INTRODUCTION

The South Orange County Public Financing Authority (the “Authority”) hereby provides its annual report (the “Annual Report”) for the fiscal year ended June 30, 2016 in connection with the following Bonds:

Bond Issue:

1. South Orange County Public Financing Authority Special Tax Revenue Bonds, 1999 Series A

Annual Report:

The Authority’s Annual Report required by the Continuing Disclosure Certificate (the “Disclosure Certificate”) dated July 1, 1999 with respect to the 1999 Series A Bonds for Fiscal Year ended June 30, 2016 are included herein as Attachment B.

Other Matters:

This Annual Report is provided solely for purposes of the Disclosure Certificate. The filing of this Annual Report does not constitute or imply any representation (i) that all of the information provided is material to investors, (ii) regarding any other financial, operating or other information about the County, the Authority or the Bonds, or (iii) that no changes, circumstances or events have occurred since the end of the Fiscal Year to which this Annual Report relates (other than as contained in this Annual Report), or that no other information exists, which may have a bearing on the Authority’s financial condition, the security for the Bonds, or an investor’s decision to buy, sell, or hold the Bonds. The information contained in this report has been obtained from sources which are believed to be reliable, but such information is not guaranteed as to accuracy or completeness. No statement in this Annual Report should be construed as a prediction or representation about future financial performance of the Authority.

While the financial statements of the County (which includes the Authority) for Fiscal Year ended June 30, 2016 have been incorporated herein by reference in order to comply with SEC Rule 15c2-12, the Bonds are a limited obligation of the Authority and neither the faith and credit nor the taxing power of the County is pledged to the payment of the Bonds. No income, receipts, funds (including the County general fund) or moneys of the County are pledged to the repayment of the Bonds.

SECTION A

1. Audited Financial Statements for Fiscal Year Ended June 30, 2016

Tables 20-28 have been omitted because the local obligations for CFD No. 87-6, CFD No. 87-7, and CFD No. 87-9 have matured and are no longer outstanding. Hence, these local obligations are no longer a source of revenue for the South Orange County Public Financing Authority Special Tax Revenue Bonds, 1999 Series A.

¹⁷ The Districts are participants in the County's Teeter Plan and as such should receive 100% of the Special Taxes levied. Therefore, delinquent Special Taxes represent revenues not received by the County.

December 15, 2016

The Citizens of Orange County:

The Comprehensive Annual Financial Report (CAFR) of the County of Orange, State of California (County), for the year ended June 30, 2016, is hereby submitted in accordance with the provisions of Sections 25250 and 25253 of the Government Code of the State of California. The report contains financial statements that have been prepared in conformity with United States generally accepted accounting principles (GAAP) prescribed for governmental entities. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the County. A comprehensive framework of internal controls has been designed and established to provide reasonable assurance that the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and changes in financial position of County funds. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatements.

The CAFR has been audited by the independent certified public accounting firm of Macias Gini & O'Connell LLP (MGO). The goal of the independent audit was to provide reasonable assurance about whether the basic financial statements of the County for the year ended June 30, 2016, are free of material misstatement. The independent certified public accounting firm has issued an unmodified ("clean") opinion on the County's basic financial statements as of and for the year ended June 30, 2016. The independent auditor's report is located at the front of the financial section of this report.

This letter of transmittal is designed to complement and should be read in conjunction with Management's Discussion and Analysis (MD&A) that immediately follows the independent auditor's report. MD&A provides a narrative introduction, overview, and analysis of the basic financial statements.

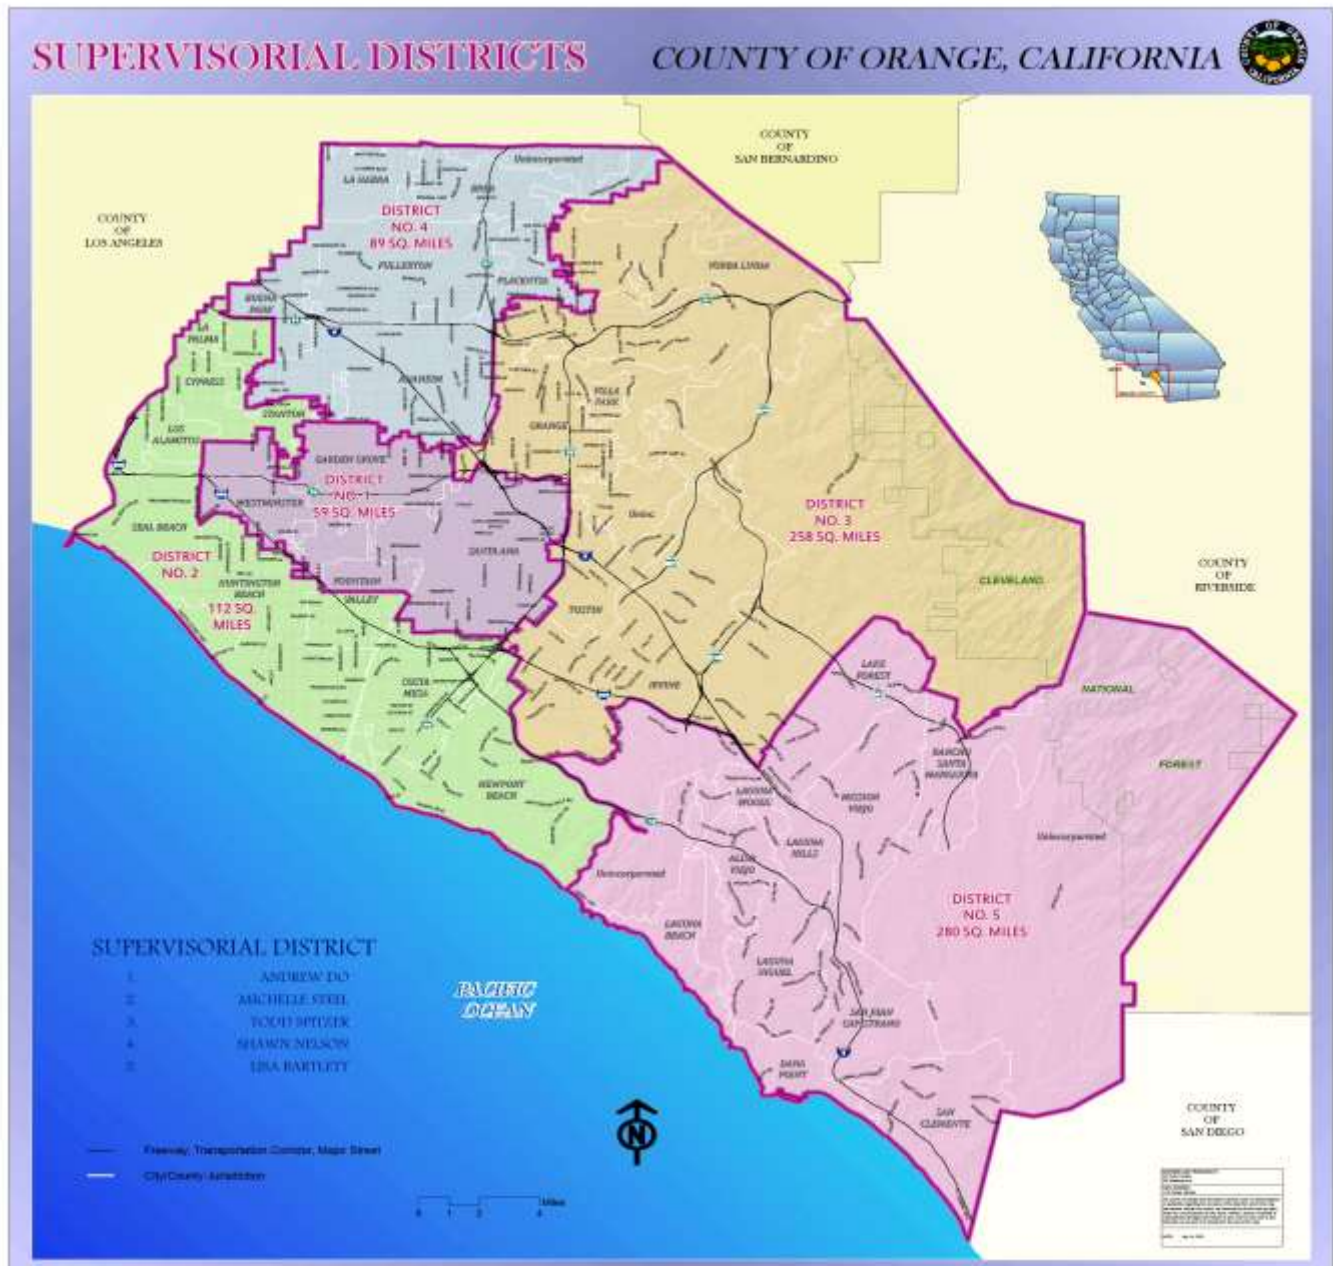

PROFILE OF THE GOVERNMENT

The County, incorporated in 1889 and located in the southern part of the State of California, is one of the major metropolitan areas in the state and nation. The County occupies a land area of 798 square miles with a coastline of 42 miles serving a population of over 3 million. It represents the third most populous county in the state and ranks sixth in the nation.

The County is a charter county as a result of the March 5, 2002, voter approval of Measure V, which provides for an electoral process to fill mid-term vacancies on the Board of Supervisors. Before Measure V, as a general law county, mid-term vacancies would otherwise be filled by gubernatorial appointment. In November 2008, voters approved Measure J, which added Article III, Section 301 to the Charter of Orange County requiring voter approval for increases in future retirement system benefits of any employee, legislative officer, or elected official of the County in the Orange County Employees Retirement System (OCERS) or any successor retirement system, with the exception of statutorily-established cost of living adjustments, salary increases, and annual leave or compensatory time cash-outs. In June 2012, voters approved Measure B, which requires that any Orange County Supervisors elected or appointed on or after June 5, 2012 can enroll only in the minimum pension option, i.e., the least lucrative pension plan, offered to Orange County employees. At present, the minimum pension plan is a 1.62% at 65 pension

plan. This measure amends the County Charter and applies to any current or previous Supervisor. In June 2016, voters approved Measure B, which requires the County Auditor-Controller to review any countywide measure placed on the ballot and prepare a fiscal impact statement.

The County is like a general law county and governed by a five-member Board of Supervisors (the Board), who each serve four-year terms, and annually elect a Chairman and Vice-Chairman. The supervisors represent districts that are each approximately equal in population. The district boundaries were revised effective September 6, 2011, incorporating the results of the 2010 census. A County Executive Officer (CEO) oversees 15 County departments, and elected department heads oversee six County departments. The Supervisorial Districts map below shows the boundaries of Orange County and the areas governed by each member of the Board.

The County provides a full range of services countywide, for the unincorporated areas, and contracted services for cities. These services are outlined in the following table:

| Countywide Services | | Unincorporated Area Services | |
|--|---|-------------------------------------|---------------------------|
| Affordable Housing (Housing Authority) | Veterans Services | Animal Care & Control | Libraries |
| Agricultural Commissioner | Indigent Medical Services | Flood Control | Parks |

In addition to these services, the County is also financially accountable for the reporting of component units. Blended and fiduciary component units, although legally separate entities, are, in substance, part of the County's operations and, therefore, data from these units are combined with data of the County. The County has two component units, the Children and Families Commission of Orange County (CFCOC) and CalOptima, which require discrete presentation in the government-wide financial statements. The County's fiduciary component unit, County of Orange Redevelopment Successor Agency (Successor Agency), was established as a result of the dissolution of the former Orange County Development Agency. The following entities are presented as blended component units in the basic financial statements for the year ended June 30, 2016: the Orange County Flood Control District, Orange County Housing Authority, Orange County Public Financing Authority, South Orange County Public Financing Authority, Orange County Public Facilities Corporation, County Service Areas, Special Assessment Districts, Community Facility Districts, and In-Home Supportive Services Public Authority. Additional information on these entities can be found in Note 1, Summary of Significant Accounting Policies, in the Notes to the Basic Financial Statements.

The County maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board. Activities of the General Fund and most of the Special Revenue, Debt Service, Capital Projects and Permanent funds are included in the annual appropriated budget. The level of budgetary control (that level which cannot be exceeded without action by the Board) is at the legal fund-budget control unit level, which represents a department or an agency. Budget-to-actual comparisons are provided in this report for each governmental fund for which an appropriated annual budget has been adopted. The Budgetary Comparison Statements for the General Fund and major Special Revenue Funds are part of the Basic Financial Statements. The Budgetary Comparison Schedules for the nonmajor Governmental Funds with appropriated annual budgets are presented in the Supplemental Information section for governmental funds. The County also maintains

an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered appropriations do not lapse at year-end; outstanding encumbrances are carried forward to the following year's budget. Additional information on the budgetary process can be found in Note 1, Summary of Significant Accounting Policies, in the Notes to the Basic Financial Statements.

The County's eGovernment website portal at <http://www.ocgov.com> provides online services and extensive information about the County government to Orange County residents, businesses, partners, and visitors. It includes information about the Board, County job listings, purchasing bid solicitations, assessment appeals, links to court information and local court rules, voter information, County permits and forms, public safety, health and human services programs and financial information. The site also provides several online services, including live and archived Board meeting videos, the ability to order birth, death and marriage certificates, search fictitious business names, find polling locations and election results, license pets, pay property taxes, and subscribe to receive emergency alerts. The County continuously strives to improve our constituent's ability to conduct business online.

FACTORS AFFECTING ECONOMIC CONDITION

Local Economy

Two indicators of the Orange County economy are: how well the local economy performs relative to surrounding counties, the state, and the nation (external indicators); and how well the local economy performs relative to its own historical trends (internal indicators). This section provides various external and internal indicators that describe the current and projected outlook of the Orange County economy.

In terms of the external indicators, Orange County's economy continues to out-perform local surrounding counties, the state and national economies (in annual percentage growth), and, in fact, ranks higher (in absolute growth rate dollars) than the economies of the majority of the world's countries.

Orange County's unemployment rate continues to be below that of all surrounding Southern California counties, the State of California and the National level (see Table 1).

According to Chapman University, inflation, as measured by the increase of the Consumer Price Index (CPI) in 2016, is expected to be 2.2% for Orange County, which equals the State of California and is higher than the U.S. at 1.4% (see Table 2).

Table 1: Unemployment Rate Comparison

| Primary Government Entity | August 2016 Unemployment Rate |

According to the Department of Housing and Urban Development, Orange County's median family income is expected to be \$85,000 (absolute dollars) in 2016, compared to \$85,900 (absolute dollars) in 2015. Median family incomes in Orange County continue to exceed all surrounding Southern California counties, the State of California and the nation (see Table 3).

According to CoreLogic Information Systems, the median home sales price for new and existing homes in Orange County was \$649,000 (absolute dollars) in August 2016, representing a 6.4% increase relative to August 2015. The median sales price in Orange County continues to exceed all surrounding counties (see Table 4).

In terms of internal trends, current and projected indicators suggest that the Orange County economy will continue to gradually improve with job growth expected to be 2.6% in 2016.

Table 5 shows various internal indicators reflecting steady growth of Orange County's economy. The unemployment rate decreased to 4.4% for the month of August 2016 relative to 4.6% for the month of August 2015. Job growth is expected to decrease to 2.6% in 2016 compared to 3.1% for 2015. Median home prices increased by 6.4% in August 2016, relative to 4.3% in August 2015. Annual change in sales tax receipts is forecasted to be 4.1% in 2016.

In summary, the economy in Orange County continues to show signs of slow but steady growth.

Long-Term Financial Planning

Strategic Plan: In March 1997, the Board initiated a financial planning process that is a key component of the County's commitment to fiscal responsibility, accountability, and efficiency. The plan includes projections of County general purpose revenues, departmental projections of operating costs, revenues and capital needs for current programs and services and anticipated caseload changes. New programs, services and capital projects are identified and prioritized on a countywide basis with financial impacts identified over the plan period. The plan covers a five-year period and includes a ten-year analysis of operating costs in cases where new programs and facilities are assessed to ensure the ability to pay for long-term operational costs.

The 2016 Strategic Financial Plan (SFP) was presented to the Board on December 6, 2016. The 2016 SFP is the foundation in planning for continued financial stability and will be augmented by the monitoring and establishment of budgetary control via the quarterly budget reporting process and adoption of the Annual Budget. The five-year SFP projections indicate that General Purpose Revenue growth will be in the range of 2.8% for the first year of the plan with growth rates averaging 2.3% in years two through five. The moderate growth rate for revenue, coupled with the increasing cost of doing business, will require the County to carefully manage programs and services levels. The

County continues to believe that sustained job growth and reduced unemployment are the key indicators for economic recovery.

In order to address identified budget issues and prepare for the continued uncertainty of the general and local economy, the following represent some of the actions taken or identified as options for early planning. Early action is critical to ensure baseline services are met and that the County continues to experience financial stability.

- The 2016 SFP reflects only a 1% increase in Net County Cost limits in Fiscal Years (FY) 2017-18 and 2018-19, increasing to 2% in FYs 2019-20 through 2021-22, with the remaining excess funds distributed and/or set-aside to address the most critical strategic needs for the County
- Continuation of the policy to not backfill State budget reductions
- Position Policy: delete aged vacant positions
- Internal financing program to support major capital and information technology projects
- Maintaining prudent levels of General Fund and Contingency Reserves

The County continues to move forward on several large projects identified below. In addition, the County is in various stages of planning and implementing several other projects. Financial plans are in place for the 800 MHz Countywide Coordinated Communications System, replacement of Central Utility Facility infrastructure, new Animal Care Center, Homeless Shelter and the first phase of the Civic Center Master Plan. Development of the County property at the former Marine Corps Air Station El Toro in Irvine and other various County-owned properties will require up-front financial planning and investment in order to generate revenue in future years on a long-term basis.

Santa Ana River Mainstem Project: The Santa Ana River Mainstem Project (SARMP) was initiated in 1964, in partial response to a resolution of the United States House Committee on Public Works adopted May 8, 1964. A survey report was completed by the Orange County Flood Control District in 1975. The report was reviewed and submitted to Congress in September 1978. In September 1980, the United States Army Corps of Engineers completed the General Design Memorandum for the SARMP. Construction for the SARMP was authorized by the Water Resources Development Act of 1986. Construction for the SARMP was initiated in 1989, and completion is scheduled for December 2022.

The SARMP is designed to provide flood protection to the growing urban communities in Orange, Riverside and San Bernardino Counties. The proposed improvements to the system cover 75 miles, from the headwater of the Santa Ana River, east of the city of San Bernardino to the mouth of the river at the Pacific Ocean between the cities of Newport Beach and Huntington Beach. The project will increase levels of flood protection to more than 3.35 million people within the three county areas. The project includes seven independent features: Seven Oaks Dam, Mill Creek Levee, San Timoteo Creek, Oak Street Drain, Prado Dam, Santiago Creek and the Lower Santa Ana River. More information on the SARMP is available in Note 14, Construction and Other Significant Commitments. To learn more about the SARMP, visit the Orange County Flood Control Division's website at <http://www.ocflood.com>.

OC Dana Point Harbor Revitalization Plan: The OC Dana Point Revitalization Plan (Plan) includes revitalization of Dana Point Harbor's commercial core, marinas, and hotel. The Plan is a multi-phased and long-term public-private partnership project, where total development costs have been estimated in excess of \$150,000 pending final project design approvals. The Plan is a phased and systematic long-term rehabilitation and/or replacement of the commercial core, hotel, and waterside elements. The initial phases of improvement have begun with phase one focusing on infrastructure elements being funded by the Dana Point Tidelands Fund. County Executive Office staff are managing the process for selection of a potential private partner for the project and will work with OC Parks staff to finalize the financial strategy for the complete Plan that will meet the long-term needs and expectations of the community and the County.

In addition, OC Dana Point Harbor continues to budget for the maintenance dredging of the Dana Point Harbor, with the most recent dredging occurring in FY 2015-16. In general, the dredging takes place every seven years and is budgeted from the reserves each year.

James A. Musick Facility Expansion: On March 8, 2012, the State approved \$100,000 in funds for the County for expansion of the James A. Musick Facility (AB900). This project is currently in the final stage of design with construction estimated for completion in FY 2019-20. The County must front costs initially until the notice to proceed for construction is approved by the State. At that time, all past eligible costs incurred can be invoiced for

reimbursement by the State in full, and all future costs will be invoiced for reimbursement by the State on an ongoing basis until construction completion and occupancy. It is anticipated that costs will be reimbursed beginning in FY 2017-18.

On March 13, 2014, the State approved \$80,000 in funds for the County for further expansion of the James A. Musick Facility (Senate Bill 1022). This project is also in the final stage of design and will be completed in parallel with the AB900 project. Because of schedule compaction during design, the State approved executing both project phases into a single construction project. The financial requirements for this second phase are consistent with those described above.

La Pata Avenue Gap Closure and Camino Del Rio Extension Project: The County has begun the construction of the La Pata Avenue Gap Closure Project (Project) that will widen La Pata Avenue and implement a gap closure between the cities of San Juan Capistrano and San Clemente. This is a cooperative project between the City of San Clemente, City of San Juan Capistrano, OC Waste & Recycling, and OC Public Works, with the County acting as the lead agency. The total Project cost is estimated at \$127,000 and is funded from State 1B, Measure M1 and M2, gas tax, La Pata Fee Program, OC Waste & Recycling, developer agreement, and community facility district revenues. A construction contract for \$72,741 was awarded by the Board to Sukut Construction, Inc. on December 10, 2013. A construction management contract for \$7,706 was awarded to Hill International, Inc. on February 4, 2014. The groundbreaking ceremony was held on April 4, 2014. The ribbon cutting ceremony for the initial phase took place on August 13, 2016, and the roadway opened to the public on August 14, 2016. The tentative completion date for this phase is December of 2016. The remaining two phases, La Pata Widening and Camino Del Rio Extension, began construction in August 2016. Completion of the Camino Del Rio Extension Phase is anticipated in April 2017. Completion of the La Pata Widening Phase is anticipated in February 2018.

Homeless Shelter: On November 17, 2015, the Board approved the acquisition of 1000 N. Kraemer Place for \$4,250 as the site of a new 200-bed Year Round Emergency Shelter and Multi-Service Center to serve the homeless with \$1,100 in funding support from the cities of Anaheim, Fullerton, and Brea.

Animal Shelter: In December 2015, the Board approved negotiated terms for a land swap between the County, the South Orange County Community College District, and the City of Tustin regarding ten acres of land for the construction of a new, state-of-the-art animal shelter to replace the existing shelter in the City of Orange. A preliminary cost estimate for the new shelter is \$35,000, with up to \$7,200 paid by the County, and the remaining cost paid by fourteen contract cities. The expected opening date of the new shelter is in late 2017.

Relevant Financial Policies

To achieve the goal of providing outstanding and cost-effective regional public services, the County applies sound management practices and policies that enhance the quality of life of its citizens. Such financial management practices have been identified by the Government Finance Officers Association of the United States and Canada (GFOA) and recognized by Fitch Ratings as best practices that promote financial soundness, efficiency in government and solvency in public finance.

General Fund Reserves Policy

The County General Fund Reserves Policy provides guidance in the creation, maintenance and use of reserves. The policy covers formal and informal reserves, and includes provisions for reserves such as appropriations for contingencies, reserve-like appropriations, and reserve-like funds held by others such as the OCERS Investment Account. The policy also recognizes whether funds are legally required or discretionary or have special restrictions. The reserves policy is maintained and updated, as needed, through the County's annual SFP process. The reserves policy targets and balances are included in the annual SFP document.

The General Fund Reserves policy is designed to provide flexibility to the County as well as the following:

- Resources to address unanticipated or cyclical economic conditions
- Resources for emergencies and/or catastrophic events
- Mitigation of the volatility of revenues and expenditures in managing temporary cash flow shortages
- Capacity to cover unexpected large one-time expenses and opportunities

- Capacity to fund capital investments
- Capacity to minimize borrowing costs
- Capacity to provide some level of protection against statutory changes to County revenues and impacts from federal and state actions

The County has a variety of reserve funds available to both the General Fund and Non-General Funds including:

- Fund Balance Assigned for Contingencies
- Fund Balance Assigned for Operations
- Fund Balance Assigned for Construction and Maintenance
- Fund Balance Assigned for Capital Projects
- Fund Balance Assigned for Teeter Loss Reserve
- Fund Balance Assigned for Reserve Target
- Reserve-Like Funds
- Reserve-Like Appropriations
- Department-Type Reserves

All of the above are reserves normally modified at the time of budget adoption (Government Code Section 29085) or at fiscal year-end. Changes to reserve amounts at other times require a 4/5 vote of the Board. A 4/5 vote is also required to make such reserves available for appropriation to expend the funds, if needed, during the fiscal year (Government Code Section 29130).

Reserve Targets and Descriptions

Under GFOA recommended practice, the County establishes an overall reserve target, and allocates the calculated target among the classes of obligated fund balances as appropriate. The County may fund more or less to each reserve class for a variety of reasons, such as its current financial condition, the need to set aside for particular goals or directives, the need to bridge one-time gaps, etc. The goal is to ensure a prudent reserve balance that is maintained and replenished on a regular basis.

In implementing the GFOA's best practice, the County elected to establish a funding target based upon two months of General Fund operating revenues. Analysis of the historical average of two months of operating revenues, as well as FY 2016-17 adopted budgeted revenues, yielded a funding target of approximately 17% of General Fund operating revenues.

Contingencies

The purpose and use of this reserve is to cover unanticipated and severe economic downturns, major emergencies, or catastrophes that cannot be covered with existing appropriations. In particular, continued drought conditions with the attendant risk of wildfires, highlights the potential for catastrophic events within the County. A significant event could create the need for a higher funding level of this reserve. The target amount for this reserve is 15% of ongoing annual General Purpose Revenues (excluding fund balance unassigned and one-time amounts and transfers).

The following table summarizes the County's financial management practices:

| Relevant Financial Policies | |
|--|---|
| Multi-Year SFP | The County's SFP is based on a five-year financial forecast and includes a 10-year analysis of operating costs in cases where new programs and facilities are recommended to ensure the ability to pay for long-term operational costs. Performance measures and strategies are key elements of the SFP process. |
| Five-Year Capital Improvement Plan | The County's five-year Capital Improvement Plan (CIP) is a long-term list of significant projects funded by the General Fund in the Capital Projects budget. It also includes the five-year capital program for Non-General Fund agencies. The CIP aids the County in its assessment of the best use of funds available in order to establish and prioritize its capital asset goals, while maintaining long-term financial stability. |
| Information Technology Projects | The five-year Information Technology Plan (ITP) is a compilation of significant IT projects including upgrades or replacements of existing systems, greater or equal to \$150 and less than \$1,000 in any one fiscal year of the five years in the plan. Costs for ongoing system support and maintenance are included. The ITP is a tool used by the County to assess IT projects, leverage overlap, and prioritize the use of County General Funds available to IT projects. |
| Quarterly Budget Report | The County Executive Office issues quarterly budget reports that provide the Board, County departments, members of the public, and other interested parties with an overview of the current status of budgeted revenues and expenditures, total budgeted positions and various departmental issues requiring adjustments to the County's budget. |
| Annual Budget Policies and Guidelines | The Annual Budget reflects the County's disciplined approach to fiscal management and is consistent with the County's SFP process. Department budgets are consistent with the priorities and operations plans contained in the SFP. Departments use these planning processes, along with outcome indicators, to evaluate programs and redirect existing resources as needed for greater efficiency to reduce costs and minimize the need for additional resources. |
| Fund Balance Reserve Policy | The County General Fund currently contains formal and informal reserves, appropriations for contingencies, appropriated reserve-type funds, and reserves held by others. The purpose of these reserves is to protect community programs and services from temporary revenue shortfalls and provide for unpredicted, sudden and unavoidable one-time expenditures. |
| Contingency Planning Policy | <p>The County's General Fund maintains a reserve for contingencies, which was established through the SFP process. The target amount for this reserve is 15% of ongoing annual General Purpose Revenues (excludes fund balance unassigned and one-time amounts and transfers), or \$108,438. This compares to the GFOA guidelines for funding contingencies at 15% or higher. The November 29, 2016 balance is \$62,300, approximately \$46,138 below the target.</p> <p>In addition to the reserve for contingencies, the County budgets an annual appropriation for significant unanticipated emergencies, catastrophes, one-time expenditures and opportunities of no less than \$5,000 in the General Fund.</p> |
| Debt Disclosure Practices | The County presents a set of debt disclosures in the County's adopted Budget document and the CAFR, as well as Continuing Disclosure Annual Reports on its website and the Electronic Municipal Market Access (EMMA) repository. |

| Relevant Financial Policies (Continued) | |
|--|---|
| Pay-as-you-go Capital Funding | The County's long-term practice has been to use pay-as-you-go funding for capital projects whenever possible. The use of systematic long range financial planning assists in making fiscal decisions such as debt vs. pay-as-you-go capital project financing. The SFP forecasts sources of the County's revenue and operating expenses and incorporates a list of previously identified and prioritized projects that will benefit the citizens of the County. The financial planning for capital projects considers the County's limited funding sources, the capital and operating costs, useful life of projects, and good business practices. |
| Credit and Debt Management Policy | The County's long-term practice has been to rapidly repay debt when practicable. The Policy is intended to maintain long-term financial stability by ensuring that its long-term financing commitments are affordable and do not create undue risk or burden, achieve and maintain high credit ratings, minimize debt service interest expense and issuance costs, provide accurate and timely financial disclosure and reporting, and comply with applicable State and Federal laws and financing covenants. |
| Public Financing Advisory Committee | The Public Financing Advisory Committee (PFAC) is responsible for the review, approval, modification or denial of debt financing proposals. No debt financing proposal is considered by the Board unless recommended in writing by the PFAC. The PFAC membership consists of the following: five public voting members, each representing a district, and three Ex-Officio County government members (the County Executive Officer (non-voting), the elected Treasurer-Tax Collector, and the elected Auditor-Controller). |
| Audit Oversight Committee | The Audit Oversight Committee (AOC) is an advisory committee to the Board that provides oversight of the activities of the County Auditor-Controller's Internal Audit Division and the County's external audit coverage, including financial reporting and federal and state audit activities, and discusses the adequacy of the County's internal control structure. The AOC membership includes the Chair and Vice-Chair of the Board, the County Executive Officer, and five private sector members appointed by the Board. The private sector members shall be appointed by the Board for a term of four years and may be reappointed or removed by the Board. |
| Treasury Oversight Committee | <p>The Treasury Oversight Committee (TOC) is responsible for reviewing and monitoring the annual Investment Policy Statement (IPS) prepared by the Treasurer. In addition, the TOC causes an annual audit of the Treasurer's compliance with the IPS. The TOC shall also investigate any and all irregularities in the Treasurer's operations, which become known to the TOC. The TOC will develop and document policy and procedures to investigate and report such irregularities.</p> <p>Annually, the TOC reviews the Treasurer's IPS, including all proposed amendments or modifications to the policy. The Treasurer then submits the IPS to the Board for approval, including any additions or amendments thereto. The TOC membership consists of the following: The elected Auditor-Controller, the County Executive Officer, the elected County Superintendent of Schools, or their respective designees, and four members of the public. The public members shall be nominated by the Treasurer and confirmed by the Board.</p> |
| 24/7 Fraud Hotline | The Fraud Hotline is part of an ongoing fraud detection and prevention effort. The Fraud Hotline is intended for use by County employees, the general public, or vendors for reporting suspected waste, fraud, violations of County policy or misuse of County resources by vendors, contractors or County employees. |

Major Initiatives

Funding Equity: The County hovers at the bottom of funding for counties statewide, receiving the lowest percentage of property taxes in California to support services-about 6 cents on the dollar; the state average is 17 cents. The formula for returning local property taxes to the counties where they were collected was set in 1978 and has not been updated since. This systematically disadvantages the County's ability to provide services to its diverse population.

The County's predicament does not have easy fixes. Shifting funding formulas could affect other counties receiving more of their share of taxes, as well as other taxing entities such as cities, special districts, and schools, which have constitutional protections for state funding. Therefore, the answer to assuring funding equity for Orange County lies in increasing funding, programs, and partnerships that specifically benefit County programs and services. When the state shifts or adds responsibilities at the county level, the County will seek enough funding for those programs to ensure their success. The County's robust legislative agenda seeks creative and substantive ways to assure our residents are provided with their fair share of the taxes they pay to support the programs and services they deserve.

State Prison Realignment: With the passage of Assembly Bill 109 in 2011, California ordered the realignment of certain state prisoners to serve their sentences in county jails instead of state prisons to comply with court-ordered overcrowding reductions. The County accounts for 8.1% of the state's population and 6.4% of the total prison population. In FY 2015-16, the County spent \$72,100 and carried over \$0 surplus to FY 2016-17.

Realignment has led to multiple challenges, including: the need for more in-custody housing options and bed space, additional case-management resources, inmate screening and medical/psychiatric programs. Felony caseloads have increased substantially with a corresponding increase in the need for additional court hearings and appearances. On November 4, 2014, voters passed Proposition 47, "The Safe Neighborhood and Schools Act," which reduced the classification of most non-serious, non-violent property and drug crimes from felonies to misdemeanors. This change reduced the number of new felony cases and permitted re-sentencing for anyone currently serving a sentence for those offenses, ultimately reducing the AB 109 and general jail populations. This change resulted in lower felony caseloads and a temporary increase in workloads due to the large number of re-sentencing hearings.

Labor Agreements: Most County employees are represented by one of 17 bargaining units, which are separated into eight labor organizations. The principal organization is the Orange County Employees Association (OCEA), which represents eight bargaining units totaling about 10,684 permanent filled employee positions. The next largest unions are the Association of County Deputy Sheriffs at about 1,871 members and the American Federation of State and Municipal Employees at about 1,419 members. All but one contract have been successfully negotiated and County employees continue to work under their contract terms with no interruption.

AWARDS AND ACKNOWLEDGEMENTS

GFOA Awards: The GFOA awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its CAFR for the year ended June 30, 2015; this represents the County's 21st consecutive award. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such a CAFR must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

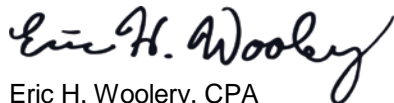

In addition, the County issued its 13th consecutive Popular Annual Financial Report (PAFR) titled the "OC Citizens' Report" for the year ended June 30, 2015. The County received the GFOA Award for Outstanding Achievement in Popular Annual Financial Reporting for this PAFR. The award is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government popular reports. In order to

be awarded, a government must publish a PAFR that reflects the program standards of creativity, presentation, understandability and reader appeal. The "OC Citizens' Report" is available for viewing at <http://acdcweb01.ocgov.com/acInternet/Reports/CitizensReports.aspx>

Counties Financial Transactions Reporting Award: The County received the Financial Transactions Reporting Award from the State Controller's Office for its Year-End Financial Transaction Report for the fiscal year ended June 30, 2015. The award is in recognition of the professionalism demonstrated by Counties in preparing accurate and timely financial reports and for those counties that meet the review criteria of the award program.

Acknowledgments: We would like to express our sincere appreciation to County staff and the staff of the certified public accounting firm of MGO. We hope this report will be of interest and use to those in county government, other governmental agencies, and the public interested in the financial activities of the County of Orange.

Independent Auditor's Report

The Honorable Board of Supervisors
County of Orange, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County of Orange, California (County), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Children and Families Commission of Orange County (CFCOC) and the Orange County Health Authority, a Public Agency/dba Orange Prevention and Treatment Integrated Medical Assistance (CalOptima), which collectively represent 100% percent of the assets, net position, and revenues of the aggregate discretely presented component units. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for CFCOC and CalOptima, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund, Flood Control District Fund, Other Public Protection Fund, and Mental Health Services Act Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1 to the basic financial statements, effective July 1, 2015, the County adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 72, *Fair Value Measurement and Application*. Our opinion is not modified with respect to this matter.

As discussed in Note 17 to the basic financial statements, the total net pension liability of the County as of June 30, 2016, which was measured as of December 31, 2015, was \$4.4 billion for the Orange County Employees Retirement System (OCERS). The fiduciary net position as a percentage of the total pension liability as of December 31, 2015, was 65.66% for OCERS. The actuarial valuation is very sensitive to the underlying actuarial assumptions, including a discount rate of 7.25%, which represents the long-term expected rate of return for OCERS. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules related to the Orange County Extra-Help Defined Benefit Plan, schedules related to the OCERS, and schedule related to the Orange County Retiree Medical Plan as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and budgetary comparison schedules included in supplemental information in the financial section, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and budgetary comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and budgetary comparison schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) (UNAUDITED)

This section of the County's Comprehensive Annual Financial Report (CAFR) provides a narrative overview and analysis of the financial activities of the County for the year ended June 30, 2016. We hope that the information presented here, in conjunction with the Letter of Transmittal, provides a clear picture of the County's overall financial status. Unless otherwise indicated, all amounts in this section are expressed in thousands of dollars.

FINANCIAL HIGHLIGHTS

- The total change in net position, which is the difference between total revenues (including transfers in) and expenses (including transfers out), was \$177,959 for the fiscal year and it increased net position by 9% from the prior year.
- Long-term bonded debt decreased by \$6,722 or 1% during the current fiscal year.
- The County's governmental funds reported combined ending fund balances of \$2,357,526, an increase of \$170,835, or 8% in comparison with the prior year.
- General Fund revenues and other financing sources ended the year 5% below budget.
- General Fund expenditures and other financing uses ended the year 7% below budget.

OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements presented in the County's CAFR are divided into three different sections:

- Government-wide Financial Statements
- Fund Financial Statements
- Notes to the Basic Financial Statements

| <i>Basic Financial Statements</i> | | | |

Government-wide Financial Statements

The government-wide financial statements consist of the following two financial statements: the Statement of Net Position and the Statement of Activities. Both of these statements were prepared using an accounting method and a measurement focus similar to those used by private-sector companies, the accrual basis of accounting and the economic resources measurement focus. The **Statement of Net Position** provides information regarding all of the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. The **Statement of Activities**, on the other hand, provides information on how the government's net position changed during the most recent fiscal year regardless of the period when the related cash or cash equivalent is received or paid. Therefore, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (for example, uncollected taxes and earned but unused vacation leave).

The Statement of Net Position and the Statement of Activities distinguish functions of the County that are principally supported by taxes (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include (1) general government, (2) public protection, (3) public ways and facilities, (4) health and sanitation, (5) public assistance, (6) education, and (7) recreation and cultural services. The business-type activities of the County include airport, waste management, and compressed natural gas.

The government-wide financial statements also provide information regarding the County's component units, entities for which the County (the primary government) is considered to be financially accountable. Blended component units, although legally separate entities, are in substance part of the County's operations and, therefore, data from these component units are combined with data of the primary government. Financial information for the CFCOC and CalOptima, discretely presented component units, are reported separately from the financial information presented for the primary government itself. A separate stand-alone annual financial report can be obtained for the CFCOC by accessing the County's website at the following address: <http://acdcweb01.ocgov.com/acInternet/>. A separate stand-alone annual financial report can be obtained for CalOptima by accessing the website at <http://wpso.dmhc.ca.gov/fe/search/>, and select the Health Plan "Orange County Health Authority" and Statement Type "Annual Audit Reports."

Fund Financial Statements

- **Fund** - a separate accounting entity with a self-balancing set of accounts.
- Focus is on major funds.
- Provides information regarding the three major categories of all County funds: **governmental, proprietary, and fiduciary**.

The fund financial statements report on groupings of related funds that are used to maintain control over resources that have been segregated for specific activities or objectives. A fund is a separate accounting entity with a self-balancing set of accounts. Like other state and local governments, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of governmental and proprietary fund financial statements is on major funds as determined by the criteria set forth in Governmental Accounting Standards Board (GASB) Statement No. 34, *"Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments,"* and GASB Statement No. 65, *"Items previously Reported as Assets and Liabilities."* All of the County funds can be divided into three major categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds - Governmental funds include most of the County's basic services and are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements are prepared using the modified accrual basis of accounting and current financial resources measurement focus.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Reconciliations are prepared for the governmental funds' Balance Sheet and the governmental funds' Statement of Revenues, Expenditures, and Changes in Fund Balances to facilitate comparisons between governmental funds and governmental activities. The

primary differences between the government-wide and fund financial statements relate to noncurrent assets, such as land and structures and improvements, and noncurrent liabilities, such as bonded debt and amounts owed for compensated absences and capital lease obligations, which are reported in the government-wide statements but not in the fund financial statements.

The County maintains several individual governmental funds organized according to their type (General Fund, Special Revenue, Debt Service, Capital Projects and Permanent Funds). Information is presented separately in the governmental funds' Balance Sheet and in the Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, which is always a major fund, and all other major funds. Information for nonmajor funds is presented in the aggregate in these statements. Individual fund data for each of the nonmajor governmental funds is presented in the Supplemental Information Section of this report. The County adopts an annual appropriated budget for its governmental funds. Budgetary comparison statements and schedules have been provided for these funds to demonstrate compliance with the budget.

Proprietary Funds - The County maintains two different types of proprietary funds: Enterprise Funds and Internal Service Funds. **Enterprise Funds** are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its Airport, Waste Management, and Compressed Natural Gas activities. **Internal Service Funds** are used to accumulate and allocate costs internally among the County's various functions such as insurance, transportation, publishing, and information technology. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Airport and Waste Management operations, which are both considered to be major funds of the County. Conversely, the Internal Service Funds are combined into a single, aggregated presentation in the proprietary fund financial statements with the individual fund data provided in combining statements, which can be found in the Supplemental Information Section of this report.

Fiduciary Funds - Fiduciary funds include the **Trust** and **Agency** funds and are used to account for assets held on behalf of outside parties, including other governments. Financial information for fiduciary funds are not reported in the government-wide financial statements because the resources of these funds are not available to support the County's programs. The combining statements for fiduciary funds are included in the Supplemental Information Section of this report.

Notes to the Basic Financial Statements

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. To find a specific note, refer to the Table of Contents.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the County's financial position. At June 30, 2016, the County's combined net position (governmental and business-type activities) totaled \$2,185,709 an increase of 9% from FY 2014-15.

The largest component of the County's net position, which totals \$3,370,773, was **net investment in capital assets**, which represents the County's investment in capital assets, less any related outstanding debt used to acquire those assets and debt-related deferred outflows and inflows of resources. The County's capital assets are used to provide needed services to its citizens. Since the capital assets themselves cannot be used to liquidate the associated debt, the resources needed to repay the debt must be provided from other sources.

COMPONENTS OF NET POSITION

- Net Investment in Capital Assets
- Restricted
- Unrestricted

The County's **restricted** net position totals \$1,329,878. Restricted net position represents resources that are subject to external restrictions on their use and are available to meet the County's ongoing obligations for programs with external restrictions. External restrictions include those imposed by grantors, contributors, laws/regulations of other governments, or restrictions imposed by law through constitutional provisions or legislation, including those passed by the County itself.

The final component of net position is **unrestricted** net position. Unrestricted net position is resources that the County may use to meet its ongoing obligations to citizens and creditors. As of June 30, 2016, the County's unrestricted net position totals a deficit of \$2,514,942. Among governmental activities the deficit was \$2,979,945 in unrestricted net position, compared to its deficit of \$2,991,814 at June 30, 2015. The main contributor of the deficit continues to be the reporting of the County's proportionate share of net pension liability on the financial statements.

The following table presents condensed financial information derived from the government-wide Statement of Net Position:

| NET POSITION – Primary Government June 30, 2016 and 2015 | | | | | | |

As of June 30, 2016, the County's total assets and deferred outflows of resources increased by 9% or \$773,079 during the current fiscal year. Deferred outflows of resources related to pension increased by \$449,535 due to the changes in net pension liability measurements as required by GASB Statement No. 68, "Accounting and Financial Reporting for Pensions – An Amendment of GASB Statement No. 27," (GASB Statement No. 68) and employer pension contributions made after the measurement date as required by GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date – An Amendment of GASB Statement No. 68" (GASB Statement No. 71). In addition, an increase of \$231,765 in cash and equivalents is another contributing factor. This increase was primarily due to increased passenger facility charge revenues, receipt of grants for capital improvement projects, and bond proceeds to construct the new community facility district (CFD), Village of Esencia; the debt will be paid by a special tax levied on properties within the CFD.

Total liabilities and deferred inflows of resources for FY 2015-16 increased by 9% or \$595,120. Long-term liabilities increased by 9% or \$477,069, as a result of recording the County's proportionate share of the net pension liability. Deferred inflows of resources related to pension increased \$60,244 due to the changes in the net pension liability measurements used in the actuarial study as required by GASB Statement No. 68.

The County's net position increased by \$177,959 during the current fiscal year. Revenues for the year totaled \$4,007,769, an increase of \$100,484 from prior year's total revenues. Expenses totaled \$3,829,810, an increase of \$246,987 from the previous year's total expenses.

Governmental Activities

The County's governmental activities rely on several sources of revenue to finance ongoing operations. Operating Grants and Contributions comprised the largest revenue source for the County, followed by Charges for Services. Operating grants and contributions are monies received from parties outside the County and are generally restricted to one or more specific programs such as State and Federal revenues for public assistance and for health care. Charges for services are revenues that arise from charges to customers or applicants who purchase, use, or directly benefit from the goods, services, or privileges provided. Examples of the types of services that fall under this category include engineering services provided to cities under contract, park and recreation fees, and law enforcement services provided to other governmental agencies under contract.

At the end of FY 2015-16, total revenues for governmental activities, including transfers from the business-type activities, were \$3,720,881, an increase of \$89,223 from the previous year. Expenses totaled \$3,612,305, an increase of \$223,898 from the prior year. During the current fiscal year, net position for governmental activities increased by \$108,576 from the prior fiscal year for an ending balance of \$989,997. Key elements of the increase are as follows:

Revenues

- Operating Grants and Contributions increased by \$40,450, due primarily to a \$29,822 increase in revenues for social services related to the Medi-Cal program, CalFresh program, and In-Home Supportive Services.
- Capital Grants and Contributions increased by \$72,535, primarily due to increase of \$88,700 for the development of CFD, Village of Esencia, to provide acquisition and construction of public facilities and improvements. Offsetting this was a \$20,653 decrease in revenues related to construction projects due to the completion of construction for projects such as Cow Camp Road.
- Partially offsetting the increase in revenue was a decrease in Grants and Contributions not restricted to Specific Programs of \$44,893, primarily for a one-time windfall that was only received by the County in FY 2014-15 where the State fully paid pre-2004 Senate Bill 90 (SB90) mandated cost claims.

Expenses

- Expenses in public protection increased by \$107,393, primarily due to an increase in Salaries and Employee Benefits (S&EB) which was the result of salary adjustments based on contracts, additional positions added to support ongoing operations and increases in pension related expense items. The increase was partially offset by a reduction in employer paid pickup contributions of the safety members retirement plan (3% at 50) that is now being 100% paid by employees. In addition, there were increases in utility costs and a negative adjustment made to an infrastructure capital asset project due to a settlement for the Los Alamitos Pump Station project.
- Expenses in public assistance increased by \$47,464, primarily due to an increase in S&EB which include salary adjustments based on contracts, additional positions added to support new and ongoing demands in social services programs and increases in pension expense. In addition, there was an increase in Services and Supplies (S&S) due to new office rent expenses, increases in contract services, facility improvements and other services required to ensure continued and more efficient operations.
- Expenses in public ways and facilities increased by \$27,673, which was primarily attributable to the issuance of South County Roadway Improvement Program (SCRIP) fee credits paid to the developer.
- Expenses in health and sanitation increased by \$17,292 due to an increase in S&EB for additional positions to support ongoing services, pension related expense items, and increases in the Mental Health Services Act (MHSA) program expenses. Partially offsetting the increase was a continued decrease in expenses related to the Medical Services Initiative and a decrease in the loss on disposition of assets in FY 2015-16.

The following chart presents a comparison of expenses by function and the associated program revenues for governmental activities:

The chart below presents the percentage of total revenues by source for governmental activities:

Business-Type Activities

The County has three business-type activities: Airport, Waste Management, and Compressed Natural Gas. In keeping with the intent of recovering all or a significant portion of their cost through user fees and charges, business-type activities reported charges for services as their largest source of revenues.

At the end of FY 2015-16, the business-type activities' total revenues exceeded expenses and transfers resulting in an increase of \$69,383 in net position compared to the prior year's increase in net position of \$81,211. Revenues totaled \$308,406, an increase of \$12,820 from the previous fiscal year, which is attributable to a \$6,737 increase in revenues received by the Airport for terminal space rental, concessions, landing fees and use of property and also an increase of \$2,847 for interest income and Passenger Facilities Charges (PFC). Another contributing factor to the increase in revenue was Waste Management's importation disposal tonnage and fees which increased by \$2,863 and in-county disposal tonnage and fees which increased by \$4,738. Partially offsetting the increase in revenue was a decrease of \$7,041 in capital grants related to the Airport's Terminal A and B Baggage Handling System project which was completed in FY 2014-15.

Expenses, including transfers to governmental activities, totaled \$239,023, representing an increase of \$24,648 from the previous year. This increase is primarily due to Waste Management's one-time adjustment in FY 2014-15 to decrease the closure and postclosure care costs relating to Frank R. Bowerman, Olinda Alpha, and Coyote Landfills. In FY 2015-16, there was an additional \$2,729 in closure and postclosure care costs. These resulted in a total increase in expenses of \$24,772 between the two fiscal years. However, partially offsetting the increase was a decrease for the Airport of \$3,857 for non-operating expenses and a decrease in expenses for capital asset impairment loss due to a one-time impairment that occurred in FY 2014-15 for the Common Use Passenger Processing System (CUPPS). Other factors concerning the finances of the County's two major enterprise funds are discussed in the Proprietary Funds section of the "Financial Analysis of the County's Funds."

The following chart displays expenses and the associated program revenues by function for the business-type activities (major enterprise funds):

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

The County uses fund accounting to demonstrate legal compliance and aid financial management by segregating transactions related to certain government functions or activities.

Governmental Funds

Governmental funds are accounted for using the current financial resources measurement focus. With this measurement focus, only current assets, current liabilities, and deferred inflows of resources related to unavailable revenue generally are included on the balance sheet, with the difference reported as fund balance. Fund balance, excluding nonspendable and restricted fund balances, may serve as a valuable measure of the government's available financial resources for spending at the end of a fiscal year. This amount is available for spending at the discretion of the Board in order to achieve the established function of the respective funds.

At June 30, 2016, the County's governmental funds reported total fund balances of \$2,357,526, which is an increase of \$170,835 in comparison with prior year ending fund balances.

Comparative Analysis of Changes in Fund Balances

The following schedule presents a summary of revenues and other financing sources, expenditures and other financing uses, and the net change in fund balances for the governmental funds for the current and previous fiscal year:

In addition to the effects of expenditure-driven grants, the following information provides explanations for the significant changes in fund balance:

General Fund

The General Fund is the chief operating fund of the County. At the end of FY 2015-16, revenues and other financing sources exceeded expenditures and other financing uses resulting in an increase in fund balances of \$63,330 compared to last year's increase in fund balances of \$148,122. Revenues and other financing sources increased by \$37,248 and expenditures and other financing uses increased by \$122,040. The following is a brief summary of the primary factors that contributed to the increase in the net change in fund balance for the General Fund in FY 2015-16:

Revenues

- Tax revenue increased by \$41,760, which was primarily due to increases in secured property taxes and property taxes in-lieu of vehicle license fees (VLF) resulting from an increase in secured assessed values. Additionally, there was an increase in supplemental and other property tax revenues.

- Fines, Forfeitures, and Penalties revenue decreased by \$37,688, primarily due to the adoption of Board Resolution 14-096 that changed the minimum reserve requirements for the Teeter Plan Loss Reserve. The change resulted in a significant one-time increase in revenues in FY 2014-15.
- Use of Money and Property increased by \$13,046, primarily due to the revenue distribution for the recognition of interest paid by the State related to the SB90 State Mandated Cost Program reimbursement.
- Transfers to the General Fund increased by \$13,575, due to transfers for multi-year capital projects, reimbursements for Shelter Costs, and increases in Proposition 63 drawdowns from the MHSA. The increase in transfers to the General Fund was partially offset by a decrease in transfers in from the Facilities Development and Maintenance Fund for General Relief Assistance. There was also a decrease in transfers in from the Juvenile Justice Reform fund due to its prior year closure.

Expenditures

- Expenditures in public protection increased by \$55,580. Factors contributing to this increase in expenditures were ongoing operational cost increases in the Sheriff-Coroner's Department for S&EB, Workers' Compensation Insurance, Property & Liability Insurance, and S&S due to expenditures for utilities.
- Transfers from the General Fund increased by \$43,386 due to higher expenditures related to the new Animal Care Shelter, Central Utility Facility (CUF) infrastructure upgrades, Probation's hot red radio mobile expenditures, and Sheriff-Coroner's Department one-time equipment purchases. The increase in transfers was partially offset by lower transfers to the Plan of Adjustment Available Cash fund used to amortize bankruptcy related losses to County administered accounts.

Flood Control District

This fund accounts for the planning, construction, and operation of flood control and water conservation works, such as dams, basins, and trunk channels, and for the retardation, conservation, and controlled discharge of storm waters. At the end of FY 2015-16, there was an increase in fund balance of \$12,723, compared to last year's increase of \$41,809. Revenues and other financing sources decreased by \$34,167, mainly due to a decrease in intergovernmental revenues related to a reduction in SAR Subvention claims and a reduction in revenue from the Department of Water Resources for the Santa Ana River Interceptor (SARI) Line project claims. Refer to Note 10 for detailed information regarding the SARI project and financing agreement. Expenditures and other financing uses decreased by \$5,081, primarily due to a decrease in capital outlay expenditures related to property acquisitions for the Prado Dam and a decrease in the repayment of SARI Line Project loans to the Orange County Sanitation District (OCSD) and Santa Ana Watershed Project Authority (SAWPA).

Other Public Protection

This group of funds is used to account for safety and law enforcement activities. At the end of FY 2015-16, there was a decrease in fund balance of \$150 compared to last year's increase in fund balance of \$99. Revenues and other financing sources decreased by \$3,340, which was attributable to a decrease in fines, forfeitures and penalties of \$6,788, primarily for penalty and settlement collections in the District Attorney's Consumer Protection funds. Offsetting the decrease in revenues and other financing sources was an increase in transfers in of \$4,479, mainly to fund a mass notification system. Expenditures and other financing uses decreased by \$3,091 primarily due to transfers out of \$4,774 from the DA Consumer Prosecution Fund and the James A. Musick Facility construction costs. Offsetting the decrease in expenditures and other financing uses was an increase in capital outlay and public protection of \$1,683, which was primarily due to public protection expenses incurred by program members for services rendered in support of the Regional Narcotics Suppression Program (RNSP) and payments for charges related to the preservation of County Archival Property Records.

Mental Health Services Act

This fund accounts for MHSA revenues earned by the Health Care Agency (HCA) that are purpose restricted. At the end of FY 2015-16, fund balance increased by \$1,734 compared to last year's increase in fund balances of \$37,598. Revenues and other financing sources decreased by \$24,735, primarily due to a decreased allocation of the Mental Health Services Fund apportionments from the State. Expenditures increased by \$11,129, primarily due to an increase in transfers out to the General Fund for reimbursement of eligible expenditures.

Other Governmental Funds

Other governmental funds encompass nonmajor funds, which include special revenue funds, debt service funds, capital projects funds, and a permanent fund. At the end of FY 2015-16, fund balances increased by \$93,198 in comparison to prior year's decrease in fund balances of \$8,561. Revenues and other financing sources increased by \$262,864 primarily due to an increase in intergovernmental revenues caused by the reclass of transfers for debt service activity related to the Village of Esencia, an increase in transfers in from the General Fund for multi-year countywide capital projects, an increase in bonds issued to finance the new Central Utilities Facility (CUF) Lease Revenue Bonds, Series 2016 and the issuance of the Teeter Plan Obligations Notes, Series B. Expenditures and other financing uses increased by \$161,105 primarily due to an increase in construction costs for Cow Camp Road Phase 1A & 1B Bridge project, the La Pata Avenue Gap Closure project, the Central Utilities Facility Infrastructure Upgrade and reimbursements to Santa Margarita Water District for construction of water facilities for CFD, Village of Esencia. In addition, there were increased SCRIP fee credits paid to the developer for the I-5/Ortega Highway Interchange project and La Pata Avenue Improvements and increased debt service costs for principal retirement of Teeter Plan Obligations Notes, Series B.

The following chart shows the fund balances, and percentage change in fund balances for governmental funds for the current and previous fiscal year:

Proprietary Funds

The proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary funds financial statements provide separate information for the Airport and Waste Management funds, which are considered to be major funds of the County, and Compressed Natural Gas fund. Internal Service Funds are combined into a single, aggregated presentation in the proprietary funds financial statements.

Comparative Analysis of Changes in Fund Net Position

The following table presents the enterprise funds' revenues, expenses, contributions, transfers, and changes in fund net position for the current and previous fiscal year:

Airport

This fund accounts for major construction and self-supporting aviation related activities rendered at John Wayne Airport, Orange County (JWA). At the end of FY 2015-16, there was an increase in fund net position of \$34,472, which was a higher increase when compared to the prior year increase of \$27,660. Revenues and contributions increased by \$2,763 primarily due to an increase in revenues received for terminal space rental, concessions, landing fees, use of property, interest income, and PFC revenue, partially offset by a decrease in capital grant contributions. Expenses decreased by \$4,049 primarily due to a decrease in other nonoperating expense and a decrease in loss on disposition of capital assets compared to the prior year increase which was due to an impairment loss of a capital asset related to the Common Use Passenger Processing System (CUPPS) hardware and software. The Airport reported expense of capital asset impairment loss in FY 2014-15, but no asset impairment in FY 2015-16.

Waste Management

This fund is used to account for the operation, expansion, closing of existing landfills and the opening of new landfills. Monies are collected through gate tipping fees, which users pay based primarily on tonnage. At the end of FY 2015-16, there was an increase in fund net position of \$34,963, which was a smaller increase when compared to the prior year increase of \$53,133. Revenues and transfers increased by \$10,380 which was primarily due to an increase in sanitation and landfill disposal fees collected for waste, recycling, and importation, as well as importation tonnage and in-county disposal tonnage. Expenses and transfers increased by \$28,550 primarily due to an increase in provision for closure and postclosure care costs and pollution remediation expenses.

Compressed Natural Gas (CNG)

This fund accounts for the operation and maintenance of the CNG facility. Revenues consist primarily of compressed natural gas sales to both the County and the public. At the end of FY 2015-16, there was a decrease in fund net position of \$189, which was a decrease when compared to the prior year increase of \$57. Revenues decreased by \$78 due to a decrease in CNG fuel sales and CNG/Propane tax refunds and credits. Expenditures increased by \$54 due to an increase in transfers out to reimburse the OC Flood Control District Fund for the annual payment for the construction of the compressed natural gas station. This increase in expenses was partially offset by decreases in utility charges, fuel excise taxes, and vendor use fuel tax.

GENERAL FUND BUDGETARY HIGHLIGHTS

This section provides a summary of the primary factors involved in the variances between: 1) the Original Budget and the Final Amended Budget; and 2) the Final Amended Budget and the Actual Amounts for the General Fund. In addition to the effects of expenditure-driven grants, the following information provides explanations for significant variances. Refer to the Budgetary Comparison Statement for details on this budgetary comparison.

Original Revenue Budget vs. Final Amended Revenue Budget

The following provides a summary of the primary factors attributable to the increase or decrease in the General Fund final amended budget revenues compared to the original budget revenues:

Intergovernmental Revenue

- An increase of \$8,682 in the Social Services Agency (SSA) in anticipation of the FY 2015-16 State and Federal allocations received for various programs, such as Medi-Cal, CalFresh, Non-Medical Out-of-Home Care, Work Incentive Nutrition Supplement.
- An increase of \$4,340 in the Probation Department for the funding of Probation's maintenance projects and the multipurpose rehabilitation center.
- An increase of \$1,696 in the Sheriff-Coroner department, primarily from an increase in federal revenues for expenditures eligible for reimbursement from carryover grant funds as well as an increase in Federal monies from the Homeland Security Grant for the purchase of equipment for the Air Support Unit.

Transfers In

- An increase of \$8,235 in the 2005 Lease Revenue Refunding due to an agreement with the OC Waste and Recycling (OCWR) Department to transfer net imported waste revenue to the General Fund in support of the County Bankruptcy Recovery Plan.
- An increase of \$5,430 in the HCA to cover increased eligible program costs and to also account for increased monies from the Tobacco Settlement Fund.
- An increase of \$1,797 is primarily due from the DNA Identification Fund to the District Attorney for DNA Database software and sample collection site upgrades.
- A decrease of \$3,463 in Capital Projects due to funding for the year-round homeless shelter being reallocated to the Countywide Capital Projects Non-General Fund.

Use of Money and Property

- An increase of \$10,193 to recognize interest payments received from the State for the Mandated Costs Reimbursement program.

Charges for Services

- An increase of \$6,314 in the Sheriff-Coroner department as a result of an increase in law enforcement services provided to various cities and under the Selective Traffic Enforcement program.

Final Revenue Budget vs. Actual Revenue Amounts

The following information provides a summary of the primary factors that caused significant variances in the General Fund actual revenues compared to the final revenue budget:

Transfers In

- A \$98,354 less than budgeted amount was primarily comprised of the following:
 - \$43,288 lower than budgeted amount in HCA caused by a lower amount received for eligible expenditures associated with the MHSA Fund and a delay in transfers from the OC Tobacco Settlement Revenue Fund.
 - \$21,488 less than budgeted in SSA was largely due to lower amounts claimed for eligible expenditures as a result of higher than anticipated vacancy rate, as well as deferrals of IT and facility projects. In addition, there was lower than budgeted spending in the Wraparound program, which provides a process to connect and support youth who have emotional health needs and their families with community-based services and other valuable resources.
 - \$11,000 lower than budget from the Teeter Tax Loss Reserve Fund which was determined to be unnecessary.
 - \$10,737 lower than budgeted amount in Capital Projects was mainly due to redirection of money for the year-round emergency shelter to another governmental fund where the expenditures were incurred. In addition, there were higher than anticipated transfers for carryover projects to the Countywide Capital Projects Non-General Fund.

Intergovernmental

- A \$42,354 less than budgeted amount was primarily comprised of the following:
 - A \$33,115 less than budget amount in SSA is due to a lower amount of monies claimed from State and Federal assistance programs such as CalWorks, Work Incentive Nutritional Supplement and Low Income Energy Assistance Program.
 - A \$8,377 less than budgeted amount in the Sheriff-Coroner was caused by monies received for Prop 172 for Public Safety Sales Tax.

Charges for Services

- A \$37,267 less than budgeted amount was primarily comprised of the following:
 - A \$9,030 variance in OC Community Resources due to lower revenues for computer aided architectural designs (CAAD).
 - A \$6,898 less than budgeted amount for revenues received for mental health services under the Short-Doyle/Medi-Cal program.
 - A \$6,416 less than budgeted amount in OC Public Works for monies received from the quarterly indirect cost billings to other County units.

- A \$5,120 less than budgeted amount in billings for utility and maintenance services performed by Utilities.

Original Expenditure Budget vs. Final Amended Expenditure Budget

The following provides a brief summary of the primary factors attributable to the increase in the General Fund final amended budget expenditures compared to what was originally budgeted:

Sheriff-Coroner

- An increase of \$15,560 in budgeted appropriations primarily due to higher costs associated with providing law enforcement services to cities, traffic safety, forensic science and homeland security, as well as an increase in budget appropriations for transportation vehicles to carry out law enforcement activities.

Social Services Agency

- An increase of \$8,813 in budgeted appropriations due to anticipated higher costs for Medi-Cal, CalWORKs and various other State programs, as well as added positions to support new federal overtime regulations per the provisions of the Fair Labor Standards Act.

2005 Lease Revenue Refunding

- An increase of \$8,325 in budgeted appropriations to transfer the anticipated increase in importation revenues that will be used to amortize bankruptcy related losses to County Administered Accounts in accordance with the Bankruptcy Second Amended Modified Plan of Adjustment.

Health Care Agency

- An increase of \$5,770 which mostly consisted of an increase to transfers out for multi-year projects and the purchase of the former Santa Ana Transit Terminal.

Final Expenditure Budget vs. Actual Expenditure Amounts

The following provides a summary of the primary factors that caused significant variances in the General Fund actual expenditures as compared to the final budget:

Social Services Agency

- A \$66,642 lower than budgeted amount due to lower than anticipated caseloads and associated assistance payments, as well as lower S&S due to lower contracts, IT expenditures and facility projects.

Health Care Agency

- A \$67,425 lower than budgeted amount caused by lower costs of contracted services associated with MHSA programs. Additionally, expenditures for Medical Services Network claims and contract pharmacy expenditures were lower than anticipated and there was a decrease in expenditures in the Emergency Medical Services fund due to lower funding.

OC Community Resources

- A \$14,441 lower than budgeted amount mostly as a result of keeping positions vacant throughout the year in support services and lower professional service contracts. Furthermore, there was a delay in the timing of operation for the emergency and homeless shelter.

Capital Projects

- A \$11,504 lower than budgeted amount was primarily the result of various structure and improvement projects being delayed to future fiscal years, such as the year-round shelter and HCA lab and clinic facilities.

Sheriff-Coroner

- A \$11,269 lower than budgeted amount was primarily the result of less expenditures in S&EB benefits. In addition, there were less expenditures than anticipated for the purchase of a helicopter and IT equipment costs.

Capital Assets

At June 30, 2016, the County's capital assets for both the governmental and business-type activities amounted to \$3,657,852, net of accumulated depreciation. The investment in capital assets includes land, structures and improvements, land improvements, equipment, intangibles (software, land use rights, water and mineral rights), infrastructure (roads, bridges, flood channels, trails, traffic signals, and harbors), intangible in progress, and construction in progress. The total increase in the County's investment in capital assets for the current year was 1%.

Capital assets for the governmental and business-type activities are presented below to illustrate changes:

Additional information on the County's commitments for capital expenditures can be found in Note 14, Construction and Other Significant Commitments.

Long-Term Debt

At June 30, 2016, the County had total debt obligations outstanding of \$460,791 excluding capital lease obligations, compensated absences and other liabilities. During the year, the County's outstanding bond obligations decreased by 1%, which is attributable to the retirement of \$154,652, of bond obligations. The decrease primarily is due to the redemption of \$74,561 of the Teeter Plan Notes, the redemption of \$37,545 of the revenue bonds, and a decrease of \$31,089 in Interest Accretion on Capital Appreciation Bonds (CAB). Partially offsetting the decrease was the addition of \$56,565 in Revenue Bonds, primarily due to the issuance of the CUF Lease Revenue Bonds, Series 2016, and the addition of \$70,929 in Teeter Plan Notes.

The County is limited by law in issuing general obligation bonded debt to 1.25 percent of the last equalized assessment property tax roll. However, this does not affect the financing of any of the County's planned facilities or services. As of the end of the fiscal year, the County had no net general obligation bonded debt. The County's debt obligations are in the form of revenue bonds, certificates of participation (COPs), and other forms of debt not covered by the general obligation bonded debt limitation.

The following table summarizes the County's outstanding bonds at June 30, 2016:

| LONG-TERM DEBT BOND OBLIGATIONS | | | | | | | | |

The following summarizes the County's long-term debt issuance during FY 2015-16:

Central Utility Facility Lease Revenue Bonds, Series 2016 On June 2, 2016, the SOCPFA issued its \$56,565 Lease Revenue Bonds, Series 2016 at a premium of \$11,724. The Lease Revenue Bonds, payable through April 2036, were issued to finance the acquisition, construction and installation of certain capital improvements to be owned by the County, and pay costs relating to the issuance of the bonds. As of June 30, 2016, the outstanding principal amount, including the premium of the Series 2016 Bonds, and remaining interest were \$68,289 and \$33,190, respectively.

The bonds are special obligations of the SOCPFA payable from and secured by the base rental payments to be made by the County under the lease and the amounts held in all funds and accounts (other than the rebate fund) under the indenture.

Teeter Plan Notes On July 15, 2015, the County issued an additional \$30,542 in Teeter Plan Notes to finance the purchase of the delinquent property tax receivables associated with the Teeter Plan. On December 30, 2015, the County used all of the accumulated base taxes to redeem \$23,978 of the Teeter Plan Notes. On January 29, 2016, the Note Purchase and Reimbursement Agreement was extended. Teeter Plan Obligation Notes, Series B were issued for \$40,387 to retire the old Teeter Notes maturing January 29, 2016.

On June 28, 2016, the County used all of the accumulated base taxes to redeem \$10,196 of the Teeter Plan Notes. As of June 30, 2016, the outstanding principal amount of the Teeter Plan Notes was \$30,191.

Additional information on the County's long-term debt activity can be found in Note 10, Long-Term Obligations and Note 20, Subsequent Events.

Bond Ratings

The County maintained its issuer rating of Aa1 from Moody's Investors Service and currently Fitch Ratings does not provide issuer ratings. In FY 2015-16, the following changes occurred in the County's underlying debt:

On December 28, 2015, Standard & Poor's Global Ratings (S&P) raised its issuer credit rating for the County to AA+ from AA. S&P also raised its long-term rating and underlying rating on the County's 2005 Lease Revenue Bonds, 2006 Lease Revenue Bonds, and 2012 Lease Revenue Bonds to AA from AA-.

On June 2, 2016, the County issued the 2016 Lease Revenue Bonds with an AA rating from S&P.

The County has the following long-term underlying debt ratings:

OTHER POTENTIALLY SIGNIFICANT MATTERS

The County's management has determined that the following are significant matters that have a potential impact on the County's financial position or changes in financial position:

State Legislation and Budget

Orange County Vehicle License Fees (VLF)

On June 30, 2011, the Governor signed SB 89, which redirected the County's annual receipt of approximately \$49,000 in VLF revenue (Revenue & Taxation Code Section 11001.5(a)(1) and 11005(a)).

All counties in California receive property taxes in lieu of VLF pursuant to Section 97.70 of the Revenue and Taxation Code as a result of the VLF for property tax swap of 2004. However, in 2004, the County's share of property tax in lieu of VLF, which is also known as its "vehicle license fee adjustment amount (VLFAA)," was reduced by approximately \$54,000. This reduction was to offset the amount of VLF the County received until the passage of SB 89, and that had been pledged for the service of bankruptcy related indebtedness at the time that Section 97.70 was adopted in 2004.

The elimination of the County's VLF revenue required the Orange County Auditor-Controller to calculate the County's allocation of property taxes in lieu of VLF in a manner consistent with the other 57 counties in the State. Due to the growth in property valuation since 2005, when the VLF Swap was enacted, the calculated property tax in lieu of VLF was \$73,500 for FY 2012-13. This amount was included in the County's budget for FY 2011-12 and 2012-13. In an attempt to deprive the County not only of the \$54,000 in VLF revenue, but also the \$73,500 of annual property tax revenue that was legally owed, the State Department of Finance initiated litigation to challenge the County's calculation of the VLFAA. Ultimately, the Court ruled in favor of the State.

The Court's ruling resulted in the loss of the \$73,500 VLFAA revenue and a requirement for the County to repay \$150,000 to the State (\$147,000 retained in FYs 2011-12 and 2012-13, plus interest). On September 27, 2013, Assembly Bill (AB) 701 was signed by the Governor to resolve the dispute between the State and the County. AB 701 provides for an additional \$53,000 in annual VLFAA beginning in FY 2013-14, including growth, in lieu of the \$50,000 in property tax revenue previously provided by SB 8 X3, which was a flat amount with no growth. AB 701 provides stability for the County by securing the property tax revenues, including growth, and by allowing for repayment of the \$150,000 over five years. The \$150,000 due to the State was formally set aside in reserve in the FY 2013-14 First Quarter Budget Report. As of June 30, 2016, the remaining obligation to the state is \$130,000.

Long-Term Financial Planning

Property Tax Management System Upgrade

The County's property tax assessment, collection and allocation system processes property taxes and special assessments for the county, cities, school districts and special districts within the County. The current system was developed in the late 1980's in a now obsolete programming language. Maintenance of the system requires specialized knowledge that is hard to obtain. The Auditor-Controller, Clerk of the Board, and Treasurer-Tax Collector embarked on a multi-year phased implementation of the new Property Tax Management System (PTMS).

In January 2006, a contract was awarded to a vendor to conduct a needs assessment and to document the requirements of the new PTMS, with the needs assessment project being completed in July 2007. On July 15, 2008, the Board approved a contract to develop and implement the new PTMS based on the requirement specifications documented during the needs assessment. However, only two out of twenty-seven modules were implemented and remain in partial operation. The software development vendor tried to complete the remaining modules until their contract expired and the project was placed on hold on January 9, 2013. The County filed charges against the vendor a few months later.

In August 2016, the PTMS development vendor settled the litigation and the County received \$26,000 in litigation settlement revenue.

In looking into the solution for Property Tax Management, the PTMS Steering Committee directed its staff to issue a Request for Proposal (RFP) to re-platform the current legacy system. As opposed to a complete development from new specifications, this would take the existing system and transform it to operate on an open system platform with similar functionality. An RFP was issued on September 14, 2016.

Funding Progress of the County's Retirement System (System)

The funded ratio of the System is a measure of the ability of the System to make obligated payments to current retirees and future retirees. The funded ratio (actuarial value of plan assets divided by actuarial accrued liability) dropped from 82.76% in 2002 to 70.85% in 2004. Since 2004, the funded ratio increased to 74.08% in 2007 before dropping to 62.52% as of December 31, 2012. As of December 31, 2015, the funded ratio was 71.72%. An increase in funding status is caused by multiple factors, including: (1) additional UAAL (Unfunded Actuarial Accrued Liability) payments by certain plan sponsors, (2) lower than expected salary growth, and (3) lower than expected cost of living adjustment (COLA) increases, offset slightly by (1) actual contributions less than expected, (2) unfavorable investment returns (after smoothing), and (3) higher than expected retirement experience.

On November 4, 2008, the voters in Orange County approved Measure J, which requires voter approval for any future pension benefit enhancements. The County carefully monitors the activities at OCERS and regularly provides input to OCERS management, as well as providing input at OCERS Board meetings as deemed appropriate.

Reduction in OCERS Assumed Investment Rate of Return

The assumed investment rate of return is the rate of investment yield that the Plan will earn over the long-term future.

On December 5, 2012, the OCERS Board voted to reduce the assumed investment rate of return from 7.75% to 7.25%. The reduction was phased in over a two-year period beginning July 2014 at 7.5% and further reducing to 7.25% effective July 2015. The assumed rate of return reduction had the impact of increasing contribution rates of members and plan sponsors.

Actuarial Funding Policy (Amortization)

On November 18, 2013, the OCERS Board adopted the actuarial funding policy to reduce the amortization period for future Unfunded Actuarial Accrued Liability (UAAL) from 30 years to 20 years, which included combining and re-amortizing the entire outstanding UAAL balance as of December 31, 2012, over a single 20-year period. This will allow for future UAAL to be paid off in a shorter period of time and will ultimately reduce retirement rates and costs over time.

Actuarial Assumptions

The 2012 and 2013 valuations were impacted by economic assumption changes, which flowed from the 2012 Review of Economic Actuarial Assumptions. These changes included a decrease in inflation assumptions from 3.50% to 3.25% per annum and an increase in the current real “across the board” salary assumption increase from .25% to .50%. These two assumptions had a cancelling effect on one another.

The governmental funds Balance Sheet includes a reconciliation between fund balances – total governmental funds and net position – governmental activities as reported in the government-wide Statement of Net Position. The difference in fund balances of (\$1,367,529) is due to the long-term economic focus of the Statement of Net Position versus the short-term economic focus of the governmental funds. The components of the difference are described below.

| | |
|--|--------------|
| Total Fund Balances - Governmental Funds | \$ 2,357,526 |
|--|--------------|

Capital assets used in the operations of the County are not reported in the governmental funds financial statements:

| | | |
|---------------------------------------|--------------------|-----------|
| Land | 834,406 | |
| Structures and Improvements | 1,223,825 | |
| Equipment | 297,992 | |
| Software | 110,156 | |
| Infrastructure | 1,687,354 | |
| Land Use Rights | 7,602 | |
| Land Improvements | 2,629 | |
| Construction/Intangible in Progress | 121,418 | |
| Accumulated Depreciation/Amortization | <u>(1,528,778)</u> | 2,756,604 |

Other assets used in governmental activities do not consume current financial resources, and therefore, are not reported in the governmental funds:

| | | |
|---------------------------------------|------------|---------|
| Prepaid Pension Investment with OCERS | 111,639 | |
| Prepaid Bond Insurance | <u>199</u> | 111,838 |

| | |
|--|-------|
| The assets and liabilities of the internal service funds are included in governmental activities in the Statement of Net Position. | 9,840 |
|--|-------|

Deferred outflows of resources are similar to assets, but they do not meet the definition of an asset at June 30, 2016. When all the recognition criteria are met, the deferred outflows of resources will become an expense. The counterpart to deferred outflows of resources are deferred inflows of resources, which are not technically liabilities at June 30, 2016. When all recognition criteria are met, the deferred inflows of resources will become revenue or an increase to net position. The County reports the different types of deferred outflows and inflows of resources in the Statement of Net Position as follows:

Deferred Outflows of Resources:

| | | |
|--|--|---------|
| Deferred Charge on Refunding | | 3,871 |
| Employer retirement contribution subsequent to measurement date and deferred recognition of changes to the net pension liability | | 908,461 |

Reclassification of prepaid pension contribution from prepaid costs to deferred outflows of resources for the portion to be recognized in the next measurement period. Refer to Note 17, Retirement Plans for further information.

| | | |
|--------------------------------|--|-----------|
| Prepaid Pension Contribution | | (173,223) |
| Deferred Outflows of Resources | | 173,223 |

Reconciliation of the Governmental Funds Balance Sheet

(Dollar Amounts in Thousands)

Deferred Inflows of Resources:

| | |
|---|-----------|
| Deferred Inflows of Resources that have been earned but not available to finance expenditures in the current period | 160,253 |
| Deferred Inflows of Resources Related to Pension | (440,418) |

Long-term liabilities, including bonds and notes payable, are not due and payable in the current period and, therefore, are not reported in the governmental funds:

| | | |
|---|--------------------|-------------|
| Bonds and COPs Payable, Net | (161,547) | |
| SARI Line Loans Payable | (28,022) | |
| Teeter Plan Notes Payable | (30,191) | |
| Compensated Employee Absences Payable | (182,834) | |
| Capital Lease Obligations Payable | (54,128) | |
| Capital Asset Obligation | (71) | |
| Arbitrage Rebate Payable | (233) | |
| Interest Payable on Bonds | (1,379) | |
| Interest Accreted on Capital Appreciation Bonds | (73,926) | |
| Estimated Liability - Litigation and Claims | (130,000) | |
| County's Net Pension Liability | <u>(4,258,754)</u> | (4,921,085) |

Governmental Accounting Standards Board (GASB) Statement No. 45, "Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions" requires an employer to record a net Other Postemployment Benefits (OPEB) obligation (asset) for the difference between the annual required contribution (ARC) and the amounts actually contributed to the OPEB Plan.

County of Orange
Comprehensive Annual Financial Report
For the Year Ended June 30, 2016
(Dollar Amounts in Thousands)

The Net Change in Fund Balances for governmental funds of \$170,835 in the Statement of Revenues, Expenditures, and Changes in Fund Balances differs from the Change in Net Position for governmental activities of \$108,576 reported in the government-wide Statement of Activities. The differences arise primarily from the long-term economic focus of the Statement of Activities versus the current financial resources focus of the governmental funds. The main components of the difference are described below.

| | | |
|--|----|---------|
| Net Change in Fund Balances – Total Governmental Funds | \$ | 170,835 |
|--|----|---------|

When capital assets used in governmental activities are purchased or constructed in the current fiscal year, the resources expended for those assets are reported as expenditures in the governmental funds. However, in the Statement of Activities, the cost of these assets is allocated over their estimated useful lives and reported as depreciation or amortization expense. In addition, donations, transfers, gains or losses from sales and other disposals/acquisitions of capital assets are not reported in governmental funds. These assets, and their associated depreciation/amortization expense, must be reported or removed in the government-wide financial statements. The details of the expenditures for capital outlay, capital contributions, depreciation /amortization and other disposals/acquisitions of capital assets are as follows:

| | | |
|---|--------------|--------|
| Expenditures for Capital Outlay: | | |
| Land | 10,922 | |
| Structures and Improvements and Construction in Progress | 75,380 | |
| Equipment | 23,179 | |
| Software | 4,173 | |
| Net of Gains/Losses on Capital Assets Dispositions | (10,013) | |
| Depreciation/Amortization Expense | (83,796) | |
| Capital Contributions | <u>4,497</u> | 24,342 |

The issuance of long-term debt (e.g. bonds) is recorded as an other financing source in the governmental funds because it provides current financial resources. Similarly, the repayment of principal on long-term debt or the payment of other long-term liabilities is reported as an expenditure in the governmental funds because current financial resources have been consumed. Bond proceeds, net of payments to escrow agents and principal payments, are reported as financing sources in governmental funds and thus contribute to the change in fund balance. These transactions do not have any effect on net position in the government-wide financial statements. The details of the principal and other long-term liability payments and other financing sources are as follows:

| | | |
|---|----------|----------|
| Teeter Plan Notes Proceeds | (70,929) | |
| Proceeds From Issuance of Bonds Payable | (68,289) | |
| Capital Lease Addition | (254) | |
| Principal and Other Long-Term Liability Payments: | | |
| Bonds Payable | 38,909 | |
| Teeter Plan Notes Payable | 74,561 | |
| SARI Line Loans Payable | 8,255 | |
| Capital Lease Obligations | 4,594 | |
| Arbitrage Rebate Payable | 623 | (12,530) |

Reconciliation of the Governmental Funds Statement of Revenues,
Expenditures, and Changes in Fund Balances to the Statement of Activities
(Dollar Amounts in Thousands)

Revenues related to prior years that are available in the current fiscal year are reported as revenue in the governmental funds. In contrast, revenues that are earned, but unavailable in the current year are deferred in the governmental funds. For government-wide reporting, revenue is recognized when earned, regardless of availability. The following amounts reflect the net effect of the timing differences for revenue recognition:

| | | |
|---|--------------|----------|
| Government Mandated and Voluntary Nonexchange | (17,619) | |
| Property Tax Revenues | <u>2,217</u> | (15,402) |

Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds until paid. The following amounts represent the net effect of these differences in the treatment of long-term liabilities:

| | | |
|--|----------------|--------|
| Accrued Interest Expense on Bonds Payable | 346 | |
| Amortization of Deferred Charges | 31,292 | |
| Compensated Employee Absences Expense | (10,552) | |
| OCERS Investment Loss | (905) | |
| Estimated Litigation and Claims Expense | 15,000 | |
| Interest Accretion on Capital Appreciation Bonds | <u>(8,712)</u> | 26,469 |

Internal service funds (ISF) are used by management to charge the costs of certain activities, such as insurance, transportation, and telephone services to individual governmental funds. The loss of internal service funds is eliminated in the Statement of Activities as an adjustment to the various functions to arrive at a break-even basis. Also, general or non-program revenues and expenses of the internal service funds are recorded in governmental activities.

| | | |
|---|---------------|--------|
| Allocation of ISF's Operating Loss to Governmental Activities, net of Business-Type Activities | (2,986) | |
| Consolidation of Nonoperating Revenues, Expenses and Transfers to Governmental Activities | <u>19,941</u> | 16,955 |

For FY 2015-16, the OPEB cost was \$44,439, and the County contributed \$42,490, which was deposited in the Retiree Medical Trust. The County contributed less than the required OPEB cost. Cumulatively, the County still has a net OPEB Asset. (1,949)

GASB Statement No. 68 requires an employer to record pension expense and employer contribution that affects the County's proportionate share of the net pension liability. (100,144)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the more significant accounting policies of the County of Orange:

A. Reporting Entity

The County is a legal subdivision of the State of California charged with general governmental powers. The County's powers are exercised through an elected five-member Board of Supervisors (the Board), which, as the governing body, is responsible for the legislative and executive control of the County. The County provides a full range of general government services, including police protection, detention and correction, public assistance, health and sanitation, recreation, library, flood control, public ways and facilities, waste management, airport management, and general financial and administrative support.

As required by generally accepted accounting principles (GAAP) in the United States of America, these financial statements present financial information for both the County (the primary government) and its component units, entities for which the County is considered to be financially accountable. Blended component units, although legally separate entities, are in substance, part of the County's operations, and the Board is typically their governing body. Therefore, data from these component units are combined with data of the primary government. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the County. Management applied the criteria of Governmental Accounting Standards Board (GASB) Statement No. 14, "*The Financial Reporting Entity*," Statement No. 39, "*Determining Whether Certain Organizations are Component Units – An Amendment of GASB Statement No. 14*," and Statement No. 61, "*The Financial Reporting Entity: Omnibus – An Amendment of GASB Statements No. 14 and No. 34*," to determine whether the component units should be reported as blended or discretely presented component units. The criteria included whether the County appoints the voting majority, there is a financial benefit/burden relationship, the County is able to impose its will, the component unit is fiscally dependent on the County, the component unit's governing body is substantially the same as the County, and management of the County have operational responsibility for the activities of the component unit. These criteria were used to determine the following:

Blended Component Units

Orange County Flood Control District The governing body of the District is the County's governing body. Among its duties, it approves the District's budget, determines the District's tax rates, approves contracts, and appoints the management. The District is reported in governmental fund types.

Orange County Housing Authority The governing body of the Authority is the County's governing body. Among its duties, it approves the Authority's budget and policies that govern the administration of housing assistance programs and appoints the management. The Authority is reported in governmental fund types.

Orange County Public Financing Authority The Authority is a joint powers authority of the County and the Orange County Development Agency (OCDA), formed to provide financial assistance to the County by financing the acquisition, construction and improvement of public facilities in the County. The governing body of the Authority is the County's governing body. The Authority is reported in governmental fund types. With the passage of ABX1 26 dissolving redevelopment agencies statewide effective February 1, 2012, the Authority will not issue any new debt.

South Orange County Public Financing Authority The Authority is a joint powers authority of the County and Community Facilities District 88-2 of the County of Orange (Lomas Laguna), formed to provide for the financing of public capital improvements. The governing body of the Authority is the County's governing body. The Authority is reported in governmental fund types.

A. Reporting Entity (Continued)

Blended Component Units (Continued)

Orange County Public Facilities Corporation The Corporation has its own five member governing body appointed by the County's governing body and provides services entirely to the primary government, the County, through the purchases, construction or leasing of land and/or facilities, which are then leased back to the County. The Corporation is reported in governmental fund types.

County Service Areas, Special Assessment Districts, and Community Facilities Districts The governing body of County Service Areas, Special Assessment Districts, and Community Facilities Districts (special districts) is the County's governing body. Among its duties, it approves the special districts' budgets, and approves parcel fees, special assessments and special taxes. The special districts are reported in governmental fund types.

In-Home Supportive Services (IHSS) Public Authority The governing body of the Authority is the County's governing body. The Authority was established by the Board to act as the employer of record for the individual providers for the IHSS program. The duties of the Authority include collective bargaining for the individual providers, establishing a registry of providers, investigating the background of providers and providing training to both IHSS providers and consumers. The Authority is reported in governmental fund types.

Fiduciary Component Unit

County of Orange Redevelopment Successor Agency (Successor Agency) The Successor Agency was established when Orange County Development Agency (OCDA) was dissolved effective February 1, 2012 in accordance with ABX1 26 and Health and Safety Code 34172. An Oversight Board was appointed to oversee the dissolution process. A Private-Purpose Trust Fund, administered by the County of Orange, was established to account for the assets and liabilities of the former OCDA. For additional information related to the activities of the Successor Agency and its on-going Enforceable Obligations, please refer to its separate financial statements. Copies of the Successor Agency's financial statements can be obtained from the OC Community Resources Department or by accessing Orange County's website at the following address: <http://ocgov.com/gov/auditor/info/financial/>.

Discretely Presented Component Units

Children and Families Commission of Orange County The Commission is administered by a governing board of nine members, who are appointed by the Board. Its purpose is to develop, adopt, promote and implement early childhood development programs in the County. It is funded by additional State taxes on tobacco products and approved by California voters via Proposition 10 in November 1998. The Commission is presented as a discretely presented component unit of the County because, although the County Board has no control over the revenues, budgets, staff, or funding decisions made by the Commission, the appointed Commission members serve at the will of the Board members who appoint them. A separate stand-alone annual financial report can be obtained by writing to the Children and Families Commission of Orange County, 1505 E. 17th Street, Suite 230, Santa Ana, CA 92705, or by accessing Orange County's website at the following address: <http://ocgov.com/gov/auditor/info/financial/>

Orange County Health Authority, a Public Agency/dba Orange Prevention and Treatment Integrated Medical Assistance (CalOptima) The Board established CalOptima in 1993. The governing board of CalOptima is comprised of nine voting members and includes two County Board members and one County Board member alternate; all other members are appointed by the Board. This is a County organized health system whose purpose is to administer health insurance programs for low-income families, children, seniors, and persons with disabilities throughout the County. These programs include

Medi-Cal, OneCare (HMO SNP), OneCare-Connect Cal MediConnect Plan, and Program of All-Inclusive Care for the Elderly (PACE). CalOptima is presented as a discretely presented component unit of the County because, although the County Board has no control over the revenues, budgets, staff, or funding decisions made by CalOptima, the appointed CalOptima members serve at the will of the Board members who appoint them. CalOptima will continue until such time as the Board takes action to terminate CalOptima. A separate stand-alone annual financial report can be obtained by writing to CalOptima, 505 City Parkway West, Orange, CA 92868. Alternately, you can access the website <http://wpso.dmh.ca.gov/dashboard/finances.aspx>, from the bottom select "Financial Statements" and select the Health Plan "Orange County Health Authority" and statement type "Annual Audit Reports."

B. Government-Wide and Fund Financial Statements

The basic financial statements include both the government-wide and fund financial statements. The government-wide financial statements are prepared using the accrual basis of accounting and the economic resources measurement focus. The government-wide financial statements report long-term liabilities and capital assets. Depreciation/amortization expense and accumulated depreciation/amortization are displayed on the government-wide financial statements. The capital assets and related depreciation include the costs and depreciation of infrastructure assets.

The fund financial statements for the governmental funds are prepared under the modified accrual basis of accounting and the current financial resources measurement focus. Fund financial statements are shown separately for specific major governmental fund and in total for all other governmental funds. Fund financial statements for proprietary funds are reported under the accrual basis of accounting and the economic resources measurement focus. Major enterprise funds are shown separately, with internal service funds shown in total. Financial data for the internal service funds is included with the governmental funds for presentation in the government-wide financial statements. Fiduciary funds are displayed by category in the fund financial statements, but are not reported in the government-wide financial statements, because the assets of these funds are not available to the County.

Government-Wide Financial Statements

GASB Statement No. 34, "*Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*" (GASB Statement No. 34), as amended by GASB Statement No. 63 "*Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*" (GASB Statement No. 63), mandates the presentation of two basic government-wide financial statements:

- *Statement of Net Position*
- *Statement of Activities*

The scope of the government-wide financial statements is to report information on all of the non-fiduciary activities of the primary government and its component units.

Governmental activities, which are normally supported by taxes, intergovernmental revenues, other nonexchange revenues, and business-type activities, which are financed by fees charged to external parties for goods or services, are reported in separate columns with a combined total column presented for the primary government. Likewise, the primary government is reported separately from the legally separate component units, Children and Families Commission of Orange County and CalOptima, for which the

Government-Wide Financial Statements (Continued)

primary government is financially accountable. The government-wide Statement of Net Position displays the financial position of the primary government, in this case, the County and its discretely presented component units. The Statement of Net Position reports the County's financial and capital resources, including infrastructure, as well as the County's long-term obligations. The difference between the County's assets plus deferred outflows of resources, and liabilities plus deferred inflows of resources is its net position. Net position represents the resources that the County has available for use in providing services after its debt is settled.

These resources may not be readily available or spendable and consequently are classified into the following categories of net position in the government-wide financial statements:

- Net Investment in Capital Assets This amount is derived by subtracting the outstanding debts incurred by the County, including debt-related deferred outflows and inflows of resources, to buy or construct capital assets shown in the Statement of Net Position, net of depreciation.
- Restricted Net Position This category represents restrictions imposed on the use of the County's resources by parties outside of the government or by law through constitutional provisions or enabling legislation. All of the County's net position restrictions are externally imposed by outside parties, constitutional provisions or enabling legislation. Examples of restricted net position include federal and state grants that are restricted by grant agreements for specific purposes and restricted cash set aside for debt service payments. At June 30, 2016, the County's governmental activities reported restricted net position of \$1,262,449 and is restricted for pension benefits related to the Orange County Retirement System (OCERS) Investment Account, capital projects, debt service, legally segregated funds restricted for grants and other purposes, and regional park endowment. Restricted Net Position for business-type activities amounted to \$67,429 and is restricted for the use of Airport and Waste Management activities, including debt service, passenger facility charges (PFC), capital projects replacements and renewals, landfill closure/postclosure, and landfill corrective action. At June 30, 2016, the County reported \$14,705 of net position restricted by enabling legislation related to the Airport's PFC.
- Unrestricted Net Position These assets are resources of the County that can be used for any purpose, though they may not necessarily be liquid. In addition, assets in a fund that exceed the amounts required to be restricted by external parties or enabling legislation are reported as unrestricted net position. When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, and then unrestricted resources as they are needed.

The government-wide Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues and the extent to which the function or segment is supported by general government revenues, such as property taxes, local unrestricted sales taxes, and investment earnings. Direct expenses are those that are clearly identifiable with a specific function or segment. Indirect expenses are allocated to the programs where the revenue is earned. Program revenues include:

- *Charges and fees to customers or applicants for goods, services, or privileges provided, including fines, forfeitures, and penalties related to the program*
- *Operating grants and contributions*
- *Capital grants and contributions, including special assessments*

Taxes and other items such as unrestricted investment earnings not properly included among program revenues are reported instead as general revenues.

B. Government-Wide and Fund Financial Statements (Continued)

Fund Financial Statements

Separate fund financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. The focus of governmental and proprietary fund financial statements is on major funds. The financial information of each major fund is shown in a separate column in the fund financial statements, with the data for all nonmajor governmental funds aggregated into a single column and all nonmajor proprietary funds aggregated into a single column. GASB Statement No. 34, as amended by GASB Statement No. 65 "*Items Previously Reported as Assets and Liabilities*" (GASB Statement No. 65), sets forth minimum criteria (specified minimum percentages of the assets plus deferred outflows of resources, liabilities plus deferred inflows of resources, revenues or expenditures/expenses of a fund category and of the governmental and enterprise funds combined) for the determination of major funds. In addition to funds that meet the minimum criteria, any other governmental or enterprise fund that the government believes is of particular importance to financial statement users may be reported as a major fund.

The County reports the following major governmental funds:

General Fund This fund accounts for resources traditionally associated with government and all other resources, which are not required legally, or by sound financial management, to be accounted for in another fund. Revenues are primarily derived from taxes; licenses, permits and franchises; fines, forfeitures and penalties; use of money and property; intergovernmental revenues; charges for services; and other revenues. Expenditures are primarily expended for functions of general government, public protection, public ways and facilities, health and sanitation, public assistance, capital outlay, and debt service.

Flood Control District This fund accounts for the planning, construction, operation, and maintenance of regional flood protection and water conservation works, such as dams, control channels, retarding basins, and other flood control infrastructure, charges for services revenue, along with property taxes restricted for flood control activities, provide most of this fund's revenues.

Other Public Protection This fund accounts for revenues restricted for safety and law enforcement activities such as the child support program, automated fingerprint identification systems, and investigation team. Revenues consist primarily of federal grants, state grants, fines, use of money and property, and charges for services.

Mental Health Services Act This fund accounts for the County's mental health programs for children, transition age youth, adults, older adults and families pursuant to the State of California Mental Health Services Act. Revenues consist primarily from a one percent income tax on personal income in excess of one million.

The County reports the following proprietary enterprise funds:

Airport This major fund accounts for major construction and for self-supporting aviation-related activities rendered at John Wayne Airport, Orange County. The airport's staff coordinates and administers general business activities related to the Airport, including concessions, commercial and general aviation operations, leased property, auto parking, and aircraft tie-down facilities.

Waste Management This major fund accounts for the operation, expansion, and closing of existing landfills. Monies are collected through landfill disposal fees, which users pay based primarily on tonnage.

Compressed Natural Gas (CNG) This nonmajor fund accounts for the operation and maintenance of the CNG facility. Revenues consist primarily of CNG sales to both the County and the public.

B. Government-Wide and Fund Financial Statements (Continued)

Fund Financial Statements (Continued)

Additionally, the County reports the following fund types:

Internal Service Funds The County reports nine Internal Service Fund types. These proprietary funds are used to report activities that provide goods or services to other funds of the County. These funds account for fleet services, publishing services, and risk management services (including claims for workers' compensation, property damage, Information & Technology, Insurance and various health programs) provided to other County departments or agencies, or other governmental entities. The Internal Service Funds receive revenues on a cost-reimbursement basis.

Fiduciary Fund Types The County has a total of 351 individual trust and agency funds for FY 2015-16. These trust and agency funds are used to account for assets held on behalf of outside parties or employees, including other governments. When these assets are held under the terms of a formal trust agreement, a private-purpose trust, pension trust or Other Post-Employment Benefits (OPEB) trust fund is used. An investment trust fund is used for the portion of the County investment pool representing external pool participants. Agency funds are used to account for assets that the County holds on behalf of others as their agent.

The County reports the following trust and agency funds:

Private-Purpose Trust These funds are used to account for trust arrangements where the principal and income benefit individuals, private organizations, or other governments. Examples of private-purpose trusts include unidentified funds, unclaimed prisoner funds, and decedents' property held for escheatment. Also included are the County accounts for the former redevelopment agency as a fiduciary component unit for the Successor Agency.

Investment Trust

Orange County Investment Pool

These funds are used to account for assets, consisting primarily of cash and investments, of separate legal entities, other than school and community college districts, which participate in the County Treasurer's External Investment Pool.

Orange County Educational Investment Pool

These funds are used to account for assets, consisting primarily of cash and investments, of school and community college districts that participate in the County Treasurer's External Educational Investment Pool.

Pension and Other Employee Benefits Trust The County reports six Pension and Other Postemployment Benefit Trust funds. These trust funds are used to account for resources that are required to be held in trust for the members and beneficiaries of defined benefit and defined contribution pension and postemployment benefit plans.

Agency Funds These funds are custodial in nature and do not report operating results. These funds are used to account for assets held by the County as an agent for various local governments and individuals, such as unapportioned taxes for other local government agencies, monies collected for the Redevelopment Property Tax Trust funds, civil filing fees, and special assessment districts debt service funds. Accordingly, assets reported in the statements are offset by a liability for resources held on behalf of others.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting

Government-Wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets, deferred outflows of resources and all liabilities, deferred inflows of resources, associated with the operation of these funds are included on the Statement of Net Position. Receivables are reported net of allowances for uncollectible receivables in the Statement of Net Position. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

For purposes of not overstating the true costs and program revenues reported for the various functions, interfund activities (e.g. interfund transfers and interfund reimbursements) have been eliminated from the government-wide Statement of Activities. Exceptions to the general rule are interfund services provided and used between functions, such as charges for auditing and accounting fees between the general government function and various other functions of the primary government. Elimination of these interfund activities would distort the direct costs and program revenues reported for the various functions concerned. When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, and then unrestricted resources as they are needed. Additionally, only the interfund transfers between governmental and business-type activities are reported in the Statement of Activities.

Governmental Fund Financial Statements

Governmental funds are used to report all governmental activities that are not primarily self-funded by fees or charges to external users or other funds and are not fiduciary activities. These activities include the County's basic services to its citizenry and to other agencies, including general government, public protection, public ways and facilities, health and sanitation, public assistance, education, and recreation and cultural services. There are five types of governmental funds:

- *General Fund*
- *Special Revenue Funds*
- *Capital Projects Funds*
- *Debt Service Funds*
- *Permanent Fund*

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method of accounting, revenues and other governmental fund type financial resources (i.e., bond issuance proceeds) are recognized in the accounting period in which they become susceptible to accrual - that is, when they become both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days after the end of the current fiscal period.

Revenues that are accrued include real and personal property taxes, sales taxes, property taxes in-lieu of motor vehicle license fees, fines, forfeitures and penalties, interest, federal and state grants and subventions, charges for current services, and the portion of long-term sales contracts and leases receivable that are measurable and available and where collectability is assured. Revenues that are not considered susceptible to accrual include penalties on delinquent property taxes and minor licenses and permits. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met, provided that the revenues are also available. If intergovernmental revenues are expected to be received later than 60 days following the end of the fiscal year, then a receivable is record along with deferred inflows of resources. Once the grant reimbursement is received, revenue and cash are recorded, and the receivable and deferred inflows of resources are eliminated. Receipts that have

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus and Basis of Accounting (Continued)

Governmental Fund Financial Statements (Continued)

not met all of the earning requirements are reported as unearned revenue received. As of June 30, 2016, the County reported \$160,253 of deferred inflows of resources and \$54,466 of unearned revenue received in the governmental funds' Balance Sheet.

Most expenditures are recorded when the related fund liabilities are incurred. However, inventory type items are considered expenditures at the time of use and principal and interest expenditures on bonded debt and capital leases are recorded in the year they become due for payment. Costs of claims, judgments, compensated employee absences and employer pension contributions are recorded as expenditures at fiscal year-end if they are due and payable. The related long-term obligation is recorded in the government-wide financial statements. Commitments such as purchase orders and contracts for materials and services are recorded as encumbrances.

Because the fund financial statements are presented on a different measurement focus and basis of accounting than the government-wide financial statements, a reconciliation is presented to explain the adjustments necessary to reconcile fund financial statements to the government-wide financial statements.

Proprietary Fund Financial Statements

Proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Proprietary funds are used to account for business-type activities, which are financed mainly by fees and charges to users of the services provided by the funds' operations. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

There are two types of proprietary funds:

- *Enterprise Funds*
- *Internal Service Funds*

The County has three enterprise funds: Airport, Waste Management, and CNG. The principal operating revenues of the Airport, Waste Management, and CNG enterprise funds are charges to customers for (1) landing fees, terminal space rental, auto parking, concessions, and aircraft tie-down fees, (2) disposal fees charged to users of the waste disposal sites, and (3) natural gas sales, respectively.

Internal Services Funds are used to report activities that provide goods or services to other funds of the County. The internal service funds receive revenues through cost-reimbursements of the goods and services provided to other County departments and agencies. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

Fiduciary Fund Financial Statements

Fiduciary funds are used to account for assets held in a trustee or agency capacity and cannot be used to support the County's own programs. Trust funds are accounted for using the economic resources measurement focus and accrual basis of accounting. Agency funds report only assets and liabilities and therefore, do not have a measurement focus; however, agency funds use the accrual basis of accounting to recognize receivables and payables.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Budget Adoption and Revision

No later than October 2nd of each year, after conducting public hearings concerning the recommended budget, the Board adopts a budget in accordance with Government Code Sections 29000-29144 and 30200. The County publishes the results of this initial budgeting process in a separate report, the "Adopted Budget," which specifies all accounts established within each fund/department/budget control (a collection of account numbers necessary to fund a certain division or set of goal-related activities).

Throughout the year, the original budget is adjusted to reflect increases or decreases in revenues and changes in fund balance, offset by an equal amount of adjustments to appropriations. Department heads are authorized to approve appropriation transfers within a fund/department/budget control. However, appropriation transfers between funds/departments/budget controls require approval of the Board. Accordingly, the lowest level of budgetary control exercised by the County's governing body is the fund/department/budget control level.

Annual budgets are adopted on a basis consistent with GAAP except for the general fund and major special revenue funds as detailed in the Budgetary Comparison Statement reconciliation between the budgetary basis and GAAP basis. Budgeted governmental funds consist of the general fund, major funds, and other nonmajor governmental funds. Budgetary comparison statements are prepared only for the general fund and major special revenue funds (listed below) for which the County legally adopts annual budgets, and are presented as part of the basic financial statements. The County did not legally adopt annual budgets for the OC Public Facilities Corporation Bonds, Master Lease Fund, the South OC Public Financing Authority Fund, and the Orange County Public Financing Authority Fund. The budgetary comparison statements provide three separate types of information: (1) the original budget, which is the first complete appropriated budget; (2) the final amended budget, which includes all legally authorized changes regardless of when they occurred; and (3) the actual revenues and expenditures during the year for budget-to-actual comparisons.

The major special revenue fund Budgetary Comparison Statements reported by the County in the Basic Financial Statements are:

- *Flood Control District*
- *Other Public Protection*
- *Mental Health Services Act*

The intent of preparing the Budgetary Comparison Statement reconciliation is to provide the reader with a more complete understanding and appreciation for the difference between budgetary revenues and other financing sources and expenditures and other financing uses presented in the Budgetary Comparison Statements and the revenues, expenditures, and other financing sources (uses) reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances, which is prepared in accordance with GAAP. The major areas of difference are as follows:

- Under the budgetary basis, investment income is recognized on an amortized cost basis. In accordance with GASB Statement No. 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools" (GASB Statement No. 31), all investment income, including changes in fair value (gains/losses) of investments, are recognized as investment income.
- Under the budgetary basis, redirected investment income is recognized as investment income in the recipient fund. In accordance with GASB Statement No. 31, investment income assigned to another fund due to management decision is recognized in the fund that reports the investment and reported as a transfer to the recipient fund in the GAAP financial statements.
- Under the budgetary basis, revenues are recorded when earned. For GAAP basis, in accordance with GASB Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions" (GASB Statement No. 33), and GASB Statement No. 65, it states that all nonexchange transactions,

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Budget Adoption and Revision (Continued)

such as government-mandated nonexchange transactions and voluntary nonexchange transactions, can be accrued only if they are measurable and “available.” “Available” has been defined by GASB Statement No. 33 as “collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period.” The County has established the availability period as 60 days after the end of the fiscal year. In order to ensure all transactions for the current fiscal year meet this criterion, the County analyzes revenue receipts through August 30 and records adjustments to deferred inflows of resources for transactions that are not collected.

- GASB Statement No. 34 states, “Fiduciary funds should be used to report assets held in a trustee or agency capacity for others and therefore, cannot be used to support the government’s own programs.” For the GAAP financial statements, an adjustment to record public purpose trust monies as revenue in the benefitting funds is recorded for funds, which continue to be accounted for as fiduciary funds on a budgetary basis but no longer meet the definition of a fiduciary fund.
- Under the budgetary basis, intrafund transfers are recognized as other financing sources (uses). For the GAAP financial statements, intrafund transfers are eliminated to minimize the “grossing-up” of interfund transfers.
- The County reclassified to the General Fund all the activities of certain special revenue funds, which no longer meet the definition of a special revenue fund in accordance with GASB Statement No. 54, *“Fund Balance Reporting and Governmental Fund Type Definitions”* (GASB Statement No. 54).
- For budgetary purposes, the loan from Waste Management to the General Fund was recognized as other financing sources (uses). In accordance with GASB Statement No. 34, an adjustment to record the interfund loan as an interfund receivable in the lender fund and interfund payable in the borrower fund was recorded for the GAAP financial statements.
- Under the budgetary basis, interfund reimbursements or repayments from funds responsible for particular expenditures or expenses to the funds that initially paid for them are recorded as revenues in the payer fund. In accordance with GASB Statement No. 34, an adjustment to eliminate interfund reimbursements is recorded for the GAAP financial statements.
- In accordance with GAAP, the County has established guidelines for recording accruals. In order to reasonably ensure that accruals for current fiscal year transactions are materially accurate, the County performs an analysis to identify expenditure accruals for the GAAP financial statements.
- Per GAAP, a rental rebate should be recorded as a reduction to rental expense.
- Per GAAP, at the inception of a capital lease, both expenditure and other financing source should be recorded with the amounts equal to the present value of the minimum lease payment.
- The General Fund revenue adjustment was recorded due to the overbilling to OCWR for the Republic Services and LA Sanitation District importation proceeds.
- The OC Animal Care uses cash basis to record money receives from invoicing due to the low collection rate. Per GAAP, the receivables and the amount of the allowance for the doubtful accounts should be recorded.

E. Fund Balance

The County applies GASB Statement No. 54 for financial statement purposes. The intent of this statement is to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions.

The balance sheet reports the following five different classifications of fund balance:

Nonspendable Fund Balance Amounts that are not in a spendable form, such as long-term receivables, inventory or prepaid costs, or that are required to be maintained intact, such as the corpus of an endowment fund. The County's Regional Park Endowment Permanent Fund reports the original donation as nonspendable in accordance with donor requirements.

Restricted Fund Balance Amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed Fund Balance Amounts constrained to specific purposes by a formal action of the highest level of decision making authority. The constraint remains binding unless the government takes the same highest-level action to remove or change the constraint. The Board is the County's highest level of decision-making authority. The highest level of formal action to commit resources is an ordinance.

Assigned Fund Balance Amounts a government intends to use for a specific purpose that are neither restricted nor committed; intent can be expressed by the governing body (Board) or by an official or body to which the governing body delegates authority (County Executive Officer (CEO), County Department Heads, and County Purchasing Agent). The County's budget development guidelines provide the policy that is used by all County departments to determine the designation of assigned fund balance. Assigned fund balance includes the aggregation of resources for capital projects, which are expected to develop in future periods and fund balance reserved for outstanding contractual obligations for which goods and services have not yet been received or approved by the Board for appropriation in FY 2015-16, through the County's budget process.

Unassigned Fund Balance Residual amounts within the General Fund in excess of what can be properly classified in one of the four other fund balance classifications. Within all other governmental funds, unassigned fund balance is comprised of the negative residual in excess of what can be properly classified as nonspendable, restricted, or committed.

In the hierarchy for spending, when expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, the County's policy is to spend restricted fund balance before unrestricted fund balance. When committed, assigned, and unassigned fund balance is available for the same specific purpose, the County's policy is to expend fund balance according to the following priority: committed, assigned, and then unassigned.

Following are detailed descriptions within each fund balance classification reported in the balance sheet:

Annually, the Board adopts a five-year Strategic Financial Plan (SFP). The County of Orange 2016 SFP includes a policy for Fund Balance Unassigned (FBU) that eliminates FBU as a funding source for the next year's budget as a significant step toward reducing structural reliance on one-time funds. Positive variances in estimated FBU are to be added to Strategic Reserves, consistent with the Board policy.

The County prepays its pension contribution and reports the prepaid amount as Nonspendable Fund Balance rather than Unassigned Fund Balance as required by GASB Statement No. 54. For FY 2015-16, the proceeds of \$334,275 was for short-term Taxable Pension Obligation Bonds to prepay its FY 2016-17 pension contribution at a discount. Of this amount \$326,820 is the prepaid costs for General Fund and is Nonspendable. Refer to Note 9, Short-Term Obligations and Note 17, Retirement Plans for additional information.

F. Deposits and Investments

The County maintains two cash and investment pools: the Orange County Investment Pool (OCIP) and the Orange County Educational Investment Pool (OCEIP), the latter of which is utilized exclusively by the County's public school and community college districts. These pools are maintained for the County and other Non-County entities for the purpose of benefitting from economies of scale through pooled investment activities. In addition, the County maintains certain other non-pooled specific investments.

The County has stated required investments at fair value in the accompanying financial statements, using the fair value measurement within the fair value hierarchy established by GAAP.

Other than proceeds held by the County in the OCIP, proceeds from County-issued bonds are held by trustees and are invested in instruments authorized by the respective trust agreements including medium-term notes, money market mutual funds, investment agreements, repurchase agreements, and U.S. Government securities. Short-term debt investments are reported at amortized cost, while long-term investments, such as U.S. Government securities, are stated at fair value. The trustee uses an independent service to value those securities.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Deposits and Investments (Continued)

The Pools value participants' shares using an amortized cost basis. Specifically, the Pools distribute income to participants based on their relative participation during the period. Income is calculated based on (1) realized investment gains and losses calculated on an amortized cost basis, (2) interest income based on stated rates (both paid and accrued), (3) amortization of discounts and premiums on a straight-line basis, and reduced by (4) investment and administrative expenses. This method differs from the fair value method used to value investments in this statement because the amortized cost method is not designed to distribute to participants all unrealized gains and losses in the fair values of the Pools' investments. The total difference between the fair values of the investments in the Pools and the values distributed to pool participants using the amortized cost method described above is reported in the equity section of the condensed Statement of Net Position of the County Pool as undistributed and unrealized gains. Refer to Note 3, Deposits and Investments for additional information.

The investments in the Retiree Medical Defined Benefit Trust are managed by OCERS and are reported at fair value. Refer to Note 17, Retirement Plans, to obtain OCERS stand-alone annual financial statements.

G. Inventory of Materials and Supplies

Inventories consist of expendable materials and supplies held for consumption. Inventories are valued at cost, which is determined on a moving weighted average basis. Applicable fund balances are nonspendable for amounts equal to the inventories on hand at the end of the fiscal year, as these amounts are not available for appropriation and expenditure. The costs of inventory items are recorded as expenditures/expenses when issued to user departments/agencies.

H. Prepaid Costs

The County pays for certain types of services in advance, such as pension costs and rents, and recognizes these costs in the period during which services are provided. Prepaid costs in the governmental funds Balance Sheet include \$346,823, which primarily consist of \$346,444 for the County's FY 2016-17 pension contribution at a discount.

Prepaid costs in the government-wide financial statements include the prepaid costs reported in the fund financial statements, reduced for 50% of the prepaid asset related to the pension contribution after the measurement date in accordance with GASB Statement No. 68 and GASB Statement No. 71. Refer to Note 17, Retirement Plans for additional information.

I. Land and Improvements Held for Resale

These assets, held by the Successor Agency, are valued at the lower of cost or estimated net realizable value.

J. Capital Assets

Capital assets are defined as assets of a long-term character that are intended to be held or used in operations, such as land, structures and improvements, equipment, intangible, and infrastructure. Infrastructure assets are grouped by networks consisting of flood channels, roads, bridges, trails, traffic signals, and harbors.

Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation. Capital assets with an original unit cost equal to or greater than the County's capitalization threshold shown in the table below are reported in the applicable governmental or business-type activities columns in the government-wide financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J. Capital Assets (Continued)

| Asset Type | Capitalization Threshold |
|-----------------------------|---------------------------------|
| Land | \$ 0 |
| Land Improvements | \$150 |
| Structures and Improvements | \$150 |
| Equipment | \$ 5 |
| Intangible: | |
| Software | \$5 |
| All Other | \$150 |
| Infrastructure | \$150 |

Depreciation and amortization are calculated on a straight-line basis over the estimated useful lives of the related assets. No depreciation or amortization is provided on construction in progress or intangible assets in progress, respectively, until the project is completed and the asset is placed into service. Estimated useful lives of structures and improvements, equipment, intangible, and infrastructure are as follows:

| | |
|---|-----------------|
| Structures and Improvements | 10 to 60 years |
| Land Improvements | 10 to 20 years |
| Equipment | 2 to 20 years |
| Intangibles: | |
| Computer Software | 3 to 15 years |
| Infrastructure: | |
| Flood Channels | 20 to 100 years |
| Roads | 10 to 20 years |
| Bridges | 50 to 75 years |
| Trails | 20 years |
| Traffic Signals | 15 to 20 years |
| Harbors | 20 to 50 years |
| Airport – Runways, Taxis, and Aprons | 15 to 60 years |
| Waste Management – Cell Development, Drainage Channels, Facility Improvements, Habitat, Landfill Gas/Environmental, Closure/Other Earthwork | 3 to 71 years |

Maintenance and repair costs are expensed in the period incurred. Expenditures that materially increase the capacity or efficiency or extend the useful life of an asset are capitalized and depreciated. Upon the sale or retirement of the capital asset, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the Statement of Activities and Proprietary Funds' Statement of Revenues, Expenses and Changes in Fund Net Position.

For business-type activities, interest is capitalized on construction in progress. Capitalized interest is the total interest expense of the borrowing net of related interest earnings on the reinvested unexpended tax-exempt debt proceeds and amortization of premium or discount. For governmental activities, interest is not capitalized as a cost of the capital asset in accordance with GAAP.

K. Deferred Outflows/Inflows of Resources

In addition to assets, the government-wide Statement of Net Position reports a separate section for deferred outflows of resources, which represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County only has two items that qualify for reporting in this category. They are the deferred charge on refunding and deferred outflows of resources related to pension. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Deferred Outflows/Inflows of Resources (Continued)

shorter of the life of the refunded or refunding debt. The deferral of resources related to pension results from the net difference between projected and actual investment earnings on pension plan investments, changes of assumptions and changes in proportion and differences between employer contributions and the proportionate share of contributions calculated by actuarial study. The deferred outflows of resources related to pensions also include employer contributions made after the measurement date and a portion of the County's prepaid retirement contribution.

In addition to liabilities, the Statement of Net Position sometimes reports a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, which represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has two items that qualify for reporting in this category. They are the deferred inflows of resources related to unavailable revenues and deferred inflows of resources related to pension. The County has deferred inflows of resources related to unavailable revenues reported under the modified accrual basis of accounting in the governmental funds Balance Sheet. The governmental funds report unavailable revenues from property taxes, intergovernmental revenues, SB90, and other sources as appropriate. These amounts are deferred and recognized as an inflow of resources in the period that amounts become available. The SB90 deferred inflows of resources amount of \$28,404 is net of an allowance for the estimated uncollectible of \$13,045.

The table below details out all deferred outflows/inflows of resources related to pension. Please refer to Note 17, Retirement Plans, for further information.

| Total Deferred Inflows of Resources Related to Pension | \$ 444,828 | \$ 4,287 | \$ 5,377 | \$ 454,492 |

L. Self-Insurance

The County is self-insured for general and automobile liability claims, workers' compensation claims, and for claims arising under the County self-insured PPO Health Plans, short-term disability plans, dental plan, Reserve Deputy Sheriff accidental death and dismemberment plan, and unemployment benefits program. Liabilities are accrued based upon case reserves, development of known claims, incurred but not reported claims and allocated and unallocated loss adjustment expenses. For additional information, refer to Note 15, Self-Insurance.

M. Property Taxes

The provisions of the California Constitution and Revenue and Taxation Code govern assessment, collection, and apportionment of real and personal property taxes. Real and personal property taxes are computed by applying approved property tax rates to the assessed value of properties as determined by the County Assessor, in the case of locally assessed property and as determined by the State Board of

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. Property Taxes (Continued)

Equalization in the case of state-assessed properties. Property taxes are levied annually, with the exception of the supplemental property taxes, which are levied when supplemental assessment events, such as sales of property or new construction, take place.

The County collects property taxes on behalf of all property tax-receiving agencies in Orange County. Property tax-receiving agencies include the school districts, cities, independently governed special districts not governed by the Board, special districts governed by the Board, redevelopment successor agencies, and the County General Fund.

Property taxes receivables are recorded as of the date levied in property tax unapportioned funds, which are classified as agency funds. When collected, the property taxes are deposited into the County Treasury in the property tax unapportioned funds, where they are held in the unapportioned taxes liability accounts pending periodic apportionment to the tax-receiving agencies. The property tax unapportioned funds are included in the agency funds category of the County's fund financial statements because the unapportioned taxes are collected and held on behalf of other governmental agencies.

Property tax collections are apportioned (disbursed) to the tax-receiving agencies periodically from the tax unapportioned funds based on various factors including statutory requirements, materiality of collections received, tax delinquency dates, the type of property tax roll unapportioned fund (secured, unsecured, supplemental, delinquent secured, delinquent unsecured, delinquent supplemental, homeowners' property tax subvention, or state-assessed properties), and cash flow needs of the tax-receiving agencies.

Property tax revenues are recognized in the fiscal year for which they are levied, provided they are due within the fiscal year and collected within 60 days after the fiscal year-end. Property tax revenues are also recognized for unsecured and supplemental property taxes that are due at year-end, and are collected within 60 days after the fiscal year-end, but will not be apportioned until the next fiscal year due to the timing of the tax apportionment schedule. The County's portion of the unapportioned taxes at June 30, 2016 is allocated to and recorded in the corresponding funds for reporting purposes.

Unsecured and supplemental property tax levies that are due within the fiscal year but are unpaid at fiscal year-end, are recorded as deferred inflows of resources in the fund-level financial statements, and recognized as revenue in the government-wide financial statements. The County uses the direct write-off method to recognize uncollectible taxes receivable.

The County maintains records of disputed property taxes, such as those properties for which the values have been appealed to the local Assessment Appeals Boards. Upon final disposition of the appeals and disputes, the amounts are either refunded to taxpayers or the tax bills are corrected. As of June 30, 2016, tax refunds and assessed value tax roll corrections resulting from property tax appeals and other disputes represented approximately 0.85% of the combined beginning secured and unsecured property tax roll charge.

N. Compensated Employee Absences

Compensated employee absences (vacation, compensatory time off, performance incentive plan time off, annual leave, and sick leave) are accrued as an expense and liability in the proprietary funds when incurred. In the governmental funds, only those amounts that are due and payable at year-end are accrued. Compensated employee absences that exceed this amount represent a reconciling item between the fund and government-wide presentations.

O. Pensions

The County recognizes a net pension liability to reflect the County's proportionate share of the excess of the total pension liability over the fiduciary net position of the County's retirement plans. The actuarial valuation for the retirement plans through OCERS is based on the December 31, 2015 measurement date for the County reporting as of June 30, 2016. The actuarial valuation for the Extra-Help Defined Benefit Plan is based on the June 30, 2016 measurement date for the County reporting as of June 30, 2016.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of the OCERS and the Extra-Help Defined Benefit Plan and additions to/deductions to OCERS and the Extra-Help Defined Benefit Plan fiduciary net position have been determined on the same basis as they are reported by OCERS and the Extra-Help Defined Benefit Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

At June 30, 2016, the County's net pension liability from OCERS was measured as of December 31, 2015, and the total pension liability (TPL) used to calculate the net pension liability was determined by rolling forward the December 31, 2014 valuation to December 31, 2015. The County's net pension liability from Extra-Help Defined Benefit Plan was measured as of June 30, 2016; the plan's TPL was calculated using the data and assets as of June 30, 2015, rolled forward to June 30, 2016 using actual benefit payments for the FY 2015-16.

P. Statement of Cash Flows

A Statement of Cash Flows is presented for proprietary fund types. Cash and cash equivalents include all unrestricted and restricted highly liquid investments with original purchase maturities of three months or less. Pooled cash and investments in the County's Treasury represent monies in a cash management pool and such accounts are similar in nature to demand deposits.

Q. Indirect Costs

County indirect costs are allocated to benefitting departments in the "Indirect Expenses Allocation" column of the government-wide Statement of Activities. Allocated costs are from the County's FY 2015-16 County-Wide Cost Allocation Plan (CWCAP), which was prepared in accordance with the Code of Federal

Regulation, Title 2, Part 200. The County has elected to allocate indirect costs to departments within the General Fund that are not charged through CWCAP in order to match the reimbursement of indirect costs recorded as program revenues to the same function that the related expense is recorded in.

R. Effects of New Pronouncements

The following lists recent GASB pronouncements implemented or are effective in FY 2015-16:

In February 2015, GASB issued Statement No. 72, "*Fair Value Measurement and Application*." This statement addresses accounting and financial reporting standards related to fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. For some assets and liabilities, observable market information might not be available. The objective of fair value measurement is to determine the price that would take place between market participants at the measurement date under current market conditions. Valuation techniques used to determine fair value are one or more of three approaches to measure fair value: the market approach, cost approach, and income approach. The provisions of this statement are effective for financial statements for periods beginning after June 15, 2015, which requires the County to implement this statement in FY 2015-16. The statement was implemented without a fiscal impact to the County's financial statements. However, more disclosures are presented in the note as a result of this GASB statement. Refer to Note 3, Deposits and Investments, for additional information.

In June 2015, GASB issued Statement No. 73, "*Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68 and Amendments to Certain Provisions of GASB Statements 67 and 68*." This statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits with regard to providing useful information, supporting assessments of accountability and interperiod equity and creating additional transparency. This statement establishes requirements for defined benefit pensions that are not within the scope of GASB Statement No. 68 "*Accounting and Financial Reporting for Pensions-An Amendment of GASB Statement No. 27*," as well as for the assets accumulated for purposes of providing those pensions. It also amends certain provisions of GASB Statement No. 67, "*Financial Reporting for Pension Plans*," GASB Statement No. 68 for pension plans, and pensions that are within their respective scopes. The provisions of this statement will be analyzed on an annual basis. The statement was implemented without an impact to the County.

In June 2015, GASB issued Statement No. 76, "*The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*." The "GAAP hierarchy" identifies the sources of guidance that state and local governments follow when preparing financial statements in conformity with GAAP and lists the order of priority for pronouncements to which a government should look for guidance. The objective of this statement is to simplify the structure of the hierarchy of GAAP to two categories of authoritative GAAP from the four categories under GASB Statement No. 55, "*The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*." These changes are intended to improve financial reporting for governments by establishing a framework for the evaluation of accounting guidance with less variation. The provisions of this statement are effective for financial reporting for periods beginning after June 15, 2015, and should be applied retroactively, which requires the County to implement this statement in FY 2015-16. The statement was implemented without an impact to the County.

In December 2015, GASB issued Statement No. 79, "*Certain External Investment Pools and Pool Participants*." This statement addresses accounting and financial reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. This statement establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized cost for financial reporting purposes and for governments

that participate in those pools. Those disclosures for both the qualifying external investment pools and their participants include information about any limitations or restrictions on participant withdrawals. The requirements of this statement are effective for reporting periods beginning after June 15, 2015, except for certain provisions on portfolio quality, custodial credit risk, and shadow pricing, which are effective for reporting periods beginning after December 15, 2015. This requires the County to implement this statement in FY 2015-16. The statement was implemented without an impact to the County.

The following summarizes recent GASB Pronouncements and their future effective dates. The County is in the process of evaluating the impact of these statements on its financial statements:

In June 2015, GASB issued Statement No. 74, "*Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*" (GASB Statement No. 74). This statement replaces Statements No. 43, "*Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*," as amended, and No. 57, "*OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*." It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, "*Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*," as amended, Statement No. 43, and Statement No. 50, "*Pension Disclosures*." The provisions of this statement are effective for financial statements for periods beginning after June 15, 2016, which requires the County to implement this statement in FY 2016-17. The requirements of this statement will improve financial reporting primarily through enhanced note disclosures and schedules of required supplementary information that will be presented by OPEB plans that are administered through trusts that meet the specified criteria.

In June 2015, GASB issued Statement No. 75, "*Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*." This statement replaces the requirements of Statements No. 45, "*Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*," as amended, and No. 57, "*OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB*." Statement No. 74 establishes new accounting and financial reporting requirements for OPEB plans. This statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. The provisions of this statement are effective for financial statement for periods beginning after June 15, 2017, which requires the County to implement this statement in FY 2017-18.

In August 2015, GASB issued Statement No. 77, "*Tax Abatement Disclosures*." This statement defines a tax abatement as resulting from an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. This statement requires disclosure of tax abatement information about (1) a reporting government's own tax abatement agreements and (2) those that are entered into by other governments and that reduce the reporting government's tax revenues. The requirements of this statement are effective for financial statements for periods beginning after December 15, 2015, which requires the County to implement this statement in FY 2016-17.

In December 2015, GASB issued Statement No. 78, "*Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*." This statement amends the scope and applicability of GASB Statement No. 68 to exclude pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local governmental pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental

employers and to employees of employers that are not state or local governmental employers, and (3) has no predominant state or local governmental employer (either individually or collectively with other state or local governmental employers that provide pensions through the pension plan). This statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosures; and required supplementary information for pensions that have the characteristics described above. The requirements of this statement are effective for reporting periods beginning after December 15, 2015, which requires the County to implement this statement in FY 2016-17.

In January 2016, GASB issued Statement No. 80, "*Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14.*" This statement amends the blending requirements for the financial statement presentation of component units of all state and local governments. The requirements of this statement are effective for reporting periods beginning after June 15, 2016, which requires the County to implement this statement in FY 2016-17.

In March 2016, GASB issued Statement No. 81, "*Irrevocable Split-Interest Agreements.*" This statement requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. Furthermore, this statement requires that a government recognize assets representing its beneficial interests in irrevocable split-interest agreements that are administered by a third party, if the government controls the present service capacity of the beneficial interests. This statement requires that a government recognize revenue when the resources become applicable to the reporting period. The requirements of this statement are effective for financial statements beginning after December 15, 2016, which requires the County to implement this statement in FY 2017-18.

In March 2016, GASB issued Statement No. 82, "*Pension Issues - an Amendment of GASB Statements No. 67, No. 68, and No. 73.*" This statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. The requirements of this statement are effective for reporting periods beginning after June 15, 2016, which requires the County to implement this statement in FY 2016-17.

S. Use of Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates. Where significant estimates have been made in preparing these financial statements, they are described in the applicable footnotes.

T. Consolidation of Governmental Funds' Balance Sheet and Proprietary Funds' Statement of Net Position Line Items in Statement of Net Position

Several asset line items in the Governmental Funds' Balance Sheet and the Proprietary Funds' Statement of Net Position are combined into one line item in the Government-Wide Statement of Net Position for presentation purposes. In order to avoid any confusion, the following table lists the line items shown in the Governmental and Proprietary Fund financial statements that are condensed together in the Government-Wide Statement of Net Position

2. DEFICIT FUND EQUITY

The Workers' Compensation Internal Service Fund (ISF) reported a deficit net position balance of \$93,451. The deficit results from the amount calculated in the annual actuarial study which includes case reserves, development of known claims, incurred but not reported claims, allocated and unallocated loss adjustment expenses, and a discount for anticipated investment income. The deficit increased by \$2,222 from the previous fiscal year due to an increase in insurance expense and case reserves. Charges to County departments have not provided sufficient cash flows to entirely fund the deficit in the Workers' Compensation ISF. The County will continue to review charges to departments and manage the funding status of the Workers' Compensation Program.

Effective with OCDA's dissolution on February 1, 2012, the assets and liabilities (including bond debt) were transferred to and reported in a private-purpose trust fund of the County. This transfer and reporting structure reflect the custodial role accepted by the Successor Agency. The Successor Agency private-purpose trust fund reported a deficit net position of \$17,238. The deficit for the Successor Agency increased by \$4,419 from the previous fiscal year as a result of a decrease in intergovernmental revenues in the current fiscal year.

3. DEPOSITS AND INVESTMENTS

The Treasurer is responsible for authorizing all County bank accounts and pursuant to California Government Code (CGC) Sections 27000.1 – 27000.5, 27130 – 27137 and 53600 – 53686, and is responsible for conducting County investment activities of the County's investment pooled funds in addition to various individual investment accounts outside of the pooled funds. These public funds are called the Orange County Investment Fund (OCIF). Within the OCIF, the Treasurer maintains an Orange County Investment Pool (OCIP) and an Orange County Educational Investment Pool (OCEIP), which are "external investment pools" wherein monies of the County and other legally separate external entities, which are not part of the County reporting entity, are commingled (pooled) and invested on the participants' behalf. In addition, the Treasurer maintains the John Wayne Airport Investment Pool (JWA Pool) and other separately managed investments. The County's Investment Pools are not registered with the Securities and Exchange Commission (SEC) as an investment company.

The Treasurer further invests pooled funds from the OCIP and OCEIP into three funds, the Orange County Money Market Fund (OCMMF), the Orange County Educational Money Market Fund (OCEMMF), and the Extended Fund. On June 16, 2016, Standard & Poor's (S&P) reaffirmed an AAA Principal Stability Fund Rating (AAAm) for the OCMMF and the OCEMMF. The two money market funds are required to maintain a Net Asset

3. DEPOSITS AND INVESTMENTS (Continued)

Value (NAV) of between \$0.995 (in absolute dollar amounts) and \$1.005 (in absolute dollar amounts) to maintain an AAAM rating. Neither the Money Market Funds nor the Extended Fund have any legally binding guarantees of share values.

The maximum maturity of investments for the two Money Market Funds is 13 months with a maximum weighted average maturity (WAM) of 60 days. The maximum maturity of the Extended Fund is five years per CGC. The Investment Policy Statement (IPS) provides that the Extended Fund shall have a duration not to exceed a leading 1-3 Year index +25%.

Pursuant to CGC Sections 27130-27137, the Board has established a Treasury Oversight Committee (TOC) that monitors and reviews the IPS annually and also ensures that the Treasurer has an audit annually, which includes limited tests of compliance with laws and regulations. The TOC consists of the County Executive Officer, the elected County Auditor-Controller, the County Superintendent of Schools, or their respective designees, and four public members.

The investment practices and policies of the Treasurer are based on compliance with state law and prudent money management. The primary goal is to invest public funds in a manner which will provide maximum security of principal invested, with secondary emphasis on providing adequate liquidity to Pool Participants. The last goal is to achieve a market rate of return within the parameters of prudent risk management while conforming to all applicable statutes and resolutions governing the investment of public funds.

Interest is allocated to individual funds monthly based on the average daily balances on deposit with the Treasurer. Interest assigned to another fund due to management decision is recognized in the fund that reports the investments and is reported as a transfer to the recipient fund.

Deposits and investments with the Treasurer, before timing differences, totaled \$8,270,826 as of June 30, 2016, consisting of \$3,692,694 for the OCIP, \$4,269,894 for the OCEIP, and \$308,238 for Specific Investments.

A. Deposits

CGC 53652 et. seq. and the IPS prescribe the amount of collateral that is required to secure the deposit of public funds. The pledge to secure deposits is administered by the California Commissioner of Business Oversight. Collateral is required for demand deposits at 110% of all deposits not covered by Federal

3. **DEPOSITS AND INVESTMENTS (Continued)**

A. **Deposits (Continued)**

Depository Insurance Corporation (FDIC) if obligations of the United States and its agencies, or obligations of the State or its municipalities, school districts, and district corporations are pledged. Collateral of 150% is required if a deposit is secured by first mortgages or first trust deeds upon improved residential real property located in California. All such collateral is considered to be held by the pledging financial institutions' trust departments or agents in the name of the County. Obligations pledged to secure deposits must be delivered to an institution other than the institution in which the deposit is made; however, the trust department of the same institution may hold them.

Written custodial agreements are required to provide, among other things, that the collateral securities are held separately from the assets of the custodial institution. FDIC is available for interest-bearing funds deposited at any one financial institution up to a maximum of \$250.

Custodial Credit Risk – Deposits

The custodial credit risk for deposits is the risk that the County will not be able to recover deposits that are in the possession of an outside party. Deposits are exposed to custodial credit risk if they are not insured or collateralized. The County's deposits are not exposed to custodial credit risk, since all of its deposits are covered by FDIC or collateralized with securities held by the County or its agent in the County's name in accordance with CGC Section 53562.

B. **Investments**

The CGC Sections 53601 & 53635, Board ordinances and resolutions, the County's IPS, the bond indenture documents, trust agreements, and other contractual agreements govern the investments that may be purchased and may include certain restrictions on investment maturity, maximum portfolio percentages, term, value, credit quality and timing to minimize the risk of loss. The IPS adds further restrictions to permitted investments from the CGC. As of June 30, 2016, the Treasurer was in full compliance with the more restrictive IPS for the OCIP, OCEIP, and JWA Pool.

The following table provides a summary listing of the authorized investments as of June 30, 2016.

| Type of Investment | CGC % of Funds Permitted | Orange County IPS (%) | CGC Maximum Final Maturity | Orange County IPS Maximum Final Maturity (All Pooled Funds Except Short-Term Funds) | Orange County IPS Maximum Final Maturity (Short-Term Fund) |

The current IPS expressly prohibits leverage, reverse repurchase agreements as defined by CGC, structured notes, structured investment vehicles, and derivatives. All investments must be United States dollar denominated. No investment may be purchased from an issuer and all related entities, including parent and subsidiaries, that has been placed on credit watch-negative by any of the Nationally Recognized Statistical Rating Organizations (NRSROs), or whose credit rating by any of the NRSROs is less than the minimum rating required by the IPS for that class of security unless the issuer has a short-term rating of A-1+ or F1+ or a long-term rating of at least a AA or Aa2 by S&P, Fitch or Moody's; and the Treasurer has approved the purchase in writing prior to purchase.

Investments by the Treasurer are stated at fair value. Investments in the OCIF are marked to market on a daily basis. If the NAV of the OCMMF or OCEMMF is less than \$0.995 (in absolute dollar amounts) or greater than \$1.005 (in absolute dollar amounts), portfolio holdings may be sold as necessary to maintain the ratio between \$0.995 (in absolute dollar amounts) and \$1.005 (in absolute dollar amounts).

Unless otherwise required in a trust agreement or other financing document, assessment districts and public school and community college districts are required by legal provisions to deposit their funds with the County Treasurer. The OCEIP consists entirely of public school and community college districts' funds and therefore includes 100% involuntary participants. At June 30, 2016, the OCIP includes approximately 11.57% of involuntary participant deposits including funds for the Superior Court, certain assessment districts, and certain bond related funds for public school districts.

Investment Disclosures (Continued)

The County categorizes its fair value measurements within the fair value hierarchy established by GASB Statement No. 72. These principles recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Investments reflect prices based on quoted identical assets in an active market.
- Level 2: Investments reflect prices that are based on identical or similar assets in inactive markets or similar assets in active markets. Inputs other than quotes are observable.
- Level 3: Investments reflect prices based on significant unobservable inputs.

The County has multiple investments using Level 1 inputs and a single investment using Level 3 input. Fair value measurement is based on pricing received from the County's third party vendors. Money market mutual funds are priced using amortized cost, with a net asset value of \$1 (in absolute dollar amounts) per share, and per GASB Statement No. 72 not subject to the fair value hierarchy. Additionally, guaranteed investment contracts are not subject to the fair value hierarchy.

The County uses the market approach method as a valuation technique in the application of GASB Statement No. 72. This method uses prices and other relevant information generated by market transactions involving identical or similar assets or groups of assets.

The following table presents a summary of the County's investments according to the assigned fair value hierarchy level as of June 30, 2016.

Investment in County of Orange Taxable Pension Obligation Bonds 2016, Series A

On January 13, 2016, the OCIP and the OCEIP purchased a portion of the County issued Taxable Pension Obligation Bonds 2016, Series A (2016 POBs) in the principal amount of \$152,965. The 2016 POBs were issued with a fixed coupon rate and with maturities from August 2016 to June 2017. The obligation of the County to pay principal and interest on the 2016 POBs is an obligation imposed by law and is absolute and unconditional. As of June 30, 2016, the outstanding principal amount of the 2016 POBs is \$152,965. The bonds are rated AA by S&P. The County's investment in the 2016 POBs is disclosed herein as Municipal Debt. For additional information, refer to Note 9, Short-Term Obligations and Note 17, Retirement Plans.

Interest Rate Risk - Investments

This is the risk that changes in interest rates will adversely affect the fair value of an investment. Generally, investments of longer maturities are more sensitive to changes in market interest rates. Declines in the fair value of investments are managed by limiting the length of the maturity of the securities. In general, the maximum maturity allowed is five years unless the Board has granted express authority either specifically or as part of an investment policy. Actual weighted average days to maturity by investment type for the funds invested in the Pools are presented in the table in the Investment Disclosures section.

The OCIP funds of \$3,678,581 and the OCEIP funds of \$4,248,731 portfolio at June 30, 2016 have over 36.6% and 46.6%, respectively, of the investments maturing in six months or less, 63.4% and 53.4%, respectively, maturing between six months and three years.

Interest Rate Risk – Investments (Continued)

As of June 30, 2016, variable-rate notes comprised 2.2% and 2.5% of the OCIP and the OCEIP, respectively. The notes are tied to the Federal Funds rate, 90-day Treasury Bill rate, one-month and three-month London Interbank Offered Rate (LIBOR) with daily, monthly and quarterly coupon resets. The fair value of variable-rate securities is generally less susceptible to changes in value because the variable-rate coupon resets back to a market rate on a periodic basis. Effectively, at each reset date, a variable-rate investment reprices back to par value, eliminating interest rate risk at each periodic reset. For purposes of computing weighted average maturity (WAM), the maturity date of variable-rate notes is the length of time until the next reset date rather than the stated maturity.

The annual average daily investment balance of the OCIP and the OCEIP was \$3,820,526 and \$3,833,613, respectively, with an annual net yield of 0.65% and 0.66% respectively for the pools, for the year ended June 30, 2016.

Interest Rate Risk-Weighted Average Maturity (Money Market Funds)

At June 30, 2016, the OCMMF and OCEMMF amounted to \$928,469 and \$1,611,312, respectively. In accordance with the Board formally approved IPS, the Treasurer manages the Pool's exposure to declines in fair value for deposits and investments by limiting the WAM to 60 days in the Money Market Funds. At June 30, 2016, the WAM of the OCMMF was 56 days and the OCEMMF was 57 days. At the same date, the NAV of the Money Market Funds for both pools was \$1.00 (in absolute dollar amounts).

Interest Rate Risk-Duration (Extended Fund)

At June 30, 2016, the Extended Fund (which includes funds from both the OCIP and the OCEIP) balance was \$5,387,531. Of this amount, the OCIP owned 51.1% and the OCEIP owned 48.9%. In accordance with the IPS, the Treasurer manages investment related risk for deposits and investments by limiting duration to +25% of a leading 1-3 Year index (2.35). The portfolio duration for the Extended Fund as of June 30, 2016 was 1.31 years. This was computed using the effective duration method, which takes into account the way in which changes in yield will affect the expected cash flows for callable bonds.

As of June 30, 2016, the Extended Fund had the following duration by investment type:

| <u>Investment Type</u> | <u>Fair Value</u> | <u>Portfolio %</u> | <u>Effective Duration (In Years)</u> |
|-----------------------------|---------------------|--------------------|--------------------------------------|
| Certificates Of Deposits | \$ 201,493 | 3.74% | 2.25 |
| Medium-Term Corporate Notes | 362,354 | 6.73% | 1.85 |
| Municipal Debt | 99,134 | 1.84% | 0.78 |
| U.S. Treasuries | 1,568,807 | 29.12% | 1.02 |
| U.S. Government Agencies | 3,155,743 | 58.57% | 1.34 |
| Total Fair Value | <u>\$ 5,387,531</u> | | |
| Portfolio Duration | | | 1.31 |

Custodial Credit Risk

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The IPS does not permit investments in uninsured and unregistered securities not held by the County. The Treasurer utilizes third party delivery versus payment (DVP) which mitigates any custodial credit risk. Securities purchased by the Treasurer are held by third party custodians in their trust department to mitigate custodial credit risk. At year-end, in accordance with the IPS, the County's external investment pools and specific investments did not have any securities exposed to custodial credit risk, and the Treasurer did not have any securities lending during the year (or at year-end).

B. Investments (Continued)

Credit Risk - Investments

This is the risk that an issuer or other counterparty to an investment may not fulfill its obligations. The IPS sets forth the minimum acceptable credit ratings for investments from any two of the following NRSROs: S&P, Moody's, or Fitch. For an issuer of short-term debt, the rating must be no less than A-1 or SP-1 (S&P), P-1 or MIG 1/VMIG 1 (Moody's), or F1 (Fitch), while an issuer of long-term debt shall be rated no less than an A in the Money Market Funds and AA in the Extended Fund. Municipal debt issued by the County is exempt from the above credit rating requirements. As of June 30, 2016, the County's investments were in compliance with the IPS limits.

Concentration of Credit Risk

This is the risk of loss attributed to the magnitude of a government's investment in a single issuer. As of June 30, 2016, all investments were in compliance with state law and the IPS single issuer limits. See the County's investments table for concentrations of holdings in U.S. government agencies.

Foreign Currency Risk

The IPS requires all securities to be U.S. dollar denominated. The County Pools are not exposed to foreign currency risk.

C. Restricted Deposits and Investments with Trustees

All monies for restricted investments held by trustees are invested in "permitted investments" as defined in the various trust agreements. Restricted deposits with trustees are insured by FDIC up to \$250 and the excess amounts are collateralized.

D. CalOptima's Cash and Investments

The Organization categorizes its fair value investments within the fair value hierarchy established by GAAP. The hierarchy for fair value measurements is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date.

3. DEPOSITS AND INVESTMENTS (Continued)

D. CalOptima's Cash and Investments (Continued)

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly

Level 3 Significant unobservable inputs

The following is a description of the valuation methodologies used for instruments at fair value on a recurring basis and recognized in the accompanying consolidated statements of net position, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Marketable Securities

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics, or discounted cash flows. These securities are classified within Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

The following table presents the fair value measurements of assets recognized in the accompanying consolidated statements of net position measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall:

| Investment Assets at Fair Value as of June 30, 2016 | | | | |

Custodial Credit Risk-Deposits

Custodial credit risk is the risk that in the event of a bank failure the Organization may not be able to recover its deposits or collateral securities that are in the possession of an outside party. The California Government Code requires that a financial institution secure deposits made by public agencies by pledging securities in an undivided collateral pool held by a depository regulated under the state law. At June 30, 2016, no deposits were exposed to custodial credit risk, as CalOptima has pledged collateral to cover the amounts.

D. CalOptima's Cash and Investments (Continued)

Investments

CalOptima invests in obligations of the U.S. Treasury, other U.S. government agencies and instrumentalities, state obligations, corporate securities, money market funds, and mortgage or asset-backed securities.

Interest Rate Risk

In accordance with its Annual Investment Policy (investment policy), CalOptima manages its exposure to decline in fair value from increasing interest rates by matching maturity dates to the extent possible with CalOptima's expected cash flow draws. Its investment policy limits maturities to five years, while also staggering maturities. CalOptima maintains a low-duration strategy, targeting a portfolio duration of three years or less, with the intent of reducing interest rate risk. Portfolios with low duration are less volatile because they are less sensitive to interest rate changes.

As of June 30, 2016, CalOptima's investments, including cash equivalents, had the following modified duration:

| | Fair Value | Investment Maturities (In Years) | |
|-----------------------------|---------------------|----------------------------------|-------------------|
| | | Less Than 1 | 1-5 |
| U.S. Agencies | \$ 207,912 | \$ 134,250 | \$ 73,661 |

Investment with Fair Values Highly Sensitive to Interest Rate Fluctuations

When interest rates fall, debt is refinanced and paid off early. The reduced stream of future interest payments diminishes the fair value of the investment. The mortgage-backed and asset-backed securities in the CalOptima portfolio are of high credit quality, with relatively short average lives that represent limited prepayment and interest rate exposure risk. CalOptima's investments include the following investments that are highly sensitive to interest rate and prepayment fluctuations to a greater degree than already indicated in the information provided above:

| | Fair Value, June 30, 2016 |
|----------------------------|------------------------------|
| Asset-Back Securities | \$ 115,567 |
| Mortgage-Backed Securities | 39,117 |
| | <u>\$ 154,684</u> |

Credit Risk

CalOptima's investment policy conforms to the California Government Code as well as to customary standards of prudent investment management. Credit risk is mitigated by investing in only permitted investments. The investment policy sets minimum acceptable credit ratings for investments from the three nationally recognized rating services: Standard and Poor's Corporation (S&P), Moody's Investor Service (Moody's) and Fitch Ratings (Fitch). For an issuer of short-term debt, the rating must be no less than A-1 (S&P), P-1 (Moody's) or F-1 (Fitch), while an issuer of long-term debt shall be rated no less than an "A."

As of June 30, 2016, following are the credit ratings of investments and cash equivalents:

| Investment Type | Fair Value | Minimum Legal Rating | Exempt From Disclosure | Rating as of Year-End | | | | | |
|----------------------------|---------------------|----------------------|------------------------|-----------------------|------------------|------------------|-------------------|-------------------|------------------|

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of CalOptima's investment in a single issuer. CalOptima's investment policy limits to no more than 5 percent of the total fair value of investments in the securities of any one issuer, except for obligations of the U.S. government, U.S. government agencies or government-sponsored enterprises; and no more than 10 percent may be invested in one money market mutual fund unless approved by the governing board. The investment policy also places a limit of 35 percent of the amount of investment holdings with any one government-sponsored issuer and 5 percent of all other issuers. At June 30, 2016, all holdings complied with the foregoing limitations. The following holdings exceeded 5 percent of the portfolio at June 30, 2016:

| Investment Type | Issuer | Percentage of Portfolio |
|---------------------|------------------------|-------------------------|
| | | 2016 |
| U.S. Treasury Notes | United States Treasury | 35.14 |

4. CHANGES IN CAPITAL ASSETS (Continued)

Capital asset activity for the year ended June 30, 2016 includes the following adjustment amounts:

- Negative adjustment of \$462 in Intangible Assets due to the capitalization of annual software support cost that should have been expensed in the prior year.
- Negative adjustment of \$466 in Equipment due to prior years' accruals of non-capital expenses.
- Negative adjustment of \$7,757 in Flood Channels Infrastructure due to a lawsuit settlement payout that resulted in the overstatement of a capital project.

Capital Asset Impairments:

The general governmental activity reported an impairment loss on the Statement of Activities related to the County building located at 601 N. Ross St., which is currently vacant. As part of the County of Orange Civic Center Facilities Master Plan, it is scheduled to be demolished in January 2017 during phase one. This building has a current net book value of \$196. This amount was reported as a loss because the building's service utility has expired. No insurance recoveries were received for the building's impairment loss.

In addition, the general governmental activity reported an impairment loss of \$765 on the Statement of Activities related to the County building located at 433 W. Civic Center Dr. This building was originally purchased to be used as the new Archives building; however, due to disrepair, the only use for the building has been to store records in the basement. Because only one of three floors is being utilized, the current value is impaired by 66%. No insurance recoveries were received for the building's impairment loss.

5. RECEIVABLES

GASB Statement No. 38, "*Certain Financial Statement Note Disclosures*," requires identification of receivable balances not expected to be collected within one year. The details of the receivables reported in the government-wide Statement of Net Position that are not expected to be collected within the next fiscal year are identified below:

Accounts Receivable

Accounts Receivable had a balance of \$26,117 as of June 30, 2016. Of this amount, \$1,917 is not expected to be collected within the next fiscal year. This primarily consists of \$1,513 for animal care delinquent invoices.

Deposits Receivable

Deposits Receivable had a balance of \$4,767 as of June 30, 2016. Of this amount, \$4,387 is not expected to be collected within the next fiscal year. This primarily consists of \$2,883 in operating accounts for Dana Point Harbor operators and Green River Golf Course.

Due from Other Governmental Agencies

Due from Other Governmental Agencies had a balance of \$429,675 as of June 30, 2016. Of this amount, \$46,507 is not expected to be received within the next fiscal year, which primarily consists of \$39,431 owed by the State of California to the County for various mandated cost reimbursements for programs and services the State requires the County to provide. \$2,674 is for expected reimbursement for the Santa Ana River Subvention revenue claims to be submitted to the State Department of Water Resources and \$3,295 is for behavioral health activities. In addition, \$1,107 is owed by the City of Rancho Santa Margarita for amounts due under their Revenue Neutrality Agreement.

5. RECEIVABLES (Continued)

Notes Receivable

Notes Receivable had a balance of \$27,900 as of June 30, 2016. Of this amount, \$27,459 is not expected to be received within the next fiscal year. This primarily consists of \$24,969 for loans to build affordable, low to moderate income, and senior housing and \$2,030 is for housing loans for Mental Health Services Act (MHSA) programs. The remaining \$460 is for loans provided to first time home buyers.

6. INTERFUND RECEIVABLES AND PAYABLES

Interfund receivables and payables may result from services rendered by one fund to another fund, or from interfund loans. "Due from" and "due to" balances are generally used to reflect short-term interfund receivables and payables whereas "advance from" and "advance to" balances are long-term.

The composition of interfund balances as of June 30, 2016 is as follows:

Due from/to other funds:

| Payable Funds | Receivable Funds | | | | | | | Total |
|----------------------------|------------------|------------------------|-------------------------|--------------------------|------------------|------------------------|------------------------|------------|
| | General Fund | Flood Control District | Other Public Protection | Other Governmental Funds | Waste Management | Compressed Natural Gas | Internal Service Funds | |
| General Fund | \$ -- | \$ 723 | \$ 5,172 | \$ 24,763 | \$ 3,024 | \$ 2 | \$ 2,270 | \$ 35,954 |
| Flood Control District | 6,134 | -- | -- | 572 | 316 | -- | 4 | 7,026 |
| Other Public Protection | 18,456 | -- | -- | 4 | -- | -- | 14 | 18,474 |
| Mental Health Services Act | 10,466 | -- | -- | -- | -- | -- | -- | 10,466 |
| Other Governmental Funds | 38,685 | 585 | 1 | 3,503 | 48 | -- | 60 | 42,882 |
| Airport | 2,396 | 5 | 1 | 31 | -- | -- | 214 | 2,647 |
| Waste Management | 1,884 | 2 | -- | 431 | -- | -- | 18 | 2,335 |
| Compressed Natural Gas | 20 | 252 | -- | -- | -- | -- | -- | 272 |
| Internal Service Funds | 752 | 220 | -- | 12 | -- | -- | 3 | 987 |
| Total | \$ 78,793 | \$ 1,787 | \$ 5,174 | \$ 29,316 | \$ 3,388 | \$ 2 | \$ 2,583 | \$ 121,043 |

Interfund transactions between the Primary Government and Component Unit:

| Receivable Entity | Payable Entity | Amount |
|---|---|--------|
| Primary Government – General Fund | Component Unit – Children and Families Commission of Orange County | \$ 375 |
| Component Unit – Children and Families Commission of Orange County | Primary Government – Other Governmental Funds | 2 |

The majority of the interfund balances resulted from the time lag between the time that (1) goods and services were provided, (2) transactions were recorded in the accounting system, and (3) payments between the funds were made.

Advances to/from other funds:

| Receivable Entity | Payable Entity | Amount |
|-------------------|--------------------------|----------|
| General Fund | Other Governmental Funds | \$ 3,800 |
| Waste Management | Other Governmental Funds | 4,000 |
| Waste Management | General Fund | 1,567 |

6. INTERFUND RECEIVABLES AND PAYABLES (Continued)

The interfund loans represent an advance to the Courthouse Construction Fund from the General Fund to backfill the deficit as a result of a state audit of court revenues for FY 2003-04 through FY 2011-12. The Waste Management Fund made advances to the General Fund for various information technology capital projects and to Other Governmental Funds for the Sheriff-Coroner's James A. Musick Facility Expansion project, which was approved by the Board on December 11, 2012 to expand the Jame A. Musick Facility jail by more than 500 beds. The Sheriff-Coroner will repay all borrowed funds to the Waste Management Fund within the required three-year period.

7. COUNTY PROPERTY ON LEASE TO OTHERS

The County has noncancelable operating leases for certain buildings, which are not material to the County's general operations. The Airport Enterprise Fund derives a substantial portion of its revenues from noncancelable operating leases with air carriers and concessionaires, and the Waste Management Enterprise Fund derives revenue from landfill gas lease agreements, cell tower operators and a material recovery facility. The Enterprise Funds' property under operating leases, consisting primarily of structures and improvements, at June 30, 2016, approximates \$57,273, net of accumulated depreciation.

The County leases real property to others under operating lease agreements for recreational boating, retail, restaurant, and other commercial operations. Future minimum rentals to be received under these noncancelable operating leases as of June 30, 2016 are as follows:

| <u>Fiscal Year Ending June 30</u> | <u>Governmental Activities</u> | <u>Business-type Activities</u> |
|-----------------------------------|------------------------------------|-------------------------------------|
| 2017 | \$ 13,601 | \$ 28,610 |
| 2018 | 13,317 | 25,963 |
| 2019 | 12,469 | 16,991 |
| 2020 | 11,988 | 10,804 |
| 2021 | 10,945 | 10,690 |
| | <u>62,320</u> | <u>93,058</u> |

| | <u>187,311</u> | <u>30,295</u> |
| Total future minimum rentals | <u>\$ 249,631</u> | <u>\$ 123,353</u> |

Total contingent rentals, which arise primarily from a percentage of lessee's gross revenues, amounted to approximately \$32,383 (Enterprise Funds), \$5,597 (Other Governmental Funds), \$631 (Internal Service Funds) and \$336 (Flood Control District) for the year ended June 30, 2016.

8. INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2016 were as follows:

| Transfer Out Funds | Transfer In Funds | | | | | Total |
|----------------------------|--------------------------|-------------------------------|--------------------------------|---------------------------------|-------------------------------|-------------------|
| | General Fund | Flood Control District | Other Public Protection | Other Governmental Funds | Internal Service Funds | |

| Total | \$ 247,661 | \$ 467 | \$ 11,541 | \$ 137,283 | \$ 13,008 | \$ 409,960 |

Interfund transfers reflect a flow of assets between funds and blended component units of the primary government without an equivalent flow of assets in return. Routine transfers were made in the current fiscal year to (1) relay cash/resources from contributing County funds to various debt service funds for the retirement of long-term obligations, (2) transfer Measure H Tobacco Settlement revenues and Public Safety Sales Tax (PSST) excess revenue in compliance with the specific statutory requirements, (3) provide resources for services provided within the County's Wraparound Program, (4) make available cash distributions based on the Bankruptcy Recovery Plan, (5) contribute resources to comply with Proposition 63 Mental Health Services Act, and (6) transfer excess unrestricted revenues to finance various County programs based on budgetary authorizations by the Board. The details of the significant transfers are outlined below:

Routine Transfers

From the General Fund

- \$51,274 was transferred to Other Governmental Funds in connection with debt service payments for various County debt issues.
- \$14,445 was transferred to Other Governmental Funds to finance the County's 60 percent share of the Social Services Agency Wraparound Program.
- \$11,222 was transferred to Other Governmental Funds to distribute available cash to the remaining claimants of the bankruptcy loss as part of the Bankruptcy Recovery Plan.
- \$10,505 was transferred to Other Governmental Funds for the maintenance and repair of various Probation Criminal Justice Facilities and Multipurpose Rehabilitation Center.
- \$5,753 was transferred to Other Public Protection for the purchase of new equipment for the 800 MHz County-wide Coordination Communication system.
- \$5,083 was transferred to Internal Service Funds primarily for the purchase of Sheriff-Coroner vehicles.
- \$2,680 was transferred to Other Public Protection for the annual transfer of PSST excess revenue to meet future public protection needs.
- \$1,052 was transferred to Internal Service Funds for medical reimbursements.

From Flood Control District

- \$2,017 was transferred to the General Fund for the Watershed Management Program.

From Other Public Protection

From Mental Health Services Act

- \$115,081 was transferred to the General Fund for qualifying Proposition 63 Mental Health Services Act expenditures.

From Other Governmental Funds

- \$35,620 was transferred to the General Fund for the reimbursement of various County programs as follows:
 - \$21,436 for the Social Services Agency Wraparound Program
 - \$7,973 for Emergency Medical Services
 - \$5,074 for the Center for Disease Control pandemic flu H1N1 costs
 - \$1,137 for the Alcohol & Drug Assessment and Automated Vital Health Statistics program
- \$25,529 of tobacco settlement monies was transferred to the General Fund to finance Health Care Agency's various health care programs and Sheriff-Coroner Department's operational costs.
- \$4,981 was transferred to the General Fund for reimbursement of Juvenile Justice Center debt service payments.
- \$2,401 was transferred to the General Fund for reimbursement of debt service obligations associated with parking facilities.

From Enterprise Funds

- \$21,238 was transferred from Waste Management to the General Fund primarily to pay bankruptcy related obligations in accordance with the County's comprehensive recovery plan.

In addition, the County had non-recurring transfers in the current fiscal year, which consisted of the following:

Non-Recurring Transfers

From the General Fund

- \$25,999 was transferred to Other Governmental Funds for various capital projects including, the year-round homeless shelter and the purchase of the Santa Ana Transit Terminal. In addition, transfers for Sheriff-Coroner one-time equipment purchases and funding the automated jail system were made.
- \$5,016 was transferred to Other Governmental Funds to reimburse for Sheriff-Coroner construction and facility development projects.
- \$5,000 was transferred to Other Governmental Funds for the OC Animal Care Shelter project.
- \$3,665 was transferred to Internal Service Funds for various data systems development projects.

From Flood Control District

- \$1,300 was transferred to the Other Governmental Funds for the Coyote Creek Bikeway Project.
- \$1,136 was transferred to Internal Service Funds for the centralization of the purchasing of light-duty vehicles.

From Other Public Protection

- \$1,054 was transferred to the General Fund to cover the shortfall of state and federal appropriations over department expenditures in Child Support Services.

8. INTERFUND TRANSFERS (Continued)

Non-Recurring Transfers (Continued)

From Other Governmental Funds

- \$10,820 was transferred to Other Governmental Funds for the Central Utility Facility (CUF) Infrastructure upgrade.
- \$7,726 was transferred to the General Fund for unspent funding for multi-year capital projects for re-budgeting in the next fiscal year.
- \$3,482 was transferred to the General Fund for the purchase of a year-round temporary homeless shelter and multi-service center.

9. SHORT-TERM OBLIGATIONS

Taxable Pension Obligation Bonds, 2015 Series A

On January 13, 2015, the County issued Taxable Pension Obligation Bonds, 2015 Series A (the 2015 POBs) in the principal amount of \$339,625. The 2015 POBs were issued in order to prepay the County's FY 2015-16 pension contribution at a discount. The 2015 POBs were issued as standard bonds, with five fixed rate tranches, and with a final maturity date of June 30, 2016. The obligation of the County to pay principal and interest on the 2015 POBs is imposed by law and is absolute and unconditional. The County repaid in full the outstanding balance of the bonds on June 30, 2016.

Taxable Pension Obligation Bonds, 2016 Series A

On January 13, 2016, the County issued Taxable Pension Obligation Bonds, 2016 Series A (the 2016 POBs) in the principal amount of \$334,275. The 2016 POBs were issued in order to prepay the County's FY 2016-17 pension contribution at a discount. The 2016 POBs were issued as standard bonds, with five fixed rate tranches, and with a final maturity date of June 30, 2017. The obligation of the County to pay principal and interest on the 2016 POBs is imposed by law and is absolute and unconditional. As of June 30, 2016, the outstanding principal amount of the 2016 POBs reported in the General Fund was \$334,275. Refer to Note 3, Deposits and Investments and Note 17, Retirement Plans for additional information.

10. LONG-TERM OBLIGATIONS

General Bonded Debt

General Obligation Bonded Debt

The amount of general obligation bonded indebtedness the County can incur is limited by law to 1.25% of the last equalized assessment property tax roll. At June 30, 2016, the County had no net general obligation bonded debt. The County's legal debt limit for the year was \$6,308,130. In order for the County to issue general obligation bonds secured by ad valorem taxes on real property, California Constitution Article XIII A, Section 1 requires the approval of 2/3 of the voters voting on the proposition.

Bankruptcy Obligations

Lease Revenue Refunding Bonds, Series 2005

On August 16, 2005, the Orange County Public Financing Authority (OCPFA) issued its \$419,755 Lease Revenue Refunding Bonds Series 2005 (Series 2005 Bonds) at a premium of \$19,973. The proceeds of which, together with certain monies contributed by the County and other funds available to the trustee of the 1996 Recovery Certificates of Participation (Recovery COPs), were used to defease certain non-callable Recovery COPs, the remainder was used to fund a debt service reserve fund for the Series 2005 Bonds, and pay costs of issuance of the Series 2005 Bonds. As of June 30, 2016, the outstanding principal amount, including the premium of the Series 2005 Bonds, and remaining interest were \$46,706 and \$1,332, respectively.

The Series 2005 Bonds are limited obligations of the OCPFA payable through July 2017 and are payable solely from base rental payments to be made by the County pursuant to a lease, dated as of August 1, 2005, between the OCPFA and the County, and other amounts held by the trustee in the funds and accounts established under the indenture (other than the rebate fund), except as otherwise provided in the indenture.

Revenue Bonds Payable and Certificates of Participation

Refunding Certificates of Participation (Civic Center Parking Facilities Project)

In December 1987, Certificates of Participation (COPs) representing the proportionate interests of the owners thereof in lease payments made by the County under lease agreements between the County and the Orange County Public Facilities Corporation were delivered. The proceeds were used to finance the acquisition, construction, and installation of two parking structures located in the City of Santa Ana. These certificates were refunded in August 1991 with the \$33,579 Refunding COPs (Civic Center Parking Facilities Project), which are payable through December 2018. At June 30, 2016, the outstanding principal amount, interest accretion, and unaccreted interest of the Refunding COPs were \$1,262, \$5,545 and \$999, respectively.

The Refunding COPs are secured by lease payments made by the County through a facilities lease with the Orange County Public Facilities Corporation.

Lease Revenue Refunding Bonds, Series 2012 (Juvenile Justice Center Facility)

On April 25, 2012, the South Orange County Public Financing Authority (SOCPFA) issued the Juvenile Justice Center Facility Lease Revenue Refunding Bonds, Series 2012 Bonds, in the principal amount of \$34,380, payable through June 2019, with a premium of \$2,927. The Lease Revenue Refunding Bonds were issued to redeem the outstanding OCPFA Juvenile Justice Center Facility Lease Revenue Refunding Bonds, Series 2002, fund a Reserve Fund, and pay costs relating to the issuance of the bonds. As of June 30, 2016, the outstanding principal amount, including the premium of the Series 2012 Bonds, and remaining interest were \$17,576 and \$1,452, respectively.

The bonds are special obligations of the SOCPFA payable solely from and secured by the base rental payments to be made by the County pursuant to a lease, dated as of April 1, 2012, between the SOCPFA and the County,

and other amounts held by the trustee in the funds and accounts established under the indenture (other than the rebate fund), except as otherwise provided in the indenture.

Lease Revenue Bonds, Series 2006

On October 19, 2006, the OCPFA issued its \$32,700 Lease Revenue Bonds, Series 2006 (Series 2006 Bonds) at a premium of \$2,140. The Lease Revenue Bonds, payable through June 2018, were issued to finance the construction of a cogeneration conversion project at the County's Central Utility Facility, fund a debt service reserve fund for the bonds, and pay costs relating to the issuance of the bonds. As of June 30, 2016, the outstanding principal amount, including the premium of the Series 2006 Bonds, and remaining interest were \$8,574 and \$591, respectively.

The bonds are limited obligations of the OCPFA payable solely from, and secured solely by revenues of the Authority, consisting primarily of certain rental payments to be made by the County pursuant to and as defined in the lease.

Taxable Refunding Pension Obligation Bonds, Series 1996A and 1997A

In September 1994, the County issued its Taxable Pension Obligation Bonds, Series 1994A in the aggregate principal amount of \$209,840 and Series 1994B in the aggregate principal amount of \$110,200 (Series 1994 Pension Bonds). The Series 1994 Pension Bonds were partially refunded with proceeds of the County's Taxable Refunding Pension Obligation Bonds, Series 1996A and Series 1997A.

On May 11, 2000, a cash tender offer of certain outstanding Pension Obligation Bonds was completed. The County purchased and canceled \$288,290 (maturity value) of Pension Obligation Bonds for a cost of \$179,016. On June 22, 2000, the debt service on the outstanding Pension Obligation Bonds was provided for through the deposit with the trustee of \$175,492 principal amount of "AAA" rated debt securities issued by Fannie Mae, along with \$9,151 in debt service funds already being held by the trustee. In accordance with irrevocable instructions, these securities, together with other cash amounts and investments held by the trustee, will be used solely to retire the remaining Pension Obligation Bonds as they mature. Because this was an economic defeasance and not a legal defeasance, this debt will be reported in the County's financial statements until it is fully redeemed. As of June 30, 2016, the outstanding principal amounts for the Series 1996A and 1997A Pension Bonds were \$5,071 and \$14,069, respectively and the interest accretion balances were \$19,951 and \$48,430, respectively. The unaccreted interest amounts for the Series 1996A and 1997A Pension Bonds were \$1,034 and \$14,106, respectively.

Airport Revenue Bonds, Series 2009A and 2009B

On July 9, 2009, the Airport issued the Airport Revenue Bonds, Series 2009A and 2009B (2009A and 2009B Bonds) in the aggregate principal amount of \$233,115, with an original issue net premium of \$288 and interest rates ranging from 3.00% to 5.75%. The 2009A and 2009B Bonds were issued to finance a portion of the Airport Improvement Program (AIP), fund the debt service requirement for the bonds, fund capitalized interest on a portion of the bonds and pay costs relating to the issuance of the bonds. The AIP consists of numerous direct improvements to the Airport facilities such as the construction of the new Terminal C, Parking Structure C and two new commuter/regional holdrooms at the north and south ends of the extended Terminal. For the year ended June 30, 2016, the total interest expense incurred and the amount included as part of the cost of capital assets under construction were \$9,975 and \$870, respectively. As of June 30, 2016, the outstanding principal amount, including net discount, of the 2009A and 2009B Bonds were \$59,664 and \$135,463, respectively. The interest expense of the 2009A and 2009B Bonds for the year ended June 30, 2016 were \$3,094 and \$7,085, respectively, including accrued interest of \$1,547 and \$3,543, respectively.

10. LONG-TERM OBLIGATIONS (Continued)

Revenue Bonds Payable and Certificates of Participation (Continued)

Airport Revenue Bonds, Series 2009A and 2009B (Continued)

The 2009A and 2009B Bonds are secured by a pledge of (1) operating revenues, net of specified operating expenses, (2) interest earnings, (3) other miscellaneous revenue, and (4) available PFC revenue. The 2009A and 2009B Bonds are payable through July 2039. For each fiscal year, the pledged net operating revenues are expected to be a minimum of 125% of the aggregate debt service requirement over the life of the bonds. For the year ended June 30, 2016, the total principal and interest paid and total net revenues were \$17,543 and \$60,828, respectively. The total net revenues include \$11,197 available PFC revenue for the year ended June 30, 2016.

Advance Refunding

In prior years, various bonds, COPs and other obligations have been advance refunded. These obligations are considered defeased, and the long-term debt liability has been removed from the related governmental funds and enterprise funds. As of June 30, 2016, \$9,780 of legally defeased debt remains outstanding.

Fiscal Year 2015-16 Debt Obligation Activity

During FY 2015-16, the following events concerning County debt obligations took place:

Central Utility Facility Lease Revenue Bonds, Series 2016

On June 2, 2016, the SOCPFA issued its \$56,565 Lease Revenue Bonds, Series 2016 at a premium of \$11,724. The Lease Revenue Bonds, payable through April 2036, were issued to finance the acquisition, construction and installation of certain capital improvements to be owned by the County, and pay costs relating to the issuance of the bonds. As of June 30, 2016, the outstanding principal amount, including the premium of the Series 2016 Bonds, and remaining interest were \$68,289 and \$33,190, respectively.

The bonds are special obligations of the SOCPFA payable from and secured by the base rental payments to be made by the County under the lease and the amounts held in all funds and accounts (other than the rebate fund) under the indenture.

Teeter Plan Notes

On February 1, 2013, the County issued its three-year tax exempt Teeter Plan Notes, Series B with Wells Fargo Municipal Capital Strategies, LLC and Wells Fargo Bank, National Association, under the Note Purchase and Reimbursement Agreement. The Teeter Plan Notes are authorized for a total amount of \$150,000, and certain delinquent taxes (excluding penalties and interest) are pledged revenues for the Teeter Plan Notes. The rate for the Teeter Plan Notes will be based on the weekly Securities Industry and Financial Markets Association (SIFMA) index plus 0.58%. All of the Teeter Plan Notes will be issued within three years of February 1, 2013, with a maturity date of January 29, 2016. The total amount of the notes issued on February 1, 2013 was \$57,935, which reflects the issuance of the Teeter Plan Notes and the establishment of a Cost of Issuance Fund in the amount of \$188. As of July 1, 2015, the outstanding balance was \$33,823.

On July 15, 2015, the County issued an additional \$30,542 in Teeter Plan Notes to finance the purchase of the delinquent property tax receivables associated with the Teeter Plan, leaving an outstanding balance of \$64,365. Proceeds of this issuance paid the participating agencies in the Teeter Plan the full amount of their taxes from the secured property tax roll.

Fiscal Year 2015-16 Debt Obligation Activity (Continued)

Teeter Plan Notes (Continued)

On December 30, 2015, the County used all of the accumulated base taxes to redeem \$23,978 of the Teeter Plan Notes. The outstanding principal amount of the Teeter Plan Notes was \$40,387, maturing January 29, 2016.

On January 29, 2016, the Note Purchase and Reimbursement Agreement was extended upon mutual agreement between Wells Fargo and the County. In addition, the authorized total was revised to not exceed \$100,000 and all other terms and conditions in the Agreement remained unchanged. Teeter Plan Obligation Notes, Series B were issued for \$40,387 to retire the old Teeter Notes maturing January 29, 2016. The new Notes have a maturity date of July 31, 2018. The outstanding amount of the Teeter Plan Notes was \$40,387.

On June 28, 2016, the County used all of the accumulated base taxes to redeem \$10,196 of the Teeter Plan Notes. As of June 30, 2016, the outstanding principal amount of the Teeter Plan Notes was \$30,191. For additional information regarding the Teeter Plan Notes, refer to Note 20, Subsequent Events.

Compensated Employee Absences

The estimated compensated employee absences payable for governmental activities recorded at June 30, 2016 is \$184,948. Employees are entitled to be paid annual leave, compensated time, and in some cases vacation and sick time depending on job classification, length of service, and other factors. For the governmental funds, most of the compensated absences liability will ultimately be paid from the General Fund.

OC Flood Control District, Santa Ana Regional Interceptor (SARI) Line Loans

On June 12, 2007, the Board approved a financing agreement between the Orange County Flood Control District (OCFCD) and Orange County Sanitation District (OCSD) for an amount equivalent to 60% (\$60,000) of an estimated total project cost of \$100,000. Concurrently, the Board also approved a financing agreement between the OCFCD and the Santa Ana Watershed Project Authority (SAWPA) for an amount equivalent to 10% (\$10,000) of the total project cost. The loan proceeds will be used for the relocation of the SARI Line between Prado Dam and Weir Canyon Road for the following public benefits: protection of the sewer line from erosion, increased Prado Dam water releases, protection of the water supply, and uninterrupted use of the sewer line by residents. Subsequently, the agreements were amended to reflect the actual total project cost based on the awarded construction contracts. The SARI Line Project cost is not expected to exceed \$85,560 plus 15% contingencies in the amount of \$12,834 for a total of \$98,394. The OCFCD would contribute the remaining 30% (\$29,518) that would be expended to complete the SARI Line Project. As part of the terms of the agreement, the OCFCD agrees to pay SAWPA and OCSD as State subvention funding for the SARI Line Project is received by OCFCD. Repayment installments will be made within 30 days of OCFCD's receipt of State subvention funding in an amount equivalent to 10% of the funds received being paid to SAWPA and 60% of the funds received being paid to OCSD. The OCFCD is required to repay the entire loan to OCSD and SAWPA no later than July 1, 2022, regardless of whether OCFCD receives any State subvention funds for the SARI Line Project. For funds loaned by OCSD, interest shall accrue on the unpaid balance from July 1, 2018, at an annual interest rate of 2% until the unpaid balance is repaid. As for funds loaned by SAWPA, interest shall accrue on any such unpaid balance from July 1, 2018, at the State of California Local Agency Investment Fund interest rate in effect on July 1, 2018. To date, OCFCD received a \$51,336 (60%) loan from OCSD and \$8,556 (10%) from SAWPA based on the total project cost excluding contingencies. In May 2011,

the Board awarded the construction contract for the SARI Yorba Linda Spur in the amount of \$7,210, and the Board awarded the construction contract for the SARI Mainline in the amount of \$42,000 in August 2011. In February 2013, construction of the SARI Yorba Linda Spur was completed and the total amount paid to the contractor was \$7,067. Construction of the SARI Mainline was completed on August 17, 2015 and the total amount paid to the contractor was \$38,511. As of June 30, 2016, the total outstanding loan principal was \$28,022.

Special Assessment District Bonds

Special Assessment District Bonds consist of Assessment District Bonds and Community Facilities District Bonds.

Assessment District Bonds are issued pursuant to provisions of the Improvement Bond Act of 1915 (Division 10 of the California Streets and Highways Code). Proportionate shares of principal and interest installments sufficient in aggregate to meet annual bond debt service requirements are included on the regular County tax bills sent to owners of property against which there are unpaid assessments. Neither the faith and credit nor the taxing power of the County, the State, or any political subdivision thereof is pledged to the payment of the bonds. Assessment District Bonds represent limited obligations of the County payable solely from special assessments paid by property owners within each district. Accordingly, such obligations are not included in the accompanying basic financial statements.

Community Facilities District Bonds are issued pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, and are payable from a portion of certain special taxes to be levied on property within the boundaries of the Community Facilities District. Except for the special taxes, no other taxes are pledged to the payment of the bonds. The bonds are not general or special obligations of the County nor general obligations of the District, but are limited obligations of the District payable solely from certain amounts deposited by the District in the special tax fund. Accordingly, such obligations are not included in the accompanying basic financial statements.

The County is acting as an agent of the assessment and community facilities districts in collecting the assessments and special taxes, forwarding the collections to other paying agents or directly to bondholders, and initiating any necessary foreclosure proceedings. Because of the County's limited obligation in connection with special assessment district and community facilities district debt, related transactions are reflected in Agency Departmental Funds. Major capital outlay expenditures relating to these bonds are accounted for in the "Service Areas, Lighting Maintenance and Assessment Districts" Special Revenue Fund. Special assessment district and community facilities district bonds outstanding as of June 30, 2016, amounted to \$428,295.

11. CONDUIT DEBT OBLIGATIONS AND SUCCESSOR AGENCY DEBT

Single and Multi-Family Housing Bonds

From 1980 through 2013, the County issued bonds under the authority of Chapter 7 of Part 5 of Division 3 of the Health and Safety Code of the State of California. The purpose of the bonds is to finance the purchase of single-family homes and the construction of multi-family units to benefit low and moderate income families.

The bonds are secured by the property financed and are payable solely from revenue of the projects and payments received on the underlying mortgage loans.

The bonds do not constitute a liability of the County. Neither the County, the State of California, nor any political subdivisions thereof is obligated in any manner for the repayment of the bonds. In no event shall the bonds be payable out of any funds or properties of the County. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

11. CONDUIT DEBT OBLIGATIONS AND SUCCESSOR AGENCY DEBT (Continued)

Single and Multi-Family Housing Bonds (Continued)

As of June 30, 2016, there were 20 series of bonds outstanding with an aggregate principal amount payable of \$220,909.

Orange County Development Agency (OCDA) Successor Agency Bond Debt

On December 29, 2011, the California Supreme Court issued an opinion in California Redevelopment Association (CRA) v. Matosantos, upholding the constitutionality of ABX1 26, eliminating Redevelopment Agencies (RDA) statewide effective February 1, 2012. Under ABX1 26, a successor agency was created for each dissolved RDA, including OCDA, and charged with winding down the dissolved RDA's operations and performing enforceable obligations (as defined in the law). The OCDA Successor Agency assumed the dissolved RDA's enforceable obligations, which include bond debt obligations. The FY 2015-16 Neighborhood Development and Preservation Project (NDAPP) and Santa Ana Heights Project (SAHP) Refunding Bonds debt service obligations appeared on the OCDA Successor Agency Recognized Obligation Payment Schedule (ROPS) and were approved by the Successor Agency Oversight Board, the State Department of Finance, and were paid to bondholders according to the debt service schedule.

Effective with OCDA's dissolution on February 1, 2012, the assets and liabilities (including bond debt) were transferred to and reported in a private-purpose trust fund of the County. This transfer and reporting structure reflect the custodial role accepted by the successor agency. As of June 30, 2016, the outstanding principal amount, including the premium of the OCDA Successor Agency bonds and remaining interest were \$30,041 and \$4,668, respectively.

The bonds do not constitute a liability of the County. Neither the County, the State of California, nor any political subdivisions thereof is obligated in any manner for the repayment of the bonds. In no event shall the bonds be payable out of any funds or properties of the County. Accordingly, the bonds are reported as liabilities in the private-purpose trust fund.

12. LEASES

Operating Leases

The County is committed under various operating leases, primarily for office buildings, office equipment and other equipment. The following is a schedule of future minimum payments required under operating leases entered into by the County that have initial or remaining noncancelable lease terms in excess of one year as of June 30, 2016:

| <u>Fiscal Year Ending June 30</u> | <u>Equipment</u> | <u>Real Property</u> | <u>Total</u> |

| Total | <u>\$ 1,885</u> | <u>\$ 172,989</u> | <u>\$ 174,874</u> |

Total expenditures for equipment rentals and building and improvements incurred for FY 2015-16 was \$41,080.

12. LEASES (Continued)

Capital Leases

This year, the County entered into a lease agreement as lessee for financing the acquisition of repair and maintenance equipment valued at \$254. The equipment has a five-year estimated useful life. This year, \$49 was included in depreciation expense. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of future minimum lease payments as of the inception date.

The following is an analysis of property the County has leased under capital leases, which includes \$27,600 of equipment for an Internal Service Fund:

| | | |

13. LANDFILL SITE CLOSURE AND POSTCLOSURE CARE COSTS

State laws and regulations require OCWR to place final covers on its landfill sites when the landfills stop accepting waste and perform certain postclosure maintenance and monitoring functions at the site for a minimum of 30 years after closure. Although closure and postclosure care costs will be paid only near or after the date each respective landfill stops accepting waste, OCWR will report a portion of these closure and postclosure care costs as an operating expense in each period based on the landfill capacity used as of each Statement of Net Position date.

OCWR owns or operates the following waste disposal sites:

- Frank R. Bowerman (FRB) (Irvine – Active)
- Olinda Alpha (Brea – Active)
- Prima Deshecha (San Juan Capistrano – Active)
- Santiago Canyon (Orange – Ceased accepting waste in 1996, final closure certification in 2005)
- Coyote Canyon (Newport Beach – Ceased accepting waste in 1990, final closure certification in 1995)

The total landfill closure and postclosure care liability at June 30, 2016 was \$160,675. The total liability represents the cumulative amount accrued based on the percentage of the active landfill capacities that have

13. LANDFILL SITE CLOSURE AND POSTCLOSURE CARE COSTS (Continued)

been used to date (30.38% for FRB, 78.70% for Olinda Alpha and 20.16% for Prima Deshecha), less actual costs disbursed related to both closure, and postclosure of the Santiago Canyon and Coyote Canyon landfills. OCWR will recognize the remaining estimated cost of closure and postclosure care of \$179,764 as the remaining estimated capacity is filled. These amounts are based on what it would cost to perform all closure and postclosure care in 2015 dollars (using the 2015 inflation factor of 1.010). OCWR has enough landfill capacity to operate the system for a minimum of 25 years. However, OCWR intends to operate the landfills well beyond this period as a result of approved and planned expansions.

In compliance with Title 27 – Environmental Protection of California Code of Regulations, OCWR makes annual cash contributions to its escrow funds to provide financial assurance for estimated future landfill closure costs based on the GASB Statement No. 18, “*Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs*”, formula. Also in compliance with regulations, OCWR has executed pledge of revenue agreements to provide financial assurance for estimated future landfill postclosure costs. The agreements state that OCWR pledges revenue from future gate fees deposited to pay for estimated postclosure maintenance or shall obtain alternative coverage within sixty (60) days if OCWR ceases at any time to retain control of its ability to allocate pledged revenue to pay postclosure maintenance costs. OCWR has proactively pre-funded this cost based on the State mandated formula that computes landfill capacity as a percentage of the total landfill capacity times the total estimated cost for postclosure maintenance. The estimated costs for future closure and postclosure maintenance are annually adjusted based on State provided inflation factors. The State mandated formula under which contributions to both closure and postclosure funds are calculated would provide for the accumulation of sufficient cash to cover all estimated costs when each landfill site reaches maximum capacity. If additional costs for closure or postclosure maintenance are determined due to changes in technology or higher regulatory requirements, these costs may need to be covered by increasing the amount charged to landfill customers.

As of June 30, 2016, a total of \$90,848 has been set aside for estimated closure and postclosure costs and is included in the accompanying Proprietary Funds Statement of Net Position as Restricted Pooled Cash/Investments – Closure and Postclosure Care Costs.

Regulations governing solid waste management are promulgated by government agencies on the federal, state and local levels. These regulations address the design, construction, operation, maintenance, closure and postclosure maintenance of various types of facilities, acceptable and prohibited waste types, and inspection, permitting, environmental monitoring and solid waste recycling requirements. Regulations at both the state and federal levels could impose retroactive liability, particularly with respect to cleanup activities relating to any landfill site ever operated by the County, whether or not owned by the County. Refer to Note 16, Pollution Remediation, for additional discussion regarding pollution remediation liabilities.

14. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS

Encumbrances

The County has established a procedure for encumbering appropriations for purchase orders, contracts, and other commitments authorizing delivery of merchandise or rendering of services. An encumbrance system reduces the possibility of commitments being made in excess of budgeted appropriations due to the lag time between issuance of purchase orders, contracts, and other obligations, and the actual provision of services or goods and subsequent receipt of invoices and billings from the vendors and contractors. Depending on the source(s) of funding, encumbrances are reported as part of restricted or assigned fund balance on the governmental funds balance sheet. In accordance with GASB Statement No. 54, the County's total significant encumbrances for governmental funds in the aggregate are reported as follows, at June 30, 2016:

| | | |
|---|----|----------------|
| General Fund | \$ | 47,058 |
| Flood Control District | | 34,525 |
| Other Public Protection | | 2,127 |

In addition, the County is involved in the Santa Ana River Mainstem Project (SARMP). The SARMP is a major flood control project implemented and funded by the Federal government and three local sponsors – the Orange County Flood Control District (OCFCD), San Bernardino County Flood Control District, and Riverside County Flood Control and Water Conservation District. A component of the initial project has been re-designated as the Prado Dam Project (Project), which is being implemented and funded by the Federal Government and the

14. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS (Continued)

Construction Commitments (Continued)

OCFCD through a separate Project Cooperation Agreement (PCA). The purpose of the SARMP is to prevent the devastating damage caused by large-scale flooding of the Santa Ana River flood plain. When the SARMP was initiated in 1989, the U.S. Army Corps of Engineers (COE) considered this flood plain to constitute the worst flood threat west of the Mississippi River as to impacts to the population and property. The Project involves a combination of flood channel improvements and constructing new channels in Orange, San Bernardino, and Riverside counties, construction of the Seven Oaks Dam in San Bernardino County, construction of improvements and protection at the Santiago retention basin and along the creek, raising the existing Prado Dam and increasing its flood flow outlet gates and reservoir capacity, along with several environmental mitigation related studies, habitat restoration and protection activities, recreation amenities, and preservation of historical sites and records.

The COE's estimated combined cost of all project components is \$2,371,000. OCFCD's combined cost share is estimated to be \$786,633 for the entire Santa Ana River Project. As of June 30, 2016, the OCFCD has expended about \$610,014 on the entire Santa Ana River Project.

The construction of Seven Oaks Dam and most channel improvements in Riverside, San Bernardino, and Orange counties have been completed. The relocation and protection of State Route (SR) 71 adjacent to Prado Dam (a joint OCFCD and Caltrans project) and construction to raise the Prado Dam embankments and install new outlet gates is complete. Landscaping along the Santa Ana River in Orange County was completed in May 2010. Design for the construction of interior dikes in the Prado Dam reservoir, and for improvements and protection of SR-91 in the Santa Ana River canyon are also underway. The COE completed construction of National Housing Tract Dike and Sewage Treatment Plant in 2008. Landscaping for these dikes began in September 2009 and were completed in June 2011. Several environmental mitigation studies and restoration/preservation projects are underway in all three counties. All property right acquisitions for the Seven Oaks Dam and along the lower Santa Ana River in Orange County up to Weir Canyon Road are completed. The escrow for purchase of the Green River Golf Course was closed on September 29, 2006. This property is required for construction of protection along SR-91 and nearby mobile homes, open space/recreation mitigation, and to accommodate increased flooding when the Prado Dam outlet gates are constructed and operational. The first phase of SR-91 protection (Reach 9 Phase 2B Project) was completed in September 2014. The second phase (Reach 9 Phase 3) started construction in January 2014 and was completed in March 2015. As continuation to the ongoing Reach 9 Project, the COE determined that bank improvements needed to continue east on the south side of the Santa Ana River along SR-91. As such, the Reach 9 Phase 4 Project was developed and the project was awarded on April 13, 2016 at an estimated cost of \$15,300. Completion of the Reach 9, Phase 4 Project is expected to occur in October 2018. The COE is also constructing bank improvements on the north side of the Santa Ana River adjacent to La Palma Avenue from Weir Canyon Road to the railroad (Reach 9 Phase 5A and Phase 5B). Phase 5A was awarded on September 28, 2015 at a cost of \$22,500 and is expected to be completed in December 2017. The construction contract for Phase 5B was awarded in September 2016 with an estimated cost of \$25,500 and expected to be completed in August 2019. The OCFCD awarded the construction contract on August 9, 2011 for the four miles of Santa Ana River Interceptor Line (SARI) relocation project, which was completed by August 2014. Phase I of the Auxiliary Embankment (an extension of Prado Dam) was completed in September 2012 and the earliest date for construction of Phase II would be September 2017. As an alternative, the COE may elect to make Phase II part of the contract awarded to construct the Prado Dam Spillway, which is planned for some time in the year 2020. A contract for the construction of the Yorba-Slaughter Adobe Dike was awarded in December of 2012 at a cost of \$6,000 and is expected to be completed in December 2016. The Women's Prison Dike (to protect the California Institute of Women) was awarded September 2014 for \$12,700 and is expected to be completed in February 2017 with a \$3,400 modification which was awarded in August 2015. The OCFCD continues to acquire property rights for the Prado Dam Project, subject to the availability of funding.

The project has been authorized by the State Legislature for reimbursement of up to 70% of the Local Sponsors' expenses through the State Flood Control Subvention Fund, which is administered by the Department of Water Resources (DWR). As of June 30, 2016, OCFCD has submitted \$400,122 in claims, and received \$369,641 in reimbursements. An additional \$11,680 in claims is in the process of being prepared for submittal to the DWR.

14. CONSTRUCTION AND OTHER SIGNIFICANT COMMITMENTS (Continued)

Construction Commitments (Continued)

Of the total amount outstanding, \$15,252 was accrued as revenue, and \$19,121 was reported as deferred inflows of resources at the fund level and recognized as revenue in the government-wide financial statements. Once a claim is reviewed and approved by DWR, 90% of the eligible expenditures can be paid, subject to available funding, with the remaining 10% paid after an audit by the State Controller's Office.

15. SELF-INSURANCE

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; natural disasters; unemployment; salary continuance; and providing health benefits to employees, retirees and their dependents. The County has chosen to establish Internal Service Funds (ISFs) where assets are set aside for claim settlements and judgments associated with such losses.

The Workers' Compensation ISF addresses the risks related to employee injury through its Safety Program, which is responsible for injury and illness prevention. The Workers' Compensation Program ensures that all benefits are properly provided and administers the contract for the third party workers' compensation claims administration. Workers' compensation claims are self-funded up to \$20,000.

The Property and Casualty Risk ISF is responsible for managing losses related to torts; theft of, damage to and destruction of assets, errors and omissions, civil rights claims, and natural disasters. Tort liability is also self-funded, up to \$5,000. Commercial insurance is purchased for property and other risk exposures. Excess liability insurance provides up to an additional \$100,000 in liability coverage. In the past three fiscal years, there were no losses that impacted the County's excess insurance coverage.

Independent actuarial studies are prepared annually for the Workers' Compensation and Property and Casualty Risk ISFs. The reported unpaid claims liabilities are based on the results of those annual actuarial studies and include case reserves, development of known claims, incurred but not reported claims, allocated loss adjustment expenses and unallocated loss adjustment expenses. Unpaid claims liabilities are calculated considering inflation, claims cost trends, including frequency and payout of settlements and judgments, interest earnings, and changes in legal and economic factors. Unpaid claims liabilities have been discounted at a rate of 3.50% in the Workers' Compensation ISF and 2.50% in the Property and Casualty Risk ISF to reflect anticipated future investment earnings.

All County departments and other governmental agencies authorized by the Board to participate in the Workers' Compensation ISF are charged for their pro rata share of costs based upon employee classification rates, claims experience, and funding for the Workers' Compensation program. All County departments participate in the Property and Casualty Risk self-insurance program and are charged for their pro rata share based upon claims experience, actual number of positions from a biweekly County payroll report, and funding for the Property and Casualty Risk program. The rate calculations for Workers' Compensation and Property and Casualty Risk ISFs are based upon guidelines established by the State Controller's Office for cost plan allocations.

The County has established: the Unemployment Insurance ISF, which covers all employees and is paid through the State of California; the County self-insured PPO Health Plans ISF, which provides health plan benefits; and the Health and Other Self-Insured Benefits ISF, which provides dental and short-term disability benefits for a portion of the County's employees and accidental death and dismemberment (AD&D) benefit for Reserve Deputy Sheriffs.

The County's Wellwise Choice, Wellwise Retiree, Sharewell Choice, and Sharewell Retiree plans have no lifetime coverage maximums. The dental insurance coverage is up to \$1,500 annually (absolute dollars) for each covered employee or dependent. The short-term disability insurance coverage is up to 12 months or when

15. SELF-INSURANCE (Continued)

the employee returns to work, whichever occurs first. Unemployment benefits covered by law is up to 26 weeks per individual or when the employee returns to work or no longer meets the requirements for the benefit. The self-insured AD&D benefit is for Reserve Deputy Sheriffs only and has a maximum benefit of \$5,000 (absolute dollars).

Changes in the balances of claims liabilities during the past two fiscal years for these self-insurance funds are as follows:

| | Workers' Compensation | Property & Casualty Risk | Unemployment Insurance | Health & Other Self- Insured Employee | Total |
|--|--------------------------|--------------------------------|---------------------------|---|------------|
| Unpaid Claims, Beginning of FY 2014-15 | \$ 150,741 | \$ 39,248 | \$ 783 | \$ 12,327 | \$ 203,099 |
| Claims and Changes in Estimates | 40,937 | 14,392 | 1,112 | 58,850 | 115,291 |
| Claim Payments | (36,104) | (14,349) | (943) | (59,417) | (110,813) |
| Unpaid Claims, End of FY 2014-15 | 155,574 | 39,291 | 952 | 11,760 | 207,577 |
| Claims and Changes in Estimates | 42,149 | 16,521 | 796 | 60,528 | 119,994 |
| Claim Payments | (38,033) | (9,792) | (940) | (59,310) | (108,075) |
| Unpaid Claims, End of FY 2015-16 | \$ 159,690 | \$ 46,020 | \$ 808 | \$ 12,978 | \$ 219,496 |

16. POLLUTION REMEDIATION

GASB Statement No. 49, "Accounting and Financial Reporting for Pollution Remediation Obligations," requires state and local governments to provide the public with better information about the financial impact of environmental cleanup and identifies the circumstances under which a governmental entity would be required to report a liability related to pollution remediation. The County has identified several environmental sites at John Wayne Airport (JWA) and OC Waste and Recycling (OCWR) for which a pollution remediation liability has been recorded in the County's financial statements. The following describes the nature of the obligating events, and the estimated liability as they relate to JWA and OCWR.

John Wayne Airport (JWA)

In 1988 and 2006, JWA was named as the responsible party in a cleanup and abatement order for two sites on Airport property by the California Regional Water Quality Control Board (RWQCB). The sites, the Old Fuel Farm and the Former Fire Station #33, were identified as having chemical impacts to the soil and groundwater. In 1994 and 2002, JWA began to monitor and remediate the Old Fuel Farm and the Former Fire Station #33 sites, respectively.

In 2008, the sites were sampled as part of an assessment and the results revealed that the soil and groundwater were still impacted by chemical pollutants. In an effort to increase the removal of the chemicals, JWA's environmental consultant reevaluated the sites and recommended a change to the remediation plan. The consultant calculated the new estimated pollution remediation liability based on a more active method of remediation that includes remedial technologies such as soil vapor extraction, dual phasing sparging, and bioremediation.

JWA started implementing the new remediation method in the fiscal year ending June 30, 2011. Following a remedial pilot test, JWA has been performing monthly free-product removal at the Old Fuel Farm and performing annual groundwater monitoring at both sites. Active remediation has been delayed pending further guidance from the RWQCB, which could possibly affect the estimated pollution remediation liability as well as cause changes to the remedial technologies used to remediate the sites. As of June 30, 2016, JWA has a liability of \$994 based on management's assessment and the results of the consultant's evaluation of potential remediation costs. The liability will not decrease any further until active remediation begins or a closure plan is accepted by the RWQCB.

In 1995, JWA entered into Memorandum of Understanding (MOU) with one of its fixed-base operator (FBO) lessees to address the remediation of the Old Fuel Farm. The FBO was identified as the operator of the site

and the other responsible party. The lessee agreed to be obligated to pay 50% of the remediation costs associated with the Old Fuel Farm site. Reported in the Statement of Net Position – Proprietary Funds as part of accounts receivable, the total expected recovery for the Old Fuel Farm site is \$261 as of June 30, 2016.

The estimated pollution remediation obligation as of June 30, 2016 is:

| | | |
|--------------------------------------|----|------------|
| Old Fuel Farm Site | \$ | 785 |
| Former Fire Station #33 Site | | 692 |
| Less: Remediation Activity | | (483) |
| JWA Pollution Remediation Obligation | \$ | <u>994</u> |

Orange County Waste and Recycling (OCWR)

Five closed sites were identified. The remediation costs and time periods were calculated for each of these sites based upon the type of remediation needed and historical trend data for closed landfill sites. The combined pollution remediation obligation ending balance as of June 30, 2016, after deducting actual pollution remediation expenses incurred, is \$11,190.

Cannery Former Refuse Disposal Station A park owned by the City of Huntington Beach (City) and an elementary school playground are located on a site that was formerly used as a refuse disposal station operated by the County from 1957 to 1969. Levels of methane gas that exceed regulatory limits were detected on the property. The Local Enforcement Agency (LEA) issued a Notice and Order to the City requiring the City to remedy the landfill gas exceedances and to control potential offsite migration of landfill gases. In response to the LEA's Notice and Order, the City and the Huntington Beach City School District (School District) issued the Notices of Intent to sue under the Resource Conservative and Recovery Act, and the Comprehensive Environmental Response, Compensation, and Liability Act to the County in 2004. The City's and School District's claims were tolled until June 2006 under a tolling agreement with the County. The City, County and School District entered into a Settlement Agreement in 2007, whereby the City would be responsible for maintaining the cover of the former disposal site and the County would assume responsibility for the collection and control of landfill gas.

Based on engineering estimates and existing contracts for the operation and maintenance of other disposal sites of a similar size, the age of the site, the length of time that the wastes have been buried, and other factors, the County anticipates that the landfill gas collection system will operate fully for 15 years.

The anticipated costs to operate, maintain and monitor the landfill gas collection system over the remaining anticipated operational period is \$44.

Lane Road Former Refuse Disposal Station The site located in the City of Irvine and owned by NGP Realty Sub, L.P. and others, was leased and operated by the County as a refuse disposal facility from 1961 until its closure in 1964. An investigation revealed that landfill gas is present above regulatory limits in close proximity to residential housing units. The LEA issued a Notice and Order to the property owners requiring them to remedy the landfill gas exceedances and to control potential offsite migration of landfill gases. In response to the LEA's Notice and Order, a claim was filed with CEO Risk Management. The County entered into a Settlement Agreement with the property owners in 2005. Per terms of that Settlement Agreement, the County funded the construction of a landfill gas collection and control system, including a carbon treatment element, for the eastern portion of the site. After verification that the system was operating as planned, the County assumed ownership of the system and responsibility for its operation, maintenance and monitoring in 2008. Also in 2008, it was discovered that landfill gas was elevated in the northern portion of the site. Pursuant to the Settlement Agreement, the County designed and constructed an upgrade and enhancement to the existing landfill gas system to control landfill gas migration on the northern portion of the site.

16. POLLUTION REMEDIATION (Continued)

Orange County Waste and Recycling (OCWR) (Continued)

Lane Road Former Refuse Disposal Station (Continued)

Based on engineering estimates and existing contracts for the operation and maintenance of other similar disposal sites, the County anticipates that the landfill gas collection system will operate fully for 25 years, then will most likely either be inactive or be converted to a passive system. The cost for the operation, maintenance and monitoring of the system was highest in the first full year of operation when the carbon canisters needed more regular replacement. The cost to operate and maintain the landfill gas collection system at the site for the next year of operation is \$310.

The anticipated costs to operate, maintain and monitor the landfill gas collection system over the remaining anticipated operational period is \$2,694.

San Joaquin Former Refuse Disposal Station The site, owned by the University of California at Irvine, was leased and operated by the County as a refuse disposal facility from 1954 to 1961. In 1996, a portion of the site was sold to the United States Food and Drug Administration. Levels of methane gas that exceed regulatory limits were detected on the property. As both parties expressed an interest in avoiding costly litigation, the County entered into negotiations to cooperatively address site concerns, resulting in a Cooperative Agreement with the University that was approved by the Board in May 2005. Pursuant to the Cooperative Agreement, the County constructed a landfill gas collection and control system including a carbon treatment element.

The County retains responsibility for the operation, maintenance, and monitoring of that system. Based on engineering estimates and existing contracts for the operation and maintenance of similar disposal sites, the County anticipates that the landfill gas collection system will operate fully for 15 years. The cost to operate and maintain the landfill gas collection system at the site for the next year of operation is \$135.

The remaining obligation for landfill gas remediation at the San Joaquin site over the anticipated operational period is \$952.

La Veta Former Refuse Disposal Station Located in the City of Orange, La Veta is a former burn, dump and refuse disposal station leased to and operated by the County from 1946 to 1956. The site has multiple owners and was developed into a YMCA facility, apartments, a mobile home park and a small amount of open space. Recently, the County learned that the California Department of Toxic Substances Control (DTSC) and the United States Environmental Protection Agency had previously performed limited soil and groundwater testing at the site. According to DTSC, the results of these tests indicated that further site assessment was warranted.

DTSC requested that the County enter into a Voluntary Cleanup Agreement with DTSC. In lieu of entering into a Voluntary Cleanup Agreement, the County conducted a series of additional site investigations and assessments. Based on the findings of the site investigations, the YMCA is performing required methane monitoring. The County reimburses the YMCA for the costs associated with the monitoring efforts and are accrued as estimable at June 30, 2016.

In addition, the findings of site investigations identified the existence of subsurface refuse extending laterally onto a single-family residence located within the lease boundaries of the former La Veta solid waste disposal site and immediately adjacent to land owned by the YMCA (also covering a portion of the former disposal site). Buried waste was discovered under part of the back yard of the residence, which includes a swimming pool. Since then, CalRecycle and the LEA have required continuous methane monitoring at the property. The current owners have not cooperated with County or regulator attempts to monitor or remediate potential pollution of the property.

The County will continue to attempt to work with the property owner to ensure that the property is maintained and monitored in a manner that is consistent with the former use of the property as a municipal solid waste disposal facility.

16. **POLLUTION REMEDIATION (Continued)**

Orange County Waste and Recycling (OCWR) (Continued)

Forster Former Refuse Disposal Station The site, located in the City of San Juan Capistrano, was formerly leased and operated as a refuse disposal station by the County from 1958 to 1976. The current owner, Advanced Group 99-SJ, proposed a change in land use for the property and has notified the County of its position that the County was responsible for re-closure of the site to meet current commercial and redevelopment requirements. The County disputed responsibility for site development related costs. In early 2010, the City of San Juan Capistrano approved the proposed project and certified the Environmental Impact Report (EIR). The EIR was a subject of a citizen's referendum that ultimately resulted in affirmation of the proposed project. Subsequent to the City approval of the proposed development plan, Advanced Group 99-SJ and the County entered into negotiations to resolve issues related to environmental responsibility at the site. These negotiations resulted in a settlement agreement and release of claims, brought about by a threat of litigation over the California Environmental paid by the County for environmental controls to be installed at the site, an operation and maintenance fund and for environmental insurance, subject to conditions such as obtaining grading permits for the site for its actual development. In exchange, indemnification and environmental releases were provided by the developer to the County.

Total obligation by the County for environmental infrastructure and controls at the site as agreed upon in the Settlement Agreement is \$7,500. The entire sum is expected to be released within a five year period, but is dependent upon actions by the owner and regulatory approvals for the project. As of June 30, 2016, the County has not released payment. The County will continue to incur additional costs for work related to the County's current obligation to monitor the groundwater underlying the site. This responsibility will be transferred to the site owner upon completion of one of the settlement agreement milestones. But due to the uncertainty of specific timing, the County is unable to fully estimate the remaining ground water obligations.

The remaining balance for landfill gas remediation at the Forster site is \$7,500. Distribution of these funds will occur over time, based on specific milestones in the development of the site.

The estimated pollution remediation obligation as of June 30, 2016 is:

| | | |
|---------------------------------------|----|---------------|
| Cannery | \$ | 44 |
| Lane Road | | 2,694 |
| San Joaquin | | 952 |
| Forster | | 7,500 |

17. **RETIREMENT PLANS**

Orange County Employees Retirement System (OCERS)

Plan Description: Substantially all County employees participate in the Orange County Employees Retirement System (OCERS), a cost-sharing multiple-employer public employee retirement system established by the voters of Orange County in 1945 pursuant to the County Employees Retirement Law of 1937, California Government Code Section 31451 et. seq. (the Retirement Law). OCERS is an independent defined-benefit retirement plan in which employees of the County, Orange County Superior Court, and employees of certain cities and special districts within the County participate. OCERS is governed by the Board of Retirement (the OCERS Board). Certain attributes of independence of OCERS are guaranteed under the California Constitution. The OCERS Board consists of nine regular members and one alternate. Four OCERS Board members are appointed by the Board, three members plus one alternate are elected from active County employees, one member is elected from retirees, and the County Treasurer-Tax Collector is a statutory member.

The OCERS Board supervises the investment of OCERS assets and the distribution of benefits to retired employees. The OCERS Board also determines the annual contributions required of the County and other participating local governmental entities to fund OCERS.

17. RETIREMENT PLANS (Continued)

Orange County Employees Retirement System (OCERS) (Continued)

Plan Description (Continued)

The Retirement Law requires an actuarial valuation to be performed at least once every three years. OCERS' practice has been to conduct an actuarial valuation annually as of December 31, which is the end of the OCERS fiscal year.

According to OCERS' most recent public report, entities paying into the OCERS, also known as plan sponsors, include the County of Orange, City of San Juan Capistrano, Orange County Cemetery District, Children and Families Commission of Orange County, Orange County Department of Education (closed to new members), OCERS, Orange County Fire Authority, Orange County In-Home Supportive Services Public Authority, Orange County Local Agency Formation Commission, Orange County Public Law Library, Orange County Sanitation District, Orange County Superior Court, Orange County Transportation Authority, Transportation Corridor Agencies, and the University of California, Irvine Medical Center and Campus (closed to new members).

Benefits Provided: OCERS provides for retirement, death, disability, and cost-of-living benefits. Under OCERS, each County employee receives a defined-benefit pension at retirement, that is, a specific amount per month determined in accordance with the Retirement Law, which amount is not dependent upon the amount of money credited to the employee's account at the time of retirement. An OCERS member may be eligible for a Disability Retirement allowance. The member will be asked to designate a beneficiary or beneficiaries, who may be entitled to receive lifetime and/or lump sum benefits that may be payable upon a member's death. OCERS also provides two types of disability benefits, a nonservice-connected disability retirement or service-connected disability retirement. Under each type, the eligibility requirements are different. More information can be found on www.ocers.org. The OCERS Board does not set the benefit amounts. OCERS administers benefits that are set by the County Board through the collective bargaining process with County employees in accordance with the Retirement Law.

Effective June 28, 2002, Safety members, including Probation Services employees, became eligible for an annual annuity equal to a retirement benefit formula of 3% of the member's "final compensation" for each year of service rendered at age 50. Law enforcement management, which includes executives in the Sheriff-Coroner and District Attorney departments, and employees represented by the Association of Orange County Deputy Sheriffs hired after April 9, 2010, receive an annual annuity equal to a retirement benefit formula of 3% of the member's "final compensation" for each year of service rendered at age 55.

Effective July 1, 2005, as part of collective bargaining agreements with County employees, most General Members who work for the County of Orange (approximately 14,000) became eligible for an enhanced annual annuity equal to a retirement benefit formula of 2.7% of the member's "final compensation" for each year of service rendered at age 55. In collective bargaining agreements with General Members, the employee associations agreed to pay the increased retirement costs related to the difference between the prior retirement benefit formulas and the new 2.7% at age 55 enhanced formula, as well as the annual amortization of the unfunded liability created by the retroactive application of the increased benefit. Members of the American Federation of State, County and Municipal Employees (AFSCME) did not elect the 2.7% at age 55 retirement formula and remain at the previous benefit formulas. The benefit formulas for AFSCME are an annual annuity equal to 2% of the "final compensation" for each year of service rendered at age 57 for Tier I General members and 1.667% of the member's "final compensation" for each year of service rendered at age 57.5 for Tier II General members. Due to the passage of the Public Employees' Pension Reform Act (PEPRA) of 2013, most new employees hired on or after January 1, 2013, except for Safety members and members represented by AFSCME and the Orange County Attorneys Association (OCAA), will receive an annual annuity equal to a retirement benefit formula of 1.62% of the member's "final compensation" for each year of service rendered at age 65. The 1.62% at age 65 retirement formula includes a voluntary defined contribution component with an employer match.

Non-vested Supplemental Targeted Additional Retiree Cost of Living Adjustment (STAR COLA) benefits are also paid by OCERS to eligible retirees and survivors. Pursuant to Government Code Section 31874.3 of the Retirement Law, the OCERS Board has the sole authority to grant STAR COLA each year. The OCERS Board

17. RETIREMENT PLANS (Continued)

Benefits Provided (Continued)

understands that granting STAR COLA may increase the Unfunded Actuarial Accrued Liability (UAAL) and therefore asks for comments from plan sponsors prior to voting on approval of the annual benefit.

Retirees who have lost more than 20% of their purchasing power since retirement are eligible for this benefit, and currently, approximately 346 retirees (of which 337 are County retirees) who retired before April 1, 1980, and their survivors receive the STAR COLA. The STAR COLA benefits are excluded from the actuarial valuation and are funded annually through current employer contributions. Benefits are considered immaterial to the plan.

Contributions: In accordance with various Board resolutions, the County's funding policy is to make periodic contributions to OCERS in amounts such that, when combined with employee contributions and investment income, will fully provide for member benefits by the time they retire. Covered employees are required to contribute a percentage of their annual compensation to OCERS as a condition of employment. Base employee contributions are calculated using a formula defined in the Retirement Law. The California Supreme Court's 1997 Ventura decision stated that, for the purpose of calculating pension benefits, "final compensation" means not only base salaries, but also other components. The County employee contributions under current contracts are calculated on base salary, eligible premium pay and some categories of overtime as defined in the 1997 Ventura decision.

Employer contributions are based on what is needed to properly fund the system. The law, however, does allow employers and employees to negotiate some variation in who pays the contributions. OCERS' responsibility is to make certain the total required contribution is paid, regardless of how the employers and employees share the cost. For FY 2015-16, employer's contributions, as a percentage of covered payrolls, were 37.02% for General members, 56.35% for Safety-Law Enforcement members and 40.70% for Safety-Probation members, as determined by the December 31, 2013, actuarial valuation.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension: At June 30, 2016, the County reported a liability of \$4,391,967 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2015, and the total pension liability (TPL) used to calculate the net pension liability was determined using actuarial valuation results. At December 31, 2015, the County's proportion was 76.83%, which was an increase of .15% from its proportion measured as of December 31, 2014.

For the year ended June 30, 2016, the County recognized pension expense of \$488,205. At June 30, 2016, the County reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|-----------------------------------|----------------------------------|
| Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments | \$ 620,500 | \$ - |
| Differences Between Expected and Actual Experience | - | 301,781 |
| Changes of Assumptions | 93,961 | 152,605 |
| Changes in Proportion and Differences Between Employer Contributions and Proportionate Share of Contributions | 5,767 | 106 |
| County Contributions Subsequent to the Measurement Date | 217,218 | - |
| County Prepaid Pension Contribution | 178,459 | - |
| Total | <u>\$ 1,115,905</u> | <u>\$ 454,492</u> |

\$217,218 reported as deferred outflows of resources related to pension resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017.

17. RETIREMENT PLANS (Continued)

Orange County Employees Retirement System (OCERS) (Continued)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension (Continued)

The County reported the full amount of prepaid pension contribution as a part of the prepaid cost at the fund level. However, due to the difference in the County's fiscal year end date and the net pension liability measurement date, half of the prepaid pension contribution of \$178,459 is recognized as deferred outflows of resources, and the other half will remain as a prepaid cost on the government-wide statement.

In September 1994, the County issued \$320,000 of pension obligation bonds, of which \$318,000 in proceeds were paid to OCERS. OCERS maintains the proceeds in a County Investment Account. Amounts in the County Investment Account have been used to fund a portion of the County's contributions over time, pursuant to agreements between OCERS and the County, which allows the County significant discretion in applying the credit. As of June 30, 2016, \$111,639 of such proceeds remains in the County Investment Account available for future credits to the County's pension obligations. For the year ended June 30, 2016, the County did not utilize funds available in the County Investment Account to meet its annual required contribution. The County's total contribution to OCERS for the year ended June 30, 2016 was \$384,133.

On January 13, 2016, the County issued its short-term Taxable Pension Obligation Bonds, 2016 Series A in the amount of \$334,275. Of the \$334,275 bond proceeds, \$333,811 was combined with \$23,106 in contributions from certain County agencies and departments to prepay the estimated FY 2016-17 actuarially required contribution related to both the amortization of the UAAL and the normal annual contribution to OCERS. In return, the County received a 5.80% discount or \$20,701 on the required employer contribution amount. The discount, combined with the interest and issuance costs, resulted in a net savings of \$16,236 to the County. Refer to Note 3, Deposits and Investments, and Note 9, Short-term Obligations, for additional information.

Amounts, provided by OCERS' actuarial study reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized as follows:

| | |
|----------------------|-----------|
| Year ending June 30: | |
| 2017 | \$ 86,792 |
| 2018 | 86,792 |
| 2019 | 86,792 |
| 2020 | 42,840 |
| 2021 | (35,899) |
| 2022 | (1,581) |
| Thereafter | - |

Actuarial Assumptions: The actuarial assumptions included a 3.0% inflation rate, 4.25% to 13.5% projected salary increases to general members and 5.00% to 17.50% to safety members, and a 7.25% investment rate of return, net of investment expense. The mortality assumptions used were based on the results of the actuarial experience study for the period of January 1, 2011 through December 31, 2013 using the RP-2000 Combined Healthy Mortality Table projected with the Society of Actuaries Scale BB to 2020.

Discount Rate: The discount rate used to measure the total pension liability was 7.25%, the long-term expected rate of return on plan assets. The projection of cash flows used to determine the discount rate assumed plan member contributions will be made at the current contribution rate and that the employer contributions will be made at rates equal to the actuarially determined contribution rates.

According to Paragraph 30 of GASB Statement No. 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The 7.25% investment return assumption used in this accounting valuation is net of investment expenses. Using this lower discount rate has resulted in a slightly higher total pension liability and net pension liability. The difference is not material to the County's financial statements.

17. RETIREMENT PLANS (Continued)

Orange County Employees Retirement System (OCERS) (Continued)

Discount Rate (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These returns are combined to produce the long-term expected rate of return by weighting the expected future real rate of return by the target asset allocation percentage adding expected inflation and deducting expected investment expenses and a risk margin.

The target allocation (approved by the OCERS Board) and projected arithmetic real rates of return for each major asset class, after deducting inflation but before deducting investment expenses, used in the derivation of the long-term expected investment rate of return assumption are summarized in the following table:

| Asset class | Target Allocation | Long-Term Expected Real Rate of Return |

| Large Cap U.S. Equity | 14.90% | 5.92% |
| Small/Mid Cap U.S. Equity | 2.73% | 6.49% |

Sensitivity of the County's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate:

The following presents the County's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the County's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

County of Orange - 1.62% at 65 Retirement, 401(a) Defined Contribution Plan (Continued)

Plan Description (Continued)

July 1, 2011, the Board approved the County 1.62% Defined Contribution Plan for the benefit of employees in the 1.62% at 65 retirement formula. The 1.62% Defined Contribution Plan is a combination governmental 457(b) and 401(a) retirement plan. Employee contributions are deposited into a 457(b) plan and employer-matching contributions are deposited into a 401(a) plan. Participation in the 1.62% Defined Contribution Plan is voluntary and is designed to supplement the "1.62% at 65" retirement benefit. Only employees in the "1.62% at 65" retirement benefit formula are eligible to participate in the 1.62% Defined Contribution Plan. Participation in the Plan is strictly voluntary.

On September 12, 2012, the Governor signed the PEPRA of 2013. PEPRA created a new pension retirement formula, commonly referred to as 2% at 62 retirement formula, for all new non-safety public employees hired on or after January 1, 2013. PEPRA also allowed a public employer to continue to offer another retirement formula, if offered before December 31, 2012, to new public employees if the retirement formula has a lower benefit factor at normal retirement age and results in a lower normal cost than the 2% at 62 PEPRA retirement formula. On December 18, 2012, the Board approved and adopted the 1.62% at 65 retirement formula for certain general (non-safety) public employees hired on or after January 1, 2013.

The Board has the authority to amend the plan. The plan is intended to comply with the requirements of Internal Revenue Code (IRC) Section 401(a) and is intended for retirement. Matching employer contributions are determined by the County and approved by the Board, as stipulated in the Participants' bargaining units Memorandum of Understanding (MOU) or Personnel and Salary Resolution, as applicable. Employer contributions vest on employees' behalf after five years of continuous service with the County. For the purposes of eligibility and vesting, year of service means a 12-consecutive-month period during which the employee completes at least 2080 hours of service, exclusive of overtime. If the employee leaves employment with the County prior to the vesting period, the employee will only be entitled to the employee contributions to the plan.

Funds may not be withdrawn until participants have separated from the County. The plan benefits for a participant who separates from service with the County or retires on or after the early or normal retirement date will be dependent upon the accumulated value of individual contributions and investment return. As of June 30, 2016, the plan had 980 participants with a balance in the plan, with 934 participants actively contributing to the plan as of the end of June payroll.

Funding Policy: This plan is a defined contribution plan funded entirely by employer contributions. As of June 30, 2016, the County provides up to a 2% match per pay period of the employee's voluntary contribution to the IRC Section 457 element of the 1.62% Defined Contribution Plan. Employer contributions are deposited into the 401(a) Plan. Total contributions for the fiscal year as of June 30, 2016, were \$736 by the County and zero by the employees.

Empower Retirement, formerly Great West Retirement Services, serves on behalf of the County as the third party administrator of the plan. Contribution to the plan defaults to the age-appropriate target-date fund upon initial enrollment. Once enrolled, plan participants may self-direct the investment of plan contributions into any of a number of eligible investment options offered under the plan. As of June 30, 2016, total plan assets were \$1,293.

Administrative Cost: There is an annual administrative fee of 0.18% charged to participants (at a monthly rate of 0.015%), which is capped for account balances at \$100. Each month, participant fees are based on the average daily balance of their account(s) over a 30-day period, and are reflected on participants' quarterly statements. No employer-level fees are charged for the plan.

County of Orange 401(a) Defined Contribution Plan

Plan Description: Effective January 1, 1999, as amended and restated on March 24, 2015, the Board established the County 401(a) Plan for the benefit of eligible employees, elected officials, which includes members of the Board, certain executive managers, certain administrative managers once classified as confidential and grandfathered in the plan, attorneys represented by the Orange County Attorney's Association, and certain other employee classifications as defined in the plan document. The Board also has the authority to amend the plan. The plan was closed to the attorneys effective June 24, 2005. The plan was closed to new administrative managers included in the Executive Policy Unit effective June 23, 2006. The plan is intended for retirement and funds may not be withdrawn until participants have separated from the County. The plan benefits for a participant who separates from service with the County or retires on or after the normal retirement date will be dependent upon the accumulated value of individual contributions and investment return. As of June 30, 2016, the plan had 662 participants with a balance in the plan, with 109 participants actively contributing to the plan as of the end of June payroll.

Funding Policy: This plan is a defined contribution plan funded entirely by employer contributions. County contributions to the plan vary according to employee classification and range from 4% to 8% of bi-weekly compensation. Total contributions for the fiscal year as of June 30, 2016, were \$991 by the County and zero by the employees.

Empower Retirement, formerly Great West Retirement Services, serves on behalf of the County as the third party administrator of the plan. Contribution to the plan default to the County's Stable Value Fund upon initial enrollment, which is offered through Empower Retirement and designed to protect principal and maximize earnings. Once enrolled, plan participants may self-direct the investment of plan contributions into any of a number of eligible investment options offered under the plan. As of June 30, 2016, total plan assets were \$14,261.

Administrative Cost: There is an annual administrative fee of 0.18% charged to participants (at a monthly rate of 0.015%), which is capped for account balances at \$100. Each month, participant fees are based on the average daily balance of their account(s) over a 30-day period, and are reflected on participants' quarterly statements. No employer-level fees are charged for the plan.

Extra-Help Defined Benefit Plan

Plan Description: The plan is a cost-sharing multiple-employer defined benefit retirement plan for employees working less than half-time or as extra-help for the County and six (6) other cost-sharing agencies. Eligible employees of this plan are not covered by OCERS or Social Security. Initially, the normal retirement benefits for a participant who retired on or after the normal retirement date was a monthly amount equal to one-twelfth of 2% of the participant's career earnings during the final 30 years of credited service. There are no automatic cost-of-living adjustment (COLA) increases and no ad hoc COLAs have ever been granted. The current benefit for a participant who terminates or retires after November 20, 2008 is a lump sum payment, which is equal to the actuarial equivalent of the participant's contribution plus interest earnings. The normal retirement date is the first day of the month coinciding with or immediately preceding a participant's 65th birthday.

The plan was adopted to comply with the Omnibus Budget Reconciliation Act of 1990. The Board has full authority to amend or establish plan or benefit provisions at any time in accordance with the plan. The County is the named fiduciary and has the duty and full power to administer the plan. The Chief Financial Officer of the County is the trustee of the plan, and has authority over the management and investment of plan assets.

The plan was adopted in January 1992 and was closed to new participants as of February 28, 2002. This plan subsequently froze benefit accruals and stopped collecting employee contributions effective November 21, 2008. As of that date, the normal retirement benefit was changed to a single lump sum distribution equal to the

Plan Description (Continued)

greater of the participant's account balance or the present value of their normal retirement benefit. As of June 30, 2016, the plan consists of 42 active plan participants, 225 terminated plan participants entitled to but not yet receiving benefits, and 41 retirees receiving benefits.

The plan financial statements are prepared using the accrual basis of accounting. County contributions are recognized in the period in which contributions are due, pursuant to the plan documentation and as may be required by statutory requirements. The benefits paid to participants and refunds of prior contributions are recognized when due and payable, in accordance with the terms of the plan.

The County charges a benefits administration fee to County agencies, which funds the cost of administering all of the County benefit programs, including the Extra-Help Defined Benefit Retirement Plan. The County Treasurer-Tax Collector charges its normal investment management fee related to the Pension Trust Fund's participation in the County Pool.

Contributions: The County has the authority to determine plan contributions. GASB Statement No. 67 requires the County to have an actuarial valuation performed at least biennially to determine the plan's total pension liability. This valuation is currently performed biennially. The plan's total pension liability was calculated using the data and assets as of July 01, 2015, rolled forward to June 30, 2016 and June 30, 2017 using actual benefit payments for FY 2015-16 and FY 2016-17. In both the 2015 valuation and the 2016 roll forward calculations the actuarial assets are valued at market value. The actuary has determined the County's actuarially determined contribution using the projected unit credit method, which is (a) normal cost, plus (b) 5-year amortization of the UAAL. Further information on the County's net pension liability and contributions can be found in the Required Supplementary Information (RSI) section following the notes to the basic financial statements. Based on the plan actuary's advice, the County determines the amount necessary for contribution to the plan. Since the plan's inception, the County and six (6) cost-sharing agencies have contributed \$5,688. For the year ended June 30, 2016, the County and six (6) cost-sharing agencies contributed the total actuarially determined contribution of \$784, which is equal to normal cost plus 5-year amortization of the UAAL. The County's proportionate share of the contribution was \$769.

Plan participants do not contribute to the fund effective November 21, 2008 (the date of the freeze). Note that effective November 21, 2008, the normal cost is \$0 due to the plan freeze.

Investment policy: The County has sole authority for establishing and amending the plan's investment policy and allocation of the invested assets. The plan's policy in regard to the allocation of invested assets may be established and amended by the plan's Trustee. The plan may invest in bonds, mortgages, notes, common or preferred stock, mutual funds, or other securities, policies of life insurance, annuity contracts, or property (real, bank deposits, or retain in cash or other property).

Concentrations: The plan invested 80% with Empower Retirement, and held 20% of its investments in the Orange County Investment Pool (OCIP). See Note 3, Deposits and Investments for information about OCIP. The plan has stated its assets with Empower Retirement and its investments in OCIP at fair value based on information provided by Empower Retirement and OCIP respectively.

Discount Rate: For the year ended June 30, 2016, the annual money-weighted rate of return on the Plan's investments, net of pension plan investment expense, was 2.22%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The discount rate used to measure the total pension liability was 5.25%, the same as long-term expected rate of return on plan assets.

17. RETIREMENT PLANS (Continued)

County Administered Pension Plans (Continued)

Extra-Help Defined Benefit Plan (Continued)

Discount Rate (Continued)

According to Paragraph 30 of GASB Statement No. 68, the long-term discount rate should be determined without reduction for pension plan administrative expense. The investment return assumption used in this accounting valuation is 5.25%.

The long-term expected rate of return on plan investments was determined using a building-block method equal to the expected future real rate of return on the investment with Empower Retirement and the OCIP plus expected inflation, rounded to the nearest 0.25%. The target investment allocation is 27% equities, 53% fixed incomes, and 20% cash and equivalents. The best estimate of the long-term expected geometric real rate of return for these asset classes (net of investment expense and inflation) are 5.35%, 1.55%, and 0.45%, respectively.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources related to Pensions: The components of the collective net pension liability of the County and the six (6) cost-sharing agencies at June 30, 2016 were as follows:

| | | |
|--|----|--------------|
| Total Pension Liability | \$ | 8,498 |
| Plan's Fiduciary Net Position | | (5,599) |
| Plan's Net Pension Liability | \$ | <u>2,899</u> |
| | | |
| Plan Fiduciary Net Position as a percentage of the Total Pension Liability | | 65.89% |

The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2015 and rolled forward to the measurement date of June 30, 2016. The County's proportionate share of the June 30, 2016 net pension liability is \$2,845. The County's proportion of 98.12% is based on an employer contribution allocation and has not changed since June 30, 2015.

For the year ended June 30, 2016, the County recognized pension expense of \$357. At June 30, 2016, the County reported deferred outflows of resources of \$214, which represents the net difference between projected and actual earnings on plan investments.

| | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|-----------------------------------|----------------------------------|
| Net difference between projected and actual earnings on plan investments | \$ 214 | \$ - |
| Total | \$ <u>214</u> | \$ <u>-</u> |

The deferred outflows of resources related to this pension plan will be recognized as pension expense for the County as follows:

| | |
|---------------------|-------|
| Year ended June 30: | |
| 2017 | \$ 61 |
| 2018 | 61 |
| 2019 | 61 |
| 2020 | 31 |

Actuarial Assumptions: The total pension liability based on the July 1, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods in the measurement: (a) 3% inflation, (b) 5.25% investment return, (c) the 417(e) lump sum mortality table used for ERISA-governed plans and the 30-year Treasury rate with a look-back month of November grading into the long-term assumption of 5.0%, and (d) RP-2000 Combined Healthy Mortality Table projected with Scale BB to 2020. This plan does not have a salary increase assumption or post-retirement benefit increase assumption as these factors do not impact the benefits of this frozen plan.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate: The following presents the net pension liability of the collective plan and the County's proportionate share, calculated using the discount rate of 5.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.25%) or 1-percentage-point higher (6.25%) than the current rate:

| | 1% Decrease (4.25%) | Current Discount Rate (5.25%) | 1% Increase (6.25%) |

Extra-Help Defined Contribution Plan

Plan Description: Effective March 1, 2002, as amended and restated on February 10, 2015, the Board established the Extra-Help Defined Contribution Plan to replace the Extra-Help Defined Benefit Retirement Plan for (a) new employees hired on or after March 1, 2002, and supplements the benefits of the Extra-Help Defined Benefit Retirement Plan for employees hired prior to March 1, 2002 and (b) effective February 10, 2015, employees hired on or after such date (i) who attained age 60 by such hire date, (ii) who waive membership in the Orange County Employees Retirement System (OCERS), do not have funds on deposit with OCERS and otherwise meet the requirements under OCERS' regulations and state law to waive membership in OCERS, (iii) whose Employer has signed the OCERS Employer's Concurrence – Waiver of Membership form or any other documents that may be required by OCERS, and (iv) who sign the OCERS Employees' Waiver of Membership form and provide any other documents required by OCERS to waive membership. Eligible employees of this plan are not covered by OCERS or Social Security. This plan is a tax-deferred retirement plan, established in accordance with IRC Sections 457 and 3121 and is intended to comply with the Omnibus Budget Reconciliation Act of 1990 and meet the requirements to be a Social Security replacement plan. The Board has the authority to amend the plan. As of June 30, 2016, there were 3,840 participants with a balance in the plan, with 404 participants actively contributing to the plan as of the end of June payroll.

The plan is intended for retirement and funds may not be withdrawn until participants have separated from the County. The plan benefits for a participant who separates from service with the County or retires on or after the normal retirement date will be dependent upon the accumulated value of individual contributions and investment return.

If a participant's employment status changes from a part-time or extra-help employee to a permanent full-time employee or a part-time employee working 20 hours or more per week, those participants may elect to transfer the balance to the County's Section 457 Defined Contribution Plan or leave the balance in the plan until they are no longer employed with the County.

Funding Policy: Participants in the plan are required to contribute 7.5% of compensation each pay period. The contributions are invested in the County's Stable Value Fund offered through Empower Retirement, which is designed to protect principal and maximize earnings. Empower Retirement serves on behalf of the County as

the third party administrator of the plan and holds all plan assets in trust. In the current fiscal year there was no additional contribution made by the County, and total employee contributions were \$951. As of June 30, 2016, total plan assets were \$7,359.

Administrative Cost: There is an annual administrative fee of 0.18% charged to participants (at a monthly rate of 0.015%), which is capped for account balances at \$100. Each month, participant fees are based on the average daily balance of their account(s) over a 30-day period, and are reflected on participants' quarterly statements. No employer-level fees are charged for the Plan.

County of Orange Retiree Medical Plan

Plan Description: The County of Orange Third Amended Retiree Medical Plan (the Retiree Medical Plan) is a single employer defined benefit OPEB plan, intended to assist career employees in maintaining health insurance coverage following retirement from County service. The Retiree Medical Plan was established by the Board. The Board is also the authority for amending the Retiree Medical Plan. The Retiree Medical Plan is not required by the Retirement Law – the statute governing County employee retirement benefits. Eligible retired County employees receive a monthly grant (the Grant), which helps offset the cost of monthly County-offered health plans and/or Medicare A and/or B premiums. The Retiree Medical Plan specifically states that it does not create any vested right to the benefits.

In order to be eligible to receive the Grant upon retirement, the employee must have completed at least 10 years of continuous County service (although exceptions for disability retirements exist), be enrolled in a County sponsored health plan and/or Medicare, qualify as a retiree as defined by the Retiree Medical Plan and be able to receive a monthly benefit payment from OCERS. To qualify as a retiree as defined by the Retiree Medical Plan, the employee upon retirement must be at least 50 years of age or have at least 20 years of service for a safety member of OCERS or at least 30 years of service for a general member of OCERS.

The monthly Grant amount is determined by a formula that multiplies a base number by the number of years of qualifying County employment up to a maximum of 25 years. The base number for calendar year 2015 was \$21.13 (absolute dollars) per year of County service, and the maximum base monthly Grant was \$528.25 (absolute dollars). The base number for calendar year 2016 is \$21.45 (absolute dollars) per year of County

County of Orange Retiree Medical Plan (Continued)

Plan Description (Continued)

service, and the maximum monthly Grant is \$536.25 (absolute dollars). The amount of the Grant is netted against the monthly health plan premium and/or reimburses Medicare premiums paid by the retiree for retiree and dependent coverage with the retiree obligated to pay the remaining balance. In no case shall the Grant exceed the actual cost to a retiree for the Qualified Health Plan and Medicare premiums.

The Grant is reduced by 50% once the retiree becomes Medicare A and B eligible. Retirees who were age 65 and/or Medicare A and B eligible on the effective date are not subject to the Medicare reduction. For employees retiring after the effective date, the Grant is reduced or increased by 7.5% based on the employee's age at retirement, such that the Grant is reduced 7.5% for each year under age 60 and increased by 7.5% for each year of age worked after age 60 up to age 70. The effective date varies by labor agreement. Safety employees and disability retirements are exempt from the age adjustment.

The base number for the Grant is adjusted annually based on a formula defined in the Retiree Medical Plan document with a maximum increase/decrease of 3%. Surviving dependents of a deceased employee or retiree eligible for the Grant are entitled to receive 50% of the Grant that the employee/retiree was eligible to receive.

In addition to the Grant, the Retiree Medical Plan provides a frozen lump sum payment to terminated employees not eligible for the Grant. The qualifying hours of service for calculation of the lump sum payment is frozen and the effective date varies by labor agreement. The frozen lump sum payment is equal to 1% of the employee's final average hourly pay (as defined in the Retiree Medical Plan) multiplied by the employee's qualifying hours of service (as defined) since the Retiree Medical Plan's effective date.

Employees represented by the AFSCME who retired before September 30, 2005 are not subject to the Medicare reduction or age adjustment to the Grant. The base number for these retirees is adjusted annually with a maximum increase/decrease of 5%. AFSCME employees who were employed on or after September 30, 2005 are not eligible for the Grant or the lump sum payment. They may participate in the County-offered health plans at their own cost if they meet the minimum plan requirements.

Employees represented by the Association of Orange County Deputy Sheriffs (AOCDS) who were hired on or after October 12, 2007 are not eligible for the Grant or lump sum payment. Service hour accruals for the Grant and lump sum calculations for employees represented by AOCDS who were hired before October 12, 2007 were frozen. A Defined Contribution Plan (Health Reimbursement Arrangement) was established to replace the Grant for new employees, and to supplement the frozen grants for current employees.

Employees represented by the Association of County Law Enforcement Managers (ACLEM) who were hired on or after June 19, 2009 are not eligible for the Grant or lump sum payment. Service hour accruals for the Grant calculations for law enforcement management employees who were hired before June 19, 2009 were frozen. The qualifying hours of service for calculation of the lump sum payment for law enforcement management employees were frozen as of June 23, 2006. A Defined Contribution Plan (Health Reimbursement Arrangement) was established to replace the Grant for new employees and to supplement the frozen grants for current employees.

Effective January 1, 2008, health insurance premium rates were separately pooled for the active and retired employees, except for employees represented by the AOCDS. Effective July 1, 2008, retiree health insurance premium rates for retired employees enrolled in the AOCDS health plans have been 10% higher than active employees.

County of Orange Retiree Medical Plan (Continued)

Plan Description (Continued)

On May 12, 2015, the Board approved the restructuring of the Retiree Medical Plan for employees represented by Orange County Attorneys Association (OCAA). Effective July 8, 2016, all active OCAA employees are no longer eligible for the Retiree Medical Grant or Lump Sum. A Defined Contribution Plan (HRA) was established to replace the Grant or Lump Sum for all active employees.

Funding Policy: The County implemented an employer contribution in an amount equal to the Annual Required Contribution (ARC) for the affected labor groups except AOCDS. In order to more adequately fund benefits under the Retiree Medical Plan, on June 19, 2007, the Board adopted the County of Orange Retiree Medical Trust (Trust) effective July 2, 2007. The Trust is an Internal Revenue Code section 115 trust for which the County Chief Financial Officer is the Trustee. In addition, OCERS has established an Internal Revenue Code section 401(h) account to invest monies and acts as Trustee for the 401(h) account which is used to pay the Grant. OCERS issues a Comprehensive Annual Financial Report (CAFR) for each year ending on December 31, which includes the Retiree Medical Trust. OCERS' CAFR can be obtained online at www.ocers.org, by written request to the Orange County Employees Retirement System, 2223 Wellington Avenue, Santa Ana, CA 92701, or by calling (714) 558-6200.

The County is currently setting aside contributions of 0.4% for AFSCME, 0.4% for OCAA, 3.3% for AOCDS, 6.9% for law enforcement management, 3.9% for the Probation Department safety personnel, and 4.0% of payroll for all other labor groups, which is the ARC for those groups. Additionally, effective July 10, 2015, contributions by employees represented by AOCDS and ACLEM hired before April 4, 2009 were reduced from 2.6% to 1.6% of base, while employees hired on or after April 4, 2009 were reduced from 1% to 0%.

Funds were initially deposited into the Trust in December 2007, with subsequent deposits made throughout each fiscal year. The costs to administer the Trust are paid from the Trust.

Actuarial Methods and Assumptions: The County contracts with an outside actuarial consultant to prepare a biennial actuarial valuation in conformance with GASB Statement No. 45. The County received a June 30, 2015 valuation for FY 2015-16, 2016-17 and 2017-18 for the Retiree Medical Plan (the Report). Among the actuarial methods and assumptions used in the Report are:

- The entry age normal actuarial cost method
- Closed period amortization of the June 30, 2008 UAAL over 29 years as a level percentage of payroll (21 years remaining as of June 30, 2016)
- A 7.25% long-term expected rate of return on funds held in the Trusts
- A 3.50% per annum payroll increase assumption
- A 3.00% per annum general inflation rate assumption
- The assumed annual increases in the monthly Grant of 3% for non-AFSCME employees and 5% for AFSCME employees. The healthcare trend was assumed to be greater than or equal to the annual increase to the Grant through 2021 and beyond. Therefore, healthcare trend rates have little impact on the projected benefits and the UAAL due to the 3% (or 5% for AFSCME) cap on Grant annual increases.
- There are an estimated 26,218 participants in the plan of which 17,925 are employees, 25 are deferred retirees, and 8,268 are retirees.

Annual OPEB Cost and Net OPEB Obligation/(Asset): The County's annual OPEB cost is calculated based on the ARC, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period of time not to exceed 30 years.

County of Orange Retiree Medical Plan (Continued)

Annual OPEB Cost and Net OPEB Obligation/(Asset) (Continued)

The following table shows the components of the County's annual OPEB cost, the amount actually contributed to the 115 and 401(h) Trusts and changes in the County's Net OPEB Obligation (NOO) for the current year:

| | FY 2015-16 |
|------------------------------------|--------------|
| Total Annual Required Contribution | \$ 44,368 |
| Interest on Net OPEB Asset | (3,470) |
| Amortization on Net OPEB Asset | 3,541 |
| Annual OPEB Cost | 44,439 |
| Contributions Made | (42,490) |
| Decrease in Net OPEB Asset | 1,949 |
| Net OPEB Asset, Beginning of year | (45,056) |
| Net OPEB Asset, End of year | \$ (43,107) |

The County's annual OPEB Cost, the percentage of annual OPEB cost contribution to the plan, and the NOO for FY 2015-16 and two preceding years were as follows:

| Fiscal Year Ended | Annual OPEB Cost | Percentage of Annual OPEB Cost Contributed | Net OPEB (Asset) |
|-------------------------|------------------------|--|------------------------|
| 6/30/2014 | \$ 43,136 | 116% | \$ (48,729) |
| 6/30/2015 | 44,854 | 92% | (45,056) |
| 6/30/2016 | 44,439 | 96% | (43,107) |

Funded Status and Funding Progress: The funded status of the OPEB Plan as of June 30, 2015 is as follows:

| | |
|---|--------------|
| Actuarial Accrued Liability (AAL) | \$ 614,500 |
| Actuarial Value of Plan Assets | 217,556 |
| Unfunded Actuarial Accrued Liability (UAAL) | \$ 396,944 |
| Funded Ratio (Actuarial Value of Plan Assets/AAL) | 35.4% |
| Covered Payroll | \$ 1,188,727 |
| UAAL as Percentage of Covered Payroll | 33.4% |

The preceding noted actuarial accrued liability was based on the June 30, 2015 actuarial valuation. Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation. The actuarial valuations contained in the report involve estimates of the values of reported amounts and assumptions about the probability of events far into the future and will be subject to continual revision as they reflect a long-term perspective. Assumptions used in the report also include techniques designed to reduce short-term volatility in AAL and the actuarial value of assets. Current estimates of the funded status and trend information about the funding progress and the employer contributions are presented in the Required Supplementary Information section following the notes to the basic financial statements.

County of Orange Health Reimbursement Arrangement (HRA)

Plan Description: On October 23, 2007, the Board approved and adopted a Memorandum of Understanding (MOU) agreement with the AOCDS. The MOU restructured the Retiree Medical Plan and established a Defined Contribution Plan (Health Reimbursement Arrangement) to replace the Retiree Medical Plan for new employees, and to supplement the current employees' frozen service hour accruals for the Grant.

On June 24, 2008, the Board approved the County of Orange Health Reimbursement Arrangement (HRA) Plan Document. The HRA Plan is not required by the Retirement Law. The plan is intended to fund the reimbursement accounts of eligible employees on a pre-tax basis and reimburse the eligible unreimbursed and substantiated qualified medical expenses of retired participants.

On March 10, 2009, the Board approved the restructuring of the Retiree Medical Plan and establishment of a Defined Contribution Plan HRA for employees represented by ACLEM effective June 19, 2009. The HRA replaces the Retiree Medical Plan for new employees, and supplements the current ACLEM employees' frozen service hour accruals for the Grant.

On May 12, 2015, the Board approved the restructuring of the Retiree Medical Plan and establishment of a Defined Contribution Plan HRA for employees represented by OCAA effective July 8, 2016. The HRA will replace the Retiree Medical Plan for all active attorney employees.

Administration of the HRA by the third party administrator began in August 2009. The HRA is intended to comply with the requirements of IRC Sections 105 and 106 and meets the requirements of a health reimbursement arrangement as defined under IRS Notice 2002-45. The contributions made to reimbursement accounts, any investment gains and qualified medical expenses reimbursed under this plan are intended to be eligible for exclusion from the gross income of eligible employees, participants and retired participants (including the spouses and dependents of each) under IRC Section 105(b). The HRA may be amended by the employer or the plan administrator to comply with federal, state, or local laws, statutes, regulations, or guidelines. The Plan Document was amended and restated on January 1, 2011 to reflect changes to the definition of dependent due to healthcare reform.

The Plan Document was amended and restated on June 1, 2016 to provide for the transition of the OCAA to the HRA Plan in July 2016. Prior employee contributions for employees represented by OCAA to the retiree medical program and the interest earnings thereon through, July 5, 2016 were transferred as a lump sum deposit for eligible employees to their HRA accounts.

As of June 30, 2016, the plan had 2,072 active and 572 inactive participants.

Funding Policy: Employer and mandatory employee contributions were effective October 12, 2007, for employees represented by AOCDS and were effective June 19, 2009, for employees represented by ACLEM. Employer and mandatory employee contributions were effective July 8, 2016, for OCAA represented employees. All contributions made to the HRA are deemed to be employer contributions. Employee contributions for employees represented by each of the bargaining units are mandatory pursuant to their bargaining unit MOU and mandatory pursuant to Board action. On March 15, 2016, the Board approved for employees represented by AOCDS, an increase in the County's contribution from 3.0% to 5.0% of base salary each pay period. Furthermore, required contributions by employees represented by AOCDS were decreased from 2.0% to 0% of base salary for each pay period. Employee contributions for employees represented by ACLEM and OCAA are mandatory pursuant to the MOU. For employees represented by ACLEM, the County contributes 1.0% of base salary each pay period and employees are also required to contribute 1.0% of base salary each pay period. When implemented, for employees represented by OCAA, the County will contribute 1.0% of base salary each pay period and employees will also be required to contribute 1.0% of base salary each pay period.

County of Orange Health Reimbursement Arrangement (HRA) (Continued)

Funding Policy (Continued)

ICMA Retirement Corporation serves on behalf of the County as the third party administrator of the HRA. Contributions to the HRA Plan default to the age-appropriate target-date fund upon initial enrollment. Once enrolled, HRA participants may self-direct the investment of plan contributions into any of a number of eligible investment options offered under the HRA. As of June 30, 2016, the value of HRA assets was \$78,286.

Administrative Cost: Annual administrative fees include a plan asset fee of 0.40% and annual account fee of \$80. Each quarter, 25% of the fees are assessed to participant accounts and are reflected on participants' quarterly statements. No employer-level fees are charged for the Plan.

19. CONTINGENCIES

Estimated Liability for Litigation and Claims

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County's legal counsel, the resolution of these matters will not have a material adverse effect on the financial condition of the County. To the extent the outcome of such litigation has been determined to result in probable financial loss to the County, a liability has been accrued in the accompanying financial statements. Litigation where loss to the County is reasonably possible has not been accrued and at this time an estimate cannot be made. For information regarding accrued liabilities for self-insurance claims incurred but not reported, refer to Note 15, Self-Insurance.

Sales and Use Taxes

The Board of Equalization (BOE) recently participated in an Internal Accounting and Administrative Controls Review by the California State Controller's Office (SCO). The SCO released a report in November 2015 identifying several issues with the allocation of the Sales and Use Taxes for the period of July 1, 2011 through March 31, 2016. The SCO recommendations contain some future negative adjustments that would potentially affect the County's Proposition 172 Public Safety Sales Tax revenues, 1991 Realignment and 2011 Realignment revenues. The BOE is currently working with the California Department of Finance (DOF) to determine the potential adjustments. The DOF has assured the BOE that any retroactive adjustments will be made in partnership with localities and conducted in such a manner as to minimize fiscal impacts. The amount of impact to the County is unknown at this time.

20. SUBSEQUENT EVENTS

The following events occurred subsequent to June 30, 2016:

Teeter Plan Notes: On July 13, 2016, the County issued an additional \$31,536 in Teeter Plan Series B Notes to finance the purchase of the delinquent property tax receivables associated with the Teeter Plan, leaving an outstanding balance of \$61,727. Proceeds of this issuance paid the participating agencies in the Teeter Plan the full amount of their taxes from the secured property tax roll. For additional information regarding the Teeter Plan Series B Notes, refer to Note 10, Long-Term Obligations.

Moody's Credit Rating Upgrades: On October 4, 2016, Moody's Investors Service upgraded the ratings on the County's 1991 Civic Center Parking Facilities Project Refunding Certificates of Participation, 2005 Lease Revenue Refunding Bonds, 2006 Lease Revenue Bonds, and the Juvenile Justice Center Facility Lease Revenue Refunding Bonds, Series 2012 to Aa2 from Aa3.

Labor Negotiations: On September 6, 2016, the Board approved and adopted the 2016 – 2019 Memorandum of Understanding (MOU) between the County of Orange and the Association of Orange County Deputy Sheriffs for the Peace Officer and Supervising Peace Officer Unit for the period of July 1, 2016 through June 30, 2019. The estimated total cost resulting from this labor negotiation is \$7,200 (\$4,300 Net County Cost) over the term of the MOU. \$1,100 (\$651 Net County Cost) of the total estimated cost will occur in FY 2016-17; \$2,600 (\$1,600 Net County Cost) will occur in FY 2017-18; \$3,500 (\$2,100 Net County Cost) will occur in FY 2018-19.

On December 13, 2016, the Board approved and adopted the 2016-2019 MOU between the County of Orange and the Teamsters Local 952, which will ratify the terms and conditions of employment. The MOU will be effective upon Board of Supervisors' adoption through June 20, 2019. The estimated total cost incurred over the term of the MOU is \$5,527, \$109 of which is Net County Cost. \$727 (\$14 Net County Cost) of the total estimated costs will occur in FY 2016-2017; \$2,000 (\$40 Net County Cost) will occur in FY 2017-2018; \$2,800 (\$55 Net County Cost) will occur in FY 2018-2019.

Investment Policy Statement: On November 22, 2016, the Board of Supervisors adopted Resolution 16-115 approving the 2017 Investment Policy Statement (IPS) and delegating investment and deposit for safekeeping

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

These funds are used to account for the proceeds of specific revenue sources (other than the permanent fund or for major capital projects) that have either legal or operational requirements to restrict expenditures for specified purposes.

Parking Facilities

This fund is used to account for revenues and expenditures related to parking facilities. This includes costs to lease parking spaces for County staff, costs and revenue from the Manchester and Hall of Administration lots, interest revenue, and the County's operating and maintenance costs.

Service Areas, Lighting, Maintenance and Assessment Districts

This group of funds is used to account for the construction of public facilities from the proceeds of various Mello-Roos districts (also known as Community Facilities Districts) bond issues, special assessment district bond issues, and interfund transfers from County Service Area operating funds. Upon completion of construction, the public facilities are transferred to the Special Assessment and Community Facilities Districts. It is also used to account for local park and recreation facilities, highway lighting, and street sweeping services within unincorporated areas of the County. Revenues consist primarily of property taxes and state grants.

Other Environmental Management

This group of funds is used to account for Local Redevelopment Authority (LRA) activities, fees from violations of fish and game laws, usage of various state tidelands held in trust by the County, registration of off-highway vehicles, and motor vehicle fees levied by the South Coast Air Quality Management District.

Tobacco Settlement

This fund accounts for tobacco settlement monies allocated to the County from the State of California, pursuant to the Master Settlement Agreement concluded on November 23, 1998 between the major tobacco companies and 46 states (including California), the District of Columbia and four U.S. Territories. On November 7, 2000, Orange County voters passed Measure H. This measure requires the County to utilize its share of the national tobacco litigation settlement revenues in the following percentages:

- 80% for specified health care services
- 20% for public safety

Community and Welfare Services

This group of funds is used to account for the Orange County Workforce Investment Act, Welfare-to-Work, Shelter Care Facilities, In Home Supportive Services, Housing and Community Development, Substance Abuse Treatment, and Other Community and Welfare Social Programs. Revenues consist primarily of Federal grants passed through the State, as well as State grants.

OC Parks

This fund accounts for the development and maintenance of County tidelands and related aquatic recreational facilities, as well as the acquisition, operation and maintenance of County beaches, inland, regional park facilities and community park sites in the unincorporated areas. Revenues consist primarily of property taxes, state aid, lease and concession revenues, and park and recreation fees.

OC Dana Point Harbor

This fund accounts for monies received primarily through rent and concession revenues which are dedicated to providing public coastal access, environmental stewardship, and a diverse regional recreational facility so all users and visitors may experience the unique Dana Point Harbor resource in a safe and enjoyable way.

Housing Asset

The Orange County Development Agency (OCDA) was dissolved effective February 1, 2012 in accordance with Health and Safety Code 34172. The Orange County Housing Authority assumed the housing functions

previously performed by OCDA. The Housing Asset Fund was established and the housing assets from the OCDA Low and Moderate Income Housing Fund were transferred into the Fund.

Schedule I County-Administered Accounts

These funds are used to account for the portion of the 1996 Recovery Certificates of Participation which were used to reimburse certain County-administered accounts for their allocated share of the Orange County Investment Pool loss, in accordance with the County's Modified Second Amended Plan of Adjustment ("Plan of Adjustment"), Exhibit 8 - "Schedule I - County-Administered Accounts." In addition, on February 2, 2000, the Bankruptcy Court ordered a segregation of litigation proceeds to ensure indemnification of the representative, Tom Hayes, and others pursuant to the plan, to pay future expenses, fees, and charges incurred by the representative, and to pay litigation costs. The residual balances in these funds were distributed in FY 2015-16.

OC Public Libraries

This fund accounts for library services for the unincorporated areas as well as some of the incorporated areas within the County. Property taxes provide most of the fund's revenue and licenses, permits, federal and state aid, and charges for services provide the remaining revenue.

Plan of Adjustment Available Cash

This group of funds is used to account for monies set aside, pursuant to the Plan of Adjustment, for specified parties to the 1994 bankruptcy and for County-Administered Accounts. These monies are then distributed from these funds in accordance with the provisions in the Plan of Adjustment.

Health Care Programs

This group of funds is used to account for Board-approved Realignment Reserves for Health Care, Medi-Cal Mental Health Managed Care programs, Medi-Cal Administrative Activities and Targeted Case Management, Bioterrorism Preparedness grant funds, Emergency Medical Services allocations, and other purpose-restricted revenues related to health care programs. Revenues consist primarily of State grants and allocations, and Federal grants passed through the State.

Roads

This fund accounts for proceeds restricted for the maintenance and construction of roadways, and for specialized engineering services to other governmental units and the public. Revenues consist primarily of the County's share of state highway users' taxes, federal funds, and charges for engineering services provided.

Orange County Housing Authority

This fund is used to account for revenues received from the Federal Government for Section 8 Rental Assistance Program expenditures. This program assists low-income families to obtain decent, safe and sanitary housing through a system of rental subsidies.

Other Governmental Resources

This group of funds is used to account for fees charged for property characteristics information that are purpose-restricted for technological and capital acquisitions and/or improvements.

NONMAJOR GOVERNMENTAL FUNDS (Continued)

DEBT SERVICE FUNDS

These funds are used to account for the accumulation and disbursement of taxes and other revenues for the periodic payment of principal and interest on general long-term debt that includes general obligation, revenue, and demand bond issues.

Teeter Plan Notes

This fund accounts for the financing of the County's purchase of delinquent taxes receivable pursuant to the Teeter Plan. The Teeter Plan is an alternate secured property tax distribution plan, whereby, the County distributes 100% of the local secured levy to the taxing agencies participating in the Teeter Plan and in exchange receives the right to keep the delinquent taxes, penalties and interest.

Orange County Public Facilities Corporation Bonds, Master Lease

This non-budgeted fund is used to account for Orange County Public Facilities Corporation Revenue Bonds (governmental fund type components only) and for Master Lease Obligations.

Pension Obligation Bonds

This fund is used to account for the debt service expenditures for the Orange County Taxable Pension Obligation Bonds.

South OC Public Financing Authority

This non-budgeted fund was established to account for the debt service expenditures for the South Orange County Financing Authority (SOCPFA). Included is the Lease Revenue Refunding Bonds, Series 2012, which were issued to redeem the outstanding OCPFA 2012 JJC bonds and pay costs relating to the issuance. On June 2, 2016 SOCPF issued the Central Utility Facility Lease Revenue Bonds, Series 2016 to finance the acquisition, construction and installation of certain capital improvements.

Orange County Public Financing Authority

This fund was established to account for the debt service expenditures for the Orange County Public Financing Authority (OCPFA). On August 16, 2005, OCPFA issued Lease Revenue Refunding Bonds Series 2005 to defease certain non-callable Recovery COPs, refund the remaining COPs, fund a debt service reserve fund, and pay the cost of issuance of the Series 2005 Bonds.

CAPITAL PROJECTS FUNDS

These funds are used to account for the acquisition and construction of major capital facilities (other than those financed by the proprietary funds).

Criminal Justice Facilities

This group of funds is used to account for monies received from surcharges and penalty assessments on offenses used for capital improvements to court and other criminal justice facilities.

Countywide Capital Projects Non-General Fund

This fund was established to budget and account for the multi-year approved capital projects funded primarily with Net County Cost or general purpose revenue.

PERMANENT FUND

A Permanent Fund is used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry.

Regional Park Endowment

This fund is used to account for costs associated with the repair and maintenance of a mitigation area in Limestone Regional Park.

FIDUCIARY FUNDS

Fiduciary funds are used to account for assets held by the County in a trustee or agency capacity on behalf of outside parties, including employees, individuals, private organizations, or other governments. These funds cannot be used to support the County's programs. When these assets are held under a formal trust agreement, a trust fund is used. Agency funds are generally used to account for assets that the County holds on behalf of others as their agent in a purely custodial capacity.

PRIVATE-PURPOSE TRUST FUNDS

Public Administration Trust Funds

These funds are used to account for trust arrangements where the principal and income benefit individuals, private organizations, or other governments. Examples of private-purpose trusts include unidentified funds, unclaimed prisoner funds, and decedents' property held for escheatment.

County of Orange Redevelopment Successor Agency

The Orange County Development Agency (OCDA) was dissolved effective February 1, 2012 in accordance with Health and Safety Code 34172. A successor agency was designated as the successor entity to the former redevelopment agency in accordance with Health and Safety Code 34173. The Successor Agency holds the assets of the dissolved OCDA pending liquidation and distribution.

PENSION AND OTHER EMPLOYEE BENEFITS TRUST FUNDS

Extra-Help Defined Benefit Plan

This fund is used to account for the retirement plan for employees working less than half-time or as extra-help. This retirement plan was closed to new participants as of February 28, 2002. The eligible employees of these plans are not covered by the Orange County Employees Retirement System (OCERS).

Extra-Help Defined Contribution Plan

This fund is used to account for the defined contribution retirement plan for extra-help and part-time employees. This plan replaced the Extra-Help Defined Benefit Retirement Plan and was effective for new employees on March 1, 2002. Effective February 10, 2015, the plan also includes new employees who have attained age 60 at date of hire, who waive membership in OCERS, and do not have funds on deposit with OCERS and otherwise meet the requirements under OCERS' regulations and state law to waive membership in OCERS. The eligible employees of these plans are not covered by OCERS.

401(a) Defined Contribution Plan

This fund accounts for the 401(a) defined contribution plan, which was established in January 1999 for eligible employees, including the members of the Board, certain executive managers, certain administrative managers once classified as confidential and grandfathered in the plan, attorneys represented by the Orange County Attorney's Association and certain other employee classifications as defined in the plan document. The plan was closed to the attorneys effective June 24, 2005. The plan was closed to new administrative managers and to all grandfathered administrative managers, effective June 23, 2016 and December 28, 2012, respectively.

1.62% at 65 Retirement, 401(a) Defined Contribution Plan

This fund is used to account for the matching 401(a) employer contributions for eligible employees in the "1.62% at 65" Retirement (OCERS) formula who voluntarily contribute to the "1.62% at 65" Retirement, 457(b) defined contribution plan. The Plan was established on May 7, 2010.

Retiree Medical Plan

This fund is used to account for the annual required contributions, benefit payments, and investment losses and gains in the Retiree Medical Trust which was established effective July 2, 2007. The Retiree Medical Trust was established exclusively for the Retiree Medical Plan which is a single employer Other Postemployment Benefit plan that was established on August 1, 1993 for eligible employees as defined in the plan document.

Health Reimbursement Arrangement Plan

This fund is used to account for the employer contributions to the Health Reimbursement Arrangement (HRA), a defined contribution plan, which was established on June 17, 2008 for eligible employees, including employees represented by the Association of Orange County Deputy Sheriffs and Law Enforcement Management employees as defined in the plan document. The HRA was amended and restated on June 1, 2016 to provide for the transition of the Orange County Attorney's Association to the HRA Plan in July 2016.

AGENCY FUNDS

Unapportioned Tax and Interest Funds

This group of funds is used to account for the collection of property taxes, and later distribution of such taxes, as well as the interest earned on them. Included are taxes collected by the County for other governmental units using the County treasury, as well as governmental units not using the County treasury, such as cities.

Departmental Funds

This group of funds is used by certain County officers to hold various types of cash receipts and deposits in a fiduciary capacity. Disbursements are made from these funds by checks issued by the County Auditor-Controller upon requisition of the responsible officer.

- Notes:
- (1) Article XIII A, added to the California Constitution by Proposition 13 in 1978, fixed the base valuation of property subject to taxes at the full cash value appeared on the Assessor's 1975-76 assessment roll. The full cash value can be increased to reflect the annual inflation up to 2 percent, the current market value at time of ownership change and the market value for new construction. Estimated actual value of taxable property cannot easily be determined as the property in the County is not reassessed annually. Reassessment normally occurs when ownership changes.
 - (2) Other property includes: timeshares, rural/agricultural land, unique miscellaneous, mineral rights, water rights and personal property and fixtures.
 - (3) Unsecured roll includes properties for which taxes assessed are not a lien on real property and are not sufficient, in the opinion of the Assessor, to secure payment of taxes. It consists of improvements, business personal property, boats and aircrafts, and it can also include land and improvements that are identified as real estate of others, as defined by the Assessor (reference Revenue and Taxation Code Section 134).

- (1) Article XIII A, added to the California Constitution by Proposition 13 in 1978, fixed the base valuation of property subject to taxes at the full cash value appeared on the Assessor's 1975-76 assessment roll. The full cash value can be increased to reflect the annual inflation up to 2 percent, the current market value at time of ownership change and the market value for new construction. Estimated actual value of taxable property cannot easily be determined as the property in the County is not reassessed annually. Reassessment normally occurs when ownership changes.
 - (2) These overlapping rates are in addition to the County General rate, but only apply to taxpayers within the borders of the school districts, local special districts, cities, and public utilities that lie within the County.
 - (3) No rate was available for Public Utility in FY 2014-15.
 - (4) The schedule is presented to show information for 10 years. However, a full 10-year trend is not currently available; the County will be adding years in the future.

Notes:

- (1) Details regarding the County's outstanding debt can be found in Note 10, Long-Term Obligations.
- (2) Redevelopment Bonds are no longer County debt due to the dissolution of Redevelopment Agency on February 1, 2012. Details regarding the Redevelopment Bonds can be found in Note 11, Conduit Debt Obligations and Successor Agency Debt.
- (3) Capital lease obligations arise from lease agreements which are in-substance like purchases. The agreements convey property rights to the lessee and the lessee assumes substantially all the risks and benefits of ownership.
- (4) See demographic and economic statistics schedule for personal income and population data. For years prior to FY 2012-13, the personal income ratio and the debt per capita amounts were calculated using personal income and population from the prior fiscal year.
- (5) Beginning FY 2012-13, outstanding debt does not include Interest Accretion on capital appreciation bonds (CAB), this was separated and numbers were restated.
- (6) Beginning FY 2013-14, outstanding debt does not include deferred amount on refunding due to implementation of GASB Statement No. 65. Prior years have not been restated.
- (7) Lease Revenue bonds and Airport Revenue bonds include unamortized premiums and discounts.

Note:

- (1) Starting from FY 2007-08, Assessed Value includes for the State assessed properties.
- (2) The amount of the general obligation bonded indebtedness the County can incur is limited by law to 1.25 percent of the equalized assessment property tax roll. In order for the County to issue general obligation bonds secured by ad valorem taxes on real property, California Constitution Article XIII A, section 1 requires the approval of 2/3 of the voting on the proposition.

Notes: (1) Details regarding the County's outstanding debt can be found in the notes to the financial statements. Operating expenses do not include interest, depreciation or amortization expenses.
(2) For FY 2008-09, there is a deficit balance for Net Available Revenue due to additional expenditures resulting from the establishment of the Teeter tax loss reserves in the Tax Loss Reserve Agency Fund during the first year of the program.
(3) Teeter Plan Notes were converted from short-term commercial paper to long-term note in FY 2012-13, therefore, only long-term note information is presented.
(4) For FY 2014-15, there is a deficit balance for Net Available Revenue due to the change in Teeter Plan Reserve methodology.
