregated net difference between projected and actual earnings on plan investments.

County Administered Plans (Continued)

Extra-Help Defined Benefit Plan (Continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources related to Pensions (Continued)

	Governmental Activities Airport		Airport	OC Waste & Recycling		Total		
Deferred Outflows of Resources Related to Pension per Actuarial Studies Net Difference Between Projected and Actual Investment Earnings		_			_	_		
on Pension Plan Investments	\$	338	\$	1	\$	6	\$	345
Total Deferred Outflows of Resources Related to Pension	\$	338	\$	1	\$	6	\$	345

The deferred outflows and inflows of resources related to this pension plan will be recognized as pension expense for the County as follows:

Year ending June 30:	
2023	\$ 52
2024	73
2025	60
2026	 160
Total	\$ 345

Actuarial Assumptions: The total pension liability based on the July 1, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement: (a) 2.50% inflation, (b) 4.75% investment return, (c) the 417(e) lump sum mortality table used for ERISA-governed plans and the 30-year Treasury rate with a look-back month of November grading into the long-term assumption of 4.50%, and (d) PubG-2010 Healthy Retiree Mortality Table projected generationally with mortality improvement Scale MP-2019. This plan does not have a salary increase assumption or post-retirement benefit increase assumption as these factors do not impact the benefits of this frozen plan.

<u>Sensitivity of the Net Pension Liability to Changes in the Discount Rate</u>: The following presents the net pension liability of the collective plan and the County's proportionate share, calculated using the discount rate of 4.75%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.75%) or 1-percentage-point higher (5.75%) than the current rate:

	1% Decrease	Discount Rate	1% Increase
	(3.75%)	(4.75%)	(5.75%)
Collective plan	\$ 1,543	\$ 1,369	\$ 1,212
County's proportionate share	\$ 1,514	\$ 1,337	\$ 1.189

Extra-Help Defined Contribution Plan

<u>Plan Description:</u> Effective March 1, 2002, as amended and restated on February 10, 2015, the Board established the Extra-Help Defined Contribution Plan to replace the Extra-Help Defined Benefit Retirement Plan for (a) new employees hired on or after March 1, 2002, and supplements the benefits of the Extra-Help Defined Benefit Retirement Plan for employees hired prior to March 1, 2002 and (b) effective February 10, 2015, employees hired on or after such date (i) who attained age 60 by such hire date, (ii) who waive membership in the OCERS, do not have funds on deposit with OCERS and otherwise meet the requirements under OCERS' regulations and state law to waive membership in OCERS, (iii) whose employer has signed

County Administered Plans (Continued)

Extra-Help Defined Contribution Plan (Continued)

Plan Description (Continued)

the OCERS Employer's Concurrence-Waiver of Membership form or any other documents that may be required by OCERS, and (iv) who sign the OCERS Employees' Waiver of Membership form and provide any other documents required by OCERS to waive membership. Eligible employees of this plan are not covered by OCERS or Social Security. This plan is a tax-deferred retirement plan, established in accordance with IRC Sections 457 and 3121 and is intended to comply with the Omnibus Budget Reconciliation Act of 1990 and meet the requirements to be a Social Security replacement plan. The Board has the authority to amend the plan. As of June 30, 2022, there were 7,486 participants with a balance in the plan, with 3,011 participants actively contributing to the plan as of the end of June payroll.

The plan is intended for retirement and funds may not be withdrawn until participants have separated from the County. The plan benefits for a participant who separates from service with the County or retires on or after the normal retirement date will be dependent upon the accumulated value of individual contributions and investment return.

If a participant's employment status changes from a part-time or extra-help employee to a permanent full-time employee or a part-time employee working 20 hours or more per week, those participants may elect to transfer the balance to the County's Section 457 Defined Contribution Plan or leave the balance in the plan until they are no longer employed with the County.

<u>Funding Policy:</u> Participants in the plan are required to contribute 7.5% of compensation each pay period. The contributions are invested in the County's Stable Value Fund offered through Empower Retirement, which is designed to protect principal and maximize earnings. Empower Retirement serves on behalf of the County as the third party administrator of the plan. The County established a trust to hold the plan assets, and Empower Retirement administers the plan at the will and approval of the County. In the current fiscal year, there was no additional contribution made by the County and total employee contributions were \$1,287. As of June 30, 2022, total plan assets were \$10,613.

Administrative Cost: There is an annual administrative fee of 0.16% charged to participants (at a monthly rate of 0.013%), which is capped for account balances at \$125. Each month participant fees are based on the average daily balance of their account(s) over a 30-day period, and are reflected on participants' quarterly statements. No employer-level fees are charged for the plan.

County of Orange 401(a) Defined Contribution Plan

<u>Plan Description:</u> Effective January 1, 1999, as amended and restated on March 24, 2015, the Board established the County 401(a) Plan for the benefit of eligible employees, elected officials, which includes members of the Board, certain executive managers, certain administrative managers once classified as confidential and grandfathered into the plan, attorneys represented by the Orange County Attorney's Association, and certain other employee classifications as defined in the plan document. The Board also has the authority to amend the plan. The plan was closed to the attorneys effective June 24, 2005. The plan was closed to new administrative managers and all grandfathered administrative managers effective June 23, 2016 and December 28, 2012, respectively. The plan is intended for retirement and funds may not be withdrawn until participants have separated from the County. The plan benefits for a participant who separates from service with the County or retires on or after the normal retirement date will be dependent upon the accumulated value of individual contributions and investment return. As of June 30, 2022, the plan had 608 participants with a balance in the plan, with 294 participants actively contributing to the plan as of the end of June payroll.

<u>Funding Policy:</u> This plan is a defined contribution plan funded entirely by employer contributions. County contributions to the plan vary according to employee classification and range from 4% to 8% of bi-weekly

County Administered Plans (Continued)

County of Orange 401(a) Defined Contribution Plan (Continued)

Funding Policy (Continued)

compensation. An additional 1.5% is contributed on behalf of Elected Officials who choose not to participate in OCERS. Total contributions for the fiscal year ended June 30, 2022, were \$1,303 by the County and zero by the employees.

As previously described, Empower Retirement serves on behalf of the County as the third party administrator of the plan. The plan is reported as a fiduciary activity as the County has control of the assets. Contribution to the plan defaults to the County's Stable Value Fund upon initial enrollment, which is offered through Empower Retirement and designed to generate a stable yield while preserving the investor's principal. Once enrolled, plan participants may self-direct the investment of plan contributions into any of a number of eligible investment options offered under the plan. As of June 30, 2022, total plan assets were \$20,473.

Administrative Cost: There is an annual administrative fee of 0.16% charged to participants (at a monthly rate of 0.013%) which is capped for account balances at \$125. There is an additional \$9 (absolute dollars) flat fee per year, which is a monthly fee \$0.75 (absolute dollars) charged to each participant. Each month participant fees are based on the average daily balance of their account(s) over a 30-day period and are reflected on participants' quarterly statements. No employer-level fees are charged for the plan.

County of Orange - 1.62% at 65 Retirement, 401(a) Defined Contribution Plan

Plan Description: On April 20, 2010, the Board approved and adopted the resolution implementing the "1.62% at 65" OCERS retirement formula for certain eligible employees. Effective May 7, 2010, as amended and restated on July 1, 2011, the Board approved the County 1.62% Defined Contribution Plan for the benefit of employees in the "1.62% at 65" OCERS retirement formula. The 1.62% Defined Contribution Plan is a combination governmental 457(b) and 401(a) retirement plan. Employee contributions are deposited into a 457(b) plan and employer-matching contributions are deposited into a 401(a) plan. Participation in the 1.62% Defined Contribution Plan is strictly voluntary. Employees are auto enrolled into the Plan and are given the option to opt out. It is designed to supplement the "1.62% at 65" OCERS retirement formula. Only employees in the "1.62% at 65" OCERS retirement formula are eligible to participate in the 1.62% Defined Contribution Plan.

On September 12, 2012, the Governor signed the PEPRA of 2013. PEPRA created a new pension retirement formula, commonly referred to as 2% at 62 retirement formula, for all new non-safety public employees hired on or after January 1, 2013. PEPRA also allowed a public employer to continue to offer another retirement formula, if offered before December 31, 2012, to new public employees if the retirement formula has a lower benefit factor at normal retirement age and results in a lower normal cost than the 2% at 62 PEPRA retirement formula. On December 18, 2012, the Board approved and adopted the "1.62% at 65" OCERS retirement formula for certain general (non-safety) public employees hired on or after January 1, 2013.

The Board has the authority to amend the plan. The plan is intended to comply with the requirements of IRC Section 401(a) and is intended for retirement. Matching employer contributions are determined by the County and approved by the Board, as stipulated in the Participants' bargaining units Memorandum of Understanding (MOU) or Personnel and Salary Resolution, as applicable. Employer contributions vest on employees' behalf after five years of continuous service with the County. For the purposes of eligibility and vesting, year of service means a 12-consecutive-month period during which the employee completes at least 2,080 hours of service, exclusive of overtime. If the employee leaves employment with the County prior to the vesting period, the employee will only be entitled to the employee contributions to the plan.

Funds may not be withdrawn until participants have separated from the County. The plan benefits for a participant who separates from service with the County or retires on or after the early or normal retirement date

18. RETIREMENT PLANS (Continued)

County Administered Plans (Continued)

County of Orange - 1.62% at 65 Retirement, 401(a) Defined Contribution Plan (Continued)

Plan Description (Continued)

will be dependent upon the accumulated value of individual contributions and investment return. As of June 30, 2022, the plan had 5,129 participants with a balance in the plan, with 4,175 participants actively contributing to the plan as of the end of June payroll.

<u>Funding Policy</u>: This plan is a defined contribution plan funded entirely by employer contributions. As of July 1, 2020, the County provides up to a 2% match per pay period of the employee's voluntary contribution to the IRC Section 457 element of the 1.62% Defined Contribution Plan. Employer contributions are deposited into the 401(a) Plan. Total contributions for the fiscal year ended June 30, 2022, were \$5,141 by the County and zero by the employees.

As previously described, Empower Retirement serves on behalf of the County as the third party administrator of the plan. The plan is reported as a fiduciary activity as the County has control of the assets. Contribution to the plan defaults to the age-appropriate target-date fund upon initial enrollment. Once enrolled, plan participants may self-direct the investment of plan contributions into any of a number of eligible investment options offered under the plan. As of June 30, 2022, total plan assets were \$20,339.

Administrative Cost: There is an annual administrative fee of 0.16% charged to participants (at a monthly rate of 0.013%), which is capped for account balances at \$125. Each month participant fees are based on the average daily balance of their account(s) over a 30-day period and are reflected on participants' quarterly statements. No employer-level fees are charged for the plan.

19. OTHER POSTEMPLOYMENT BENEFITS

County of Orange Retiree Medical Plan

<u>Plan Description:</u> The County of Orange Third Amended Retiree Medical Plan (the Retiree Medical Plan) is a cost-sharing multiple-employer defined benefit OPEB plan, intended to assist career employees in maintaining health insurance coverage following retirement from County and participating employers' service. The Retiree Medical Plan was established by the Board. The Board is also the authority for amending the Retiree Medical Plan. The Retiree Medical Plan is not required by the County Employees Retirement Law of 1937 ("CERL")—the statute governing County employee retirement benefits. Eligible retired County employees receive a monthly grant (the Grant), which helps offset the cost of monthly County-offered health plans and/or Medicare A and/or B premiums. The Retiree Medical Plan specifically states that it does not create any vested right to the benefits. The Plan is reported in the County's financial statements since it administers the Plan. The Plan is reported as of December 31, 2021.

<u>Plan Membership:</u> As of June 30, 2022, seven employers, the County, Orange County Public Law Library, Superior Courts of Orange County, Orange County Local Agency Formation Commission, Orange County Employees Retirement System, Children and Families Commission of Orange County, and Orange County Cemetery District have elected to participate in the plan. As of April 30, 2021, the membership consisted of the following:

Inactive plan members currently receiving benefit payments	9,565
Inactive plan members entitled to but not yet receiving benefit payments	53
Active plan members	14,333
	23,951

<u>Benefits Provided:</u> In order to be eligible to receive the Grant upon retirement, the employee must have completed at least 10 years of continuous County and/or participating employers' service (although exceptions for disability retirements exist), be enrolled in a County sponsored health plan and/or Medicare, qualify as a retiree as defined by the Retiree Medical Plan and be able to receive a monthly benefit payment from OCERS. To qualify as a retiree as defined by the Retiree Medical Plan, the employee upon retirement must be at least 50 years of age or have at least 20 years of service for a safety member of OCERS or at least 30 years of service for a general member of OCERS.

The monthly Grant amount is determined by a formula that multiplies a base number by the number of years of qualifying County employment up to a maximum of 25 years. The base number for calendar year 2021 was \$24.62 (absolute dollars) per year of County service, and the maximum base monthly Grant was \$615.50 (absolute dollars). The base number for calendar year 2022 is \$24.63 (absolute dollars) per year of County service, and the maximum monthly Grant is \$615.75 (absolute dollars). The amount of the Grant is netted against the monthly health plan premium and/or reimburses Medicare premiums paid by the retiree for retiree and dependent coverage with the retiree obligated to pay the remaining balance. In no case shall the Grant exceed the actual cost to a retiree for the Qualified Health Plan and Medicare premiums.

The plan was amended in 2007. Certain plan provisions were changed as of effective dates that varied by labor group. The Grant is reduced by 50% once the retiree becomes Medicare Parts A and B eligible. Retirees who were age 65 and/or Medicare Parts A and B eligible on the effective date are not subject to the Medicare reduction. For employees retiring after the effective date, the Grant is reduced or increased by 7.5% based on the employee's age at retirement, such that the Grant is reduced 7.5% for each year under age 60 and increased by 7.5% for each year of age worked after age 60 up to age 70. Safety employees and disability retirements are exempt from the age adjustment.

The base number for the Grant is adjusted annually based on a formula defined in the Retiree Medical Plan document with a maximum increase/decrease of 3%. Surviving dependents of a deceased employee or retiree eligible for the Grant are entitled to receive 50% of the Grant that the employee/retiree was eligible to receive.

In addition to the Grant, the Retiree Medical Plan provides a frozen lump sum payment to terminated employees

County of Orange Retiree Medical Plan (Continued)

Benefits Provided (Continued)

not eligible for the Grant. The qualifying hours of service for calculation of the lump sum payment is frozen and the effective date varies by labor agreement. The frozen lump sum payment is equal to 1% of the employee's final average hourly pay (as defined in the Retiree Medical Plan) multiplied by the employee's qualifying hours of service (as defined) since the Retiree Medical Plan's effective date.

Employees represented by AFSCME who retired before September 30, 2005 are not subject to the Medicare reduction or age adjustment to the Grant. The base number for these retirees is adjusted annually with a maximum increase/decrease of 5%. AFSCME employees who were employed on or after September 30, 2005 are not eligible for the Grant or the lump sum payment. They may participate in the County-offered health plans at their own cost.

Employees represented by the Association of Orange County Deputy Sheriffs (AOCDS) who were hired on or after October 12, 2007 are not eligible for the Grant or lump sum payment. Service hour accruals for the Grant and lump sum calculations for employees represented by AOCDS who were hired before October 12, 2007 were frozen. A Defined Contribution Plan Health Reimbursement Arrangement (HRA) was established to replace the Grant for new employees, and to supplement the frozen grants for current employees.

Association of County Law Enforcement Management (ACLEM) employees who were hired on or after June 19, 2009 are not eligible for the Grant or lump sum payment. Service hour accruals for the Grant calculations for ACLEM employees who were hired before June 19, 2009 were frozen. The qualifying hours of service for calculation of the lump sum payment for law enforcement management employees were frozen as of June 23, 2006. A Defined Contribution Plan HRA was established to replace the Grant for new employees, and to supplement the frozen grants for current employees.

Effective January 1, 2008, health insurance premium rates were separately pooled for the active and retired employees, except for employees represented by the AOCDS. Effective July 1, 2008, retiree health insurance premium rates for retired AOCDS and ACLEM employees enrolled in the AOCDS health plans must be 10% higher than active employees. Because retirees as a group have higher medical costs than active employees, the pooling of active and pre-Medicare retiree premiums in the AOCDS health plans results in "blended rates". Blending the premiums rates provides the pre-Medicare retirees the benefit of lower rates, while increasing the rates for active employees. The blended rates benefit for pre-Medicare retirees reflects the difference between the true cost of retiree benefits and the blended premium charged. GASB requires the cost of this blended rates benefit be included in the total OPEB liability.

Effective July 8, 2016, all active OCAA employees are no longer eligible for the Retiree Medical Grant or Lump Sum. A Defined Contribution Plan HRA was established to replace the Grant or Lump Sum for all active employees.

Effective July 3, 2020, the Retiree Medical Grant was frozen for all employees of the AOCDS Public Safety General and Public Safety Supervisory Unit. Service hour accruals for the Grant calculations are frozen. Only employees with ten or more credited service years as of the effective date are eligible for a Grant. Cost of living and age adjustments ceased in the calculation of the Grant. A Defined Contribution Plan HRA was established to replace the Grant or Lump Sum for all active employees.

All AOCDS Public Safety employees who retired on or after January 4, 2019 were enrolled in AOCDS retiree health plans. Employees who retired before this date remained in County retiree health plans.

Effective July 15, 2020 through October 8, 2020, the County implemented the Voluntary Incentive Program (VIP). Retirees who were eligible for the Grant and retired during the effective period could choose one of the following options rather than activating their Grant:

County of Orange Retiree Medical Plan (Continued)

Benefits Provided (Continued)

Option 1: Opt out of the Retiree Medical Plan at retirement with the option to opt back in at any open enrollment or within 30 days of a qualifying life event subject to the terms and conditions of the applicable insurance plans at the time the retiree opts back into health coverage. The retiree will be ineligible to receive their Grant during the period the retiree has opted out of the Retiree Medical Plan but their Grant will be effective the first day of the month following the date the retiree elects to opt back into the Retiree Medical Plan. When the Grant is received, the Grant will be calculated based on retiree medical years of service and age at original date of retirement, including any other adjustments required by Retiree Medical Plan provisions. While not participating in the Retiree Medical Plan and the Grant is suspended, retiree must maintain minimum essential coverage under California state law, Federal law and Medicare (if applicable), and provide proof of coverage upon County request, to be eligible to enroll in the County Retiree Medical Plan and receive the Grant. This option does not apply to retirees participating in AOCDS health plans.

Option 2: Permanently waive the right to participate in the Retiree Medical Plan and the right to receive the Grant, including a Medicare Part B reimbursement once Medicare eligible. A retiree who chose this option received a contribution to an HRA in lieu of participation in the Retiree Medical Plan.

On July 13, 2021 the Board approved a one-time voluntary opt out of the Retiree Medical Plan at retirement with the same terms and conditions as option 1 of VIP. The voluntary opt out was effective January 1, 2022.

<u>Contributions</u>: The County implemented a policy to make annual employer contributions in an amount equal to the Actuarially Determined Contribution (ADC) for the affected labor groups except ACLEM. In FY 2019-20, to ensure adequate funding of the Grant, the ADC included normal cost and amortization of liabilities for the Grant, Lump Sum and blended rates. In addition to contributing the ADC for the blended rates of retired employees enrolled in the AOCDS health plans, the County funded the blended rates benefit on a pay-as-you-go basis. Beginning in 2021, the employer contribution will only include the Grant and Lump Sum benefit. The blended rates benefit will be funded on a pay-as-you-go basis.

In order to more adequately fund benefits under the Retiree Medical Plan, on June 19, 2007, the Board adopted the County of Orange Retiree Medical Trust (Trust) effective July 2, 2007. The Trust is an IRC Section 115 trust for which the County Chief Financial Officer is the Trustee. In addition, OCERS has established an IRC Section 401(h) account to invest monies and acts as Trustee for the 401(h) account which is used to pay the Grant. The combined Trust and 401(h) represent the fiduciary net position of the Plan and are reported in the County's ACFR.

During the current fiscal year, the County set aside contributions of 0.2% of payroll for AFSCME, 0.3% for OCAA, 1.6% for AOCDS, 3.1% for law enforcement management, 2.9% for the Probation Department safety personnel, 2.0% for public safety general employees and 3.4% of payroll for all other labor groups, which is the estimated employer contribution for those groups calculated by an actuary. Additionally, ACLEM employees covered under the "3%@50" safety retirement formula contributed 1.6% of base pay.

For the Plan year ended December 31, 2021, the total Plan contributions were \$45,402. The County's contribution was \$41,279 (90.92%), Superior Court was \$3,647 (8.03%), OCERS was \$321 (0.71%), CFCOC was \$43 (0.09%), Law Library was \$38 (0.08%), Cemetery District was \$57 (0.13%), and LAFCO was \$16 (0.04%). The County's contribution for the fiscal year ended June 30, 2022 was \$42,373.

Funds were initially deposited into the Trust in December 2007, with subsequent deposits made throughout each fiscal year. The administrative expenses for the Trust are paid from the Trust.

County of Orange Retiree Medical Plan (Continued)

<u>OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:</u> The components of the collective net OPEB liability of the participating employers as of June 30, 2022 were as follows:

Collective OPEB Liability	\$ 741,369
Collective Plan's Fiduciary Net Position	 (485,045)
Collective Net OPEB Liability	\$ 256,324

Plan Fiduciary Net Position as a percentage of the Total OPEB Liability 65.43%

The Collective OPEB Liability of \$741,369 includes \$666,092 for the Grant and Lump Sum benefits and \$75,277 for the blended rates benefit. GASB requires the blended rates benefit be included in the Net OPEB liability, but the County's funding policy of only contributing towards the Grant and Lump Sum benefits means the County intends to use the Trust assets only to pay for Grant and Lump Sum benefits. If the funded percent were calculated reflecting the County's funding policy rather than GASB requirements, it would be larger than that shown above. Excluding the OPEB liability for the blended rates benefit, which are funded on a pay-as-you-go basis, from the Collective OPEB Liability, the Plan Fiduciary Net Position as a percentage of the total OPEB liability for the Grant and Lump Sum benefit is 72.82%.

At June 30, 2022, the County reported a liability of \$233,049 for its proportionate share of the collective net OPEB liability. The collective net OPEB liability was measured as of December 31, 2021, and the total OPEB liability used to calculate the collective net OPEB liability was determined by an actuarial valuation as of June 30, 2021. The County's proportion of the collective net OPEB liability was based on the 2021 share of employer contributions to the OPEB plan relative to the projected contributions of all participating employers. At December 31, 2021, the County's proportion was 90.92%, which was a decrease of 0.51% from its proportion measured as of December 31, 2020.

For the year ended June 30, 2022, the County recognized OPEB expense of \$16,210. At June 30, 2022, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

·	G	Activities	 Airport	 Waste & ecycling	 Total
Deferred Outflows of Resources Related to OPEB per Actuarial Studies					
Changes of Assumptions	\$	6,433	\$ 56	\$ 67	\$ 6,556
Changes in Proportion and Differences Between Employer					
Contributions and Proportionate Share of Contributions		3,309	29	34	3,372
Employer Contributions after Measurement Date		20,968	175	225	21,368
Total Deferred Outflows of Resources Related to OPEB	\$	30,710	\$ 260	\$ 326	\$ 31,296
Deferred Inflows of Resources Related to OPEB per Actuarial Studies			 		
Net Difference Between Projected and Actual Investment Earnings					
on OPEB Plan Investments	\$	38,407	\$ 330	\$ 403	\$ 39,140
Difference Between Expected and Actual Experience		37,777	326	394	38,497
Changes of Assumptions		9,921	87	102	10,110
Changes in Proportion and Differences Between Employer					
Contributions and Proportionate Share of Contributions		4,141	36	42	4,219
Total Deferred Inflows of Resources Related to OPEB	\$	90,246	\$ 779	\$ 941	\$ 91,966

Deferred outflow of resources of \$21,368 related to OPEB resulting from County's contributions subsequent to the measurement date will be included as a reduction of the collective net OPEB liability in the following fiscal year. For further information on the deferred outflows and inflows of resources related to OPEB refer to Note 20, Deferred Outflows and Inflows of Resources. Other deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in the County's OPEB expense as follows:

County of Orange Retiree Medical Plan (Continued)

<u>OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related</u> to OPEB (Continued)

Year ending June 30:	
2023	\$ (15,824)
2024	(20,730)
2025	(16,757)
2026	(13,989)
2027	(7,370)
Thereafter	 (7,368)
Total	\$ (82,038)

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation. The actuarial valuations involve estimates of the values of reported amounts and assumptions about the probability of events far into the future and will be subject to continual revision as they reflect a long-term perspective.

Actuarial Methods and Assumptions: The total OPEB liability was determined by an actuarial valuation as of June 30, 2021. The County contracts with an outside actuarial consultant to prepare a biennial actuarial valuation in conformance with GASB requirements and is based on established pattern of practice. The actuarial methods and significant actuarial assumptions used in the June 30, 2021 actuarial valuation are:

- The entry age normal actuarial cost method
- 7.00% long-term expected rate of return, net of investment expenses, on funds held in the Trusts
- 3.00% per annum payroll increase assumption
- 2.50% per annum general inflation rate assumption
- Assumed annual increases in the monthly grant of 3% for non-AFSCME employees and 5% for AFSCME employees. The healthcare trend was assumed to be greater than or equal to the annual increase to the Grant in almost all future years. Therefore, it is the Grant annual increase rather than the healthcare trend that has the largest impact on the projected benefits and the net OPEB liability.
- Grant participation rate was 50% to 95%, determined by employee group and Grant service at retirement, based on the April 2019 participation study

Medical trend used for pre-Medicare members was 6.50% for 2023, decreasing to 3.75% for 2076 and later. For Medicare eligible members, 4.60% was used for 2023 decreasing to 3.75% for 2076 and later (Kaiser) and 5.65% was used for 2023, decreasing to 3.75% for 2076 and later (Non-Kaiser). Mortality rates were based on the Pub-2010 Benefit-Weighted Mortality Tables with separate tables for males and females. Mortality improvement was projected fully generational with Society of Actuaries mortality improvement Scale MP-2019.

<u>Discount Rate:</u> The discount rate used to measure the total OPEB liability was 7.00%, the long-term expected rate of return on plan assets, net of investment expenses. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current negotiated contribution rate and that the employer contributions will be made at rates equal to the actuarially determined contribution rates for the Grant and lump sum benefits (with blended rates benefit paid on a pay-as-you-go basis). Based on actuarial assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

County of Orange Retiree Medical Plan (Continued)

Discount Rate (Continued)

The target allocation and long-term expected real rate of return for each asset class are summarized in the following table:

Long-Term

		Expected
	Target	Arithmetic Real
Asset class	Allocation	Rate of Return
Large Cap Equity	23.10%	5.43%
Small Cap Equity	1.90%	6.21%
International Developed Equity	13.00%	6.67%
Emerging Markets Equity	9.00%	8.58%
Core Bonds	9.00%	1.10%
High Yield Bonds	1.50%	2.91%
TIPS	2.00%	0.65%
Emerging Market Debt	2.00%	3.25%
Coporate Credit	1.00%	0.53%
Long Duration Fixed Income	2.50%	1.44%
Real Estate	3.01%	4.42%
Private Equity	13.00%	9.41%
Value Added Real Estate	3.01%	7.42%
Opportunistic Real Estate	0.98%	10.18%
Energy	2.00%	9.68%
Infrastructure (Core Private)	1.50%	5.08%
Infrastructure (Non-Core Private)	1.50%	8.92%
CTA-Trend Following	2.50%	2.38%
Global Macro	2.50%	2.13%
Private Credit	2.50%	5.47%
Alternative Risk Premia	2.50%	2.50%
Total	100.00%	
Assumed Long Term Rate of Inflation		2.50%
Expected Long Term Net Rate of Return		7.00%

Rate of Return: For the year ended December 31, 2021, the annual money-weighted rate of return on investments, net of investment expense, was 16.67%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. For further information on the investment policy of OCERS refer to Note 4, Cash and Investments.

<u>Sensitivity of Net OPEB Liability to Changes in the Discount Rate:</u> The following presents the Net OPEB liability of the collective plan and the County's proportionate share, calculated using the discount rate of 7.00%, as well as what the County's proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

	1%	Current	1%
	Decrease	Discount Rate	Increase
	(6.00%)	(7.00%)	(8.00%)
Collective plan	\$ 343,470	\$ 256,324	\$ 183,392
County's proportionate share	\$ 312,283	\$ 233,049	\$ 166,740

County of Orange Retiree Medical Plan (Continued)

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates: The following presents the Net OPEB liability of the collective plan and the County's proportionate share, as well as what they would be calculated using healthcare cost trend rates that are 1-percentage-point lower (5.50%/4.65%/3.60% decreasing to 2.75%) or 1-percentage-point higher (7.50%/6.65%/5.60% decreasing to 4.75%) than the current healthcare cost trend rates:

			Curre	ent Healthcare Cost				
		1% Decrease		Trend Rates		1% Increase

<u>OPEB Plan Fiduciary Net Position:</u> As previously described, the 401(h) assets are held with OCERS. The underlying investments are presented in the Combining Statement of Fiduciary Net Position. OCERS issues an ACFR for each year ending on December 31, which includes the 401(h) assets. This report can be obtained online at www.ocers.org by request, or in writing, to the Orange County Employees Retirement System, P.O. Box 1229, Santa Ana, CA 92702, or by calling (714) 558-6200.

County of Orange Health Reimbursement Arrangement (HRA)

<u>Plan Description</u>: On October 23, 2007, the Board approved and adopted a MOU agreement with the AOCDS. The MOU restructured the Retiree Medical Plan and established a Defined Contribution Plan Health Reimbursement Arrangement to replace the Retiree Medical Plan for new employees, and to supplement the current employees' frozen service hour accruals for the Grant.

The HRA is intended to comply with the requirements of IRC Sections 105 and 106 and meets the requirements of a health reimbursement arrangement as defined under IRS Notice 2002-45. The contributions made to reimbursement accounts, any investment gains and qualified medical expenses reimbursed under this plan are intended to be eligible for exclusion from the gross income of eligible employees, participants, and retired participants (including the spouses and dependents of each) under IRC Section 105(b). The HRA may be amended by the Board or the plan administrator to comply with federal, state, or local laws, statutes, regulations, or guidance from regulatory agencies.

On June 24, 2008, the Board approved the County of Orange Health Reimbursement Arrangement (HRA) Plan Document. The HRA Plan is not required by the Retirement Law; it is intended to fund the reimbursement accounts of eligible employees on a pre-tax basis and reimburse the eligible unreimbursed and substantiated qualified medical expenses of retired participants.

On March 10, 2009, the Board approved the restructuring of the Retiree Medical Plan and establishment of a Defined Contribution Plan HRA for employees represented by ACLEM effective June 19, 2009. The HRA replaces the Retiree Medical Plan for new employees and supplements the current ACLEM employees' frozen service hour accruals for the Grant.

On May 12, 2015, the Board approved the restructuring of the Retiree Medical Plan and establishment of a Defined Contribution Plan HRA for employees represented by OCAA effective July 8, 2016. The HRA replaces the Retiree Medical Plan for all active attorney employees.

County of Orange Health Reimbursement Arrangement (HRA) (Continued)

Plan Description (Continued)

The Plan Document was amended and restated on June 1, 2016 to provide for the transition of the OCAA to the HRA Plan in July 2016. Prior employee contributions for employees represented by OCAA to the Retiree Medical program and the interest earnings thereon through July 5, 2016 were transferred as a lump sum deposit for eligible employees to their HRA accounts.

On January 4, 2019, the Board approved the restructuring of the Retiree Medical Plan and establishment of a Defined Contribution Plan HRA for employees of Public Safety General Unit and Public Safety Supervisory Unit effective July 3, 2020. The HRA replaces the Retiree Medical Plan for all active employees of Public Safety units.

On July 14, 2020, the Board approved and enacted the VIP, which offered the incentives to eligible employees who volunteered to separate by resignation or retirement between July 15, 2020 through October 8, 2020. Employees who were eligible for a Service Retirement Allowance pursuant to OCERS under the Retirement Law received the employer contribution to the HRA at retirement. A one-time County contribution, in the amount equal to the pre-tax amount approved by the Board, or contribution equal to the Board approved percentage of base annual salary (whichever was greater), was contributed to the County's HRA. In addition, employees eligible for a Grant in the Retiree Medical Insurance Program were offered an HRA contribution in lieu of a Grant. The value contributed to the HRA was \$655 (absolute dollars) multiplied by an employee's total years of County service.

Administration of the HRA by the third-party administrator began in August 2009. The Plan Document was amended and restated on January 1, 2011, to reflect changes to the definition of a "dependent" due to healthcare reform legislation.

As of June 30, 2022, the plan had 3,593 active and 1,718 inactive participants.

<u>Funding Policy</u>: Employer and mandatory employee contributions were effective October 12, 2007 for employees represented by AOCDS, effective June 19, 2009 for employees represented by ACLEM, and effective July 8, 2016 for OCAA represented employees. All contributions made to the HRA are deemed to be employer contributions. Employee contributions for employees represented by each of the bargaining units are mandatory pursuant to their bargaining unit MOU and mandatory pursuant to Board action.

For employees represented by AOCDS, the County contributes 5.0% of base salary each pay period. For employees represented by ACLEM, the County contributes 4.0% of base salary each pay period. For employees represented by OCAA, the County contributes 1.0% of base salary each pay period and employees are also required to contribute 1.0% of base salary each pay period. For employees represented by AOCDS Public Safety, the County contributes 3.0% of base salary each pay period.

Contributions to the HRA Plan default to the age-appropriate target-date fund upon initial enrollment. Once enrolled, HRA participants may self-direct the investment of plan contributions into any of a number of eligible investment options offered under the HRA. As of June 30, 2022, the value of the HRA assets was \$187,515.

Administrative Cost: Prior to April 1, 2019, annual administrative fees included a plan asset fee of 0.40% and an annual account fee of \$80 (absolute dollars). Beginning on April 1, 2019, the administrative fee was reduced to 0.195% with no annual account fee. Each quarter, 25% of the fees are assessed to participant accounts and are reflected on participants' guarterly statements. No employer-level fees are charged for the Plan.

Condensed Financial Statements

In lieu of separately issued financial statements for the County administered postemployment health care benefit trust funds, condensed financial statements are presented below as of and for the year ended June 30, 2022:

20. DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

The deferred outflows/inflows of resources, included on the government-wide Statement of Net Position and the Proprietary Funds Statement of Net Position relate to the deferred charge on refunding, deferred outflows and inflows of resources related to pension, deferred outflows and inflows of resources related to OPEB, deferred inflows for leases and deferred inflows related to SCAs. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferral of resources related to leases and SCAs is the difference between the guaranteed installment payments and contractual commitments. Deferred resources related to pension and OPEB result from the net difference between projected and actual investment earnings on the plan investments, changes of assumptions and changes in proportion and differences between employer contributions and the proportionate share of contributions calculated by the actuarial study and differences between expected and actual experience. The deferred outflows of resources related to pension and OPEB also include employer contributions made after the measurement date and a portion of the County's prepaid retirement contribution. Deferred inflows of resources included in the statement of net position, governmental activities and business-type activities as of June 30, 2022, are described as follows:

21. CONTINGENCIES

Estimated Liability for Litigation and Claims

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County's legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the County. To the extent the outcome of such litigation has been determined to result in probable financial loss to the County, a liability has been accrued in the accompanying financial statements. Litigation where loss to the County is reasonably possible has not been accrued and at this time an estimate cannot be made. For information regarding claim payments and unpaid claims balance for self-insurance claims, refer to Note 16, Self-Insurance.

Deferral of Rent

In April and July 2020, the Airport took measures to respond to the COVID-19 crisis and offered a deferment of rents or minimum annual guarantees to tenants, including airlines, rental cars, and concessions from March 1, 2020 through September 30, 2020, expecting payments in full by June 30, 2021. As of June 30, 2022, the Airport reported a receivable balance of \$345 for rent deferrals as some tenants required an extension with structured repayments. The Airport expects the full amount paid in the upcoming year.

Federal Assistance

On June 9, 2022, the County received \$308,420, which is the second tranche of the County's \$616,841 allocation from the Coronavirus State and Local Fiscal Recovery Fund under ARPA. These funds are required to be used for allowable costs within the period between March 3, 2021 and December 31, 2024. As of June 30, 2022, the County has spent \$111,188 of ARPA funds. Of the remaining funds, \$308,824 are reported as unearned revenues and \$196,829 was recognized as revenue as allowed by the Treasury under the revenue loss category. On May 21, 2020, the Airport received an allocation of \$44,910 of CARES Act grant funds. This grant can be used to reimburse the Airport for allowable costs incurred from January 20, 2020 to May 20, 2024. As of June 30, 2022, the Airport had claimed and received reimbursements of \$28,535, including \$13,676 and \$10,077 for the years ended June 30, 2022 and 2021 respectively. The grant balance was \$16,375 as of June 30, 2022.

County of Orange Annual Comprehensive Financial Report For the Year Ended June 30, 2022 (Dollar Amounts in Thousands)

22. SUBSEQUENT EVENTS

The following events occurred subsequent to June 30, 2022:

Teeter Plan Notes: On July 18, 2022, the County paid off its \$79,978 taxable Teeter Plan Obligation Notes, Series B utilizing \$45,810 in accumulated base taxes. On July 18, 2022, the Teeter Plan Notes were issued for \$82,308 in taxable Teeter Plan Obligations Notes, Series B, to refund the outstanding balance of \$34,168 and finance the purchase of \$48,140 in delinquent property tax receivables. The Teeter Notes issued on July 18, 2022, were issued pursuant to a First Amendment to Second Amended and Restated Note Purchase and Reimbursement Agreement, dated between the County and Wells Fargo Bank, National Association. Teeter Notes may be issued from time to time by the County provided that the total principal amount of Teeter Notes outstanding at any one time shall not exceed \$150,000. The Teeter Notes mature on July 17, 2023 and bear interest at the rate of 3.46% per annum. As of July 18, 2022, the authorized unused available commitment was \$67,692.

<u>Lease Revenue Bonds, Series 2022 (County of Orange Sheriff-Coroner Facility)</u>: On July 26, 2022, the SOCPFA issued its \$83,375 Lease Revenue Bonds, Series 2022 (County of Orange Sheriff-Coroner Facility) at a premium of \$12,350. The Lease Revenue Bonds, payable through June 2052, were issued to finance the acquisition of and construction of certain improvements to a new facility for the County Sheriff-Coroner's department to be owned by the County and to pay costs relating to the issuance of the bonds.

The bonds are special obligations of the SOCPFA payable from and secured by the base rental payments to be made by the County pursuant to and as required under the lease agreement and the amounts held in all funds and accounts (other than the rebate fund) under the indenture. The property itself was pledged as collateral for the debt. In the event of default, the SOCPFA or the trustee may exercise any and all remedies available pursuant to law or granted pursuant to the Lease.

<u>Transfer of County Owned Property</u>: On December 6, 2022, the Board approved the execution of a Cooperative Transfer Agreement between the County, OCFCD, and the city of Laguna Beach (City). This Cooperative Transfer Agreement conveyed various property interests owned by the County and the OCFCD to the City, including: Aliso Beach and associated parking lots, Camel Point Beach, Laguna Royale Beach, West Street Beach, Table Rock Beach, Thousand Steps Beach, and County held easements within the City; as well as the OCFCD-owned parcel at Aliso Beach (collectively, Coastal Properties). As part of this agreement, the County will make a total one-time payment of \$22,000 to the City to offset the maintenance costs.

Over the years, there has been interest by the City to assume the operations of County-owned coastal properties within the City limits to enhance local control, provide consistent services, and allow for enforcement of municipal codes. On November 15, 2022, the Laguna Beach City Council unanimously approved the Cooperative Transfer Agreement for transfer of the Coastal Properties. Following Board approval of the Cooperative Transfer Agreement, the County and the City began working to complete all tasks necessary to effectuate the transfer of the properties.

<u>Labor Agreements</u>: On December 20, 2022, the Board approved the restructuring of the Retiree Medical Plan and establishment of a defined contribution plan HRA for members of the Orange County Employees Association (OCEA) effective June 16, 2023. Service hour accruals for the Retiree Medical Plan grant will be frozen for all OCEA represented employees hired before June 16, 2023. The HRA will replace the Retiree Medical Plan for all new employees and will supplement the frozen grants for existing employees in units represented by OCEA.

NONMAJOR GOVERNMENTAL FUNDS SPECIAL REVENUE FUNDS

These funds are used to account for the proceeds of specific revenue sources (other than the Permanent Fund or for major capital projects) that have either legal or operational requirements to restrict expenditures for specified purposes.

Parking Facilities

This fund is used to account for revenues and expenditures related to parking facilities. This includes costs to lease parking spaces for County staff, costs and revenue from the Manchester lot, interest revenue, and the County's operating and maintenance costs.

Service Areas, Lighting, Maintenance and Assessment Districts

This group of funds is used to account for the construction of public facilities from the proceeds of various Mello-Roos districts (also known as Community Facilities Districts) bond issues, special assessment district bond issues, and interfund transfers from County Service Area operating funds. Upon completion of construction, the public facilities are transferred to the Special Assessment and Community Facilities Districts. It is also used to account for local park and recreation facilities, highway lighting, and street sweeping services within unincorporated areas of the County. Revenues consist primarily of property taxes and State grants.

Other Environmental Management

This group of funds is used to account for Local Redevelopment Authority activities, fees from violations of fish and game laws, usage of various State tidelands held in trust by the County, registration of off-highway vehicles, and motor vehicle fees levied by the South Coast Air Quality Management District.

Tobacco Settlement

This fund accounts for Tobacco Settlement monies allocated to the County from the State of California, pursuant to the Master Settlement Agreement concluded on November 23, 1998 between the major tobacco companies and 46 States (including California), the District of Columbia and four U.S. Territories. On November 7, 2000, Orange County voters passed Measure H. This measure requires the County to utilize its share of the national tobacco litigation settlement revenues in the following percentages:

- 80% for specified health care services
- 20% for public safety

Community and Welfare Services

This group of funds is used to account for the Orange County Workforce Innovation and Opportunity Act, Welfare-to-Work, Shelter Care Facilities, In Home Supportive Services, Housing and Community Development, Substance Abuse Treatment, and Other Community and Welfare Social Programs. Revenues consist primarily of Federal grants passed through the State, as well as State grants.

OC Parks

This fund accounts for the development and maintenance of County tidelands and related aquatic recreational facilities, as well as the acquisition, operation and maintenance of County beaches, inland, regional park facilities and community park sites in the unincorporated areas. Revenues consist primarily of property taxes, State aid, lease and concession revenues, and park and recreation fees.

OC Dana Point Harbor

This fund accounts for monies received primarily through rent and concession revenues which are dedicated to providing public coastal access, environmental stewardship, and a diverse regional recreational facility so users and visitors may experience the Dana Point Harbor resource in a safe and enjoyable way. The Board approved a lease agreement with Dana Point Harbor Partners to renovate and operate the Dana Point Harbor. For additional information regarding Dana Point Harbor, refer to Note 7, Service Concession Arrangements.

Housing Asset

The Orange County Development Agency (OCDA) was dissolved effective February 1, 2012 in accordance with Health and Safety Code 34172. The Orange County Housing Authority assumed the housing functions previously performed by OCDA. The Housing Asset Fund was established and the housing assets from the OCDA Low and Moderate Income Housing Fund were transferred into the Fund.

OC Public Libraries

This Fund accounts for library services for the unincorporated areas as well as some of the incorporated areas within the County. Property taxes provide most of the Fund's revenue. Licenses, permits, Federal and State aid, and charges for services make up the remaining revenue.

Health Care Programs

This group of Funds is used to account for Board-approved Realignment Reserves for Health Care, Medi-Cal Mental Health Managed Care programs, Medi-Cal Administrative Activities and Targeted Case Management, Bioterrorism Preparedness grant funds, Emergency Medical Services allocations, and other purpose-restricted revenues related to health care programs. Revenues consist primarily of State grants and allocations, and Federal grants passed through the State.

Roads

This Fund accounts for proceeds restricted for the maintenance and construction of roadways, and for specialized engineering services to other governmental units and the public. Revenues consist primarily of the County's share of State highway users' taxes, and SB1 related transportation taxes and fees, Federal funds, and charges for engineering services provided.

Orange County Housing Authority

This Fund is used to account for revenues received from the Federal Government for Section 8 Rental Assistance Program expenditures. This program assists low-income families to obtain decent, safe, and sanitary housing through a system of rental subsidies.

Other Governmental Resources

This group of Funds is used to account for fees charged for property characteristics information that are purpose-restricted for technological and capital acquisitions and/or improvements.

NONMAJOR GOVERNMENTAL FUNDS (Continued) DEBT SERVICE FUNDS

These Funds are used to account for the accumulation and disbursement of taxes and other revenues for the periodic payment of principal and interest on general long-term debt that includes general obligation, revenue, and demand bond issues.

Teeter Plan Notes

This Fund accounts for the financing of the County's purchase of delinquent taxes receivable pursuant to the Teeter Plan. The Teeter Plan is an alternate secured property tax distribution plan, whereby, the County distributes 100% of the local secured levy to the taxing agencies participating in the Teeter Plan and in exchange receives the right to keep the delinquent taxes, penalties and interest.

Pension Obligation Bonds

This Fund is used to account for the debt service expenditures for the Orange County Taxable Pension Obligation Bonds. The Taxable Refunding Pension Obligation Bonds, Series 1997A are economically defeased and the outstanding debt service is paid through debt securities issued by Fannie Mae, along with Debt Service Funds already being held by the Trustee. The bonds were fully redeemed in July 2022. See Note 22, Subsequent Events for more information.

Capital Facilities Development Corporation

This non-budgeted Fund was established to account for the Civic Center Facilities Master Plan project and will facilitate financings, acquisitions of property, and other property related transactions for the benefit of Orange County, California.

South Orange County Public Financing Authority

This non-budgeted Fund was established to account for the debt service expenditures for the South Orange County Public Financing Authority (SOCPFA). On June 2, 2016, SOCPFA issued the Central Utility Facility Lease Revenue Bonds, Series 2016 to finance the acquisition, construction and installation of certain capital improvements.

CAPITAL PROJECTS FUNDS

These Funds are used to account for the acquisition and construction of major capital facilities (other than those financed by the Proprietary Funds).

Criminal Justice Facilities

This group of Funds is used to account for monies received from surcharges and penalty assessments on offenses used for capital improvements to court and other criminal justice facilities.

Countywide Capital Projects Non-General Fund

This Fund was established to budget and account for the multi-year approved capital projects funded primarily with Net County Cost or general purpose revenue.

Capital Facilities Development Corporation Construction

This non-budgeted Fund was established for the Civic Center Facilities Master Plan project and to account for the related construction.

PERMANENT FUND

A Permanent Fund is used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry.

Regional Park Endowment
This Fund is used to account for costs associated with the repair and maintenance of a mitigation area in Limestone Regional Park.

INTERNAL SERVICE FUNDS

These funds are used to account for the financing of goods or services provided by one County department or agency to other County departments or agencies, on a cost-reimbursement basis.

Health and Other Self-Insured Employee Benefits

These funds are used to account for the County's self-funded health insurance programs, group salary continuance plan, group dental insurance programs, wellness program, and flexible spending accounts.

Insured Health Plans

This fund is used to account for the fully insured health plans for the County employees and retirees.

Life Insurance

This fund is used to account for the County's life insurance and accidental death and dismemberment insurance for employees.

Workers' Compensation

This fund is used to account for the County's self-insured workers' compensation program.

<u>Unemployment Insurance</u>

This fund is used to account for the County's self-insured unemployment insurance program.

Property and Casualty Risk

This fund is used to account for the County's self-insured property and casualty risk program.

Transportation

This fund is used to account for motor pool repair and maintenance, and for other transportation services, which are provided to departments and agencies on a cost-reimbursement basis.

Reprographics

This fund is used to account for printing and graphic services, which are provided to departments and agencies on a cost-reimbursement basis.

Information and Technology

This fund is used to account for applications development and support, voice and data services, and desktop support to departments and agencies on a cost-reimbursement basis.

FIDUCIARY FUNDS

Fiduciary funds are used to account for assets held by the County in a trustee or custodial capacity on behalf of outside parties, including individuals, private organizations, or other governments. Under GASB Statement No. 84, a fiduciary fund must meet the following criteria: (1) assets are controlled or directed by the government, (2) assets are not derived from the government's own source revenue or government-mandated nonexchange transactions, and (3) assets have one or more of the following criteria:

- a. Assets are administered through a trust, and the government is not a beneficiary. The trust must be dedicated to providing benefits to the recipients and legally protected from creditors of the government.
- b. Assets are for the benefit of organizations or other governments that are not part of the financial reporting entity.
- c. Assets are for the benefit of individuals and are not administered in any way by the government.

PRIVATE-PURPOSE TRUST FUNDS

Public Administration Trust Funds

These funds are used to account for trust arrangements where the principal and income benefits individuals, private organizations, or other governments. Examples of private-purpose trusts include unidentified funds, unclaimed prisoner funds, decedents' property held for escheatment, and various funding services to finance permanent supportive & affordable housing.

Orange County Redevelopment Successor Agency (Successor Agency)

The Orange County Development Agency (OCDA) was dissolved effective February 1, 2012 in accordance with ABx1 26. A successor agency was designated as the successor entity to the former redevelopment agency in accordance with Health and Safety Code 34173. The Orange County Redevelopment Successor Agency holds the assets of the dissolved OCDA pending liquidation and distribution.

PENSION AND OTHER POSTEMPLOYMENT BENEFIT (OPEB) TRUST FUNDS

Extra-Help Defined Benefit Plan

This fund is used to account for the retirement plan for employees working less than half-time or as extra-help. This retirement plan was closed to new participants as of February 28, 2002. The eligible employees of these plans are not covered by OCERS.

Extra-Help Defined Contribution Plan

This fund is used to account for the defined contribution retirement plan for extra-help and part-time employees. This plan replaced the Extra-Help Defined Benefit Retirement Plan and was effective for new employees on March 1, 2002. Effective February 10, 2015, the plan also includes new employees who have attained age 60 at date of hire, who waive membership in OCERS, and do not have funds on deposit with OCERS and otherwise meet the requirements under OCERS' regulations and state law to waive membership in OCERS. The eligible employees of these plans are not covered by OCERS.

401(a) Defined Contribution Plan

This fund accounts for the 401(a) defined contribution plan, which was established in January 1999 for eligible employees, including the members of the Board, certain executive managers, certain administrative managers once classified as confidential and grandfathered in the plan, attorneys represented by the Orange County Attorney's Association and certain other employee classifications as defined in the plan document. The plan was closed to the attorneys effective June 24, 2005. The plan was closed to grandfathered administrative managers and to all new administrative managers, effective December 28, 2012 and June 23, 2016, respectively.

1.62% at 65 Retirement, 401(a) Defined Contribution Plan

This fund is used to account for the matching 401(a) employer contributions for eligible employees in the "1.62% at 65" Retirement (OCERS) formula who voluntarily contribute to the "1.62% at 65" Retirement, 457(b) defined contribution plan. The Plan was established on May 7, 2010.

Health Reimbursement Arrangement (HRA) Plan

This fund is used to account for the employer contributions to the HRA, a defined contribution plan, which became effective on June 24, 2008 for eligible employees, including employees represented by the Association of Orange County Deputy Sheriffs and Law Enforcement Management employees as defined in the plan document. The HRA now also includes employees represented by the OCAA, the AOCDS Public Safety Unit, and the Voluntary Retirement Incentive Program.

Retiree Medical Plan 115 Trust

This fund is used to account for the annual required contributions, benefit payments, and investment losses and gains in the Retiree Medical Trust (Trust) which was established effective July 2, 2007. The Trust was established exclusively for the Retiree Medical Plan (Plan) which is a cost-sharing multiple-employer defined benefit other OPEB plan that was established on August 1, 1993 for eligible employees as defined in the plan document. The Trust and the 401(h) fiduciary component unit below represents the Plan. The Plan is reported as of December 31, 2021.

Orange County Employees Retirement System-401(h)

This fund is used to account for annual required contributions, benefit payment, and investment losses and gains in the Trust. The 115 trust described above and the 401(h) account with OCERS represents the total Plan. In accordance with GASB Statement No. 84, this fund is presented as a fiduciary component unit of the County and OCERS' separate stand-alone financial report as of December 31, 2021 can be obtained on their website at https://www.ocers.org/financial-reports.

Orange County Employees Retirement System-Pension Trust Fund

This fund is used to account for the cost-sharing multiple-employer defined-benefit pension plan operated by OCERS. In accordance with GASB Statement No. 84, this fund is presented as a fiduciary component unit of the County and OCERS' separate stand-alone financial report as of December 31, 2021 can be obtained on their website at https://www.ocers.org/financial-reports.

Orange County Employees Retirement System-Health Care Fund-OCFA

This fund is used to account for the Orange County Fire Authority (OCFA) Postemployment Health Care Plan established under IRC Section 401(h). OCERS serves as trustee of the Plan. In accordance with GASB Statement No. 84, this fund is presented as a fiduciary component unit of the County and OCERS' separate stand-alone financial report as of December 31, 2021 can be obtained on their website at https://www.ocers.org/financial-reports.

CUSTODIAL FUNDS

Unapportioned Tax and Interest Funds

This group of funds is used to account for the collection of property taxes, and later distribution of such taxes, as well as the interest earned on them. Included are taxes collected by the County for other governmental units using the County treasury, as well as governmental units not using the County treasury, such as cities.

County of Orange Annual Comprehensive Financial Report For the Year Ended June 30, 2022 (Dollar Amounts in Thousands)

Departmental Funds

This group of funds is used by certain County officers to hold various types of cash receipts and deposits in a custodial capacity. Disbursements are made from these funds.

Orange County Employees Retirement System-OCTA

This fund is used to account for the Orange County Transportation Authority (OCTA) Health Care Plan established in accordance with Internal Revenue Code section 115. OCERS serves as trustee of the plan. In accordance with GASB Statement No. 84, this fund is presented as a fiduciary component unit of the County and OCERS' separate stand-alone financial report as of December 31, 2021 can be obtained on their website.

STATISTICAL SECTION (UNAUDITED)

The information in this section is not covered by the Independent Auditor's Report but is presented as supplemental data for the benefit of the readers of the Annual Comprehensive Financial Report. The objectives of statistical section information are to provide financial statement users with additional historical perspective, context, and detail to assist in using the information in the basic financial statements, notes to the basic financial statements, and required supplementary information to understand and assess a government's economic condition.

<u>Contents</u>	<u>Page</u>
Financial Trends These schedules contain trend information to help the reader understand how the County's financial performance and well-being have changed over time.	212
Revenue Capacity These schedules contain trend information to help the reader assess the County's most significant local revenue source, the property tax.	222
Debt Capacity These schedules offer economic and demographic indicators to help the reader understand the environment within which the County's financial activities take place.	227
Economic and Demographic Information These schedules offer economic and demographic indicators to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	232
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.	234

Source: Unless otherwise noted, the information in these schedules is derived from the Annual Comprehensive Financial Reports for the relevant year.

Notes:

Source: Orange County Assessor Department

⁽¹⁾ Article XIIIA, added to the California Constitution by Proposition 13 in 1978, fixed the base valuation of property subject to taxes at the full cash value appeared on the Assessor's 1975-76 assessment roll. The full cash value can be increased to reflect the annual inflation up to 2 percent, the current market value at time of ownership change and the market value for new construction. Estimated actual value of taxable property cannot easily be determined as the property in the County is not reassessed annually. Reassessment normally occurs when ownership changes.

⁽²⁾ Other property includes: timeshares, rural/agricultural land, unique miscellaneous, mineral rights, water rights and personal property and fixtures.

⁽³⁾ Unsecured roll includes properties for which taxes assessed are not a lien on real property and are not sufficient, in the opinion of the Assessor, to secure payment of taxes. It consists of improvements, business personal property, boats and aircrafts, and it can also include land and improvements that are identified as real estate of others, as defined by the Assessor (reference Revenue and Taxation Code Section 134).

Notes:

Source: Auditor-Controller, County of Orange

⁽¹⁾ Article XIIIA, added to the California Constitution by Proposition 13 in 1978, fixed the base valuation of property subject to taxes at the full cash value appeared on the Assessor's 1975-76 assessment roll. The full cash value can be increased to reflect the annual inflation up to 2 percent, the current market value at time of ownership change and the market value for new construction. Estimated actual value of taxable property cannot easily be determined as the property in the County is not respected and the market value for new construction.

determined as the property in the County is not reassessed annually. Reassessment normally occurs when ownership changes.

(2) These overlapping rates are in addition to the County General rate, but only apply to taxpayers within the borders of the school districts, local special districts, cities, and public utilities that lie within the County.

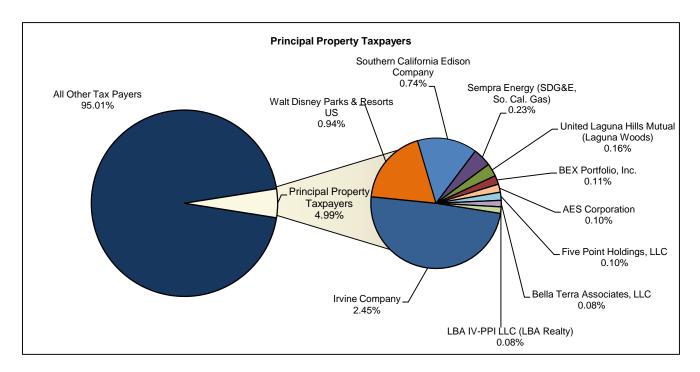

⁽³⁾ No rate was available for Public Utility in FY 2014-15.

⁽⁴⁾ The schedule is presented to show information for 10 years. However, a full 10-year trend is not currently available; the County will be adding years in the future.

Notes:

- (1) Total tax levy includes secured, supplemental, unsecured and former redevelopment agency increment, including penalties.
- (2) Total tax collections include penalties.
- (3) Total collections include collections of current year taxes and collections related to prior year levies.

 The percentage of levy represents the ratio of total collections to the taxes levied for that fiscal year.
- (4) No amounts are shown because the property taxes levied will be collected in the following year.

⁽¹⁾ Details regarding the County's outstanding debt can be found in Note 11, Long-Term Obligations.

⁽²⁾ Changed in FY 2021-22 from Capital Lease Obligations to Financed Purchase Liability due to the implementation of GASB Statement No. 87.

⁽³⁾ Financed Purchase Liability arises from lease agreements without a termination option which transfer ownership of the underlying asset to the lessee at the end of the contract

⁽⁴⁾ See demographic and economic statistics schedule for personal income and population data.

⁽⁵⁾ Beginning FY 2013-14, outstanding debt does not include deferred amount on refunding due to implementation of GASB Statement No. 65. Prior years have not been restated.

⁽⁶⁾ Lease Revenue bonds and Airport Revenue bonds include unamortized premiums and discounts.

⁽⁷⁾ Prior year balances for the Civic Center Facilities Master Plan Financing have been combined with Lease Revenue Bonds per GASB Statement No. 88.

Note:

Source: Auditor-Controller, County of Orange

⁽¹⁾ Assessed Value includes the State assessed properties.

⁽²⁾ The amount of the general obligation bonded indebtedness the County can incur is limited by law to 1.25 percent of the equalized assessment property tax roll. In order for the County to issue general obligation bonds secured by ad valorem taxes on real property, California Constitution Article XIIIA, section 1 requires the approval of 2/3 of the voting on the proposition.
