INTRODUCTION

The South Orange County Public Financing Authority (the “Authority” or the “Issuer”) hereby provides its annual report (the “Annual Report”) for the fiscal year ended June 30, 2023 in connection with the following Bonds, which are secured and repaid by special tax revenues collected in Community Facilities District Nos. 99-1, 2000-1 and 2001-1 of the County of Orange (each a “District” and together the “Districts”).

Bond Issue:

1. South Orange County Public Financing Authority Special Tax Revenue Refunding Bonds (Ladera Ranch) 2018 Series A

Annual Report:

The Authority’s Annual Report required by the Continuing Disclosure Certificate (the “Disclosure Certificate”) dated February 1, 2018 with respect to the Bonds for the Fiscal Year ended June 30, 2023 is attached hereto.

Other Matters:

This Annual Report is provided solely for purposes of the Disclosure Certificate. The filing of this Annual Report does not constitute or imply any representation (i) that all of the information provided is material to investors, (ii) regarding any other financial, operating or other information about the County, the Authority or the Bonds, or (iii) that no changes, circumstances or events have occurred since the end of the Fiscal Year to which this Annual Report relates (other than as contained in this Annual Report), or that no other information exists, which may have a bearing on the Authority’s financial condition, the security for the Bonds, or an investor’s decision to buy, sell, or hold the Bonds. The information contained in this report has been obtained from sources which are believed to be reliable, but such information is not guaranteed as to accuracy or completeness. No statement in this Annual Report should be construed as a prediction or representation about future financial performance of the Authority.

While the financial statements of the County (which includes the Authority) for Fiscal Year ended June 30, 2023 have been incorporated herein by reference in order to comply with SEC Rule 15c2-12, the Bonds are a limited obligation of the Authority and neither the faith and credit nor the taxing power of the County is pledged to the payment of the Bonds. No income, receipts, funds (including the County general fund) or moneys of the County are pledged to the repayment of the Bonds.

SECTION 4- CONTENT OF ANNUAL REPORT

[1] Per the Rate and Method of Apportionment, Developed Property is property for which a building permit was issued as of January 1, 2023.

[2] Fiscal Year 2023-2024 levy equal to 60.34% of the Assigned Special Tax rates for Developed Property.

[3] Allocated based on Fiscal Year 2023-2024 levy.

[4] As of September 2, 2023. Allocated based on Fiscal Year 2023-2024 levy.

[5] Based on assessed value as of January 1, 2023 provided by the County of Orange Assessor. Assessed value is calculated as the sum of land value and improvement value.

[6] Calculated by dividing Assessed Value by Total Direct and Overlapping Debt.

[7] Consists of a 220-unit apartment complex.

[8] One dwelling unit (APN 741-212-21) is now owned by an HOA (Ladera Ranch Maintenance Corp) and is classified as a non-taxable entity by the County for FY 2023-2024. For purposes of this analysis, the assessed value of \$800,837 for such parcel was not included. The parcel will be taxed again once it is sold to a taxable entity in the future.

[9] Totals may not sum due to rounding.

ANNUAL COMPREHENSIVE FINANCIAL REPORT

**ANNUAL
COMPREHENSIVE
FINANCIAL
REPORT**

FOR THE YEAR ENDED JUNE 30, 2023

ANDREW N. HAMILTON, CPA, AUDITOR-CONTROLLER

Each year the Orange County Auditor-Controller's Office releases the County's Annual Comprehensive Financial Report (ACFR) for the prior fiscal year ending June 30. The document is prepared in accordance with Sections 25250 and 25253 of the Government Code of the State of California, to be released no later than December 31. An outside auditing firm, Eide Bailly LLP, is retained to audit the report. The Auditor-Controller Financial Reporting Unit works tirelessly to ensure the report is not only on time, but is of the highest quality. Last year's report received, once again, the Government Finance Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting. This award is a prestigious national award recognizing excellence in State and local government financial reporting.

For the past six years, the ACFR has highlighted one of the County's various agencies through a representative photograph on the cover and interior tabs of the report. This year, our theme examines the County's Budget & Finance Office. The Budget & Finance Office is a division under the County's Chief Financial Officer and is responsible for the annual budget and strategic financial planning process and managing the County's public debt programs. The functions carried out are aligned with the Board of Supervisor's adopted priorities, which include stabilizing the budget, preparing for contingencies, and addressing and funding agency infrastructure.

This theme is also carried over into the ACFR's accompanying Citizens' Report, known as the Popular Annual Financial Report (PAFR). We hope you enjoy this look at one of the less visible, but vitally important departments within the County.

In addition to the ACFR, the Auditor-Controller's Office has three Satellite units at John Wayne Airport, OC Community Resources and OC Waste & Recycling with teams also working tirelessly to produce stand-alone financial statements which are audited by the outside auditing firm, Eide Bailly LLP. The statements give a financial picture of those agencies' individual finances for the County's two Enterprise Funds, John Wayne Airport and OC Waste & Recycling, as well as for the County's Redevelopment Successor Agency, a Private-Purpose Trust Fund. To view the stand-alone Financial Statements, please visit ocauditor.gov and select "Component Unit Financial Statements" under the Reports tab.

Thank you to all the employees of the Auditor-Controller's Office for their ongoing hard work and dedication to the residents of Orange County.

December 20, 2023

The Citizens of Orange County:

The Annual Comprehensive Financial Report (ACFR) of the County of Orange (County), State of California, for the year ended June 30, 2023, is hereby submitted in accordance with the provisions of Sections 25250 and 25253 of the Government Code of the State of California. The report contains financial statements that have been prepared in conformity with United States generally accepted accounting principles (GAAP) prescribed for governmental entities. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the County. A comprehensive framework of internal controls has been designed and established to provide reasonable assurance that the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and changes in financial position of County Funds. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatements.

The ACFR has been audited by the independent certified public accounting firm of Eide Bailly LLP. The goal of the independent audit was to provide reasonable assurance about whether the basic financial statements of the County for the year ended June 30, 2023, are free of material misstatement. The independent certified public accounting firm has issued an unmodified (clean) opinion on the County's basic financial statements as of and for the year ended June 30, 2023. The independent auditor's report is located at the front of the financial section of this report.

This letter of transmittal is designed to complement and should be read in conjunction with Management's Discussion and Analysis (MD&A) that immediately follows the independent auditor's report. MD&A provides a narrative introduction, overview, and analysis of the basic financial statements.

PROFILE OF THE GOVERNMENT

The County, incorporated in 1889 and located in the southern part of the State of California, is one of the major metropolitan areas in the state and nation. The County occupies a land area of 798 square miles with a coastline of 42 miles serving a population of over 3 million. It represents the third most populous county in the state and ranks sixth in the nation.

The County was incorporated as a general law County and converted to a charter county on March 5, 2002, with voter approval. In November 2008, voters approved Measure J, which added Article III, Section 301 to the Charter of Orange County requiring voter approval for increases in future retirement system benefits of any employee, legislative officer, or elected official of the County in the Orange County Employees Retirement System (OCERS) or any successor retirement system, with the exception of statutorily-established cost of living adjustments, salary increases, and annual leave, vacation, or compensatory time cash-outs. In June 2012, voters approved Measure B, which requires that any Orange County Supervisors elected on or after June 5, 2012 can enroll only in the minimum pension option, i.e., the least lucrative pension plan, offered to Orange County employees. At present, the minimum pension plan is a 1.62% at 65 pension plan. In June 2016, voters approved Measure B, which requires the County Auditor-Controller to review any Countywide measure placed on the ballot and prepare a fiscal impact statement.

The County is governed by a five-member Board of Supervisors (Board), who each serve four-year terms, and annually elect a Chair and Vice-Chair. The Supervisors represent districts that are each approximately equal in population. The district boundaries were revised effective January 6, 2022, incorporating the results of the 2020 census. A County Executive Officer (CEO) oversees 15 County departments, and elected officials serving as department heads oversee six County departments. The Supervisorial Districts map below shows the boundaries of Orange County and the areas governed by each member of the Board.

The County provides a full range of services Countywide, for the unincorporated areas, and contracted services for cities. These services are outlined in the following table:

| Countywide Services | | Unincorporated Area Services | |
|--|--|-------------------------------------|---------------------------|
| Affordable Housing (Housing Authority) | Veterans Services | Animal Care & Control | Libraries |
| Agricultural Commissioner | Indigent Medical Services | Flood Control | Parks |

In addition to these services, the County is also financially accountable for the reporting of component units, which can be either blended or discretely presented. Blended component units, although legally separate entities, are, in substance, part of the County's operations and, therefore, data from these component units is combined with data of the County. The County has two discretely presented component units, the First 5 Orange County and CalOptima Health, which require discrete presentation in the government-wide financial statements. The County has one fiduciary component unit, OCERS. The following entities are presented as blended component units in the basic financial statements for the year ended June 30, 2023: Orange County Flood Control District (OCFCD), Orange County Housing Authority, Orange County Public Financing Authority, South Orange County Public Financing Authority, Capital Facilities Development Corporation, Orange County Public Facilities Corporation, County Service Areas, Special Assessment Districts, Community Facility Districts, and In-Home Supportive Services Public Authority. Additional information on these entities can be found in Note 1, Summary of Significant Accounting Policies, in the Notes to the Basic Financial Statements Section.

The County maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board. Activities of the General Fund and most of the Special Revenue, Debt Service, Capital Projects and Permanent Funds are included in the annual appropriated budget. The level of budgetary control (that level which cannot be exceeded without action by the Board) is at the legal fund-budget control-unit level, which represents a department or an agency. Budget-to-actual comparisons are provided in this report for each Governmental Fund for which an appropriated annual budget has been adopted. The Budgetary Comparison Statements for the General Fund and major Special Revenue Funds are part of the Basic Financial Statements. The Budgetary Comparison Schedules for the nonmajor Governmental Funds with appropriated annual budgets are

presented in the Supplemental Information Section for Governmental Funds. The County also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered appropriations do not lapse at year-end; outstanding encumbrances are carried forward. Additional information on the budgetary process can be found in Note 1, Summary of Significant Accounting Policies, in the Notes to the Basic Financial Statements Section.

The County’s eGovernment website portal at <http://www.ocgov.com> provides online services and extensive information about County government to Orange County residents, businesses, partners, and visitors. The County’s website provides information and online services to the public 24/7. It includes information about the Board, County job listings, purchasing bid solicitations, assessment appeals, links to court information and local court rules, voter information, County permits and forms, public safety, health and human services programs and financial information. The site also provides several online services, including live and archived Board meeting videos, the ability to order birth, death and marriage certificates, search fictitious business names, find polling locations and election results, how to license pets, pay property taxes and subscribe to receive emergency alerts. The County continuously strives to improve a constituent’s ability to conduct business online with the County.

FACTORS AFFECTING ECONOMIC CONDITION

Local Economy

Two indicators of the County economy are: how well the local economy performs relative to surrounding counties, the State, and the Nation and its own historical trends. This section provides data for various indicators that summarize the current and projected outlook of the County’s economy.

Various forecasts indicate that 2023 will be a year of economic slowdown. In terms of historical trends, current and projected activity suggests slow but positive economic growth at the local level which will generally follow national and state trends.

The County’s unemployment rate continues to be lower than surrounding Southern California counties, the State, and the Nation (see Table 1).

According to the California Department of Finance, inflation, as measured by the Consumer Price Index (CPI), is expected to be 5.7% for Orange County, lower than both the State and U.S. at 5.9% and 6.5%, respectively, in FY 2022-23 (see Table 2).

Table 1: Unemployment Rate Comparison

Table 5 shows various internal indicators reflecting a slight decline in the County’s economy. The unemployment rate increased from 3.2% in July 2022 to 3.6% in July 2023. According to the June 2023 Chapman University Economic & Business Review, job growth is expected to increase by 1.4% in 2023; median home sales price for existing single-family detached homes are forecasted to decrease by 8.8% in 2023, significantly lower than the 12.5% increase in 2022; and sales tax receipts are forecasted to increase by 3.0% in 2023. In summary, the economy in Orange County is forecasted to show a modest slowdown.

Long-Term Financial Planning

Strategic Financial Plan (SFP): In March 1997, the Board initiated an annual financial planning process that is a key component of the County’s commitment to fiscal responsibility, accountability, and efficiency. The plan includes Countywide initiatives and projections of County general purpose revenues, departmental projections of operating costs, revenues, capital and information technology needs for current programs and services and anticipated caseload changes. New programs, services and capital projects are identified and prioritized on a Countywide basis with financial impacts identified over the plan period. The plan covers a five-year period and includes a ten-year analysis of operating costs in cases where new programs and facilities are assessed to ensure the ability to pay for long-term operational costs.

The 2023 SFP was presented to the Board on December 19, 2023. The 2023 SFP is the foundation in planning for continued financial stability and is augmented by the monitoring and establishment of budgetary control via the budget reporting process and adoption of the Annual Budget. The five-year SFP projections indicate that General Purpose Revenue will grow, on average, about 3.0% annually. The moderate growth rate for revenue, coupled with the

increasing cost of doing business, will require the County to carefully manage programs and service levels. The County continues to believe that sustained job growth and reduced unemployment are the key indicators for economic growth.

In order to address identified budget issues and prepare for the continued uncertainty of the general and local economy, the following represent some of the actions taken or identified as options for early planning. Early action is critical to ensure baseline services are met and that the County continues to experience financial stability.

- The SFP does not provide an increase in Net County Cost for the five years presented, FY 2024-25 through FY 2028-29. General Purpose Revenue growth will be strategically allocated through the budget process consistent with the priorities identified in the SFP
- A continuation of the policy to not backfill State budget reductions
- Internal financing program to support major capital and information technology projects
- Maintenance of prudent levels of General Fund and Contingency Reserves

The County's long-term financial planning focuses on the current and anticipated uses of County resources in order to maintain or expand operations, address legislative impacts, and implementation of countywide initiatives. Major initiatives continue to focus around OC CARES and the various systems of care provided in the County, addressing homelessness and affordable housing, the Master Plan for Aging initiatives, and addressing sustainability initiatives.

James A. Musick Facility Project: The James A. Musick Facility Project is a multi-year project that includes construction of two inmate housing units with approximately 512 beds and two inmate rehabilitation, treatment, and housing units with approximately 384 beds. The project also includes administrative and support space, a warehouse/maintenance building, and infrastructure and site improvements. Housing units are designed for direct supervision of minimum and medium security inmates, providing a program aimed at reducing recidivism rates and increasing public safety. Programming includes specialized education and enhanced vocational tracks that individuals in custody will be able to participate in that meet their specific needs. The programming services will include three separate tracks which inmates can voluntarily participate in. The educational track will provide assistance with a high school diploma or HiSet, thereby increasing reading, writing, and math skills. The enhanced vocational track will focus on technology-based programming, food service based programming, and skill trade programming. The Reentry track will focus on helping an individual with life skills and changing negative thought processes. Each inmate will have a Reentry Coordinator working with them through their time in custody to ensure that they are meeting their goals. In addition, an individualized discharge plan will be created to ensure direct linkage to service providers immediately post release.

On May 5, 2020, the County awarded a construction contract to Bernards Bros., Inc. for the project in the amount of \$261,118 and also approved a five percent construction contingency amount of \$13,056. An additional five percent contingency was approved in January 2023 for \$13,056. The total project construction cost is estimated to be \$318,000 including, owner-carried insurance, construction management, special inspections and utility fees. The cost is funded by \$180,000 from AB900 and SB 1022 State funding with the remaining funds coming from the County's General Fund. As of September 2023, the County has received a total of \$154,734 in reimbursements from the State. The project is 97% complete and is scheduled for substantial completion by December 2023.

Orange County Civic Center Facilities Master Plan: In 2013, the Board adopted an ordinance approving a public-private partnership to develop the Civic Center Facilities Strategic Plan (Master Plan). The Master Plan included several phases of development with the first phase focused on the general government administration buildings in the center of the Civic Center area.

On April 25, 2017, the Board approved the construction of the new County Administration South (CAS) and establishment of a nonprofit corporation as it related to the financing of CAS and the Master Plan. CAS was completed in November 2019 and is a state-of-the-art facility that has been LEED Certified, meaning it meets the extensive criteria signifying a healthy, highly efficient, cost saving, green building. CAS is occupied by several County departments and includes a one-stop shop public counter where the public has access to services from multiple departments. CAS was financed through a Board adopted ordinance on May 9, 2017, identifying the legal authority for the issuance of bonds, approving a Ground Lease, a Facility Lease, and forming the Capital Facilities Development Corporation (Corporation). In total, the California Municipal Finance Authority (CMFA) issued \$152,400 Lease Revenue Bonds and pursuant to a loan agreement, the CMFA loaned a total of \$175,340 to the Corporation for the construction. Upon filing

the certificate of substantial completion, the County commenced base rental payments, under the Facility Lease, to repay the loan to the CMFA, which pays debt service to the bondholders.

On June 26, 2018, the Board approved the planning and design of a new County Administration North (CAN), within the Civic Center, as a twin building of the above CAS Building; a six-story, approximately 254,000 square foot, with 332 underground parking spaces and an additional 196 surface parking spaces. CAN was completed in July 2022 and is occupied by several County departments, including the County Executive Office and Board of Supervisors and includes a Board Hearing room. Similar to CAS, CAN was also financed through a Board adopted ordinance identifying the legal authority for the issuance of bonds, approving a Ground Lease, a Facility Lease, and using the Corporation. The CMFA issued \$185,705 Lease Revenue Bonds and loaned a total of \$212,304 to the Corporation, pursuant to a loan agreement, for the construction. Upon filing the certificate of substantial completion, the County commenced base rental payments in FY 2022-23, under the Facility Lease, to repay the loan to the CMFA, which pays debt service to the bondholders.

Additional phases included in the Master Plan are in the planning phases.

Be Well Campuses: County property across from the Great Park in Irvine has been identified as the second location for the Be Well Irvine campus to be established through a public-private partnership with Mind OC, with a long-term ground lease established. The development plans for this campus currently include three phases under the option agreement. The first phase, which is anticipated to be implemented in 2025, will house crisis stabilization units for adults and adolescents, a sobering center, adult residential treatment services, and children, youth and families outpatient clinic. The second phase will include perinatal substance use residential services for pregnant and parenting women and their children up to age 10, a youth and adolescent substance use residential program for both male and female and expanded outpatient and intensive outpatient services for children and youth and perinatal women. The third and final phase will include education and training, a community meeting and events center, youth and senior centers and interfaith shared-use space. The campus is committed to serving all residents of Orange County, by providing a full continuum of services from prevention through treatment, as outlined below:

- Be Well Center for behavioral health and substance use services: A continuum of program offerings from crisis care, extended treatment, to outpatient services, for youth, adolescents, and adults, to support clients wherever they are in their recovery journey.
- Wellness Navigation Center: A single point of entry navigation service to help residents find and connect with a broad range of services across the Orange County system, including housing support, suicide prevention, substance use, depression and related disorders, domestic violence, sexual assault, grief, isolation, child and elder concerns and critical incident debriefings.
- Community and Family Center: A multi-entity, multicultural, multi-faith collective including local Orange County public and private health systems and community-based organizations, integrating health clinics with youth and community education, enrichment and experiential learning spaces.

The Be Well Irvine campus is currently under construction for Phase 1, and in the planning and design phase for Phase 2 and Phase 3. In consideration of the public benefit afforded by the Be Well Campus and Mind OC's operation of the project, the annual rent will be one dollar.

OC CARES Initiatives: OC CARES links the five systems of care in the County (behavioral health, healthcare, community corrections, housing, and benefits & support services) to provide full care coordination and services to address immediate and underlying mental health issues and work towards self-sufficiency. Currently, projects and programs are guided by the OC CARES, Justice Through Prevention and Intervention 2025 Vision overseen by the Orange County Criminal Justice Coordinating Council. A focus is on increasing diversion options from pre-arrest to reintegration that involve treatment, specialty courts, and supportive services. Below is a listing of the significant projects in progress:

- Behavioral Health Public Safety Response Team: The expansion of the behavioral health response team, implemented with the approval of the FY 2023-24 budget, consists of specialized Sheriff Deputies and mental health clinicians to support calls for service with a mental health or substance use nexus and provide diversion options, conduct research, and serve as a resource for the community.

- Coordinated Reentry System: Developing and implementing coordinated reentry services including regional reentry offices, mobile units, centralized adult reentry center with transitional housing, and a workforce reentry program to increase accessibility and linkages to services to meet the needs of the justice-involved population for successful reintegration.
- Juvenile Corrections Campus: Revitalize the existing Juvenile Hall Campus to establish a Youth Transition Center that fully utilizes existing space to provide camp programming, education services, health and mental health services, and housing for juvenile and transition aged youth offenders, including those realigned from the State Correctional System.
- Housing for Transitional Aged Youth (TAY): Establish transitional and permanent supportive housing and placement services for youth and TAY involved in the juvenile justice system that includes treatment for substance use, mental health issues or for those involved in the Commercial Sexual Exploitation of Children population.
- Access to Permanent Supportive & Affordable Housing: In alignment with the updated Housing Funding Strategy: 2022 Update (HFS Update), efforts continue to develop subsidized housing units that combine affordable housing assistance with voluntary support services to address the needs of chronically homeless individuals. The HFS Update outlines the recommendations for a strategic approach to achieve an updated goal of developing 2,396 supportive housing units from 2022 to 2029. The updated goal reflects the progress under the previous 2018 Strategy as well as the additional supportive housing units needed over the next seven-year period based on the 2022 Point in time homeless count.

Relevant Financial Policies

To achieve the goal of providing outstanding and cost-effective regional public services, the County applies sound management practices and policies that enhance the quality of life of its citizens. Such financial management practices have been identified by the Government Finance Officers Association (GFOA) of the United States and Canada and recognized by Fitch Ratings as best practices that promote financial soundness, efficiency in government, and solvency in public finance.

General Fund Reserves Policy

The County General Fund Reserves Policy provides guidance in the creation, maintenance and use of reserves. The policy covers formal and informal reserves, and includes provisions for reserves such as appropriations for contingencies, reserve-like appropriations, and reserve-like funds held by others such as the OCERS Investment Account. The policy also recognizes whether funds are legally required or discretionary or have special restrictions. The reserves policy is maintained and updated, as needed, through the County's annual SFP process. The reserves policy targets and balances are included in the annual SFP document.

The General Fund Reserves policy is designed to provide flexibility to the County as well as the following:

- Resources to address unanticipated or cyclical economic conditions
- Resources for emergencies and/or catastrophic events
- Mitigation of the volatility of revenues and expenditures in managing temporary cash flow shortages
- Capacity to cover unexpected large one-time expenses and opportunities
- Capacity to fund capital investments
- Capacity to minimize borrowing costs
- Capacity to provide some level of protection against statutory changes to County revenues and impacts from federal and state actions

The County has a variety of reserve funds available to both the General Fund and Non-General Funds including:

- Fund Balance Assigned for Contingencies
- Fund Balance Assigned for Reserve Target
- Reserve-Like Funds
- Reserve-Like Appropriations
- Department-Type Reserves

All of the previously mentioned are reserves normally modified at the time of budget adoption (Government Code Section 29085) or at fiscal year-end. Changes to reserve amounts at other times require a 4/5 vote of the Board. A 4/5 vote is also required to make such reserves available for appropriation to expend the funds, if needed, during the fiscal year (Government Code Section 29130).

Reserve Targets and Descriptions

Under GFOA recommended practice, the County establishes an overall reserve target and allocates the calculated target among the classes of obligated fund balances as appropriate. The County may fund more or less to each reserve class for a variety of reasons, such as its current financial condition, the need to set aside for particular goals or directives, the need to bridge one-time gaps, etc. The goal is to ensure a prudent reserve balance that is maintained and replenished on a regular basis. In implementing the GFOA’s best practice, the County elected to establish a funding target based upon two months of General Fund operating revenues.

Contingencies

The purpose and use of this reserve is to cover unanticipated and severe economic downturns, major emergencies, or catastrophes that cannot be covered with existing appropriations. A significant event could create the need for a higher funding level of this reserve. The target amount for this reserve is 15% of ongoing annual General Purpose Revenues (excluding Fund Balance Unassigned and one-time amounts and transfers).

The following table summarizes the County’s financial management practices:

| Relevant Financial Policies | |
|---|---|
| Multi-Year SFP | The County’s SFP is based on a five-year financial forecast and includes a 10-year analysis of operating costs in cases where new programs and facilities are recommended to ensure the ability to pay for long-term operational costs. Performance measures and strategies are key elements of the SFP process. |
| Five-Year Capital Improvement Plan | The County’s five-year Capital Improvement Plan (CIP) is a long-term list of significant projects funded by the General Fund in the Capital Projects budget. It also includes the five-year capital program for Non-General Fund agencies. The CIP aids the County in its assessment of the best use of funds available in order to establish and prioritize its capital asset goals, while maintaining long-term financial stability. |
| Information Technology Projects | The five-year Information Technology Plan (ITP) is a compilation of significant IT projects including upgrades or replacements of existing systems, greater or equal to \$150 and less than \$1,000 in any one fiscal year of the five years in the plan. Costs for ongoing system support and maintenance are included. The ITP is a tool used by the County to assess IT projects, leverage overlap, and prioritize the use of County General Funds available to IT projects. |
| Mid-Year Budget Report | The County Executive Office issues mid-year budget reports that provide the Board, County departments, members of the public, and other interested parties with an overview of the current status of budgeted revenues and expenditures, total budgeted positions and various departmental issues requiring adjustments to the County’s budget. |

| Relevant Financial Policies (Continued) | |
|--|---|
| Annual Budget Policies and Guidelines | The Annual Budget reflects the County's disciplined approach to fiscal management and is consistent with the County's SFP process. Department budgets are consistent with the priorities and operations plans contained in the SFP. Departments use these planning processes, along with outcome indicators, to evaluate programs and redirect existing resources as needed for greater efficiency to reduce costs and minimize the need for additional resources. |
| Fund Balance Reserve Policy | The County General Fund currently contains formal and informal reserves, appropriations for contingencies, appropriated reserve-type funds, and reserves held by others. The purpose of these reserves is to protect community programs and services from temporary revenue shortfalls and provide for unpredicted, sudden and unavoidable one-time expenditures. |
| Contingency Planning Policy | <p>The County's General Fund maintains a reserve for contingencies, which was established through the SFP process. The target amount for this reserve is 15% of ongoing annual General Purpose Revenues (excludes fund balance unassigned and one-time amounts and transfers), or \$155,430. This compares to the GFOA guidelines for funding contingencies at 15% or higher. The August 31, 2023 balance is \$155,430, at target.</p> <p>In addition to the reserve for contingencies, the County budgets an annual appropriation for significant unanticipated emergencies, catastrophes, one-time expenditures and opportunities of no less than \$10,000 in the General Fund.</p> |
| Debt Disclosure Practices | The County presents a set of debt disclosures in the County's adopted Budget document and the ACFR, as well as Continuing Disclosure Annual Reports on its website and the Electronic Municipal Market Access (EMMA) repository. |
| Pay-as-you-go Capital Funding | The County's long-term practice has been to use pay-as-you-go funding for capital projects whenever possible. The use of systematic long range financial planning assists in making fiscal decisions such as debt vs. pay-as-you-go capital project financing. The SFP forecasts sources of the County's revenue and operating expenses and incorporates a list of previously identified and prioritized projects that will benefit the citizens of the County. The financial planning for capital projects considers the County's limited funding sources, the capital and operating costs, useful life of projects, and good business practices. |
| Credit and Debt Management Policy | The County's long-term practice has been to rapidly repay debt when practicable. The Policy is intended to maintain long-term financial stability by ensuring that its long-term financing commitments are affordable and do not create undue risk or burden, achieve and maintain high credit ratings, minimize debt service interest expense and issuance costs, provide accurate and timely financial disclosure and reporting, and comply with applicable State and Federal laws and financing covenants. |
| Public Financing Advisory Committee | The Public Financing Advisory Committee (PFAC) is responsible for the review and recommendation of debt financing proposals. The Board may amend, modify or rescind any PFAC recommendation by a four-fifths (4/5) vote. The PFAC membership consists of the following: five public voting members, each representing a district, and three Ex-Officio County government members (the County Executive Officer, the elected Treasurer-Tax Collector, and the elected Auditor-Controller) (non-voting). |

| Relevant Financial Policies (Continued) | |
|---|--|
| Audit Oversight Committee | The Audit Oversight Committee (AOC) is an advisory committee to the Board that provides oversight of the activities of the County's Internal Audit Department and the County's external audit coverage including financial reporting and federal and state audit activities. The AOC membership includes the Chair and Vice-Chair of the Board, the County Executive Officer, the elected Treasurer-Tax Collector (non-voting), the elected Auditor-Controller (non-voting), and five private sector members appointed by the Board. The private sector members are appointed by the Board and may be reappointed or removed by the Board. |
| Treasury Oversight Committee | <p>The Treasury Oversight Committee (TOC) is responsible for reviewing and monitoring the Investment Policy Statement prepared annually by the elected Treasurer-Tax Collector. Changes to the IPS are required to be reviewed by the TOC prior to be presented for review and approval by the Board. In addition, the TOC causes an annual audit of the County's compliance with the IPS and various Government Code sections. The TOC shall also investigate any and all irregularities in the treasury operations, which become known to the TOC. The TOC has an approved policy to investigate and report such irregularities.</p> <p>The TOC membership consists of the following: the elected Auditor-Controller, the County Executive Officer, the elected County Superintendent of Schools, or their respective designees, and four public members. The public members shall be nominated by the elected Treasurer-Tax Collector and confirmed by the Board.</p> |
| 24/7 Fraud Hotline | The Fraud Hotline is part of an ongoing fraud detection and prevention effort. The Fraud Hotline is intended for use by County employees, the general public, or vendors for reporting suspected waste, fraud, violations of County policy or misuse of County resources by vendors, contractors or County employees. https://ocgov.com/how-do-i/report/fraud-waste-abuse (714) 834-3608 |

Major Initiatives

Funding Equity: The County hovers at the bottom of funding for counties statewide, receiving the lowest percentage of property taxes in California to support services, about 5 cents on the dollar; while the state average is 14 cents. The formula for retaining local property taxes in the counties where they were collected was set in 1978 and has not been updated since. This systematically disadvantages the County's ability to provide services to its diverse population.

The County's predicament does not have easy or implementable solutions. In looking to legislative solutions, a change in methodologies or shifts in funding formulas could affect other counties receiving more of their share in taxes. Therefore, the answer to assuring funding equity for the County lies in increasing funding, programs, and partnerships that specifically benefit County programs and services. When the state shifts or adds responsibilities at the county level, the County will seek enough funding for those programs to ensure their success and cover costs. The County's robust legislative agenda seeks creative and substantive ways to assure our residents are provided with their fair share of the taxes they pay to support the programs and services they deserve.

Labor Agreements: Most County employees are represented by one of 21 bargaining units, which are separated into eight labor organizations. The principal organization is the Orange County Employees Association (OCEA), which represents six bargaining units totaling about 11,196 members in budgeted positions. The next largest unions are the Association of Orange County Deputy Sheriffs (AOCDS), which represents four bargaining units totaling about 2,929 members and the American Federation of State, County, and Municipal Employees (AFSCME) at about 1,532 members. All contracts had terms ending June 30, 2023; however, five labor unions, which include OCEA, Orange County Attorney's Association, Orange County Managers Association, International Union of Operating Engineers, and the American Federation of State and Municipal Employees for which four successfully negotiated new three-year

labor contracts through June 2026. As of December 19, 2023, negotiations are continuing with the one labor organization.

AWARDS AND ACKNOWLEDGEMENTS

GFOA Awards: The GFOA awarded the Triple Crown Medallion, which recognizes that the County received all three GFOA Awards.

The Certificate of Achievement for Excellence in Financial Reporting for its ACFR for the year ended June 30, 2022; this represents the County's 28th consecutive award. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized ACFR, whose contents conform to program standards. Such an ACFR must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to meet the Certificate of Achievement Program's requirements and we will submit it to the GFOA to determine its eligibility for another certificate.

In addition, the County received the GFOA Award for Outstanding Achievement in Popular Annual Financial Reporting for its Popular Annual Financial Report (PAFR) titled the "OC Citizens' Report" for the year ended June 30, 2022; this represents the County's 20th consecutive award. The award is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports. In order to be awarded, a government must publish a PAFR that reflects the program standards of creativity, presentation, understandability, and reader appeal. The "OC Citizens' Report" is available for viewing ocauditor.gov.

The GFOA also awarded a Distinguished Budget Presentation Award to the County for its FY 2022-23 Annual Budget; this is the County's 7th award. The award is the highest form of recognition in governmental budgeting. In order to receive the award, the entity had to satisfy nationally recognized guidelines for effective budget presentation. These guidelines are designed to acknowledge how well an entity's budget serves as a policy document, a financial plan, an operations guide, and a communications device.

Counties Financial Transactions Reporting Award: The County received the Financial Transactions Reporting Award from the State Controller's Office for its Year-End Financial Transaction Report for the fiscal year ended June 30, 2022. The award is in recognition of the professionalism demonstrated by counties in preparing accurate and timely financial reports and for those counties that meet the review criteria of the award program.

Acknowledgments: We would like to express our sincere appreciation to County staff and the staff of the certified public accounting firm of Eide Bailly LLP. We hope this report will be of interest and use to those in county government, other governmental agencies, and the public interested in the financial activities of the County of Orange.

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Orange, California (County) as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the County’s basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of other auditors, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof and the respective budgetary comparison for the General fund, Flood Control District fund, Other Public Protection fund and Mental Health Services Act fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Orange County Health Authority, a Public Agency dba Orange Prevention and Treatment Integrated Medical Assistance dba CalOptima Health (CalOptima) and Orange County Employees Retirement System (OCERS), which represent the following percentages of assets, net position/fund balances and revenues of the opinion units listed below as of and for the year ended June 30, 2023:

| | <u>Assets</u> | <u>Net Position</u> | <u>Revenues</u> |
|--|---------------|---------------------|-----------------|
| <u>CalOptima:</u> | | | |
| Aggregate discretely presented component units | 98.0% | 96.2% | 99.4% |
| <u>OCERS:</u> | | | |
| Aggregate remaining fund information | 62.8% | 64.1% | 0.0% |

Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for CalOptima and OCERS, is based solely on the report of the other auditors.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Adoption of New Accounting Standard

As discussed in Notes 2, 7 and 14 to the financial statements, the County has adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 94, *Public-Private and Public-Public Partnerships* and Statement No. 96, *Subscription-Based Information Technology Arrangements*, for the year ended June 30, 2023. Accordingly, a restatement has been made to the governmental activities and business type activities net position as of July 1, 2022, to restate beginning net position. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, and the schedules for the OCERS plan, Orange County Extra-Help Defined Benefit plan, and the Orange County Retiree Medical plan be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The combining and individual nonmajor fund financial statements and budgetary comparison schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting

and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual nonmajor fund financial statements and budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory section and statistical section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 20, 2023, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

**MANAGEMENT’S DISCUSSION AND ANALYSIS (MD&A)
 (UNAUDITED)**

This section of the County’s ACFR provides a narrative overview and analysis of the financial activities of the County for the year ended June 30, 2023. We hope that the information presented here, in conjunction with the Letter of Transmittal, provides a clear picture of the County’s overall financial status. Unless otherwise indicated, all amounts in this section are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

- Total change in net position, which is the difference between total revenues (including transfers in) and expenses (including transfers out), was \$805,092 for the fiscal year, and it increased net position by 16% from prior year.
- Long-term debt obligations increased by \$21,252 or 4% during the current fiscal year.
- The County’s governmental funds reported combined ending fund balances of \$3,733,966, an increase of \$559,035 or 18% in comparison with the prior year.
- General Fund revenues and other financing sources ended the year 9% below budget.
- General Fund expenditures and other financing uses ended the year 14% below budget.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements presented in the County’s ACFR are divided into three different sections:

- Government-wide Financial Statements
- Fund Financial Statements and Budgetary Comparison Statements
- Notes to the Basic Financial Statements

| <i>Basic Financial Statements</i> | | | |
|---|---|---|--|
| Government-wide Financial Statements | Fund Financial Statements | | |
| | Governmental Funds | Proprietary Funds | Fiduciary Funds |
| Statement of Net Position | Balance Sheet | Statement of Net Position | Statement of Fiduciary Net Position |

Government-wide Financial Statements

The government-wide financial statements consist of the following two financial statements: the Statement of Net Position and the Statement of Activities. Both of these statements were prepared using an accounting method and a measurement focus similar to those used by private-sector companies, the accrual basis of accounting and the economic resources measurement focus. The **Statement of Net Position** provides information regarding all of the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. The **Statement of Activities**, on the other hand, provides information on how the government's net position changed during the most recent fiscal year regardless of the period when the related cash or cash equivalent is received or paid. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (for example, uncollected taxes, and earned but unused vacation leave).

The Statement of Net Position and the Statement of Activities distinguish functions of the County that are principally supported by taxes (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include (1) general government, (2) public protection, (3) public ways and facilities, (4) health and sanitation, (5) public assistance, (6) education, and (7) recreation and cultural services. The business-type activities of the County include John Wayne Airport (Airport), OC Waste & Recycling, and Compressed Natural Gas (CNG).

The government-wide financial statements also provide information regarding the County's component units, entities for which the County (the primary government) is considered to be financially accountable. Blended component units, although legally separate entities, are in substance part of the County's operations; therefore, data from these component units are combined with data of the primary government. Financial information for the First 5 Orange County and CalOptima Health, discretely presented component units, are reported separately from the financial information presented for the primary government itself. Separate stand-alone annual financial reports can be obtained by accessing the County's website at the following address: ocauditor.gov. A separate stand-alone CalOptima Health annual financial report can be obtained by accessing the website at <http://wpsso.dmhc.ca.gov/fe/search/>.

Fund Financial Statements

- **Fund** - a separate accounting entity with a self-balancing set of accounts.
- Focus is on **major funds**.
- Provides information regarding the three major categories of all County funds: **governmental, proprietary, and fiduciary**.

The fund financial statements report on groupings of related funds that are used to maintain control over resources that have been segregated for specific activities or objectives. A fund is a separate accounting entity with a self-balancing set of accounts. Like other state and local governments, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of governmental and proprietary fund financial statements is on major funds as determined by the criteria set forth in Governmental Accounting Standards Board (GASB) Statement No. 34, "*Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*," and GASB Statement No. 65, "*Items Previously Reported as Assets and Liabilities*." All of the County funds can be divided into three major categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds - Governmental funds include most of the County's basic services and are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements are prepared using the modified accrual basis of accounting and current financial resources measurement focus.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Reconciliations are prepared for the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances to facilitate comparisons between governmental funds and governmental activities. The primary differences between the government-wide and fund financial statements relate to noncurrent assets, such as land

and structures and improvements, and noncurrent liabilities, such as bonded debt and amounts owed for compensated absences, financed purchases, leases, net pension liability and net Other Postemployment Benefits (OPEB) liability, which are reported in the government-wide statements but not in the fund financial statements.

The County maintains several individual governmental funds organized according to their type (General Fund, Special Revenue, Debt Service, Capital Projects and Permanent funds). Information is presented separately in the governmental funds balance sheet and in the statement of revenues, expenditures, and changes in fund balances for the General Fund, which is always a major fund, and all other major funds which may change each year depending on if they meet the major funds criteria. Information for nonmajor funds is presented in the aggregate as "Other Governmental Funds" in these statements. Individual fund data for each of the nonmajor governmental funds is presented in the Supplemental Information Section of this ACFR. The County adopts an annual appropriated budget for its governmental funds. Budgetary comparison statements and schedules have been provided for these funds to demonstrate compliance with the budget and are presented in the Basic Financial Statements and Supplemental Information Section of this ACFR, respectively.

Proprietary Funds - The County maintains two different types of proprietary funds: Enterprise funds and Internal Service funds. **Enterprise funds** are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its Airport, OC Waste & Recycling, and CNG activities. **Internal Service funds** are used to accumulate and allocate costs, such as insurance, transportation, publishing services, and information technology, internally among the County's various functions. Because these services predominantly benefit governmental rather than business-type functions, Internal Service funds have been included within governmental activities in the government-wide financial statements.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Airport and OC Waste & Recycling operations, which are both considered to be major funds of the County. Conversely, the Internal Service funds are combined into a single, aggregated presentation in the proprietary fund financial statements with the individual fund data provided in the combining statements, which can be found in the Supplemental Information Section of this ACFR.

Fiduciary Funds - Fiduciary funds include the **Trust** and **Custodial** funds and are used to account for assets held on behalf of outside parties, including other governments. Financial information for fiduciary funds is not reported in the government-wide financial statements because the resources of these funds are not available to support the County's programs. The combining statements for fiduciary funds are included in the Supplemental Information Section of this ACFR.

Notes to the Basic Financial Statements

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. To find a specific note, refer to the Table of Contents.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the County's financial position. At June 30, 2023, the County's combined net position (governmental and business-type activities) totaled \$5,852,019 an increase of 16% from June 30, 2022.

The largest component of the County's net position, which totals \$4,485,884 was **net investment in capital assets**, which represents the County's investment in capital assets, less any related outstanding debt used to acquire those assets and debt-related deferred outflows and inflows of resources. The County's capital assets are used to provide needed services to its citizens. Since the capital assets themselves cannot be used to liquidate the associated debt, the resources needed to repay the debt must be provided from other sources.

COMPONENTS OF NET POSITION

- Net Investment in Capital Assets
- Restricted
- Unrestricted

County of Orange
Annual Comprehensive Financial Report
For the Year Ended June 30, 2023
(Dollar Amounts in Thousands)

The County's **restricted** net position of \$2,004,532 represents resources that are subject to external restrictions on their use and are available to meet the County's ongoing obligations for programs with external restrictions. External restrictions include those imposed by grantors, contributors, laws/regulations of other governments, or restrictions imposed by law through constitutional provisions or legislation, including those passed by the County itself.

The **unrestricted** net position is the final component of net position. Unrestricted net position is resources that the County may use to meet its ongoing obligations to citizens and creditors. As of June 30, 2023, the County's unrestricted net position totals a deficit of \$638,397. Among governmental activities the deficit was \$1,385,230 in unrestricted net position, compared to its deficit of \$1,718,846 at June 30, 2022. The main contributor of the deficit continues to be the reporting of the County's proportionate share of net pension and net OPEB liabilities on the financial statements.

The following table presents condensed financial information derived from the government-wide Statement of Net Position:

As of June 30, 2023, the County's total assets and deferred outflows of resources increased by 7% or \$835,897 during the current fiscal year. There was an increase of \$398,748 in deferred outflows of resources, primarily due to an increase in the difference between the projected and actual investment earnings for the changes in net pension liability measurements as required by GASB Statement No. 68, "Accounting and Financial Reporting for Pensions—An Amendment of GASB Statement No. 27," (GASB Statement No. 68). In addition, capital assets increased by \$337,228, primarily due to the construction of the County Administration North, Building 14 as part of the Civic Center Facilities Master Plan and the purchase and improvements of the Bell Building to be occupied by the Sheriff-Coroner Department.

Total liabilities and deferred inflows of resources as of June 30, 2023, increased by \$30,805. Long-term liabilities increased by 63% or \$2,524,653, mainly due to an increase in the County's proportionate share of the net pension liability as a result of unfavorable returns from OCERS' investments, which was partially offset by a decrease in unearned revenue related to the funds received from the Coronavirus State and Local Fiscal Recovery Funds (CSLFRF) in the prior year and a decrease in bonds payable due to the defeasance of the Airport's 2019A and 2019B Revenue Refunding Bonds. Deferred inflows of resources decreased by 77% or \$1,728,736, mainly due to the changes in the net pension liability related deferred inflows of resources calculated as required by GASB Statement No. 68 and a decrease in the deferred payments related to leases established under GASB Statement No. 87, "Leases" (GASB Statement No. 87).

The County's net position increased by \$805,092 during the current fiscal year. Revenues for the year totaled \$6,041,721, an increase of \$397,125 from the previous year. Expenses totaled \$5,236,629, an increase of \$975,693 from the previous year.

Governmental Activities

The County's governmental activities rely on several sources of revenue to finance ongoing operations. Operating grants and contributions comprised the largest revenue source for the County, followed by property taxes. Operating grants and contributions are monies received from parties outside the County and are generally restricted to one or more specific programs such as State and Federal revenues for public assistance and for health care. Property taxes are revenues that arise from charges to real and personal property taxes that are computed by applying approved property tax rates to the assessed value of properties as determined by the County Assessor, in the case of locally assessed property and as determined by the State Board of Equalization in the case of state-assessed properties. Property taxes are levied annually, except for the supplemental property taxes, which are levied when supplemental assessment events, such as sales of property or new construction, take place.

At the end of FY 2022-23, total revenues for governmental activities, including transfers from the business-type activities, were \$5,580,346, an increase of \$290,321 from the previous year. Expenses totaled \$4,914,954, an increase of \$922,206 from the prior year. Net position for governmental activities increased \$665,392 from the prior fiscal year for an ending balance of \$4,113,867. Key elements of the increase are as follows:

Revenues

- Other General Revenues increased by \$91,446, mainly due to a net increase in the fair value of investments.
- Capital grants and contributions increased by \$69,515, mainly due to an increase in state funding received for the Santa Ana River Project and bond proceeds for the construction and development of CFD, 2021-1 RMV (Rienda). This increase was partially offset by a decrease in state funding for the James A. Musick Facility Project.
- Property taxes increased by \$52,093, mainly due to an increase in secured assessed values.
- Property taxes in lieu of motor vehicle license fees (VLF) increased by \$28,965, primarily due to growth in the secured property tax roll value.

Expenses

- Expenses in public protection increased by \$446,631, mainly due to an increase in salaries and employee benefits (S&EB) costs.
- Expenses in general government increased by \$173,664, mainly due to an increase in various construction costs for the CFD, 2021-1 RMV (Rienda) and an increase in professional/specialized services related to the OC CARES Initiatives coordination.
- Expenses in public assistance increased by \$171,424, mainly due to an increase in S&EB costs and an increase in costs related to public assistance programs such as CalWORKS, IHSS, and General Relief.

The following chart presents a comparison of expenses by function and the associated program revenues for governmental activities:

The chart below presents the percentage of total revenues by source for governmental activities:

Business-Type Activities

The County has three business-type activities: Airport, OC Waste & Recycling, and CNG. In keeping with the intent of recovering all or a significant portion of their cost through user fees and charges, business-type activities reported charges for services as their largest source of revenues.

The following chart displays expenses and the associated program revenues by function for the business-type activities (major enterprise funds):

At the end of FY 2022-23, the business-type activities' total revenues exceeded expenses and transfers resulting in an increase of \$139,700 in net position compared to the prior year's increase in net position of \$86,383. Revenues totaled \$469,929, an increase of \$107,362 from the previous fiscal year, which is primarily attributable to increases in revenue from OC Waste & Recycling's sanitation and landfill disposal tonnage and fees, interest and investment income, as well as the Airport's revenue from concessions, interest income, and intergovernmental revenues. Offsetting this increase was a net decrease in landing fees.

Expenses, including transfers to governmental activities, totaled \$330,229 representing an increase of \$54,045 from the previous year. This increase is primarily due to increases in OC Waste & Recycling's closure and postclosure care costs, S&EB, services and supplies (S&S) and professional and specialized services. Also contributing to the increase is Airport's increase in professional and specialized services, S&S and other expenses. Other factors concerning the finances of the County's two major enterprise funds are discussed in the Proprietary Funds section of the "Financial Analysis of the County's Funds."

The chart below presents the percentage of total revenues by source for business-type activities (major enterprise funds):

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The County uses fund accounting to demonstrate legal compliance and aid financial management by segregating transactions related to certain government functions or activities.

Governmental Funds

Governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current assets, current liabilities, deferred inflows of resources related to unavailable revenue, leases, and Service Concession Arrangements (SCA) generally are included on the balance sheet, with the difference reported as fund balance. Fund balance, excluding nonspendable and restricted fund balances, may serve as a valuable measure of the government's available financial resources for spending at the end of a fiscal year. This amount is available for spending at the discretion of the Board in order to achieve the established function of the respective funds.

At June 30, 2023, the County's governmental funds reported total fund balances of \$3,733,966, which is an increase of \$559,035 in comparison with prior year ending fund balances, as restated.

Comparative Analysis of Changes in Fund Balances

The following schedule presents a summary of revenues and other financing sources, expenditures and other financing uses, and the net change in fund balances for the governmental funds for the current and previous fiscal year, as restated:

In addition to the effects of expenditure-driven grants, the following information provides explanations for the significant changes in fund balance:

General Fund

The General Fund is the chief operating fund of the County. At the end of FY 2022-23, revenues and other financing sources were more than the expenditures and other financing uses resulting in an increase in fund balance of \$585,308, compared to last year's increase of \$391,478, as restated. Revenues and other financing sources increased by \$590,703, and expenditures and other financing uses increased by \$396,873. The following is a brief summary of the primary factors that contributed to the increase in the net change in fund balance for the General Fund in FY 2022-23:

Revenues

- Intergovernmental revenue increased by \$212,756, primarily due to an increase in funds received for the County Local Revenue 2011 and the 1991 Realignment programs. Additionally, there was an increase in revenue recognized for the provision of government services under the CSLFRF.
- Transfers to the General Fund increased by \$157,553, primarily due to an increase in Prop 63 drawdowns from the Mental Health Services Act (MHSA) Fund and an increase in transfers from the Teeter Debt Service Fund to meet the targeted fund balance assigned for contingencies.

- Leases issued increased by \$67,188 mainly due to the recording of new leases in the Health Care Agency (HCA) and the Probation Department.
- Tax revenue increased by \$46,887, mainly due to increases in secured property taxes and property taxes in-lieu of VLF resulting from an increase in secured assessed values. These increases were partially offset by a decrease in other property tax related to property transfer tax, residual distributions, and pass-through payments from cities.

Expenditures

- Capital Outlay increased by \$114,894, primarily due to new leases entered by HCA, Probation, and the Social Services Agency (SSA). Additionally, there was an increase in the Sheriff-Coroner Department for the purchase and improvements of the new Bell Building.
- Expenditures for the general government increased by \$94,899, primarily attributable to CSLFRF funds distributed to cities, educational institutions, and other non-profit organizations to provide services to the County's residents. In addition, there was an increase in professional services in the County Executive Office (CEO) Department related to the OC CARES Initiatives.
- Expenditures for public assistance increased by \$65,406, primarily due to increases in S&EB costs for SSA, as well as increases in expenditures for CalWORKs and General Relief Programs.
- Expenditures for Public Protection increased by \$52,577, primarily due to increases in S&EB costs and S&S costs for the District Attorney and Sheriff-Coroner.

Flood Control District

This group of funds is used to account for the planning, construction, and operation of flood control and water conservation works, such as dams, basins, and trunk channels, and for the retardation, conservation, and controlled discharge of storm waters. At the end of FY 2022-23, there was a decrease in fund balance of \$1,473 as compared to last year's decrease of \$18,219. Revenues and other financing sources increased by \$607, mainly due to higher interest and investment income, higher secured property taxes, and higher Bipartisan Budget Act claim payments for the Santa Ana River Project. Expenditures and other financing uses decreased by \$16,139, primarily due to lower construction costs for the Huntington Beach Channel and Talbert Channel Sheet Pile Repair Design-Build as the project is reaching its completion.

Other Public Protection

This group of funds accounts for revenues restricted for safety and law enforcement activities such as the child support program, automated fingerprint identification systems, and investigation team. At the end of FY 2022-23, there was a decrease in fund balance of \$7,185, compared to last year's decrease of \$16,258. Revenues and other financing sources increased by \$1,936, primarily attributable to more revenue received from the Department of Justice for the Regional Narcotics Suspension Program and the Sheriff Narcotics Program, and an increase in State Criminal Alien Assistance Program revenue received for costs incurred from incarcerating undocumented criminal aliens with felony or misdemeanor convictions. These increases were partially offset by a decrease in transfers related to Prop 172 Public Safety Sales Tax. Expenditures and other financing uses decreased by \$7,137, largely due to lower amounts repaid for cash deposits held in the Consumer Prosecution Fund.

Mental Health Services Act (MHSA)

This fund accounts for purpose restricted MHSA revenues. At the end of FY 2022-23, fund balance decreased by \$121,289, compared to last year's increase of \$54,254. Revenues and other financing sources decreased by \$75,151, primarily due to a lower allocation from the State for approved mental health services for programs related to community services and support. This decrease was partially offset by the return of reserved funds held by the California Housing Finance Agency for special needs housing projects. Expenditures and other financing uses increased by \$100,392, primarily due to an increase in transfers out to the General Fund for eligible reimbursement of MHSA related services.

Other Governmental Funds

Other governmental funds encompass nonmajor funds, which include special revenue funds, debt service funds, capital projects funds, and a permanent fund. At the end of FY 2022-23, fund balances increased by \$103,674, in comparison to prior year's increase of \$9,203. Revenues and other financing sources increased by \$394,709, primarily due to an increase in transfers in for multi-year countywide capital projects, an increase in intergovernmental revenues caused by the reclass of transfers for debt service activity related to the CFD 2021-1 RMV (Rienda), and an increase in bonds issued to finance the new Bell Building facility. Expenditures and other financing uses increased by \$300,238, primarily due to the reimbursements to Rancho Mission Viejo for the CFD 2021-1 RMV (Rienda) construction costs, the acquisition and improvements to the Bell Building occupied by Sheriff-Coroner, the transfer of the Teeter Series A proceeds to the General Fund, and the reimbursement of construction costs for the James A. Musick Facility Project.

The following table shows fund balances and percentage change in fund balances for governmental funds for the current and previous fiscal year, as restated:

| COMPARATIVE FUND BALANCE GOVERNMENTAL FUNDS | | | | |

Proprietary Funds

The proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary funds financial statements provide separate information for the Airport and OC Waste & Recycling funds, which are considered to be major funds of the County, and the CNG fund. Internal Service Funds are combined into a single, aggregated presentation in the proprietary funds financial statements.

Comparative Analysis of Changes in Fund Net Position

The following table presents the enterprise funds' revenues, expenses, contributions, transfers, and changes in fund net position for the current and previous fiscal year, as restated:

| ENTERPRISE FUNDS COMPARATIVE SCHEDULE OF REVENUES, EXPENSES, CONTRIBUTIONS, TRANSFERS, AND CHANGES IN FUND NET POSITION | | | | | | | |

Airport

This fund accounts for major construction and self-supporting aviation related activities rendered at the Airport. At the end of FY 2022-23, there was an increase of \$85,267 in net position compared to the prior year increase of \$47,428. Revenues, contributions and transfers increased by \$62,253, primarily due to increases in concessions, interest and investment income, and intergovernmental revenues. The Airport's operating revenues were positively affected by the continued passenger recovery from the COVID-19 pandemic. Expenses increased by \$24,414, mainly due to an increase in professional and specialized services, S&S and other expenses.

OC Waste & Recycling

This fund is used to account for the operation, expansion and closing of existing landfills. Monies are collected through gate tipping fees, which users pay based primarily on tonnage. At the end of FY 2022-23, there was an increase of \$56,817 in fund net position compared to the prior year increase of \$39,858. Revenues, contributions and transfers increased by \$44,802, which was primarily due to increases in interest and investment income, sanitation and landfill disposal tonnage and fees collected for waste, recycling, and importation. Expenses and transfers increased by \$27,843, primarily due to an increase in landfill site closure and postclosure care costs, S&EB, S&S and professional and specialized services.

Compressed Natural Gas

This fund is used to account for the operation and maintenance of the CNG facility. Revenues consist primarily of compressed natural gas sales to fuel the County's growing fleet of CNG-powered heavy equipment. At the end of FY 2022-23, there was an increase of \$318 in fund net position compared to the prior year increase of \$146. Revenues increased by \$162 due to a higher royalty payment from Clean Energy. Expenditures decreased by \$10 due to a decrease in utilities purchased.

GENERAL FUND BUDGETARY HIGHLIGHTS

This section provides a summary of the primary factors involved in the variances between: 1) the Original Budget and the Final Budget; and 2) the Final Budget and the budgetary based actual amounts for the General Fund. In addition to the effects of expenditure-driven grants, the following information provides explanations for significant variances. Refer to the General Fund Budgetary Comparison Statement for a full budgetary comparison.

Original Revenue Budget vs. Final Revenue Budget

The following provides a summary of the primary factors attributable to the increase or decrease in the General Fund final budget revenues and other financing sources compared to the original budget revenues and other financing sources:

Intergovernmental

- An increase of \$70,383 in the Public Defender Department related to the allocation of funds from the CSLFRF under the American Rescue Plan Act (ARPA).
- An increase of \$59,170 in the Trial Courts Budget Control related to the allocation of funds from the CSLFRF.
- An increase of \$48,387 due to anticipated revenues from the Federal Emergency Management Agency (FEMA) for the reimbursement of claims associated with the COVID-19 Pandemic response.
- An increase of \$16,051 in the CEO related to Care Coordination that is associated with revenues from the California Emergency Solution Grant and the Permanent Local Housing Allocation grant.
- An increase of \$15,099 in HCA due to the allocation of funds from the CSLFRF for the provision of government services.
- An increase of \$14,166 in the Probation Department due to the allocation of funds from the CSLFRF for the provision of government services.

Transfers In

- An increase of \$54,757 in HCA from various sources, including the MHSA Fund, the OC Tobacco Settlement Revenue and OC Opioid Settlement Revenue Funds to support ongoing programs cost.
- An increase of \$25,000 from the Teeter Debt Service Fund to meet the targeted fund balance assigned for contingencies as approved by the Board.
- An increase of \$5,057 in the Sheriff-Coroner Department, primarily from the Sheriff's Narcotic Program Fund to cover S&S and the purchase of equipment related to narcotics law enforcement activities.
- An increase of \$4,901 in the CEO Department to allow transfers from the Care Coordination Fund for costs related to homeless services, including operation cost at the Garden Grove Navigation Center.
- An increase of \$3,634 in the Clerk-Recorder Department to allow transfers from the Real Estate Development Fund for the sale of the 433 Civic Center Drive building, and transfers from the Clerk-Recorder Special Revenue Fund for reimbursement of various eligible expenditures.

Final Revenue Budget vs. Actual Revenue Amounts

The following information provides a summary of the primary factors that caused significant variances in the General Fund actual revenues and other financing sources compared to the final revenue and other financing sources budget:

Intergovernmental

- A \$395,999 less than budgeted amount was primarily comprised of the following:
 - \$435,562 less in the ARPA budget control due to the reallocation of ARPA monies to different departments for the provision of government services.
 - \$47,556 less in SSA mainly due to lower than expected Federal and State funding for the administration of public assistance programs.
 - \$12,770 less in the OC Community Resources (OCCR) Department due to lower than anticipated revenues for Office on Aging and OC Workforce and Economic Development Division programs.
 - \$12,650 less in HCA due to lower than expected revenues related to Communicable Disease Control, HIV Planning and Coordination, and Nutrition Services programs.
 - Partially offsetting the overall less than budgeted intergovernmental revenue amounts were the following:
 - \$94,143 more received in the County Local Revenue 2011 due to sales tax revenue being higher than projected.
 - \$25,905 more received by SSA due to higher 1991 Realignment revenue, CalWORKs Assistance payments, Foster Care Assistance payments and IHSS Provider payments.
 - \$5,282 more received in the Probation Department due to additional revenue received under the Adult Court Services Division and Juvenile Hall Division programs.

Transfers In

- A \$116,374 less than budgeted amount was primarily comprised of the following:
 - \$64,191 less received in HCA due to lower than expected drawdowns from the MHSA Fund and OC Tobacco Settlement Revenue.
 - \$14,775 less received in SSA mainly attributable to lower than budgeted reimbursements from the SSA Wraparound Fund and from the Operations Facilities Development and Maintenance Fund for expenditures related to the Tustin Family Campus.
 - \$9,389 less received in CEO due to lower than expected drawdowns from the Care Coordination Fund for programs such as Project HomeKey, Homeless Housing, Assistance and Prevention Program and Encampment Resolution Funding Program.
 - \$7,329 less received in the Sheriff-Coroner Department primarily due to lower than budgeted transfers from the Countywide Capital Projects Non-General Fund, 800 MHz Countywide Coordinated Communications System Fund and the Sheriff Narcotics Program Fund.
 - \$6,000 less received from the Teeter Debt Service Fund, which was deemed to be unnecessary.
 - \$5,300 less received in the District Attorney-Public Administrator Department due to lower than expected drawdowns from the Real Estate Prosecution Fund and the Excess Public Safety Sales Tax Fund.

Taxes

- A \$32,046 higher than budgeted amount was primarily comprised of the following:
 - \$12,112 more in current secured property taxes resulting from an increase in secured assessed values.
 - \$11,880 more in VLF Swap property taxes resulting from an increase in secured assessed values.
 - \$7,828 more in supplemental property tax due to growth in supplemental property tax roll value.

Use of Money and Property

- A \$26,870 higher than budgeted amount was primarily comprised of the following:
 - \$26,979 more in interest due to higher interest rates and cash balance in the General Fund.
 - Partially offsetting the overall higher than budgeted use of money and property revenue amounts was the following:
 - \$1,616 less received by HCA from short-term leases and concessionaires.

Charges for Services

- A \$21,413 less than budgeted amount was primarily comprised of the following:
 - \$16,551 less received in reimbursements from various departments for charges for services provided by OC Public Works.

Fines, Forfeitures, and Penalties

- \$9,504 more in revenues was primarily comprised of penalties on delinquent taxes.

Original Expenditure Budget vs. Final Expenditure Budget

The following provides a brief summary of the primary factors attributable to the increase or decrease in the General Fund final budget expenditures and other financing uses compared to the original budget expenditures and other financing uses:

Miscellaneous

- An increase of \$267,725, mainly due to the budgeted transfers out to the OC CARES Fund, Countywide Capital Projects Non-General Fund, and the OC Housing Fund. The increase in budgeted transfers out was partially offset by a decrease in appropriations for contingencies.

Health Care Agency

- An increase of \$72,500, mainly due to budgeted transfers out to the Countywide Capital Projects Non-General Fund, and the MHSA Housing Fund for the construction of permanent supporting housing. This increase was partially offset by a decrease in professional and specialized services.

Public Defender

- An increase of \$70,527, primarily due to a budgeted transfer out to the OC CARES Fund partially offset by a decrease in S&EB.

Trial Courts

- An increase of \$59,170, primarily due to a budgeted transfer out to the Countywide Capital Projects Non-General Fund.

County Executive Office

- An increase of \$20,952, mainly due to an increase in S&S related to Care Coordination and to allow for the reimbursement of eligible expenses of the Huntington Beach Oasis interim housing and shelter operations that will provide housing and other services to individuals experiencing homelessness.

Final Expenditure Budget vs. Actual Expenditure Amounts

The following provides a summary of the primary factors that caused significant variances in the General Fund actual expenditures as compared to the final budget:

American Rescue Plan Act (ARPA)

- \$435,562 lower than budgeted amount mainly as a result of the reallocation of ARPA funds to other County departments for the provision of government services.

Health Care Agency

- \$98,223 less than budgeted amount mainly due to lower than anticipated expenditures for S&EB, professional and specialized services and IT professional services contracts associated with Communicable Disease Control, MHSA/Prop 63, and Medical Safety Net programs.

Sheriff-Coroner

- \$40,996 lower than budgeted amount mainly due to lower than expected costs for S&EB, supplies for the shooting range facility, and office related expenses such as telephone services, computer equipment and IT hardware.

Social Services Agency

- \$38,933 lower than budgeted amount primarily due to lower expenditures for S&EB and lower project costs for the improvements to the 840 N. Eckhoff Building.

OC Public Works

- \$21,976 lower than budgeted amount mainly due to S&EB and savings resulting from vacant positions, delayed or deferred maintenance or improvement projects, and a decrease in professional and specialized contracted services.

OC Community Resources

- \$16,502 lower than budgeted amount primarily due to lower contract and administrative expenditures for Community Investment, Office on Aging, and Veteran Service programs.

County Executive Office

- \$16,349 lower than budgeted amount primarily due to lower expenditures for professional and specialized services for OC Care Coordination programs.

Capital Assets

At June 30, 2023, the County's capital assets, as restated, for both the governmental and business-type activities amounted to \$5,558,389 net of accumulated depreciation/amortization. The investment in capital assets includes land, structures and improvements, land improvements, equipment, software, infrastructure, intangible in progress, land use rights, construction in progress and intangible right-to-use assets. The total increase in the County's investment in capital assets for the current year was 6%.

Capital assets, as restated for the governmental and business-type activities are presented below to illustrate changes:

The following lists the significant expenditures for capital assets in FY 2022-23:

General Fund

- \$8,003 for the completion of work for the Bell Building for the use of the Sheriff-Coroner's Technology division
- \$5,320 for the purchase of IT hardware, software and services for the Sheriff-Coroner Department
- \$2,892 for the Orangewood Children and Family Center kitchen upgrades
- \$2,571 for the purchase of telecommunications equipment for the Tustin Dispatch Center

- \$2,307 for the purchase of IT hardware, software and services for Public Defender
- \$1,611 for the purchase of Registrar of Voters' automation machines for elections
- \$1,394 for the purchase of laboratory equipment and technical support for the OC Crime Lab
- \$1,365 for the replacement of HVAC units at Orangewood Children and Family Center
- \$1,219 for the purchase of IT hardware and software, maintenance and support for District Attorney
- \$1,100 for the purchase of tactical multipurpose response and rescue vehicle and an explosives disposal robotic system
- \$1,077 for the Property Tax System Re-platforming Project

Long-Term Debt

June 30, 2023, the County had total debt obligations outstanding of \$603,214, excluding long-term liabilities such as compensated absences payable, pension, OPEB, lease obligations payable, and SBITA. During the year, the County's outstanding bond obligations increased by \$21,252, or 4%, which is primarily attributable to the issuance of the Lease Revenue Bonds, Series 2022 (County of Orange Sheriff-Coroner Facility) in the amount of \$83,375, and the addition of \$82,308 in Teeter Plan Notes. Partially offsetting the increase was the redemption of \$79,978 of Teeter Plan Notes and the redemption of \$66,190 of the Airport revenue bonds.

The following table summarizes the County's outstanding bonds at June 30, 2023 and 2022:

| LONG-TERM DEBT OBLIGATIONS | | | | | | | | | |
|--------------------------------------|-------------------|-------------------|---------------|------------------|-------------------|-------------------|-------------------------|--|--|

The following summarizes the County’s long-term debt issuance during FY 2022-23:

Lease Revenue Bonds, Series 2022 On July 26, 2022, the South Orange County Public Financing Authority (SOCPFA) issued its \$83,375 Lease Revenue Bonds, Series 2022 (County of Orange Sheriff-Coroner Facility) at a premium of \$12,350, with an interest rate coupon of 5%. The Lease Revenue Bonds, payable through June 2052, were issued to finance the acquisition of and construction of certain improvements to a new facility for the Sheriff-Coroner to be owned by the County and to pay costs relating to the issuance of the bonds. As of June 30, 2023, the outstanding principal amount, including the premium of the Series 2022 Bonds, and interest were \$95,725 and \$76,314, respectively.

Teeter Plan Notes On July 18, 2022, the County paid off its \$79,978 taxable Teeter Plan Obligation Notes, Series B utilizing \$45,810 in accumulated base taxes. On July 18, 2022, the Teeter Plan Notes were issued for \$82,308 in taxable Teeter Plan Obligations Notes, Series B, to refund the outstanding balance of \$34,168 and finance the purchase of \$48,140 in delinquent property tax receivables. The Teeter Notes issued on July 18, 2022, were issued pursuant to a First Amendment to Second Amended and Restated Note Purchase and Reimbursement Agreement, dated between the County and Wells Fargo Bank, National Association. Teeter Notes may be issued from time to time by the County provided that the total principal amount of Teeter Notes outstanding at any one time shall not exceed \$150,000. The Teeter Notes mature on July 17, 2023 and bear interest at the rate of 3.46% per annum. As of June 30, 2023, the outstanding principal amount of the Teeter Plan Obligation Notes was \$82,308.

Additional information on the County’s long-term debt activity can be found in Note 11, Long-Term Obligations, and Note 23, Subsequent Events in the Notes to the Basic Financial Statements section.

Bond Ratings

The County maintained its Issuer Credit Rating of Aa1 from Moody’s Investors Service (Moody’s), AA+ from Standard & Poor’s Global Ratings (S&P), and AAA Issuer Default Rating (IDR) from Fitch Ratings.

On July 26, 2022, the County issued the 2022 Lease Revenue Bonds with an AA rating from S&P and an AA+ rating from Fitch Ratings.

The County has the following long-term underlying debt ratings:

OTHER POTENTIALLY SIGNIFICANT MATTERS

The County’s management has determined that the following are significant matters that have a potential impact on the County’s financial position or changes in financial position:

State Legislation and Budget

System of Care-Homelessness

The County continues to work together with cities to respond to regional community needs in addressing homelessness. The partnership between the County and each of the 34 cities in the County is essential to meet the needs of people experiencing homelessness and leverages the funding available with the Building Homes Job Act (SB 2) or other programs such as the State’s No Place like Home, California Advancing and Innovating Medi-Cal, and the Special Needs Housing Programs.

In June 2018, the County filed the Housing Funding Strategy with the goal of developing 2,700 units of permanent supportive housing. In December 2022, an update to the Housing Funding Strategy identified the new goal of developing 2,396 units of permanent supportive housing and recognized the significant investments in capital and operating expenses made since the previous Housing Funding Strategy, producing a pipeline of 1,384 supportive housing units and a total projected pipeline of 2,653 supportive and affordable housing units. The update also addressed the housing needs for individuals reentering the community upon release from custody; affordable housing assistance with voluntary support services to address the needs of chronically homeless individuals; and transitional and permanent supportive housing as well as placement services for youths and veterans experiencing challenges on the path to a successful adulthood. In addition to the larger housing efforts, the County is assisting with housing stability by providing landlord incentives for 500 units and match commitments for developing an additional 300 units. Significant efforts include the following:

- Operational funding was provided to three city-operated emergency shelters and capital funding was provided for a city-operated emergency shelter.
- Funding was provided for development and operation of a transitional aged youth-focused emergency shelter and construction of the Yale Navigation Center.
- California Department of Housing and Community Development awarded \$20,590 in funding during Homekey Round one and \$33,600 during Round two. In total, the funding was used to support the acquisition and rehab of five motels converting to 305 units of interim and permanent supportive housing. Additionally, the County supported the City of Anaheim in an application for Homekey Round two funds for an 89-unit motel conversion (interim to permanent housing) by providing a commitment of funding for operating costs. The County also applied for up to \$29,000 in Homekey Round three funding for the conversion of a 120-room motel to 78 units of permanent supportive housing.
- State Homeless Housing, Assistance and Prevention funding identified to create 62 units of non-congregate shelter.
- Field-based outreach teams integrate with County behavioral health resources to support city-led homeless services programs.
- The Emergency Rental Assistance Program provided nearly \$39,000 in financial assistance to tenant households experiencing financial hardship due to COVID-19 to pay for rental arrears and past due utilities thus promoting housing stability and minimizing the risk of homelessness.

In addition, the County utilizes the Care Plus Program to provide services through a multi-disciplinary team approach focusing on person-centered care for those experiencing homelessness to streamline their access of County programs and improve outcomes related to health and housing.

Master Plan for Aging

The Governor's January 2021 Master Plan for Aging included five distinct goals for counties to achieve as California prepares for a projected increase in the number of California residents age 60 years and older. An intradepartmental team consisting of OCCR, SSA, HCA, and CEO have collaborated in a joint effort to build the foundation for Orange County to improve the quality of service delivery to this population. A Countywide healthy aging assessment is being completed to identify and prioritize the needs and factors affecting the health of our aging population.

FEMA and ARPA Revenue for COVID-19

The County has filed all required claims for reimbursement for eligible COVID-19-related expenditures from FEMA. As of June 2023, the County submitted \$199,310 in FEMA claims which were reduced by \$5,257. The County received reimbursement for \$147,048 and the remaining balance is currently under review by FEMA for the following seven eligible COVID-19 projects: Emergency Operations Center, Testing Kits, Personal Protective Equipment, Project RoomKey, the Great Plates Program, Vaccinations and Care Sites. In addition to FEMA funding, some County departments received additional funding from the state/federal governments for other eligible program costs related to COVID-19.

In May 2021, the County received \$308,420, the first tranche of ARPA funds from the United States Treasury, and in June 2022, the County received the second and final tranche of \$308,420. The CSLFRF, under the ARPA, provided funds to state, territorial, local, and tribal governments. Use of the funds is subject to the restrictions outlined in ARPA. All ARPA funds must be obligated by December 31, 2024 and spent by December 31, 2026

according to Federal guidelines issued by the United States Treasury. As of June 30, 2023, the County used the ARPA funds in its entirety for eligible expenditures.

Long-Term Financial Planning

Funding Progress of the County's Retirement System (System)

The funded ratio of the System is a measure of the ability of the System to make obligated payments to current retirees and future retirees. As of December 31, 2022, the funding ratio for the System is 81.5%, which is an increase from 81.2% in 2021. The System's Unfunded Actuarial Accrued Liability (UAAL) increased from \$4.52 billion (\$3.88 billion attributable to the County) to \$4.70 billion (\$3.99 billion attributable to the County). The increase in the UAAL is primarily attributable to investment returns (after smoothing) lower than the 7.00% return assumption, salary increases greater than expected and cost-of-living adjustment (COLA) increases greater than expected.

On November 4, 2008, the voters in Orange County approved Measure J, which requires voter approval for any future pension benefit enhancements. The County carefully monitors the activities at OCERS and regularly provides input to OCERS management, as well as providing input at OCERS Board meetings.

OCERS Assumed Investment Rate of Return

The assumed investment rate of return is the rate of investment yield that the System will earn over the long-term future.

On December 5, 2012, the OCERS Board voted to reduce the assumed investment rate of return from 7.75% to 7.25%. The reduction was phased in over a two-year period beginning July 2014 at 7.5% and reducing to 7.25% effective July 2015. On October 16, 2017, the OCERS Board adopted a reduction in the assumed investment rate of return to 7.00% effective July 1, 2019. The assumed rate of return reduction had the impact of increasing contribution rates of members and plan sponsors.

OCERS Actuarial Funding Policy (Amortization)

On November 18, 2013, the OCERS Board adopted the actuarial funding policy to reduce the amortization period for future UAAL from 30 years to 20 years, which included combining and re-amortizing the entire outstanding UAAL balance as of December 31, 2012, over a single 20-year period. This will allow for future UAAL to be paid off in a shorter period of time and will ultimately reduce retirement rates and costs over time.

OCERS Actuarial Assumptions

The 2014 through 2016 valuations were impacted by economic assumption changes, which flowed from the 2014 Triennial Study of Actuarial Assumptions. These changes, adopted by the OCERS Board on September 23, 2014, included a decrease in the inflation assumption from 3.25% to 3.00% per annum. As a result of the 2017 Triennial Study of Actuarial Assumptions, the OCERS Board, on October 16, 2017, adopted a further decrease in the inflation assumption to 2.75%, which was effective with the 2017 valuation. On August 17, 2020, the OCERS Board adopted a further decrease in the inflation rate assumption to 2.50%, while maintaining the post-retirement COLA at 2.75%. The new assumption changes were effective with the 2020 valuation.

County of Orange
Annual Comprehensive Financial Report
June 30, 2023
(Dollar Amounts in Thousands)

The governmental funds balance sheet includes a reconciliation between fund balances-total governmental funds and net position-governmental activities as reported in the government-wide Statement of Net Position. The difference between the two of \$379,901 is due to the long-term economic focus of the Statement of Net Position versus the short-term economic focus of the governmental funds. The components of the difference are described below.

Total Fund Balances-Governmental Funds \$ 3,733,966

Capital assets used in the operations of the County that are not reported in the governmental funds financial statements:

| | | |
|---|--------------------|-----------|
| Land | 900,174 | |
| Structures and Improvements | 1,858,328 | |
| Equipment | 358,451 | |
| Software | 177,854 | |
| Infrastructure | 2,225,061 | |
| Land Use Rights (Permanent) | 16,682 | |
| Intangible Right-to-Use Lease and Subscription Assets | 556,380 | |
| Land Improvements | 45,878 | |
| Construction in Progress | 552,643 | |
| Intangible in Progress | 3,291 | |
| Accumulated Depreciation/Amortization | <u>(2,161,147)</u> | 4,533,595 |

Other assets used in governmental activities that do not consume current financial resources, and therefore, are not reported in the governmental funds:

Prepaid Pension Investment with OCERS 144,682

The assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the internal service funds are included in governmental activities in the Statement of Net Position. 132,642

Deferred outflows of resources are similar to assets, but they do not meet the definition of an asset. When all the recognition criteria are met, the deferred outflows of resources will become an expense. The counterpart to deferred outflows of resources are deferred inflows of resources, which do not meet the definition of a liability. When all recognition criteria are met, the deferred inflows of resources will become revenue, except for pension and OPEB related deferred inflows of resources which will be recognized as a credit to expense. The County reports the different types of deferred outflows and inflows of resources in the Statement of Net Position as follows:

Deferred Outflows of Resources:

| | |
|--|-----------|
| Employer retirement contribution subsequent to measurement date for the Deferred Outflows related to Pension | 1,248,974 |
| Employer retirement contribution subsequent to measurement date for the Deferred Outflows related to OPEB | 51,304 |

Reconciliation of the Governmental Funds Balance Sheet

(Dollar Amounts in Thousands)

Deferred Inflows of Resources:

| | |
|---|-----------|
| Deferred Inflows of Resources that have been earned but not available to finance expenditures in the current period | 323,288 |
| Deferred Inflows of Resources Related to Pension | (114,938) |
| Deferred Inflows of Resources Related to OPEB | (42,662) |
| Deferred Inflows from Service Concession Arrangements | (31,989) |

Long-term liabilities, including bonds and notes payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds:

| | | |
|---|-------------|--------------------|
| Bonds Payable, Net | (147,767) | |
| Civic Center Facilities Master Plan Financing | (373,139) | |
| Teeter Plan Notes Payable | (82,308) | |
| Compensated Employee Absences Payable | (172,258) | |

Net Change in Fund Balances

| |
|---------------------------------|
| Fund Balances-Beginning of Year |
| Fund Balances-End of Year |

County of Orange
 Annual Comprehensive Financial Report
 For the Year Ended June 30, 2023
 (Dollar Amounts in Thousands)

The Net Change in Fund Balances for governmental funds of \$559,035 in the Statement of Revenues, Expenditures, and Changes in Fund Balances differs from the Change in Net Position for governmental activities of \$665,392 reported in the government-wide Statement of Activities. The differences arise primarily from the long-term economic focus of the Statement of Activities versus the current financial resources focus of the governmental funds. The main components of the difference are described below.

| | | |
|--|----|---------|
| Net Change in Fund Balances-Total Governmental Funds | \$ | 559,035 |
|--|----|---------|

When capital assets used in governmental activities are purchased or constructed in the current fiscal year, the resources expended for those assets are reported as expenditures in the governmental funds. However, in the Statement of Activities, the cost of these assets are allocated over their estimated useful lives and reported as depreciation or amortization expense. In addition, donations, transfers, gains or losses from sales and other disposals/acquisitions of capital assets are not reported in governmental funds. These assets, and their associated depreciation/amortization expense, must be reported or removed in the government-wide financial statements. The details of the expenditures for capital outlay, capital contributions, depreciation/amortization and other disposals/acquisitions of capital assets are as follows:

| | | |
|--|-----------|---------|
| Expenditures for Capital Outlay: | | |
| Land | 87,937 | |
| Construction in Progress | 333,615 | |
| Equipment | 27,662 | |
| Software | 31,024 | |
| Net of Gains/(Losses) on Capital Assets Dispositions | (13,976) | |
| Depreciation/Amortization Expense | (187,826) | |
| Capital Contributions | 4,656 | 283,092 |

The issuance of long-term debt (e.g. bonds) is recorded as an other financing source in the governmental funds because it provides current financial resources. Similarly, the repayment of principal on long-term debt or the payment of other long-term liabilities is reported as an expenditure in the governmental funds because current financial resources have been consumed. Bond proceeds, net of payments to escrow agents and principal payments, are reported as financing sources in governmental funds and thus contribute to the change in fund balance. These transactions do not have any effect on net position in the government-wide financial statements. The details of the principal and other long-term liability payments and other financing sources are as follows:

| | | |
|---|----------|-----------|
| Teeter Plan Notes Proceeds | (82,308) | |
| Leases Issued | (73,216) | |
| Subscription Proceeds | (24,164) | |
| Issuance of Long-Term Bonds | (95,725) | |
| Principal and Other Long-Term Liability Payments: | | |
| Bonds Payable | 8,990 | |
| Teeter Plan Notes Payable | 79,978 | |
| Leases | 21,773 | |
| Subscriptions | 25,011 | |
| Financed Purchases | 6,048 | (133,613) |

Reconciliation of the Governmental Funds Statement of Revenues,
Expenditures, and Changes in Fund Balances to the Statement of Activities
(Dollar Amounts in Thousands)

Revenues related to prior years that are available in the current fiscal year are reported as revenue in the governmental funds. In contrast, revenues that are earned, but unavailable in the current year are deferred in the governmental funds. For government-wide reporting, revenue is recognized when earned, regardless of availability. The following amounts reflect the net effect of the timing differences for revenue recognition:

| | | |
|---|------------|----------|
| Government Mandated and Voluntary Nonexchange Property Tax Revenues | (84,067) | |
| | <u>622</u> | (83,445) |

Some expenses reported in the Statement of Activities do not require the use of current financial resources; and therefore, are not reported as expenditures in the governmental funds until paid. The following amounts represent the net effect of these differences in the treatment of long-term liabilities:

| | | |
|---|---------------|--------|
| Accrued Interest Expense on Bonds Payable | (319) | |
| Amortization of Bond Premiums | 1,623 | |
| Change in Compensated Employee Absences Payable | 2,623 | |
| Pension Costs and Investment Gain of the County's Investment Account with OCERS | 8,938 | |
| Estimated Litigation and Claims Expense | <u>21,392</u> | 34,257 |

Internal service funds (ISF) are used by management to charge the costs of certain activities, such as insurance, transportation, and telephone services to individual governmental funds. The operating loss of the ISF's is eliminated in the Statement of Activities as an adjustment to the various functions to arrive at a break-even basis. Also, general or non-program revenues and expenses of the ISF are recorded in governmental activities.

| | | |
|--|---------------|-------|
| Allocation of ISF's Operating Loss to Governmental Activities, net of Business-Type Activities | (28,666) | |
| Consolidation of Nonoperating Revenues, Expenses and Transfers to Governmental Activities | <u>27,811</u> | (855) |

GASB Statement No. 75 requires an employer to record OPEB expense and employer contribution that affects the County's proportionate share of the net OPEB liability.

| | | |
|----------------------------|---------------|--------|
| OPEB Expense | (11,730) | |
| OPEB Employer Contribution | <u>41,964</u> | 30,234 |

GASB Statement No. 68 requires an employer to record pension expense and employer contribution that affects the County's proportionate share of the net pension liability.

| | | |
|-------------------------------|----------------|-----------------|
| Pension Expense | (562,827) | |
| Pension Employer Contribution | <u>539,514</u> | <u>(23,313)</u> |

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the more significant accounting policies of the County of Orange (County):

A. Reporting Entity

The County is a legal subdivision of the State of California charged with general governmental powers. The County's powers are exercised through an elected five-member Board of Supervisors (Board), which, as the governing body, is responsible for the legislative and executive control of the County. The County provides a full range of general government services, including police protection, detention and correction, public assistance, health and sanitation, recreation, library, flood control, public ways and facilities, waste management, airport management, and general financial and administrative support.

As required by generally accepted accounting principles (GAAP) in the United States of America, these financial statements present financial information for both the County (the primary government) and its component units, entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are in substance part of the County's operations and the Board is typically their governing body. Therefore, data from these component units are combined with data of the primary government. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the County. Management applied the criteria of Governmental Accounting Standards Board (GASB) Statement No. 14, "The Financial Reporting Entity," Statement No. 39, "Determining Whether Certain Organizations are Component Units-An Amendment of GASB Statement No. 14," Statement No. 61, "The Financial Reporting Entity: Omnibus-An Amendment of GASB Statements No. 14 and No. 34," Statement No. 80, "Blending Requirements for Certain Component Units-An Amendment of GASB Statement No. 14," and Statement No. 84, "Fiduciary Activities," to determine whether the component units should be reported as blended or discretely presented component units. The criteria included whether the County appoints the voting majority, there is a financial benefit/burden relationship, the County is able to impose its will, the component unit is fiscally dependent on the County, the component unit's governing body is substantially the same as the County, and management of the County have operational responsibility for the activities of the component unit. These criteria were used to determine the following:

Blended Component Units

Orange County Flood Control District The Orange County Board of Supervisors is the governing body of the District. The Board's powers include, but are not limited to, approving the District's budget, levying a tax or assessment upon real property in the District, approving contracts for the District, and appointing County officers to perform additional duties for the District. The District is reported in governmental fund types.

Orange County Housing Authority The governing body of the Authority is the County's governing body. Among its duties, it approves the Authority's budget and policies that govern the administration of housing assistance programs and appoints the management. The Authority is reported in governmental fund types.

Orange County Public Financing Authority The Authority is a joint powers authority of the County and the Orange County Development Agency (OCDA), formed to provide financial assistance to the County by financing the acquisition, construction and improvement of public facilities in the County. The governing body of the Authority is the County's governing body. The Authority is reported in governmental fund types. With the passage of ABX1 26 dissolving redevelopment agencies statewide effective February 1, 2012, the Authority will not issue any new debt.

South Orange County Public Financing Authority The Authority is a joint powers authority of the County and Community Facilities District 88-2 of the County of Orange (Lomas Laguna), formed to provide for the financing of public capital improvements. The governing body of the Authority is the County's governing body. The Authority is reported in governmental fund types.

A. Reporting Entity (Continued)

Blended Component Units (Continued)

Capital Facilities Development Corporation The Corporation has a three-member governing body that is appointed by the Board. Its purpose is to facilitate financings, acquisitions of property, and other financial and property related transactions, by or for the benefit of the County, including but not limited to purchasing property from or for the benefit of, borrowing or loaning money and selling or leasing property to, and otherwise participating in financial and leasing transactions with the County. The Corporation is reported in governmental fund types.

Orange County Public Facilities Corporation The Corporation has a five-member governing body that is appointed by the Board. It provides services entirely to the County, through the purchases, construction or lease of land and buildings, which are then leased back to the County. The Corporation is reported in governmental fund types.

County Service Areas, Special Assessment Districts, and Community Facilities Districts The governing body of County Service Areas, Special Assessment Districts, and Community Facilities Districts (districts) is the County's governing body. It approves the districts' budgets, and approves parcel fees, special assessments and special taxes. The districts are reported in governmental fund types.

In-Home Supportive Services (IHSS) Public Authority The governing body of the Authority is the County's governing body. The Authority was established by the Board to act as the employer of record for the individual providers for the IHSS program. The duties of the Authority include collective bargaining for the individual providers, establishing a registry of providers, investigating the background of providers and providing training to IHSS providers and consumers. The Authority is reported in governmental fund types.

Fiduciary Component Unit

Orange County Employee Retirement System (OCERS) OCERS is a public retirement system established in 1945 that administers the County's retirement and Other Postemployment Benefits (OPEB) Plans in accordance with the County Employees Retirement Law of 1937 and the California Public Employees' Pension Reform Act (PEPRA) of 2013. OCERS was determined to be a fiduciary component unit of the County based on the guidelines of GASB Statement No. 84. It is reported in the Pension and OPEB Trust Funds and Custodial Fund Fiduciary financial statements. OCERS issues a stand-alone financial report with year-end December 31 and is available online at www.ocers.org or in writing if requested to the Orange County Employees Retirement System, P.O. Box 1229, Santa Ana, CA 92702.

Discretely Presented Component Units

First 5 Orange County First 5 Orange County (formerly Children and Families Commission of Orange County) is administered by a governing board of nine members, who are appointed by the Board. Its purpose is to develop, adopt, promote and implement early childhood development programs in the County. It is funded by additional State taxes on tobacco products which were approved by California voters via Prop 10 in November 1998. First 5 Orange County is presented as a discretely presented component unit of the County because, although the County Board has no control over the revenues, budgets, staff, or funding decisions made by First 5 Orange County, the appointed First 5 Orange County members serve at the will of the Board members who appoint them. A separate stand-alone annual financial report can be obtained by writing to First 5 Orange County, 1505 E. 17th Street, Suite 230, Santa Ana, CA 92705, or by accessing Orange County's website: ocauditor.gov.

Orange County Health Authority, a Public Agency/dba Orange Prevention and Treatment Integrated Medical Assistance (CalOptima Health) The Board established CalOptima Health in 1993. The governing board of CalOptima Health is comprised of nine voting members and includes two County Board members and County Board member alternate; all other members are appointed by the Board. This is a County organized health system whose purpose is to administer health insurance programs for low-income families, children, seniors, and persons with disabilities throughout the County. These programs include Medi-Cal, OneCare (HMO D-SNP), and Program of All-Inclusive Care for the Elderly (PACE). CalOptima Health is presented as a discretely presented component unit of the County because, although the County Board has no control over the revenues, budgets, staff, or funding decisions made by CalOptima Health, the appointed CalOptima Health members serve at the will of the Board members who appoint them. CalOptima Health will continue until such time as the Board takes action to terminate CalOptima Health. A separate stand-alone annual financial report can be obtained by writing to CalOptima Health, 505 City Parkway West, Orange, CA 92868 or can be accessed via the website <http://wpsso.dmhc.ca.gov/fe/search/>.

B. Government-Wide and Fund Financial Statements

The basic financial statements include both the government-wide and fund financial statements. The government-wide financial statements are prepared using the accrual basis of accounting and the economic resources measurement focus. The government-wide financial statements report deferred outflows of resources, long-term liabilities and capital assets. Depreciation/amortization expense and accumulated depreciation/amortization are displayed on the government-wide financial statements. The capital assets and related depreciation/amortization include the costs and depreciation of infrastructure assets.

The fund financial statements for the governmental funds are prepared using the modified accrual basis of accounting and the current financial resources measurement focus. Fund financial statements are shown separately for specific major governmental funds and in total for all other governmental funds. Fund financial statements for proprietary funds are reported under the accrual basis of accounting and the economic resources measurement focus. Major enterprise funds are shown separately, with internal service funds shown in total. Financial data for the internal service funds is included with the governmental funds for presentation in the government-wide financial statements. Fiduciary funds are displayed by category in the fund financial statements, but are not reported in the government-wide financial statements, because the assets of these funds are not available to the County.

Government-Wide Financial Statements

GASB Statement No. 34, "*Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*" (GASB Statement No. 34), as amended by GASB Statement No. 63, "*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*" (GASB Statement No. 63), mandates the presentation of two basic government-wide financial statements:

- *Statement of Net Position*
- *Statement of Activities*

The scope of the government-wide financial statements is to report information on all of the non-fiduciary activities of the primary government and its component units.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-Wide and Fund Financial Statements (Continued)

Government-Wide Financial Statements (Continued)

Government activities, which are normally supported by taxes, intergovernmental revenues, other nonexchange revenues, and business-type activities, which are financed by fees charged to external parties for goods and services, are reported in separate columns with a combined total column presented for the primary government. Likewise, the primary government is reported separately from the legally separate component units, First 5 Orange County and CalOptima Health, for which the primary government is financially accountable. The government-wide Statement of Net Position displays the financial position of the primary government, in this case, the County and its discretely presented component units. The Statement of Net Position reports the County's financial and capital resources, including infrastructure, as well as the County's long-term obligations. The difference between the County's assets plus deferred outflows of resources, and liabilities plus deferred inflows of resources is its net position. Net position represents the resources that the County has available for use in providing services after its debt or other obligations are settled.

These resources may not be readily available or spendable and consequently are classified into the following categories of net position in the government-wide financial statements:

- Net Investment in Capital Assets This amount is derived by subtracting the outstanding liabilities incurred by the County, including debt-related deferred outflows and inflows of resources, to buy or construct capital assets shown in the Statement of Net Position, net of depreciation and amortization.
- Restricted Net Position This category represents restrictions imposed on the use of the County's resources by parties outside of the government or by law through constitutional provisions or enabling legislation. All of the County's net position restrictions are externally imposed by outside parties, constitutional provisions or enabling legislation. Examples of restricted net position include federal and state grants that are restricted by grant agreements for specific purposes and restricted cash set aside for debt service payments. At June 30, 2023, the County's governmental activities reported restricted net position of \$1,940,918 and is restricted for pension benefits related to the OCERS Investment Account, capital projects, debt service, legally segregated funds restricted for grants and other purposes, and regional park endowment. Restricted Net Position for business-type activities amounted to \$63,614 and is restricted for the use of John Wayne Airport (Airport) and OC Waste & Recycling activities, including passenger facility charges (PFC), landfill closure/postclosure, landfill corrective action, and wetland. At June 30, 2023, the County reported \$30,663 of net position restricted by enabling legislation related to the Airport's PFC.
- Unrestricted Net Position These assets are resources of the County that can be used for any purpose, though they may not necessarily be liquid. In addition, assets in a fund that exceed the amounts required to be restricted by external parties or enabling legislation are reported as unrestricted net position (deficit). When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, and then unrestricted resources as they are needed.

The government-wide Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues and the extent to which the function or segment is supported by general government revenues, such as property taxes, local unrestricted sales taxes, and investment earnings. Direct expenses are those that are clearly identifiable with a specific function or segment. Indirect expenses are allocated to match the reimbursement of indirect costs recorded as program revenues to the same function where the related expense is recorded. Program revenues include:

Government-Wide Financial Statements (Continued)

- *Charges and fees to customers or applicants for goods, services, or privileges provided, including fines, forfeitures, and penalties related to the program*
- *Operating grants and contributions*
- *Capital grants and contributions, including special assessments*

Taxes and other items such as unrestricted investment earnings (loss) not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

Separate fund financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus of governmental and proprietary fund financial statements is on major funds. The financial information of each major fund is shown in a separate column in the fund financial statements, with the data for all nonmajor governmental funds aggregated into a single column and all nonmajor proprietary funds aggregated into a single column. GASB Statement No. 34, as amended by GASB Statement No. 65, "*Items Previously Reported as Assets and Liabilities*" (GASB Statement No. 65), sets forth minimum criteria (specified minimum percentages of the assets plus deferred outflows of resources, liabilities plus deferred inflows of resources, revenues or expenditures/expenses of a fund category and of the governmental and enterprise funds combined) for the determination of major funds. In addition to funds that meet the minimum criteria, any other governmental or enterprise fund that the government believes is of particular importance to financial statement users may be reported as a major fund.

The County reports the following major governmental funds:

General Fund This fund accounts for resources traditionally associated with government and all other resources, which are not required legally, or by sound financial management, to be accounted for in another fund. Revenues are primarily derived from taxes; licenses, permits and franchises; fines, forfeitures and penalties; use of money and property; intergovernmental revenues; charges for services; and other revenues. Expenditures are primarily expended for functions of general government, public protection, public ways and facilities, health and sanitation, public assistance, capital outlay, and debt service.

Flood Control District This fund accounts for the planning, construction, operation, and maintenance of regional flood protection and water conservation works, such as dams, control channels, retarding basins, and other flood control infrastructure, charges for services revenue, along with property taxes restricted for flood control activities, provide most of this fund's revenues.

Other Public Protection This fund accounts for revenues restricted for safety and law enforcement activities such as the child support program, automated fingerprint identification systems, and investigation team. Revenues consist primarily of federal grants, state grants, fines, use of money and property, and charges for services.

Mental Health Services Act This fund accounts for the County's mental health programs for children, transition age youth, adults, older adults and families pursuant to the State of California Mental Health Services Act. Revenues consist primarily from a 1% income tax on personal income in excess of one million dollars.

The County reports the following proprietary enterprise funds:

B. Government-Wide and Fund Financial Statements (Continued)

Fund Financial Statements (Continued)

Airport This major fund accounts for major construction and for self-supporting aviation-related activities rendered at John Wayne Airport, Orange County. The airport's staff coordinates and administers general business activities related to the Airport, including concessions, commercial and general aviation operations, leased property, auto parking, and aircraft tie-down facilities.

OC Waste & Recycling This major fund accounts for the operation, expansion, and closing of existing landfills. Monies are collected through landfill disposal fees, which users pay based primarily on tonnage.

Compressed Natural Gas (CNG) This nonmajor fund accounts for the operation and maintenance of the CNG facility. Revenues consist primarily of CNG sales to both the County and the public.

Additionally, the County reports the following fund types:

Internal Service Funds The County reports nine Internal Service Fund types. These proprietary funds are used to report activities that provide goods or services to other funds of the County. These funds account for fleet services, publishing services, and other services (including claims for workers' compensation, property damage, information & technology, insurance and various health programs) provided to other County departments or agencies. The Internal Service Funds receive revenues on a cost-reimbursement basis.

Fiduciary Fund Types The County has a total of 424 individual trust and custodial funds for FY 2022-23. These trust and custodial funds are used to account for assets held on behalf of outside parties including other governments. They also include funds to account for financial activities of Pension and OPEB Plans administered by OCERS. When these assets are held under the terms of a formal trust agreement, a private-purpose trust, pension trust or OPEB trust fund is used. An investment trust fund is used for the portion of the County investment pool representing external pool participants, whose assets are deemed to be held in trust by the County's Treasurer. Custodial funds are used to account for assets that the County holds on behalf of others as their agent.

The County reports the following trust and custodial funds:

Private-Purpose Trust These funds are used to account for trust arrangements where the principal and income benefit individuals, private organizations, or other governments. Examples of private-purpose trusts include unidentified funds, unclaimed prisoner funds, and decedents' property held for escheatment. Also included are the County accounts for the former redevelopment agency.

Investment Trust (Orange County Treasurer's Pool)

Orange County Investment Pool

These funds are used to account for assets, consisting primarily of cash and investments, of separate legal entities, other than school and community college districts, which participate in the County Treasurer's Investment Pool, and includes debt reserves for school and community college districts.

Orange County Educational Investment Pool

These funds are used to account for assets, consisting primarily of cash and investments, of school and community college districts that participate in the County Treasurer's External Educational Investment Pool.

Pension and Other Postemployment Benefits Trust The County reports nine Pension and OPEB Trust funds, which includes three trust funds under OCERS, the County's fiduciary component unit. These trust funds are used to account for resources that are required to be held in trust for the members and beneficiaries of defined benefit and defined contribution pension and OPEB plans.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Government-Wide and Fund Financial Statements (Continued)

Fund Financial Statements (Continued)

Custodial Funds These funds are used to report fiduciary activities that are not required to be reported in pension trust funds, investment trust funds, or private-purpose trust funds, such as funds to hold property taxes and special assessments collected on behalf of various local governments, monies held in the Redevelopment Property Tax Trust funds, civil filing fees, and special assessment districts debt service funds. They also include the Orange County Transportation Agency, which is an OCERS custodial fund that is used to account for the Health Care Plan established in accordance with Internal Revenue Code (IRC) Section 115. The County's custodial funds use the economic resources measurement focus and accrual basis of accounting.

C. Measurement Focus and Basis of Accounting

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets, deferred outflows of resources and all liabilities, and deferred inflows of resources associated with the operation of these funds are included on the Statement of Net Position. Receivables are reported net of allowances for uncollectible receivables in the Statement of Net Position. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

For purposes of not overstating the true costs and program revenues reported for the various functions, interfund activities (e.g. interfund transfers and interfund reimbursements) have been eliminated from the government-wide Statement of Activities. Exceptions to the general rule are interfund services provided and used between functions, such as charges for auditing and accounting fees between the general government function and various other functions of the primary government. Elimination of these interfund activities would distort the direct costs and program revenues reported for the various functions concerned. When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, and then unrestricted resources as they are needed. Additionally, only the interfund transfers between governmental and business-type activities are reported in the Statement of Activities.

Governmental Fund Financial Statements

Governmental funds are used to report all governmental activities that are not primarily self-funded by fees or charges to external users or other funds and are not fiduciary activities. These activities include the County's basic services to its citizenry and to other agencies, including general government, public protection, public ways and facilities, health and sanitation, public assistance, education, and recreation and cultural services. There are five types of governmental funds:

- *General Fund*
- *Special Revenue Funds*
- *Capital Projects Funds*
- *Debt Service Funds*
- *Permanent Fund*

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method of accounting, revenues and other governmental fund type financial resources (e.g., bond issuance proceeds) are recognized in the accounting period in which they become susceptible to accrual—that is, when they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

Governmental Fund Financial Statements (Continued)

soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days after the end of the current fiscal period. Revenues that are accrued include real and personal property taxes, sales taxes, property taxes in-lieu of motor vehicle license fees, fines, forfeitures and penalties, interest, federal and state grants and subventions, charges for current services, and the portion of long-term sales contracts and leases receivable that are measurable and available and where collectability is assured. Revenues that are not considered susceptible to accrual include penalties on delinquent property taxes and minor licenses and permits. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met, provided that the revenues are also available. If intergovernmental revenues are expected to be received later than 60 days following the end of the fiscal year, then a receivable is recorded along with deferred inflows of resources. Once the intergovernmental revenue is received, revenue and cash are recorded, and the receivable and deferred inflows of resources are eliminated. Receipts that have not met all of the earning requirements are reported as unearned revenue received. Refer to Note 21, Deferred Outflows and Inflows of Resources for additional information.

Most expenditures are recorded when the related fund liabilities are incurred. However, inventory type items are considered expenditures at the time of use and principal and interest expenditures on bonded debt, financed purchases, leases and subscription-based information technology arrangements (SBITAs) are recorded in the year they become due for payment. Costs of claims, judgments, compensated employee absences and employer pension contributions are recorded as expenditures at fiscal year-end if they are due and payable. The related long-term obligation is recorded in the government-wide financial statements. Commitments such as purchase orders and contracts for materials and services are recorded as encumbrances. General capital asset acquisitions, including entering into contracts, giving the County the right to use leased assets, are reported as expenditures in governmental funds. Issuance of long-term debt and financing through leases are reported as other financing sources.

Because the fund financial statements are presented on a different measurement focus and basis of accounting than the government-wide financial statements, a reconciliation is presented to explain the adjustments necessary to reconcile fund financial statements to the government-wide financial statements.

Proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Proprietary funds are used to account for business-type activities, which are financed mainly by fees and charges to users of the services provided by the funds' operations. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

There are two types of proprietary funds:

- *Enterprise Funds*
- *Internal Service Funds*

The County has three enterprise funds: Airport, OC Waste & Recycling, and CNG. The principal operating revenues of the Airport, OC Waste & Recycling, and CNG enterprise funds are charges to customers for (1) landing fees, terminal space rental, auto parking, concessions, revenue from use of property, revenue from services, and aircraft tie-down fees, (2) disposal fees charged to users of the waste disposal sites, and (3) natural gas sales, respectively.

Internal Service Funds are used to report activities that provide goods or services to other funds of the County. The internal service funds receive revenues through cost-reimbursements of the goods and

Governmental Fund Financial Statements (Continued)

services provided to other County departments and agencies. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation and amortization on capital assets.

Fiduciary Fund Financial Statements

Fiduciary funds are used to account for assets held in a trustee or custodial capacity and cannot be used to support the County's own programs. They are accounted for using the economic resources measurement focus and accrual basis of accounting.

D. Budget Adoption and Revision

No later than October 2nd of each year, after conducting public hearings concerning the recommended budget, the Board adopts a budget in accordance with Government Code Sections 29000-29144 and 30200. The County publishes the results of this initial budgeting process in a separate report, the "Adopted Budget," which specifies all accounts established within each fund, department and budget control (a collection of account numbers necessary to fund a certain division or set of goal related activities) and will not include the carried forward prior year encumbrances. However, the original and final budget amounts presented in the financial statements may differ due to the inclusion of the carried forward prior year encumbrances.

Throughout the year, the original budget is adjusted to reflect increases or decreases in revenues and changes in fund balance, offset by an equal amount of adjustments to appropriations. Department heads are authorized to approve appropriation transfers within a fund, department and budget control. However, appropriation transfers between funds/departments/budget controls require approval of the Board. Accordingly, the lowest level of budgetary control exercised by the County's governing body is the fund, department, and budget control level.

Annual budgets are adopted on a basis consistent with GAAP except for the general fund and major special revenue funds as detailed in the Budgetary Comparison Statement reconciliation between the budgetary basis and GAAP basis. Budgeted governmental funds consist of the general fund, major funds, and other nonmajor governmental funds. Budgetary comparison statements are prepared only for the general fund and major special revenue funds (listed below) for which the County legally adopts annual budgets, and are presented as part of the basic financial statements. The County did not legally adopt annual budgets for the Capital Facilities Development Corporation Fund, South OC Public Financing Authority Fund, and Capital Facilities Construction Fund. The budgetary comparison statements provide three separate types of information: (1) the original budget, which is the first complete appropriated budget; (2) the final amended budget, which includes all legally authorized changes regardless of when they occurred; and (3) the actual revenues and expenditures during the year for budget-to-actual comparisons. The actual comparisons are presented on a budgetary basis and will not compare to the Statement of Revenues, Expenditures and Changes in Fund Balance.

The major special revenue fund Budgetary Comparison Statements reported by the County in the Basic Financial Statements are:

- *Flood Control District*
- *Other Public Protection*
- *Mental Health Services Act*

The intent of preparing the Budgetary Comparison Statement reconciliation is to provide the reader with a more complete understanding and appreciation for the difference between budgetary revenues and other financing sources and expenditures and other financing uses presented in the Budgetary Comparison Statements and the revenues, expenditures, and other financing sources (uses) reported on the Statement

of Revenues, Expenditures, and Changes in Fund Balances, which is prepared in accordance with GAAP. The major areas of difference are as follows:

- Under the budgetary basis, investment income is recognized on an amortized cost basis. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools" (GASB Statement No. 31), all investment income, including changes in fair value (gains/losses) of investments, are recognized as investment income.
- Under the budgetary basis, revenues are normally recorded when earned. For GAAP basis, in accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions" (GASB Statement No. 33), and GASB Statement No. 65, all nonexchange transactions, such as government-mandated nonexchange transactions and voluntary nonexchange transactions, can be accrued only if they are measurable and "available." "Available" has been defined by GASB Statement No. 33 as "collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period." The County has established the availability period as 60 days after the end of the fiscal year. In order to ensure all transactions for the current fiscal year meet this criterion, the County analyzes revenue receipts through August 31 and records adjustments to deferred inflows of resources for transactions that are not collected.
- GASB Statement No. 84 establishes criteria for identifying fiduciary activities for accounting and financial reporting purposes. For the GAAP financial statements, an adjustment to record public-purpose trust monies as revenue in the benefitting funds is recorded for funds which continue to be accounted for as fiduciary funds on a budgetary basis, but do not meet the definition of a fiduciary fund.
- Under the budgetary basis, intrafund transfers are recognized as other financing sources (uses). For the GAAP financial statements, intrafund transfers are eliminated to minimize the "grossing-up" of intrafund transfers.
- Under the budgetary basis, interfund reimbursements or repayments from funds responsible for particular expenditures or expenses to the funds that initially paid for them are recorded as revenues in the payer fund. In accordance with GASB Statement No. 34, an adjustment to eliminate interfund reimbursements is recorded for the GAAP financial statements.
- In accordance with GAAP, the County has established guidelines for recording expenditure accruals. In order to reasonably ensure that accruals for current fiscal year transactions are materially accurate, the County performs an analysis to identify expenditure accruals for the GAAP financial statements.
- The OC Animal Care Center used cash basis to record money it received from invoicing due to the low collection rate. Per GAAP, the receivables and the amount of the allowance for the doubtful accounts should be recorded.
- Under the budgetary basis, lease rental payments were recorded in the Information Technology Internal Service Fund (ISF). Per GAAP, the lease payments were reclassified to the fund where the financed purchase liability is recorded.
- Under a budgetary basis, the County bills department for their portion of the pension required contribution to OCERS and recognizes the portion that is not forwarded to OCERS as revenue because the County Investment Account at OCERS funded this portion of the required contribution. For the GAAP financial statements, the County reclassified the budgeted revenue for the portion of the required contribution funded by the County Investment Account to reduce expenditures.
- For the GAAP financial statements, the County recorded an expenditure and other financing source for the period the lease/subscription is initially recognized for the present value of the payments expected to be made during the lease/subscription term.

E. Fund Balance

The County applies GASB Statement No. 54 "*Fund Balance Reporting and Governmental Fund Type Definitions*" (GASB Statement No. 54) for financial statement purposes. The intent of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions.

The balance sheet reports the following five different classifications of fund balance:

Nonspendable Fund Balance Amounts that are not in a spendable form, such as long-term receivables, inventory or prepaid costs, or that are required to be maintained intact, such as the corpus of an endowment fund. The County's Regional Park Endowment Permanent Fund reports the original donation as nonspendable in accordance with donor requirements.

Restricted Fund Balance Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed Fund Balance Amounts constrained to specific purposes by a formal action of the highest level of decision-making authority. The constraint remains binding unless the government takes the same highest-level action to remove or change the constraint. The Board is the County's highest level of decision-making authority. The highest level of formal action to commit resources is an ordinance.

Assigned Fund Balance Amounts a government intends to use for a specific purpose that are neither restricted nor committed; intent can be expressed by the governing body (Board) or by an official or body to which the governing body delegates authority (CEO, County Department Heads, and County Purchasing Agent). The County's budget development guidelines provide the policy that is used by all County departments to determine the designation of assigned fund balance. Assigned fund balance includes the aggregation of resources for capital projects, which are expected to develop in future periods and fund balance reserved for outstanding contractual obligations for which goods and services have not yet been received or approved by the Board for appropriation in FY 2022-23, through the County's budget process.

Unassigned Fund Balance Residual amounts within the General Fund in excess of what can be properly classified in one of the four other fund balance classifications. Within all other governmental funds, unassigned fund balance is comprised of the negative residual in excess of what can be properly classified as nonspendable, restricted, or committed.

With regards to the hierarchy for spending, when expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, the County's policy is to spend restricted fund balance before unrestricted fund balance. When committed, assigned, and unassigned fund balance is available for the same specific purpose, the County's policy is to expend fund balance according to the following priority: committed, assigned, and then unassigned.

Following are detailed descriptions within each fund balance classification reported in the balance sheet:

Annually, the Board adopts a five-year Strategic Financial Plan (SFP). The County of Orange SFP includes a policy for Fund Balance Unassigned (FBU) that eliminates FBU as a funding source for the next year's budget as a significant step toward reducing structural reliance on one-time funds. Positive variances in estimated FBU are to be added to strategic reserves, consistent with the Board policy. The assigned fund balance includes funding approved by the Board as part of the April 25, 2023 Budget Update. These funds were transferred to other governmental funds in July 2023.

F. Cash and Investments

The County's cash and investments are called the Orange County Investment Fund (OCIF), which includes all cash and investment balances entrusted to the Treasurer and may include cash on hand, demand deposits, restricted cash, investments in Orange County Treasurer's Pool (OCTP) and specific investments. For reporting purposes, OCTP is further divided into the Orange County Investment Pool (OCIP) and the Orange County Educational Investment Pool (OCEIP), the latter of which is utilized exclusively by the County's public school and community college districts. The OCTP is maintained for the County, Educational Districts and other Non-County government entities for the purpose of benefiting from economies of scale through pooled investment activities.

The County has reported investment values at fair value in the accompanying financial statements, using the fair value measurement within the fair value hierarchy established by GASB Statement No. 72 "Fair Value Measurement and Application" (GASB Statement No. 72).

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Cash and Investments (Continued)

Proceeds from County-issued bonds are held by trustees and are invested in instruments authorized by the respective trust agreements may include money market mutual funds, investment agreements, repurchase agreements, and U.S. Government securities. All investments are measured at fair value. The trustees generally use an independent service to value those securities.

Participants' shares are valued using an amortized cost basis and income is distributed to participants based on their relative participation during the period. Income is calculated based on (1) realized investment gains and losses calculated on an amortized cost basis, (2) interest income based on stated rates (both paid and accrued), (3) amortization of discounts and premiums on a straight-line basis, and reduced by (4) actual investment administrative cost of such investing, depositing or handling of funds. This method differs from the fair value method used to value investments in this statement because the amortized cost method is not designed to distribute to participants all unrealized gains and losses in the fair values of the pools' investments. Refer to Note 4, Cash and Investments for additional information.

The investments in the Retiree Medical Defined Benefit Trust are managed by OCERS and are reported at fair value. Refer to Note 20, Other Postemployment Benefits, to obtain OCERS stand-alone annual financial statements.

G. Inventory of Materials and Supplies

Inventories consist of expendable materials and supplies held for consumption. Inventories are valued at cost, which is determined on a moving weighted-average basis. Applicable fund balances are non-spendable for amounts equal to the inventories on hand at the end of the fiscal year, as these amounts are not available for appropriation and expenditure. The costs of inventory items are recorded as expenditures/expenses when issued to user departments.

H. Prepaid Costs

The County may pay for certain types of services in advance, such as pension costs and rents, and recognizes these expenditures/expenses when consumed.

Prepaid costs in the government-wide financial statements include the prepaid costs reported in the fund financial statements, reduced for 50% of the prepaid asset related to the pension contribution after the measurement date in accordance with GASB Statement No. 68 "Accounting and Financial Reporting for Pensions" (GASB Statement No. 68) and GASB Statement No. 71 "Pension Transition for Contributions Made Subsequent to the Measurement Date" (GASB Statement No. 71). Refer to Note 19, Retirement Plans for additional information.

I. Capital Assets

Capital assets are defined as assets of a long-term character that are intended to be held or used in operations, such as land, land improvements, structures and improvements, equipment, intangible, intangible right-to-use lease and SBITAs assets, and infrastructure. Infrastructure assets are grouped by categories that include flood channels, roads, bridges, trails, traffic signals, watersheds, and harbors.

Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. Intangible right-to-use assets are recorded at the present value of future lease/subscription payments over the contract/subscription term. In the case of SBITAs, capitalizable initial implementation costs are included as well. The County's capitalization thresholds shown in the following table are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Capital Assets (Continued)

| <u>Asset Type</u> | <u>Capitalization Threshold</u> |
|----------------------------------|---------------------------------|
| Land | \$ 0 |
| Land Improvements | \$150 |
| Structures and Improvements | \$150 |
| Equipment | \$ 5 |
| Intangible: | |
| Software (Commercially Acquired) | \$ 5 |
| All Other | \$150 |
| Intangible Right-To-Use Asset: | |
| Lease Equipment | \$10 |
| Lease IT Equipment | \$10 |
| Lease Structure and Improvements | \$ 0 |
| Lease Land | \$ 0 |
| SBITAs | \$10 |
| Infrastructure | \$150 |

Depreciation and amortization are calculated on a straight-line basis over the estimated useful lives of the related assets. Intangible right-to-use lease and SBITA assets are amortized over the shorter of lease/subscription term or the estimated useful life of the asset. No depreciation or amortization is provided on construction in progress or intangible assets in progress, respectively, until the project is completed and the asset is placed into service. Estimated useful lives of structures and improvements, equipment, intangibles, and infrastructure are as follows:

| | |
|---|-----------------|
| Land Improvements | 10 to 20 years |
| Structures and Improvements | 5 to 60 years |
| Equipment | 2 to 40 years |
| Intangibles: | |
| Computer Software | 2 to 20 years |
| Intangible Right-To-Use Assets: | |
| Lease Equipment | 2 to 5 years |
| Lease IT Equipment | 2 to 3 years |
| Lease Structures and Improvements | 2 to 28 years |
| Lease Land | 6 to 13 years |
| SBITAs | 2 to 5 years |
| Infrastructure: | |
| Flood Channels | 20 to 100 years |
| Roads | 10 to 20 years |
| Bridges | 50 to 75 years |
| Trails | 20 to 75 years |
| Traffic Signals | 15 to 75 years |
| Harbors | 20 to 50 years |
| Airport-Runways, Taxiways, and Aprons | 15 to 60 years |
| OC Waste & Recycling-Cell Development, Drainage Channels, Facility Improvements, Habitat, Landfill Gas/Environmental, Closure/Other Earthwork | 2 to 153 years |

Maintenance and repair costs are expensed in the period incurred. Expenditures that materially increase the capacity or efficiency or extend the useful life of an asset are capitalized and depreciated. Upon the sale or retirement of the capital asset, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the Statement of Activities and Proprietary Funds' Statement of Revenues, Expenses and Changes in Fund Net Position.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Capital Assets (Continued)

An impairment loss of capital assets is measured using one of several allowable methodologies based on the reason for the impairment, which is reported net of insurance recovery, and is reported as a program or operating expense, special item or extraordinary item, depending on the circumstances.

J. Leases

GASB Statement No. 87 defines a lease as a contract that transfers the right to use another entity's asset for a specific period of time in an exchange or exchange-like transaction. The County has entered into various lease agreements, primarily for office buildings, office equipment and other equipment. Under these contracts, the County recognizes a lease liability and a lease asset (intangible right-to-use asset) at the commencement of the lease term in the government-wide financial statements or Proprietary Funds' Statement of Net Position. The lease liability is measured at the present value of payments expected to be made during the lease term (less any lease incentives). The lease asset is measured at the amount of the initial measurement of the lease liability, plus any payments made to the lessor at or before the commencement of the lease term and certain direct costs.

Likewise, the County leases its real property, structures and improvements to others, which include the Airport's non-cancellable leases with air carriers and concessionaires, OC Waste & Recycling landfill gas lease agreements, and other recreational boating, golf course, retail, restaurants, and commercial operations at County parks and facilities. Under these contracts, the County recognizes a leases receivable and a deferred inflows of resources at the commencement of the lease term in the fund financial statements. The leases receivable is measured at the present value of lease payments expected to be received during the lease term. The deferred inflows of resources is measured at the value of the leases receivable plus any payments received at or before the commencement of the lease term that relate to future periods.

An amendment to a lease contract is considered a lease modification, unless the lessee's right to use the underlying asset decreases, in which case it is considered a partial or full lease termination. A lease termination is accounted for by reducing the carrying values of the lease liability and lease asset by a lessee, or the leases receivable and deferred inflows of resources by the lessor, with any difference being recognized as a gain or loss.

The future lease payments are discounted using the interest rate implicit in the lease contract. If the interest rate is not available, the County uses its incremental borrowing rate determined by CEO Budget and Finance. The lease term is determined by the sum of the non-cancelable periods, plus renewal options when they are reasonably certain of being exercised or early termination options when they are reasonably certain of not being exercised.

K. Subscription-Based IT Arrangements (SBITA)

GASB Statement No. 96, "*Subscription-Based Information Technology Arrangements*" (GASB Statement No. 96) defines a SBITA as a contract that transfers the right to use another entity's subscription asset for a specific period of time in an exchange or exchange-like transaction. The County has entered into various SBITA agreements, primarily for Software as a Service (SaaS), Platform as a Service (PaaS), and Infrastructure as a Service (IaaS). Under these contracts, the County recognizes a SBITA liability and a SBITA asset (intangible right-to-use SBITA asset) at the commencement of the SBITA term in the government-wide financial statements or Proprietary Funds' Statement of Net Position. The SBITA liability is measured at the present value of payments expected to be made during the SBITA term (less any SBITA incentives). The SBITA asset is measured at the amount of the initial measurement of the SBITA liability, plus any payments made to the vendor at or before the commencement of the SBITA term and any capitalizable initial implementation costs.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Subscription-Based IT Arrangements (SBITA) (Continued)

An amendment to a SBITA contract is considered a SBITA modification, unless the County's right to use the underlying asset decreases, in which case it is considered a partial or full SBITA termination. A SBITA termination is accounted for by reducing the carrying values of the SBITA liability and SBITA asset by the County, with any difference being recognized as a gain or loss.

The future SBITA payments are discounted using the interest rate implicit in the SBITA contract. If the interest rate is not available, the County uses its incremental borrowing rate determined by CEO Budget and Finance. The SBITA term is determined by the sum of the non-cancelable periods, plus renewal options when they are reasonably certain of being exercised or early termination options when they are reasonably certain of not being exercised.

L. Deferred Outflows/Inflows of Resources

The County reports deferred outflows and inflows of resources in its governmental, proprietary, fiduciary, and government-wide financial statements. Deferred outflows of resources represent a consumption of net assets by the government that is applicable to a future reporting period. Deferred inflows of resources represent an acquisition of net assets by the government that is applicable to a future period. Refer to Note 21, Deferred Outflows and Inflows of Resources for a detailed listing of the deferred inflows and outflows of resources the County has recognized.

M. Self-Insurance

The County is self-insured for general and automobile liability claims, workers' compensation claims, and for claims arising under the County self-insured PPO Health Plans, short-term disability plans, dental plan, Reserve Deputy Sheriff accidental death and dismemberment plan, and unemployment benefits program. Liabilities are accrued based upon case reserves, development of known claims, incurred but not reported claims and allocated and unallocated loss adjustment expenses. For additional information, refer to Note 17, Self-Insurance.

N. Property Taxes

The provisions of the California Constitution and Revenue and Taxation Code govern assessment, collection, and apportionment of real and personal property taxes. Real and personal property taxes are computed by applying approved property tax rates to the assessed value of properties as determined by the County Assessor, in the case of locally assessed property and as determined by the State Board of Equalization in the case of state-assessed properties. Property taxes are levied annually, with the exception of the supplemental property taxes, which are levied when supplemental assessment events, such as sales of property or new construction, take place.

The County collects property taxes on behalf of all property tax-receiving agencies in Orange County. Property tax-receiving agencies include the school districts, cities, special districts not governed by the Board, special districts governed by the Board, redevelopment successor agencies, and the County General Fund.

Property taxes receivables are recorded as of the date levied in property tax unapportioned funds, which are classified as custodial funds. When collected, the property taxes are deposited into the County Treasury in the property tax unapportioned funds, where they are held in the unapportioned taxes liability accounts pending periodic apportionment to the tax-receiving agencies. The property tax unapportioned funds are included in the custodial funds category of the County's fund financial statements because the unapportioned taxes are collected and held on behalf of other governmental agencies.

Property tax collections are apportioned (disbursed) to the tax-receiving agencies periodically from the tax unapportioned funds based on various factors including statutory requirements, materiality of collections

received, tax delinquency dates, the type of property tax roll unapportioned fund (e.g. secured, unsecured, supplemental, delinquent secured, delinquent unsecured, delinquent supplemental, homeowners' property tax subvention, or state-assessed properties, etc.), and cash flow needs of the tax-receiving agencies. Property tax revenues are recognized in the fiscal year for which they are levied, provided they are due within the fiscal year and collected within 60 days after the fiscal year-end. Property tax revenues are also recognized for unsecured and supplemental property taxes that are due at year-end, and are collected within 60 days after the fiscal year-end, but will not be apportioned until the next fiscal year due to the timing of the tax apportionment schedule. The County's portion of the unapportioned taxes at June 30, 2023 is allocated to and recorded in the corresponding funds for reporting purposes.

Unsecured and supplemental property tax levies that are due within the fiscal year but are unpaid at fiscal year-end, are recorded as deferred inflows of resources in the fund-level financial statements, and recognized as revenue in the government-wide financial statements. The County records an allowance to recognize uncollectible taxes receivable.

Local assessed values are subject to appeal. The County maintains records of disputed property taxes, such as those properties for which the values have been appealed to the local Assessment Appeals Boards. Upon final disposition of the appeals and disputes, the amounts are either refunded to taxpayers or the tax bills are corrected.

The following are significant dates on the property tax calendar:

| | California Revenue & Taxation Code Section |
|--|---|
| Supplemental assessments are effective on the 1st day of the month following the new construction or ownership change. | 75.41 |
| Property tax lien date is January 1. | 2192 |
| Unsecured taxes on the roll as of July 31 are delinquent August 31. | 2922 |
| Assessor delivers roll to Auditor-Controller July 1. | 616, 617 |
| Tax roll is delivered to the Treasurer-Tax Collector on or before the levy date (the 4th Monday in September). | 2601 |
| Secured tax payment due dates are: | |

| 2nd Installment - April 10. | 2618 |
| Declaration of tax default for unpaid taxes occurs July 1. | 3436 |
| Power to sell is effective five years (three years for nonresidential commercial property), after tax default. | 3691 |

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

O. Compensated Employee Absences

Compensated employee absences (vacation, compensatory time off, performance incentive plan time off, annual leave, and sick/healthcare leave) are accrued as an expense and liability in the proprietary funds when incurred. In the governmental funds, only those amounts that are due and payable at year-end are accrued. Compensated employee absences that exceed this amount represent a reconciling item between the fund and government-wide presentations.

P. Pensions

The County recognizes a net pension liability to reflect the County's proportionate share of the excess of the total pension liability over the fiduciary net position of the County's retirement plans.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of the OCERS and the Extra-Help Defined Benefit Plan and additions to/deductions from OCERS and the Extra-Help Defined Benefit Plan fiduciary net position have been determined on the same basis as they are reported by OCERS and the Extra-Help Defined Benefit Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

At June 30, 2023, the County's net pension liability from OCERS was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability was determined by using actuarial valuation results. The County's net pension liability from the Extra-Help Defined Benefit Plan was measured as of June 30, 2023; and the plan's total pension liability used to calculate the net pension liability was determined by rolling forward the July 1, 2021 valuation to June 30, 2023.

Q. Other Postemployment Benefits (OPEB)

The County recognizes a net OPEB liability to reflect the County's proportionate share of the excess of the total OPEB liability over the fiduciary net position of the County's Retiree Medical Plan. The Retiree Medical Plan is reported in the County's financial statements and has a plan year-end of December 31, 2022.

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the County's Retiree Medical Plan and additions to/deductions from the Retiree Medical Plan's fiduciary net position have been determined on the same basis as they are reported by the Retiree Medical Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

At June 30, 2023, the County's net OPEB liability was measured as of December 31, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2021.

R. Statement of Cash Flows

A Statement of Cash Flows is presented for proprietary fund types. The County's cash and cash equivalents for cash flow reporting purposes are considered to be cash on hand, demand deposits, unrestricted and restricted investments held in the County Treasury's investment pooled funds and outside trustees.

Only investments with maturities of three months or less at the time of purchase may be classified as cash equivalent.

1. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

S. Indirect Costs

County indirect costs are allocated to benefitting departments in the "Indirect Expenses Allocation" column of the government-wide Statement of Activities. Allocated costs are from the County's FY 2022-23 County-Wide Cost Allocation Plan (CWCAP), which was prepared in accordance with the Code of Federal Regulation, Title 2, Part 200. For financial statement purposes, the County has elected to allocate and record indirect costs to budget controls within the General Fund in order to match the reimbursement of indirect costs recorded as program revenues to the same function.

T. Effects of New Pronouncements

The following lists recent GASB Pronouncements that have been implemented in FY 2022-23:

In May 2019, GASB issued Statement No. 91, "*Conduit Debt Obligations*." This statement provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with commitments extended by issuers, arrangements associated with conduit debt obligations, and related note disclosures. The statement requires issuers to disclose general information about their conduit debt obligations, organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. The requirements of this statement are effective for reporting periods beginning after December 15, 2021, and all reporting periods thereafter. The County implemented this Statement without any impact to the County.

In March 2020, GASB issued Statement No. 94, "*Public-Private and Public-Public Partnerships and Availability Payment Arrangements*." (GASB Statement No. 94). This statement improves financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). It also provides guidance for accounting and financial reporting for availability payment arrangements. The requirements of this Statement are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. The County implemented this Statement in FY 2022-23. Refer to Note 7, Service Concession Arrangements and Note 2, Change in Accounting Principle for additional information.

In May 2020, GASB issued Statement No. 96, "*Subscription-Based Information Technology Arrangements*." This statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs). The requirements of this Statement are effective for fiscal years beginning after June 15, 2022. The Statement was implemented in FY 2022-23. The effect of the implementation of this standard on beginning net position is disclosed in Note 2, Change in Accounting Principle and the additional disclosures required by this standard are included in Note 14, Subscription-Based Information Technology Arrangements.

The following summarizes recent GASB Pronouncements that will be implemented in future financial statements. The County has not determined the effect of these Statements.

In April 2022, GASB issued Statement No. 99, "*Omnibus 2022*." The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of other GASB statements, and (2) adding accounting and financial reporting guidance for financial guarantees. Portions of this Statement are effective upon issuance and were implemented in FY 2021-22 without an impact to the County. Certain requirements related to the leases, PPPs, and SBITAs, are effective for reporting periods beginning after June 15, 2022. The County implemented this requirement in FY 2022-23 without any impact to the County. The requirements related to the financial guarantees and the classification and reporting of certain derivatives are effective for periods beginning after June 13, 2023, which requires the County to implement them in FY 2023-24.

In June 2022, GASB issued Statement No. 100, "*Accounting Changes and Error Corrections-an amendment of GASB Statement No.62*." This Statement improves accounting and financial reporting requirements for accounting changes and errors corrections to provide more understandable, reliable,

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

T. Effects of New Pronouncements (Continued)

relevant, consistent, and comparable information. It also requires the display of note disclosures of the accounting change and error corrections. The requirements of this statement are effective for reporting periods after June 15, 2023, which requires the County to implement the Statement in FY 2023-24.

In June 2022, GASB issued Statement No. 101, “*Compensated Absences*” in which the primary objective is to update the recognition and measurement guidance for compensated absences. This is achieved by a unified model and amends certain previously required disclosures. The requirements of this statement are effective for reporting periods after December 15, 2023, which requires the County to implement the Statement in FY 2023-24.

U. Use of Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates. Where significant estimates have been made in preparing these financial statements, they are described in the applicable footnotes.

V. Consolidation of Governmental Funds Balance Sheet and Proprietary Funds Statement of Net Position Line Items in Statement of Net Position

Several asset line items in the Governmental Funds Balance Sheet and the Proprietary Funds Statement of Net Position are combined into one line item in the Government-Wide Statement of Net Position for presentation purposes. In order to avoid any confusion, the following table lists the line items shown in the Governmental and Proprietary Fund financial statements that are condensed together in the Government-Wide Statement of Net Position.

| Government-Wide Statement of Net Position Line Item | Corresponding Governmental Funds Balance Sheet or Proprietary Funds Statement of Net Position Line Item |
|--|---|
| Cash and Cash Equivalents | Pooled Cash/Investments; Cash Equivalents/Specific Investments; Imprest Cash Funds; and Cash/Cash Equivalents |
| Restricted Cash and Cash Equivalents | Restricted Cash and Investments with Trustee; Restricted Pooled Cash/Investments; and Restricted Pooled Cash/Investments–Closure and Postclosure Care Costs |

2. CHANGE IN ACCOUNTING PRINCIPLE

As discussed in the Summary of Significant Accounting Policies’ “Effects of New Pronouncements,” the County implemented GASB Statement No. 94 and GASB Statement No. 96 in the current financial statements, which resulted in the restatement of the following:

Restatement of Statement of Net Position:

| | Governmental Activities | Business-Type Activities | CalOptima Health | Total |
|--|----------------------------|-----------------------------|---------------------|---------------------|
| Net Position at June 30, 2022 | \$ 3,448,475 | \$ 1,598,452 | \$ 1,419,467 | \$ 5,046,927 |

Refer to Note 7, Service Concession Arrangements for more information on GASB Statement No. 94. Refer to Note 6, Changes in Capital Assets and Note 14, Subscription-Based Information Technology Arrangements, for additional information on GASB Statement No. 96.

3. DEFICIT FUND EQUITY

The Property and Casualty ISF reported a deficit net position balance of \$28,381. The deficit results from the amount calculated in the annual actuarial study which includes case reserves, development of known claims, incurred but not reported claims, allocated and unallocated loss adjustment expenses, and a discount for anticipated investment income. The deficit is primarily due to elevated insurance premiums on the back of a hard commercial insurance market for the last several years, combined with higher than anticipated claim and settlement costs. Charges to County departments have not provided sufficient cash flows to entirely fund the deficit in the Property and Casualty ISF. The County will continue to review charges to departments and manage the funding status of the Property and Casualty Program.

The Workers’ Compensation ISF reported a deficit net position balance of \$5,126. The deficit results from the amount calculated in the annual actuarial study which includes case reserves, development of known claims, incurred but not reported claims, allocated and unallocated loss adjustment expenses, and a discount for anticipated investment income. The deficit decreased by \$8,715 from the previous fiscal year primarily due to stable charges to program participants combined with favorable actuarial results. Charges to County departments have not provided sufficient cash flows to entirely fund the deficit in the Workers’ Compensation ISF. The County will continue to review charges to departments and manage the funding status of the Workers’ Compensation Program.

The Retiree Medical Plan 115 Trust reported a deficit net position balance of \$61,242. The deficit increased by \$59,955 due to the timing of employer contributions to fund the transition of new and existing employees to the County Health Reimbursement Arrangement Plan (HRA) as part of the restructuring of the Retiree Medical Plan. Refer to Note 20, Other Postemployment Benefits for more information.

4. CASH AND INVESTMENTS

The elected Treasurer is responsible for authorizing all County bank accounts and pursuant to California Government Code (CGC) Sections 27000.1–27000.5, 27130–27137 and 53600–53686 is responsible for conducting County investment activities for all public funds in the OCIF. The County Treasury contains pooled funds called the OCTP in an external investment pool wherein monies of the County and other legally separate external entities, which are not part of the County reporting entity, are commingled (pooled) for investment purposes only and invested on the participants’ behalf. The OCTP is not registered with the Securities and Exchange Commission (SEC) as an investment company, and therefore is exempt from SEC rules. The Treasurer will act on a “best efforts” basis to stabilize the Net Asset Value (NAV) at or above \$0.9975 (in absolute dollar amounts). OCTP does not have any legally binding guarantees of share values. The OCTP’s maximum duration is 1.5 years. For reporting purposes only, the Treasurer separates OCTP into the OCIP and the OCEIP. In addition to the pooled funds in OCTP, the Treasurer separately invests other non-pooled funds (Specific Investments).

The Treasurer further invests pooled funds from the OCTP into three Funds: The Orange County Money Market Fund (OCMMF), the Orange County Educational Money Market Fund (OCEMMF), and the Extended Fund. On November 14, 2022, Standard & Poor’s (S&P) reaffirmed its highest rating of AAAM Principal Stability Fund Rating (AAAM) on the OCMMF and the OCEMMF, which represents 2.7% of the total OCTP.

4. CASH AND INVESTMENTS (Continued)

Pursuant to CGC Sections 27130-27137, the Board has established a Treasury Oversight Committee (TOC) that monitors and reviews the Treasurer's Investment Policy Statement (IPS) annually and also causes an audit of the County Treasury annually to assure compliance. The TOC consists of the County Executive Officer, the elected County Auditor-Controller, the County elected Superintendent of Schools, or their respective designees, and four public members, with at least three having expertise in, or an academic background in, public finance.

The investment practices and policies of the Treasurer are based on compliance with state law and prudent money management. The primary goal is to invest public funds in a manner which will provide maximum security of principal invested with secondary emphasis on providing adequate liquidity to pool participants. The last goal is to achieve a market rate of return within the parameters of prudent risk management while conforming to all applicable statutes and resolutions governing the investment of public funds. Interest is allocated to individual general ledger accounts monthly based on the average daily balances of each account on deposit with the Treasurer.

Cash and investments in OCIF with the Treasurer totaled \$15,212,221 as of June 30, 2023, consisting of \$55,806 in pooled cash, \$14,597,791 in investment securities in OCTP and \$558,624 in the Specific Investments.

Total County cash and investments at fair value as of June 30, 2023, are reported as follows:

A. Cash Deposits

CGC 53652 et. seq. and the IPS prescribe the amount of collateral that is required to secure the deposit of public funds. The pledge to secure deposits is administered by the California Department of Financial Protection and Innovation. Collateral is required for demand deposits at 110% of all deposits not covered by Federal Depository Insurance Corporation (FDIC) if obligations of the United States and its agencies, or obligations of the State or its municipalities, school districts, and district corporations are pledged. Collateral

4. **CASH AND INVESTMENTS (Continued)**

A. Cash Deposits (Continued)

of 150% is required if a deposit is secured by first mortgages or first trust deeds upon improved residential real property located in California. Obligations pledged to secure deposits must be delivered to an institution other than the institution in which the deposit is made; however, the trust department of the same institution may hold them. Written agreements are required to provide, among other things, that the collateral securities are held separately from the assets of the custodial institution. FDIC insurance is available for demand deposits and interest saving deposit funds deposited at any one financial institution up to a maximum of \$250. The County's deposits are covered by FDIC or collateralized with securities held by the County or its agent in the County's name in accordance with CGC Section 53652 and 53658.

B. Investments

The CGC Sections 53601 and 53635, Board ordinances and resolutions, the County's IPS, the bond indenture documents, trust agreements, and other contractual agreements govern the investments that may be purchased and may include certain restrictions on investment maturity, maximum portfolio percentages, term, value and credit quality to minimize the risk of loss. The IPS adds further restrictions to permitted investments from the CGC. The current IPS expressly prohibits leverage, reverse repurchase agreements as defined by CGC Section 53601, structured notes, structured investment vehicles, derivative instruments, and money market mutual funds that do not maintain a constant net asset value. All investments must be United States dollar denominated. As of June 30, 2023, the Treasurer was in full compliance with the CGC and the County's IPS for the OCIF. Investments by the Treasurer are stated at fair value and are marked-to-market on a daily basis.

Unless otherwise required in a trust agreement, educational districts (public school and community college), including certain bond-related funds are required by state law to deposit all monies received from any source with the County Treasurer. At June 30, 2023, the OCTP includes approximately 57.50% of these involuntary participant deposits. Involuntary (Education Code Sections 41001 and 41002) and other external pool participants funds (Government Code Section 27100.1) are deemed to be held in trust and such funds shall not be deemed funds or assets of the County and the relationship of the depositing entity and the County shall not be one of creditor-debtor.

Investment in State Investment Pool

The County is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by CGC Section 16429.1 under the oversight of the Treasurer of the State of California. The fair value of the investment in this pool is reported in the accompanying financial statements at amounts based on the pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of the portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Fair Value Measurements

The County categorizes its fair value measurements within the fair value hierarchy established by GASB Statement No. 72. These principles recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Investments reflect prices based on quoted identical assets in an active market.
- Level 2: Investments reflect prices that are based on identical or similar assets in inactive markets or similar assets in active markets. Inputs other than quotes are observable.
- Level 3: Investments reflect prices based on significant unobservable inputs.

Fair value measurements are based on pricing received from the County's third party vendors. Investments in money market mutual funds are priced using amortized cost which approximates fair value, with a net asset value of \$1.00 (in absolute dollar amounts) per share, and per GASB Statement No. 72 not subject to the fair value hierarchy. Additionally, the LAIF is not subject to the fair value hierarchy.

4. CASH AND INVESTMENTS (Continued)

B. Investments (Continued)

The County uses the market approach method as a valuation technique in the application of GASB Statement No. 72. This method uses prices and other relevant information generated by market transactions involving identical or similar assets or groups of assets.

Fair Value Measurements (Continued)

The following table presents a summary of the County's investments according to the assigned fair value hierarchy level as of June 30, 2023.

Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, fixed income investments of longer maturities are more sensitive to changes in market interest rates. Declines in the fair value of investments are managed by limiting the length of the maturity of the securities and providing daily and ongoing liquidity in the portfolio. The Treasurer manages its exposure to interest rate risk by carefully matching incoming cash flows and maturing investments to meet expenditures and by maintaining a duration of 1.50 years or less. The duration of OCTP at June 30, 2023 is 0.59 year. The table below shows the maturities distribution of the OCTP as of June 30, 2023.

| Maturities | Principal | % of Portfolio |
|----------------------|----------------------|-----------------------|
| 1 day to 30 days | \$ 3,084,899 | 20.80% |
| 31 days to 180 days | 4,292,515 | 28.93% |
| 181 days to 365 days | 3,968,500 | 26.75% |
| 1 year to 2 years | 2,643,105 | 17.82% |
| 2 years to 3 years | 845,000 | 5.70% |
| Total | \$ 14,834,019 | 100.00% |

In general, the maximum maturity allowed is five years unless the Board has granted express authority either specifically or as part of an investment policy. Actual weighted average days to maturity by investment type for the OCTP are presented in the table below under Credit Risk. The OCTP at June 30, 2023 has 49.73% of investments maturing in six months or less and 50.27% maturing between six months and three years. As of June 30, 2023, the OCTP had no variable-rate notes.

Credit Risk

This is the risk that an issuer or other counterparty to an investment may not fulfill its obligations or that negative perceptions of the issuer’s ability to make these payments will cause the price to decline. The IPS, which is more restrictive than the government code, sets forth the minimum acceptable credit ratings for investments from at least two of the following NRSROs: S&P, Moody’s, or Fitch. All short-term and long-term investments, except those noted below, 1) must have the minimum ratings required below by at least two NRSROs, and 2) the lowest rating of any NRSRO must meet or exceed the minimum rating required below:

| | |
|---------|-------------------------|
| S&P | A-1, “AA” |
| Moody’s | P-1, MIG 1/VMIG 1, “Aa” |
| Fitch | F-1, “AA” |

If an issuer of long-term debt has a short-term debt rating, then it may not be less than the minimum required short-term debt ratings above.

- a) Municipal debt issued by the County of Orange, California, U.S. Government obligations and State Pool are exempt from the credit rating requirements listed above.
- b) Money Market Mutual and Investment Pools require the highest ranking or the highest letter and numerical rating provided by at least one NRSRO.

No investment may be purchased from an issuer and all related entities, including parent and subsidiaries, that have been placed on “credit watch-negative” by any of the NRSROs or whose credit rating by any of the NRSROs is less than the minimum rating required by the IPS for that class of security unless the issuer has a short-term rating of A-1+ or F1+ or a long-term rating of at least AA or Aa2; and the Treasurer has approved the purchase in writing prior to purchase.

Concentration of Credit Risk

This is the risk of loss attributed to the magnitude of a government's investment in a single issuer. As of June 30, 2023, all OCIF investments were in compliance with state law and the IPS single issuer limits.

The following holdings in OCTP exceeded five percent of the portfolio at June 30, 2023.

| <u>Investment Type</u> | <u>Issuer</u> | <u>Fair Value</u> | <u>Portfolio %</u> |
|--------------------------|------------------------------|-------------------|--------------------|
| U.S. Government Agencies | Federal Home Loan Bank Bonds | \$ 7,956,020 | 54.50% |
| | Federal Farm Credit Bank | 1,587,032 | 10.87% |

Custodial Credit Risk

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The IPS does not permit investments in uninsured and unregistered securities not held by the County. The Treasurer utilizes third party Delivery Versus Payment which mitigates any custodial credit risk. Securities purchased by the Treasurer are held by third party custodians in their trust department to mitigate custodial credit risk. At year-end, in accordance with the IPS, the OCTP and specific investments did not have any securities exposed to custodial credit risk, and the Treasurer did not have any securities lending during the year (or at year-end).

C. Restricted Deposits and Investments with Trustees

All monies for restricted investments held by trustees are invested in "permitted investments" as defined in the various trust agreements. Restricted deposits with trustees are insured by FDIC up to \$250 and the excess amounts are collateralized.

D. OCERS Investments

Narratives and tables presented for investments managed by OCERS are taken directly from OCERS' ACFR for the year ended December 31, 2022 (tables were formatted to conform with the County's presentation). The custodial credit risk, credit risk, concentration of credit risk, interest rate risk, and foreign currency risk related to OCERS investments are different than the corresponding risk on investments held by the Treasurer.

OCERS may invest, in accordance with state statutes, in any form or type of investment deemed prudent by the Board of Retirement. Pension and 401(h) Health Care plan assets are restricted for the exclusive purposes of providing benefits to plan participants and defraying reasonable expenses of administering the plans. The Board of Retirement may invest, or delegate the authority to invest, the assets of the funds through the purchase, holding, or sale of any form or type of investment, financial instrument, or financial transaction. Custodial fund assets, restricted pursuant to Section 115 of the IRC, are separately invested in domestic equity, international equity and domestic bond index funds in accordance with the respective OCTA Third-Party Administrative and Investment Management Agreement.

The following table shows the Investment Allocation as of December 31, 2022:

| <u>Investment Category</u> | <u>Target Ranges</u> | <u>Actual</u> |
|----------------------------|----------------------|---------------|
| Global Public Equity | 40-54% | 44% |
| Core Fixed Income | 6-16% | 8% |
| Credit | 4-10% | 7% |
| Real Assets | 8-16% | 14% |
| Private Equity | 9-17% | 16% |
| Risk Mitigation | 6-14% | 9% |
| Unique Strategies | 0-5% | 0% |
| Cash | 0-5% | 2% |
| <u>Total</u> | | <u>100%</u> |

During 2022, no changes were made to the investment allocation.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a financial institution's failure, OCERS would not be able to recover its deposits. Deposits are exposed to custodial risk if they are not insured or not collateralized. As of December 31, 2022, OCERS' deposits with a financial institution are fully insured by FDIC insurance up to \$250 with the remaining balance exposed to custodial credit risk as it is not insured; however, the financial institution does collateralize the deposit of monies in excess of the FDIC insurance amount with eligible securities held by the pledging financial institution, but not in OCERS' name, which approximates \$102,700. Deposits held by OCERS' custodial bank are not exposed to custodial credit risk as they are held in a qualified pool trust, separate from the custodial bank assets.

For an investment, custodial credit risk is the risk that, in the event of a counterparty failure, OCERS will not be able to recover the value of its investments or collateral securities that are in the possession of counterparties. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in OCERS' name or by other qualified third-party administrator trust accounts.

OCERS' investments and collateral received through securities lending are not exposed to custodial credit risk because all securities are held by OCERS' custodial bank in OCERS' name or by other qualified third-party administrator trust accounts. The risk is managed by the custodian bank by diversifying the number of counterparties, with periodic review of the credit quality of counterparties and by regularly posting/receiving margins. OCERS does not maintain any general policies regarding custodial credit risk.

Credit Risk

By definition, credit risk measures the risk that an issuer or counterparty will not fulfill its obligations. S&P Global defines investment grade as those fixed income securities with ratings between AAA and BBB. OCERS' investment policy permits, on an opportunistic basis, the investment in fixed income securities rated below investment grade. A rating of N/R represents pooled funds and other securities that have not been rated by S&P Global and N/A represents securities explicitly guaranteed by the U.S. Government that are not subject to the GASB Statement No. 40 disclosure requirements. The credit ratings for individual OCERS' fixed income portfolios are monitored regularly.

As of December 31, 2022, the S&P Global credit ratings of the OCERS' fixed income portfolio were as follows:

| Investment Type | Rating as of December 31, 2022 | | | | | | | | | | | Total | | |

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Duration is a measure of the price sensitivity of a fixed-income portfolio to changes in interest rates. It is calculated as the weighted average time to receive a bond's coupon and principal payments. The longer the duration of a portfolio, the greater its price sensitivity to changes in interest rates.

Interest rate risk is managed through OCERS' investment policies requiring that investment managers investing on behalf of OCERS have applicable investment guidelines and that the effective durations of fixed income portfolios remain within a defined range of the benchmark's effective duration. The primary benchmark for domestic fixed income is a blend of two indices, the Bloomberg US Universal (82%), and the Bloomberg US Treasury TIPS (18%). As of December 31, 2022, the durations of these indices are 6.32 years and 2.35 years, respectively for a blended duration of 5.61 years. All investment managers were in compliance within their defined range.

OCERS invests in a variety of fixed income instruments including asset-backed securities, corporate obligations and commercial mortgage-backed securities. The value, liquidity and income of these securities are sensitive to changes in overall economic conditions and the fair value of these securities may be affected by changes in interest rates, default rates and the value of the underlying securities.

Foreign Currency Risk

The value of deposits or investments denominated in foreign currency may be adversely affected by changes in currency exchange rates. OCERS' investment policy permits investment in international securities that includes investments in international equity securities, global equity securities, emerging markets equity securities and debt, public real estate securities, and real return. Investment managers monitor currency exposures daily.

The following schedule represents OCERS' net exposure to foreign currency risk in U.S. dollars as of December 31, 2022:

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of OCERS' investment in a single issuer. By policy, OCERS did not hold investments in any one issuer that represented five percent or more of plan net position and net investments. Investments issued or explicitly guaranteed by the U.S. Government and pooled investments are excluded from this policy requirement.

Concentration of Investments

As of December 31, 2022, OCERS did not hold investments in any one organization that represented five percent or more of the plan's fiduciary net position. Investments issued or explicitly guaranteed by the U.S. Government and pooled investments are excluded from this requirement.

Derivative Instruments

As of December 31, 2022, all derivative instruments held by OCERS are considered investments and not hedges for accounting purposes. Any reference to the term hedging in these financial statements references an economic activity and not an accounting method. All gains and losses associated with these activities are recognized as incurred in the Statement of Changes in Fiduciary Net Position.

The table that follows presents the related net appreciation/(depreciation) in fair value, the fair value amounts and the notional amounts of derivative instruments outstanding at December 31, 2022.

(1) Negative values (in brackets) refer to losses.

(2) Negative values refer to liabilities and are reported net of investments.

(3) Notional may be a dollar amount or size of underlying for futures and options, negative values refer to short positions.

(4) Excludes futures margin payments.

Valuation of Derivative Instruments

Non-exchange traded instruments, such as swaps, are valued using similar methods as those described for debt securities.

Futures contracts are traded on exchanges and typically derive their value from underlying indices and are marked to market daily. All gains and losses associated with changes in the value of futures contracts also

settle on a daily basis and result in the contracts themselves having no fair value at the end of any trading day, including December 31, 2022. Future variation margin accounts also settle daily and are recognized in the financial statements under net appreciation/(depreciation) in the fair value of the investments as incurred.

In general, option values are dependent upon a number of different factors, including the current market price of the underlying security, the strike price of the option, costs associated with holding a position in the underlying security including interest and dividends, the length of time until the option expires and an estimate of the future price volatility of the underlying security relative to the time period of the option.

Foreign currency forward contracts are agreements to buy or sell a currency at a specified exchange rate on a specified date. The fair value of a foreign currency forward is determined by the difference between the specified exchange rate and the closing exchange rate at December 31, 2022.

Custodial Credit Risk—Derivative Instruments

As of December 31, 2022, all investments in derivative instruments are held in OCERS' name and are not exposed to custodial credit risk as described in the previous discussion of custodial credit risk.

A summary of counterparty credit ratings relating to non-exchange traded derivatives in asset positions as of December 31, 2022 is as follows:

Interest Rate Risk—Derivatives

At December 31, 2022, OCERS is exposed to interest rate risk on its investments in various swap arrangements based on daily interest rates for Brazilian Interbank Deposit Rate (BRCDI), Sterling Overnight Index Rate (SONIA), London Interbank Offered Rate (LIBOR), Latin America largest central depository (CETIP), Secured Overnight Financing Rate (SOFR), and European reference rates.

Rate of Return

For the year ended December 31, 2022, the annual money-weighted rate of return on the assets of the plan, net of investment expense, was (7.88%). The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the timing of cash flows and the changing amounts actually invested.

Securities Lending

OCERS is authorized by investment policy and state law to lend its investment securities including global public equities, core fixed income, and credit to broker/dealers in exchange for collateral in the form of either cash or securities. Lent domestic and international securities are collateralized with an initial fair value of not

D. OCERS Investments (Continued)

Securities Lending (Continued)

less than 102% or 105% depending on the nature of the loaned securities and the collateral received, of fair value of the loaned securities. The lending agent receives cash and non-cash collateral for the securities on loan. There are no restrictions on the amount of securities that can be lent at one time. State Street Bank serves, in accordance with a Securities Lending Authorization Agreement, as OCERS' agent to loan domestic and international securities. State Street Bank does not have the ability to pledge or sell collateral securities delivered absent a borrower default.

Cash collateral received on loaned securities is invested together with the cash collateral of other qualified tax-exempt investors in a collective investment fund managed by State Street. The collective investment fund is not rated and is comprised of one liquidity investment pool. As of December 31, 2022, the liquidity pool had an average duration of 96 days and a WAM of 3 days. Because loans are terminable at will, the duration of the loans did not generally match the duration of the investments made with the cash collateral. The Securities Lending Authorization Agreement requires State Street to indemnify OCERS if the broker/dealer fails to return any borrowed securities. During 2022, there were no failures to return loaned securities or to pay distributions by the borrowers. Furthermore, there were no losses due to borrower defaults. The fair value of securities on loan and the total cash collateral held as of December 31, 2022 was \$196,261 and \$202,096, respectively.

The following table shows fair values of securities on loan and cash collateral received by asset class:

Investments—Fair Value Measurements

OCERS categorizes its fair value measurements of its investments based on the three-level fair value hierarchy established by GAAP. The fair value hierarchy is based on the valuation inputs used to measure fair value of the asset or liability and gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs). Unobservable inputs are developed using the best information available about the assumptions that market participants would use when pricing an investment.

Core fixed income include actively traded debt instruments such as those securities issued by the United States government, federal agencies, municipal obligations, foreign governments, and both U.S. and foreign corporate issuers. Core fixed income securities are reported at fair value as of the close of the trading date. Fair values for securities not traded on a regular basis are obtained from pricing vendors who employ modeling techniques, such as matrix pricing or discounted cash flow method, in determining security values. These inputs are observable, which supports the Level 2 fair value hierarchy.

Global public equity include U.S. and international equity securities, and emerging markets equity securities. Global public equity securities classified in Level 1 of the fair value hierarchy are primarily common and preferred stock or real estate investment trusts. Fair value for these exchange traded securities is determined as of the close of the trading date in the primary market or agreed upon exchange. The last known price is used for listed securities that did not trade on a particular date. Fair value is obtained from third-party pricing sources for securities traded over-the-counter. Global public equity securities classified in Level 2 of the fair value hierarchy consist of institutional funds that are valued based on the fair value of underlying investments using pricing models or other valuation methodologies that use pricing inputs that are either directly or indirectly observable on the valuation date for the securities or assets held in the fund.

Real assets investments at fair value include a variety of real return investments in agriculture, real estate and timber resources, which are held directly. Real estate assets held directly are appraised by independent third-party appraisers in accordance with the Uniform Standards of Professional Appraisal Practice.

4. CASH AND INVESTMENTS (Continued)

D. OCERS Investments (Continued)

Investment–Fair Value Measurements (Continued)

Independent appraisals use professional judgment, which is unobservable input, to determine the fair value of the asset; therefore, these real estate investments are classified as Level 3. Agriculture and timber resources included in Level 3 are based on independent appraisals and/or the good faith estimates of management.

Other investments include two risk mitigation funds. These investments are classified in Level 2 of the fair value hierarchy and include primarily institutional mutual funds that are valued based on the fair value of underlying investments using pricing models or other valuation methodologies that use pricing inputs that are either directly or indirectly observable on the valuation date for the securities or assets held in the fund.

Derivative instruments classified as Level 2 are valued using a market approach with observable inputs from major indices as well as benchmark interest rates and foreign exchange rates.

The System uses the NAV to determine the fair value of the underlying investments, when an investment does not have a readily determinable fair value, provided that the NAV is calculated and used as a practical expedient to estimate fair value in accordance with GAAP requirements.

The follow table represents the investments measured at NAV as of December 31, 2022.

The investment types listed in the above table measured at the NAV as explained below:

Global public equity includes five institutional funds. Two funds focus on international securities and three funds focus on emerging markets equities. The fair value of each fund has been determined using NAV per share or unit of the investments.

Real assets: Agriculture includes one fund that invests in a diversified portfolio of vegetable and permanent crop farmland in select major agricultural states. The fund is an open-end, infinite life, private real estate investment trust (REIT) subject to the redemption terms in the schedule above.

Real assets: Energy consists of 19 limited partnerships that invest primarily in oil and gas related investments. There are no redemption terms for any of these partnerships. These investments are considered illiquid. During the life of the partnerships, distributions are received as underlying partnership investments are realized. The fair values of this investment type have been determined using estimates provided by the underlying partnerships and are at NAV. One of the partnerships is considered a going concern, and is included at a zero value.

Real assets: Infrastructure consists of ten limited partnerships that invest primarily in energy related renewable infrastructure. There are no redemption terms for any of these partnerships. These investments are considered illiquid. During the life of the partnerships, distributions are received as underlying partnership investments are realized. The fair values of this investment type have been determined using estimates provided by the underlying partnerships and are at NAV.

Real assets: Real estate investments include 21 funds consisting of primarily trust funds and limited partnerships. The purpose of these funds is to acquire, own, invest in real estate and real estate related assets with the intention of achieving current income, capital appreciation or both. These investments are valued through independent appraisals and other unobservable methods. The majority of these funds are closed-end funds with structured investment periods, and considered illiquid investments. All other funds have no redemption restrictions other than the restrictions noted above.

Credit includes investments in 24 limited partnership funds and one equity fund. 18 of these funds are considered private credit investments, which are closed-end funds and are considered illiquid investments. These investments represent approximately 53% of the value. The remaining six funds allow for redemption based on the terms noted above. The fair value of these investments has been determined using NAV per share of the investments.

Private equity includes primarily investments in limited partnership funds, managed by various different investment managers. Generally, the partnership strategies are to maximize the return by participating in private equity and equity-related investments through a diversified portfolio of venture capital, growth equity, buyouts, special situation partnerships and other limited liability vehicles. Investments in these partnerships are typically for 10-12 years and are considered illiquid. Redemptions are restricted over the life of the partnership. During the life of the partnerships, distributions are received as underlying partnership investments are realized. The fair values of this investment type have been determined using NAV per share of the System's ownership interest in partners' capital.

Risk mitigation includes eight limited partnership funds, which allow redemption with proper notification. The funds assist in diversifying the portfolio and protecting in an economic downturn of growth assets. The strategies are uncorrelated or negatively correlated to economic growth assets. The fair value of these investments has been determined using NAV per share.

Unique Strategies includes three limited partnership funds, one of the funds allows for redemptions and the other fund has no redemption terms and is considered an illiquid investment. This asset class provides additional diversification which can be used to help mitigate risk and provide value to the OCERS portfolio. These investments are valued at NAV.

Custodial Credit Risk Deposits

Custodial credit risk is the risk that, in the event of a bank failure, CalOptima Health may not be able to recover its deposits or collateral securities that are in the possession of an outside party. The California Government Code requires that a financial institution secure deposits made by public agencies by pledging securities in an undivided collateral pool held by a depository regulated under the state law. As of June 30, 2023, no deposits were exposed to custodial credit risk, as CalOptima Health has pledged collateral to cover the amounts.

Investments

CalOptima Health invests in obligations of the U.S. Treasury, other U.S. government agencies and instrumentalities, state obligations, corporate securities, money market funds, and mortgage or asset-backed securities.

Interest Rate Risk

In accordance with its annual investment policy (investment policy), CalOptima Health manages its exposure to decline in fair value from increasing interest rates by matching maturity dates to the extent possible with CalOptima Health's expected cash flow draws. Its investment policy limits maturities to five years, while also staggering maturities. CalOptima Health maintains a low-duration strategy, targeting a portfolio duration of three years or less, with the intent of reducing interest rate risk. Portfolios with low duration are less volatile because they are less sensitive to interest rate changes.

Investment with Fair Values Highly Sensitive to Interest Rate Fluctuations

When interest rates fall, debt is refinanced and paid off early. The reduced stream of future interest payments diminishes the fair value of the investment. The mortgage-backed and asset-backed securities in the CalOptima Health portfolios are of high credit quality, with relatively short average lives that represent limited prepayment and interest rate exposure risk. CalOptima Health's investments include the following investments that are highly sensitive to interest rate and prepayment fluctuations to a greater degree than already indicated in the information provided above:

| | June 30, 2023 |
|----------------------------|-------------------|
| Asset-Back Securities | \$ 167,709 |
| Mortgage-Backed Securities | 352,526 |
| | <u>\$ 520,235</u> |

Credit Risk

CalOptima Health's investment policy conforms to the California Government Code as well as to customary standards of prudent investment management. Credit risk is mitigated by investing in only permitted investments. The investment policy sets minimum acceptable credit ratings for investments from the three nationally recognized rating services: S&P, Moody's, and Fitch Ratings (Fitch). For an issuer of short-term debt, the rating must be no less than A-1 (S&P), P-1 (Moody's), or F-1 (Fitch), while an issuer of long-term debt shall be rated no less than an "A."

As of June 30, 2023, following are the credit ratings of investments and cash equivalents:

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of CalOptima Health's investment in a single issuer. CalOptima Health's investment policy limits to no more than 5% of the total fair value of investments in the securities of any one issuer, except for obligations of the U.S. government, U.S. government agencies, or government-sponsored enterprises, and no more than 10% may be invested in one money market mutual. As of June 30, 2023, all holdings complied with the foregoing limitations.

Fair Value Measurements

CalOptima Health categorizes its fair value investments within the fair value hierarchy established by U.S. GAAP. The hierarchy for fair value measurements is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date.

- Level 1: Quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3: Significant unobservable inputs.

The following is a description of the valuation methodologies used for instruments at fair value on a recurring basis and recognized in CalOptima Health's consolidated statements of net position, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Marketable Securities: Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows. These securities are classified within Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

The following table presents the fair value measurements of assets recognized in CalOptima Health's consolidated statements of net position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall:

| | Investment Assets at Fair Value as of June 30, 2023 | | | |

5. RECEIVABLES

GASB Statement No. 38, "Certain Financial Statement Note Disclosures," requires identification of receivable balances not expected to be collected within one year. The details of the receivables reported in the government-wide Statement of Net Position that are not expected to be collected within the next fiscal year are identified as follows:

5. RECEIVABLES (Continued)

Accounts Receivable

Accounts Receivable had a balance of \$47,870 as of June 30, 2023. Of this amount, \$3,161 is not expected to be collected within the next fiscal year. This primarily consists of \$2,899 for animal care delinquent invoices. Also, \$256 is for expected recoveries from the Airport's multi-year fixed-base operator lessee for pollution remediation costs.

Deposits Receivable

Deposits Receivable had a balance of \$1,265 as of June 30, 2023. Of this amount, \$982 is not expected to be collected within the next fiscal year. This primarily consists of a \$400 deposit required by the vendor per agreement with the Health Care Agency (HCA) and \$561 in deposits with the U.S. Army Corps of Engineers for regulatory permitting process on various maintenance.

Leases Receivable

Leases Receivable had a balance of \$179,881 as of June 30, 2023. Of this amount, \$159,193 is not expected to be received within the next fiscal year. This represents multiple lease agreements, as described in Note 13, Leases.

Service Concession Arrangements Receivable

Service Concession Arrangements Receivable had a balance of \$143,805 as of June 30, 2023. Of this amount, \$141,925 is not expected to be received within the next fiscal year. This represents multiple lease agreements, as described in Note 7, Service Concession Arrangements.

Due from Other Governmental Agencies

Due from Other Governmental Agencies had a balance of \$639,962 as of June 30, 2023. Of this amount, \$116,641 is not expected to be received within the next fiscal year, which primarily consists of \$86,640 which is expected reimbursement of the Santa Ana River Subvention claims that will be submitted to the State Department of Water Resources, \$16,938 for COVID-19 program reimbursements from the Federal Emergency Management Agency (FEMA) and \$12,634, net of an allowance of \$10,527, owed by the State to the County for various mandated cost reimbursements for programs and services the State requires the County to provide. Also, \$429 is for the expected reimbursement of Medi-Cal administrative activities.

Notes Receivable

Notes Receivable had a balance of \$68,708 as of June 30, 2023. Of this amount, \$41,244 is not expected to be received within the next fiscal year. This primarily consists of \$33,867 for loans made to developers to build affordable, low to moderate income, and senior housing. In addition, \$6,378 is for housing loans for Mental Health Services Act (MHSA) programs and \$950 is for loans provided to first time home buyers.

6. CHANGES IN CAPITAL ASSETS

Increases and decreases in the County's capital assets for governmental and business-type activities during the fiscal year were as follows:

7. SERVICE CONCESSION ARRANGEMENTS (SCA)

GASB Statement No. 94 defines the required criteria for which a public-private or public-public partnership arrangement qualifies as a SCA:

- The transferor conveys to the operator the right and related obligation to provide public services through the use and operation of an underlying asset in exchange for significant consideration, such as an up-front payment, installment payments, a new facility, or improvements to an existing facility;
- The operator collects and is compensated by fees from third parties;
- The transferor determines or has the ability to modify or approve which services the operator is required to provide, to whom the operator is required to provide the services, and the prices or rates that can be charged for the services; and
- The transferor is entitled to significant residual interest in the service utility of the underlying asset at the end of the arrangement.

The County determined that the following arrangements met the criteria of SCAs as set forth in GASB Statement No. 94, where the County is the transferor, and therefore included these arrangements in the County's financial statements.

Dana Point Harbor

On October 29, 2018, later amended, the County entered into 66-year term lease agreements with Dana Point Harbor Partners, LLC (DPHP), and Dana Point Harbor Partners Drystack, LLC (DPHPD) to conduct due diligence regarding master lease and development of the Dana Point Harbor. The County must ensure that DPHP and DPHPD, as the Lessees, adhere to the tidelands trust and all applicable laws. The agreements include the reconstruction of the commercial core, the east and west marinas, two new hotels, and the rebuilding of docks. DPHP and DPHPD will fund and build the improvements, and then operate those portions of the harbor on a 66-year lease. DPHP and DPHPD are required to assume full responsibility for operation and maintenance of their lease premises, and make minimum rent payments to the County, in accordance with their respective agreements. Additionally, the agreements provide for the County to receive a percentage of the gross receipts generated from sales, subleases, or any activity permitted under the DPHP and DPHPD arrangements. After the leases end, the assets and improvements will be returned to the County. In April 2020, DPHP, and DPHPD entered into tolling agreements with the County due to the County State of Emergency, declared March 3, 2020, in connection with the COVID-19 pandemic. Except for the lease terms and due dates for the monthly minimum and percentage rents, dates and deadlines under the Ground Leases were tolled. On March 9, 2022, the County approved the second amendment to the Master Ground Lease Agreement mainly to terminate the tolling amendment and to modify the schedule of the construction and redevelopment work. The leases terms, minimal rent payments and revenue share percentages prevailed. Under the terms of the agreement with DPHPD, the County is committed to reimburse the Lessee \$20,000 for applicable redevelopment costs as certain construction milestones are met. As of June 30, 2023, the County is not liable for any reimbursements.

Newport Dunes Aquatic Park

On February 16, 1989, and later amended, the County entered into a 50-year agreement with Newport Dunes Partnership for the improvement and operation of the Newport Dunes Aquatic Park, a 102-acre recreational facility owned by the County, which includes a 450-slip marina, a launch ramp, a dry boat storage facility, an RV park, a beach and swimming lagoon, and a restaurant. It also includes an underdeveloped 13-acre parcel. On August 1, 2002, the County consented to the assignment of the original lease from Newport Dunes Partnership to Waterfront Resort Properties, LP and Newport Dunes Marina. In addition, on August 25, 2009, the County agreed to grant the Newport Dunes Marina an option for a new 50-year lease to accommodate development of a 275-room Family Inn by a sublessee, Winsor Newport Dunes LP (Winsor), an affiliate of Winsor Capital Group. The option is exercisable upon the completion of the hotel. In 2015, Winsor pulled out of the construction of the Family Inn, and on December 8, 2015, the Newport Dunes Marina obtained approval from the County for a sublease with Brighton Management, LLC (Brighton), for construction of the Family Inn. However, in 2019 Brighton filed for bankruptcy. Hence, Newport Dunes Marina is currently looking for a developer to build the Family Inn. In April 2020, Waterfront Resort Properties, LP, and Newport Dunes Marina entered into a tolling agreement with the County due to the County State of Emergency, declared March 3, 2020, in connection with

the COVID-19 pandemic. All deadlines under the lease were tolled. The tolling period ended on February 28, 2023. After the lease ends, the assets and improvements will return to the County. Under the current agreement, the County receives minimum rent payments and a percentage of the gross receipts generated from the sales, subleases or any other activity permitted under the arrangement. Additionally, the County is required to make annual contributions to a dredging reserve fund in the amount of \$309.

Furthermore, the County entered into several SCA's with third parties or operators to maintain and operate a boat-berthing facility at Lower Newport Bay and various golf courses. The County receives minimal rent payments and a percentage of gross receipts generated from the sales, subleases or any other activity permitted under each arrangement. The County has no contractual obligations to sacrifice financial resources that meet the criteria to be recognized as liability for these SCAs.

A summary of the important details for each SCA over the term of their agreements are as follows:

| | Date SCA Entered Into | Term of SCA | Expiration of SCA | Minimum Rent Payment Received in FY 2022-23 | Revenue Sharing |

(1) Amortization is calculated using the straight-line method for the term of the agreement for the SCA.

(2) Present value of installment payments is calculated using discount rates ranging from 2.5% to 4% for the term of each SCA.

8. INTERFUND RECEIVABLES AND PAYABLES

Interfund receivables and payables may result from services rendered by one fund to another fund, or from interfund loans. "Due from" and "due to" balances are generally used to reflect short-term interfund receivables and payables whereas "advance from" and "advance to" balances are long-term.

The composition of interfund balances as of June 30, 2023 is as follows:

Due from/to other funds:

| Payable Funds | Receivable Funds | | | | | | | Total |
|----------------------------|-------------------|------------------------|-------------------------|--------------------------|--------------|----------------------|------------------------|-------------------|
| | General Fund | Flood Control District | Other Public Protection | Other Governmental Funds | Airport | OC Waste & Recycling | Internal Service Funds | |
| General Fund | \$ - | \$ 322 | \$ 1,560 | \$ 59,243 | \$ 14 | \$ 10 | \$ 2,598 | \$ 63,747 |
| Flood Control District | 5,976 | - | - | 863 | - | 37 | 214 | 7,090 |
| Other Public Protection | 11,760 | - | - | 3 | - | - | 5 | 11,768 |
| Mental Health Services Act | 41,152 | - | - | - | - | - | - | 41,152 |
| Other Governmental Funds | 88,262 | 1,498 | 1 | 16,324 | - | 4 | 339 | 106,428 |

Interfund transactions between the Primary Government and Component Unit:

| Receivable Entity | Payable Entity | Amount |
|--------------------------------------|--------------------------------------|--------|
| Primary Government-General Fund | Component Unit-First 5 Orange County | \$ 274 |
| Component Unit-First 5 Orange County | Primary Government-General Fund | 310 |

8. INTERFUND RECEIVABLES AND PAYABLES (Continued)

The majority of the interfund balances resulted from the time lag between the time that: (1) goods and services were provided, (2) transactions were recorded in the accounting system, and (3) payments between the funds were made.

Advances to/from other funds:

| Receivable Entity | Payable Entity | Amount |
|----------------------|--------------------------|-----------|
| OC Waste & Recycling | Other Governmental Funds | \$ 20,000 |

The interfund loans represent an advance made by OC Waste & Recycling to Other Governmental Funds for the Sheriff-Coroner’s James A. Musick Facility project.

9. INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2023 were as follows:

| Transfer Out Funds | Transfer In Funds | | | | | | | Total |
|----------------------------|-------------------|------------------------|-------------------------|--------------------------|--------------|----------------------|------------------------|-------------------|
| | General Fund | Flood Control District | Other Public Protection | Other Governmental Funds | Airport | OC Waste & Recycling | Internal Service Funds | |

10. SHORT-TERM OBLIGATIONS

Taxable Pension Obligation Bonds, 2022 Series A

On January 13, 2022, the County issued Taxable Pension Obligation Bonds, 2022 Series A (the 2022 POBs) in the principal amount of \$521,784. The 2022 POBs were issued in order to take advantage of the discount offered by the OCERS Board of Retirement to prepay the County’s FY 2022-23 pension contribution. The 2022 POBs were issued as standard bonds, with four fixed-rate tranches, and a final maturity date of April 28, 2023. The obligation of the County to pay principal and interest on the 2022 POBs is imposed by law and is absolute and unconditional. Pledged security for the bonds are any lawfully available funds of the County. If an event of default has occurred and is continuing, the trustee may proceed to protect or enforce its rights by a suit in equity or action at law. The County repaid in full the outstanding balance of the bonds on April 28, 2023.

11. LONG-TERM OBLIGATIONS

Legal Debt Margin

The County's legal debt limit for the year was \$9,170,431. In order for the County to issue general obligation bonds secured by ad valorem taxes on real property, California Constitution Article XIII A, Section 1 requires the approval of 2/3 of the voters voting on the proposition.

Revenue Bonds Payable

Central Utility Facility Lease Revenue Bonds, Series 2016

On June 2, 2016, the South Orange County Public Financing Authority (SOCPFA) issued its \$56,565 Lease Revenue Bonds, Series 2016 at a premium of \$11,724 with an interest rate range of 3.00% to 5.00%. The Lease Revenue Bonds, payable through April 2036, were issued to finance the acquisition, construction and installation of certain capital improvements to be owned by the County and to pay costs relating to the issuance of the bonds. As of June 30, 2023, the outstanding principal amount, including the premium of the Series 2016 Bonds, and interest were \$52,042 and \$16,185 respectively.

The bonds are special obligations of the SOCPFA payable from and secured by the base rental payments to be made by the County pursuant to and as required under the lease agreement and the amounts held in all funds and accounts (other than the rebate fund) under the indenture. The Central Utility Facility is pledged as collateral for the debt. In the event of default, the SOCPFA or the trustee may exercise any and all remedies available pursuant to law or granted pursuant to the Lease.

Lease Revenue Bonds, Series 2017A

On June 22, 2017, the California Municipal Finance Authority (CMFA) issued its \$152,400 Lease Revenue Bonds, Series 2017A (Orange County Civic Center Infrastructure Improvement Program-Phase I) at a premium of \$22,940, with an interest rate range from 4.00%-5.00%. As the debt was issued by CMFA, this does not constitute debt for the County. Pursuant to a loan agreement, CMFA loaned the bond proceeds totaling \$175,340 to the Capital Facilities Development Corporation (Corporation), a component unit of the County, to construct the County Administration South (CAS) located at 601 N. Ross Street. As of June 30, 2023, the outstanding principal amount, including the premium of the Series 2017 Bonds, and interest were \$164,962 and \$95,950, respectively.

The County's payment obligation commenced on November 12, 2019 when the building's Certificate of Substantial Completion was delivered to the trustee. County departments occupying CAS will be responsible for making base rental payments. The County's base rental payments, under the Facility Lease, began in FY 2020-21 and will be used to repay the loan to the CMFA. Loan repayments are scheduled to conclude when the bonds mature, in June 2047. In the event of default, the trustee may exercise any remedies available under the Indenture, the Loan Agreement and the Facility Lease.

Lease Revenue Bonds, Series 2018A

On December 13, 2018, CMFA issued its \$185,705 Lease Revenue Bonds, Series 2018A (Orange County Civic Center Infrastructure Improvement Program-Phase II) at a premium of \$26,599, with an interest rate coupon of 5%. As the debt was issued by CMFA, this does not constitute debt for the County. Pursuant to a loan agreement, CMFA loaned the bond proceeds totaling \$212,304 to the Corporation, a component unit of the County, to construct County Administration North (CAN) located at 400 W. Civic Center Drive. As of June 30, 2023, the outstanding principal amount, including the premium of the Series 2018 Bonds, and interest were \$208,177 and \$140,890, respectively.

The County's payment obligation commenced on August 5, 2022 when the building's Certificate of Substantial Completion was delivered to the trustee. County departments occupying CAN will be responsible for making base rental payments. The County's base rental payments, under the Facility Lease, began in FY 2022-23 and will be used to repay the loan to the CMFA. Loan repayments are scheduled to end when the bonds mature, in June 2048. In the event of default, the trustee may exercise any remedies available under the Indenture, the Loan Agreement and the Facility Lease.

Revenue Bonds Payable (Continued)

Airport Revenue Refunding Bonds, Series 2019A and 2019B

On July 9, 2009, the Airport issued the Airport Revenue Bonds, Series 2009A and 2009B (2009A and 2009B Bonds) in the aggregate principal amount of \$233,115, with an original issue net premium of \$288. The 2009A and 2009B Bonds were issued to finance a portion of the Airport Improvement Program (AIP), fund the debt service requirement for the bonds, fund capitalized interest on a portion of the bonds and pay costs relating to the issuance of the bonds. The AIP consist of numerous direct improvements to the Airport facilities such as construction of Terminal C, Parking Structure C and two commuter/regional holdrooms at the north and south ends of the extended Terminal.

On May 14, 2019, the Airport issued the Airport Revenue Refunding Bonds, Series 2019A and 2019B (2019A and 2019B Bonds) in the principal amount of \$85,030, with a premium of \$13,404. The 2019A and 2019B Bonds were issued to refund and defease the 2009A and 2009B Bonds, fund a debt service reserve subaccount for the bonds, and pay certain expenses in connection with the issuance of the bonds. For the year ended June 30, 2023, the total debt service principal and interest paid were \$6,750 and \$2,832, respectively. The 2019 Bonds were secured by a pledge of (1) operating revenues, net of specified operating expenses, (2) interest earnings, (3) other miscellaneous revenue and (4) available PFC revenue. In the event of default, the trustee could exercise any remedies available under the bond indentures and under state and federal law.

On February 16, 2023, the Airport executed the in-substance defeasance of the 2019A and 2019B Bonds, for the outstanding principal and interest balances of \$53,260 and \$7,662, respectively. The Airport defeased its bonds due to the availability of federal relief aid and available PFC collections eligible to fund the defeasance. The Airport deposited \$58,479 in an irrevocable escrow fund, and the amounts were invested in State and Local Government Series (SLGS) securities to be used solely for satisfying scheduled debt service payments of the defeased debt through and including July 1, 2027. As a result, the beginning fiscal year principal balance of \$60,010, including the \$6,180 premium, of the 2019A and 2019B Bonds, totaling \$66,190, is no longer reported as a liability in the Airport's financial statements. Additionally, in accordance with GASB Statement No. 86, "Certain Debt Extinguishment Issues", the Airport recognized a loss on the defeasance of \$1,189. As of June 30, 2023, the outstanding balance of the defeased bonds was \$60,922.

Fiscal Year 2022-23 Debt Obligation Activity

During FY 2022-23, the following events concerning County debt obligations occurred.

Revenue Bonds Payable

Lease Revenue Bonds, Series 2022

On July 26, 2022, the SOCPFA issued its \$83,375 Lease Revenue Bonds, Series 2022 (County of Orange Sheriff-Coroner Facility) at a premium of \$12,350, with an interest rate coupon of 5%. The Lease Revenue Bonds, payable through June 2052, were issued to finance the acquisition of and construction of certain improvements to a new facility for the County Sheriff-Coroner's department to be owned by the County and to pay costs relating to the issuance of the bonds. As of June 30, 2023, the outstanding principal amount, including the premium of the Series 2022 Bonds, and interest were \$95,725 and \$76,314, respectively.

The bonds are special obligations of the SOCPFA payable from and secured by the base rental payments to be made by the County pursuant to and as required under the lease agreement and the amounts held in all funds and accounts (other than the rebate fund) under the indenture. The property itself was pledged as collateral for the debt. In the event of default, the SOCPFA or the trustee may exercise any and all remedies available pursuant to law or granted pursuant to the Lease.

For Governmental activities, typically the General Fund has been primarily used to liquidate the pension and OPEB liability.

Compensated Employee Absences

The estimated compensated employee absences payable recorded at June 30, 2023 is \$178,091. The County's policy permits employees to accrue vacation, compensatory time, and sick leave benefits. Employees are entitled to be paid compensated time, and in some cases annual leave, vacation and sick/healthcare leave time depending on job classification, length of service, and other factors. For the governmental funds, most of the compensated absences liability will ultimately be paid from the General Fund.

Special Assessment District Bonds

Special Assessment District Bonds consist of Assessment District Bonds and Community Facilities District Bonds.

Assessment District Bonds are issued pursuant to provisions of the Improvement Bond Act of 1915 (Division 10 of the California Streets and Highways Code). Proportionate shares of principal and interest installments sufficient in aggregate to meet annual bond debt service requirements are included on the regular County tax bills sent to owners of property against which there are unpaid assessments. Neither the faith and credit nor the taxing power of the County, the State, or any political subdivision thereof is pledged to the payment of the bonds. Assessment District Bonds represent limited obligations of the County payable solely from special assessments paid by property owners within each district. Accordingly, such obligations are not included in the accompanying basic financial statements.

Community Facilities District Bonds are issued pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, and are payable from a portion of certain special taxes to be levied on property within the boundaries of the Community Facilities District. Except for the special taxes, no other taxes are pledged to the payment of

the bonds. The bonds are not general or special obligations of the County nor general obligations of the District, but are limited obligations of the District payable solely from certain amounts deposited by the District in the special tax fund. Accordingly, such obligations are not included in the accompanying basic financial statements.

The County is acting as an agent of the assessment and community facilities districts in collecting the assessments and special taxes, forwarding the collections to other paying agents or directly to bondholders, and initiating any necessary foreclosure proceedings. Because of the County's limited obligation in connection with special assessment district and community facilities district debt, related transactions are reflected in Custodial Departmental Funds. Major capital outlay expenditures relating to these bonds are accounted for in the "Service Areas, Lighting Maintenance and Assessment Districts" Special Revenue Fund. Special assessment district and community facilities district bonds outstanding as of June 30, 2023, amounted to \$566,170.

12. CONDUIT DEBT OBLIGATIONS AND SUCCESSOR AGENCY DEBT

Single and Multi-Family Housing Bonds

From 1980 through 2013, the County issued bonds under the authority of Chapter 7 of Part 5 of Division 3 of the Health and Safety Code of the State of California. The purpose of the bonds is to finance the purchase of single-family homes and the construction of multi-family units to benefit low and moderate income families.

The bonds are secured by the property financed and are payable solely from revenue of the projects and payments received on the underlying mortgage loans.

The bonds do not constitute a liability of the County. Neither the County, the State of California, nor any political subdivisions thereof are obligated in any manner for the repayment of the bonds. In no event shall the bonds be payable out of any funds or properties of the County. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of June 30, 2023, there were 11 series of bonds outstanding with an aggregate principal amount payable of \$55,646.

Orange County Development Agency (OCDA) Successor Agency Bond Debt

On December 29, 2011, the California Supreme Court issued an opinion in California Redevelopment Association (CRA) v. Matosantos, upholding the constitutionality of ABX1 26, eliminating RDA statewide effective February 1, 2012. Under ABX1 26, a successor agency was created for each dissolved RDA, including OCDA, and charged with winding down the dissolved RDA's operations and performing enforceable obligations (as defined in the law). The OCDA Successor Agency assumed the dissolved RDA's enforceable obligations, which include bond debt obligations. The Neighborhood Development and Preservation Project and Santa Ana Heights Project Refunding Bonds debt service obligations for FY 2022-23 appeared on the OCDA Successor Agency Recognized Obligation Payment Schedule and were approved by the Successor Agency Oversight Board, the State Department of Finance, and were paid to bondholders according to the debt service schedule.

Effective with OCDA's dissolution on February 1, 2012, the assets and liabilities (including bond debt) were transferred to and reported in a Private-Purpose Trust Fund of the County. This transfer and reporting structure reflects the custodial role accepted by the successor agency. As of June 30, 2023, the NDAPP bonds were paid off and the outstanding principal amount, including the premium of the SAH bonds and remaining interest was \$1,406 and \$33, respectively.

The bonds do not constitute a liability of the County. Neither the County, the State of California nor any political subdivisions thereof are obligated in any manner for the repayment of the bonds. In no event shall the bonds be payable out of any funds or properties of the County. Accordingly, the bonds are reported as liabilities in the Private-Purpose Trust Fund.

13. LEASES

Lessee

The County is currently engaged in noncancelable leases with various vendors as a lessee for the intangible right-to-use lease equipment, IT equipment, structures and improvements, and land. The lease terms include the noncancelable period per the contract plus/minus any extension options or termination options the County is reasonably certain to exercise. As of June 30, 2023, the right-to-use asset balance is \$499,977.

In FY 2022-23, the discount rate applied to new or modified leases is 4%. The County recognized \$27,559 and \$13,551 in principal and interest payments. The County also incurred \$9 in fees for the early termination of a building lease. The lease liability at June 30, 2023 is \$449,009.

As of July 1, 2022, the County was engaged in a sublease transaction with Orange County Royale Convalescent Hospital, where a building was leased to HCA and HCA leased a portion of that building to Royale Health Care Center. On March 24, 2023, Orange County Convalescent Hospital sold the building to 1030 Warner Ave Propco, LLC, and signed an Assignment and Assumption of Master Lease. As a result of this transaction, the County recognized a gain of \$5,859 and a right-to-use lease asset ending balance of \$10,596 at June 30, 2023.

The County leases its real property, and structures and improvements to others for various commercial, recreational, retail, and restaurant purposes. The terms of these noncancelable leases include the noncancelable period per the contract plus/minus any extension options or termination options the County is reasonably certain to exercise. Governmental activities leases receivables are held primarily by the Other Governmental Funds, and business-type activities leases receivables are held by the Airport and OC Waste & Recycling.

In FY 2022-23, the discount rate applied to new or modified leases is 4%. The County recognized \$18,777 and \$5,463 in principal and interest cash receipts. In addition \$4,027 was recognized as lease variable revenue based on lessee performance and changes in consumer price index (CPI). The leases receivable ending balance is \$179,881 at June 30, 2023.

As of July 1, 2022, the County subleased a building to Royale Health Care Center. On March 24, 2023, Royale Health Care Center sold its operations to 1030 Warner Ave Propco, LLC, and signed an Assignment and Assumption of Master Lease. Regulated Leases

In accordance with GASB Statement No. 87, certain lease agreements, between airports and aeronautical users are subject to regulations set forth by the Federal Aviation Administration and Department of Homeland Security. A lease receivable and a deferred inflows of resources is not recognized for these leases. The Airport identifies the following regulated leases:

Commercial and Commuter Airlines and Cargo Leases

The Airport entered into five-year lease agreements with various commercial and commuter airlines and cargo carriers that commenced on January 1, 2021 and expire on December 31, 2025, with no option to extend. Revenues from terminal rates, landing, operations, and remain over-night fees totaled \$66,365 for the year ended June 30, 2023, of which \$35,120, are considered variable rental payments.

Airline minimum rental revenues are based on rates adopted by the Board and are subject to change semi-annually in accordance with the related airlines' operating lease agreements. Due to the nature of the above revenues, expected future minimum payments are indeterminable.

13. LEASES (Continued)

Regulated Leases (Continued)

Fixed-Base Operation Leases

The Airport entered into multi-year lease agreements with full service and limited service fixed-base operators (FBO) that commenced on January 1, 2021. The full service agreements expire on December 31, 2055, with no option to extend. The limited service agreement expires on December 31, 2050, and with certain conditions, the lessee shall have the option to extend. Revenues from ground rent, building rent, and percentage rent of various gross receipts totaled \$10,278 for the year ended June 30, 2023, of which \$2,357, are considered variable rental payments. The future minimum payments are shown in the following table.

Limited Use General Aviation Facility Lease

The Airport entered into a two-year agreement with a limited use general aviation operator on September 1, 2006, which included an option for an 18 year lease extension. On October 21, 2008, the lease was extended to August 31, 2026, and on December 18, 2012, the lease was extended to August 31, 2036. Revenue from ground rent totaled \$510 for the year ended June 30, 2023, paid in twelve monthly installments. The future minimum payments are shown in the following table.

Hydrant Fueling Facilities Lease

The Airport entered into a 25 year hydrant fueling facilities lease agreement with a consortium of airline carriers on September 14, 1990. On September 14, 2010, the lease was extended to December 31, 2030. Revenue from rent totaled \$29 for the year ended June 30, 2023, paid in twelve monthly installments. The future minimum payments are shown in the following table.

Security Services Lease

The Airport entered into a five-year agreement with the Transportation Security Administration on October 1, 2018. On October 1, 2023, the lease was extended to September 30, 2033. Revenue from rent totaled \$278 for the year ended June 30, 2023, paid in twelve monthly installments.

Future minimum lease payments to be received as of June 30, 2023 are as follows:

14. SUBSCRIPTION-BASED INFORMATION TECHNOLOGY ARRANGEMENTS (SBITA)

The County entered into noncancelable SBITAs with various vendors for the intangible right-to-use SBITA assets. The SBITA terms include the noncancelable period per the contract plus/minus any extension options or termination options the County is reasonably certain to exercise. The County recognized in FY 2022-23 an initial right-to-use SBITA asset balance of \$31,638, increases of \$37,518 due to new SBITAs, and amortization of \$29,696, for a right-to-use asset balance of \$39,460, net of amortization at June 30, 2023.

In FY 2022-23, the discount rate applied to SBITAs is 4%. Using this discount rate, the County recognized in FY 2022-23 an initial SBITA liability of \$31,638, increases of \$32,304 due to new SBITAs, principal SBITA payments of \$30,629, and interest SBITA payments of \$603. In addition, \$2,233 was recognized as SBITA variable payment based on performance. The principal SBITA payments reduced the SBITA liability to \$33,313 at June 30, 2023.

15. LANDFILL SITE CLOSURE AND POSTCLOSURE CARE COSTS

State laws and regulations require OC Waste & Recycling to place final covers on its landfill sites when the landfills stop accepting waste, and to perform certain postclosure maintenance and monitoring functions at the site for a minimum of 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date each respective landfill stops accepting waste, OC Waste & Recycling reports a portion of these closure and postclosure care costs as an operating expense in each period based on the landfill capacity used as of the Statement of Net Position date.

OC Waste & Recycling owns or operates the following waste disposal sites:

- Frank R. Bowerman (FRB) (Irvine-Active)
- Olinda Alpha (Brea-Active)
- Prima Deshecha (San Juan Capistrano-Active)
- Santiago Canyon (Orange-Ceased accepting waste in 1996, final closure certification in 2005)
- Coyote Canyon (Newport Beach-Ceased accepting waste in 1990, final closure certification in 1995)

The total landfill closure and postclosure care liability at June 30, 2023 was \$203,805. The total liability represents the cumulative amount accrued based on the percentage of the active landfill capacities that have been used to date (39.81% for FRB, 92.14% for Olinda Alpha and 24.36% for Prima Deshecha), less actual costs paid related to both closure, and postclosure of the Santiago and Coyote Canyon landfills. OC Waste & Recycling will recognize the remaining estimated cost of closure and postclosure care of \$191,666 as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and

15. LANDFILL SITE CLOSURE AND POSTCLOSURE CARE COSTS (Continued)

postclosure care in 2022 dollars (using the 2022 inflation factor of 1.070). OC Waste & Recycling has enough landfill capacity to operate the system for a minimum of 25 years. However, OC Waste & Recycling estimates that it intends to operate the landfills well beyond this period as a result of approved and planned expansions.

In compliance with Title 27-Environmental Protection of California Code of Regulations, OC Waste & Recycling makes cash contributions as required to its escrow funds to provide financial assurance for estimated future landfill closure costs based on the GASB Statement No. 18, "Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs", formula which is adjusted annually by the Cal Recycle-provided CPI factor. Also, in compliance with regulations, OC Waste & Recycling has executed pledge-of-revenue agreements to provide financial assurance for estimated future landfill postclosure maintenance costs. The agreements state that OC Waste & Recycling pledges revenue from future gate fees deposited to pay for estimated postclosure maintenance or shall obtain alternative coverage within sixty (60) days if OC Waste & Recycling ceases at any time to retain control of its ability to allocate pledged revenue to pay postclosure maintenance costs. OC Waste & Recycling has proactively pre-funded this cost based on the State mandated formula that computes landfill capacity as a percentage of the total landfill capacity times the total estimated cost for postclosure maintenance. The estimated costs for future closure and postclosure maintenance are annually adjusted based on State provided inflation factors. The State mandated formula under which contributions to both closure and postclosure funds are calculated would provide for the accumulation of sufficient cash to cover all estimated costs when each landfill site reaches maximum capacity. If additional costs for closure or postclosure maintenance are determined due to changes in technology or higher regulatory requirements, these costs may need to be covered by increasing the amount charged to landfill customers.

As of June 30, 2023, a total of \$103,840 has been set aside for estimated closure and postclosure costs and is included in the accompanying Statement of Net Position as Restricted Pooled Cash and Investments-Closure and Postclosure Care Costs.

Regulations governing solid waste management are promulgated by government agencies on the federal, state and local levels. These regulations address the design, construction, operation, maintenance, closure and postclosure maintenance of various types of facilities, acceptable and prohibited waste types, and inspection, permitting, environmental monitoring and solid waste recycling requirements. Regulations at both the state and federal levels could impose retroactive liability, particularly with respect to cleanup activities relating to any landfill site ever operated by the County, whether or not owned by the County. Refer to Note 18, Pollution Remediation, for additional discussion regarding pollution remediation liabilities.

16. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

Encumbrances

The County has established a procedure for encumbering appropriations for purchase orders, contracts, and other commitments authorizing delivery of merchandise or rendering of services. An encumbrance system reduces the possibility of commitments being made in excess of budgeted appropriations due to the lag time between issuance of purchase orders, contracts, and other obligations, and the actual provision of services or goods and subsequent receipt of invoices and billings from the vendors and contractors. Depending on the source(s) of funding, encumbrances are reported as part of restricted or assigned fund balance on the governmental funds balance sheet. In accordance with GASB Statement No. 54, the County's total significant encumbrances for governmental funds in the aggregate are reported at June 30, 2023, as follows:

| | | |
|---|----|---------|
| General Fund | \$ | 67,917 |

In addition, the County is involved in the Santa Ana River Mainstem Project (SARMP). The SARMP is a major flood control project implemented and funded by the Federal government and three local sponsors—the OCFCD, San Bernardino County Flood Control District, and Riverside County Flood Control and Water Conservation District. A component of the initial project has been re-designated as the Prado Dam Project (Project), which is being implemented and funded by the Federal Government and the OCFCD through a separate Project Cooperation Agreement (PCA). The purpose of the SARMP is to prevent devastating damage caused by large-scale flooding of the Santa Ana River flood plain. When the SARMP was initiated in 1989, the U.S. Army Corps of Engineers (COE) considered this flood plain to constitute the worst flood threat west of the Mississippi River as to potential impacts to population and property. The Project involves a combination of flood channel improvements and constructing new channels in Orange, San Bernardino, and Riverside counties, construction of the Seven Oaks Dam in San Bernardino County, construction of improvements and protection at the Santiago retention basin and along the creek, raising the existing Prado Dam and increasing its flood flow outlet gates and reservoir capacity, along with several environmental mitigation-related studies, habitat restoration and protection activities, recreation amenities, and preservation of historical sites and records.

The COE's estimated combined cost of all project components is \$2,830,419. OCFCD's combined cost share is estimated to be \$1,053,008 for the entire Santa Ana River Project. As of June 30, 2023, the OCFCD has expended about \$759,743 on the entire Santa Ana River Project.

The construction of Seven Oaks Dam and most channel improvements in Riverside, San Bernardino, and Orange counties have been completed. The relocation and protection of State Route (SR) 71 adjacent to Prado Dam (a joint OCFCD and Caltrans project) and construction to raise the Prado Dam embankments and install new outlet gates is complete. Landscaping along the Santa Ana River in Orange County was completed in May 2010. Design for the construction of interior dikes in the Prado Dam reservoir, and for improvements to the spillway are also ongoing. The COE completed construction of National Housing Tract Dike and Sewage Treatment Plant in 2008. Landscaping for these dikes began in September 2009 and were completed in June 2011. Several environmental mitigation studies and restoration/preservation projects are underway in all three counties. All property right acquisitions for the Seven Oaks Dam and along the lower Santa Ana River in Orange County up to Weir Canyon Road are completed. The Green River Golf Course was acquired in September 2006. This property is required for construction of protection along SR-91 and nearby mobile homes, open space/recreation mitigation, and to accommodate increased flooding when the Prado Dam outlet gates are constructed and operational. The first phase of SR-91 protection (Reach 9 Phase 2B Project) was completed in September 2014. The second phase (Reach 9 Phase 3) started construction in January 2014 and was completed in March 2015. As continuation to the ongoing Reach 9 Project, the COE determined that bank improvements needed to continue east on the south side of the Santa Ana River along SR-91. As such, the

16. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS (Continued)

Construction Commitments (Continued)

Reach 9 Phase 4 Project was developed and the project was awarded on April 13, 2016 at an estimated cost of \$15,300. Completion of the Reach 9, Phase 4 Project occurred in February 2020. The COE is also constructing bank improvements on the north side of the Santa Ana River adjacent to La Palma Avenue from Weir Canyon Road to the railroad (Reach 9 Phase 5A and Phase 5B). Phase 5A was awarded on September 28, 2015 at a cost of \$22,500 and was completed in January 2019. The construction contract for Phase 5B was awarded in September 2016 with an estimated cost of \$25,500, but it was ultimately terminated in FY 2019-20. A new contract was awarded in September 2020 and was completed in September 2022. The OCFCD awarded the construction contract on August 9, 2011 for the four miles of Santa Ana River Interceptor Line (SARI) relocation project, which was completed by August 2014. Phase I of the Auxiliary Embankment (an extension of Prado Dam) was completed in September 2012 and Phase II was completed in July 2019. A contract for the construction of the Yorba-Slaughter Adobe Dike was awarded in December of 2012 at a cost of \$6,000 and was substantially completed in August 2017. The Women's Prison Dike (to protect the California Institute of Women) was awarded September 2014 for \$12,700 and a \$3,400 modification which was awarded in August 2015. This feature was substantially completed April of 2016. The OCFCD continues to acquire property rights for the Prado Dam Project, subject to the availability of funding. OCFCD has also commenced the relocation of utilities that will be impacted by the expanded inundation area due to the raising of the Prado Spillway crest.

The Santa Ana River Mainstem Project has been authorized by the State Legislature for reimbursement of up to 70% of the Local Sponsors' expenses through the State Flood Control Subvention Fund, which is administered by the Department of Water Resources (DWR). As of June 30, 2023, OCFCD has submitted \$446,556 in claims, and received \$436,332 in reimbursements. An additional \$6,185 in claims to DWR and \$20,320 reimbursement to DWR are in the process of being prepared for submittal to the DWR. Of the total amount outstanding, \$6,185 was reported as deferred inflows of resources at the fund level and recognized as revenue and \$20,320 was reported as due to other governmental agencies and recognized as expense in the government-wide financial statements. Once a claim is reviewed and approved by DWR, 90% of the eligible expenditures can be paid, subject to available funding, with the remaining 10% paid after an audit by the State Controller's Office.

The Prado Dam Project, a separable element of the Santa Ana River Mainstem Project, has been authorized for reimbursement of up to 100% of the Non-Federal Sponsors' eligible expenses through the Bipartisan Budget Act of 2018, which is administered by the Department of the Army. Non-eligible expenses will continue to be claimed from the State Flood Control Subvention Fund. As of June 30, 2023, OCFCD has submitted \$46,706 in claims, and received \$5,710 in reimbursements. An additional \$47,514 in claims is in the process of being prepared for submittal to the Department of the Army. Of the total amount outstanding, \$80,476 was reported as deferred inflows of resources at the fund level and recognized as revenue in the government-wide financial statements. Once a claim is reviewed and approved by the Department of the Army, 100% of the eligible expenditures can be paid, subject to available funding. The Bipartisan Budget Act funded projects include River Road Dike, Alcoa Dike Phase 2, Norco Bluffs Slope Stabilization and Prado Spillway. The construction contract for the River Road Dike, Alcoa Dike Phase 2, and the Norco Bluffs contract have been awarded and construction has commenced. The Spillway design is ongoing and will be advertised for construction in October 2023.

17. SELF-INSURANCE

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; natural disasters; unemployment; salary continuance; and providing health benefits to employees, retirees and their dependents. The County has chosen to establish ISFs where assets are set aside for claim settlements and judgments associated with such losses.

The Workers' Compensation ISF addresses the risks related to employee injury through its Safety Program, which is responsible for injury and illness prevention. The Workers' Compensation program ensures that all benefits are properly provided and administers the contract for the third-party workers' compensation claims administration. Workers' compensation claims are self-funded up to \$20,000.

17. SELF-INSURANCE (Continued)

The Property and Casualty Risk ISF is responsible for managing losses related to torts; theft of, damage to and destruction of assets, errors and omissions, civil rights claims, and natural disasters. Tort liability is also self-funded, up to \$5,000. Commercial insurance is purchased for property and other risk exposures. Excess liability insurance provides up to an additional \$30,000 in liability coverage. There were no losses that impacted the County's excess insurance coverage for the last three fiscal years.

Independent actuarial studies are prepared annually for the Workers' Compensation and Property and Casualty Risk ISFs. The reported unpaid claims liabilities are based on the results of those annual actuarial studies and include case reserves, development of known claims, incurred but not reported claims, allocated loss adjustment expenses and unallocated loss adjustment expenses. Unpaid claims liabilities are calculated considering inflation, claims cost trends, including frequency and payout of settlements and judgments, interest earnings, and changes in legal and economic factors. Unpaid claims liabilities have been discounted at a rate of 3.00% in the Workers' Compensation ISF and 2.00% in the Property and Casualty Risk ISF to reflect anticipated future investment earnings.

All County departments and other governmental agencies authorized by the Board to participate in the Workers' Compensation ISF are charged for their pro-rata share of costs based upon employee classification rates, claims experience, and funding for the Workers' Compensation program. All County departments participate in the Property and Casualty Risk self-insurance program and are charged for their pro-rata share based upon claims experience, productive hours, and funding for the Property and Casualty Risk program. The rate calculations for Workers' Compensation and Property and Casualty Risk ISFs are based upon guidelines established by the State Controller's Office for cost plan allocations.

The County has established the Unemployment Insurance ISF, which covers all employees and is paid through the State of California; the County self-insured PPO Health Plans ISF, which provides health plan benefits; and the Health and Other Self-Insured Benefits ISF, which provides dental and short-term disability benefits for a portion of the County's employees and accidental death and dismemberment (AD&D) benefit for Reserve Deputy Sheriffs.

The County's Wellwise Choice, Wellwise Retiree, Sharewell Choice, and Sharewell Retiree PPO plans have no lifetime coverage maximum limitations. The dental insurance coverage is up to \$1,500 (absolute dollars) annually for each covered employee or dependent. The short-term disability insurance coverage is up to 12 months or when the employee returns to work, whichever occurs first. The self-insured AD&D benefit is for Reserve Deputy Sheriffs only and has a maximum benefit of \$5,000 (absolute dollars).

Changes in the balances of claims liabilities during the past two fiscal years for these self-insurance funds are as follows:

| | Workers' Compensation | Property & Casualty Risk | Unemployment Insurance | Health & Other Self-Insured Employee Benefits | Total |
|--|--------------------------|--------------------------------|---------------------------|--|-------------------|
| Unpaid Claims, Beginning of FY 2021-22 | \$ 159,536 | \$ 67,289 | \$ 669 | \$ 9,988 | \$ 237,482 |

18. POLLUTION REMEDIATION

GASB Statement No. 49, “Accounting and Financial Reporting for Pollution Remediation Obligations,” requires state and local governments to disclose to the public information about the financial impact of environmental cleanup and identifies the circumstances under which a governmental entity would be required to report a liability related to pollution remediation. The County has identified several environmental sites at the Airport and OC Waste & Recycling for which a pollution remediation liability has been recorded in the County’s financial statements. The following describes the nature of the obligating events and the estimated liability as they relate to the Airport and OC Waste & Recycling.

John Wayne Airport (Airport)

In 1988, the Airport was named as a responsible party in a cleanup and abatement order (CAO) issued by the Regional Water Quality Control Board (RWQCB). The CAO identified four sites on Airport property as having chemical impacts to soil and groundwater. Site investigation and remedial action activities were completed, and in 2003, the RWQCB issued No Further Action letters to the Airport for the sites except the Old Fuel Farm site.

At the Old Fuel Farm, site investigation activities were completed, and on-going remedial activities include removal of residual free hydrocarbon product and monitored natural attenuation of groundwater. Annual groundwater sampling and reporting is currently conducted at the Old Fuel Farm, and the reports are prepared and submitted to the RWQCB.

In 1993, hydrocarbon-impacted soils were documented following removal of two 1,000-gallon underground storage tanks (USTs) at Former Fire Station #33. Following over-excavation and off-site disposal of hydrocarbon-impacted soils, the Orange County Health Care Agency issued a Completion of Corrective Action Letter to the Airport in 1994 related to the UST removal activities. During geotechnical assessment activities conducted at Former Fire Station #33 in 1999, soils appearing to be impacted with hydrocarbons were encountered and the soil boring logs were submitted to the RWQCB. In 2002, the RWQCB requested that the Airport assess the presence and distribution of chemical impacts to soil and groundwater. Site investigation activities were conducted between 2002 and 2006, and on-going remedial activities include monitored natural attenuation of groundwater. Currently, semi-annual groundwater sampling and reporting is conducted at Former Fire Station #33, and the reports prepared are submitted to the RWQCB.

In 2009, a new estimated pollution remediation liability was calculated based on a more active method of remediation for each of the Old Fuel Farm and Former Fire Station #33 sites. Active remediation has been delayed pending further guidance from the RWQCB, which could possibly affect the estimated pollution remediation liability, as well as cause changes to the remedial technologies used to remediate the sites. As of June 30, 2023, the Airport has a liability of \$994 based on management’s assessment and the results of the consultant’s evaluation of potential remediation costs. The liability is not expected to decrease until active remediation begins or a closure plan is accepted by the RWQCB.

In 1995, the Airport entered into a Memorandum of Understanding (MOU) with one of its fixed-base operators (FBO) lessees to address the remediation of the Old Fuel Farm. The FBO was identified as the operator of the site and the other responsible party. The lessee agreed to be obligated to pay 50% of the remediation costs associated with the Old Fuel Farm site. Reported in the Proprietary Funds Statement of Net Position as part of accounts receivable, the total expected recovery for the Old Fuel Farm site is \$256 as of June 30, 2023.

The estimated pollution remediation obligation as of June 30, 2023, is:

| | | |
|--|----|------------|
| Old Fuel Farm Site | \$ | 785 |
| Former Fire Station #33 Site | | 692 |
| Less: Remediation Activity | | (483) |
| Airport Pollution Remediation Obligation | \$ | <u>994</u> |

OC Waste & Recycling

Six closed sites were identified and the remediation costs and time periods were calculated for each of these sites based upon the type of remediation needed and historical trend data for closed landfill sites. The combined pollution remediation obligation as of June 30, 2023, after deducting actual pollution remediation expenses incurred during fiscal year 2023 is \$8,155.

Cannery Former Refuse Disposal Station A park owned by the City of Huntington Beach (Huntington Beach), California and an elementary school playground are located on a site that was formerly used as a refuse disposal station operated by the County from 1957 to 1969. Levels of methane gas that exceed regulatory limits were detected on the property.

The Local Enforcement Agency (LEA) issued a Notice and Order to Huntington Beach, requiring Huntington Beach to remedy the landfill gas exceedances and to control potential offsite migration of landfill gases. In response to the LEA's Notice and Order, Huntington Beach and the Huntington Beach City School District (Huntington Beach School District) issued the Notices of Intent to Sue under the Resource and Conservation and Recovery Act and the Comprehensive Environmental Response, Compensation, and Liability Act to the County in 2004. Under an agreement with the County, Huntington Beach, and Huntington Beach School District claims were tolled until June 2006.

The County, Huntington Beach, and Huntington Beach School District entered into a Settlement Agreement in 2007 whereby Huntington Beach would be responsible for maintaining the cover of the former disposal site and the County would assume responsibility for the collection and control of landfill gas.

Based on engineering estimates and existing contracts for the operation and maintenance of other disposal sites of a similar size, the age of the site, the length of time waste has been buried and other factors, the County anticipates that the landfill gas collection system will operate fully for 15 years from beginning of the obligation date. The cost to operate and maintain the landfill gas collection system at the site for the next fiscal year of operation is \$7. The anticipated costs to operate, maintain and monitor the landfill gas collection system over the remaining anticipated operational period is \$25.

Lane Road Former Refuse Disposal Station The site, located in the City of Irvine, California and owned by NGP Realty Sub, L.P. and others, was leased and operated by the County as a refuse disposal facility from 1961 until its closure in 1964. An investigation revealed that landfill gas was present above regulatory limits in close proximity to residential housing units. The LEA issued a Notice and Order to the property owner requiring them to remedy the landfill gas exceedances, and to control potential offsite migration of landfill gases. In response to the LEA's Notice and Order, a claim was filed with CEO Risk Management. The County entered into a Settlement Agreement with the property owner in 2005. Per terms of that Settlement Agreement, the County funded the construction of a landfill gas collection and control system, including a carbon treatment element, for the eastern portion of the site. After verification that the system was operating as planned, the County assumed ownership of the system and responsibility for its operation, maintenance and monitoring in 2008. Also in 2008, it was discovered that landfill gas was elevated in the northern portion of the site. Pursuant to the Settlement Agreement, the County designed and constructed an upgrade and enhancement to the existing landfill gas system to control landfill gas migration on the northern portion of the site.

Based on engineering estimates and existing contracts for the operation and maintenance of other similar disposal sites, the County anticipates that the landfill gas collection system will operate fully for 25 years from beginning of the obligation date, then will most likely either no longer be required or will be converted to a passive system. The cost for the operation, maintenance and monitoring of the system was highest in the first full year of operation when the carbon canisters needed more regular replacement. For each subsequent year of operation, the cost will be reduced due to less frequent carbon swapping and due to anticipated alternative monitoring requirements. The cost to operate and maintain the landfill gas collection system at the site for the next fiscal year of operation is \$303. The anticipated costs to operate, maintain and monitor the landfill gas collection system over the remaining anticipated operational period is \$606.

OC Waste & Recycling (Continued)

San Joaquin Former Refuse Disposal Station The site, owned by the University of California at Irvine (UC Irvine), was leased and operated by the County as a refuse disposal facility from 1954 to 1961. In 1996, a portion of the site was sold to the U.S. Food and Drug Administration. Levels of methane gas that exceed regulatory limits were detected on the property. As both parties expressed an interest in avoiding costly litigation, the County entered into negotiations to cooperatively address site concerns, resulting in a Cooperative Agreement with UC Irvine that was approved by the Board in May 2008. Pursuant to the Cooperative Agreement, the County constructed a landfill gas collection and control system, including a carbon treatment element.

The County retains responsibility for the operation, maintenance, and monitoring of that system. Based on engineering estimates and existing contracts for the operation and maintenance of similar disposal sites, the County anticipates that the landfill gas collection system will operate fully for 15 years from beginning of the obligation date. The cost to operate and maintain the landfill gas collection system at the site for the next fiscal year of operation is \$116. The remaining obligation for landfill gas remediation at the San Joaquin site over the anticipated operational period is \$231.

Forster Former Refuse Disposal Station The site, located in the City of San Juan Capistrano (San Juan Capistrano), California, was formerly leased and operated as a refuse disposal station by the County from 1958 to 1976. The current owner, Advanced Group 99-SJ, is proposing a change in land use for the property and has notified the County of its position that the County is responsible for re-closure of the site to meet current commercial and redevelopment requirements. The County disputes responsibility for site development related costs. In early 2010, San Juan Capistrano approved the proposed project and certified the Environmental Impact Report (EIR). The EIR was a subject of a citizen's referendum that ultimately resulted in affirmation of the proposed project. Subsequent to San Juan Capistrano approval of the proposed development plan, Advanced Group 99-SJ and the County entered into negotiations to resolve issues related to environmental responsibility at the site. These negotiations resulted in a settlement agreement and release of claims, brought about by a threat of litigation over the CEQA approvals. The settlement and release will permit the development of the site, with monies paid by the County for environmental controls to be installed at the site, an operation and maintenance fund and for environmental insurance, subject to conditions such as obtaining grading permits for the site for its actual development. In exchange, indemnification and environmental releases were provided by the developer to the County.

The obligation by the County for environmental infrastructure and controls at the site as agreed upon in the Settlement Agreement is \$7,500. The entire sum is anticipated to be released within five years from the approval of the project grading permits, but is dependent upon actions by the owner and regulatory approvals for the project. The County will continue to incur additional costs for work related to the County's current obligation to monitor the groundwater underlying the site. This responsibility will be transferred to the site owner upon completion of one of the settlement agreement milestones, but due to the uncertainty of specific timing, the County is unable to fully estimate the remaining ground water obligations as of June 30, 2023.

The remaining balance for landfill gas remediation at the Forster site is \$3,000 as of June 30, 2023. Distribution of these funds will occur over time, based on specific milestones in the development of the site.

Yorba Refuse Disposal Station The site, located in Orange, California (Orange), was owned and operated as a solid waste disposal site by the County. After disposal operations ceased, the site was sold to Orange for use as a city park. Park deed restrictions were later lifted from the property at the request of the city, which then began investigation into some form of commercial application or development at the site. In 2010, the Orange Redevelopment Agency filed suit against the City of Orange. The Complaint alleged various causes of action, including those for private nuisance, public nuisance, dangerous condition of property and statutory contributions for hazardous substances, and a Porter-Cologne contribution and for Polanco Redevelopment Act cost recovery. The relief sought is for unknown costs and damages. In turn, Orange filed a cross-

Yorba Refuse Disposal Station (Continued)

complaint against the County. The causes of action alleged include indemnity and/or contribution, declaratory relief, hazardous substance account act indemnity and remedies under the Porter-Cologne Act.

The County and Orange entered into negotiations to resolve the issues brought forth by Orange. The negotiations resulted in a settlement agreement and release of claims executed on November 5, 2015. This settlement agreement and release of claims provides a remedy for the differential settlement or subsidence, to replace the irrigation system, and for costs associated with site maintenance with monies paid for by the County. In addition, effective on the date of the agreement, the County assumed responsibility and ownership of the landfill gas control system at the site. In exchange, indemnification has been provided by Orange to the County. Based on engineering estimates and existing contracts for the operation and maintenance of other similar disposal sites, the County anticipates that the landfill gas collection system will operate fully for 30 years from beginning of the obligation date, then will most likely either no longer be required or will be converted to a passive system. The cost for the operation, maintenance and monitoring of the system was highest in the first full year of operation when the system needed upgrades and relocation of critical equipment. For each subsequent year of operation, the cost will be reduced due to less frequent carbon swapping and due to anticipated alternative monitoring requirements. The cost to operate and maintain the landfill gas collection system at the site for the next fiscal year of operation will be \$186. The anticipated costs to operate, maintain and monitor the landfill gas collection system over the remaining anticipated operational period is \$4,293 as of June 30, 2023.

The estimated pollution remediation obligation as of June 30, 2023 is:

19. RETIREMENT PLANS

The County participates in a number of pension plans. The OCERS plan and Extra-Help Defined Benefit plan are cost-sharing multiple-employer defined benefit pension plans. The County of Orange 401(a) and County of Orange 1.62% at 65 Retirement 401(a) plans are defined contribution plans. A summary of pension amounts for the County's defined benefit plans at June 30, 2023 is presented below:

| | <u>OCERS</u> | <u>Extra-Help Defined Benefit Plan</u> | <u>Total</u> |
|---|--------------|--|--------------|
| Deferred Outflows of Resources Related to Pension | \$ 1,288,672 | \$ 240 | \$ 1,288,912 |
| Net Pension Liability | 4,469,948 | 1,174 | 4,471,122 |
| Deferred Inflows of Resources Related to Pension | 120,775 | - | 120,775 |
| Pension Expense | 580,232 | 98 | 580,330 |

For further information on the deferred outflows/inflows of resources related to pension refer to Note 21, Deferred Outflows and Inflows of Resources.

19. RETIREMENT PLANS (Continued)

Orange County Employees Retirement System (OCERS)

Plan Description: Substantially all County employees participate in OCERS, a cost-sharing multiple-employer public employee retirement system established by the voters of Orange County in 1945 pursuant to the County Employees Retirement Law of 1937, CGC Section 31451 et. seq. (the Retirement Law). OCERS is an independent defined benefit retirement plan in which employees of the County, Orange County Superior Court, and employees of certain cities and special districts within the County participate. OCERS is governed by the Board of Retirement (the OCERS Board). Certain attributes of independence of OCERS are guaranteed under the California Constitution. The OCERS Board consists of nine regular members and one alternate. Four OCERS Board members are appointed by the Board, three members plus one alternate are elected from active County employees, one member is elected from retirees, and the elected County Treasurer-Tax Collector serves as an Ex-Officio member.

The OCERS Board supervises the investment of OCERS assets and the distribution of benefits to retired employees. The OCERS Board also determines the annual contributions required of the County and other participating local governmental entities to fund OCERS.

The Retirement Law requires an actuarial valuation to be performed at least once every three years. OCERS' practice has been to conduct an actuarial valuation annually as of December 31, which is OCERS' year end.

OCERS operates as a cost-sharing multi-employer defined benefit pension plan for the County, Orange County Superior Court of California, City of San Juan Capistrano, and ten special districts: Orange County Cemetery District, First 5 Orange County, Orange County Department of Education, Orange County Employees Retirement System, Orange County Fire Authority, Orange County In-Home Supportive Services Public Authority, Orange County Local Agency Formation Commission (LAFCO), Orange County Public Law Library, Orange County Sanitation District, Orange County Transportation Authority, Transportation Corridor Agencies and the University of California, Irvine Medical Center and Campus. The Orange County Department of Education and the University of California, Irvine Medical Center and Campus are closed to new member participation. Capistrano Beach, Cypress Recreation & Parks District, Orange County Mosquito and Vector Control and City of Rancho Santa Margarita are no longer active plan sponsors, but retired members and their beneficiaries, as well as deferred members, remain in the System. OCERS is legally and fiscally independent of the County. However, it is presented as a fiduciary component unit of the County based on the GASB Statement No. 84 guidelines.

Benefits Provided: OCERS provides for retirement, death, disability, and cost-of-living benefits. Under OCERS, each County employee receives a defined-benefit pension at retirement, that is, a specific amount per month determined in accordance with the Retirement Law, which amount is not dependent upon the amount of money credited to the employee's account at the time of retirement. An OCERS member may be eligible for a Disability Retirement allowance. The member will be asked to designate a beneficiary or beneficiaries, who may be entitled to receive lifetime and/or lump sum benefits that may be payable upon a member's death. OCERS also provides two types of disability benefits, a nonservice-connected disability retirement or service-connected disability retirement. Under each type, the eligibility requirements are different. More information can be found on www.ocers.org. The OCERS Board does not set the benefit amounts. OCERS administers benefits that are set by the County Board through the collective bargaining process with County employees in accordance with the Retirement Law.

Effective June 28, 2002, Safety members, including Probation Services employees, became eligible for an annual annuity equal to a retirement benefit formula of 3% of the member's "final compensation" for each year of service rendered at age 50. Law enforcement management, which includes executives in the Sheriff-Coroner and District Attorney departments, and employees represented by the Association of Orange County Deputy Sheriffs hired after April 9, 2010, receive an annual annuity equal to a retirement benefit formula of 3% of the member's "final compensation" for each year of service rendered at age 55.

19. RETIREMENT PLANS (Continued)

Orange County Employees Retirement System (OCERS) (Continued)

Benefits Provided (Continued)

Effective July 1, 2005, as part of collective bargaining agreements with County employees, most General members who work for the County (approximately 14,000) became eligible for an enhanced annual annuity equal to a retirement benefit formula of 2.7% of the member's "final compensation" for each year of service rendered at age 55. In collective bargaining agreements with General members, the employee associations agreed to pay the increased retirement costs related to the difference between the prior retirement benefit formulas and the new 2.7% at age 55 enhanced formula, as well as the annual amortization of the unfunded liability created by the retroactive application of the increased benefit. Members of the American Federation of State, County and Municipal Employees (AFSCME) did not elect the 2.7% at age 55 retirement formula and remain at the previous benefit formulas. The benefit formulas for AFSCME are an annual annuity equal to 2% of the member's "final compensation" for each year of service rendered at age 57.5 for Tier II General members. Due to the passage of the Public Employees' Pension Reform Act (PEPRA) of 2013, most new employees hired on or after January 1, 2013, except for Safety members and members represented by AFSCME and the Orange County Attorneys Association (OCAA), will receive an annual annuity equal to a retirement benefit formula of 1.62% of the member's "final compensation" for each year of service rendered at age 65. The 1.62% at age 65 retirement formula includes a voluntary defined contribution component with an employer match.

Non-vested Supplemental Targeted Additional Retiree Cost of Living Adjustment (STAR COLA) benefits are also paid by OCERS to eligible retirees and survivors. Pursuant to Government Code Section 31874.3 of the Retirement Law, the OCERS Board has the sole authority to grant STAR COLA each year. The OCERS Board understands that granting STAR COLA may increase the Unfunded Actuarial Accrued Liability (UAAL); and therefore, asks for comments from plan sponsors prior to voting on approval of the annual benefit.

Retirees who have lost more than 20% of their purchasing power since retirement are eligible for this benefit, and currently, approximately 141 retirees (of which 138 are County retirees) who retired on or before April 1, 1980, and their survivors receive the STAR COLA. The STAR COLA benefits are excluded from the actuarial valuation and are funded annually through current employer contributions. Benefits are considered immaterial to the plan.

Contributions: In accordance with various Board resolutions, the County's funding policy is to make periodic contributions to OCERS in amounts such that, when combined with employee contributions and investment income, will fully provide for member benefits by the time they retire. Covered employees are required to contribute a percentage of their annual compensation to OCERS as a condition of employment. Base employee contributions are calculated using a formula defined in the Retirement Law. The California Supreme Court's 1997 Ventura decision stated that, for the purpose of calculating pension benefits, "final compensation" means not only base salaries, but also other components. The County employee contributions under current contracts are calculated on base salary, eligible premium pay, and some categories of overtime as defined in the 1997 Ventura decision.

Employer contributions are based on what is needed to properly fund the system. The law, however, does allow employers and employees to negotiate some variation in who pays the contributions. OCERS' responsibility is to make certain the total required contribution is paid, regardless of how the employers and employees share the cost. For FY 2022-23, employer's contributions for funding purpose, as a percentage of covered payrolls, were 40.82% for General members, 63.25% for Safety-Law Enforcement members and 56.85% for Safety-Probation members, as determined by the December 31, 2020, actuarial valuation. The County's total contribution to OCERS for the year ended June 30, 2023 was \$591,307.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension: At June 30, 2023, the County reported a liability of \$4,469,948 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2022, and the total pension liability used to calculate the net pension liability was determined using actuarial valuation results. At December 31, 2022, the County's proportion was 82.92%, which was a decrease of 16.94% from its proportion measured as of December 31, 2021.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension (Continued)

For the year ended June 30, 2023, the County recognized pension expense of \$580,232. At June 30, 2023, the County reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

| | Governmental Activities | Airport | OC Waste & Recycling | Total |
|---|----------------------------|-------------------------|-------------------------|----------------------------|
| Deferred Outflows of Resources Related to Pension per Actuarial Studies | | | | |
| Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments | \$ 764,546 | \$ 7,284 | \$ 8,458 | \$ 780,288 |
| Difference Between Expected and Actual Experience | 83,660 | 724 | 872 | 85,256 |
| Changes of Assumptions | 79,762 | 662 | 1,121 | 81,545 |
| Changes in Proportion and Differences Between Employer Contributions and Proportionate Share of Contributions | 16,209 | 139 | 184 | 16,532 |
| Deferred Outflows of Resources Related to Pension - Employer Contributions after Measurement date | <u>318,862</u> | <u>2,153</u> | <u>4,036</u> | <u>325,051</u> |
| Total Deferred Outflows of Resources Related to Pension | <u>\$ 1,263,039</u> | <u>\$ 10,962</u> | <u>\$ 14,671</u> | <u>\$ 1,288,672</u> |
| Deferred Inflows of Resources Related to Pension per Actuarial Studies | | | | |
| Difference Between Expected and Actual Experience | \$ 53,302 | \$ 727 | \$ 1,098 | \$ 55,127 |
| Changes of Assumptions | 58,417 | 689 | 849 | 59,955 |
| Changes in Proportion and Differences Between Employer Contributions and Proportionate Share of Contributions | 5,589 | 47 | 57 | 5,693 |
| Total Deferred Inflows of Resources Related to Pension | <u>\$ 117,308</u> | <u>\$ 1,463</u> | <u>\$ 2,004</u> | <u>\$ 120,775</u> |

\$325,051 reported as deferred outflows or resources related to pension resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2024. For further information on the deferred outflows and inflows of resources related to pension refer to Note 21, Deferred Outflows and Inflows of Resources.

In September 1994, the County issued \$320,000 of pension obligation bonds, of which \$318,000 in proceeds were paid to OCERS. OCERS maintains the proceeds in a County Investment Account. Amounts in the County Investment Account have been used to fund a portion of the County's contributions over time, pursuant to agreements between OCERS and the County, which allows the County significant discretion in applying the credit. As of June 30, 2023, \$144,682 of such proceeds remains in the County Investment Account available for future credits to the County's pension obligations. For the year ended June 30, 2023, the County did not utilize funds available in the County Investment Account to pay a portion of the prepayment.

Amounts provided by OCERS' actuarial study reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized as follows:

| | |
|----------------------|--------------------------|
| Year ending June 30: | |
| 2024 | \$ (62,058) |
| 2025 | 118,402 |
| 2026 | 262,797 |
| 2027 | 521,276 |
| 2028 | 2,429 |
| Total | <u>\$ 842,846</u> |

19. RETIREMENT PLANS (Continued)

Orange County Employees Retirement System (OCERS) (Continued)

Actuarial Assumptions: The actuarial assumptions included a 2.50% inflation rate, 4.00% to 11.00% projected salary increases to general members and 4.60% to 15.00% to safety members, and a 7.00% investment rate of return, net of investment expense. The mortality assumptions used were based on the results of the actuarial experience study for the period of January 1, 2017 through December 31, 2019, using the Pub-2010 General Employee Amount-Weighted Above-Median Mortality Table projected generationally with the two-dimensional mortality improvement scale MP-2019.

Discount Rate: The discount rate used to measure the total pension liability was 7.00%, the long-term expected rate of return on pension plan investments. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rate and that the employer contributions will be made at rates equal to the actuarially determined contribution rates.

According to paragraph 30 of GASB Statement No. 68, the long-term expected rate of return should be determined net of pension plan investment expense but without reduction for pension plan administrative expenses. The 7.00% investment return assumption used in this accounting valuation is net of administrative expenses. Administrative expenses are assumed to be 13 basis points. Using this lower discount rate has resulted in a slightly higher total pension liability and net pension liability. The difference is not material to the County's financial statements.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rate of return by the target asset allocation percentage adding expected inflation and deducting expected investment expenses and a risk margin.

The target allocation and projected arithmetic real rates of return for each major asset class, after deducting inflation but before deducting investment expenses, used in the derivation of the long-term expected investment rate of return assumption are summarized in the following table:

| <u>Asset class</u> | <u>Target Allocation</u> | <u>Long-Term Expected Real Rate of Return</u> |
|-----------------------------------|--------------------------|---|
| Large Cap Equity | 23.10% | 5.43% |

| County's proportionate share of the net pension liability | \$ 7,074,862 | \$ 4,469,948 | \$ 2,345,200 |

Pension Plan Fiduciary Net Position: OCERS issues an audited stand-alone annual financial report for each year ending December 31. Detailed information about the pension plan's fiduciary net position is available and can be obtained online at www.ocers.org, in writing to the Orange County Employees Retirement System, P.O. Box 1229, Santa Ana, CA 92702, or by calling (714) 558-6200.

County Administered Plans

Extra-Help Defined Benefit Plan

Plan Description: The plan is a cost-sharing multiple-employer defined benefit retirement plan for employees working less than half-time or as extra-help for the County and six (6) other cost-sharing agencies. Eligible employees of this plan are not covered by OCERS or Social Security. Initially, the normal retirement benefits for a participant who retired on or after the normal retirement date was a monthly amount equal to one-twelfth of 2% of the participant's career earnings during the final 30 years of service credited under the Plan. There are no automatic cost-of-living adjustment (COLA) increases and no ad hoc COLAs have ever been granted. The current benefit for a participant who terminates or retires after November 20, 2008 is a lump sum payment, which is the greater of the actuarial equivalent of the participant's frozen accrued monthly benefit or the participant's contribution plus interest earnings. The normal retirement date is the first day of the month coinciding with or immediately preceding a participant's 65th birthday.

The plan was adopted to comply with the Omnibus Budget Reconciliation Act of 1990. The Board has full authority to amend or establish plan or benefit provisions at any time in accordance with the plan. The County is the named fiduciary and has the duty and full power to administer the plan. The Chief Financial Officer of the County is the trustee of the plan and has authority over the management and investment of plan assets.

The plan was adopted in January 1992 and was closed to new participants as of February 28, 2002. This plan subsequently froze benefit accruals and stopped collecting employee contributions effective November 21, 2008. As of that date, the normal retirement benefit was changed to a single lump sum distribution equal to the greater of the participant's account balance or the present value of their normal retirement benefit. As of June 30, 2023, the plan consists of 11 active plan participants, 150 terminated plan participants entitled to but not yet receiving benefits, and 35 retirees receiving benefits.

The plan financial statements are prepared using the accrual basis of accounting. County contributions are recognized in the period in which contributions are due, pursuant to the plan documentation and as may be required by statutory requirements. The benefits paid to participants and refunds of prior contributions are recognized when due and payable, in accordance with the terms of the plan.

The County charges a benefits administration fee to County agencies, which funds the cost of administering all of the County benefit programs, including the Extra-Help Defined Benefit Retirement Plan. The Empower Retirement Investment management fee is an annual asset-based fee of 8.5 basis points (each basis point is one hundredth of a percent).

Contributions: The County has the authority to determine plan contributions. GASB Statement No. 67, “*Financial Reporting for Pension Plans*,” requires the County to have an actuarial valuation performed at least biennially to determine the plan’s total pension liability. This valuation is currently performed biennially. The plan’s total pension liability was calculated using the data as of July 1, 2021, rolled forward to June 30, 2023 using actual benefit payments for FY 2022-23. In both the 2021 valuation and the 2023 roll forward calculations the actuarial assets are valued at fair value. Because plan benefits are frozen, the actuary has determined the County’s actuarially determined contribution using the projected unit credit method and a 5-year rolling amortization of the Unfunded Actuarial Accrued Liability. Based on the plan actuary’s advice, the County determines the amount necessary for contribution to the plan. Since the plan’s inception, the County and six (6) cost-sharing agencies have contributed \$8,130. For the year ended June 30, 2023, the County and six (6) cost-sharing agencies contributed \$160. The County’s proportionate share of the contribution was \$157.

Plan participants do not contribute to the fund effective November 21, 2008 (the date of the freeze). Note that effective November 21, 2008, there is no normal cost due to the plan freeze.

Investment policy: The County has sole authority for establishing and amending the plan’s investment policy and allocation of the invested assets. The plan’s policy in regard to the allocation of invested assets may be established and amended by the plan’s Trustee. The plan may invest in bonds, mortgages, notes, common or preferred stock, mutual funds, or other securities, policies of life insurance, annuity contracts, or property (real, bank deposits, or retain in cash or other property). The allocation policy with the target asset class and allocation is set forth in the investment policy.

Concentrations: Empower is the record keeper for the investments. The plan has stated its assets at fair value based on information provided by Empower Retirement.

Discount Rate: For the year ended June 30, 2023, the annual money-weighted rate of return on the Plan’s investments, net of pension plan investment expense, was 7.04%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The discount rate used to measure the total pension liability was 4.75%, the same as the long-term expected rate of return on plan assets.

In accordance with paragraph 30 of GASB Statement No. 68, the long-term discount rate was determined without reduction for pension plan administrative expense.

The long-term expected rate of return on plan investments was determined using a building-block method equal to the expected future real rate of return on the investment with Empower Retirement plus expected inflation, rounded to the nearest 0.25%. The target investment allocation is 33% equities and 67% fixed income. The best estimate of the long-term expected geometric real rate of return for the equities and fixed income (net of investment expense and inflation) are 4.29% U.S. equity, 4.55% U.S. small cap equity, 4.49% non-U.S. equity, 0.78% U.S. fixed income, and 0.46% global fixed income.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources related to Pensions: The components of the collective net pension liability of the County and the six (6) cost-sharing agencies at June 30, 2023 were as follows:

| | | |
|--|----|---------|
| Total Pension Liability | \$ | 5,165 |
| Plan’s Fiduciary Net Position | | (3,962) |
| Plan’s Net Pension Liability | \$ | 1,203 |

The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2021 and rolled forward to the measurement date of June 30, 2023. The County's proportionate share of the June 30, 2023 net pension liability is \$1,174. The County's proportion of 98.12% is based on an employer contribution allocation and has not changed since June 30, 2015.

For the year ended June 30, 2023, the County recognized pension expense of \$98. At June 30, 2023, the County reported deferred outflows of resources of \$240, which represents the aggregated net difference between projected and actual earnings on plan investments.

| | <u>Governmental Activities</u> | <u>Airport</u> | <u>OC Waste & Recycling</u> | <u>Total</u> |
|--|------------------------------------|----------------|-------------------------------------|---------------|
| Deferred Outflows of Resources Related to Pension per Actuarial Studies | | | | |

| Total Deferred Outflows of Resources Related to Pension | \$ 235 | \$ 1 | \$ 4 | \$ 240 |

The deferred outflows and inflows of resources related to this pension plan will be recognized as pension expense for the County as follows:

| Year ending June 30: | |
|----------------------|---------------|
| 2024 | \$ 60 |
| 2025 | 46 |
| 2026 | 146 |
| 2027 | (12) |
| Total | \$ 240 |

Actuarial Assumptions: The total pension liability based on the July 1, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement: (a) 2.50% inflation, (b) 4.75% investment return, (c) the 417(e) lump sum mortality table used for ERISA-governed plans and the 30-year Treasury rate with a look-back month of November grading into the long-term assumption of 4.50%, and (d) PubG-2010 Healthy Retiree Mortality Table projected generationally with mortality improvement Scale MP-2019. This plan does not have a salary increase assumption or post-retirement benefit increase assumption as these factors do not impact the benefits of this frozen plan.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate: The following presents the net pension liability of the collective plan and the County's proportionate share, calculated using the discount rate of 4.75%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.75%) or 1-percentage-point higher (5.75%) than the current rate:

| | 1% Decrease (3.75%) | Current Discount Rate (4.75%) | 1% Increase (5.75%) |

Extra-Help Defined Contribution Plan

Plan Description: Effective March 1, 2002, as amended and restated on February 10, 2015, the Board established the Extra-Help Defined Contribution Plan to replace the Extra-Help Defined Benefit Retirement Plan for (a) new employees hired on or after March 1, 2002, and supplements the benefits of the Extra-Help Defined Benefit Retirement Plan for employees hired prior to March 1, 2002 and (b) effective February 10, 2015, employees hired on or after such date (i) who attained age 60 by such hire date, (ii) who waive membership in the OCERS, do not have funds on deposit with OCERS and otherwise meet the requirements under OCERS' regulations and state law to waive membership in OCERS, (iii) whose employer has signed the OCERS Employer's Concurrence-Waiver of Membership form or any other documents that may be required by OCERS, and (iv) who sign the OCERS Employees' Waiver of Membership form and provide any other documents required by OCERS to waive membership. Eligible employees of this plan are not covered by OCERS or Social Security. This plan is a tax-deferred retirement plan, established in accordance with IRC Sections 457 and 3121 and is intended to comply with the Omnibus Budget Reconciliation Act of 1990 and meet the requirements to be a Social Security replacement plan. The Board has the authority to amend the plan. As of June 30, 2023, there were 7,680 participants with a balance in the plan, with 1,616 participants actively contributing to the plan as of the end of June payroll.

The plan is intended for retirement and funds may not be withdrawn until participants have separated from the County. The plan benefits for a participant who separates from service with the County or retires on or after the normal retirement date will be dependent upon the accumulated value of individual contributions and investment return.

If a participant's employment status changes from a part-time or extra-help employee to a permanent full-time employee or a part-time employee working 20 hours or more per week, those participants may elect to transfer the balance to the County's Section 457 Defined Contribution Plan or leave the balance in the plan until they are no longer employed with the County.

Funding Policy: Participants in the plan are required to contribute 7.5% of compensation each pay period. The contributions are invested in the County's Stable Value Fund offered through Empower Retirement, which is designed to protect principal and maximize earnings. Empower Retirement serves on behalf of the County as the third party administrator of the plan. The County established a trust to hold the plan assets, and Empower Retirement administers the plan at the will and approval of the County. In the current fiscal year, there was no additional contribution made by the County and total employee contributions were \$1,008. As of June 30, 2023, total plan assets were \$10,852.

Administrative Cost: There is an annual administrative fee of 0.16% charged to participants (at a monthly rate of 0.013%), which is capped for account balances at \$125. Each month participant fees are based on the average daily balance of their account(s) over a 30-day period, and are reflected on participants' quarterly statements. No employer-level fees are charged for the plan.

County of Orange 401(a) Defined Contribution Plan

Plan Description: Effective January 1, 1999, as amended and restated on March 24, 2015, the Board established the County 401(a) Plan for the benefit of eligible employees, elected officials, which includes members of the Board, certain executive managers, certain administrative managers once classified as confidential and grandfathered into the plan, attorneys represented by the Orange County Attorney's Association, and certain other employee classifications as defined in the plan document. The Board also has the authority to amend the plan. The plan was closed to the attorneys effective June 24, 2005. The plan was closed to new administrative managers and all grandfathered administrative managers effective June 23, 2016 and December 28, 2012, respectively. The plan is intended for retirement and funds may not be withdrawn until participants have separated from the County. The plan benefits for a participant who separates from service with the County or retires on or after the normal retirement date will be dependent upon the accumulated value of

individual contributions and investment return. As of June 30, 2023, the plan had 600 participants with a balance in the plan, with 283 participants actively contributing to the plan as of the end of June payroll.

Funding Policy: This plan is a defined contribution plan funded entirely by employer contributions. County contributions to the plan vary according to employee classification and range from 4% to 8% of bi-weekly compensation. An additional 1.5% is contributed on behalf of Elected Officials who choose not to participate in OCERS. Total contributions for the fiscal year ended June 30, 2023, were \$1,420 by the County and zero by the employees.

As previously described, Empower Retirement serves on behalf of the County as the third party administrator of the plan. The plan is reported as a fiduciary activity as the County has control of the assets. Contribution to the plan defaults to the County's Stable Value Fund upon initial enrollment, which is offered through Empower Retirement and designed to generate a stable yield while preserving the investor's principal. Once enrolled, plan participants may self-direct the investment of plan contributions into any of a number of eligible investment options offered under the plan. A small percentage of participants self-direct. As of June 30, 2023, total plan assets were \$22,179.

Administrative Cost: There is an annual administrative fee of 0.16% charged to participants (at a monthly rate of 0.013%) which is capped for account balances at \$125. There is an additional \$9 (absolute dollars) flat fee per year, which is a monthly fee \$0.75 (absolute dollars) charged to each participant. Each month participant fees are based on the average daily balance of their account(s) over a 30-day period and are reflected on participants' quarterly statements. No employer-level fees are charged for the plan.

County of Orange - 1.62% at 65 Retirement, 401(a) Defined Contribution Plan

Plan Description: On April 20, 2010, the Board approved and adopted the resolution implementing the "1.62% at 65" OCERS retirement formula for certain eligible employees. Effective May 7, 2010, as amended and restated on July 1, 2011, the Board approved the County 1.62% Defined Contribution Plan for the benefit of employees in the "1.62% at 65" OCERS retirement formula. The 1.62% Defined Contribution Plan is a combination governmental 457(b) and 401(a) retirement plan. Employee contributions are deposited into a 457(b) plan and employer-matching contributions are deposited into a 401(a) plan. Participation in the 1.62% Defined Contribution Plan is strictly voluntary. Employees are auto enrolled into the Plan and are given the option to opt out. It is designed to supplement the "1.62% at 65" OCERS retirement formula. Only employees in the "1.62% at 65" OCERS retirement formula are eligible to participate in the 1.62% Defined Contribution Plan.

On September 12, 2012, the Governor signed the PEPR of 2013. PEPR created a new pension retirement formula, commonly referred to as 2% at 62 retirement formula, for all new non-safety public employees hired on or after January 1, 2013. PEPR also allowed a public employer to continue to offer another retirement formula, if offered before December 31, 2012, to new public employees if the retirement formula has a lower benefit factor at normal retirement age and results in a lower normal cost than the 2% at 62 PEPR retirement formula. On December 18, 2012, the Board approved and adopted the "1.62% at 65" OCERS retirement formula for certain general (non-safety) public employees hired on or after January 1, 2013.

The Board has the authority to amend the plan. The plan is intended to comply with the requirements of IRC Section 401(a) and is intended for retirement. Matching employer contributions are determined by the County and approved by the Board, as stipulated in the Participants' bargaining units Memorandum of Understanding (MOU) or Personnel and Salary Resolution, as applicable. Employer contributions vest on employees' behalf after five years of continuous service with the County. For the purposes of eligibility and vesting, year of service means a 12-consecutive-month period during which the employee completes at least 2,080 hours of service,

exclusive of overtime. If the employee leaves employment with the County prior to the vesting period, the employee will only be entitled to the employee contributions to the plan.

Funds may not be withdrawn until participants have separated from the County. The plan benefits for a participant who separates from service with the County or retires on or after the early or normal retirement date will be dependent upon the accumulated value of individual contributions and investment return. As of June 30, 2023, the plan had 6,333 participants with a balance in the plan, with 4,994 participants actively contributing to the plan as of the end of June payroll.

Funding Policy: This plan is a defined contribution plan funded entirely by employer contributions. As of July 1, 2020, the County provides up to a 2% match per pay period of the employee's voluntary contribution to the IRC Section 457 element of the 1.62% Defined Contribution Plan. Employer contributions are deposited into the 401(a) Plan. Total contributions for the fiscal year ended June 30, 2023, were \$6,208 by the County and zero by the employees.

As previously described, Empower Retirement serves on behalf of the County as the third party administrator of the plan. The plan is reported as a fiduciary activity as the County has control of the assets. Contribution to the plan defaults to the age-appropriate target-date fund upon initial enrollment. Once enrolled, plan participants may self-direct the investment of plan contributions into any of a number of eligible investment options offered under the plan. A small percentage of participants self-direct. As of June 30, 2023, total plan assets were \$29,282.

Administrative Cost: There is an annual administrative fee of 0.16% charged to participants (at a monthly rate of 0.013%), which is capped for account balances at \$125. Each month participant fees are based on the average daily balance of their account(s) over a 30-day period and are reflected on participants' quarterly statements. No employer-level fees are charged for the plan.

20. OTHER POSTEMPLOYMENT BENEFITS

County of Orange Retiree Medical Plan

Plan Description: The County of Orange Fourth Amended Retiree Medical Plan (the Retiree Medical Plan) is a cost-sharing multiple-employer defined benefit OPEB plan, intended to assist career employees in maintaining health insurance coverage following retirement from County and participating employers' service. The Retiree Medical Plan was established by the Board. The Board is also the authority for amending the Retiree Medical Plan. The Retiree Medical Plan is not required by the County Employees Retirement Law of 1937 ("CERL")—the statute governing County employee retirement benefits. Eligible retired County employees receive a monthly grant (the Grant), which helps offset the cost of monthly County-offered health plans and/or Medicare A and/or B premiums. The Retiree Medical Plan specifically states that it does not create any vested right to the benefits. The Plan is reported in the County's financial statements since it administers the Plan. The Plan is reported as of December 31, 2022.

Plan Membership: As of June 30, 2023, seven employers, the County, Orange County Public Law Library, Superior Courts of Orange County, Orange County Local Agency Formation Commission, Orange County Employees Retirement System, First 5 Orange County, and Orange County Cemetery District have elected to participate in the plan. As of April 30, 2021, the membership consisted of the following:

| | |
|--|----------------------|
| Inactive plan members currently receiving benefit payments | 9,565 |
| Inactive plan members entitled to but not yet receiving benefit payments | 53 |
| Active plan members | <u>14,333</u> |
| | <u><u>23,951</u></u> |

Benefits Provided: In order to be eligible to receive the Grant upon retirement, the employee must have completed at least 10 years of continuous County and/or participating employers' service (although exceptions for disability retirements exist), be enrolled in a County sponsored health plan and/or Medicare, qualify as a retiree as defined by the Retiree Medical Plan and be able to receive a monthly benefit payment from OCERS. To qualify as a retiree as defined by the Retiree Medical Plan, the employee upon retirement must be at least 50 years of age or have at least 20 years of service for a safety member of OCERS or at least 30 years of service for a general member of OCERS.

The monthly Grant amount is determined by a formula that multiplies a base number by the number of years of qualifying County employment up to a maximum of 25 years. The base number for calendar year 2022 was \$24.63 (absolute dollars) per year of County service, and the maximum base monthly Grant was \$615.75 (absolute dollars). The base number for calendar year 2023 is \$25.37 (absolute dollars) per year of County service, and the maximum monthly Grant is \$634.25 (absolute dollars). The amount of the Grant is netted against the monthly health plan premium and/or reimburses Medicare premiums paid by the retiree for retiree and dependent coverage with the retiree obligated to pay the remaining balance. In no case shall the Grant exceed the actual cost to a retiree for the Qualified Health Plan and Medicare premiums.

The plan was amended in 2007. Certain plan provisions were changed as of effective dates that varied by labor group. The Grant is reduced by 50% once the retiree becomes Medicare Parts A and B eligible. Retirees who were age 65 and/or Medicare Parts A and B eligible on the effective date are not subject to the Medicare reduction. For employees retiring after the effective date, the Grant is reduced or increased by 7.5% based on the employee's age at retirement, such that the Grant is reduced 7.5% for each year under age 60 and increased by 7.5% for each year of age worked after age 60 up to age 70. Safety employees and disability retirements are exempt from the age adjustment.

The base number for the Grant is adjusted annually based on a formula defined in the Retiree Medical Plan document with a maximum increase/decrease of 3%. Surviving dependents of a deceased employee or retiree eligible for the Grant are entitled to receive 50% of the Grant that the employee/retiree was eligible to receive.

In addition to the Grant, the Retiree Medical Plan provides a frozen lump sum payment to terminated employees

Benefits Provided (Continued)

not eligible for the Grant. The qualifying hours of service for calculation of the lump sum payment is frozen and the effective date varies by labor agreement. The frozen lump sum payment is equal to 1% of the employee's final average hourly pay (as defined in the Retiree Medical Plan) multiplied by the employee's qualifying hours of service (as defined) since the Retiree Medical Plan's effective date.

Employees represented by AFSCME who retired before September 30, 2005 are not subject to the Medicare reduction or age adjustment to the Grant. The base number for these retirees is adjusted annually with a maximum increase/decrease of 5%. AFSCME employees who were employed on or after September 30, 2005 are not eligible for the Grant or the lump sum payment. They may participate in the County-offered health plans at their own cost.

Employees represented by the Association of Orange County Deputy Sheriffs (AOCDS) who were hired on or after October 12, 2007 are not eligible for the Grant or lump sum payment. Service hour accruals for the Grant and lump sum calculations for employees represented by AOCDS who were hired before October 12, 2007 were frozen. A Defined Contribution Plan Health Reimbursement Arrangement (HRA) was established to replace the Grant for new employees, and to supplement the frozen grants for current employees.

Association of County Law Enforcement Management (ACLEM) employees who were hired on or after June 19, 2009 are not eligible for the Grant or lump sum payment. Service hour accruals for the Grant calculations for ACLEM employees who were hired before June 19, 2009 were frozen. The qualifying hours of service for calculation of the lump sum payment for law enforcement management employees were frozen as of June 23, 2006. A Defined Contribution Plan HRA was established to replace the Grant for new employees, and to supplement the frozen grants for current employees.

Effective January 1, 2008, health insurance premium rates were separately pooled for the active and retired employees, except for employees represented by the AOCDS. Effective July 1, 2008, retiree health insurance premium rates for retired AOCDS and ACLEM employees enrolled in the AOCDS health plans must be 10% higher than active employees. Because retirees as a group have higher medical costs than active employees, the pooling of active and pre-Medicare retiree premiums in the AOCDS health plans results in "blended rates". Blending the premium rates provides the pre-Medicare retirees the benefit of lower rates, while increasing the rates for active employees. The blended rates benefit for pre-Medicare retirees reflects the difference between the true cost of retiree benefits and the blended premium charged. GASB requires the cost of this blended rates benefit be included in the total OPEB liability.

Effective July 8, 2016, all active OCAA employees are no longer eligible for the Retiree Medical Grant or Lump Sum. A Defined Contribution Plan HRA was established to replace the Grant or Lump Sum for all active employees.

Effective July 3, 2020, the Retiree Medical Grant was frozen for all employees of the AOCDS Public Safety General and Public Safety Supervisory Unit. Service hour accruals for the Grant calculations are frozen. Only employees with ten or more credited service years as of the effective date are eligible for a Grant. Cost of living and age adjustments ceased in the calculation of the Grant. A Defined Contribution Plan HRA was established to replace the Grant or Lump Sum for all active employees with less than ten years of credited service as of the effective date, and to supplement the frozen grants for current employees with at least ten years of credited service as of the effective date.

All AOCDS Public Safety employees who retired on or after January 4, 2019 were enrolled in AOCDS retiree health plans. Employees who retired before this date remained in County retiree health plans.

County of Orange Retiree Medical Plan (Continued)

Benefits Provided (Continued)

Effective July 15, 2020 through October 8, 2020, the County implemented the Voluntary Incentive Program (VIP). Retirees who were eligible for the Grant and retired during the effective period could choose one of the following options rather than activating their Grant:

Option 1: Opt out of the Retiree Medical Plan at retirement with the option to opt back in at any open enrollment or within 30 days of a qualifying life event subject to the terms and conditions of the applicable insurance plans at the time the retiree opts back into health coverage. The retiree will be ineligible to receive their Grant during the period the retiree has opted out of the Retiree Medical Plan but their Grant will be effective the first day of the month following the date the retiree elects to opt back into the Retiree Medical Plan. When the Grant is received, the Grant will be calculated based on retiree medical years of service and age at original date of retirement, including any other adjustments required by Retiree Medical Plan provisions. While not participating in the Retiree Medical Plan and the Grant is suspended, retiree must maintain minimum essential coverage under California state law, Federal law and Medicare (if applicable), and provide proof of coverage upon County request, to be eligible to enroll in the County Retiree Medical Plan and receive the Grant. This option does not apply to retirees participating in AOCDS health plans.

Option 2: Permanently waive the right to participate in the Retiree Medical Plan and the right to receive the Grant, including a Medicare Part B reimbursement once Medicare eligible. A retiree who chose this option received a contribution to an HRA in lieu of participation in the Retiree Medical Plan.

On July 13, 2021 the Board approved a one-time voluntary opt out of the Retiree Medical Plan at retirement with the same terms and conditions as option 1 of VIP. The voluntary opt out was effective January 1, 2022.

On December 20, 2022, the Board approved restructuring of the Retiree Medical Plan for the following labor groups: Orange County Employees Association (OCEA), Orange County Managers Association (OCMA) International Union of Operating Engineers (IUOE), Teamsters, and unrepresented employees effective June 16, 2023. The Orange County Superior Courts, Orange County Public Law Library, OCERS, First 5 Orange County, Orange County Cemetery District, and the Orange County Local Agency Formation Commission also approved participation in the restructured Retiree Medical Plan.

The restructuring effective June 16, 2023, eliminates the Grant for new employees, freezes the Grant for existing employees, and transitions new and existing employees to the County Health Reimbursement Arrangement (HRA) Plan with the option for existing employees as of June 15, 2023, to place the value of their Grant in the County HRA Plan in lieu of receiving the Grant at retirement.

As of June 16, 2023, the Grant will be frozen for existing employees and they will not accrue additional service hours towards eligibility for the Grant. All employees with one or more years of credited service as of June 15, 2023, shall be eligible for the frozen Grant. The annual COLA and age adjustment (+/- 7.5%) will be eliminated. New employees as of June 16, 2023, will not be eligible for the Grant.

Existing employees as of June 15, 2023, who have accrued at least one full year of qualified credited service under the Plan Document may choose not to receive the frozen Grant and instead have \$855 (absolute value) for each full year of credited qualified service deposited into the employee's HRA account. Any employee who elects to receive the frozen Grant shall be subject to the 25 year cap; however, they shall be credited \$855 (absolute value) per each full year of eligible service beyond the 25 year cap in their HRA account (e.g., a 30 year employee would have \$855 (absolute value) for each of the 5 years over the 25 year cap deposited into their HRA account, and at retirement receive a frozen Grant based on 25 years of service).

20. OTHER POSTEMPLOYMENT BENEFITS (Continued)

County of Orange Retiree Medical Plan (Continued)

Contributions: The County implemented a policy to make annual employer contributions in an amount equal to the Actuarially Determined Contribution (ADC) for the affected labor groups except ACLEM. In FY 2019-20, to ensure adequate funding of the Grant, the ADC included normal cost and amortization of liabilities for the Grant, Lump Sum and blended rates. In addition to contributing the ADC for the blended rates of retired employees enrolled in the AOCDS health plans, the County funded the blended rates benefit on a pay-as-you-go basis. Beginning in 2021, the employer contribution includes only the Grant and Lump Sum benefit. The blended rates benefit are funded on a pay-as-you-go basis.

In order to more adequately fund benefits under the Retiree Medical Plan, on June 19, 2007, the Board adopted the County of Orange Retiree Medical Trust (Trust) effective July 2, 2007. The Trust is an IRC Section 115 trust for which the County Chief Financial Officer is the Trustee. In addition, OCERS has established an IRC Section 401(h) account to invest monies and acts as Trustee for the 401(h) account which is used to pay the Grant. The combined Trust and 401(h) represent the fiduciary net position of the Plan and are reported in the County's ACFR.

During the current fiscal year, the County set aside contributions of 0.2% of payroll for AFSCME, 0.3% for OCAA, 1.3% for AOCDS, 2.7% for law enforcement management, 3.3% for the Probation Department safety personnel, 1.8% for public safety general employees and 3.4% of payroll for all other labor groups, which is the estimated employer contribution for those groups calculated by an actuary. Additionally, ACLEM employees covered under the "3%@50" safety retirement formula contributed 1.6% of base pay.

For the Plan year ended December 31, 2022, the total Plan contributions were \$46,389. The County's contribution was \$42,188 (90.94%), Superior Court was \$3,716 (8.01%), OCERS was \$328 (0.71%), First 5 Orange County was \$40 (0.09%), Law Library was \$39 (0.08%), Cemetery District was \$60 (0.13%), and LAFCO was \$18 (0.04%). The County's contribution for the fiscal year ended June 30, 2023 was \$43,336.

Funds were initially deposited into the Trust in December 2007, with subsequent deposits made throughout each fiscal year. The administrative expenses for the Trust are paid from the Trust.

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB: The components of the collective net OPEB liability of the participating employers as of June 30, 2023 were as follows:

| | |
|--|-------------------|
| Collective OPEB Liability | \$ 689,935 |
| Collective Plan's Fiduciary Net Position | (391,478) |
| Collective Net OPEB Liability | <u>\$ 298,457</u> |
| Plan Fiduciary Net Position as a percentage of the Total OPEB Liability | 56.74% |

The Collective OPEB Liability of \$689,935 includes \$539,027 for the Grant and Lump Sum benefits and \$150,908 for the blended rates benefit. GASB requires the blended rates benefit be included in the Net OPEB liability, but the County's funding policy of only contributing towards the Grant and Lump Sum benefits means the County intends to use the Trust assets only to pay for Grant and Lump Sum benefits. If the funded percent were calculated reflecting the County's funding policy rather than GASB requirements, it would be larger than that shown above. Excluding the OPEB liability for the blended rates benefit, which are funded on a pay-as-you-go basis, from the Collective OPEB Liability, the Plan Fiduciary Net Position as a percentage of the total OPEB liability for the Grant and Lump Sum benefit is 72.63%.

20. OTHER POSTEMPLOYMENT BENEFITS (Continued)

County of Orange Retiree Medical Plan (Continued)

OPEB Liabilities, OPEB Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

The Collective Plan Fiduciary Net Position reflects a reduction for an amount payable (\$59,975) for the assets moved to the HRA for eligible General employees who chose not to receive the frozen Grant in the Plan restructure effective June 16, 2023, or for those who chose to receive the frozen Grant and have greater than 25 years of service. The amount of assets payable were adjusted for the timing difference between the measurement date and the expected date the assets were to be moved to the HRA.

At June 30, 2023, the County reported a liability of \$271,417 for its proportionate share of the collective net OPEB liability. The collective net OPEB liability was measured as of December 31, 2022, and the total OPEB liability used to calculate the collective net OPEB liability was determined by an actuarial valuation as of June 30, 2021. The County's proportion of the collective net OPEB liability was based on the 2022 share of employer contributions to the OPEB plan relative to the projected contributions of all participating employers. At December 31, 2022, the County's proportion was 90.94%, which was an increase of 0.02% from its proportion measured as of December 31, 2021.

For the year ended June 30, 2023, the County recognized OPEB expense of \$12,114. At June 30, 2023, the County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | <u>Governmental Activities</u> | <u>Airport</u> | <u>OC Waste & Recycling</u> | <u>Total</u> |
|---|------------------------------------|----------------------|-------------------------------------|-------------------------|

| Total Deferred Inflows of Resources Related to OPEB | <u>\$ 43,232</u> | <u>\$ 375</u> | <u>\$ 449</u> | <u>\$ 44,056</u> |

Deferred outflow of resources of \$22,516 related to OPEB resulting from County's contributions subsequent to the measurement date will be included as a reduction of the collective net OPEB liability in the following fiscal year. For further information on the deferred outflows and inflows of resources related to OPEB refer to Note 21, Deferred Outflows and Inflows of Resources. Other deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in the County's OPEB expense as follows:

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation. The actuarial valuations involve estimates of the values of reported amounts and assumptions about the probability of events far into the future and will be subject to continual revision as they reflect a long-term perspective.

Actuarial Methods and Assumptions: The total OPEB liability was determined by an actuarial valuation as of June 30, 2021. The County contracts with an outside actuarial consultant to prepare a biennial actuarial valuation in conformance with GASB requirements and is based on established pattern of practice. The actuarial methods and significant actuarial assumptions used in the June 30, 2021 actuarial valuation are:

- The entry age normal actuarial cost method
- 7.00% long-term expected rate of return, net of investment expenses, on funds held in the Trusts
- 3.00% per annum payroll increase assumption
- 2.50% per annum general inflation rate assumption
- Assumed annual increases in the monthly grant of 3% for non-AFSCME employees and 5% for AFSCME employees. The healthcare trend was assumed to be greater than or equal to the annual increase to the Grant in almost all future years. Therefore, it is the Grant annual increase rather than the healthcare trend that has the largest impact on the projected benefits and the net OPEB liability.
- Grant participation rate was 50% to 100%, determined by employee group and Grant service at retirement, based on the April 2019 participation study and individual Grant elections of the applicable General employees from the restructuring effective June 16, 2023.

Medical trend used for pre-Medicare members was 6.50% for 2023, decreasing to 3.75% for 2076 and later. For Medicare eligible members, 4.60% was used for 2023 decreasing to 3.75% for 2076 and later (Kaiser) and 5.65% was used for 2023, decreasing to 3.75% for 2076 and later (Non-Kaiser). Mortality rates were based on the Pub-2010 Benefit-Weighted Mortality Tables with separate tables for males and females. Mortality improvement was projected fully generational with Society of Actuaries mortality improvement Scale MP-2019.

Discount Rate: The discount rate used to measure the total OPEB liability was 7.00%, the long-term expected rate of return on plan assets, net of investment expenses. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current negotiated contribution rate and that the employer contributions will be made at rates equal to the actuarially determined contribution rates for the Grant and lump sum benefits (with blended rates benefit paid on a pay-as-you-go basis). Based on actuarial assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Rate of Return: For the year ended December 31, 2022, the annual money-weighted rate of return on investments, net of investment expense, was (7.88%). The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested. For further information on the investment policy of OCERS refer to Note 4, Cash and Investments.

Sensitivity of Net OPEB Liability to Changes in the Discount Rate: The following presents the Net OPEB liability of the collective plan and the County's proportionate share, calculated using the discount rate of 7.00%, as well as what the County's proportionate share of the collective net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

County of Orange Health Reimbursement Arrangement (HRA)

Plan Description: On October 23, 2007, the Board approved and adopted a MOU agreement with the AOCDS. The MOU restructured the Retiree Medical Plan and established a Defined Contribution Plan Health Reimbursement Arrangement to replace the Retiree Medical Plan for new employees, and to supplement the current employees’ frozen service hour accruals for the Grant.

The HRA is intended to comply with the requirements of IRC Sections 105 and 106 and meets the requirements of a health reimbursement arrangement as defined under IRS Notice 2002-45. The contributions made to reimbursement accounts, any investment gains and qualified medical expenses reimbursed under this plan are intended to be eligible for exclusion from the gross income of eligible employees, participants, and retired participants (including the spouses and dependents of each) under IRC Section 105(b). The HRA may be amended by the Board or the plan administrator to comply with federal, state, or local laws, statutes, regulations, or guidance from regulatory agencies.

On June 24, 2008, the Board approved the County of Orange Health Reimbursement Arrangement (HRA) Plan Document. The HRA Plan is not required by the Retirement Law; it is intended to fund the reimbursement accounts of eligible employees on a pre-tax basis and reimburse the eligible unreimbursed and substantiated qualified medical expenses of retired participants.

On March 10, 2009, the Board approved the restructuring of the Retiree Medical Plan and establishment of a Defined Contribution Plan HRA for employees represented by ACLEM effective June 19, 2009. The HRA replaces the Retiree Medical Plan for new employees and supplements the current ACLEM employees’ frozen service hour accruals for the Grant.

Administration of the HRA by the third-party administrator began in August 2009. The Plan Document was amended and restated on January 1, 2011, to reflect changes to the definition of a “dependent” due to healthcare reform legislation.

On May 12, 2015, the Board approved the restructuring of the Retiree Medical Plan and establishment of a Defined Contribution Plan HRA for employees represented by OCAA effective July 8, 2016. The HRA replaces the Retiree Medical Plan for all active attorney employees.

County of Orange Health Reimbursement Arrangement (HRA) (Continued)

Plan Description (Continued)

The Plan Document was amended and restated on June 1, 2016 to provide for the transition of the OCAA to the HRA Plan in July 2016. Prior employee contributions for employees represented by OCAA to the Retiree Medical program and the interest earnings thereon through July 5, 2016 were transferred as a lump sum deposit for eligible employees to their HRA accounts.

On January 4, 2019, the Board approved the restructuring of the Retiree Medical Plan and establishment of a Defined Contribution Plan HRA for employees of Public Safety General Unit and Public Safety Supervisory Unit effective July 3, 2020. The HRA replaces the Retiree Medical Plan for all active employees of Public Safety units.

On July 14, 2020, the Board approved and enacted the VIP, which offered the incentives to eligible employees who volunteered to separate by resignation or retirement between July 15, 2020 through October 8, 2020. Employees who were eligible for a Service Retirement Allowance pursuant to OCERS under the Retirement Law received the employer contribution to the HRA at retirement. A one-time County contribution, in the amount equal to the pre-tax amount approved by the Board, or contribution equal to the Board approved percentage of base annual salary (whichever was greater), was contributed to the County's HRA. In addition, employees eligible for a Grant in the Retiree Medical Insurance Program were offered an HRA contribution in lieu of a Grant. The value contributed to the HRA was \$655 (absolute dollars) multiplied by an employee's total years of County service.

On December 20, 2022, the Board approved the restructuring of the Retiree Medical Plan and establishment of a Defined Contribution Plan HRA for employees represented by OCEA, OCMA, IUOE, Teamsters, and unrepresented employees effective June 16, 2023. The Orange County Superior Courts, Orange County Public Law Library, OCERS, First 5 Orange County, Orange County Cemetery District, and the Orange County Local Agency Formation Commission also approved participation in the restructured Retiree Medical Plan. The HRA replaces the Retiree Medical Plan for new employees and supplements the current employees' frozen service hour accruals for the Grant.

Existing employees as of June 15, 2023 who have accrued at least one full year of qualified credited service under the Retiree Medical Plan Document may choose not to receive the frozen Grant and instead have \$855 (absolute value) for each full year of credited qualified service deposited into the employee's HRA account. The HRA assets for this group of employees are expected to be transferred by September 2023.

As of June 30, 2023, the plan had 3,485 active and 2,102 inactive participants.

Funding Policy: Employer and mandatory employee contributions were effective October 12, 2007 for employees represented by AOCDS, effective June 19, 2009 for employees represented by ACLEM, and effective July 8, 2016 for OCAA represented employees. All contributions made to the HRA are deemed to be employer contributions. Employee contributions for employees represented by each of the bargaining units are mandatory pursuant to their bargaining unit MOU and mandatory pursuant to Board action.

For employees represented by AOCDS, the County contributes 5.0% of base salary each pay period. For employees represented by ACLEM, the County contributes 4.0% of base salary each pay period. For employees represented by OCAA, the County contributes 1.0% of base salary each pay period and employees are also required to contribute 1.0% of base salary each pay period. For employees represented by AOCDS Public Safety, the County contributed 4.5% of base salary each pay period starting on July 1, 2022 and increased to 5% starting on January 13, 2023.

Funding Policy (Continued)

As of pay period beginning June 16, 2023, for employees represented by OCEA, OCMA, IUOE, Teamsters, unrepresented employees and employees of Orange County Superior Courts, Orange County Public Law Library, OCERS, First 5 Orange County, Orange County Cemetery District, and the Orange County Local Agency Formation Commission, the employer will contribute \$60 (absolute value) per pay period.

Contributions from employees who elected the HRA rather than the Frozen Grant will be defaulted to the MissionSquare PLUS fund. Once contributed, employees may self-direct the investment of plan contributions into any of a number of eligible investment options offered under the HRA. A small percentage of participants self-direct. It is anticipated that these contributions will be made approximately in September 2023.

Contributions to the HRA Plan default to the age-appropriate target-date fund upon initial enrollment. Once enrolled, HRA participants may self-direct the investment of plan contributions into any of a number of eligible investment options offered under the HRA. Total contributions for the fiscal year ended June 30, 2023 were \$16,826 by the County and \$815 by the employees. As of June 30, 2023, the value of the HRA assets was \$220,937.

Administrative Cost: Prior to April 1, 2019, annual administrative fees included a plan asset fee of 0.40% and an annual account fee of \$80 (absolute dollars). Beginning on April 1, 2019, the administrative fee was reduced to 0.195% with no annual account fee. Each quarter, 25% of the fees are assessed to participant accounts and are reflected on participants' quarterly statements. No employer-level fees are charged for the Plan.

21. DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

The deferred outflows/inflows of resources amounts included on the government-wide Statement of Net Position and the Proprietary Funds Statement of Net Position are comprised of deferred outflows/inflows of resources related to pension, deferred outflows/inflows of resources related to OPEB, deferred inflows of resources for leases and service concession arrangements (SCA). The deferral of resources related to leases and SCAs is the difference between the guaranteed installment payments and contractual commitments. For SCAs, there is an additional deferred inflows of resources recorded in relation to the capital assets built or improved by the operator that will revert to the County at the end of the agreement. Deferred resources related to pension and OPEB result from the net difference between projected and actual investment earnings on the plan investments, changes of assumptions and changes in proportion and differences between employer contributions and the proportionate share of contributions calculated by the actuarial study and differences between expected and actual experience. The deferred outflows of resources related to pension and OPEB also include employer contributions made after the measurement date. Deferred outflows/inflows of resources included in the statement of net position, governmental activities and business-type activities as of June 30, 2023, are described as follows:

22. CONTINGENCIES

Estimated Liability for Litigation and Claims

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County's legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the County. To the extent the outcome of such litigation has been determined to result in probable financial loss to the County, a liability has been accrued in the accompanying financial statements. Litigation where loss to the County is reasonably possible has not been accrued and at this time an estimate cannot be made. For information regarding claim payments and unpaid claims balance for self-insurance claims, refer to Note 17, Self-Insurance.

Federal Assistance

On August 17, 2021, the Airport received an allocation of \$33,582 from the Airport Rescue Grants under the American Rescue Plan Act. This grant can be used to reimburse the Airport for allowable costs incurred from January 20, 2020 to August 16, 2025. During the year ended June 30, 2023, the Airport recognized grant revenue of \$30,586. The grant balance was \$2,996 as of June 30, 2023.

23. SUBSEQUENT EVENTS

The following events occurred subsequent to June 30, 2023:

Teeter Plan Notes: On July 14, 2023, the County paid \$41,208 of its \$82,308 taxable Teeter Plan Obligation Notes, Series B utilizing accumulated base taxes. On July 17, 2023, the Teeter Plan Notes were issued for \$89,004 in taxable Teeter Plan Obligation Notes, Series B, to refund the outstanding balance of \$41,100 and to finance the purchase of \$47,904 in delinquent property tax receivables. The Teeter Plan Notes issued on July 17, 2023, were issued pursuant to a First Amendment to Second Amended and Restated Note Purchase and Reimbursement Agreement, dated between the County and Wells Fargo Bank, National Association. Teeter Plan Notes may be issued from time to time by the County provided that the total principal amount of Teeter Plan Notes outstanding at any one time shall not exceed \$150,000.

23. SUBSEQUENT EVENTS (Continued)

The County paid \$18,200 on September 15, 2023, and \$15,017 on November 17, 2023, of its \$89,004 Teeter Plan Notes utilizing accumulated base taxes. The Teeter Plan Notes mature on July 30, 2024, and bear a variable interest rate.

Withdrawal of County from Orange County Power Authority (OCPA): On December 20, 2022, the Board voted to withdraw from the OCPA for a variety of reasons, including concerns over OCPA's financial status and its rate structure for unincorporated residents. This withdrawal became effective at the beginning of the following fiscal year, or July 1, 2023. Pursuant to the Joint Powers Agreement, the County is responsible for non-mitigatable costs incurred on the County's behalf. While OCPA has made various demands against the County, including its most recent demand in July 2023, for \$913, the County does not agree that any amount is owed, since the power procured by OCPA on the County's behalf can be sold at a significant profit to OCPA.

CARE Act: CARE Court connects a person struggling with untreated mental illness, and often co-occurring substance use challenges, with a court-ordered Care Plan for up to 24 months. Each plan is managed by a care team within the Health Care Agency (HCA) and can include clinically prescribed, individualized interventions with several supportive services, medication, and a housing plan. The client-centered approach also includes the Public Defender to help individuals make self-directed care decisions in addition to their full clinical team. HCA went live with CARE court on October 01, 2023. HCA expended \$42 in CARE Court start-up costs of the \$7,185 CARE funding received in FY 2022-23. The remainder of the CARES funds received will be expended in FY 2023-24.

Orange County Treasurer's Pool: On November 1, 2023, the Orange County Treasurer's Pool (OCTP) received the highest credit rating of AA+ from Fitch Ratings (Fitch). This is the first time that the OCTP has been rated by an independent rating agency and provides independent oversight to the pool participants of the highest underlying credit quality of the pool's investments. Fitch also assigned a Fund Market Risk Sensitivity Rating of 'S1' denoting a very low sensitivity to market risk and changes in interest rates.

NONMAJOR GOVERNMENTAL FUNDS
SPECIAL REVENUE FUNDS

These funds are used to account for the proceeds of specific revenue sources (other than the Permanent Fund or for major capital projects) that have either legal or operational requirements to restrict expenditures for specified purposes.

Parking Facilities

This fund is used to account for revenues and expenditures related to parking facilities. This includes costs to lease parking spaces for County staff, costs and revenue from the Manchester lot, interest revenue, and the County's operating and maintenance costs.

Service Areas, Lighting, Maintenance and Assessment Districts

This group of funds is used to account for the construction of public facilities from the proceeds of various Mello-Roos districts (also known as Community Facilities Districts) bond issues, special assessment district bond issues, and interfund transfers from County Service Area operating funds. Upon completion of construction, the public facilities are transferred to the Special Assessment and Community Facilities Districts. It is also used to account for local park and recreation facilities, highway lighting, and street sweeping services within unincorporated areas of the County. Revenues consist primarily of property taxes and State grants.

Other Environmental Management

This group of funds is used to account for Local Redevelopment Authority activities, fees from violations of fish and game laws, usage of various State tidelands held in trust by the County, registration of off-highway vehicles, and motor vehicle fees levied by the South Coast Air Quality Management District.

Tobacco Settlement

This fund accounts for Tobacco Settlement monies allocated to the County from the State of California, pursuant to the Master Settlement Agreement concluded on November 23, 1998 between the major tobacco companies and 46 States (including California), the District of Columbia and four U.S. Territories. On November 7, 2000, Orange County voters passed Measure H. This measure requires the County to utilize its share of the national tobacco litigation settlement revenues in the following percentages:

- 80% for specified health care services
- 20% for public safety

Community and Welfare Services

This group of funds is used to account for the Orange County Workforce Innovation and Opportunity Act, Welfare-to-Work, Shelter Care Facilities, In-Home Supportive Services, Housing and Community Development, Substance Abuse Treatment, and Other Community and Welfare Social Programs. Revenues consist primarily of Federal grants passed through the State, as well as State grants.

OC Parks

This fund accounts for the development and maintenance of County tidelands and related aquatic recreational facilities, as well as the acquisition, operation and maintenance of County beaches, inland, regional park facilities and community park sites in the unincorporated areas. Revenues consist primarily of property taxes, State aid, lease and concession revenues, and park and recreation fees.

OC Dana Point Harbor

This fund accounts for monies received primarily through rent and concession revenues which are restricted to providing public coastal access, environmental stewardship, and a diverse regional recreational facility so users and visitors may experience the Dana Point Harbor resource in a safe and enjoyable way. The Board approved a lease agreement with Dana Point Harbor Partners to renovate and operate the Dana Point Harbor. For additional information regarding Dana Point Harbor, refer to Note 7, Service Concession Arrangements.

Housing Asset

The Orange County Development Agency (OCDA) was dissolved effective February 1, 2012 in accordance with Health and Safety Code 34172. The Orange County Housing Authority assumed the housing functions previously performed by OCDA. The Housing Asset Fund was established and the housing assets from the OCDA Low and Moderate Income Housing Fund were transferred into the Fund.

OC Public Libraries

This fund accounts for library services for the unincorporated areas as well as some of the incorporated areas within the County. Property taxes, restricted for the Library, provide most of the Fund's revenue. Licenses, permits, Federal and State aid, and charges for services make up the remaining revenue.

Health Care Programs

This group of funds is used to account for Board-approved Realignment Reserves for Health Care, Medi-Cal Mental Health Managed Care programs, Medi-Cal Administrative Activities and Targeted Case Management, Bioterrorism Preparedness grant funds, Emergency Medical Services allocations, and other purpose-restricted revenues related to health care programs. Revenues consist primarily of State grants and allocations, and Federal grants passed through the State.

Roads

This fund accounts for proceeds restricted for the maintenance and construction of roadways, and for specialized engineering services to other governmental units and the public. Revenues consist primarily of the County's share of State highway users' taxes, and SB1 related transportation taxes and fees, Federal funds, and charges for engineering services provided.

Orange County Housing Authority

This fund is used to account for revenues received from the Federal Government for Section 8 Rental Assistance Program expenditures. This program assists low-income families to obtain decent, safe, and sanitary housing through a system of rental subsidies.

Other Governmental Resources

This group of funds is used to account for fees charged for property characteristics information that are purpose-restricted for technological and capital acquisitions and/or improvements.

Opioid Settlement

This fund is used to administer the allocation and use of the County's participation in the National Opioid Settlements. The money received in this fund consists of allocations received from current and future judgements and settlements for opioid remediation activity to combat the effects of the opioid epidemic.

NONMAJOR GOVERNMENTAL FUNDS (Continued)

DEBT SERVICE FUNDS

These funds are used to account for the accumulation and disbursement of taxes and other revenues for the periodic payment of principal and interest on general long-term debt that includes general obligation, revenue, and demand bond issues.

Teeter Plan Notes

This fund accounts for the financing of the County's purchase of delinquent taxes receivable pursuant to the Teeter Plan. The Teeter Plan is an alternate secured property tax distribution plan, whereby, the County distributes 100% of the local secured levy to the taxing agencies participating in the Teeter Plan and in exchange receives the right to keep the delinquent taxes, penalties and interest.

Capital Facilities Development Corporation

This non-budgeted fund was established to account for the Civic Center Facilities Master Plan project and will facilitate financings, acquisitions of property, and other property related transactions for the benefit of Orange County, California.

South Orange County Public Financing Authority

This non-budgeted fund was established to account for the debt service expenditures for the South Orange County Public Financing Authority (SOCPFA). On June 2, 2016, SOCPFA issued the Central Utility Facility Lease Revenue Bonds, Series 2016 to finance the acquisition, construction and installation of certain capital improvements. On July 26, 2022, SOCPFA issued the Lease Revenue Bonds, Series 2022 (County of Orange Sheriff-Coroner Facility) to finance the acquisition and construction of certain improvements to a new facility for the Sheriff-Coroner department.

CAPITAL PROJECTS FUNDS

These funds are used to account for the acquisition and construction of major capital facilities (other than those financed by the Proprietary Funds).

Criminal Justice Facilities

This group of funds is used to account for monies received from surcharges and penalty assessments on offenses used for capital improvements to court and other criminal justice facilities.

Countywide Capital Projects Non-General Fund

This fund was established to budget and account for the multi-year approved capital projects funded primarily with Net County Cost or general purpose revenue.

Capital Facilities Development Corporation Construction

This non-budgeted fund was established for the Civic Center Facilities Master Plan project and to account for the related construction.

PERMANENT FUND

A Permanent fund is used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry.

Regional Park Endowment

This fund is used to account for costs associated with the repair and maintenance of a mitigation area in Limestone Regional Park.

FIDUCIARY FUNDS

Fiduciary funds are used to account for assets held by the County in a trustee or custodial capacity on behalf of outside parties, including individuals, private organizations, or other governments. Under GASB Statement No. 84, a fiduciary fund must meet the following criteria: (1) assets are controlled or directed by the government, (2) assets are not derived from the government's own source revenue or government-mandated nonexchange transactions, and (3) assets have one or more of the following criteria:

- a. Assets are administered through a trust, and the government is not a beneficiary. The trust must be dedicated to providing benefits to the recipients and legally protected from creditors of the government.
- b. Assets are for the benefit of organizations or other governments that are not part of the financial reporting entity.
- c. Assets are for the benefit of individuals and are not administered in any way by the government.

PRIVATE-PURPOSE TRUST FUNDS

Public Administration Trust Funds

These funds are used to account for trust arrangements where the principal and income benefits individuals, private organizations, or other governments. Examples of private-purpose trusts include unidentified funds, unclaimed prisoner funds, decedents' property held for escheatment, and various funding services to finance permanent supportive & affordable housing.

Orange County Redevelopment Successor Agency (Successor Agency)

The Orange County Development Agency (OCDA) was dissolved effective February 1, 2012 in accordance with ABx1 26. A successor agency was designated as the successor entity to the former redevelopment agency in accordance with Health and Safety Code 34173. The Orange County Redevelopment Successor Agency holds the assets of the dissolved OCDA pending liquidation and distribution.

PENSION AND OTHER POSTEMPLOYMENT BENEFIT (OPEB) TRUST FUNDS

Extra-Help Defined Benefit Plan

This fund is used to account for the retirement plan for employees working less than half-time or as extra-help. This retirement plan was closed to new participants as of February 28, 2002. The eligible employees of these plans are not covered by OCERS.

Extra-Help Defined Contribution Plan

This fund is used to account for the defined contribution retirement plan for extra-help and part-time employees. This plan replaced the Extra-Help Defined Benefit Retirement Plan and was effective for new employees on March 1, 2002. Effective February 10, 2015, the plan also includes new employees who have attained age 60 at date of hire, who waive membership in OCERS, and do not have funds on deposit with OCERS and otherwise meet the requirements under OCERS' regulations and state law to waive membership in OCERS. The eligible employees of these plans are not covered by OCERS.

401(a) Defined Contribution Plan

This fund accounts for the 401(a) defined contribution plan, which was established in January 1999 for eligible employees, including the members of the Board, certain executive managers, certain administrative managers once classified as confidential and grandfathered in the plan, attorneys represented by the Orange County Attorney's Association and certain other employee classifications as defined in the plan document. The plan was closed to the attorneys effective June 24, 2005. The plan was closed to grandfathered administrative managers and to all new administrative managers, effective December 28, 2012 and June 23, 2016, respectively.

1.62% at 65 Retirement, 401(a) Defined Contribution Plan

This fund is used to account for the matching 401(a) employer contributions for eligible employees in the “1.62% at 65” Retirement (OCERS) formula who voluntarily contribute to the “1.62% at 65” Retirement, 457(b) defined contribution plan. The Plan was established on May 7, 2010.

Health Reimbursement Arrangement (HRA) Plan

This fund is used to account for the employer contributions to the HRA, a defined contribution plan, which became effective on June 24, 2008 for eligible employees, including employees represented by the Association of Orange County Deputy Sheriffs and Law Enforcement Management employees as defined in the plan document. The HRA now also includes employees represented by the OCAA, the AOCDS Public Safety Unit, OCEA, OCMA, Teamsters, IUOE, unrepresented employees, and the Voluntary Retirement Incentive Program.

Retiree Medical Plan 115 Trust

This fund is used to account for the annual required contributions, benefit payments, and investment losses and gains in the Retiree Medical Trust (Trust) which was established effective July 2, 2007. The Trust was established exclusively for the Retiree Medical Plan (Plan) which is a cost-sharing multiple-employer defined benefit other OPEB plan that was established on August 1, 1993 for eligible employees as defined in the plan document. The Trust and the 401(h) fiduciary component unit below represents the Plan. The Plan is reported as of December 31, 2022.

Orange County Employees Retirement System-401(h)

This fund is used to account for annual required contributions, benefit payments, and investment losses and gains in the Trust. The 115 trust described above and the 401(h) account with OCERS represents the total Plan. In accordance with GASB Statement No. 84, this fund is presented as a fiduciary component unit of the County and OCERS’ separate stand-alone financial report as of December 31, 2022 can be obtained on their website at <https://www.ocers.org/financial-reports>.

Orange County Employees Retirement System-Pension Trust Fund

This fund is used to account for the cost-sharing multiple-employer defined-benefit pension plan operated by OCERS. In accordance with GASB Statement No. 84, this fund is presented as a fiduciary component unit of the County and OCERS’ separate stand-alone financial report as of December 31, 2022 can be obtained on their website at <https://www.ocers.org/financial-reports>.

Orange County Employees Retirement System-Health Care Fund-OCFA

This fund is used to account for the Orange County Fire Authority (OCFA) Postemployment Health Care Plan established under IRC Section 401(h). OCERS serves as trustee of the Plan. In accordance with GASB Statement No. 84, this fund is presented as a fiduciary component unit of the County and OCERS’ separate stand-alone financial report as of December 31, 2022 can be obtained on their website at <https://www.ocers.org/financial-reports>.

CUSTODIAL FUNDS

Unapportioned Tax and Interest Funds

This group of funds is used to account for the collection of property taxes, and later distribution of such taxes, as well as the interest earned on them. Included are taxes collected by the County for other governmental units using the County treasury, as well as governmental units not using the County treasury, such as cities.

Departmental Funds

This group of funds is used by certain County officers to hold various types of cash receipts and deposits in a custodial capacity. Disbursements are made from these funds.

Orange County Employees Retirement System-OCTA

This fund is used to account for the Orange County Transportation Authority (OCTA) Health Care Plan established in accordance with Internal Revenue Code section 115. OCERS serves as trustee of the plan. In accordance with GASB Statement No. 84, this fund is presented as a fiduciary component unit of the County and OCERS' separate stand-alone financial report as of December 31, 2022 can be obtained on their website at <https://www.ocers.org/financial-reports>.

Notes: (1) Article XIII A, added to the California Constitution by Proposition 13 in 1978, fixed the base valuation of property subject to taxes at the full cash value appeared on the Assessor's 1975-76 assessment roll. The full cash value can be increased to reflect the annual inflation up to 2 percent, the current fair value at time of ownership change and the fair value for new construction. Estimated actual value of taxable property cannot easily be determined as the property in the County is not reassessed annually. Reassessment normally occurs when ownership changes.

(2) Other property includes: timeshares, rural/agricultural land, unique miscellaneous, mineral rights, water rights and personal property and fixtures.

(3) Unsecured roll includes properties for which taxes assessed are not a lien on real property and are not sufficient, in the opinion of the Assessor, to secure payment of taxes. It consists of improvements, business personal property, boats and aircrafts, and it can also include land and improvements that are identified as real estate of others, as defined by the Assessor (reference Revenue and Taxation Code Section 134).

Notes:

- (1) Article XIII A, added to the California Constitution by Proposition 13 in 1978, fixed the base valuation of property subject to taxes at the full cash value appeared on the Assessor's 1975-76 assessment roll. The full cash value can be increased to reflect the annual inflation up to 2 percent, the current fair value at time of ownership change and the fair value for new construction. Estimated actual value of taxable property cannot easily be determined as the property in the County is not reassessed annually. Reassessment normally occurs when ownership changes.
- (2) These overlapping rates are in addition to the County General rate, but only apply to taxpayers within the borders of the school districts, local special districts, cities, and public utilities that lie within the County.
- (3) No rate was available for Public Utility in FY 2014-15.
- (4) The schedule is presented to show information for 10 years. However, a full 10-year trend is not currently available; the County will be adding years in the future.

Notes:

- (1) Details regarding the County's outstanding debt can be found in Note 11, Long-Term Obligations.
- (2) Changed in FY 2021-22 from Capital Lease Obligations to Financed Purchase Liability due to the implementation of GASB Statement No. 87.
- (3) Financed Purchase Liability arises from lease agreements without a termination option which transfer ownership of the underlying asset to the lessee at the end of the contract.
- (4) See demographic and economic statistics schedule for personal income and population data.
- (5) Beginning FY 2013-14, outstanding debt does not include deferred amount on refunding due to implementation of GASB Statement No. 65. Prior years have not been restated.
- (6) Lease Revenue bonds and Airport Revenue bonds include unamortized premiums and discounts.
- (7) Prior year balances for the Civic Center Facilities Master Plan Financing have been combined with Lease Revenue Bonds per GASB Statement No. 88.
